BY COACH TO THE LEHIGH STATION.

New Service Was Inaugurated Yesterday Afternoon

UPTODATE AND FIRST-CLASS

RAILROAD COMPANY GAVE A DINNER AT THE KENSINGTON.

One Bona Fide Passenger on the First Trip, Which Was Made in Twenty-two Minutes From City Ticket Office to South Plainfield Station—The Regular Trips Commenced This Morning.

The Lehigh Valley Railroad Company have at last done the next best thing to locating their road in this city, where Plainfielders could have the benefit of their excellent service, and have established a first-class, up-to-date service between this city and South Plainfield whereby people can conveniently and quickly reach their station and connect with through express trains to the west. A fine omnibus, with a stylish team of horses, have been contracted for by the company and the initial trip was made yesterday noon from the city ticket office at Frank Bowley's drug store.

The start was made at 12:07, and in twenty-two minutes from that time the omnibus reached the South Plainfield station, where in a few minutes the "Black Diamond Express," considered to be one of the finest trains in the world, came rolling into the station, and after taking on one passenger, who happened to be the first one to ride over from this city, started on its famous run to Buffalo.

Those who were guests on the first ride to South Plainfield included Mayor George W. Rockfellow; B. F. Hardesty, of Roselle, general advertising agent; H. H. Kingston, Jr., traveling passenger agent, and F. E. Hammann, chief clerk of the passenger department of the Lehigh Valley Railroad; Frank Bowley, the city ticket agent; Walter C. Dobbins, of The Daily Press; B. F. Harris, of the firm of TenEyck & Harris, the firm who has the contract for running the stage for the company, and Clayton Slaughter, of the J. E. Linde Paper Company, of New York, who was a passenger going to Easton, Pa.

The dubious weather had no effect on the opening event and everything passed off satisfactorily. Everyone was delighted with the quick trip made and the comfortable riding afforded in the handsome omnibus. As it passed through Front street, Park avenue, Ninth street, Central avenue, Stelle avenue, Plainfield avenue, and thence to the South Plainfield station, there were many eyes on the turnout. On the return trip another passenger was brought over, and the trip was made in good time.

Upon reaching this city the party went to the Hotel Kensington, where a fine dinner was served. Those present were the guests of the Lehigh Valley Railroad and the cordiality and good feeling evidenced was a feature. The gathering seemed to bring all in close touch to the company who have thus so generously shown their willingness and desire to serve the people of this city. Everyone voted the opening a grand success and all the success possible was wished the company in their efforts. While there was no speech-making at the dinner there was congratulations on every hand.

Those who were present at the dinner were Mayors George W. Rockfellow and Newton B. Smalley, Frank Bowley, B. F. Harris, J. F. TenEyck, B. F. Hardesty, H. H. Kingston, Jr., F. E. Hammann, Dr Pocock, W. W. St. John and Walter C. Dobbins.

Commencing with this morning the omnibus began making regular trips according to the schedule already published. Messrs. TenEyck and Harris have purchased a fine team of young horses for the omnibus, and expect to put them into service in about ten days. In the meantime they are using a team of grays. The local ticket office is now opened and tickets can be purchased for all through trains, and baggage checked. For passengers going to Easton or any point this side a charge of 25 cents will be made to ride to South Plainfield. For points beyond no charge will be made.

Cheered Dewey's Brave Boys.

About seventy-five officers and "Jackies" from Admiral Dewey's famous warship, Olympia, passed through Plainfield Monday morning southbound. It was not known exactly where they were going, but it is presumed that they were being transferred to some other ship. They were not many at the station at the time, but the few present gave the jolly sailor boys a welcome.

—A meeting of Unity Lodge, Knights of Pythias, will be held this evening.

PRANKS OF SMALL BOYS.

HALLOW'EEN FESTIVITIES WERE IN ORDER LAST NIGHT.

Regular Policemen Were on Duty an Hour Earlier Than Usual, But There Was no Cause for Arrests for Mischief.

Last night was Hallow 'een but the steady downpour of rain prevented the usual observance of the occasion by the host of small boys of the city. There was a small crowd out during the evening but the rain was rather dampening to most of the spirits who find Hallow 'een the opportunity for a variety of pranks.

The police usually prepare for the occasion by adding a number of extra men on the force to preserve order. Last night Chief Grant thought that the rain would serve the purpose better than a whole army of special officers. The regular policemen went on duty at 6 instead of 7 o'clock, however, as most of the pranks are performed in the twilight before 7 o'clock.

There is usually a whole string of complaints from indignant householders whose gates, piazza chairs and other property have been hidden away, but this year Chief Grant never heard of a single case of mischief.

There were a few of the celebrators abroad. A party visited the News office and chalked in great red letters on the doors and windows, "In Bryan We Trust." Other places in the business section of town were similarly decorated. A few other harmless pranks were noted in various sections of the city and borough.

"THE PILGRIM'S PROGRESS."

Bunyon's Ministerial Successor Delivered an Interesting History of the Great Religious Author.

The severe storm of last evening prevented a large attendance at the Congregational church, where an interesting lecture on John Bunyon was delivered by Bunyon's successor, Rev. John Brown, D. D., of Bedford, England. Previous to the lecture Rev. Dr. Snodgrass, pastor of the First M. E. church, a friend of Dr. Brown, gave his impressions of the lecturer's thorough knowledge of the life work of the celebrated author.

Dr. Brown proved to be a most entertaining speaker and gave the audience to understand that what had been said of him was clearly borne out by his graphic account of the life of the truly great man of whom he spoke. Bunyon, who was born in 1628, he said, was like Dante, Milton and Shakespeare, a man of great genius and was looked upon as one of God's great gifts to the world, and for his having lived in it the world was made the richer.

"The Pilgrim's Progress" was written after he served for three years and a half as a soldier in a garrison and was a description of his own experience.

Dr. Brown then referred to the parentage of Bunyon, which was considered somewhat doubtful, although it is well known that he was of humble origin. He referred also to Bonyan's marriage, which had been entered into without the necessary preparation as regards this world's goods, that is nowadays considered necessary. But love without dishes and spoons, he said, was far better than dishes and spoons without love. He believed that the central hope for the Christian church rested in the Christian family, which can do so much for the church.

Baptist Anniversaries at Newark.

At the New Jersey Baptist Anniversaries in session this week at the Peddie Memorial church, Newark, Rev. J. W. Richardson, of the Park Avenue Baptist church, this city, delivered an address yesterday afternoon before the Education Society on "The Relation of the Pastor to the Sunday-school and Young People's Work," and Rev. Dr Yerkes, of the First Baptist church, of this city, took part in the afternoon's discussion. Among the other delegates from this city were Mr. and Mrs. Reuben Knox, Mrs. William White, Mrs. B. J. Shreves, Dr. Harvey Buchanan, Francis E. Marsh, Mr. Runyon and Calvin Boice.

Medals for Volunteers.

Captain F. F. McCarty, of Elizabeth, requests all members of the Third Regiment, New Jersey Volunteers, who were in the Spanish-American War, to be present at the Armory in Elizabeth Thursday evening at 8:30 o'clock to receive the medals to be issued to the members of that regiment.

Entertained Their Friends.

In honor of their recent marriage Mr. and Mrs. Adolph Borhen, of Greenbrook road, entertained a number of friends at their home last evening. There were many social features and a bountiful supper was served during the evening.

Miss Viola Keeney, of Jersey City, is visiting relatives on Netherwood avenue.

PRESENT SITUATION IN UNION COUNTY.

Republicans Claim That They Will Elect Entire Ticket.

THE DEMOCRATS DIFFER.

THEY EXPECT TO GET CLERK AND ONE ASSEMBLYMAN.

Hope To Elect Others — Plainfield Is Quiet—Renewed Energy By Democratic Association Makes Increased Interest In The Election — Complimentary Votes For Local Candidates.

With the election less than a week away, Plainfield is comparatively quiet. The Republican machine is ready without any hustling to turn out the usual overwhelming Republican majority when the time comes. The Democrats are just on their feet again after several years of lethargy and declare that they will make a strong fight for the coming election and try to reduce that Republican majority somewhat.

Of course, a Democratic victory in Plainfield on a county or state election is not a thing that even the most ardent Democratic workers expect. If they can manage to lower that sizable majority that the Republicans usually roll up, they will be satisfied.

There are practically no special issues to be brought forward in Union county during the campaign. The personality of the candidates and the different party views will decide the vote.

The Republican leaders are confident that the entire ticket will be elected. Some parts of it may fall a little below the average in different parts of the county, but they believe that the general average will be more than sufficient to carry the Republican ticket in its entirety through to victory.

While the Democrats are hoping for the best, they realize that there is a Republican majority of 2,000 to be overcome. The Democratic leaders claim that William M. Oliver, their candidate for County Clerk, will assuredly be elected. They claim one Assemblyman, and state that the chances are good of carrying more of the ticket.

The Democrats say that there will be no trading this year but that the fight will be made for the entire ticket through the county.

In Plainfield it is naturally expected that J. H. Hillman, the Democratic candidate for Senator, will run ahead of his ticket, particularly in the Third and Fourth wards where he has a large number of friends. The Republican local machine is confident of getting out the usual vote for the Republicans while Charles S. Foote, one of the Republican nominees for the Assembly, will have a complimentary vote in the Second and possibly Third wards.

The fact that there is prospect of some organized opposition to the G. O. P. machine lends more than the usual interest to the coming election.

SURPRISED ON HER BIRTHDAY.

Miss Alice Higgins Enters the Last Year of Her Teens.

A surprise birthday party was tendered to Miss Alice Higgins, of West Front street, Monday evening, it being the anniversary of her nineteenth birthday. The affair was arranged by Mrs. Higgins, her mother, and Miss Edith Hulburt. There were about thirty young people present including several from Rahway, Bound Brook, Somerville, Westfield and Plainfield. During the evening there were vocal and instrumental solos by Miss Hulburt, Miss Lou Crosson, and phonograph selections were given under the direction of Miss Pearl Kinsey. Another form of amusement was the playing of games. At midnight refreshments were served after which the guests left for home. Miss Higgins received a great many presents from her friends as tokens of esteem.

A Flexible Auger.

Patrick Kane, the contractor, has purchased one of Wrigley's flexible augers, a contrivance recently invented for the purpose of cleaning waste pipes and sewers. If the auger is found to be practicable it will be used by the city authorities to remove foreign substances from the sewers and will do away with the custom of tearing up the streets when it is necessary to clean a sewer. The auger is an ingenious device, composed of a spiral spring with a cork-screw attachment at the end.

Trimmed Hats.

Mrs. L. Adams, the East Front street milliner, has a new line of ladies' and children's trimmed hats for the very low price of $1 and upwards.

—Press want ads bring results.

CHECKS WERE "N G."

Young Man Passed Them on Friends Who Placed Implicit Confidence in His Honesty.

The disappearance of Harry Ulrick, of this city, which occurred about the middle of last month, has been an occasion for some uneasiness on the part of some of his friends. He was employed at the store of the Atlantic and Pacific Tea Company, West Front street.

It is stated that he gave out a number of checks for small amounts and received their value before he left. Some of the checks were presented to the City National Bank for payment. There the holders were informed that Mr. Ulrick had no money.

It appears that the holders of the checks were all friends of Mr. Ulrick, who put confidence in him. It is believed, however, that Mr. Ulrick's folks will make good the several amounts so that those holding checks will not be out anything.

It is understood that Mr. Ulrick has gone to California where he will remain.

CHICKEN THIEF SENTENCED.

Fred Myers Will Have to Serve One Year and Nine Months in the State Prison.

(Special to The Daily Press.)

Somerville, November 1.—In the Somerset County Court today Frederick Myers, of Franklin township, who was indicted and convicted of stealing chickens, was sentenced to one year and nine months in State Prison. This is the heaviest penalty ever imposed in the county on a chicken thief, but as Myers is supposed to have stolen nearly 1,200 fowls before he was arrested and the judge decided that his offense was greater than any other chicken thief ever before arraigned in the court. George Stringer, who stole a bicycle from the Y. M. C. A. in this place, was sentenced to four months in the county jail. The jurors were all released until December 18th, when the trial of Mrs. Catherine Fingerhuth, for the murder of Paul Roehricht, of New York, will be taken up.

At the Bottom of the Bay It Was.

Miss May E. Howlett, of Elwood place, received a letter this morning that was among the mail on the Pennsylvania Railroad ferry-boat "Chicago" that was sunk yesterday morning in the North river. The letter was minus a postage stamp, and was not sealed. It showed that it had been thoroughly soaked. Inside was a note from Postmaster VanCott, of New York, stating briefly the circumstances in connection with the accident to the ferry-boat.

Popular Young Couple Wedded.

John Baker Peney and Miss Hannah Dayton, two very popular young people of South Plainfield, were united in marriage this morning by Rev. J. W. Richardson, pastor of the Park Avenue Baptist church, at the parsonage. The bride and groom were unattended, and after the ceremony they returned to South Plainfield, where they will reside

Wants to Recover $200 Note.

Harry Held, a wholesale liquor dealer of Pearl street, New York, has brought an action in Justice Smalley's court in North Plainfield, to recover the sum of $200 on a note given by Richard O'Conner, a hotel keeper at Bound Brook. The summons is returnable November 9. McClure & Meenan of this city represent the plaintiff.

To Determine Ownership.

The trial of the right of property before Judge Vail and a jury at Elizabeth today was adjourned for a week. Mrs. Ann Gwynette, who claims certain property held under a foreclosure, is represented by Codington and Swackhamer. William Newcorn is the attorney for Mossom & Company, the other party in the suit.

A Hallow'een Party.

A Hallow'een party was given last evening to Miss Katie Reigel, of Netherwood avenue. It was arranged by her sister, Miss Libby Reigel, and was a pleasant affair. A stage-load of friends came from Elizabeth, and there were also guests present from this city, Bound Brook and other nearby places.

Episcopal Rector Resigns.

Rev. R. E. Pendleton, who succeeded Rev. E. H. True as rector of All Saints' Episcopal church in Fanwood, has resigned to accept a call at Middletown, Conn. The Scotch Plains church is therefore without a rector

Mr. Bergen in the Borough.

This evening J. J. Bergen, the candidate for State Senator from Somerset county, will meet his friends in the borough. He will be at the old Democratic headquarters on Somerset street.

—During the first week in December a fair will be held in Vincent chapel under the auspices of the Ladies' Aid Society of the First M. E. church.

NOTABLE OCCASION FOR THE DEMOCRATS

Friday Night's Reception Will be of Great Interest.

TO BE PURELY INFORMAL.

UNION AND SOMERSET CANDIDATES TO BE THERE.

Many Other Prominent Democrats are Also Expected to be Present—No Set Speeches Will be Arranged for, Although There May be Remarks Made by Some of Those Who are on Hand.

The new Democratic city executive committee realizes that owing to the short period between the time of their organization and the election next Tuesday, it will be impossible to perfect plans for a thorough and aggressive campaign in all essential details of political management, but notwithstanding this handicap the members have undertaken to do as much as it is possible for them to do. Along this line of action the reception to the Democratic candidates of Union county has been arranged for Friday night in the Ulrick building on East Second street. The occasion will be made an informal one, during which all the candidates, with possibly the exception of Jacob Glaser, the nominee for Sheriff, who is sick, will be in the parlors of the Ulrich building to meet all who call during the evening. It is the desire of the city executive committee that not only Democrats but that citizens at large shall call and be made welcome that evening.

There will be no set speeches for the affair, though it is likely that for a few minutes during the evening brief remarks will be made by some of those whose oratorical and argumentative qualifications are good. So far as possible, however, the affair will be carried out so that those who call may stay as long as they want, indulge in the political and social chat that prevails, and leave without feeling that they are causing an interruption by so doing.

In addition to the candidates from Union county, it is intended to have Hon. James J. Bergen, Somerset's Senatorial aspirant, also present, as well as L. S. DuFour, the Somerset Assembly candidate. North Plainfielders will therefore have an interest in the reception and will be made as welcome as those who vote in Union county.

Beside the candidates it is expected that a number of prominent Democrats from various parts of Union and Somerset counties will add interest and prominence to the affair by attending. William B. Gourley, chairman of the Democratic state committee, has been invited and may be there. A good-sized delegation of Elizabeth politicans are coming up, and altogether the occasion will probably be the most notable in local Democratic ranks in sometime.

MRS. CASH DEAD.

Wife of the Patrolman Passed Away Last Night—Funeral is Friday.

Mrs. Margaret Cash, wife of Patrolman Cash, of South avenue, died at her home last evening after a month's illness. Pneumonia was the cause. She had been ill since October 3d and her life was several times despaired of, but she managed to pull through. Yesterday she began to fail rapidly and passed away during the evening.

Mrs. Cash was born in Ireland forty-three years ago. She was married in 1888 to Jeremiah Cash, and has since resided in this city. She leaves one daughter.

The funeral will be held from the home on South avenue Friday morning at 8 o'clock, and from St. Mary's church an hour later.

Oil Stove Was Upset.

Last Monday evening at the home of Charles H. Smith, on Grove street, there occurred a fire which called out the fire department in response to an alarm sent in from Box No. 151, near the Park Clubhouse. The fire was caused by an upset oil stove in Mr. Smith's room. His boys were playing marbles in the room, when a marble rolled under the stove. One of the boys in attempting to get the marble upset the stove and this set fire to the carpet. By the time the department arrived the stove had been thrown out of doors, and two extinguishers put out the flames. The damage will amount to about $50. Mr. Smith was so gratified with the quick response of the firemen and their excellent work that he sent a personal letter to Chief Geo. Fairchild thanking him and his men.

—Press want ads pay.

—The Union Gospel meeting, as usual, in the W. C. T. U. rooms every Thursday evening at 8 o'clock.

PRETTY HOME WEDDING

EDITH A. RANDOLPH BECOMES THE WIFE OF IRVING W. QUEREAU.

Ceremony Performed at the Bride's Home—Wedding Trip to the South—On Their Return They Will Reside in New York.

(Special to The Daily Press.)

Scotch Plains, November 1.—The home of Mr. and Mrs. George W. Randolph was the scene yesterday afternoon of one of the prettiest home weddings of the season when their daughter, Edith A., became the bride of Irving W. Quereau, of New York. Only the immediate families and relatives of the happy couple witnessed the solemn vows which were administered by Rev. Floyd Appleton, curate of Grace church, Plainfield. The bride and groom were unattended during the ceremony, walking to their place under a canopy of white and green, erected in the parlor, to the strains of the Lochengren wedding march played by Miss Lillian Nichol, cousin of the bride. The beautiful Episcopal marriage service was used.

About 6 o'clock they left amid a shower of rice for Plainfield where they took the evening express for Washington where they will spend their honeymoon. Upon their homeward trip they will stop off at Philadelphia to the exposition for several days, after which they will begin housekeeping in New York City, where the groom has a lucrative position.

The house decorations, which were arranged by the bride, were white and green in the parlor and music room, while in dining room a pleasant scene of white and pink was effected.

The bride's dress was a beautiful white brocaded silk, while the bridal veil was held back by clusters of orange blossoms.

The bride and groom take with them them through life the best wishes of their many faiends, who console themselve with the thought that while the happy groom has gained a loving helpmate, Scotch Plains has lost a most estimable young woman.

BUSY SEASON AT SCOTT'S.

Numerous Printing Machines Put Up In Various Cities About The Country.

This has been a very busy season for the Walter Scott Printing Machine Works, and there is plenty of work on hand. The popularity of the presses made at this establishment is increasing each year, and at present a number of machines are being erected in various parts of the country. William Newmiller is in Kansas City erecting two three-tier web machines, and Edward Schierbaitz is in Louisville, Ky., erecting one three-tier web machine. George E. Bedford is erecting two three-tier web machines in Cleveland, O., and A. J. Compton is in Chicago and Joliet erecting five two-revolution presses. In Boston William Vann is putting up a stop cylinder and two revolution presses. William Patterson is located in New York erecting lithographic presses, while E. W. Swindell is in St. Louis erecting two two-revolution presses.

For the Paris Exposition.

A complete circular, giving prices, etc., of the 1900 tours to the Paris Exposition and other parts of Europe, has been issued by Mr. A. V. D. Honeyman, of 181 North avenue, and may be had by calling for the same, or upon postal card request. There are ten tours specified between May 3d and September, and they cover almost all parts of Europe, extending into Northern Scotland and the interior of Norway, and also into Germany, Switzerland and Italy, all of them, however, including the Exposition. Those of our readers who think of going to Paris should secure a circular. It is stated that there will be no steamer accommodations to Europe for next year, after January 1st.

Visiting His Brother.

Rev. D. J. Edwards, D. D., pastor of the American Congregational church, at Leipsic, Germany, arrived in Plainfield Monday and is visiting at the home of his brother, Maze Edwards, in the Jackson building. Rev. Mr. Edwards is on his way to the Clifton Springs, Sanitarium, N. Y., where he hopes to regain his health, impaired by too close application to his work in the ministry.

Plainfielder at Zeta Psi.

Israel C. Pierson, of Watchung avenue, was one of the guests at the annual fall initiation of the Psi Chapter of the Zeta Psi Fraternity, of New York University, held Monday night at University Heights, N. Y. Mr. Pierson responded to the toast, "The Psi Chapter."

Storm Caused Lights to Go Out.

The storm last evening played havoc with electric light wires in the borough and for a time a number of lights were out on the east side of the borough.

BERGEN IS MAKING PERSONAL CANVASS.

Democrats Will Make Biggest Fight for Senator.

CANDIDATE HERE TONIGHT.

WILL SPEND TWO DAYS IN BERNARDS AND BEDMINISTER.

Democrats of Somerset are Hoping That Split in Republican Party Will be Means of Giving Them Victory—DuFour Will be Traded, It is Said, to Gain Votes for the Senatorship.

The coming election in Somerset county promises to be a hard fought one. A Senator and an Assemblyman will be elected. The fight will be for the Senator, which will be a lively contest, but it is practically a foregone conclusion that Assemblyman E. E. Cooper, the Republican nominee, will be elected. The Republican leaders claim that he will poll far more than the usual Republican plurality, while the Democrats admit that he will probably win.

The efforts of the Democratic workers will be devoted toward electing Hon. J. J. Bergen to the Senatorial position. There is some opposition in the party, but the leaders are hoping that Senator Reed's loss in his own party will enable them to elect their candidate by a small plurality. There is a natural Republican plurality to buck against, and the fight is going to be an up-hill one for Bergen and his Democratic adherants.

Mr. Bergen has planned as aggressive a campaign as is possible. Tonight he will be in North Plainfield and will meet the borough voters in the old Democratic headquarters on Somerset street. The room is a small one and there will be no speaking. It will be an informal reception and the voters will be invited to meet Mr. Bergen there during the evening.

During the latter part of the week, Mr. Bergen has planned a two day's personal canvass in Bernards and Bedminster townships. He will drive over from Somerville and meet as many of the voters of that district as possible.

In Somerville the Democrats are using every effort to keep alive the bitterness between the two factions of the Republican party. The Republican leaders claim that it has almost entirely disappeared but their opponents are counting on that and Mr. Bergen's large personal acquaintance there to give him a big vote over Senator Reed.

It is probable that L. S. DuFour, the Democratic Assembly candidate, will be traded largely for Reed, as the Democratic fight is for Senator. Where possible, however, they are likely to push the whole ticket.

MISSIONARY RALLY.

Interesting Service by the King's Messengers of the Presbyterian Church.

An interesting service was held Monday afternoon in the chapel of the First Presbyterian church under the "King's Messengers," a mission band of that church. The meeting was in charge of Bertha Engelhardt, president of the band.

The following programme was rendered: Piano solo, "The Chimes of Trinity," Maude Wilcox, of Dunellen; recitation, "For Our Sake," Mary Cain; solo, "That Sweet Story of Old," Mrs. Samuel Case; recitation, "A Little Herald," Bertha Townley; piano solo, "Christmas Bells," Eva Kelly; recitation, "A Voice From the Sandwich Islands," Ida Engelhardt.

Mrs. Milliken then gave an address on what had been accomplished in by missionary effort in the Sandwich Islands in the space of eighty years, showing how in that short time, comparatively speaking, a people had been rescued from Heathenism, and are today a living sermon from the text, "What Hath God Wrought?" During the address photographs and curiosities were exhibited, which added greatly to the interest in our recently-acquired territory which the remarks of the speaker had aroused.

Visitors were present from the Presbyterian church, of Dunellen, and the Crescent Avenue church, of this city.

City Mills New Proprietor.

Daniel Snyder & Sons, the new proprietors of the City Mills, took possession today, and their advertisement will be found in today's paper. This new firm is experienced in their business, and they intend to sell only the best goods at prices consistent with good goods. They will make a specialty of every-ready flour and buckwheat. They will also keep a full stock of flour, meal, feed, hay and cereals, and will sell wholesale and retail. They invite a share of the public's patronage.

LIKES THE PORTO RICANS

Gen. Davis Says They Give Him Their Support and Co-operation.

HAS A DIFFICULT TASK.

He Does Not Believe the Island is Ready at This Time For Territorial Autonomy.

Many Changes Must be Made Before The Islanders Can be Left to Govern Themselves—Only a Small Percentage of The Natives Can Read And Write.

Washington, Nov. 1.—The annual report of Brig.-Gen. George W. Davis, commanding the Department of Porto Rico, has been received at the War Department and made public. Gen. Davis briefly discusses the important events under his administration of the island as Military Governor. He refers particularly to his reorganization of the department affairs of Porto Rico and speaking of the judiciary remarks:

"From the very dilatory and unsatisfactory manner in which the local courts conducted the numerous criminal cases which came before them, it was evident that in order to facilitate the administration of justice and punishment of crime it was necessary to modify the judicial system."

He says that the administration of civil affairs by a Governor-General and an "insular cabinet" as provided by Spanish rule was unsatisfactory.

He says: "My period of command has been just three months, long enough only to permit me to learn something of the condition of the inhabitants, their manners, customs, laws and institutions. I do not feel able now to indicate any date or time when territorial autonomy may be implanted and the people left to regulate their own affairs. Experience only can be relied on for the data to warrant an opinion. There are many changes in the methods of administration and in judicial procedure that must be made and reforms matured before the inhabitants of Porto Rico should be vested with the powers and responsibilities of self-government.

"Now but a small part of the inhabitants can read and write. Some estimate the ratio as low as from ten to fifteen per cent. As respects illiteracy the proportion here cannot be materially different from what it was among the native New Mexicans when that territory was annexed to the United States in 1847. Although half a century has elapsed since Gen. George Kearney promulgated a civil code for New Mexico and a territorial Government was authorized in 1850, this territory has not yet secured from Congress a recognition of its capacity for State government.

"I am happy to say that so far the people of the island have given me, as they have my predecessors, their most cordial support and co-operation, and although the task is, of necessity, a difficult one, to implant an American growth upon a stock of most ancient origin, the progress effected in the year of American occupancy encourages the hope that the belief that the final result will be successful."

Gen. Davis calls attention to his circular issued Aug. 15, regarding reforms in the island. In this circular Gen. Davis announced the policy of the United States with reference to the island and the form of government proposed until Congress should make laws for the government of the people of Porto Rico.

Treasury Mail Was Lost.

Washington, Nov. 1.—The Treasury Department has received information that all of the treasury mail which left here Monday evening at 4 o'clock for the sub-treasury at New York was lost on the ferryboat Chicago. It is expected that practically all of the letters, warrants and drafts will be found on recovery to be decipherable, and in that event little delay will be experienced in sending duplicates. No money was sent in that mail.

Are Not All For Secrecy.

Washington, Nov. 1.—The Philippine Commission is not unanimous on the subject of keeping its proceedings absolutely secret. This matter came up Tuesday and it was finally agreed to visit the President and take his advice. At least one influential member of the committee believes that no harm can come from giving a reasonable publicity to the acts of the commission.

Must Help Pay War Tax.

Washington, Nov. 1.—Commissioner Wilson of the internal revenue bureau, has held that an express company which buys or sells foreign money or exchange is subject to the special tax of $50 a year, as a broker, for each office at which it transacts such business.

Another Victim of Kentucky Feud.

Manchester, Ky., Nov. 1.—Another murder is reported, growing out of the Philpot-Griffin feud. Mark Hall, a renter, living on George Philpot's farm, was shot and killed. Hall did not belong to the feud, and it is believed he was mistaken for one of the Philpots.

Rich Yale Graduate Suicides.

New Haven, Conn., Nov. 1.—Dwight W. Bissell, of North Stonington, a wealthy Yale graduate, has killed himself at the New Haven House. He was the son of Lemuel Bissell, a famous missionary in India. No reason is known for his act.

Death of Baron Hylton.

London, Nov. 1.—Baron Hylton (Headworth Hylton Jolliffe), formerly of the Coldstream Guards, is dead here. He was born June 23, 1829 and he was created a baron in 1866.

Duke's Nephews Going to The Front.

London, Nov. 1.—Eleven nephews of the Duke of Abercorn are going to the front with the British troops in South Africa.

UNDER MILITARY CONTROL.

Hawaiians Excited Over an Announcement From Washington.

Port Townsend, Wash., Nov. 1.—According to advices brought from Honolulu by the steamship Eliuh Thomson, residents of the Hawaiian Islands are in a great state of excitemnt over the receipt of a letter from Assistant Secrtary of the Treasury Vanderlip, who says that the customs department of the Hawaiian Islands is under the control of the War Department. The letter was in reply to an application for a position in the customs service by a resident of Honolulu.

It is said that that is the first intimation the authorities on the island have received that the customs department has been transferred to military control, and when shown the letter, Harold M. Sewall, special agent of the United States government, and the other govrnment representatives expressed the belief that the secretary had got the Hawaiin Islands confused with Porto Rico, Cuba and other conquered territory.

Major Mills, in command of two battalions of the Sixth Artillery stationed at Honolulu, disclaims any knowledge of the new regime. In relation to the above, a report is in circulation in Honolulu that the present officers of the local government are to be removed by President McKinley and new appointments made immediately, but both President Dole and Special Agent Sewall deny having any knowledge of a contemplated change.

Swiss Councillor Ruffy's New Post.

Berne, Nov. 1.—President Eugene Ruffy of the Federal Council, the President of Switzerland last year, has retired from the Government. He has been appointed Director of the International Postal Bureau.

RETIRES FROM PUBLIC LIFE.

Mr. Hobart's Family Says He Will Not Return to Washington.

Paterson, N. J., Nov. 1.—In effect, there is to-day no Vice President of the United States. The official title survives with the life of Garret A. Hobart. But the duties of that office will never again be performed by him. Such is the national significance of the following excerpt from a statement authorized at the home where the Vice President lies at the point of death, although his life may be indefinately prolonged:

"His family desires to announce that Mr. Hobart will not return to Washington and he will not take part again in public affairs."

It is an announcement meaning in this city that its most distinguished resident has withdrawn from the battle of life.

To the outside world it means that President McKinley is deprived of the companionship of a trusted friend and of the aid of a wise counselor.

Mr. Hobart's condition is practically unchanged.

General Tracy Wept.

New York, Nov. 1.—General Benjamin F. Tracy took the stand in the Mazet inquiry Tuesday afternoon, and tears rolled down his cheeks as he told how he came to be connected as president with the Ramapo Company. In the course of his testimony General Tracy had to refer in one instance to the fire in Washington in which his wife and daughter were killed, and it was at this point in the proceedings where he lost control of his emotions and broke down and sobbed like a child. His nervous condition brought about by memories of the sad event in Washington won the sympathy of everyone present and came near putting an end to the investigation for the day.

New Religious Body Organized.

Anderson, Ind., Nov. 1.—Articles of incorporation of the Central Indiana Conference of Gospel Workers, an entirely new religious body, having its birth in this county, have been filed in this city. The purpose is to save souls, organize congregations and erect churches all through Central Indiana, which will be its operating ground to gain a footing.

Boy Shocked to Death.

Brooklyn, N. Y., Nov. 1.—A live wire blown down by the storm of Tuesday night wrapped around a 17-year-old lad who was walking along the street, killing him almost instantly. A policeman who tried to pull the boy out of the tangle of wire was shocked into insensibility. Several others were injured by the broken wire.

Yacht Captain Drowned.

New London, Conn., Nov. 1.—Captain James Crandall, aged 70, while fishing at the mouth of the harbor was run into by the schooner Wandrian and drowned. Crandall was sailing master of the yacht Fleetwing when it raced against the Sappho and Dauntless across the ocean.

Storm Damages Shipping.

New York, Nov. 1.—Reports from along the southern coast are to the effect that the storms that have swept that section for the past three days have done great damage to shipping, but so far as known no lives have been lost.

Carnegie Aids Woman's Club.

Denison, Tex., Nov. 1.—Andrew Carnegie has sent a check for $17,000 to the ladies of the X. X. I. of this city to pay the indebtedness on their building, the first women's club building erected in the state of Texas.

Two Burned to Death.

Guthrie, Ok. T., Nov. 1.—Near Poteau, I. T., as James M. McCullough was engaged in making sorghum his two small children accidentally fell into the large vat of boiling molasses and were burned to death.

Rescued by Life Savers.

Long Branch, N. J., Nov. 1.—The life saving crew of the Galilee station has succeeded in rescuing the crew from the big barge which was blown onto the bar off this place Tuesday evening.

German Ship Leaking.

Plymouth, Eng., Nov. 1.—The German ship Landseer, Capt. Steuer, from New York, Sept. 30, for Havre, has put in here in a leaky condition. She has sixteen feet of water in her hold.

Notice to Taxpayers.

Notice is hereby given to the tax payers of the City of Plainfield, that the taxes assessed in said City for the year 1899 are now due and payable, and that if said Taxes be not paid by November 20th next the names of the defaulters, with their respective taxes, will be returned to the City Judge for prosecution.

The Commissioners of Appeal in cases of taxation in and for said city, will meet at the Council Chamber, No. 109 Park avenue, Plainfield, N. J., on the fourth Tuesday of October next, (Oct. 24, 1899), at 2 p. m., to hear complaints relating to assessments.

It Kills Disease

Radam's Microbe Killer will stay the ravages of Consumption, stop the pains of Rheumatism, allay the itchings of Eczema, prevent the wasting in Bright's Disease, neutralize the gnawings of Dyspepsia, sweeten the foulest stomach and bring back a normal appetite to the suffering patient. The above are only a few of the many germ diseases; this remedy surely conquers these, and health is again restored.

Radam's Microbe Killer

is an antiseptic, contains no injurious drugs, destroys all bacteria, and is healthful in the highest degree. No decay or fermentation can develop where the Microbe Killer is present. Thousands once pronounced incurable, have regained health and strength by ridding their bodies of all disease germs.

If you are sick, this remedy should be taken immediately. Don't defer the trial until there is no hope. Write us for free book containing testimonials and advice at once.

Large Bottles, $1. Gallon Jugs, $3.

GEN. WHITE'S DISASTER

He Assumes Personal Responsibility for British Defeat at Ladysmith.

2,000 MEN ARE CAPTURED

The Vanquished British Troops Ask For Assistance to Bury Their Dead Comrades.

The Irish Fusileers Are Among The Captured Troops—Caught in a Trap Laid For Them by The Boers—Another Battle Has Been Fought Near Ladysmith.

London, Nov. 1.—The disaster to the British forces under Gen. White at Ladysmith is the sole topic of conversation at the clubs here. People in the streets stop and discuss it to the exclusion of all other subjects. The general opinion seems to be that the reverse is a very serious one. It is also said that it shows that the British officer is no match for the Boers in strategy, and that the present war is like experiences of the early settlers in America with the Indians. The British officers apparently tumble headlong into ambuscades and traps cunningly devised by their wily foe.

There is a divergence of opinion in military circles as to whether General White had better withdraw from Ladysmith and fall back on Pietermaritzburg, the Capital of Natal, or act strictly on the defensive until he is relieved by Gen. Buller.

A despatch to the Central News from Ladysmith confirms the statement that the Irish Fusileers, the Gloucester Regiment and one battery were surrounded by the Boers and compelled to capitulate.

The Sun says: "There can be no doubt that the disaster is true, the British having once again fallen in the old Boer trap of luring an enemy among the Kopjes, then surrounding them and shooting from cover. Time after time have we been caught this way. The capture of the Hussars, which were in pursuit of the enemy after the battle of Glencoe, was effected in just this fashion, but our generals never seem to learn wisdom. Joubert laid the trap himself; his hand is plainly visible in the strategy."

The Star comments as follows: "The truth is we were outnumbered by what we must admit was a well equipped, cleverly handled enemy, so that White, in trying to defend Ladysmith, was attempting the impossible. The effect of this disaster will be very serious. White's little army has been decimated by a loss of more than one-tenth its full strength. We hope the War Office will let us know the worst at once.

"There seems grave reason to believe that we have never yet heard the whole truth about the disaster which befell our troops which were surrounded and cut off by the Boers at Dundee."

Shells Drop in Ladysmith.

London, Nov. 1.—Dispatches from Cape Town say that the Boers renewed the attack at Ladysmith and that shells have dropped in that town.

Another dispatch says the Boers are gathering in force at Dewdrop, south of Ladysmith, while others are advancing from the east over the Holpmokaar road. This indicates that they are trying to surround Ladysmith.

General Buller has landed in Cape Town and 6,000 fresh British troops are due there on Sunday. They will continue to arrive until 28,000 have landed.

The Boers are absolutely confident of their ultimate triumph and believe the whole of Natal already, practically, is in their hands.

White Takes the Blame.

London, Nov. 1.—All England is startled at news of the first severe defeat to the British. Gen. White, wiring from Ladysmith at midnight, reports as follows: "The column sent to guard the hill on our left flank, including the Royal Irish Fusiliers, the Tenth Mountain Battery and the Gloucester Regiment were surrounded in the hills and, after losing heavily, had to capitulate. The casualties have not yet been ascertained. A Boer orderly has come into our lines under a flag of truce with letters from the survivors of the captured column, asking for assistance to bury the dead. I fear there is no doubt of the truth of the report of the column's capture. I formed the plan in the working out of which the disaster occurred, and am alone responsible. The troops are not blameworthy, as their position was untenable."

Re-opened The Fire.

Ladysmith, Nov. 1.—The Boer guns reopened their firing and have kept up a shelling of the town. They used the big siege guns silenced Monday, which, it was hoped, had been permanently disabled. The situation is critical. Four hours after the British returned to Camp the Boers reoccupied all of their old positions.

White May Hold Out.

Durban, Natal, Nov. 1.—Gen. White wires that he is able to maintain his position. No attempt was made to carry Ladysmith by storm, the Boers contenting themselves by keeping up a heavy artillery fire during the day. Communication with Ladysmith is still maintained. The Boer reconnoitering party along the Tugela river is reported to have retired.

Fish Laws Violated In Alaska.

Seattle, Nov. 1.—The United States revenue cutter Perry has returned from a five months' cruise in Alaska. Captain Kilgrove says he found several flagrant violations of the fish laws and regulations on the part of certain cannery corporations. They are fenced in one particular stream, preventing the salmon from reaching their spawning grounds. The matter has been reported to the government.

THEY ROBBED THE BREWERY.

Masked Men Gag a Watchman And Rifle The Safe.

Newburg, N. Y., Nov. 1.—A daring robbery has been committed at the brewery of Charles Leicht in this city. A party of three men entered the office and attacked the night watchman, Hugh McCullom, who fought but was finally gagged and tied hand and foot to a chair. Then the robbers tapped the big safe in the office and blew open the door. More than $800 was obtained. While two of the men went through the safe one stood guard over the watchman, who could not move or utter a word. McCullom says the men were in the office over an hour. They rifled every drawer and letter in their hunt for booty.

The watchman extricated himself, after the thieves had been gone about ten minutes. He rushed to the telephone and found that the burglars had cut the wire before entering the office. The brewery is about two miles from Police Headquarters and McCullom ran the distance to give the alarm.

There is no clue to the men. It is believed by the police, however, that they are a gang of ex-convicts from Sing Sing prison.

THE SING SING FIRE.

Twenty-Eight Convicts Were Carried Out of the Hospital.

Sing Sing, Nov. 1.—For four hours and a half the fire was raging in Sing Sing Prison before it was under control.

Next to the bakery stood the new administration building. The first and second floors were used as chapels, the third as a hospital. The flames from the bakeshop caught on the cornice of the administration building. Before they could be extinguished the entire top had fallen in The upper part of the hospital building which adjoins the bakeshop, was gutted.

Twenty-eight sick convicts, who were in the hospital, were carried out by the firemen.

The guards and keepers at the penitentiary were organized, and began fighting the fire with the apparatus in the prison.

Word was telegraphed to Peekskill and Tarrytown, and engine companies were hastily dispatched from those towns. The Sing Sing Fire Department had been first to respond. They were reinforced by a number of volunteers from the village, who formed bucket brigades. The convicts in the main prison were at no time in danger and were kept locked in their cells. They were aroused by the excitement, however, and the news that the prison was burning quickly spread from cell to cell. Many of them pounded on their doors pleading to be released, but Warden Johnson declared he would not give the order until it was absolutely necessary to do so. The sick convicts were carried out of the hospital by the guards and firemen. There was plenty of time, and all of them got out in safety.

The cause of the fire is not known. The loss was $50,000. There was no insurance.

Mazet To Marry Again.

New York, Nov. 1.—Assemblyman Robert Mazet, chairman of the Legislative committee that has been devoting so much time to New York's municipal affairs, is to marry again. It has been announced, and Mr. Mazet has admitted the truth of the report, that he will, on November 11, marry Miss Elsie S. Moore, daughter of Commodore John W. Moore U. S. N., retired.

Fatal Tenement House Fire.

Norwalk, Conn., Nov. 1.—A fire occurred in Frank Merritt's three story tenement building in Whistleville district Tuesday. Mrs. Margaret Boyce, aged fifty-three, became insane from fright, ran to the roof and leaped to the sidewalk, a distance of fifty feet. She died soon after. A man, whose name is unknown, was badly burned fighting the flames.

Switch Crushed His Skull.

Cambridge, Ohio, Nov. 1.—While Conductor Isaac Davis was switching cars of the C. H. and D. Railway at the Walhonding mines, south of here, he attempted to throw a ball switch and before it was closed the passing car caused the switch to rebound, the ball striking the side of his head, crushing his skull. There is no hope for his recovery.

Five Victims of Typhoid Fever.

Circleville, Ohio, Nov. 1.—The remains of Edward Weakley have been interred here. He was another victim of typhoid fever, and is the fifth of the family of Harrison Weakley that has died within six weeks. Mrs. Weakley is slightly improved, though her condition is still precarious, while another daughter in Baltimore, Md., is at death's door.

Anti-Lyncher Lynched.

Boston, Nov. 1.—At a negro indignation meeting held in St. Paul's Church by the Lillian Clayton Jewett League, Miss Jewett read a letter from Mrs. Annie E. Nolan of Delta, S. C., saying that her husband, the Rev. John H. Nolan, pastor of the Methodist Church at that place, had been lynched for forming a Jewett Anti-Lynching Society in Delta.

Cutting Affray in Postoffice.

Anderson, Ind., Nov. 1.—A stabbing affray occurred Tuesday in the entrance to the postoffice here. Levi E. Stewart, of Bedford, is in the hospital, and Thomas Hughes, his assailant, who claims Louisville and Cincinnati his homes, is in jail. Stewart was cut in the thigh.

His Neck Was Broken.

Bellefontaine, Ohio, Nov. 1.—Joseph Woolard and John Smith, of near Lakeview, in an intoxicated condition when returning home from Huntsville, were precipitated from their buggy into a ditch. Woolard's neck was broken and Smith sustained probably fatal injuries.

Native Revolt In China.

Shanghai, Nov. 1.—The North China Daily News has a despatch from Chun-King, saying that a native revolt has broken out at Jen-Hualh-Sien, province of Kuei-Chow. A magistrate has been murdered, and the situation is considered serious.

New York Announcement.

Horner's Furniture.

The BEST IN THE MARKET because representing the productions of the best makers only. Other advantages are the unequalled assortments in all lines, whether wanted for city or country houses, and the very moderate prices at which the goods are marked.

The completeness of our assortments can best be understood from the fact that we carry in stock, and exhibit, more than *two hundred and fifty distinctively different Bedroom Sets* in every variety of material, as well as endless lines of Parlor, Drawing Room, Library and Dining Room Furniture, ranging from the modest and inexpensive to the most elaborately carved and inlaid.

In a word, every article required for use, comfort and adornment in the household can be had with its plainly marked moderate price at the Great Furniture Emporium of

R·I·P·A·N·S

I have been a theatrical printer for the past twenty years, and am thirty-five years old. For the last four years my stomach has cost me a nice little sum, and I could only eat certain kinds of food, and anything rich like pie would upset me for two days. I had to give up smoking a pipe (which was worst of all), for just as soon as I would smoke a pipeful I would get sick, and in the morning the taste of the pipe was in my mouth. I was distressed with a fullness and bursting feeling after eating two slices of toast and one cup of coffee, and anything that tasted good, no matter how small, was very large when I ate it. A friend of mine recommended Ripans Tabules to me after seeing my sufferings (I used to lose two or three days a week from work), and said they were wonderful. He was a great beer drinker and used to fill up two or three times a week, and always on going home with a "load" took one Tabule and woke up the next morning with head clear as a bell and stomach all right. Now I thought the Tabules must be all right, and after I took just twenty *I was all right.* I can now eat anything and take one Tabule, and after fifteen minutes am not aware of having eaten anything. I can smoke a pipe all day and night and have no vomiting or nausea. Ripans Tabules are the finest laxative I ever took, and I always have a box of them in my pocket and another one on the shelf.

WANTED—A case of bad health that R·I·P·A·N·S will not benefit. Send five cents to Ripans Chemical Co., No. 10 Spruce Street, New York, for 10 samples and 1,000 testimonials. 120 by mail for 48 cents. R·I·P·A·N·S, 10 for cents, or 12 packets for 48 cents, may be had of all druggists who are willing to sell a standard medicine at a moderate profit. They banish pain and prolong life. One gives relief. Note the word R·I·P·A·N·S on the package. Accept no substitute.

TOMMY RYAN'S VIEW.

The Noted Fighter Believes Jeffries Will Defeat Sharkey.

Asbury Park, Nov. 1.—Tommy Ryan says:—"I think Jeffries will best Sharkey. He is decidedly the cleverest man and has the better head. He is the stronger man and he is the quickest man. I was one of his chief advisers with Fitzsimmons and boxed with him every day. I have occupied the same position in the Sharkey match. What he learned while training for Fitz boxing with me he has cultivated and made part of his skill as a pugilist. Jeffries muscles are very loose and elastic, and on his feet he is quick as a light-weight. His mind is something phenomenal, and I have no doubt of his staying powers.

"It has been stated that he wanted to quit with Fitzsimmons in the sixth round. Whoever made that statement must have been dreaming. I advised him in that fight. Jeff wanted to go at the blacksmith right from the start, but I kept holding him back. Everybody knows the result. He gave a game fight and took no chances. He is a different looking man this time and one of the best-conditioned athletes I have ever seen. Sharkey need never fear that Jeffries will run away. I do not imagine for a moment that this will be a slugging match. On the contrary it will be a pretty exhibition of skill and science. I am boxing every day with Jeffries and I know he has very little to learn in the art of defence. He possesses one of the craftiest left hands I ever saw go out from the shoulder. He also owns a solid right that seldom misses the mark.

"As a fighter myself and knowing both men and their several styles of boxing, I can honestly pick Jeffries as a looser-limbed man than Sharkey. Jeff can deliver a straight blow with either hand, while Sharkey depends wholly on swinging hits. I think the Sailor is muscle bound. I do not want to be understood as underrating Tom Sharkey. He is a clever and dangerous antagonist, but Jim Jeffries will best him for all that."

Sharkey is Confident.

New Dorp, S. I., Nov. 1.—Thomas Sharkey, who is to measure fistic abilities with James Jeffries on Friday night for the heavyweight championship of the world, is in fine trim for the bout and feels confident that he will win. He says he welcomes the arrival of Friday night and his appearance in the ring more than he would a present of $1,000 in cash. Sharkey's trainers declare that the sailor is fit to go the whole distance if necessary, but like all other trainers, of course, they think their man will win without fighting half of the twenty-five rounds.

PILOTS WILL BE ARRESTED.

Coroner Will Try to Place Blame For North River Disaster.

New York, Nov. 1.—After inquiry into the particulars of the sinking of the ferryboat Chicago, Tuesday morning, Coroner Bousch has decided to issue warrants for the arrest of the pilot of the Chicago and the pilot of the City of Augusta, which rammed the ferryboat.

The pilots will be accused of manslaughter in causing the death of John Bryson, the mail wagon driver, who was drowned.

Captain Daggett of the City of Augusta has been arrested and held in $10,000 bail and the captain of the Chicago will be placed under arrest as soon as he can be located.

Several more persons who were known or supposed to have been on the Chicago have not yet been accounted for and they may have lost their lives while trying to reach shore.

The missing are: Charles M'Curdy, of Brooklyn, driver for a milk dealer; believed to have been on the Chicago with truck and two horses; has not been seen since the collision; has wife and two children. Unknown negro, grabbed Sailor Oelsen by the throat and he struck him twice in the face to save himself from drowning. He did not see the negro again. John Vroom, fireman on the ferry boat. Jumped into the river and not since heard of. George Higgins, clerk, of Jersey City; supposed to have been on the Chicago; has not been seen by his family. Monte Coogan, Newark, jumped overboard and has not since been seen.

The blame for the collision has not been fixed. The night was quiet, and the river was not crowded with craft. Both vessels were out in the stream, and there was no question of backing out of slips. The crew of the two vessels conversed from deck to deck.

It was one of the mysterious cases where signals were disregarded when all of nature's elements were most favorable for the correct interpretation of the signs by which human lives are supposed to be secured from the perils of both sea and land. Even the rescues were carried on with the aid of electric lights ashore and on the boats which quickly swarmed about.

Big Switch Plant Sold.

Chillicothe, Ohio, Nov. 1.—The Taylor Switch Company, of this city, has been bought out for $24,000 and other considerations by McCord & Co., of Chicago, dealers in and manufacturers of railway supplies, and the plant of the company will be removed to that city at once.

McFadden Was Outclassed.

New York, Nov. 1.—Joe Gans defeated George McFadden at the Broadway Athletic Club Tuesday evening. He was given the decision at the end of the twenty-fifth round. McFadden was outclassed at every point.

THE MARKETS.

New York, Nov. 1.—The stock market opened active and unsettled chiefly in response to the tendency of the London market, which was substantially depressed, the declines extending to about 1 point. A few stocks showed noteworthy resistance to the general tendency, Southern Railway and Southern Pacific being conspicuous, but otherwise the pressure upon the market was about equally distributed. Before the close the market showed a rather better measure of support, under which substantial recoveries were scored.

Cash sales for provisions:—Wheat No. 2 red, 75⅝; corn 40½; oats 28¼, rye, western 64; pork, mess $9.50@10, lard 5.60.

IS FOLLOWING AGUINALDO.

The Column Under General Young Moves North of Cabanatuan.

TO REINFORCE LAWTON.

Six Troops of the Fourth Cavalry Ford the Rio Grande and Go on a Hunt for the Enemy.

Macabeebes Take an Active Part in The Latest Movement Aganist The Filipinos—Young Arrives at Santa Rosa—The Gunboat Laguna de Bay Not Yet Floated.

Manila, Nov. 1.—The Filipino women and children—the wives and families of Filipino officers—who accompanied the Spanish Commission that went to see Aguinaldo about the release of prisoners, as far back as Angeles have received permission to come to Manila.

Six troops of the Fourth Cavalry have forded the River Rio Grande de la Pampanga. Four troops, under Col. Hayes, moved on Talavera, which is about eight miles north of Cabanatuan, while two troops, under Major Parker, went northwest to Aliaga. The Macabeebes are taking part in this movement.

Gen. Young has arrived from Santa Rosa. Supplies are now going forward rapidly.

The gunboat Laguna de Bay remains stuck on a bar below Santa Rosa. Tugs with hawsers are trying to drag her off. The river is very shallow just now, and it will require a heavy rainstorm to float the vessel.

Our scouts have captured a casco containing rails and ties used in repairing bridges.

Progress is Difficult.

Washington, Nov. 1.—The expected advance of Gen. Young's column under the direction of Gen. Lawton was made sooner than War Department officers expected. A despatch received from Gen. Otis says that progress is difficult owing to the condition of the roads, which is due to the wet season. He announces Gen. Young's objective as San Jose and Carranglan, which are considerably to the north of San Isidro and slightly to the northeast of Cabanatuan that Gen. Young moved and from Gen. Otis's cable despatch it is apparent that he is moving in two sections, one of which has gone due west to Algiaga, following the Filipino forces that evacuated Cabanatuan.

Gen. Young himself is with the main column and will move to Talavera, a little to the north west of Cabanatuan. From there the road to San Jose is in a northeasterly direction. Carranglan is about forty miles from Cabanatuan, but with its occupancy the American forces will once more be on the flank of Aguinaldo's army, taking it for granted that he has moved from Tarlac to Bayambang.

It is believed at the War Department that now that Gen. Otis has a large force of men in the islands he will hurry reinforcements to General Lawton so that he can send a strong expedition toward Tarlac.

Gen. Otis's despatch is as follows:

"Manila, Oct. 31.

"Adjutant-General, Washington:

"Young's advance north and east Cabanatuan; will occupy Talavera and probably Aliaga to-day; objective San Jose and Carranglan; wet season has rendered roads in that section impracticable for wagon transportation and progress difficult. OTIS."

Questioning Ruined Her Mind.

Wheeling, W. Va., Nov. 1.—Mrs. Effie Ray, the mother of five small children, was arraigned in a minor court a few days ago as defendant in a case involving a neighborhood quarrel of little importance. A severe cross-questioning is said to have so preyed upon her mind that it became deranged. She has been taken to the county jail, a violent maniac. She had attempted to choke her baby, an infant of but a few months of age, and repeatedly endeavored to get out of her room and go to the river, evidently with the intention of committing suicide.

National Bank Changes Hands.

Auburn, Ind., Nov. 1.—The First National Bank of this city, one of the oldest banking concerns in Northern Indiana and founded by the late Congressman C. A. O. McClellan, has closed up its business affairs. The business of the bank will be continued at the same place and under the same management, and will be known as the McClellan Bank, successors to the First National Bank, with the same capital and surplus of $60,000.

Roosevelt Speaks in Boston.

Boston, Nov. 1.—Gov. Theodore Roosevelt reached here Tuesday. He was met at the South Station by Senator Henry Cabot Lodge and the Hon. George Von L. Meyer, National Committeeman from this State and chairman of the reception committee of the Republican Club. The Governor was taken to a friend's house to get a few hours' rest before the Republican Club dinner in Music Hall in the evening, at which he spoke.

Fever Quarantine Raised.

Jackson, Miss., Nov. 1.—The State Board of Health has raised the Mississippi quarantine against New Orleans, Miami and Key West, except as to household goods from infected districts. The recent frost caused this action, and it is believed there is no further danger of a spread of Yellow fever. One new case and one death in Jackson has been reported to the Board of Health since Monday.

Parks Gets a Life Sentence.

Alfred, Me., Nov. 1.—Frank P. Parks, of Kittery, who last May was convicted of the murder of Mary E. Tarlton, an aged widow, of Kittery, last January, has been sentenced to life imprisonment. Robbery was the motive of his crime, and his plea was insanity resulting from inebriety.

THE DAILY PRESS.

For Coroner, DR. W. E. CLADEK, of Rahway.	For Coroner, DR. J. W. GRAY, of Summit.

COMING EVENTS.

Nov. 5—Rev. Charles F. Herring will address the men's rally at the Y. M. C. A. at 4:15 p. m.

Nov. 5—H. S. Park will give an illustrated talk on Signals at the Y. M. C. A. boys' rally at 4:15 p. m.

Nov. 5—Boys' Bible class at Y. M. C. A. at 9:30 a. m.

The Elections.

Elections for State officers or for members of the Legislature will be held in twelve states on Tuesday next. Governors will be chosen in Iowa, Kentucky, Maryland, Massachusetts, Mississippi and Ohio, and Legislatures in nine states; the Legislatures in Iowa, Mississippi and Virginia to have the choice of United States Senators. Constitutional amendments are to be submitted in Maryland, Mississippi and New York. A Representative in Congress, to fill a vacancy, is to be chosen in each of the states of Nebraska, New York, Ohio and Pennsylvania, while the successor to ex-Speaker Reed of Maine is to be elected on November 6th. The greatest interest attaches to the result in Ohio, the President's state; in Nebraska, Bryan's state; in Kentucky, where there are two Democratic tickets; in Pennsylvania, where there are indications of a considerable Republican revolt against the head of the Republican ticket; and in Maryland, where the Democrats are making a great effort to recover political control.

The Situation in Somerset.

Even the Somerset county Republican papers themselves have not devoted as much space to Senator Reed's candidacy for re-election as has the New Jersey page of the New York Tribune, which has teemed with what appears to be inspired articles on the situation in Somerset. The constancy, enthusiasm and apparent authority with which The Tribune speaks in this direction makes its sayings appear as something beside idle political gossip; in fact, The Tribune's utterances seem to be "by the book." Under the caption of "Need for Vigilance" The Tribune this morning devotes about a thousand words to the chances of Senator Reed's success, with the following introductory paragraph:

A Somerset county Republican who is in close touch with the political situation there said yesterday that the danger which Senator Reed and the other Republican candidates have to fear most is the apparent apathy of the voters. The outlook, he said, is not discouraging, but it seems impossible to arouse the Republicans to the importance of the election, and to the fact that the Democrats, although they do not appear to be more interested than their opponents, are working systematically and earnestly to get out their full vote. Too much reliance is being placed, he thought, upon the political inconstancy of Mr. Bergen and on the idea that his legislative record is offensive to many Democrats that, though they will not go the polls to vote against him, they will remain at home, and so maintain their allegiance to their party. This may be so in some individual cases, but the fact is that Mr. Bergen is a popular man among the Democrats and has a winning way of pleading his own cause which will bring back almost all the Democrats who have criticised him and who have opposed his nomination.

This is evidently a campaign in which there is a still hunt for votes. Not an old time mass meeting has been arranged by either of the big political parties in this vicinity. The only activity in this direction appears to be the reception which the new Democratic city executive committee has arranged for the purpose of informally introducing the Union county Democratic candidates to the voters of Plainfield and vicinity. The affair will be purely informal, no set speeches being arranged for. The candidates, as well as a number of prominent Democrats from other sections of the county, will be at the headquarters in the Ulrich building during the evening to meet all who call.

In the Senatorial and Assembly nominations by the Democrats the Newark News thinks it sees an Etheopian in the woodpile in the form of the United States Senatorial aspirations of Allen McDermott. The News thinks that Mr. McDermott had a great deal to do towards shaping the nominations in the pivotal counties, and that if the Democrats succeed in getting control of the Legislature the Jersey City statesman will loom up conspicuously as a candidate for the United States Senate.

The election returns, local and State, thrown upon the canvas by a stereopticon last election night, attracted and satisfied thousands of Plainfielders in front of The Daily Press office. Owing to the intense interest in the outcome of the county election they will be eagerly sought after this year. The Daily Press will supply a superior service with its stereopticon apparatus, to which all Plainfielders are welcome to view.

There are many voters who doubtless understand that if they are not registered they cannot vote. Such is not the case. An unregistered voter can appear before the Election Board in his district during the time the polls are open on election day and swear in his vote; but very few take advantage of this clause in the election laws.

From all accounts of the accident that resulted in the sinking of the ferryboat Chicago yesterday morning, by which a large number of lives were imperiled—and it is miraculous that any were saved—nothing but inexcusable carelessness and criminal negligence is responsible for it.

PASSING COMMENT

Things that Are Not Exactly News but Just as Interesting.

"The secret of my success," said a salesman whose salary is $8,000 with expenses, "is this: I am not afraid of the rain. Most salesmen are; most buyers are. They hate to see a rainy day, and when such a day comes they hang around their offices from daylight till dark. For that reason I love rainy days. I start out earlier in the wet weather than at any other time. The buyers' offices that I visit then are always empty of salesmen. Only the buyers themselves are there; yes, the ones most difficult to catch ordinarily are there then; and they are a little bored, with nothing to do, and you can talk more good business into them in five minutes than in clear weather you could in five hours. I sell on rainy days fully five times as much as I do on clear ones, and, considering also the great number of men that only on such days I can see, and the facilities offered then for business talk. I should say that one rainy day is worth to me fully two weeks of nice days. I thank my stars that other salesmen don't know about this. They loaf at their stores, or play billiardes, or go to the continuous performances and matinees, or booze. But I go out in the wet and pull down big bunches of the long green."

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

Boy of the Period.

"This lesson, children," the Sunday school teacher said, "is about the foolish virgins who took no oil in their lamps—"

"What was the matter with their usin' acetylene gas?" interrupted Tommy Tucker.

Irregular.

Mrs. Pruder. The French are a very polite people, but I am sorry to say they are far from being regular in their habits."

Mr. Whimsey. And their verbs are rather irregular, too.—Boston Transcript.

The Savage Bachelor.

"You think you know all about women, don't you?" asked the newly-married boarder.

"No," replied the savage bachelor, "and I am mighty glad I don't."—Indianapolis Journal.

Knew Something Was the Matter.

"Your office boy tells me that he walks in his sleep."

"Indeed?" replied the old merchant. "That probably explains why he insists upon sitting 'round all the time he is awake."—Detroit Free Press.

His Only Wife.

"You can't sit there, mum. These here seats are reserved."

"You don't seem to be aware that I'm one of the directors' wives!"

"And if you was his only wife, mum, I couldn't let you sit here."—Punch.

A Doubting Judge.

"Are you guilty or not guilty?" asked the judge of a darky accused of stealing chickens.

"What's de use of me sayin' 'Not guilty'? I said dat last time, an' you wouldn't b'leeve me."

A Difficult Task.

Clerk—What is the matter with Putter? He seems to have something on his mind.

Brassy—He is trying to think up a name for a new golf club he has invented.

Feudal Days in Kentucky.

"Ready for church yet, Ki?"

"A'most. Got the hymnbook, Caline?"

"Yes."

"Well, wait till I git my gun."

Wanted All the Particulars.

Returned Traveler—Then, after I had left the British Museum, I went to Piccadilly.

Interested Young Listener—Did you pick one for me, uncle?

Bismarck's Iron Nerve

Was the result of his splendid health. Indomitable will and tremendous energy are not found where Stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills. They develop every power of brain and body. Only 25c at L. W. Randolph's drug store.

—The Christian Endeavor Society of the Seventh Day Baptist church will give a sociable this evening at the home of Mrs. A. M. Boss, of West Seventh street.

—At the meeting of Franklin Council, No. 41, Jr. O. U. A. M., tomorrow night, business of importance concerning the recent session of the State Council will be considered, and there will be reports from the delegates who attended that meeting.

GIVE THE CHILDREN A DRINK

called Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee but is free from all its injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant but a health builder, and children, as well as adults, can drink it with great benefit. Costs about ¼ as much as coffee 15 and 25c.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it: no break. Call and see us use it. Always welcome.

FURS! FURS!! FURS!!!

A most attractive line of Fur Boas and Collarettes in mink, stone marten, imitation stone marten, electric seal, opossum, astrachan, Russian mink, Russian Sable, moufflon, krimmer, sable fox, etc., etc.

Muffs to match when you need them. Some of the prettiest children's sets of furs you have seen in many a day. You may consider it a little early to think about furs, but let us tell you, you will pay dearly for delay, for prices in this line are rapidly advancing

ON THE JUMP.

Prices in all lines of merchandise are rapidly advancing. We have filled every nook and cranny of our establishment with goods on which advances are most marked, and are holding prices down to the best of our ability, but the raise is coming. Don't wait—buy now.

COMFORTABLES AND BLANKETS.

We should be remiss in our duty to this community if we failed to call attention to our stock of these goods. They were bought last summer since when prices have advanced materially, and some styles would now be unobtainable. Comfortables, 89c to 6.75. Blankets, 50c pair to 14.00 pair.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Daily Press.)

Dunellen, Nov. 1—The convenience to the public of the waiting room recently built by Messrs Woodhull & Martin was in evidence yesterday during the severe storm. Many took shelter under its kindly roof and felt grateful to the enterprise of its builders. The waiting room being in the city limits of Plainfield in should devolve upon the police authorities to give the place some protection from the hoodlum and tramp element.

The young folks had a delightful time last evening at the home of Mr. and Mrs. John Milligan on Prospect avenue on the occasion of the birthday party given in honor of their daughter, Miss Bessie.

The entertainment at the Methodist church tomorrow night promises to be a pleasant affair. Prof. Schwalb and his family are clever in their several specialties. A small admission fee of ten cents will be charged.

Some of the young folks had jolly times playing tricks upon their elders last night. All Hallow'een parties were held in several families about the borough.

Ernest Peters has accepted a position with the Central railroad at the station. He will take the place made vacant by the promotion of Harry Dodwell.

PLAINS AND FANWOOD.

(Special Correspondence of The Press.)

Scotch Plains, Nov. 1.—Mr. and Mrs. Joseph Schwallark, of Scotch Plains, were greatly surprised Monday evening on their wedding anniversary by a trolley load of relatives and friends from Plainfield. Phonographic selections was one of the features of the evening. They received many pretty and useful presents. Refreshments were served about 11 o'clock. The party left on the last trolley, after wishing the happy couple many years of married life.

The residents of the Plains will certainly be pleased when the work on the trolley is reported finished and they will be able to take a car from a street crossing. As it now is one has to wade through several inches of mud and numerous mud puddles every time there is a little rain. It is a case of either wade or stay at home, for the trolley company have made no efforts to provide a suitable pathway from the sidewalks to the cars, and as we have had the trolley several months now it does not look very favorable for any change until the work is finished.

A number of the people about town have been wondering for sometime whether the October Grand Jury would find any indictment against the hotel keepers in town for alleged Sunday selling. They were all looking to the Citizens' League to make the movement but the League's work has been done very quietly in all they have undertaken and as the work of the Jury is finished it is hardly probable any evidence was presented before the body.

The storm of last evening interfered somewhat with the entertainment given in the Fanwood fire house by Choir Guild of All Saints church. But those who braved the elements to attend were well repaid by the pleasant evening spent with the members of the Guild.

There will be no Sacred Literature Society in the Baptist church this evening, owing to there being a number of the members attending the Baptist State Convention meetings being held in the Peddie Memorial church, Newark, this week.

The Registry Board for Fanwood township held their last meeting previous to election in the town rooms yesterday. Three new names were added to the registry list, making a total of 315 for the township.

Edward Walters spent yesterday near the Passaic river hunting for woodcock. Seven fine birds were the result of the day's sport.

On account of the bad storm yesterday only a half-session was held in the Public School. The children going home at 1 o'clock.

Miss Sadie Reger has returned from a pleasant visit with her sister in Westfield.

WESTFIELD.

(Special Correspondence to The Daily Press.)

Westfield, Nov. 1—Society people of this town were very much surprised when it was announced that Miss Marguerite June Willis, of Oakland, and John W. DeVeau, of Mountainside, had been married last March, the wedding ceremony having been performed on the 16th by Rev. Dr. John Jenvre. The newly-married couple are well-known here, the bride being one of the society leaders. The groom is much older than the bride and is a well-known New York business man with a residence at Mountainside, where he and his wife will hereafter make their home.

The home of Miss Annie Gilby, on North avenue, was the scene of much jollity last evening when a Hallow'een party was given by the ladies of the Baptist church. Despite the stormy weather there was a large attendance and a good time was had by all.

Charles Burtis, proprietor of the Park Hotel in this town, and Miss Catherine Bolan, of Orange, were united in marriage at that place Monday evening.

—Work has been started by Councilman Leifke for the erection of a new house in West End Park, adjoining one recently built by him.

THE AMUSEMENT WORLD

CURRENT ATTRACTIONS THAT PLAINFIELDERS MAY WITNESS.

Local Metropolitan Performances That Will Please Those Who Delight in the Art of Thespis and Mimic World.

"A Young Wife," which has been such a success at the Fourteenth Street Theatre in New York for the past couple of months, will be seen at Music Hall tonight. The play is by J. K. Tillotson, an author of much repute, being the author of "The Planter's Wife" and several other very popular dramas. The plot of a young wife shows that it is a strong play. It revolves about the bride of a capitalist's son, whose half-brother is the "black sheep" of the family. This villian is a burglar. The father discovers his son, who kills him in the struggle. The murderer thinks himself safe from arrest because the paper-cutter of the good son is found clutched in the dying man's hand. "Ethel," the bride of the good son, arrives in time to hear from the dying man his discovery that his own son has been the murderer. Unaware of the existence of the "black sheep" of the family, she thinks her husband has killed his father in a quarrel over her. She conceals her husband's paper-cutter in order to avert suspicion from him. She then is accused of the crime, but all is cleared up. The New York cast appears here.

* * * * *

The greatest of all American comedy dramas, "Blue Jeans," will be seen at Music Hall Friday night. It is a story of life in a small country town in Indiana, and the quaint manners and customs of the inhabitants are so naturally shown, the story is so absorbing in its development and the threads of comedy and tragedy are so artistically interwoven that the great success of the play is early understood. In its varied phases it appeals to all classes of theatregoers and pleases all alike. It is in the hands of an exceptionally strong company, and an elaborate scenic production is promised.

* * * * *

At Music Hall next Monday night the only original Indian Actress, Go-Won-Go-Mohawk, will present her famously picturesque play, "Wep-Ton-No-Mah," The Indian Mail Carrier, written by herself. Miss Mohawk is the only woman today successfully representing a male character. She has no equal. Her remarkable feats of strength and agility, her daring and dashing horsemanship, riding without a saddle at full speed, throwing a man clean over her head, one of the most realistic bowie-knife fights ever seen on the stage, make this woman tower head and shoulders over her entire sex. Her impersonation of the male character is so finished that very often her sex is doubted. In fact, her personality is so strong that when on the stage she dominates everything and everybody in sight.

* * * * *

On Tuesday evening October 24th Julia Arthur presented Emile Bergerat's great imperial spectacle "More Than Queen" for the first time in New York City at the Broadway Theatre, upon which occasion this beautiful playhouse was crowded with over two thousand people anxious to witness this important literary and theatrical premiere. The drama was a tremendous success last season in Paris and this season in Boston and now New York has endorsed the verdict of those two cities and pronounced Julia Arthur's production of the new Napoleonic novelty as well as her own portraiture of Josephine to be an unparalleled and double dramatic triumph. The production is considered to be the costliest and most gorgeous ever seen in the metropolis. "More Than Queen" is now playing to large audiences nightly and theatre-goers of this city should not fail to see this magnificent production during its run at the Broadway Theatre. Matinees are given on Saturdays only but a special matinee will be given on election day November 7th.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

Rev. Mr. Skeel, of New York, has been spending a few days in town.

Everett Saunders, of Alfred, N. Y, has been visiting Plainfield friends.

Miss Moynihan, of Bound Brook, has been visiting Plainfield relatives.

Mrs. Wm. Coddington, of Newark, has been visiting Plainfield relatives.

Reuben Knox, of Washington avenue, has returned from a trip out of town.

Miss Brewer, of Brooklyn, has returned after a visit with Plainfield friends.

Rev. Father Miller, of Jackson avenue, has returned from a visit in Philadelphia.

Mrs. George H. Babcock, of West Eighth street, has returned from Alfred, N. Y.

Miss Mott, of New York, is a guest at the home of D. N. Groendyke, of Mercer avenue.

Miss Mabel Ladd, of Newark, has returned home after a visit with Miss Clara Long, of Park avenue.

Former Mayor Charles J. Fisk and family, who have been stopping in New York, have returned to their home.

J. Stanley Mosher, of West Fifth street, has accepted a position with G. H. Lyon, a civil engineer at Ormsby, Pa.

Mrs. Henry Angleman, of East Fourth street, has returned from Brooklyn, where she has been visiting her daughter.

Mrs. Hardy and Mrs. Lord and son, of New Bedford, Mass., are spending some time with Mr. and Mrs. E. L VanCampen, of Plainfield avenue.

Mayor Rockfellow is anticipating a pleasure trip to Pennsylvania in the near future. He will take his gun, and may succeed in bringing home some game.

Clayton Slaughter, representing the J. E. Linde Paper Company, of New York, was a visitor in the city yesterday, and was the first passenger to ride to South Plainfield in the new omnibus.

A pleasant surprise was tendered Monday evening to Edward Vermeule, of Jackson avenue, by his wife, who invited a number of friends to the house. An evening of sociability was passed and a bountiful supper was a feature.

EARLY INTELLIGENCE.

—Use Press want ads

—Manning & Runyon, of this city, are erecting another new house on Belvidere avenue.

—There will be nothing special considered at the regular meeting of the Borough Council Friday night.

—The meeting in Hope chapel this evening will be followed by a sociable under the auspices of the Christian Endeavor Society of the chapel.

—If you are looking for a good laundry where your laundry work will be done right give the Queen City Laundry, of 337 Park avenue near Fourth street, a trial.

—The Shetland pony belonging to Alfred Fritz, son of Adam Fritz, of Somerset street, advertised in The Press as having strayed away Saturday, was found Monday at Mr. Maltby's home in the southern part of the city.

—The annual meeting of the New Jersey Baptist State Convention and Education Society is in session today at the Peddie Memorial Baptist church, Newark. A number of delegates from this city are in attendance at these meetings.

—W. J. Pride, formerly with E. B Maynard, of North avenue, has opened on his own account a barber shop at 94 Somerset street, where he has everything new and up to date. If you like a close shave, with everything clean and good, give him some of your patronage.

THE NEWEST MILLINERY

We have acquired an enviable reputation—one that cannot be surpassed. Nowhere can you get hats that approach ours for beauty and style at the prices we ask. A fact that comparisons will clearly demonstrate.

The trimmed hats we show are miracles of beauty, style, richness and elegance. The materials we use are the best, the newest and most fashionable. Our workmanship is unsurpassed. Every day we show some new ideas, exclusive and original, creations not to be found anywhere else than here. Hats that rival the finest of the best known milliners. Despite their richness and beauty and their exclusiveness, the prices are moderate to an astonishing degree.

Miss Kate Daly, the leading millinery artist, who has charge of our workmen, will see customers on Monday, Tuesday and Wednesday of each week.

A Sale of JACKETS That Will Cause a Sensation.

The values are so far beyond anything that have been offered that you will have to see this splendid stock to appreciate the extent of the values given.

Just 133 jackets in the lot. This season's make, and represent a celebrated manufacturer's sample line. The cloths are mostly fine Kersey and Meltons, and nearly all are lined throughout with satin. Every garment is man-tailored in the most perfect manner and guaranteed to give entire satisfaction to the wearer. The lot has been purchased by us for spot cash at less than one-third the actual value. We have marked the entire lot for a quick sale at the uniform price of

$3.98.

You will do well not to miss the great special sale. The values range up to 15.00.

Crayon Portraits Absolutely Free

Frankenthal. Auf der Lokalbahnstrecke nach Edigheim wurde neulich Morgens, um den ersten Arbeiterzug zum Entgleisen zu bringen, ein mehrere Centner schwerer eiserner Träger auf die Eisenbahnschienen gelegt. Glücklicher Weise wurde die schändliche That im Augenblicke der höchsten Gefahr von einem vorüberfahrenden Radler wahrgenommen. Der Wackere eilte dem bereits heranbrausenden Zuge entgegen und verständigte den Zugführer, dem es noch möglich war, den Zug kurz vor dem Hinderniß zum Stehen zu bringen, anderenfalls würde ein großes Unglück unvermeidlich gewesen sein. Von den Thätern fehlt jede Spur.

Kaiserslautern. Der 415 Genossenschaften zählende, auf Schultze-Delitzsch'scher Grundlage aufgebaute Verband pfälzischer landwirthschaftlicher Genossenschaften, der kürzlich hier unter dem Vorsitze des Verbandsdirektors Rechtsanwalts Bangratz-Landau tagte, hat in der wichtigen Frage des genossenschaftlichen Getreideverkaufs in kurzer Zeit schon ganz erkleckliche Erfolge erzielt. Mit Hilfe einer ausgiebigen Unterstützung aus Staatsmitteln hat er einen kaufmännisch gebildeten, namentlich im Getreidegeschäft bewanderten Ein- und Verkäufer angestellt, der seit September vorigen Jahres in Thätigkeit ist. Seitdem wurden, ohne daß ein Lagerhaus zur Verfügung stand, 40,289 Centner zu 330,840 Mark von der 1898er Ernte und bis 25. vorigen Monats bereits 17,100 Centner zu 140,425 Mark von der diesjährigen Ernte verkauft. Nun sind zwei Lagerhäuser in Thaleischweiler und Wolstein, Orten der getreidereichen Westpfalz, erstanden. Durch Gründung zahlreicher Dampfdreschgenossenschaften hofft man bessere Gütesortirungen herbeizuführen und dadurch den genossenschaftlichen Getreideverkauf weiter zu heben. Der Verband will nunmehr auch der Gründung von Winzergenossenschaften näher treten, um dem kleinen Winzer den Absatz seines Erzeugnisses zu einem möglichst hohen Preise zu ermöglichen.

Württemberg.

Stuttgart. Wegen betrügerischen Bankerotts und Betrugs ist der 47 Jahre alte Kaufmann und Goldwaarenhändler Karl Holl von Cannstatt, gebürtig von Worms, vom hiesigen Schwurgericht zu einem Jahr zwei Monaten Gefängniß verurtheilt worden.—Seit Kurzem herrscht hier wieder jene gefährliche Hundeseuche, der im vorigen Jahre so viele und zum Theil werthvolle Thiere zum Opfer gefallen sind; auch jetzt ist die Sterblichkeit unter den Hunden schon wieder ziemlich bedeutend. Die thierärztliche Wissenschaft ist über den Charakter der epidemisch auftretenden Krankheit noch immer nicht völlig im Klaren.

Biberach. Der dieser Tage durch Selbstmord um's Leben gekommene Bezirkskommandeur Oberstlieutenant Lerch war in den letzten Wochen vom Verfolgungswahne gepeinigt, hervorgerufen durch eine von ihm veranlaßte Verhaftung seines Burschen in Folge erschwerten Diebstahls. Der so schwer heimgesuchte Offizier stand in voller Achtung bei seinen Vorgesetzten und Untergebenen; er lebte in sehr guten finanziellen Verhältnissen und hatte das schönste Familienleben.

Braunsbach. Ein junges braves Mädchen von hier, dessen Hochzeit bevorstand, wollte sich dieser Tage auf's Feld zu den Eltern begeben, langte aber dort nicht an und wurde von den Eltern schließlich in einer großen Blutlache, aber noch lebend am Wege liegend aufgefunden. Am Kopfe hatte es schwere Stichwunden.

Friedrichshafen. Kürzlich wurde der Kapitän Giovanicio des österreichischen Dampfers „Habsburg" während der Fahrt von Bregenz nach Konstanz vom Schlage gerührt. Auf der Zwischenstation Friedrichshafen wurde der seiner Sprache Beraubte zu erster ärztlicher Untersuchung in den Wartesaal 1. Klasse und hernach in's städtische Krankenhaus verbracht, wo er jedoch bald darauf verschied. Der Verstorbene stand in der Mitte der fünfziger Jahre.

Munderkingen. Erfinder Karl Rapp dahier, der ein rauch-, knall- und geruchloses Pulver erfunden hat, erhielt vom Kriegsministerium die Aufforderung, seine Erfindung der Artillerie-Prüfungskommission mit genauer Beschreibung vorzulegen.

Ravensburg. In Oberhofen ließen Eltern, als sie zur Feldarbeit gingen, ihre drei Kinder im Alter von einem viertel bis 4 Jahren unbeaufsichtigt zu Hause. Während die beiden jüngsten in ihrem Bettchen schliefen, fand der vierjährige eine Schachtel Streichhölzer, mit denen er spielte und das Bett in Brand setzte. Als die Eltern nach Hause kamen, fanden sie zwei verkohlte Leichen.

UNDER FEDERAL CONTROL

Uncle Sam Makes a Profit From "Hot Water" in Arkansas.

By an act of Congress passed in April, 1832, when Arkansas was still a territory, the Hot Springs, with four sections of land, were set aside for the future disposal of the United States. By the act of March, 1877, the appointment of commissioners was authorized to lay out into lots and streets certain tracts of land in Garland county, a part of the Hot Springs Reservation. The levying of a special tax on water taken from the hot springs was authorized, the money arising from water rents to be used in improvement of the reservation. By the act of June, 1880, those divisions of the Hot Springs Reservation known as North Mountain, West Mountain and Sugar Loaf Mountain were dedicated to public use as parks on a permanent reservation, aggregating 900 acres.

The hot water issues from the base and side of the Hot Springs Mountain, and the actual quantity is not known; that which is under control and being used to supply the bath-houses amounts to about 600,000 gallons daily, and the amount collected and passed through the impounding reservoir about 350,000, making a total quantity of hot water under control of about 950,000 gallons daily. The hot springs are not only under Government control, but are directly managed by the United States Government, which has an investment in them in excess of $500,000. As shown by the last published Treasury report, the total receipts from bath-houses and hot water rent at the hot springs for the fiscal year ended July 1, was $18,171. The disbursements by superintendent for salaries, superintendence, repairs, fuel, lights and water (cold) were $12,388. This represented a profit to the United States of $6,000.

A large number of the patrons of the hot springs are indigent persons who, unable to pay ordinary hotel charges or to avail themselves of the paid bathing opportunities, are supplied free. There is, moreover, a free dispensary under the direction of a United States Army surgeon. The total number of patrons is about 5,000 a day, though the facilities of the hot springs allow, as at present arranged, for 8,000.

The hotel bath-houses in Hot Springs are not run by the Government directly, but are sublet to individual proprietors, and the same course is adopted with the baths not connected with hotels, the policy of the Government being to operate so far as practicable the hot springs without loss and without any large profit. By act of Congress passed in October, 1888, $31,000 was appropriated for providing a system of reservoirs, piping and pumps necessary to the collection and economical distribution of hot water from the hot springs. Pursuant to this authority contracts for the work were let. All bath-houses on the reservation are supplied by gravity, and those off the reservation where not supplied by gravity, are required to pump the hot water from the impounding reservoir at their own expense.

It is supposed popularly that many of the "outside ventures" of Uncle Sam are unprofitable, but the fact is that he makes a considerable profit on some of them, $170,000 a year on the Patent Office, $3,500,000 from the operations of the Mint, and a considerable sum from the sale and leases of public lands.

Odd Accidental Deaths.

A strange case of accidental death is recorded by the London Standard. A man went to bed excessively drunk and was found dead in the morning. The natural conclusion was, of course, that he had died from alcoholic poisoning, but the doctor who made the post-mortem was not satisfied as to this. He re-examined the body, and found over the region of the heart a tiny hole like a pin prick. On investigating to find a cause for this puncture there was found in the mattress an old rusty needle. The man had gone to bed very drunk, and his condition had prevented him from feeling the prick of the needle which penetrated his heart and caused death.

Another accident, equally remarkable, was caused by a snake of a harmless species. A man was out shooting when he saw a snake, and in order to stop it getting away he placed the butt of his rifle on its neck and thus pinned it to the ground. Naturally the snake objected and in its struggles to free itself coiled around the gun-stock, one of the coils striking the hammer, which was down on the cap at the time, so forcibly that the rifle was discharged. The contents entered the man's chest and he was killed on the spot.

A third case of accidental death is that of a man killed by inhaling tooth powder. He chanced to hiccough just as he was placing a brush full of dry powder in his mouth. The dust got into his windpipe and formed a species of paste, which caused his death by suffocation in a short time.

Bloodhound Sniffed a Divorce Case.

A certain well-known inhabitant of Bucharest is the director of a manufactory which, being situated on the outskirts of the city, he goes to business early each morning, returning late in the afternoon.

The director was some few years ago married to the daughter of a rich merchant. He also possesses a splendid bloodhound, which had become very clever in finding and bringing any lost object of his master or mistress.

Little did the director, when teaching his dog this trick, fancy to what purpose he was doing it.

Among his intimate friends he reckoned a certain banker, and visiting him one afternoon, accompanied by his dog, he noticed it sniff around the waste-paper basket, and then bring out from among the scraps of paper a green silk handkerchief, which seemed strangely familiar to him. He seized it and pocketed it without the banker noticing, and soon after took his leave.

The lady was packed off to her parents, and proceedings for a divorce commenced. She ultimately confessed to having given the handkerchief as a memento, which the banker had thrown into his waste-paper basket, to be found by the intelligent bloodhound.

"It's realy too bad Queen Victoria retired from public notice so suddenly."

"Why?"

"Because I was anxious to know her view on when the twentieth century actually begins."—Cleveland Plain Dealer.

KATE JORDAN IN CUBA

She Chats About the Women of Matanzas. Their Manners, Their Vanity and Their Home Life.

MATANZAS, Cuba.—The Cuban woman is complimentary by nature and never makes a disparaging remark about a passerby. Sweet speeches flutter through the sunny air on these narrow streets.

"Look at her hat. Oh, very graceful!"

"How very pretty!"

"Look. How elegant!"

"See that American. In God's name, what white skin!"

"Aye. What a straight back that soldier has!"

This frank, outspoken criticism among a crowd is considered perfectly polite. That the Cuban's mind is on the qui vive for beauty is shown by the following incident:

A young American woman taking an early morning walk saw a middle aged, serious senora, with mantilla and prayer

A CUBAN DOORWAY.

book, returning from mass, a woman she had never seen before. She was surprised when the senora, with the graceful, Cuban gesture of waving the hand from the wrist outward, stopped before her and said:

"You understand Spanish? Then pardon, senorita. I wish to tell you you have a pretty face."

"Thank you," said the stranger, amazed and amused.

"And furthermore," continued the lady, "that little boy who passed you a moment ago told me so when he met me."

"You know the boy?"

"Oh, no," indifferently, "but he told me so that I might see you too."

It is this same eagerness to admire which makes the Cuban and Spaniard stare at every young woman he meets. American women, being curios at present, are particularly favored this way, so much so that their passage on the pavements is sometimes barred while these cigarette smoking, exclamatory epicures take in every detail from crown to toe. At first this seems insulting, and many of these native gentlemen have known how an American woman's eye can flash. But it is explained by the phrase which explains so much that is odd:

"It is the custom."

Staring is to a Cuban girl what honey is to a bee. It is the most delightful part of her evening walk. It makes attendance at church piquant. The more she is looked at and talked about by the men she passes the happier she is. She has a time honored part to play too. Though a man gazes at her open mouthed, as if wondering what glorious star she could possibly have dropped from, she is not supposed to see him. Though he should exclaim into her very ear, "Aye, aye, aye, how beautiful!" she is not supposed to hear him.

But he knows that nothing is lost upon this apparently impassive young woman, who, if this attention were lacking, would seek her mirror miserably on her return home and search for crow's feet.

Here come a quartet of girls out for a morning walk on the shady side of the street, one behind the other on the tiny pavements. This does not prevent the first, who is looking straight ahead, from talking in shrilly, vigorous bursts to the last, who replies as loudly over the heads of the intermediate companions, they meanwhile indulging in a mutual recrimination regardless of the fore and aft discussion. This gives but a mild idea of the Cuban woman's loquacity.

A RESIDENT STREET, MATANZAS.

A fair skin is greatly admired here, and you notice that in an attempt to gain this every woman you pass has made her really pretty olive skin as unnaturally white as if treated to an application of whitewash. This comes from putting on thickly a powder made of pulverized eggshells called cascarillo de huevos.

The mantilla is evidently out of favor with the present generation, at least in this seaport town, where the fashions of other countries are more swiftly adopted. Women past 50 you still see with the fine lace mantilla, or the very poor who drape a piece of bombazine in the national fashion and find it cheaper than the poorest hat.

For the same reason in these harbor cities smoking among young Cuban ladies is obsolete. The grandmother still fingers daintily her cigarette or cigar, and you catch glimpses of her rocking in the big bare parlors and gazing through a haze of smoke at the street.

Two out of every three people you pass are in mourning. Cuba has recent slaughtered and starved hundreds of thousands to grieve for, and the people are most conventional regarding the garb of a mourner. For the same reason the coche rolls past dozens of houses with parlor windows heavily shuttered. These, usually so frankly open, must be closed for four months after a death.

The streets where the refined and once wealthy classes live are quiet always, and through the partially opened doors you catch glimpses of the beautiful interior of these outwardly grim looking Cuban houses—the great patio and fountain with the balconies around it, and the blue sky above the generous square shining upon the very center of the home.

Along the beach which frets the streets on the town's edge are the ruined semicountry houses of exiled aristocrats, with gardens going to waste and beggars housing on the porches.

Parallel with Picia street are the Calles, Gelebert, O'Reilly and Contreras, where, remote from trade, families dwell in dignified seclusion behind barred windows and stablelike doors. Looking down the length of a calle of private casas two impressions are emphatic—the color and the squat effect of the houses. It is unusual to see one with more than a ground floor capped by a pagoda shaped roof of pot tiles, and each flares in a brilliant light color. Pink, fierce blue, lavender and every shade of yellow twinkles down the dazzling space.

The great doors to Cuban houses are forbidding, though painted in one of

THE TEATRO ESTEBAN, MATANZAS.

these flippant colors. They rarely stand open. Only half of one panel is unfastened and allows a quick and secretive appearing ingress or exit. They are really fashioned to serve as house doors and stable doors combined. The Cuban senora returning from her drive is driven into her front hallway, which is of marble and as big as an audience chamber. Here the baronche or volante is kept, the horse finding a convenient corner in the patio. Impoverished Cuba has but few volantes in the front halls now.

There is no glass in the long barred openings into the houses. Sometimes a square of muslin or coarse sacking flaps against the grating and shields the interior. But as this excludes air as well as light Cuban families frankly display to the street many of the intimacies of home life. You may see a baby having his bath, a girl powdering her face, a singer at a piano, a whole family surrounding a traveling merchant in the front parlor. They will pause to watch you go by and make audible remarks about your appearance.

The hilly, cobblestoned byways where the colored population lives has more variety, and color is rampant here. Some of the young mulatto women might pose for Venus in bronze or terra cotta. With bared throat and arms, bright touches from gay beads upon the wrists and bandanna knotted rakishly on the head, they make a delightful ensemble in daring hues consistent with the yellow houses and fierce blue sky. Children whose pretty brown nakedness seems humorous and not at all disconcerting dance like pygmies around the coche wheels.

A little farther on two Jamaica negresses greet each other with loud, playful English oaths which strike the ear strangely after the Spanish exclamations along the line. They end by kissing each other's hands, produce cigars and make themselves comfortable on a corner in a shady spot.

For the first time in 20 years the University of Missouri has a woman member of its faculty. This is Miss Eva Johnston, who was recently installed as assistant professor of Latin.

RIGHT LIVING HINTS

HOW TO BE HEALTHY, HAPPY AND HANDSOME.

Rules for Making Graceful Curves Take the Place of Sharp Angles—Diet and Sleep—Care of Hands and Feet—Simple Remedies.

You cannot make fat and produce the adorable curves so beautiful in a woman's form if you fret and allow your strength, both mental and physical, to be exhausted in fussing and worrying. There's a wise old saw that says a sweet temper and a bony woman never dwell under the same roof.

Rest all you can—get long hours of refreshing sleep. Keep in the open, but don't exercise violently; don't do anything exhausting. Ten hour's sleep out of every twenty-four is not too much.

The very reverse of the rules for fat people are suited best for the emaciated woman who wishes to coax flesh upon her attenuated figure. Given a woman without an organic ailment and free from real heart-breaking trouble, the road for making curves is a path of flowers compared to the hard lines laid down for obesity patients.

Eat a little at a time, but often, and as much as possible avoid the food especially advised for fat people.

Summed up briefly, the rules for thin people are: Absolute freedom from care and anxiety. At least ten hours' sleep out of the twenty-four. In addition to this, naps during the day if possible. This sleep must always be natural. Nothing is so bad for the appearance and general health as sleep induced by anodynes or narcotics in any form. The diet should be liberal and should consist largely of food containing starch and sugar; potatoes, fresh sweet butter, milk, cream, fruits cooked and served with sugar, all vegetables containing starch and sugar, such as corn, sweet potatoes, beans, peas, foods of the macaroni and spaghetti kind; fish and oysters, ice cream, desserts without pastry; plenty of outdoor life and a moderate amount of exercise. Sleep in a well-ventilated room. No one can gain flesh if there is an internal disease: certainly not if there is any tendency to dyspepsia or liver trouble. When plump in one part of the body and lacking in another, a gymnastic course is advised. There is nothing better than moderate bicycling, unless it may be a regular gymnastic course, which is not advisable in the summer. Where the development is meagre in the upper part of the body, swimming is also an excellent exercise. Walking is always wholesome.

Exercise is recommended for both reducing and gaining flesh.

The care of the nails is what few women understand. They have a lot of silver scissors and polishers that are fit for ornament only, as a rule. They torture the cuticle, cut and tear it with dull implements. It should not be touched, except to be pushed down gently with an orange stick.

To soften the cuticle, hold the fingers in a bowl of hot water and soap suds, in which a few drops of almond oil have been poured. Then file the nails round or oval, never pointed. Sandpaper the edges. After this is done push back the cuticle till as much as possible of the half moon at the bottom shows. The gentlemen who selected beauties of the harem in ancient Persia rejected all who did not have this half moon well defined.

Then apply the red salve, dust with powder, and be sure to use a good one that is not gritty and will not scat the nail. Apply more salve, as this gives a high polish. Then dust with powder and polish again. Then wash the hands in warm water and wipe the nails by pushing back the cuticle with a towel. This will take off all the salve and powder.

Then polish with a polisher that has not been dipped in powder. Three polishers should be used. Vaseline or cold cream rubbed on the nails at night is beneficial and absolutely necessary if one dabbles in disinfectants such as trained nurses must use, or the chemicals of photography.

A tablespoonful of common salt added to the water in which the feet are bathed will sometimes do away with the disagreeable odor entirely. A teacupful of strong vinegar is effective in many cases. Where the vinegar or salt is used, the use of soap should be dispensed with. In very obstinate cases of excessive perspiration try this remedy: Betanapthol, 1 dram; distilled witch hazel, 8 ounces. This may be used as well for excessive and odorous perspiration in other parts of the body.

A well known physician is responsible for the statement that women ruin their hair by excessive washing. He claims that only an occasional shampoo is necessary. The hair should be brushed regularly and at least, an hour a day. This will remove dust and dandruff, make the hair glossy and soft, while washing renders the hair brittle and lifeless, and eventually destroys the natural oil which is essential to a healthy condition.

Accidents With Lamps.

Any table on which lamps are placed should be of firm construction, large top, and of sufficient weight at the base not to tip easily or jar when touched. A great many so-called accidents with lamps are caused by placing them on light, ricketty tables.

Maud Gonne, the beautiful Irish patriot, is reported as wanting to go to the Transvaal, to fight at the head of the Irish troops. They say she is actuated not so much by sympathy with the Boers as hatred for the English.

NOT FISH STORIES.

But Tales of a Hardened Mountain Climber.

Fish stories are all very well in their way, observes the New York Commercial Advertiser, but when it comes to an out and out "yarn" the man of the woods can outdo any fisherman who ever pulled a sea serpent aboard while fishing for black bass. Bear, deer and wildcat yarns enliven the cool evenings in the Adirondacks just now, but the other day an Englishman who has a passion for climbing added his mite to the fund of romance. He is climbing all the mountains of America systematically. Pike's Peak, Mount Washington and Whiteface he considers worthy of his skill. But Blue Mountain is an ant hill. He went up on its crest one evening to see the sun rise, and after trotting home to breakfast and spending the day fishing he went up again to see the sun set (most people start at 5 in the morning and come home at 7 in the evening when they climb Blue Mountain).

"Of course, I'm a hardened climber," said this energetic Briton as he stirred the fire of pine boughs, and I've had some funny experiences. Climbing isn't dangerous out here, that's why I get about so quickly. I remember once, years ago, when I was quite a young fellow, my two brothers and I were clambering about in the Gorner glacier with an elderly uncle of ours. He was a roly-poly old chap, and he slipped and got wedged up to his waist in a crack in the ice, so firmly that we almost despaired of ever geting him out again. We pulled and tugged and nearly dragged all his clothes off; then we gave him our flasks to drain. He said he didn't know what was the use of writing and talking so much about the St. Bernards when a fellow could get in such a plight as his and not be able to get any assistance. Then he called the whole party together and began to dictate a codicil to his will, cutting out any legatees 'who might happen to be present on the occasion of any accident resulting in his demise.' I remember the wording of it to this day—it made such an impression on me at the time!"

"How terrible! And then I suppose he perished miserably?" broke in an awed voice.

"Oh, dear, no," said the bold Briton, cheerily. "My brothers and I made a super-human effort and hauled him to the surface just in time."

Didn't Get Out of the Way.

Reminiscently, the Chicago Post tells of the push cart full of drugs that met John Baughman in the manufacturers' building of the World's Fair one day in 1893. John was a tall and briad citizen from Indiana, and while his clothes were good he took up much room, as a large man may, and led people to think he was clumsy. He was looking at the World's Fair early one pleasant morning when the push cart of a drug firm came thundering down the aisle, and the four-dollar-a-week man behind it was crying, "Get out of the way, there! Get out of the way!"

It was a common thing at the fair. The only hireling who did not order people to get out of the way was the one with the sprinkling barrel. He regarded it as the height of humor to drench the dresses of women and spoil the fine polish on the shoes of men. And this push cart young fellow was proceeding down through a lane of people who had paid their money to be treated to cheap contumely from every thin thing on the grounds.

John Baughman did not get out of the way. He saw the chariot coming and heard the commands of the man who pushed it. But he walked straight toward it, and it stopped almost—but not quite—against his shins.

"Get out of the way, you lummick!" yelled the pusher.

So John Baughman picked up the cart and hurled it with all its contents against the great iron gates that came from Germany. It was a sight. There were acids and salts and alkalis and essence and extracts until the whole building was alive with the smell of them.

"I told you to get out of the way," cried the pusher.

"Yes, but I don't have to," replied John. "You have to get out of my way. I'm paying for this show. You're just working for me. Now, gather up your chips and go on!"

Women in Uncle Sam's Service.

"Women are eligible for appointment to many branches of the Government service upon precisely the same conditions as men," writes Barton Cheyney, of "Positions Under Uncle Sam," in the October Ladies' Home Journal. "The question of sex does not enter into the matter when there are vacant positions which are open to women. At the present time there are only one-sixth as many women as men in the service. The prejudice that formerly existed against the appointment of women is disappearing, and in 1898, of 418 persons appointed to positions in the departments at Washington, 190 were females. In addition to clerical capacities women are appointed assistant microscopists, nurses, translators, teachers, matrons, telegraph operators, stenographers and typewriters, as well as to places requiring skilled and unskilled workers. As assistant microscopists they have the first chance of selection, there being always a demand for capable women in this line."

A Queer Payment.

A Yorkshire clergyman married a couple in his church recently, and after he had pronounced them man and wife the groom took him to one side and asked what the damages were.

The parson told him that there was no fixed amount. He might give whatever he chose.

"Parson," said he, "I've got five greyhound pups at home, for which I am asking a sovereign apiece, and I'll let you have one for half a sov."

Of course, the clergyman declined so ridiculous a fee, as he had no use for a greyhound pup.

When he got home he must have found his wife better than expected, for he sent the parson one of the pups, accompanied with a letter saying that he was so happy with Maria that he would give him a dog for nothing.—London Exchange.

When you order waffles for breakfast you are really referring to wafel, a German word meaning honeycomb.

TYPES OF THE BOERS

A TRIP THROUGH THE TRANSVAAL COUNTRY DISTRICTS.

Homes and Characteristics of a Peculiar People—Fertile Soil, But Lack of Cultivation—The Average Boer Goes to Bed With His Clothes On.

Let me introduce you to a Dutch farmhouse in the Transvaal as I saw it one fine afternoon not long ago. It was situated some miles from any town or village; the typical Boer does not desire any near neighbors. The way to it lay over the high veldt, along vast plains, with here and there a range of hills presenting the appearance of huge puddling molds turned upside down, only slightly more rugged of surface but scarcely less bare. The road (by courtesy so called) led over small heaps of stone and reddish sand, varied by deep ruts and sluices, the beds of dried-up rivers and now and then gliding gradually into the burnt-up pasture land, over tufts of struggling, unwholesome-looking grass. There were no hedges, no fences, no walls. Our vehicles was a kind of buggy, a hybrid between a Cape cart and an old-fashioned gig.

Winding around the base of one of the big pudding basins we came upon a little valley, in which two or three green trees of the willow species showed the presence of water, and soon afterward arrived at the house. It was a low building of stone, with a corrugated iron roof; along the front ran the stoop, which is a raised causeway or veranda built always of stone laid one upon another, and covered with earth beaten down hard.

The Lounging Place.

This is a place whereon the Boer loves to lounge, smoking his eternal pipe, and ruminating, when he is not laying down the law with regard to Rooineks (Englishmen) or Outlanders generally. At the back were two little paddocks inclosed by stone walls loosely put together, and a cattle kraal, also of stone, but partly thatched. Two mules were standing in the afternoon sun, winking their long ears in futile attempts to scare the flies which were exploring every portion of their lean bodies. A yoke of oxen browsing at some distance completed the prominent features of the landscape, until, at the sound of wheels, a couple of dogs of the lurcher kind appeared and greeted us with furious barks. Two black boys, called "Sunday" and "Shilling," came to take charge of our horses and conveyance, and we were ushered in by the back entrance through the kitchen.

The distinguishing feature of this apartment, after the general squalor of the whole, was a stout cord stretched across one end, with strips of meat hanging over and tied to it; this was the greater part of a sheep, which I afterwards understood was killed the day before. The practice is to cut it all up without any apparent regard to joints, in various shapes and sizes, and to hang it in the air, or often in the sun, to dry; this constitutes the biltong which they use on their journeys, or in war time, and which is said to be most nourishing and sustaining food.

We passed on into the inner room which was breakfast room, dining

room and drawing room combined; it was rather long and narrow, with a deal table, also narrow, and a few wooden chairs. Against one wall was a wooden box, which, with two or three cushions on it, posed as a couch. A small harmonium stood at one end, and in two corners were little cupboards or whatknots, draped with cretonne or colored print. The floor was composed of a mixture of clay and cow dung baten down hard and firm. I was informed that this kind of floor is considered very good for health. I was introduced to my bedroom leading out of the dining room, and found it simply, but a little more comfortably, furnished, muslin curtains to the window, but no blinds. As I stood on the stoop later there came to me a fair vision of farmhouses at home, with their trim, smooth lawns, vegetable and flower gardens, and I thought, oh, for a little industry and enterprise in this desert, which could be made to blossom as a rose.

Neglect Their Opportunities.

The soil is so fertile that it is commonly said if you throw a plant at the ground, and water it, it will grow. Here all around it was little better than a wilderness; a pool lay at the bottom of the bare patch which should have been a garden, and a few ducks stood among the reeds, or disported themselves on the water. No green fields of wheat or barley waved in the soft, sweet air. The Boer does not seem to believe in cultivation save for a little ground roughly scratched over for patches of Indian corn, here called mealies, of which, when finely ground and sifted, they make their bread; very good it is when quite fresh, but after a day or two it becomes hard and sour.

Through all the years in which the Boers have held the Transvaal it seems never to have occurred to them that, with some labor and care, they should have made this country both profitable and fair to look upon. Water is to be found generally at a depth of 30 feet; certainly locusts and drought are formidable foes, but in Natal, where these drawbacks are also known, and the climate much hotter, considerable land is under cultivation. It is not that the Boer bestows much time on mental attainments or the study of books, on aesthetic culture or care of personal appearance; his only book, usually, is the Bible, his letters are never written, his toilet accessories are of the most primitive kind, and those not often used.

The average Boer does not undress when he retires to rest, consequently his whole attire is of the frowsiest; he is unshorn, unwashed, unbrushed, his skin, hair and clothing are all of the same hue, close affinity with the color of the ground—thence, we may conclude, arises their favorite appellation, "Sons of the Soil."

Famous Boer Coffee.

Morning at length came, and with it our breakfast; the strips of meat I had seen on the string in the kitchen the day before now appeared on the table, cooked, evidently, in a frying pan; this, with Boer bread and butter, tea and coffee, furnished our frugal meal. I chose coffee, but immediate-

ly afterward fervently wished I had asked for tea; both were sufficiently bad, but Boer coffee is simply execrable—compounded of various mixtures in which ground mealies bear a large proportion, and some coffee, which is often roasted at home. This concoction is both meat and drink, and it is said to be in consequence of their drinking it so many times a day that the Boer women attain such gigantic proportions as they frequently do in middle life, and sometimes in youth, also.

Several male relatives of the household came into breakfast, and displayed very good appetites. One peculiarity of the men's clothes is that they appear to be borrowed; they never fit (I am speaking now, of course, of the low-class Boer); there is too much ankle, often stockingless, shown and too much wrist to agree with the modern idea of fitness. It was a brilliant morning, and the sun soon dried up the excessive moisture of the previous night. Presently three members of the family offered to accompany me on a ramble. We walked some distance, and came upon the ruins of another farmhouse—a few stones left upon another and the same utter poverty of surroundings, no trees, no trace of garden or orchard. On returning to the house coffee was served, but I did not take any.

Poultry Made Comfortable.

Now came a surprise, and I ceased to wonder at my lively visitors in the still hours of the night before when I discovered that in two corners of the dining room, under the two arrangements of shelves of whatnots, were two hens sitting on eggs. Moreover, the other hens and young chickens wandered in and out from the stoop at their own sweet will. In this particular household it seemed the rule to begin to think of preparing dinner when everybody felt hungry, and we did not dine before 2:30 o'clock.

They are very inquisitive, but it is pleasant to add that they are usually kind and hospitable to such strangers as can converse with them in the taal, which is Low Dutch, and the same language as that in which His Honor the Staat-President preaches in the little Dopper Church near to his residence at Pretoria.

Among the people you see young girls, fresh-looking and rather pretty, but they grow terribly fat or miserably thin with increasing age. I have seen ugly old women in different parts of the world, but beyond doubt, for utter and hopeless ugliness, the aged Transvaal vrouw carries the palm! Some of these old women are more bitter against the rooineks and rooibatjies (i. e., English soldiers) than even the men, who often hate the English simply because they are English and more refined than themselves. So the evening again passed away, and early next morning I departed on my way to Johannesburg.—Cor. Cincinnati Enquirer.

We Cannot Escape Contagion.

Dr. Lionel Beale says, and his opinion is shared by other eminent physicians, "I believe that if the organism be in a proper state, almost all disease germs coming in contact with it, or entering it, will certainly die, instead of growing and multiplying. Many of the poisons in question are found about us—in the food we eat, in the water we drink. The foot of a fly will carry enough poisonous matter to infect a household. It is therefore vain to be always seeking to annihilate contagion, which you can only destroy to a limited and almost useless extent; on the other hand, it seems exceedingly reasonable, and especially on the part of nurses and ourselves, who must be continually exposed to the assaults of diseased germs, to do all that is possible to promote and improve the resisting power of the body."

A Tall Duchess.

It may not be generally known that the Duchess of Portland is the tallest woman in England She married the Duke in 1889. She was then Miss Dallas Yorke. The duke is the lord of £300,000 a year, and owns half a dozen castles, among them being the incomparable Welbeck, where Lady Peggy Primrose spent her honeymoon. The duchess spends most of her time to the furtherance of temperance work.

Savings of School Children.

The Chicago Penny Savings Society, operating through the public school teachers, last year received from the school children of that city over $70,000. This means that at least $40,000 less a year is being spent for candy and chewing gum, and that over 4,000 children are becoming capitalists at the rate of 5 cents a day.

Do not wash your hands and face with a common laundry soap, or if you do, don't complain when you find them rough, hard and chapped. Ordinary laundry soaps are good for scrubbing floors, but not for the skin. Ivory Soap makes a creamy lather that rinses easily and takes the dirt with it. The natural oil of the skin washed with Ivory Soap is not removed, and the skin is left soft and smooth.

IT FLOATS.

SPORTING.

GOLF

N. Pendleton Rogers, of East Front street, went to Metuchen Saturday and took part in a team match.

William B. Mitchell, lately of the St. Andrews links, has come to this country and has been engaged by the Park Golf Club to take charge of its course and act as instructor in golf. Mr. Mitchell was on hand Saturday and met many of the members. He comes very highly recommended and is very expert in the game which he has played all his life. He will remain here until December 1st, when he goes to the south to accept a position for the winter on a course in South Carolina. He will give instruction any morning or afternoon on the club course.

Although the competitions for the cups on the links of the Park Golf Club will end with Saturaday, November 4th, the course will be kept open as late in the fall as the weather permits. While there are some who are so wonderfully enthusiastic over the game that snow and cold weather cannot keep them off the links, the club will formally close its season about Thanksgiving time. The club-house will then be closed until spring. The members will, however, have the privilege of using the course despite snow and cold. In the spring season when the turf is soft and easily cut up, no playing will be allowed.

Plainfield had two representatives who took part in the intercollegiate golf championship which was contested at the Garden City links this week. W. Lester Glenney, of Webster place, a member of the Hillside Tennis and Golf Club, was on the Columbia College team which was defeated by the Harvard boys Tuesday. Glenney was defeated. Willard Wadsworth, of West Eighth street, also a member of the Hillside Club, was on the Harvard team and defeated his opponent from Columbia 7 up. He was afterwards defeated by his opponent in the match with Princeton. Both contested in the individual intercollegiate championship that was begun Thursday. Both were included in the second eight and did not have an opportunity to the first round of match play.

ON THE DIAMOND.

The Scotch Plains football team defeated the North Plainfield High School Saturday morning by a score of 17 to 0. The game was played at Scotch Plains.

The Lincoln High School football team, of Westfield, went to Rahway Saturday afternoon to play with the R. A. C. team, but the game broke up in the second half with the ball dangerously near the Westfield goal. Neither side scored up to this point. A Rahway man got the ball and started for the goal line, but would have been doomed but for the action of Boland of the home team, who held his opponent until his fellow player was out of danger. The Westfield team claimed that the ball should be placed in play at the point where Manning was held, but this the Rahway players objected to and the game ended.

ROD AND GUN.

There was a good attendance Friday afternoon at the live bird shoot held in rear of Casteline's hotel at New Market. Messrs Balloff and Bessett, of New Brunswick, captured the lion's share of prizes.

There has been considerable Sunday hunting in the woods between Westfield and Willow Grove lately. Two game wardens were out Sunday looking for the law-breakers. They heard several shots fired, but did no succeed in making a capture.

CYCLING COMMENT.

Have you seen the new wheel? No objectionable chain, no cranks, sprockets or beveled gears; an up-to-date machine and a radical departure from anything ever attempted before. Agency of Wilford-Hall Co., 310 and 312 Park avenue.

No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50 cents at L. W. Randolph's Drug Store.

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with Typhoid Fever, that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even set up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all Throat and Lung Trouble. Regular sizes 50 cents and $1.00. Trial bottles free at L. W. Randolph's Drug Store; every bottle guaranteed.

In a Nutshell:

Regular collections; intelligent washing; careful ironing, prompt deliveries. This makes a good laundry. People who have known us as dyers for thirty years back may not realize that we are doing the largest laundry business in New Jersey. Send us your bundle for a trail.

HILLIER & CO.,
129 West Front Street,
Opposite Crosby & Hill's. 'Phone 851.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders

—S. Scheuer & Co., the West Front street grocers, received two wet letters this morning that were submerged on the sunken ferryboat Chicago. Other merchants also received mail in the same condition.

MR. HOBART'S CONDITION.

The Vice-President Resting Easily This Morning.

Vice-President Garret A. Hobart spent the most restful night last night that he has experienced in the past two weeks. He fell asleep late under the influence of opiates and did not awaken during the night.

Mr. Evans, Mr. Hobart's, private secretary, said shortly before 8 o'clock this morning that the Vice-President's condition was more hopeful than it had been for the last few days, but again acknowledged that his chances of recovery were infinitesimal.

Celebrated Their Wedding Anniversary.

Monday evening Mr. and Mrs. Gilbert H. VanNess, of the borough, celebrated in a pleasing manning the twenty-fifth anniversary of their wedding, at which time a number of friends and neighbors called and passed an enjoyable evening. The celebrants received a number of gifts, both useful and pretty, and the occasion was one long to remembered.

Agreeably Surprised.

Miss Katharyne E. Homan, of West Fourth street, was agreeably surprised last evening by a number of her young friends. After the usual games and Hallow 'een tricks had been played, the young folks spent the remainder of the evening dancing. Music for which was furnished by Prof. O'Rielly.

Bird Missionaries.

An interesting account is given by a traveler of the moralizing effect on French boys of the company of song birds, says the Chicago Record. The traveler was shown over the industrial school of Mettray, near Tours, by its founder, a man of most subtle penetration. His idea was to moralize the juvenile malefactors of towns by employing them at farm labor. Connected with the industrial school was a chalet in an inclosed garden. This was reserved for boys belonging to rich families who had been handed over to the founder for penal discipline. He was the only person at the chalet who knew their names.

The chalet was full, and all the cases were very bad. The first stage of discipline was solitary confinement and lasted six months. The whole course lasted eighteen months, and after the solitary period recreations, such as riding, gymnastics, boating and skating were allowed. The visitor was taken into the cells of these "gilded" prisoners. Noticing in some of them birds in cages, he asked what they meant.

They meant that when a boy gave signs of deep repentance he was allowed the companionship of a bird. If he relapsed the bird was taken away, and a fearful punishment it was. But if he improved he was given drawing materials and allowed to sketch the bird. He was also given a flute and a musical warbler was sent every day to play that instrument beside an open sliding panel in the door. The bird picked up the airs. The captive tried to pick them up, too, and thus had an innocent amusement. Presently powers and water colors were given to the boy. The final stage of the solitary period was gardening. It was always found salutary.

"My Little Girl."

"My little girl," began the man with a fondly fatherly manner.

Two men among the listeners got up and went out.

"My little girl," repeated the man, as he waited for the others to settle down again, when three arose and went out softly.

Only one man remained by the stove, and he had a lame foot.

"My little girl," said the man for the third time, in a hurt tone, but with a fine determination, "is so cute and says such unexpected things that we sometimes wonder if it is good for her to be so bright. I don't think we are at all prejudiced because she is our child, but, really, she is the smartest child for her age I ever saw."

The man with the lame foot nodded, as if the statement were similar to others he had heard.

"Why, do you know," continued the man, "that only this morning as she was studying her lessons, which she is slow about learning, as all bright children are, she laid aside her book with an air of having had enough of it, and, turning to her mother, she said: 'Say, mamma, why isn't children born educated?' Now, what do you think of that?" and the man with a lame foot laughed right out and asked how old the child was.—The Detroit Free Press.

A "Ghost" Party.

A "ghost" party was given by Miss Evelyn M. Lewis, of West Seventh street, last evening, to a party of her friends. A pleasant evening was spent and the "ghost" was a decided success.

SOME NEW DOLLARS.

FRESH DESIGNS ADOPTED FOR UNCLE SAM'S PAPER MONEY.

The Treasury Dissatisfied With the "Art Notes" Now in Circulation. How the New Patterns Are Being Turned Out.

The people of this country will be spending several new kinds of money soon. Already a few specimens of it have been printed in Washington, but the Treasury will not be prepared to issue it for a while yet, because it takes a good many millions of notes and certificates to fill the demand, and after they have gone through the presses they have to dry for weeks very slowly, so that the ink on them may not blur in handling. Besides, only the one-dollar and two-dollar silver certificates are finished; the first design for the five-dollar certificates has been rejected by the Secretary of the Treasury, and the other denominations are to come.

The reason for preparing these new designs for the paper currency is simply that those which adorn the bills now in circulation are not considered satisfactory. As one Treasury official said the other day: "The pattern of the present one-dollar note wouldn't make a decent newspaper cut." A couple of years ago the Government Bureau of Engraving decided that what the country really wanted was artistic money, and it hired some well-known artists to execute designs for the various denominations of certificates and notes. It was a beautiful idea, but somehow it has not proved a success. These high-art bills now in circulation, with their allegorical pictures and ornamental shields, wreaths and things, have excited nothing but derision on the part of the public and most particularly disgust in banks and counting rooms, where their obscure numbers have made them difficult to reckon.

"A money note is a piece of work purely technical," said the Treasury official above quoted, "and the purpose of its design is as far as possible away from an idea which an artist has in mind when he sits down to make a pretty picture. One hangs a picture on the wall, or it may be suitable for a portfolio; the design of a bill requires first of all the quality of enduring wear with least possible injury. It has to pass through the greasy hands of the butcher, and across the sloppy counter of the beer-seller; it is crumbled in the pocket of the car conductor, and there is no sort of abuse that it is not liable to undergo. Accordingly, every element in the makeup of the pattern ought to have special reference to durableness. The principal lettering should be bold and black, so as not to be easily obliterated, and a good strong partrait is not only hard to obscure, but is the best safeguard against counterfeiting."

About 50 per cent. of the surface of the new bills on both sides will be left blank—firstly, in order to show the fibres of the paper better, and, secondly, designs more vividly and clearly. One trouble with the "art notes" is that their designs confuse the eye, making it more easily actually for a counterfeit to pass. The paper money about to be issued, on the other hand, is almost severely plain. An eagle with outspread wings is the principal ornament of the face of the one-dollar silver certificate, a portrait of Lincoln being engraved underneath it. The figure 1 and the Treasury seal are in bright blue, and both seal and denominational number will be of this color on all of the new certificates, so that the latter may be distinguishable at a glance from United States notes and bank notes. The two-dollar certificate has a head of Washington.

The Treasury people say that the value of the portrait as a safeguard against counterfeiting lies in the fact that we are all of us more familiar with human faces than any other objects in the world. We are accustomed to recognize our friends, and very soon we will become so well acquainted with a face on a new bill as to notice the smallest alteration in its expression. A steel engraved portrait cannot be perfectly imitated, and the difference of a line will produce a change in the expression which any one will perceive at a glance. The "art notes" have portraits on their backs, but these being printed in green are comparatively obscure, and the face of a bill, anyway, is the side usually examined.

Experts admit that a note can be made handsomer by engraving it all over, but they say that a few scattered fragments of design, very elaborate, are most difficult to counterfeit successfully. The new bills have comparatively simple patterns on their backs, but the geometrical lathe work used is at the same time very complicated in its traceries, so as almost to defy imitation. All denominational figures are made large and plain, especially at the corners of the face, so as to render counting easy. In some of the "art notes" these all-important figures are actually obscured in an attempt to make them decorative.

The fibre paper will be retained in the new bills, notwithstanding objections made to it by some experts, who urge that it is practically worthless as a protection against counterfeiting. It was used long ago for a considerable time by the Government, but was discontinued because the people who owned the patent for it demanded an exorbitant royalty for the privilege of employing it. In the issue of United States notes of 1869 the ingenious scheme was originated of placing a band of colored fibres on the left hand side of the denominations under $20, and on the right hand side of the larger denominations, the object of this being to beat that enterprising gentleman, "Pete" McCartney, who had developed a fad for washing the ink off small pads and printing big ones on the blanks thus obtained. In this way, obviously, he could get the real Treasury paper, fibre and all, at a relatively cheap rate.—Cor. Boston Transcript.

Wise Birds.

Some Australian birds lay their eggs in black sand, as if aware of its superior power of absorbing heat; others select the neighborhood of hot volcanic springs, whose warmth plays an important part in the hatching. The mound builders collect heaps of earth and leaves as much as 18 feet high and 30 feet in diameter, and in this hotbed their eggs are hatched.

The Great Bargain Sale to Last for Three Days.

A most remarkable money saving sale of the season. Having been successful in purchasing a handsome lot of Men's and Boy's suits, overcoats and trousers of one of the most leading clothing manufacturers on Broadway, New York. They have decided to dissolve partnership and to turn their entire stock into ready cash.

Every garment that we purchased has the full name on each label and are made in the latest and most up-to-date styles. Each and every overcoat is lined with pure silk. The suits are the most fashionable ever sold in Plainfield. G. O. P. CANDIDATES WILL MEET VOTERS

Reception in Republican Headquarters Tonight.

WILL BE INFORMAL AFFAIR.

ONLY IMPORTANT EVENT IN THEIR LOCAL CAMPAIGN.

Democrats Have Their Turn Tomorrow Night—Republican "Machine" Will Get the Votes Out as Usual on Election Day—Some Workers Lack Much Enthusiasm, But No Opposition Expected in Party.

The campaign in Plainfield progresses quietly. This evening the Republicans will make a little noise. The Democrats have their turn tomorrow night. The Republicans will hold a little rally in the Republican headquarters on East Front street tonight when the voters of the city will have an opportunity to meet and converse with the candidates on the Republican ticket, who have been invited to be present. It is is expected that all the candidates will be there.

It is not intended that there shall be any speechmaking at the meeting this evening. It will be a very informal affair, the object of which is to enable the voters to meet and become personally acquainted with the men who have been chosen by the voters.

The reception is not intended only for the Republicans of the city but the independent voters and the Democrats will be welcome as well. There will be a number of the local workers on hand to introduce the guests to the candidates.

Aside from this reception, the Republican campaign will be a very quiet one in Plainfield. While some of the local workers are not as enthusiastic over the ticket as they have been in past years, there is no expectation of any substantial bolt from the regular party ticket. There are plenty of Republicans in the city and all that the "machine" will have to do is to get them out to keep up the normal majority in the city.

Plainfield's only representative on the Republican ticket this election is Charles S. Foote, of Putnam avenue, who is a candidate for the Assembly. Mr. Foote is practically unknown, even in his own party and ward, and the meeting this evening will offer a good opportunity to many to meet him. Those who were influential in nominating him are quite anxious that he should become more generally acquainted, as it is believed that his personality will win him votes.

The city and county executive committees of the Republican party met last evening to consider the situation. The county committee met at the Dix building, Elizabeth, and talked over the probabilities in the county. Reports were made from all the county, and the general concensus of opinion was that the Republican ticket would be elected by varying majorities. Of the Democratic candidates it was expected that Wm. M. Oliver would make the best run, and special pressure will be brought to bear to defeat him.

The city committee met in Republican headquarters and talked over the local situation. Final arrangements were made for the visit of the candidates at headquarters this evening. The challengers at the local polls were selected and their names will be sent the chairman of the county committee to be appointed this evening.

SOCIAL OF THE SEASON.

Pleasant Affair Arranged by Seventh-Day Baptist Endeavorers.

The social of the season for the congregation of the Seventh-Day Baptist church was held last evening at the home of Mrs. A. M. Ross, of West Seventh street, under the auspices of the Christian Endeavor Society of the church. An informal programme was given which included instrumental selections by Mrs. George Homan. Then followed charades in which all took part.

The social committtee in charge consisted of Miss Luella Clawson, chairman, Mr. and Mrs. W. C. Hubbard, Mrs. A. M Ross, Miss Mattie Green and Miss Ernestine Smith.

Delighted With Plainfield.

F. E. Hammann, chief clerk of the passenger department of the Lehigh Valley Railroad, has taken up his residence on East Sixth street. He formerly resided at Roselle, but is more than delighted with the change and he thinks Plainfield one of the prettiest places he has ever visited.

Injuries Not Serious.

Joseph Papalia, the Italian, who was injured at Wilson's stone crusher Tuesday morning, will soon be able to leave the hospital. His injuries are not as serious as at first supposed.

OTHER OFFICERS CHOSEN

FIRST DRILL OF THE HIGH SCHOOL BATTALION TOMORROW.

Three Captains and Two Lieutenants Elected—Major's Staff Chosen—Will Drill Tomorrow in the School Yard.

There is much interest shown among the boys of the Plainfield High School over the new cadet battalion that is to be organized in the school. An election was held Tuesday afternoon, when all the remaining commissioned officers except one lieutenant were elected.

Lawrence Tweedy, Fred Mason and Albert Schomp were chosen as captains of the three companies. They have not yet been assigned to their respective commands. The two lieutenants elected were David Pond and Hollywood Titus.

Cadet Major Townsend Mason has selected the members of his commissioned staff and the selections have been approved by the faculty. C. H. Fountain will be quarter-master and Walter Squires adjutant. They will hold the rank of first lieutenant.

The first drill will be held in the school-yard tomorrow afternoon from twelve o'clock until one. The first few drills will be devoted to teaching the boys the fundamental movements.

BIG SPLIT IN SMALL PARTY.

The Handful of Socialist-Labor Partisans Are Involved in Bitter Factional Quarrel.

The Socialistic-Labor party is arranging for an aggressive campaign, which will be the more interesting because of the split in the party. As told in The Press two sets of nominations were filed by the rival factions, and County Clerk Howard was called upon to decide the names to designate them.

The faction first filing certificates claimed the right to the title of the party, Socialistic-Labor. Mr. Howard has recognized both factions as legal parties, and has designated the first nominees as "Regular Socialistic-Labor" candidates, and the others as "Independent Socialistic-Labor." This designation does not give entire satisfaction to the rival factions, but has been accepted as the best solution of the problem.

The trouble of the factions is over a difference of opinion as to the trades union policy of the party, but it appears to have developed into a race war. The convention decided against the old element, represented by the Socialist Co-operative Publishing Company. The latter formed a National body of its own and those connected with it have been styled the "Kangaroos." They are composed principally of the German element of the party, but the American element now appears to be in control.

DEMOCRATIC RALLY.

Plans For It Are Now Completed and All Is Ready.

Plans for the Democratic rally in the Ulrich building on East Second street, tomorrow evening, have been completed and it promises to be an event in the history of the local Democratic party. Rogers' orchestra will be present and render a number of selections during the evening. Delegations from Westfield, Cranford, Elizabeth and other parts of the county will be present.

Last Chance to Register.

The county board of election will be in session at the court house today from 8 a. m. till 5 p. m., for the purpose of adding to the register and making erasures. There are many voters who have not registered. These can go personally before the board today or Saturday, where there will be another session, and secure a certificate to the district board in which they vote.

Buying Monthly Tickets.

Yesterday being the first of the month there was a great rush at the North Avenue station for commutation tickets. As a rule most of the commuters wait until the first day before they purchase their tickets, and it gives Ticket Agent Nelson all he wants to do to wait on the great crowd.

Once Lived In the Borough.

It is not generally known, but James J. Bergen, candidate on the Democratic ticket in Somerset county, was at one time a resident of the borough, where he married his first wife, who was the daughter of the late T. W. Young, who then resided on Brook avenue, where Mr Loizeaux now lives.

Her Seventeenth Birthday.

Monday evening a party was tendered to Miss Irene Maire, of this city, in honor of the anniversary of her seventeenth birthday. There was a large number of friends present. Games and other forms of amusement helped to pass a pleasant evening, and at midnight supper was served.

GLASER UNABLE TO MEET VOTERS.

Serious Sickness Interferes With His Campaign Plans.

REPUBLICANS HUSTLING.

THEY ARE MAKING A STUMPING TOUR OF TOWNSHIPS.

Democrats are Devoting Particular Attention to the Cities—Registration in Elizabeth is 1,000 Short Over Last Year—Oliver's Friends are Doing Their Best to Get Out His Full Strength.

The Union County Democrats are badly handicapped in their plan of campaign by the continued illness of their candidate for Sheriff, Jacob Glaser, who cannot take any part in the fight. Mr. Glaser has pneumonia, and a consultation of physicians was held at his home. They say he will recover, but that he cannot leave the house for two or three weeks.

Mr. Glaser's presence on the stump, his friends say, would have been worth hundreds of votes to the Democratic ticket, as he is immensely popular among the German-Americans. It is a coincidence that five years ago William M. Oliver, who is running on the ticket with Mr. Glaser for County Clerk, was stricken with severe illness a few days before his nomination by the convention and was unable to leave his house until some weeks after the election, which fact contributed largely to his defeat.

The Republican candidates on the county ticket started yesterday on a stumping tour of the townships, but the violent rainstorm interfered greatly with their programme, and part of it had to be abandoned. They will make make another attempt today and tomorrow.

As to the Democrats, it is doubtful if they will make any tour of the rural districts, but will confine their efforts to the cities.

The registry in the Democratic stronghold at Elizabetbport is nearly 1,000 short of last year. Added to this the party leaders seem to be apathetic. The principal effort that appears to be making is that of the friends of William M. Oliver, the Democratic candidate for County Clerk, and they are pursuing a vigorous still hunt for votes.

The Republican captains in the various wards of Elizabeth are hunting up every Republican who has failed to register and declare they will have them all before the County Election Board Thursday and Saturday and secure certificates which will enable them to vote next Tuesday.

VISITED LAWYER M'CLURE.

He Was in Three Gates and Lost a Piazza Chair.

Some of the boys succeeded in playing a few tricks which the police failed to discover. At the home of Lawyer W. K. McClure, at 108 Crescent avenue, three gates were left and one of the comfortable chairs that the counsellor occupies on hot summer evenings was appropriated. Mr. McClure says that he should be pleased to have the chair returned; or if the kind friend who took it will tell him where it can be found he will gladly go after it himself. Two of the gates have been recovered by their owners. There is one gate still left, however, which Mr. McClure will cheerfully turn over to its rightful owner.

Residential Improvements on Grove Street.

Mr. Warman's residence, corner of Grove street and Mercer avenue, has been greatly improved by renovating coats of paint. Lewis Barkalew's house, corner of Grove street and Lincoln place, has a scaffolding and an outline in timber of an extended piazza, with projecting corner, that will be a marked improvement. Piazzas, with projecting corners, combine so much coolness and comfort with the added space, that the future occupant of Mr. Barkalew's house is to be congratulated on this addition.

Mr. Fisk Home Again.

Former Mayor Charles J. Fisk was greeted on the street yesterday after an extended absence from the city. He received many cordial handshakes from his friends. When questioned politically he talked cautiously.

Bulb-Planting Meeting.

The Juniors of the Congregational church are to have a bulb-planting meeting tomorrow afternoon at 3:45. Each Junior is to receive a bulb and a pot and directions for the care of the plant.

Not on Registry List.

It is said that the seventy odd additional votes polled in the First ward at the recent Republicon primary do not appear on the registry list, now complete.

BOARD BILL FOR $5,000.

ALSO A NOTE FOR $1,000 THAT HAS RUN FOR 18 YEARS.

Queer Contending Claims That are Made Against the Estate of a Somerset County Man by Relatives Whom He Owed

(Special to The Daily Press.)

Somerville, Nov. 2—Vice Chancellor Reed has been at the Court House here for the purpose of examining witnesses in the case of Schenck against Duryea. The complainant, Mrs. J. R. Schenck, of Neshanic, desires to have a judgment executed against the estate of the late Court Duryea of Blawenburg, set aside He was a brother of Mrs. Schenck, against whom she held a note for $1,000, executed 18 years ago. Mr. Duryea resided with his sister-in-law, Mrs. L. Duryea, of Blawenbury. After his death Mrs. Duryea presented a claim for $5,000 for the board and keep of the deceased for 20 years. A farm owned by Mr. Duryea, and unencumbered at the time of his death, was sold under foreclosure to satisfy the claim, which left nothing on which Mrs. Schenck could realize the value of her note for $1,000. She now charges that Mr. Duryea's claim is a fraudulent one.

James L. Griggs and ex-Judge Kuhl appeared for the complainant, and Alvah A. Clark and Charles A. Reed represented the defendant. There has been much testimony taken in the case Oct. 13. It will be argued in the Court of Chancery at Trenton.

BAPTISTS TALK ON DIVORCE.

Pass Resolutions Opposing Remarriage of Divorced Persons.

The New Jersey Baptist Convention in session at Newark yesterday expressed its views on divorce and polygamy.

Among the resolutions adopted was the following:

Resolved, That, deploring the increase of divorce and recognizing the family life as the foundation of our social order, we urge the ministers connected with this convention to have no part in the remarriage of divorced persons, except those who may be such on scriptural grounds.

The convention placed itself on record as opposing the seating in Congress of Congressman elect B. H. Roberts, of Utah, because of his polygamy. It also opposed the toleration of polygamy in the Philippines.

WANT ADMINISTRATORS REMOVED

Two Motions Made by the Lawyers in the Richardson Will Contest.

(Special to The Daily Press.)

Elizabeth, Nov. 2.—In the Union County Orphans' Court yesterday an application was made to Judge Vail by Richard V. Lindabury for the removal of Joseph N. Richardson and Mrs. Martha VanTassell, two of the administrators pendentelite of the will of the late David Richardson, who are now contesting the will.

Craig A Marsh, of Plainfield, who is counsel for the contestants, made a counter move by asking the Court to remove Sarah Amelia Richardson, the third administrator, who is the chief beneficiary of the will.

The Court decided to postpone for a week both these applications, and meanwhile Judge Vail will look into the matter.

Asleep in the Gutter.

Patrolman Mattox was the leading figure in the city court this morning. He appeared against several offenders who kept him busy most of the evening in putting them in jail. Frank Miller works on the farm of his brother on Rahway road. He drank for the first time in nine years and the officer found him asleep in the gutter on East Front street. With the assistance of Sergeant Kiely, he was locked up. Sentence was suspended.

Realty Changes.

The following real estate transfers have been recorded from North Plainfield in the Somerset County Clerk's office: Selah Schoonmaker, Sheriff, to Fidelity Trust Co., $2 500; Borough of North Plainfield to Catharine E McFarland, $283 18; George F. White et al to John Colder, $1,750; Herbert H. Robinson to Charlotte DeMeza, $1.

Patent for Plainfielder.

Louis Bagger & Co., patent attorney, Washington, report that last Tuesday P. R. Buckelew, a resident of this place, obtained a valuable patent for improvements in pencil sharpeners, and to other residents of this State fifteen patents were issued on the same date.

Talked Over Realty Matters.

The S. D. Drake Realty Company held a meeting Tuesday evening and talked over matters concerning local property, and how the interests of the city could be advanced. In a few days there will be some surprises in the real estate circles in this city which will be of advantage to Plainfield's growth.

STONE CRASHED INTO BLUE LINER WINDOW

Frank Edmundson, Accused of Offense, In Police Court.

PASSENGER ALMOST HIT.

STONE THROWN AS TRAIN WENT BY GRANT AVENUE.

Edmundson Was With a Gang of Other Young Lads, and Proposed and Carried Out the Act of Throwing the Stone—Offender Was Let Off in Court When His Mother Paid Damages.

A Philadelphian sat by the window in the smoking compartment to one of the coaches on the east-bound Blue Line flier due in Plainfield at 4:49 yesterday afternoon. As they flew past the Grant Avenue station the Philadelphian turned away his face. The next moment a large rock came crashing in the window, covering the passenger with fragments of glass which came whizzing by where his face had been. Frank Edmundson, ten years old, of 531 West Third street, was hailed before City Judge Runyon this morning to answer for the throwing of the rock.

Frank used to be a messenger boy for the Western Union Telegraph Company in this city but a week ago he spent an afternoon hunting for chustnuts without bothering to notify his employers. As a result Frank says he was "poked." Yesterday afternoon he wandered afield with John Warren, Tom Marley, Walter Manley and Frank Marley, companions of his own age. At dusk they were on the railroad embankment and the Blue Liner came along.

Frank says that one of his companions suggested the idea and threw first but wild. The others all agreed that Frank was the originator of the plan. His widowed mother told the Judge that Frank had not behaved of late as she would have wished and didn't go to school now that he was out of work but wandered about with his "gang."

Frank was arrested yesterday afternoon by Roundsman Frederickson, who went to the scene of the throwing as soon as the matter was reported by the conductor of the train. Frederickson captured all five of the boys and they were all on hand this morning.

The Judge told Frank that it was a very serious offence and might have been worse had not the passenger looked the other way just in time. He agreed to let him go if Frank would pay for the window and promise to obey his mother and go to school until he could get a job. Frank promised.

Detective Blackford, of the railroad company, was present and said that the company would let Frank off for $1, although the window costs nearly three times that amount. The money was paid by Mrs. Edmundson.

MUST ANSWER MURDER CHARGE.

Ovnak Dies After Accusing Zsiga of Shooting Him

(Special to The Daily Press.)

New Brunswick, Nov. 2—Imre Ovnak, the Slav, who was shot in the abdomen Monday night at Keasbys, near Perth Amboy, after a quarrel with Vitanyi Zsiga, died at the Wells Memorial Hospital in New Brunswick yesterday. Pyhsicians at the hospital tried to locate the bullet by probing, but without success. Inflammation set in and the man died in agony.

Prosecutor Voorhees has instructed the Sheriff to hold Zsiga, who is accused of having fired the fatal bullet. Ovnak made an ante mortem statement accusing Zsiga.

Stephen Bonaz is held as a witness, and, it is understood, he corroborates the statement made in the ante mortem statement of Ovnak.

Stolen Property All Recovered.

The last of David C. Smalley's stolen property was returned to him yesterday. This comprised the harness, boots, etc., which went away with the horse and wagon they were stolen. The harness looks much the worse for wear, and shows that it was given very hard usage.

Getting Work Again.

A number of the colored men who were discharged from the foundry at the Pond Tool Works last Saturday have secured employment elsewhere, and they say that they have better jobs. A few are out of employment, but some of these have been promised places soon.

Enjoying Sights in Paris.

Clarence Murphy, of West Front street, received a letter recently from his parents, who are traveling abroad, and they are in the best of health. At present they are enjoying the sights in Paris.

BERGEN MET FRIENDS.

HELD A RECEPTION IN THE BOROUGH LAST NIGHT.

Told a Press Reporter That He was Not Making Any Claims, but was Confident His Friends Would Stand by Him

James J. Bergen, of Somerville, candidate for State Senator, visited the borough last evening and held a reception at Democratic headquarters for two or three hours. During that time a large number of Democrats, as well as Republicans, called and met the candidate.

While Mr. Bergen was in the borough he did not make a speech, preferring to talk personally to his friends, and give them a cordial handshake. He was asked by a representative of The Daily Press what he thought of the result. Mr. Bergen replied that he never made a point of counting majorities, but believed in working hard and constantly up to the time the votes are put in the box Then he felt contented to let the best man win. He made no boast of what he is doing and had nothing to say regarding his opponent. Still he believed that his friends would stand by him. He left town on the 9:08 train for Somerville, where he was to meet some more friends.

ALL PLEADED NOT GUILTY.

Eighteen Prisoners Were Arraigned on Indictments in Union County Yesterday.

(Special to The Daily Press.)

Elizabeth, November 2—In the Union County Court of Special Sessions yesterday morning, before Judge Vail, eighteen persons who have been indicted by the Grand Jury for various offences, chiefly larceny and assault and battery, were arraigned, and pleaded not guilty. Their trial will take place during the first part of this month.

Peter Yocus and Stanislaus Rockorosky, of New York, who, it is alleged, stole a safe containing $1,000 from John Newstead's saloon at Elizabethport, and dumped the safe into the Elizabeth river, were arraigned, and pleaded not guilty, their trial being set down for November 14th, as was also that of their alleged woman accomplice, Theodora Gayesta, of New York.

William J. Kilpatrick, of Roselle, who at the last term of court was convicted on two indictments for selling beer and liquor without a license and was fined $100 and costs for the offense, has been again indicted for the same crime, and pleaded not guilty.

GOWNED THE NEW WOMAN.

Pleasant Time at Surprise Party to Mr. and Mrs. Frank Wyckoff.

Mr. and Mrs. Frank Wyckoff, of Watchung avenue and Race street, were given a surprise last night, which proved one of the pleasant social functions of the autumnal season. About thirty of their most intimate friends, armed with an abundance of good things to eat, dropped in upon them and enjoyed a delightful evening.

The fact leaked out that it was Mr. Wyckoff's birthday and his many friends decided to let him realize that he was not forgotten. The evening was passed in playing games, music, etc. The most amusing feature of the festivities was the "New Woman" game, which was played with a vim and heartily enjoyed by the participants. Mrs. Isaac P. Runyon captured the first prize, a decorated piece of china, for coming the nearest to properly dressing the inanimate creature. Furman Long lead all the men for the second place of honor, and for his cleverness was awarded a moustache cup of pretty design. Lawyer J. P. D. Kirch, whose knowledge of how the up-to-date woman should be dressed is yet quite crude, had to be content with the booby prize, a miniature bicycle made from good American tin. During the evening the guests regaled themselves with the refreshments which they had brought along.

In Honor of Birthday.

Tuesday evening a pleasant surprise was given to A. C. LaBoyteaux, of Fairview avenue, by his wife, the occasion being the anniversary of his birthday. The celebrants's Sunday-school class was invited and a very enjoyable evening was passed socially. Many happy returns of the day were extended to the host as the guests departed for their homes.

Hustling for Votes.

If at all possible the full vote will be polled in the borough this year. It is understood that both parties are making a house to house canvass in the interest of their candidates, and it appears to be nip and tuck as to who will get the votes.

—Press want ads bring results.

DEMOCRATIC CLUB HAS BEEN STARTED.

First Formal Steps Taken at a Meeting Last Night.

BOARD OF GOVERNORS.

THEY WILL ARRANGE ALL THE DETAILS OF ORGANIZATION.

There Are Assurances That the Club Will be a Complete Success—Club House to be Kept Open the Year Around—To be Made Attractive for All Entitled to the Privileges.

Since steps have been taken to put more life in the local Democracy by the younger element of the party there has been considerable agitation for the organization of a Democratic Club for political-social purposes. The idea has been to get enough Democrats together who would join such a club and maintain a clubhouse throughout the year.

After several informal conferences on the subject, a number of those interested met together last night and took definite steps for the formation of such a club, and from this time forward those who have signified their willingness to aid in the success of such an affair will devote their energies in that direction.

The meeting last night was attended by representative Democrats, who are full of interest for the elevation of the party character in Plainfield, from each of the wards.

After the project had been discussed and the various ideas in connection with it explained by those who have taken the initiative, W. W. St. John was chosen chairman of the meeting, which immediately resolved itself into the neuclus for the Democratic Club, which was adopted as the titular designation of the organization.

The selection of a board of governors upon whom is imposed the duty of adopting a constitution and by-laws for the government of the club, as well as arranging all ways and means for its permanent establishment, was then taken up and the following members elected to the board: Judge Wm. A. Coddington, H. W. Marshall, John H. Hillman, Edward C. Searing, W. W. St. John, Edward M. Tomlinson and John Moran.

The board of governors will meet tonight and take immediate steps to have the club thoroughly organized and put in running order by the end of this month.

It is the purpose to rent suitable club rooms, which will be furnished in a cosy manner and kept open for the use of the members of the club every day in the year. Papers and magazines will be kept on file, various games maintained, and everything done to make the place attractive and entertaining for those entitled to its privileges.

There are few towns the size of Plainfield that maintain strictly political social clubs, but the present project has been carefully considered by those who have undertaken to consummate it, and there are assurances that it can be maintained with credit to the Democratic party and satisfaction to all the members who join it.

The details as to fees, membership qualifications and other essential details will be left to the board of governors.

Church Industrial School.

The industrial school connected with the Heavenly Rest parish is once more progressing with rapid strides, as the former superintendent has resumed her duties and with her efficient corps of teachers expects to accomplish more work than last year. Several new features have been added, the most important of which is a dressmaking department. The dues are just the same this year, one cent a week. The school opens every Saturday at 2:30, and any child will be gladly welcomed.

To Build Trolley Car Vestibules.

W. J. Pearson, the contractor, has been engaged by Superintendent John Adelmann, of the Plainfield Street Railway Company, to build the vestibules for the ten new trolley cars purchased by the company for use between this city and Elizabeth.

Talk by a Big Chief.

Paughcaughnaughsinque Tribe of Red Men had an interesting gathering at their wigwam last night. Besides a talk by Big Chief McGue, five pale faces were given the adoption degree and one application for membership was received.

Barber's Itch Prevalent.

A very disagreeable thing that seems to be going the rounds in Plainfield is the tetter, or barber's itch. There are a number of cases, and in some the afflicted ones are great sufferers.

NEGROS MORE PEACEFUL

Encouraging Reports Are Received From Gen. Hughes in Bisayan District.

FOUR TOWNS ARE TAKEN

Copy of a Message to Aguinaldo is Found on a Captured Telegraph Operator at Aliaga.

Americans Still in Pursuit Of Bandits In The Philippines—Gen. Young's Advance—Filipinos Are Dispersed—Several Towns Attacked—The Philippines Report.

Manila, Nov. 2.—Gen. Hughes, commanding in the Bisayan district, has sent an encouraging report. He says the island of Negros is more peaceful and orderly than it has been for twenty years. The planters are pursuing their business undisturbed by the bands of brigands who long levied tribute on them. The Americans have scattered the bandits and propose to pursue them until they have been suppressed.

Gen. Young's column has entered Cabanatuan, north of San Isidro.

Col. Parker, with two troops of the Fourth Cavalry, took possession of the deserted town of Algiaga. Capt. Baston captured a telegraph operator and his escort and found a telegram to Aguinaldo from an insurgent colonel reporting that Gen. Lawton was killed in a recent fight and that his body had been sent to Manila.

The operator added that 600 Filipinos were approaching Aliaga from Tarlac. Capt. Batson's scouts are ambushed awaiting them.

Col. Hays, attacked the towns of Talavera and Cobal. He dispersed 150 natives and pursued them for three miles. Two brass cannon and a quantity of ammunition, including many Hotchkiss shells, were captured. Captain Batson took a storehouse and quantities of rice, sugar, corn and forty bullock carts.

The British steamship Lebuan of Hong Kong, 500 tons, with a prize crew from the United States gunboat Castine on board, has arrived here. She was captured while running the blockard of Zamboanga. She had unloaded her cargo of merchandise.

To Report On Philippines.

Washington, Nov. 2.—The members of the Philippines commission, Admiral Dewey, Professors Schurmann and Worcester, and Col. Denby, will make a preliminary report to the President before the end of the week, and it is understood the report will be immediately given to the public. The report is to be prepared at the request of the President, as a result of a conference between the President and the commission at the White House.

Prof. Schurmann said, after he left the White House, that the report to be made this week would cover certain phases of the situation which the President desired cleared up at this time. When asked if the report would touch upon the so-called Sulu treaty (the arrangement made between Gen. Bates and the Sultan of Sulu), Prof. Schurmann replied in the negative.

"That was purely a military arrangement," he added, "with which the commission had nothing to do."

The significant feature of Wednesday's conference was the revelation that the commission is absolutely unanimous in its view respecting the proper line of treatment of the islands.

Had a Storm of Grasshoppers.

English, Ind., Nov. 2.—A severe storm visited this section, and after it was over grasshoppers, almost as plentiful as the rain drops that had just fallen, fell from the sky. In the town the pavements were covered to a depth that made walking miserable. It is feared that they will greatly injure the wheat crop of this section, as it seems they have come to stay until cold weather shall kill them.

Duncan Will Not be Tried.

Indianapolis, Nov. 2.—John Duncan, who murdered Mary Cole, his mistress, several months ago, will never be tried for the crime, his insanity being undisputed. The defense offered to experiment with the X-ray to show that his brain was diseased, but records were uncovered showing that he had been declared insane long before the murder, but had fled to avoid transfer to a hospital.

Married a Rich Klondiker.

Mishawaka, Ind., Nov. 2.—James E. Leedy, who went to the Klondike last year, has just returned. He says Dr. Luella Day-Underhill, the Goshen lady physician who went to Alaska some years ago, and is said to be the only female practitioner in the vicinity of Dawson, married in October, 1898 "Red" McConnell, one of the richest men in Dawson.

Captain Lowberg Fatally Injured.

Oakland, Cal., Nov. 2.—Captain C. Lowberg of New York, one of the best known navigators in the United States, fell head foremost into the hold of the old condemned steamship Professor Morse and fractured his skull. He will probably die.

Ten Years For Homicide.

Salem, N. J., Nov. 2.—George Willetts, colored, on trial for the murder of ex-Councilman Mason M. Bennett, on Dec. 28 last, has been convicted of murder in the second degree, and sentenced to ten years in prison at hard labor.

Cape Charles Lightship Adrift.

Washington, Nov. 2.—The lighthouse service has been notified that the Cape Charles lightship, off the entrance to Chesapeake Bay, parted her moorings in the gale Wednesday and is adrift.

$125,000 Fire in Chicago.

Chicago, Nov. 2.—The five-story building, No. 39-43 West Washington street, has been burned to the ground. The loss is estimated at $125,000.

JEFFRIES FAVORED.

Reasons Why He Is Picked to Win the Big Fight.

New York, Nov. 2.—The fact that the sporting men still continue to make Jim Jeffries the favorite over Tom Sharkey in their coming fight, which takes place at the Coney Island Sporting Club Friday night, may be explained in two ways. In the first place a great many racetrack men, book-makers and baseball players who were present at the fight between these two big fellows in San Francisco two years ago, claim that Jeffries won fairly from the ex-sailor, and that the latter ran away from Jeffries all through the battle. This statement has frequently been substantiated by Jeffries himself and also by his manager, Billy Delaney.

The sports who saw that fight claim that Jeffries could beat Sharkey any time he started with him, and as Jeffries also made such short work of Fitzsimmons, the victory coupled with that of the one over Sharkey, is, no doubt, responsible for his being the favorite in the betting, which is now quoted at 100 to 70.

That this fight will be one of the greatest betting affairs of its kind that has ever taken place in this country there can be no doubt. In every sporting resort these days the sports are talking nothing else but the big fight, and as they all intend to bet from $100 up to $5,000 each on the battle, it is roughly estimated, taking into consideration the presence of the out-of-town sports, that over $200,000 will be wagered on the battle when the men enter the ring. There will certainly be double the amount of money bet on this fight than was wagered in the Jeffries-Fitzsimmons battle.

In Friday's fight the principals are men who have been winning fights right along, and as they have also won from opponents who were looked upon as the premiers of the prize ring, the sports have been worked up to such a pitch of excitement that they cannot help having a bet on the result.

The out-of-town sporting men have begun to arrive here, and at the present time the different hotels are fast filling up with the strangers from all parts of the globe who have come on to witness the important mill. The majority of the new arrivals are stanch admirers of Jeffries and as they are only too anxious to bet their money on the present champion, the betting on the fight will be brisker from now on than it has been at any time since the fight was arranged.

The advance sale of tickets for the fight is very large, indeed, the estimated amount of money taken in for tickets being over $30,000. Every box and choice seat has been sold, the Wall street brokers having bought the best places.

ANOTHER COMBINE.

Astor, Widener and Whitney Trying to Control Telephones.

Philadelphia, Nov. 2.—One of the greatest financial combinations of the century is in process of formation. The organizers of the Continental Telegraph, Telephone and Cable Company, recently incorporated in New Jersey, have obtained control of all the independent telephone companies in the United States, and aim to combine therewith the great telegraph companies and the Atlantic cable companies.

The office of the new concern is in the American Surety Company's building, New York city. From various sources it is reported that the capitalists interested in the venture include J. Pierpont Morgan, George J. Gould, John Jacob Astor, William C. Whitney, P. A. B. Widener and William L. Elkins.

Verification of the story has been obtained from Mr. Widener at his home in Ogontz. He talked freely of the colossal scheme, which, he says, will bring about a sweeping reduction in the cost of transmission of electrical messages all over the country. Among other things he said: "The plan has been under consideration for some time. Mr. Martin Maloney, who was the active agent in the enterprise, and who may be said to have engineered it, has been in New York for about a year. His efforts culminated when he succeeded in sufficiently interesting big financial men in New York. Among these is John Jacob Astor. He is now one of the prominent movers in the concern.

Lots Of Money Coined.

Philadelphia, Nov. 2.—During the month of October more than 20,000,000 pieces of money were coined at the mint in this city, representing a total value of $3,263,563.26. Of the coins 175,000 were Costa Rican pieces of 20, 10 and 5 colone value, worth altogether $698,023. Of United States money 26,000 were eagles, 1,602,000 half dollars, 3,368,000 quarters and 3,580,000 dimes. In nickles and pennies 11,250,000 pieces were cast, valued together at $304,450.

Della Fox Is Better.

New York, Nov. 2.—Miss Della Fox, who has been critically ill at her home in this city, is reported to be greatly improved and practically out of danger. Miss Fox's nurse gave out the information that the attending physician now considers that the actress will recover, but has not given permission that she be told of her mother's grave illness in St. Louis.

Nothing Heard of Andree.

Berlin, Nov. 2.—A telegram from Copenhagen states that the last steamer from Greenland, the Ceres, reports that she could hear no news of Andree. No further news of him is expected this year.

THE MARKETS.

New York, Nov. 2.—The stock market was fairly active and with an uncertain tone. The transactions, in the main, showed slight gains over the final figures of yesterday, but the tone of the trading was irregular. The London and Paris markets were closed over the All Saints' Day holiday, so little or no influence was exerted from that quarter.

Cash quotations for provisions: Wheat was quiet. No. 2 red, 76c. Corn closed steadily. No. 2, 40⅝c. Rye dull. No. I Western, 64½c. Flour was unchanged at $5.95@$4.20. Pork firm; mess $9.50@$10. Lard easy, $3.55. Sugar and molasses unchanged.

A Bold Assertion.

The Assertion Made in the Introduction to This Plainfield Citizen's Statement is Literally True.

There is only one proprietary article on the market which gives local evidence touching its merits; home proof to back up its claims; Plainfield evidence for Plainfield people. Statements from people we know in place of statements from strangers. That preparation is the one endorsed by Mrs. M. A. Hall, of 219 Prescott place, who says: "Doan's Kidney Pills without exception is the best medicine I ever used. My kidneys troubled me for several years with dull, aching pain across my back, and at times extending to my hips. I was compelled to lie in just one position at night, stooping, lifting or bending forward aggravated the pains. I was also subject to severe headaches and was more or less nervous. A kidney weakness which was very distressing and inconvenient also existed and though I used different remedies that were recommended to me I obtained little if any relief. I saw Doan's Kidney Pills highly endorsed in our daily papers and procured a box at L. W. Randolph's drug store. It was not long before I felt great relief and I was surprised how quickly the pain in my back disappeared."

Doan's Kidney Pills for sale by all dealers; price 50 cents a box. Mailed on receipt of price by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name—Doan's—and take no other.

SORROW IS EXPRESSED.

Vice President Hobart's Condition Causes Deep Gloom in Washington.

HAS WON MANY FRIENDS.

Senators, Both Old and Young, Like Him as a Presiding Officer of the Upper House.

President McKinley Sits Up Late To Receive Bulletins in Regard to The Vice-President's Health—The Date Of Admiral Dewey's Wedding Not Yet Announced.

Washington, Nov. 2.—The announcement of the illness of Vice-President Hobart causes the greatest gloom in Washington, and sincere sorrow is expressed everywhere at his serious condition. Mr. Hobart is exceedingly popular here, and every one had been rejoicing at the news from Paterson received here only a day or two ago, that he was improving and thinking of coming back to Washington and opening his house next month. Therefore the news of his relapse came as a great shock. The President is especially affected, and remains up until late at night to get the latest bulletins from the sick room, and when he does retire he leaves word to be called if any important news comes. When he left for Richmond Tuesday he gave instructions that bulletins as to Mr. Hobart's condition be sent him, and one of the first questions asked on his return to Washington was, "How is the Vice-President?" The friendship and attachment between these two men is remarkably strong and sincere. All last spring, when Mr. Hobart was so ill and the President himself was kept at home most of the time by the illness of Mrs. McKinley, he always found time once or twice a day to walk across to the Vice-President's house and inquire how the invalid was getting along. Mr. Hobart has been one of the few presiding officers of the Senate who have won and held the affection of the Senators. He has made a model presiding officer by his fairness and consideration, and has won the esteem and respect of the older Senators as well as the younger ones who came into the upper branch of Congress when he took the oath himself.

No Date For Dewey Wedding.

Washington, Nov. 2.—Everybody is now wondering when the wedding of Admiral Dewey will take place, but the date is kept secret by both the Admiral and Mrs. Hazen. The Admiral when asked about it says, "The sooner the better," but gives no hint as to when the event will take place.

Another wedding in prospect is exciting much interest in Washington, not only in social but in diplomatic circles. This is the coming nuptials of Hon. Lillian Pauncefote, the youngest daughter of Lord Pauncefote, the British Ambassador, and Mr. Alfred E. Brumly, one of the attaches of the British Embassy at Washington. The engagement of the young people was announced in London the other day, and it was said here that the wedding would take place in Washington next February. Mr. Brumly is in London with Lord Pauncefote and his family, and will return to this country with them. Mr. Brumly is attached to the British Embassy, but has no official rank, he occupying one of the honorary positions similar to that held by the Earl of Westmeath, who appeared in the official diplomatic directory as "attache." Mr. Brumly is quite a young man, exceedingly good looking, and although he has been in Washington but a short time, a favorite in society. Hon. Lillian Pauncefote is the youngest of the Ambassador's three daughters, and is also a favorite in social circles here. The wedding undoubtedly will be a great social event, as it will take place just at the height of the season. As the members of the British Embassy attend St. John's P. E. Church, it is thought that the ceremony will take place in that historic edifice.

Was Without An Official Head.

Washington, Nov. 2.—By a strange set of circumstances, the War Department from Tuesday until Wednesday was without an official head, there being neither Secretary nor Acting Secretary to sign the mail. Secretary Root went to Richmond with the Presidential party to witness the launching of the torpedoboat Shubrick, and Assistant Secretary Meiklejohn is out at his home in Nebraska, while General Miles, who, according to law, is the Acting Secretary of War in the absence of the Secretary and Assistant Secretary, is also in the West, and so there was no Secretary of War, even Adjutant-General Corbin being out of town.

Ohio Burglar Sentenced.

Noblesville, Ind., Nov. 2.—James E. Smith, aged 19, of Dayton, Ohio, has been sentenced to 14 years in the penitentiary on a plea of guilty to the charge of burglary. In company with Walter Davis, of Chicago, they committed a series of robberies in this county. Davis received a similar sentence.

Watson is Against Roberts.

Richmond, Ind., Nov. 2.—Hon. James E. Watson, Congressman from this district, in a letter received by the Richmond Ministerial Association, states that he will vote against the seating in Congress of Hon. B. H. Roberts, of Utah, the polygamist Representative elect.

Noted Singer Dead.

Stockton, Cal., Nov. 2.—Ugo Talbo, once a celebrated tenor and the leading man for Patti, is dead at the Detention Hospital. He was well connected in England.

Mangled by An Engine.

Evansville, Ind., Nov. 2.—Mrs. Lillie J. Hancock, aged 63 years, was run over by an I. C. switch engine here and instantly killed.

MAY BEGIN A LIBEL SUIT.

Gen. Funston Gives Orders To Proceed Against Archbishop Ireland.

Kansas City, Mo., Nov. 2.—A special from Albuquerque, N. M., says:

"General Frederick Funston, who is en route home with the mustered out Twentieth Kansas Regiment, has instructed his Topeka attorneys to bring proceedings against Archbishop Ireland of St. Paul for criminal libel because of statements attributed to the Archbishop in a recent interview.

"General Funston also instructed his lawyers to begin criminal and civil prosecutions against a Catholic paper of San Francisco, which first printed the story.

"In a recent interview in Chicago, Archbishop Ireland was quoted as saying that General Funston had been charged with looting the Catholic churches in the Philippines. The charges alleged to have been referred to by the Archbishop were made by a San Francisco paper soon after the landing of the Kansas troops in San Francisco.

"The paper stated, it is said, that General Funston had taken two magnificent chalices from a certain Catholic Church in the Philippines and had sent them home to his wife.

"Archbishop Ireland, in his Chicago interviews was quoted as calling upon General Funston to deny the truth of the article and sue the editor for libel, or the public would be obliged, against its will, to oelieve him guilty of the criminal acts of which he had been accused."

Lipton Sails For Home.

New York, Nov. 2.—Sir Thomas Lipton has sailed away without the America Cup, but with something which, he said, he prized much more, the kind regards and good wishes of all those who had worn the Columbia colors. Sir Thomas told all those who had come down to the American Line pier that he had been licked, "fairly and squarely licked," and that the better boat had won, but that the reception he had received here was an ample compensation. He would come back, he said, with another challenger. In the meantime he had the kindest feelings for every one. And the last his friends saw of him he was standing on the deck of the St. Louis, waving a big American flag.

Fatal Wreck on Jersey Central.

Flemington, N. J., Nov. 2.—Another wreck has occurred on the Central Railroad near Glen Gardens, caused by the spreading of the rails. Fourteen cars in the mixed train drawn by engine No. 335 were smashed and piled high up on the tracks, blocking both tracks for several hours. Harry Welsh, aged fourteen years, jumped from the train as the rails spread. He was caught by one of the cars and fatally injured. Trains were run over the Lehigh Valley until the tracks were cleared.

Twelve Were Lost at Sea.

Philadelphia, Nov. 2.—A despatch has been received by the Maritime Exchange here from Charleston, S. C., saying the steamship George L. Colwell, Capt. Gaskill, from Fernandina, Fla., for New York, has foundered. The captain is the only person saved. The George L. Colwell belonged to the Yellow Pine Steamship Company, which has offices at 16 Beaver street, New York. She was in the lumber trade and did not carry passengers. Her crew numbered thirteen.

Lives Saved by Narrow Margin.

Cleveland, O., Nov. 2.—A Willison avenue car was crossing the Nickel Plate bridge at a furious rate of speed, and when rounding a curve it jumped the track and dashed into the hand railing at the edge of the bridge. The vestibule of the car overhung a precipice of seventy-five feet. There were forty passengers aboard, and had the car moved three inches further, the lives of all on board would have been lost.

Made Gen. Tracy Angry.

New York, Nov. 2.—In the hearing before the Mazet Committee Wednesday afternoon when Richard Croker said that the Platt law firm had sent money to Albany to influence legislation, Gen. Tracy became angry and openly told Mr. Croker that the statement was false. A war of words followed in which sarcasam was used with considerable fierceness on both sides.

Silver Taken From Wrecked Boat.

New York, Nov. 2.—Nearly $50,000 worth of bar silver has been taken by divers from an express wagon on the deck of the sunken ferryboat Chicago. The wreckers have removed all of the ferryboat's upper works, the pilot houses are torn off and everything that was not of value has been allowed to float down the river.

Jumped From a Moving Train.

Elizabeth, N. J., Nov. 2.—A man, who said he was Lafayette Ingraham, of Wilmington, Del., jumped from a Baltimore and Ohio passenger car while the train was passing over a long trestle near this city. He was picked up, and will probably die. Ingraham would not tell why he jumped from the train.

Is Sorry She Married.

Morristown, N. J., Nov. 2.—Mary L. Nelson, a Salvation Army lass, says she will kill herself because she has discovered that John J. Scott, to whom she was married on October 4, is a bigamist. He married Clara Kohr in Reading, Pa., in 1885, and is now under arrest.

Methodist Bishops in Session.

Philadelphia, Pa., Nov. 2.—The semi-annual meeting of the Board of Bishops of the Methodist Episcopal Church opened Wednesday afternoon in the Church of the Covenant, Eighteenth and Spruce streets, and will be continued until Wednesday next.

Hobart Growing Weaker.

Paterson, N. J., Nov. 2.—Dr. W. K. Newton gave out the following bulletin late Wednesday night: "Vice-President Hobart spent a very favorable day. He is considerably weaker, but the indications are that he will pass safely through the night."

Notice to Taxpayers.

Notice is hereby given to the tax payers of the City of Plainfield, that the taxes assessed in said City for the year 1899 are now due and payable, and that if said Taxes be not paid by November 20th next the names of the defaulters with their respective taxes, will be returned to the City Judge for prosecution.

The Commissioners of Appeal in cases of taxation in and for said city, will meet at the Council Chamber, No. 109 Park avenue, Plainfield, N. J., on the fourth Tuesday of October next, (Oct. 24, 1899), at 2 p. m., to hear complaints relating to assessments.

J. A. MARTIN, Collector.

TEETH.

If you have any to be extracted remember you will not be hurt in the slightest. My local anæsthetic is the best that can be obtained and is not known to the other dentists in this city. Gas strictly fresh administered by an expert if you want that. If you need artificial teeth you may rest assured that the greatest care will be exercised in selecting shape and color to harmonize with the face, also to restore the features to their natural expression and fullness. This is most important.

One of the New York institutions which deserves well of the public and is receiving the appreciation that it merits, is The Home Bureau Delicacies for the Sick, which has had out its sign at 15 West 42d Street for several years. "This Bureau does not dispense medicines," said the manager recently, "but we do hear frequent discussions concerning the merits of remedies, and it seems to be conceded that Ripans Tabules are a reliable auxiliary to the physician. Some of our patrons use them to a considerable extent, and physicians assure us that the formula is excellent."

LAST WAR GOVERNOR GONE.

Alvin Saunders Passes Away at His Home in Omaha.

Omaha, Neb., Nov. 2.—Ex-Governor Alvin Saunders, a political figure of the Lincoln period died here Wednesday afternoon. He was the last of the war Governors. He was a personal friend of Abraham Lincoln and was involved in many of the stirring scenes of the last days of the Lincoln administration. He was the last man to have an interview with President Lincoln before he was assassinated, being in the President's private office at 6 o'clock in the evening, when the Executive signed a paper for him. He walked with the President from the building, when Mr. Lincoln remarked that he was going to Ford's Theatre that evening. Saunders took a train for the West, and buying a paper on the following morning learned that Lincoln had been shot. This last signature of the President's is now in the possession of the Saunders family. The ex-Governor's wife and daughter, Mrs. Russell Harrison, survive him and were at his bedside. Death resulted from old age.

SMOTHERED IN MORTAR BED.

Soldier of a Pennsylvania Regiment Meets a Violent Death.

Harrisburg, Pa., Nov. 2.—John W. Thompson, of New Brighton, Beaver county, a private in Company B, 47th Regiment, at Camp Meade, was smothered to death in a bed of mortar in the rear of the Ninth street plant of the Harrisburg Light, Heat and Power Company. His body was found face downward in the mortar, and it is supposed he fell from a stone wall during the night, being rendered unconscious by the fall. There was a letter in his pocket from his sister, Mrs. John E. Webster, of New Brighton, received a few hours before his death, in which she tells him that she has heard that the regiment is about to leave for the Philippines, and advising him in a sisterly way to be a good boy. Her husband adds this postscript: "Never be proud by any means, nor set your mark too high and always keep before your eyes that you were born to die." The body will be sent to the soldier's relatives.

"Divine Healer" Stoned.

Chicago, Ill., Nov. 2.—Several young men and boys of Cicero egged and stoned John Alexander Dowie, a so-called "divine healer," and his followers when they tried to conduct a meeting in Hoard's Hall, Oak Park, on the occasion of the conversion of the place into a branch tabernacle of the Wabash Avenue "Zion," over which the "healer" presides. The siege of the church by the mob was begun at 7.30 o'clock, and it was not till 2.45 o'clock in the morning that Dowie was rescued by a sergeant and twenty patrolmen from the West Lake street station, Chicago. The crowd had defied the Cicero police.

Steamship in a Typhoon.

San Francisco, Nov. 2.—The British tramp steamship Flinshire, which has arrived here from Vladivostock and Yokohoma, was caught in a severe typhoon off the coast of Asia, and for thirteen hours was at its mercy. She could make no headway and had to heave to for a while. At its height the typhoon played havoc on the poop deck. Everything was swept away, but the masts remained uninjured. The entire stock of fresh meat and provisions was carried overboard, and for two weeks officers and crew had nothing but a few casks af salt pork to eat.

The Moores Going To New York.

Chicago, Nov. 2.—William H. and J. Moore, promoters, are to move their headquarters to New York, and with them will go the headquarters of the big industrial corporations with which their names are connected, notably the National Steel, the American Tin Plate and the American Steel Hoop companies. Those are the companies which were to have been included in the Carnegie consolidation.

Forced His Eyeballs Out.

Clarksville, Tenn., Nov. 2.—While John Parchman, of Indian Mound, was logging a poplar log 14 feet long and 32 inches in diameter rolled over him. His eyeballs were forced from their sockets and he was badly injured internally. His father replaced the eyeballs within a few minutes and the physicians think that if he overcomes the effect of the accident that he will recover his eyesight.

Suspicious Fire at Whitestone.

Whitestone, L. I., Nov. 2.—Fire has destroyed the stable of Henry Abrams that stood in the rear of his summer house at the corner of Fifth avenue and Twenty-second street, Whitestone. One horse, two carriages and harness were destroyed. Mr. and Mrs. Abrams say that some incendiary set fire to the barn, either for the purpose of robbery or for a Hallowe'en bonfire.

Columbus Minister Sued.

Toledo, O., Nov. 2.—Rev. Purley A. Baker, of Columbus, has been sued for $10,000 damages here by Squire Moses W. King, of Rising Sun, on account of alleged false arrest and defamation of character growing out of Rev. Mr. Baker, having his pocket picked of $33 at the Union Depot here a few days ago.

The Kentucky is Swift.

Newport News, Va., Nov. 2.—In spite of a gale, rough water and a downpour of rain, the battle-ship Kentucky on her builder's trial, made 16.3 knots an hour under forced draught. The performance pleased all persons interested.

Have a Fortune in Germany.

Valparaiso, Ind., Nov. 2.—Henry E. Schmidt, of Chesterton, has been notified that he and four brothers are heirs to a $6,000,000 estate in Germany. The attorneys interested have agreed to advance them $10,000 to go to Germany.

Dr. Kelly Will Be a Trustee.

Cleveland, O., Nov. 2.—Dr. James E. Kelly has been named by the Board of Trustees of the Cleveland State Hospital to succeed Dr. Henry C. Eynan as Superintendent.

FIERCE ARTILLERY DUEL.

The Boers and British Come Together in Another Hard Fought Battle.

BOTH SUFFER HEAVILY.

Guns of the British Naval Brigade Knock a Boer Forty-Pounder Off Its Platform.

General White Reports That The Security of Ladysmith is Not Affected —An Insufficient supply of Ammunition Causes Surrender To The Boer Forces.

London, Nov. 2.—Another fierce artillery duel has been fought between the Natal Reserves at Ladysmith and the Boers. The Reserves used two 30-pound guns against the Boers' 40-pounders. Another 50-pounder is on the way to Ladysmith from Durban. They throw a 45-pound shell of lyddite six miles. The casualties on both sides were considerable.

The War Office has received General White's official report of the defeat Monday. Of the capture of Carlton's column he says:

"The want of success of the column was due to the stampeding of the mules and the loss of the guns and reserve ammunition. The security of Ladysmith is in no way affected.

"Strong reinforcements reached the Boers, and after fighting against heavy odds for ten hours, with serious losses, the survivors were forced to surrender, their meagre supply of ammunition being spent. Boulders rolled down the hill and rifle shots stampeded the mules."

A dispatch from Cape Town, says the guns of the Naval Brigade have knocked a Boer forty-pounder off its platform and have silenced the guns on Hepworth Hill, compelling the Boers to abandon their position.

There is an unconfirmed rumor that the troopship Nubia, with 1,450 men aboard, has foundered at sea. The report is discredited here.

The exact number of casualties on either side is not yet known.

England Eager For News.

London, Nov. 2.—Sir George White's official story of the fate of the lost battalions as published here takes the edge off the newspaper stories which have not yet come through.

Not a word has been received from any of the two hundred British correspondents in the field. All England knows how their troops were lost, but what the reading public wants to know is the personal story of the man who brought in the news from the Boer camp. The newspaper that gets this story through will make a big hit.

In this connection great interest is naturally centering on how the cables come to England from South Africa.

The Globe in referring to the delay in sending descriptions of battles of the war correspondents, says that so far as it can gather from inquiries in official quarters, there is no immediate prospect of any acceleration of press news from the seat of war. The Globe gives interesting details of telegraph facilities from Ladysmith. There are six wires from Ladysmith, where the British forces are now massed, to the Natal capital, two of them following the course of the railway. These are government lines, worked by officials of the Natal government. Messages do not, of course, pass into the hands of the Eastern Company until they reach the coast. The communication between Durban and Cape Town is by means of a couple of wires via Pietermaritzburg and East London, across Pondoland to the capital. Until a few days ago it would have been possible to relieve the intense strain now put on what is known as the East Coast route, by sending press messages to Cape Town, thence by the West Coast route, but now there is a block on the line through Pondoland. For the present, it is the East Coast route or nothing. Although the cable is being worked night and day without a cessation of operations, the task of coping with press business remains a stupendous one.

British Losses Are Two Thousand.

London, Nov. 2.—According to the latest reports from South Africa, it is estimated that the British losses since the commencement of hostilities there will slightly exceed two thousand men. It is suspected, however, that all of the details received about the operations in the vicinity of Ladysmith have not yet been made public.

The estimate given above is based upon official and unofficial reports received during the last three weeks, and includes the killed, wounded and captured under the Britis' flag.

Lost Troops Returning.

London, Nov. 2.—A special dispatch from Pietermaritzburg, Natal, dated on Tuesday morning, says:

"Stagglers from the Gloucestershire regiment are arriving at Ladysmith. A number of mules, with a portion of the Mountain Battery, also are coming in."

Fire Threatens 100 Houses.

Waterbury, Conn., Nov. 2.—Fire started at 9 o'clock on Stoney Hill, Simonsville, the southern part of this city. The districct is covered thickly with tenement houses, and there is little or no water available in case of fire. The Simons block and two others have been burned, many persons barely escaping with their lives.

There is a slight breeze blowing, and the whole district, containing more than 100 buildings, is threatened.

Chicago Building Collapses.

Chicago, Nov. 2.—One man is known to have perished and three others are reported missing, as the result of the collapse of a six-story building at Nos. 139 and 141 West Lake street Wednesday evening. Much damage was done to adjoining property, and in the excitement it was reported that as many as forty lives had been lost. About $300,000 damage was done.

THE DAILY PRESS.

A. L. FORCE, - Editor and Proprietor.

FACTS ABOUT PLAINFIELD.

(The accompanying facts about Plainfield are for the information of the non-resident public and do not recognize the dividing line line between the city of Plainfield and the borough of North Plainfield, except when such a distinction is necessary in describing a municipal institution)

CLUBS—Ten.
BANKS—Three.
HOTELS—Seven.
SEWERS—24 miles.
GAS—20 miles of mains.
CHURCHES—Thirty-five.
BONDED DEBT—$120,000.
PUBLIC SCHOOLS—Eleven.
SOCIETIES AND LODGES—Ninety.
POLICE—Nineteen paid members.
POSTOFFICE—Free delivery of mail.
FREE PUBLIC LIBRARY—18,000 volumes.
BUILDING AND LOAN ASSOCIATIONS—Ten.
NEWSPAPERS—Five; two daily; three weekly.
THEATRE—Music Hall; seating capacity, 1,000.
TELEGRAPH—Postal Telegraph and Western Union.
TELEPHONE—Local and long distance; 500 local subscribers.
HOSPITAL—Muhlenberg; ward capacity, 20; emergency, 20.
STREETS—Seventy miles graded; thirty-seven macadamized.
WATER SUPPLY—Artesian wells; forty-five miles of mains.
TAXABLE VALUATION—City, $8,000,000; borough, $2,250,000.
COUNTY—Plainfield in Union; North Plainfield in Somerset.
POPULATION—City and borough, 20,000; immediate suburbs, 5,000.
FIRE DEPARTMENT—Eight companies; paid drivers; four departments.
ELECTRIC LIGHT—Incandescent and arc in every part of city and borough.
STREET RAILWAY—Nine miles of track; cars run every 12 minutes from 5:30 a. m. to 12 p. m.
RAILROAD—Central Railroad of New Jersey; 24 miles from New York; 65 miles from Philadelphia; 45 minutes from New York; four depots; commutation ticket to New York $80 a year.

For Sheriff, JACOB GLASER, of Union.	For Sheriff, ROBERT A. HOUSTON of Elizabeth.
For County Clerk, WILLIAM M. OLIVER of Elizabeth.	For County Clerk, WILLIAM HOWARD, of Rahway.
For Assemblymen, JOHN J GARDNER, of Elizabeth. W. H SWAIN, of Summit. GEORGE J. REISS, of Union.	For Assemblymen, ELLIS A. MEEKER, of Elizabeth. CHESTER M. SMITH, of Westfield. CHARLES S. FOOTE, of Plainfield.
For Coroner, DR. W. E. CLADEK, of Rahway.	For Coroner, DR. J. W. GRAY, of Summit.

SOMERSET COUNTY. DEMOCRATIC.	REPUBLICAN.
For Senator, JAMES J. BERGEN.	For Senator, CHARLES A. REED.
For Assemblyman, L. M. S. DUFOUR.	For Assemblyman, E. E. COOPER.

The State Finances.

The end of the fiscal year for the State of New Jersey shows a larger balance of money in the State treasury than at any previous time in the history of the commonwealth. The sum which Controller Hancock reports as being the balance is $1,253,152 42. The making of big corporations is responsible for the fat condition of the exchequer, but it is a fact that the majority of Jerseymen would rather see the State clear of its present inquitious incorporation laws and have a little less cash on hand. The increase in revenue from this source was some $600,000 greater for the year just ended than it was for 1898.

However, the financial showing of the state is more notable since, in addition to its extraordinary expenditures during the year, an extra $100 000 went into the state school fund, $180,000 was given to soldiers who participated in the Spanish war and $200,000 was remitted out of the railroad taxes to city and other municipalities.

STREET IN KIMBERLEY, THE DIAMOND CITY.
At Kimberley are the greatest diamond fields in the world. It is estimated that $400,000,000 worth of diamonds have been taken from the Kimberley mines. Cecil Rhodes is the prominent figure in the development of these properties. The Boers hate Rhodes and it is reported that a large price has been placed upon his head by Kruger.

The sinking of the Pennsylvania ferryboat Chicago by an incoming ocean steamer, on the Hudson river Tuesday morning, demonstrates the danger to which passengers are exposed in crossing the short stretch of water between New York and the Jersey shore, says the Newark Advertiser with much truth. It may have its effect upon the minds of timid commuters and it will certainly discourage the migration of people from New York to make their homes in suburban New Jersey. The completion of the tunnel and the proposed Hudson river bridge is more than ever demanded for the best interests of this State.

Hon. James J. Bergen, candidate for Senator in Somerset county, says that under no circumstances will he countenance any attempt to trade Assembly votes for Senatorial support on the Democratic ticket. Mr. Bergen told the writer last night that the report circulated to the effect that such negotiations were being conducted by his friends, is absolutely unfounded so far as it concerns him, and that if he knew of any such cases he should discourage them in a vigorous manner.

Of the decline of the bicycle "craze" the Pittsburg Times says: "Their use is likely to increase in the country, but in the cities they have evidently reached their limit. It has been found that the wheel is not the universally useful machine it was once supposed to be; but, shorn of the extravagant claim of its promoters, it is still filling, and will continue to fill, a very wide field.

The Gas Trust which has absorbed all the gas companies in Hudson county has commenced business in a way to make it highly popular, even if it is a big monopoly. One of its first moves is to cut the price of gas from $1.25 to $1.10 per thousand cubic feet.

"Colonel" Murrell has passed his word that he is out of politics—"clean done with 'em," in fact. "The voice of protest against the Colonel's retirement is so checked with emotion that it cannot utter a word," comments the New York Tribune.

The St. Louis Republic hits the nail on the head thus: "The most effective peace commissioners this Government can send to Aguinaldo are MacArthur, Lawton, Wheeler and Funston at the head of their battalions."

The Republican candidates are to be given a chance to meet Plainfield voters this evening, and hear the G. O. P. leaders predict the majorities that will be rolled up for them on election day.

The Elizabeth Journal says that "the only things Republicans have to fear are over-confidence and neglect of Republicans to turn out and vote."

The Democratic Club is assured for Plainfield. It will do a great deal towards strengthening the party in the city.

WHAT THE SHEARS FIND

Editorial Comment From Other Papers of Interest in Plainfield.

While the market is overstocked with typewriter girls, girl stenographers, saleswomen and seamstresses, there is a scarcity of competent women teachers. The reasons for such scarcity are not far to seek. The occupation of teaching is a most wearing one; and the pay of women teachers, especially in the most important department of primary instruction, is not much better than the pay of a chambermaid or a cook.—Philadelphia Record.

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

In the last two days most of the foliage in and about Plainfield has disappeared. The leaves have been falling for nearly a month but the high winds of Tuesday night and yesterday left the branches of most of the trees bare. Now will come the general cleaning up of the lawns in the residental part of the city and the days and nights will be smoky from the countless bon fires all over the city.

• • • • •

Thomas McDonald, of the borough, who is a student at Hackettstown, returned home yesterday, and is indeed very fortunate in being able to bring with him all his belongings. He was in the famous institute when it was destroyed by fire, and tells of the excellent work performed by the students. Tuesday morning chapel exercises were held for the last time in the village church, and he says that the meeting was so affecting that there was not a dry eye to be seen. All the students seemed to feel deeply the loss by fire, as though it was a severing of tender ties. Mr. McDonald believes that the institute will be rebuilt at once, and that arrangements will be made within a short time to continue the school.

• • • • •

Misleading ideas appear to have gone abroad with reference to the receipts of the Plainfield postoffice. A recent report of Postmaster Bird showed the total receipts of the office to be about $36,000 (in round numbers) with expenditures approximately something like $19,000, leaving the receipts about $17,000. To those who do not read carefully it would appear as though the local postoffice was not meeting expenses—in fact was running behind. This is not true. The business of the office is steadily increasing and the net receipts reported is the amount after all expenses are deducted. The postoffice in this city is the best the citizens ever had and the service is believed to be equal if not superior to that of any city of its size in the State. There are fourteen carriers employed and very few complaints have been received regarding the proper delivery of mail.

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E W. Grove's signature is on each box. 25c.

—There are now four light cases of contagious disease in the borough.

Bismarck's Iron Nerve

Was the result of his splendid health. Indomitable will and tremendous energy are not found where Stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills. They develop every power of brain and body. Only 25c at L. W. Randolph's drug store.

GRAIN-O BRINGS RELIEF

to the coffee drinker. Coffee drinking is a habit that is universally indulged in and almost as universally injurious. Have you tried Grain-O? It is almost like coffee but the effects are just the opposite. Coffee upsets the stomach, ruins the digestion effects the heart and disturbs the whole nervous system. Grain-O tones up the stomach, aids digestion and strengthens the nerves. There is nothing but nourishment in Grain-O. It can't be otherwise. 15 and 25c. per package.

GIVE THE CHILDREN A DRINK

called Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee but is free from all its injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant but a health builder, and children, as well as adults, can drink it with great benefit. Costs about ¼ as much as coffee 15 and 25c.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN

(Special Correspondence of The Daily Press.)

Dunellen, November 2.—The weather was too inclement Tuesday night for the boys to play Hallow'een tricks to much advantage. A few gates were changed about and some slight annoyances caused to the property of citizens, but no depredations of a serious nature are reported. Dr. Brakeley found a two wheeled cart upon his porch which he had the pleasure of removing. Several social gatherings were held about the borough and a general observance of the festive occasion was made.

The Dunellen football team has cancelled its engagements and disbanded. The reason for the disbandment is the fact that Ernest Peters, one of the best and most important players on the team, has secured a position with the Central Railroad Company and is therefore unable to devote his time to practice. The loss of Peters is considered so great that the boys have lost heart and decided to go out of business for the season.

Much complaint is heard in regard to the miserable service which the Brunswick Traction Company is supplying its patrons of late. In spite of the State law compelling trolley companies running closed or vestibule cars between the months of November 1st and April 1st, the above company continue to impose upon the public by forcing its passengers into open cars.

Ernest Peters, who has been appointed baggageman in place of Harry Dodwell, promoted to lamp man, has assumed his new duties at the railroad station. Ernest is one of the most popular young men in the borough and his many friends are pleased to know of his good fortune.

"Jed Bassett's Choir Meeting" is soon to have a rehearsal at the Methodist church. The date is set for November 16th and 17th. The admission fee will be 25 cents.

The Dunellen band met for practice last evening. In the near future the band will give a concert to which many of the citizens are looking forward with pleasure.

Harry Dodwell, who has been promoted from baggageman to lamp man, has to look after the lamps between Clinton avenue and Netherwood.

Miss Nancy Thomas is home from the Centenary Institute at Hackettstown, which was destroyed by fire early Tuesday morning.

PLAINS AND FANWOOD.

(Special Correspondence of The Press.)

Scotch Plains, Nov. 2—The heavy rain of Tuesday evening interfered somewhat with the usual Hallow'een tricks of the boys. The result was very few gates were taken off, much to the delight of the owners.

The Ladies' Aid Society of All Saints' church held their monthly meeting at the home of Mrs. Harry Christianson, of Fanwood, yesterday afternoon.

No meeting of the Sacred Literature Society of the Baptist church was held last evening Mr. Shott will resume the meetings again next Wednesday evening.

Mr. and Mrs. W. Stanton Pentz, of Bergen Point, have been spending a few days with Mrs. Pentz's grandfather, Charles Kyte, of Fanwood.

Mr. Fullerton, who recently bought the Carter property in Washington Valley, has rented it to a New York party who has taken possession.

George L. Dunn and Edward Johnston are attending the State convention of Baptist Young People, as delegates from the local society.

The case of Hollstrom against Thatcher, on execution, in Judge Clark's court, defendant full amount of judgment with cost.

Mr. and Mrs. James Moore have removed from the Shepard cottage on Front street to the Wahl farm on Mountain avenue.

The Township Committee will meet in the township rooms this evening to transact routine business.

Fanwood B. and E. Company held their regular monthly meeting in their rooms last evening.

Miss Minnie Hosinger has been entertaining friends from New York.

WESTFIELD

(Special Correspondence to The Daily Press.)

Westfield, Nov. 3—Robert Hoffman, of this place, who was a student at the Hackettstown Seminary, which was burned to the ground Tuesday night, arrived home today. Mr. Hoffman reports that many of the students escaped in their night clothes and lost everything they had at the college. Mr. Hoffman himself succeeded in throwing his trunk and dress suit case from a window of his room and thereby saving most of his wearing apparel.

The engagement is announced of Miss Jennie Williams, daughter of Mrs. David Williams, of Dudley avenue, to Lilyle Morehouse, son of Mr. and Mrs. Wellington Morehouse, of Embree Crescent. The wedding is to take place Thursday evening, November 9th, at the home of the bride's mother.

—Use Press want ads

—Commencing with next Monday and continuing for one week a fair will be held at Reform Hall under the auspices of the Reform Club. There will be special features every evening.

Announcement.

To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietor prepare Cream Balm in liquid form, which will be known as Ely's Liquid Cream Balm. Price including the spraying tube is 75 cts. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation. Cream Balm is quickly absorbed by the membrane and does not dry up the secretions but changes them to a natural and healthy character. Ely Brothers, 56 Warren St., N. Y.

THE AMUSEMENT WORLD

CURRENT ATTRACTIONS THAT PLAINFIELDERS MAY WITNESS.

Local Metropolitan Performances That Will Please Those Who Delight in the Art of Thespis and Mimic World.

Tomorrow night "Blue Jeans" will be seen at Music Hall. Joseph Arthur's famous comedy drama has aroused a National interest by a clever portrayal of a class of people that had not previously figured in our drama The unique characters of Rising Sun are entertaining in themselves, but Mr. Arthur has very much heightened the interest by the strong and ingenious plot that he has provided. It is all quite within the range of probability, natural and lifelike, and yet intensely interesting. The company is an excellent one and the production is complete in scenic embellishment, special pains being taken with the famous saw mill scene.

* * * * * *

"The Gunner's Mate," a new naval drama by Hugh J. Gallagher formerly an officer in the United States Navy, and W. J. McKiernan, the dramatic editor of the Newark "Sunday Call," is in active rehearsal at the Grand Opera House in New York, and will be given an elaborate production by Manager Augustus Pitou November 9th in Plainfield. The cast will include several well-known actors and actresses. The scenery will be entirely new, and of the most realistic description. The second and third acts of the play are on board the United States cruiser New York. The scenes show the quarter deck and turret, the forecastle on the gun deck, and the fire room with the furnaces. In the latter scene there is a startling dramatic sensation. "The Gunner's Mate" will be presented in Plainfield November 9th.

A FAMOUS "AD."

Great Success of Utilization of Rock of Gibraltar by Prudential Co.

So familiar and so popular has become the Prudential Insurance Company's utilization of the Rock of Gibraltar in its advertisements, as a means of measuring the company's strength, that the company believing there is a wideespread desire to learn more about Gibraltar than is generally known, has just issued a booklet giving a history of the famous fortress.

It tells us that for more than 1,000 years before England seized the Rock from Spain, this famous landmark passed through innumerable fierce and bloody struggles, being successively won and lost by Saracens, Moors and Castilians. There is a thrilling account of the great siege of the Rock from 1779 to 1783, when the combined armies and navies of France and Spain attempted to regain possession of the fortress from England. Twice the English garrison was reduced to the verge of starvation, and there is probably no story in history to which can be paralleled the moral and physical courage, extraordinary human endurance and wonderful tenacity of purpose exhibited by the British in defending the Rock. Handsome halftone pictures of both the interior and exterior of the Rock are shown in the booklet. and many facts of interest are told regarding the great "hit" made by the Prudential in using the Rock of Gibraltar in its advertisements. A copy of this booklet will be sent free to anyone writing to the home office, Newark, N. J., mentioning this publication.

Volcanic Eruptions

Are grand, but Skin Eruptions rob life of joy. Bucklen's Arnica Salve, cures them; also Old, Running and Fever Sores, Ulcers, Boils, Felons, Corns, Warts, Cuts, Bruises, Burns, Scalds, Chapped hands, Chilblains. Best Pile Cure on earth. Drives out Pains and Aches. Only 25 cts. a box. Cure guaranteed. Sold by L. W. Randolph, Druggist.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

Frank Pennoyer, of Newark, is the guest of Plainfield friends.

Ellison Huisizer, of East Millstone, has been visiting Plainfield friends for a time.

Freeholder Cornelius VanCleef, of East Millstone, has been visiting in Plainfield.

Miss Florence Dodge, of this city, is spending a few days with her mother at Bayonne.

Thomas Randall, of the borough, is enjoying a visit from his brother of Easton, Pa.

Wm. Graceley, of Somerset street, is very ill at his home with neuralgia of the heart.

Miss Frances Lister, of Watchung avenue, has returned from a visit with Philadelphia relatives.

Mrs. John H. VanWinkle, of Duer street, has returned after visiting relatives at Atlantic Highlands.

Owing to a great strain attendant upon an increase of business Silas Dewey Drake is again indisposed.

Mrs. Fitch, of Westfield, has been visiting her parents, Mr. and Mrs. John Darling, of Prospect avenue.

F. C. Harder, of Madison avenue, who has been west on a business trip for two months, has returned home.

Mr. and Mrs. J. A. Robinson, of East Fifth street, are home after visiting friends in New York for a few days.

Mrs. J. W. Richardson, of Prospect avenue, who has been ill since last August, is improving steadily but slowly.

Miss Lounsbury, of Plainfield avenue, will entertain the junior class of the High School at her home next Monday evening.

Rev. and Mrs. George Angleman, of Junction, this State, are visiting at the home of Mr. and Mrs. John Cory, of West Front street.

F. H. Wolcott, general secretary of the Binghampton, N. Y., Young Men's Christian Association, is visiting Harold Serrell, of Myrtle avenue.

Mrs. T. H. Tomlinson, of LaGrande avenue, who recently attended the National W. C. T. U. convention at Seattle, Wash., is expected home within a few days.

Mrs. Lissignolo, of Belmar, is stopping for a time with her daughter, Mrs. R. F R. Huntsman, of Westervelt avenue. She is accompanied by her daughter.

William Connett, of West Fourth street, who has been suffering for some time with an injury to his left eye, is now able to remove the covering and the eye is steadily improving.

The condition of Rev. Dr. Robert Lowry, of Madison avenue, remains about the same. The disease with which he is afflicted keeps him constantly in pain, but at times he rests quite easy.

Mr. and Mrs. B. B. Force, of East Front street, who were recently married, were given a reception Tuesday evening at the home of George W. Force, father of the groom. The affair was a pleasant one in every particular.

EARLY INTELLIGENCE.

—The contest for a gold watch, between Chief Grant, of this city, and Chief Campbell, of the borough, is growing interesting. Both have many friends who are assisting their favorite.

—City Hand and Steam Laundry of 19 Somerset street claim it is not a mere boast but is a fact that they only do up-to-date laundry work. By sending your laundry to them they will prove it.

—Owing to the severe storm Tuesday night Woodhull & Martin, the dry goods merchants, closed their store before 7 o'clock, thus giving their clerks an opportunity to spend the evening at home.

—One way the members of the Loyal Temperance Legion have of making money with which to erect a public fountain, is to make rag carpet and sell it. In this way a considerable amount has been made.

How's This?

We offer One Hundred Dollars Reward for any case of catarrh that can not be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Props., Toledo, O.

We the undersigned, have known F J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

WEST & TRUAX, Wholesale Druggists, Toledo, O.

WALDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, Ohio.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price 75c. per bottle. Sold by all Druggists. Testimonials free.

Hall's Family Pills are the best.

BEAUTIFUL TEETH

—are kept Pearly White when—

RANDOLPH'S BOROTHYMOL TOOTH PASTE.

Lokal-Nachrichten aus der alten Heimath.

Baden.

Karlsruhe. Die Nähmaschinenfabrik Karlsruhe, vormals Haid u. Neu, hat unlängst die 500,000. Nähmaschine fertig gestellt. Aus diesem Anlaß wurde eine Feier veranstaltet und die Arbeiter erhielten Geldgeschenke, für mehr als 30jährige Dienstzeit 100 Mark, für 25jährige 50 Mark u. s. w. Die Jubiläums-Maschine wurde dem Frauenverein zum Geschenk gemacht.

Heidelberg. Bekanntlich hat die Amerikanerin Miß Bruce für die hiesige Sternwarte auf dem Königstuhl ein Teleskop von sehr großem Werth gestiftet. Das erste der beiden großen photographischen Objektive ist dieser Tage aus Amerika hier eingetroffen. Schöpfer des riesigen Werkes ist der Optiker Brashaar in Alleghany (Pa.). Das Gewicht des Glases beträgt 1½ Centner. Das zweite Objektiv wird bis nächstes Frühjahr fertiggestellt.

Mannheim. Die freireligiöse Gemeinde veranstaltete am Grabe der dort vor 50 Jahren standrechtlich Erschossenen eine Gedächtnißfeier, um welche sich besonders Gemeinderath Steuber verdient gemacht hat.

Pforzheim. Die hiesige Bäckereigenossenschaft beschloß, im Juni n. J. nach Pforzheim einen „Allgemeinen deutschen Bäckertag" mit Fachausstellung einzuberufen.

Villingen. In Mundelfingen sind bei einem dort ausgebrochenen Hausbrand drei Kinder des Meßners Behr in den Flammen umgekommen.

Elsaß-Lothringen.

Straßburg. Unter zahlreicher Betheiligung tagte hier der 30. Kongreß für innere Mission.

Kolmar. Demnächst soll hier ein Dominikanerinnen-Kloster errichtet werden. Die Schwestern, sechs an der Zahl, kommen aus Frankreich. Bisher bestand auf reichsländischem Boden nur in dem Dorfe Rekel eine Niederlassung von Dominikanerinnen.

Mülhausen. Hier, in der Vaterstadt von Dreyfus, wurde eine Sympathie-Adresse für den Verurtheilten von Rennes in Umlauf gesetzt. Die Adresse erhielt circa 3000 Unterschriften.

Oesterreich.

Wien. Während der Arbeit stürzte das stählerne Gerippe einer im Bau begriffenen Wolltrockenhalle der Firma Kahn u. Arnold ein. Die an dem Bau beschäftigten Bauschlosser Anton Berchtold, Friedrich Hubel und Xaver Feucht sind bei dem Einsturz getödtet worden, eine Anzahl anderer Bauhandwerker wurden schwer verletzt.

Budapest. Im Verlaufe von Straßendemonstrationen für das allgemeine Wahlrecht kam es zu förmlichen Straßenkämpfen mit der Polizei; 50 Verhaftungen wurden vorgenommen.

Karlsbad. Dieser Tage traf hier der 50,000. Kurgast der heurigen Saison ein.

Kozlov. Kanonikus Pfarrer Neubok wurde ermordet und beraubt. Der Landstreicher Stephan Smalec, der den Mord begangen, ist verschwunden.

Mauerkirchen. Hier starb nach nur mehrstündigem Unwohlsein der buchstäblich in ganz Oberösterreich bekannte Salbendoktor Franz Traunwiser im 77. Lebensjahre. Traunwiser heilte Mensch und Thier „nach seiner Art," nämlich nur mit selbsterzeugten Salben. Traunwisers Patienten waren hauptsächlich im Bezirke Wels, doch hatte er auch im Mühl- und Innviertel eine ansehnliche Kundschaft und jahraus jahrein konnte man ihn mit seinem Bündel voll Salbenbüchsen das Land durchziehen sehen.

Neulengbach. Als den Urheber verschiedener Einbrüche in der Umgebung eruirte die Gendarmerie den 13jährigen Schulknaben Johann Wurstbauer aus Zeitendorf.

Prag. Die elektrische Centralbahn, welche die volkreichsten Stadttheile Prags verbindet, wurde kürzlich eröffnet.—Die politische Aufregung in Böhmen macht sich wieder einmal in verschiedenen Exzessen gegen Deutsche und Juden Luft. Hier wurde der Reichsadler von tschechischen Buben, wo sie ihn fanden, abgerissen. Bei dem Holzhändler Peck wurde ein Brandstiftungsversuch gemacht und allerhand Radau verübt. Die Polizei mußte vom Säbel Gebrauch machen und mehrfach scharf einhauen, ehe sie die Ordnung herstellen konnte.

Preßburg. Aus der Strafanstalt Illava sind elf schwere Verbrecher entsprungen. Bisher ist es gelungen, vier einzufangen. Die Gendarmerie fahndet nach den übrigen sieben.

Teschen. Bei Oderburg fand die feierliche Eröffnung der aus Staatsmitteln und sonstigen Beitragsleistungen aus Oesterreich und Preußen neu erbauten Kaiser Franz Josef-Jubiläumsbrücke statt.

SOMETHING NEW IN STEEL

A Discovery That Is Expected To Revolutionize a Great Industry.

Just as Americans begin to feel that they are upon the verge of developing superiority to Great Britain not only in shipbuilding, but in the steel trade, in which such a number of valuable foreign contracts have lately been taken by our manufacturers in the face of British competition; and just as nature seems to encourage the American aspiration by showing that the English coal mines will be exhausted within another fifty years, science seems to be coming to the aid of the Britisher and may be about to open new fields of competition in steel in which America must take part if she is to maintain her hard-earned prestige.

The discovery has been demonstrated in London, and is being made much of by the English press, that the ability to produce perfect steel by casting it in a vacuum made by liquid hydrogen with a process that it is not proposed to make public, has at last attained practicability. A company has been formed with a capital of thirty thousand pounds to experimentally develop the process and if the plan is as successful as Prof. Dewar, the discoverer, presumes it will be, the air bubbles that now cause flaws and weakness in steel will be done away with and a metal will result such as the world has never seen. To say that this means a possible revolution in the steel trade is to put it mildly, and if the English government can control the process, as it is now intimated may be the case, then American scientists and those of other countries will be put upon their mettle to get even with the Britishers, says the Marine Journal.

Liquid hydrogen, which is the great agent now discovered, is described as a clear, colorless, transparent and very volatile fluid, no clearer than pure water, but only one-fourteenth the density of water. In its lightness it is out of all proportion to any known liquid. A piece of paper when placed in it sinks. The difference between liquid hydrogen and liquid air is as great if not greater than the difference between the ordinary temperature and liquid air. Liquid hydrogen places temperature at within twenty degrees of absolute zero, which is represented by 494 degrees Fahrenheit and 273 degrees Centigrade below zero. The boiling point of liquid hydrogen is 252 degrees below zero, at which it is capable of enormous pressure.

The discovery must affect every problem of physics and chemistry. Its possibilities are illimitable. It may revolutionize the methods that have been laboriously built up during the last three hundred years.

The Horse and Half Dollar.

She was a very easy going person, and the repose with which she told the story was beautiful, aggravating, ridiculous.

"The man came and woke me up. It was 2 o'clock, but he said that our horse had got out of the barn, so we got up and dressed and went out after the horse, and we found the horse and put him back in the stable. The next morning we gave the man half a dollar.

"And the next night the man came and woke us up; and it was 2 o'clock again, just like the night before. And the man said our horse had got out of the stable again. So we got up and dressed and we found the horse and put him back in the stable. And my husband gave the man 50 cents again.

"Then the third night the man came and said that our horse had got out again. And it was about the same time, 2 o'clock. But we were very glad the man came to tell us. And when we found the horse again we decided that we would lock the stable this time so that the horse couldn't get out, and so the man wouldn't have to come and get us out of bed to go out and get the horse back into the stable again.

"And we did lock the stable. But the next night the man came and got us up and told us the horse had got out of the stable again. And we had to get up just like on the other nights to go and get our horse again. And each time we gave the man 50 cents. But this time we saw that the stable had been broken open.

"So my husband asked our neighbor, and he said that his horse got out of his stable nights, only a little earlier than our horse did, and the same man told him about his horse getting away. And he paid the man 50 cents every time. So my husband decided that we would watch.

"And we did watch that night, but the horse did not get away. So we never found out whether the man let the horse out to get the 50 cents or not, because the day before the man had hung himself."

Those Eleven Obstinate Men Again.

A correspondent writing from Virginia to Law Notes, gives us the following jury story: In a prosecution for horse stealing tried in Bedford County, Virginia, just after the war, the evidence was conflicting and, as usual, the attorney for the prisoner obtained from the Court an instruction that the prisoner was entitled to the benefit of every reasonable doubt. The jury retired, and after they had been out about two hours the dinner hour arrived. The judge sent the sheriff to ask if the jury were likely to agree. The answer came, "Yes." The court waited until 2 o'clock in the afternoon, and again sent word to know if the jury were likely to agree. Again an affirmative answer came back. Supper time came, and no jury. Once more the sheriff made his pilgrimage to the jury room and returned with the same answer. Lights were procured, and about 9 o'clock the jury filed in with their verdict, which the Court read solemnly: "We, the jury, find the defendant not guilty by a d—n tight squeeze." Upon the first ballot the jury had agreed to "not guilty," but one juror hung the jury nearly twelve hours on the "d—n tight squeeze" addendum.—Law Notes.

Convincing Testimony.

"I am sorry to have to say it, but I have good reason to believe that young man who is paying attentions to your daughter is not a person of steady habits."

"And I have good reason to believe to the contrary, my friend, for he has been calling on her steadily for the last nine years."—Boston Pilot.

HOMEMADE PRESENTS.

BY HENRIETTE ROUSSEAU.

Some Christmas Gifts Which You Can Make With Needle, Shears and Glue Pot.

The problem of Christmas presents seems to me to assume greater proportions every year until now there is beginning a reaction against such wholesale bestowal of presents on everybody you know. Still if a child, a woman or a man wants to give a present to every one of his or her own family the list grows amazingly.

This letter is not written to help the rich, but those to whom a dollar means much, and there are some hints tried and proved in the way of honoring Christmas by making pretty and inexpensive presents to those we love.

Every boy nowadays learns something of wood carving, modeling or some other hand work in his school. It should

SOFA PILLOW, AFGHAN AND TRAVELING BAG.

be his pride to carve for his mother some pretty little boards to rest hot dishes upon. There form part of his class lessons, and the best piece of finished work should be offered to his mother for her present.

Perhaps she won't like it? Ah, but she will. I have seen foolish mothers actually kiss a clumsy little attempt at carving and wrap it up and put it away, as precious as her jewels. There are many useful as well as ornamental things which even small boys can make. Let them tell their teachers what they want to do and make the best they can.

Girls somehow seem to have more natural aptitude for doing pretty work. The greatest trouble is that the bits of silk and satin, ribbon and tinsel all cost. Still if girls sit down calmly and plan something for each one, where the same colored materials can be used either in whole or in part, it reduces the expense to a minimum.

I will mention a few things which clever and industrious little girls can make. One is a blanket for a baby's crib. This is for mother and baby both, if one likes. A piece of fleece lined flannel of any preferred color is buttonholed all around. It is one yard long and the full width of the cloth. The buttonholing is done in floss, black or red or blue, according to the color of the stuff. In outline stitch are worked an elephant and other animals, birds and odd figures which baby fingers will trace with delight.

Mrs. Thomas A. Edison had the walls of the nursery papered with a regular procession of such figures and taught her little baby their names. Every month there were different pictures pasted up.

A very useful and handy gift for a young girl to make is a music album. This is made by covering pasteboard with cotton and gluing on a piece of silk which the little fingers have painted or embroidered. Velvet ribbon is put across the corners and stitched down, and the back is held by velvet ribbon on the outside and strong canvas glued to the inside. Glue enters very largely into all fancy work. Bows to tie it with finish it daintily. This is handy for all sorts of loose papers.

Quite a little girl can make a most acceptable gift to any one in a pair of portieres or hangings for the fronts of closets. There is a cotton stuff on purpose, quite thick and alike on both sides. It is bouretted. There is also double fleece canton flannel. These in neutral colors should be chosen and the length measured off and hemmed on both ends.

A bold design of sunflowers in natural colors shows up beautifully over garnet, olive or dull rush green. There is also an "art brown" with muddy greenish shades. All these have an artistic look.

I saw a pair of portieres almost exactly like the picture at the Women's Exchange. They cost $25. A clever, willing girl could do every bit of the work on these in Kensington stitch in a week and not work hard either. The same idea worked out on a plush table strip is handsome and a very useful gift.

All gifts should be made with a view of their usefulness. For a housekeeper old or young nothing is more appreciated than a bit of dainty linen embroidered by dear friends. There is no end to these. This season the round doily done in imitation duchesse is the most popular. Drawn work is always desirable.

These lace and linen pieces take the form of doilies, napkins and scarfs for the sideboard and tray cloths. Some are all white, and some have flowers in natural colors scattered over them such as violets, marguerites and forgetmenots. The newest had branches of purple heather. Fringed doilies are seen, but hemstitched or scalloped lace edge are preferred.

Among the things very young girls can make are tobacco bags, foot rests, head rests, pincushions, needlebooks, mittens, work bags, penwipers, school bags, pencil cases, spectacle cleaners, watch holders of chamois, painted or embroidered or plain.

Little round pincushions for gentlemen are always useful. They are made by covering two disks of cardboard with silk, putting some cotton between and then sewing the edges together with colored silk. Then stick a circle of pins in them, and your gentlemen friends will be delighted.

A Chinese doll baby costing 2 cents has a dress of two long strips of white flannel. Over these are two ribbons. They are to hang up handy. The flannel strips are stuck full of safety pins. Little girls can make these easily.

For a smoking outfit all the women in a family can join in its development. Grandma can knit the cozy fleece lined slippers, mother can make the jacket, the boys attend to the jar of tobacco, match holder, ash tray, etc. If they can carve them, well; if not, they must buy. It remains for the daughter or daughters to provide the broom splints and bit of wire and cotton; also a pretty pouch to carry abroad and a smoking cap to wear at home.

The smoking cap all depends upon the making. One of the prettiest that I saw at the Woman's Exchange, which is the depot for all kinds of fancy work, was of plain black cloth, lined with black silk and braided thickly with gold soutache. The design was nothing but four loops, beginning small and growing larger. Smoking caps this season all seem to be shaped like polo caps.

Little girls can find pin and other cushions for the toilet table filled with hard stuff. All that remains is to cover them. The stuffing of a cushion is the hardest part.

The chief thing is to try to give each a gift which is really useful, while also pretty. For a sister one might make a hairpin holder and a celluloid horn of plenty painted and ribboned for combings. The mother of a household will appreciate iron holders and kettle holders.

A traveling bag is a valuable gift in convenience. It is usually of strong canvas and is cut like that shown in the picture. There are three compartments on one side and one long one on the other. Straps through rings are drawn and tied at the ends, and a shawl strap at the middle holds it firmly. It is far handier and lighter than the average grip. Women like it better than men.

One of the most serviceable and pleasing presents one friend can bestow upon another is a handsome sofa pillow and an afghan, together or separately. Sofa pillows of all shapes, materials and in every imaginable style of decoration there are.

An afghan, or slumber robe, as some call it, may be made of art green eider down, lined with madder flannel, with a line of cord buttonholing around the edge. An arabesque design can be worked upon it in shades of russet and green, with yellowish green conventional lilies. This would be a comfort to any one.

There are many holiday goods offered at prices remarkably low for such pretty things. There are jewel boxes, framed pictures, medallions, clocks, atomizers, chafing dishes, silverware and plated ware equally pretty and not so apt to be stolen. Lamps, china, cut glass and

PORTIERE OF CANTON FLANNEL.

jewelry are all considered as among legitimate Christmas gifts. Outsiders may give any article for the decoration of a friend's home or table, but no personal ornament or garment, even a fur one.

Toys for children surpass anything ever before seen in point of value, finish and mechanical contrivance. Dolls now carry on quite extended conversations with each other. These are sold in pairs and are fixed to ask and answer questions. But of all the dolls for genuine companionship and comfort none can compare with the new calico doll. This is as big as an ordinary baby and is just a piece of calico painted in fast colors until Mrs. Santa Claus takes it in hand and cuts it loose from the cloth, sews it up and stuffs it with cotton. Then it's just the dearest doll in the world.

FORTUNES OF ACTRESSES.

Mrs. Carter and Viola Allen Are at the Top of the List.

The fortunes of actresses have always interested the public, even if events often proved they were merely fictious in the amounts mentioned. As a matter of fact wealth among actresses is not always to be found where it is commonly supposed to exist. No such picturesque estimation of stage fortunes as that which originated in a woman's magazine has ever been heard of. According to the authority who promulgated this statement not more than five years is required for a successful actress to accumulate a fortune. In this latest list Mrs. Carter is said to be worth $330,000; Viola Allen has 300,000; Julia Marlow, $270,000; Ada Rehan, $250,000; Lillian Russell, $250,000; Annie Russell is supposed to possess the same amount; Adele Ritchie has $200,000; May Irwin, $150,000; Anna Held, the same amount; Julia Arthur, $100,000, and Mrs. Fiske possesses the same.

The most successful of all the actresses named here seems to be Adele Ritchie, who was in a comic opera chorus only a few years ago, appears at irregular intervals now and then only for a short time, and yet she has managed to save a fortune. Lillian Russell has sung rarely in a successful performance for several seasons, and a manager recently estimated that her earnings for the past two or three years must have been slight. Last season she sang for only three months. With a fortune of $250,000 to her credit, however, she can afford to take her ease.

Mrs. Carter's earnings practically began two years ago. Annie Russell has only received large salaries of late, and it was not long ago that a benefit had to be given for her. Mrs. Fisk was off the stage for a term of years, and it would have taken a phenomenal success for her to earn $100,000 since her return.

Julia Arthur has a husband worth several millions, and is one of the few actresses who possesses in reality the sort of fortune generally supposed to be so common on the stage.

COST OF WAR.

Four Dollars To One For Civil Expenses in Taxes.

For the first two months of the new fiscal year our Government has expended $102,969,090.33, of $21,066,489.91 has gone for the support of the civil and miscellaneous establishment and all the rest for military expenses of one kind or another. The army got $34,262,080.06, the navy $9,688,245.40, military pensions $26,055,674.80, and interest on the war debt $9,158,845.38, a total on the military side of the ledger of $79,159,845.64, or at the rate of $474,959,073.84 a year for war-like outgoes, while the total cost of the civil establishment was at the annual rate of $126,398,938.86.

At the present time not quite 80 per cent. of the expenses of carrying on this peaceful country are on account of wars, past, present and anticipated, but the ratio is nearer to 80 per cent. than any other round figure. Is there any other country, free or despotic, which spends a larger proportion of its income on war? I do not know, because I have not had the opportunity to look up the statistics, but I should be surprised, indeed, to find that any country of high civilization, or pretending to high civilization, spends four times as much on war and warlike preparations as on all its civil expenses put together. It is difficult to comprehend that, with hardly a realization of it by the people, we are becoming the most warlike of nations, so far, at least, as outlay on military matters goes.

Moreover, the taxes are largely taking on a new form. They are coming home to men's business and bosoms more closely than heretofore. The indirect taxes of the tariff, which have from the beginning of the republic been the mainstay of the Federal Government, are so no longer. For the first two months of the new fiscal year the receipts from the tariff were $37,518,151.53, while the receipts from the direct taxes of the internal revenue were $52,5559,613.96.—Buffalo Express.

A "Straight Edge" an Impossibility.

One of the difficult problems in practical mechanics is to make a "straight-edge." How difficult it is may be judged from an incident which occurred in the shops of J. A. Brashear, the astronomical instrument maker. A customer asked Mr. Brashear what would be the price of "a perfect straight-edge of glass thirty-six inches long." "It can't be made absolutely perfect," said Mr. Brashear, "but it could probably be made with a limit of error amounting to only a fraction of a wave-length of light." How much would that cost?" "About $40,000." It turned out that the customer wanted the straight-edge for a scraper, and that an error of one-sixty-fourth of an inch would have been insensible for his purpose.—Youth's Companion.

Topsy Turvy.

If we want to find a country where nature has turned things topsy turvy—that is, according to our notion—we must go to Australia. Many things are reversed in that country. It is summer there while it is winter in America. Trees shed their bark instead of their leaves; fruit has the stone or kernel outside; swans are black; there is a species of fly that kills and eats the spider, and a fish called the climbing perch, and walks deliberately out of the water, and, with the aid of its fins, climbs the adjacent trees after the insects that infest them. When to this we add that most of the birds have no song and the flowers no odors, it is easily seen that it is on the other side of the world in more senses than one.

A Paris Mystery.

In the cellar of a magnificent house in the Bois de Boulogne, Paris, formerly occupied by Villemassant, the founder of the Figaro newspaper, there has just been found the skeleton of a woman. With the remains are stays and a silk scarf. The doctors estimate that the body has been there 25 years. Villemassant died in 1879. The affair is creating a great sensation, as the house is one of the most magnificent in Paris, and Villemassant was the greatest French journalist who ever lived. The discovery was due to demolition of the house.

MECCA OF MILLIONS.

SOME AUTHENTIC MARVELS OF THE PARIS EXHIBITION.

Features Both Novel and Striking. The Castle of Waters—Objects of Interest for the Frivolous, the Scientific and the Studious.

There has been so much wild speculation as to the features of attraction at the forthcoming Paris Exhibition, that it is a relief to know from authentic sources what marvels will be disclosed to us in May of next year. As might have been anticipated, all the wild, hair-brained schemes of which the papers have been so full are doomed to end, as they began, in the clouds; but the exhibition will not lack many features, both novel and striking.

One charming centre of attraction will be the "Castle of Waters," which is now being erected in front of the "Palace of Electricity." From the summit of the castle, which is in reality a huge grotto, a miniature Niagara of water will fall in a series of imposing cascades from one basin to another, until it forms a lake in which mighty geysers will rise. At night these tiers of cascades will flash forth in all the colors of the rainbow, projected electrically from inside, and will form one of the most brilliant spectacles on which the eye of man has ever gazed.

In another part of the exhibition grounds the Paris of the Middle Ages will live again in a maze of buildings and narrow, tortuous streets, which will carry one back five centuries. Here the mediaeval student will quaff his wine and flirt with the tavern maids; housewives will barter and haggle with shopkeepers of the days of Louis XI.; minstrels will sing old-time ballads, and, in short, the Paris of the fifteenth century will be transplanted with all its quaint costumes, characters and modes of life into the Paris of the end of the nineteenth century.

On the Seine will be moored boats smothered in beautiful decoration of flowers, where the Londoner or Parisian can sip his tea to the singing and dancing of Geishas, and fancy himself translated to sunny Japan. In another part of the ground the visitor can wander into an Egyptian village, and witness a performance in an Egyptian theatre, and a few steps more will take him to Morocco and the many-colored life of Algiers.

French India, too, will be transported to the exhibition grounds, with all the quaint modes and costumes of the East; and the visitor can explore at his leisure the fomous pagodas of Vishnu, with it mysterious priests and its sacred dancing girls.

No exhibition nowadays is complete without its water-chute; but the chute that is being prepared on the Champ de Mars is the longest, steepest and most tortuous ever designed, and is warranted to crowd more sensations and risks into a few seconds than will satisfy the most adventuous. There will also be a large wheel, in comparison with which existing wheels will be pigmies, and the Eiffel Tower will take on all its pristine glories, with new paint and decorations.

At the Champ de Mars the studiously inclined can revel in all the commercial marvels of mines and metallurgy, chemical industries and civil engineering, food-stuffs and electricity, letters and sciences; and at the Invalides there will be palaces devoted to industries, French and foreign.

For the frivolous, there will be open-air cafes chantants, booths and kiosks; and everywhere delightful cool corners, rich in flowers and foliage, and illuminated at night by garlands and festoons of many-colored electric lights.

The Trocadero will be there to revive memories of past exhibitions; and in the beautiful gardens that surround it, and slope gently to the river, will be buildings and villages to represent all the colonies of the world.

A novel feature, which it will be both costly and difficult to realize, will be a large lake of sea water, with a sloping and sandy beach, in which the thousands of visitors can enjoy all the delights of the seaside. The lake will be excavated at Longchamps, and the water will be pumped from the channel, 125 miles away, through a series of three pipes.

Although the exhibition, which will open on May 1st, contains no features remarkable in novelty or sensation, it promises to be at least as full of attractions and delight as any of its predecessors, and will, no doubt, be the "Mecca" of milions next year.

A Mechanical Stoker.

The first application of the mechanical stoker to a locomotive has been made on the Che apeake and Ohio Railroad. The coal is put into a hopper by the fireman; from where it feeds down into a six-inch cylinder, and a piston operated by steam throws a small charge of coal—from four to six pounds—through an opening in the fire-box door. This coal can be given force enough to go clear to the flue sheet or drop at any part of this distance, even close to the door. At the same time it is spread out evenly over the surface of the grates from side to side. The supply of steam and coal can be regulated for light or heavy work by the crew.

If it can be perfected so as to work on a locomotive the smokeless firing broad citizen from Indiana, and wileders of the fireman, for small charges of coal scattered evenly over the fire at short intervals is the ideal smoke preventive. Mechanical stokers are nothing new, but so far their field has been limited to stationary boilers. Most of them handle fine coal only; this one can handle moderate-sized lumps.

Tea and Coffee.

Here are a few statistics, given by an expert, concerning the relative merits and expense of tea and coffee:

"Tea is cheaper than any water bottled. By actual measurement over 300 cups of tea can be made from every pound of black tea, which, at the rate of 50 cents a pound, would give six cups for one cent. The choicest tea imported, which can be purchased at $1 a pound, would cost the consumer one cent for three cups. Coffee at its present low price, is much dearer than tea, as only few cups can be made from one pound.

Hominy is a corruption of aniumnea, the Indian name for parched corn.

Central R. R. of New Jersey

Anthracite Coal Used Exclusively, Insuring Cleanliness and Comfort.

Stations in New York, foot of Liberty, and South Ferry Whitehall Streets.

TIME TABLE IN EFFECT OCT. 10th, 1899.

For New York 2 14, 3 37, 5 37, 6 29, 6 59, 7 26, 7 29, 7 55, 8 00, 8 13, 8 30, 8 37, 8 48, 9 16, 9 43, 9 58, 10 37, 11 10 a. m.; 12 09, 12 44, 1 35, 2 12, 2 29, 3 12, 3 46, 4 17, 4 55, 5 37, 5 54, 6 21, 6 30, 6 45, 7 06, 7 39, 9 30, 10 17, 11 28, p. m. Sunday 2 14, 3 37, 5 25, 7 19, 8 01, 8 52, 10 08, 11 10 a. m.; 12.00 m., 12 58, 1 45, 3 17, 3 30, 5 41, 6 52, 8 13, 8 32, 9 15, 10 22 p. m.

For Newark at 5 37, 6 29, 6 59, 7 26, 7 47, 8 13, 8 37, 9 43, 9 58, 10 37, 11 10 a. m.; 12 09, 12 44, 2 12, 2 29, 3 12, 3 46, 4 17, 4 55, 5 37, 6 21, 6 45, 7 39, 9 30, 11 28 p. m. Sunday 7 19, 8 52, 10 08, 11 10 a. m.; 12 58, 1 45, 3 30, 5 41, 6 52, 8 13, 8 32, 10 22 p. m.

For Somerville at 5 18, 7 12, 8 19, 9 40, 9 54, 11 00, 11 59 a. m.; 1 01, 2 08, 2 20, 3 32, 4 35, 5 03, 5 27, 5 34, 6 04, 6 09, 6 19, 6 38, 7 12, 7 34, 8 21, 9 37, 10 26, 11 29 p. m.; 12 44 night. Sunday 5 45, 8 06, 9 55, 10 44 a. m.; 2 03, 3 40, 5 09, 6 35, 8 30, 10 15, 11 14 p. m.

For Easton at 5 18, 8 19, 9 54 a. m.; 1 01, 2 20, 5 27, 6 38, 8 21 p. m. Sunday at 5 45, 8 06 a. m.; 2 03, 6 35 p. m.

For Lake Hopatcong at 9 54 a. m.; 5.27 p. m.

WESTWARD CONNECTIONS.

5 18 a. m.—For Flemington, Easton, Allentown, Reading, Harrisburg, Pottsville, Mauch Chunk, Williamsport, Tamaqua, Upper Lehigh, Wilkesbarre and Scranton.

7 12 a. m.—For stations to High Bridge, connecting for stations on High Bridge Branch except Chester.

8 19 a. m.—For Flemington, D. L. & W. R. R. Easton, Bangor and Mauch Chunk.

9 54 a. m. For stations on High Bridge Branch, Flemington, D. L. & W. R. R. Easton, Allentown, Reading, Harrisburg, Mauch Chunk, Williamsport, Tamaqua, Pottsville, Shamokin, Nanticoke and Upper Lehigh, Wilkesbarre, Scranton, etc.

1 01 p. m.—Way for Easton, connecting at Junction for stations on D. L. & W. R. R.

2 20 p. m.—For Flemington, Easton, Bethlehem, Allentown, Mauch Chunk, Tamauqua, Sunbury, Williamsport, Wilkesbarre and Scranton.

5 27 p. m.—For Flemington and Easton, Bethlehem, Bangor, Allentown, Mauch Chunk, Reading, Harrisburg, connecting at High Bridge for stations on High Bridge Branch.

6 19 p. m.—For Flemington.

6 38 p. m.—For Easton and at Junction for D. L. & W. R. R.

8 21 p. m.—For Easton.

5 45 a. m. Sundays—For Easton, Bethlehem, Allentown, Mauch Chunk, Tamaqua, Sunbury, Lewisburg, Williamsport, Wilkesbarre and Scranton.

8 06 a. m. Sundays for Flemington and Easton.

2 03 p. m. Sundays—For German Valley, Flanders, Kenvil, Easton, Allentown, Mauch Chunk, Tamaqua, Sunbury, Lewisburg, Williamsport, Reading and Harrisburg.

5 09 p. m. Sundays—For Flemington.

6 35 p. m. Sundays—For Easton, Bethlehem, Allentown, Mauch Chunk, Reading, Harrisburg, etc.

FOR LONG BRANCH, OCEAN GROVE, ETC.

Leave Plainfield at 3 37, 8 13, 10 37 a. m.; 3 46, 4 17, 6 21 p. m.; Sundays, except Ocean Grove, 8 52 a. m.; 3 30 p. m.

For Perth Amboy, 3 37, 5 37, 8 13, 8 37, 9 58, 10 37 a. m.; 1 35, 3 46, 4 17, 5 37, 6 21, 6 30, 11 28 p. m. Sundays 8 52, a. m.; 3 30 p. m.

For Atlantic City, 3 37 a. m.; 1 35 p. m.

For Freehold, 3 37, 8 13, 10 37 a. m.; 1 35, 4 17, 5 37 p. m.

For Lakewood, Toms River and Barnegat, 3 37, 8 13 a. m.; 1 35, 4 17 p. m. Sundays 8 52 a. m.

ROYAL BLUE LINE.

Leave Plainfield for Philadelphia, 5 17, 8 14, 8 44, 9 46, 10 44 a. m.; 2 16, 4 14, 5 09, *5 34, *6 38, 8 21 *9 37 p. m.; 1 17 night. Sundays, 5 17, 5 45, 9 55, 10 44 a. m.; 2 16, 4 55, *5 09, *6 35, 9 47 p. m.; 1 17 night.

For Trenton, 5 17, 7 12, 8 14, 9 46 a. m.; 1 01, 2 16, 4 14, *5 34, *6 38, 8 21, *9 37 p. m.; 1 17 night. Sundays, 5 17, 5 45, 9 55, 10 44 a. m.; 2 16, 4 55, *5 09, *6 35, 9 47 p. m.; 1 17 night.

For Baltimore and Washington at 5 17, 8 44, 10 44 a. m.; 2 16, *5 34, *6 38 p. m.; 1 17 night. Sundays, 5 17, 10 44 a. m.; 2 16, *5 09, *6 35 p. m. 1 17 night.

LORD MAYOR TALLON

DUBLIN'S CHIEF EXECUTIVE AND HIS VIEWS.

He Thinks Ireland Is Getting Nearer Home Rule Every Day—He Declares That the Irishman Is Cleverer and More Lovable Than Anybody Else.

The Lord Mayor of Dublin crossed his legs and filled his briar-wood pipe. He was on a comfortable settee in the Hoffman House, New York, and he felt comfortable himself.

"Do you know," said he to a New York World reporter, pressing the tobacco firmly down into the bowl and striking a match, "we are going to get home rule in Ireland eventually? It may take some time, to be sure, but I believe we will win. We have gone a long way already. It is bound to come."

The Lord Mayor of Dublin speaks beautiful English, but it is beautiful Irish, too. His English is pure and undefiled. Written, it would compare with any English. Spoken, it has the softest brogue. It is Irish all through, but never a tense is violated, never a case. The grammar is all there, and the rhetoric. The brogue is all in the manner it is dropped from the lips of the most august citizen of Ireland's capital—Daniel Tallon, Esquire, Lord Mayor of Dublin.

"The late extension of the franchise," he said, taking a few meditative puffs of the stubby pipe, "is doing everything for Ireland. It has been in operation only a few months, but it has already worked wonders.

Managing Local Affairs.

"We now have the management o local affairs in our own hands. Heretofore they have been in the hands of Grand Juries, composed of the landlord class, whom we look upon as the garrisons of England in Ireland.

"Now we have got the affairs of the country districts—the county affairs—in our own hands. These are managed directly by the representatives of the people elected by them. Town M yors, sheriffs, bailiffs, justices, all, are elected by the people. We are fast coming to American ideas, when we will elect all our officers. If the people choose to elect the landlords to govern, why, all right. Let the majority rule.

"We, of course, would like to see a Parliament sitting in Dublin to govern Ireland. We would like to see such a Parliament having the power of imposing taxes on Ireland, which we now feel are unjust and excessive. As a matter of fact Ireland is now taxed £2,750,000 more than she should pay, or nearly $14,000,000. These are not our figures; these are the figures of the Royal Commission on the financial relations between Ireland and Great Britain. This in excess of the amount we should pay under the treaty of the Act of Union."

The Lord Mayor had dropped his jolly mood now, and was getting serious. He puffed fast on his pipe and laid down the law with emphatic gestures. He uncrossed his legs and leaned forward.

"These Royal Commissioners," he continued, "were men of great ability in questions of finance. They knew how wronged Ireland had been and is on matters of taxation. There were Englishmen, Irishmen, and Scotchmen on the Commission. All were of the highest attainments. Of the English I may state all were masters of finance.

"The seventh article of the Treaty of Union provided that out of every £100 raised by taxation in the United Kingdom, Great Britain should pay £88 and Ireland £12. These proportions were explicitly stated by Pitt and Lord Castlereagh to be based upon the taxable capacities of the two kingdoms. If this bargain had been kept Ireland would be taxed nearly £3,000,000 less than she is to-day.

(Enjoying his pipe).

Since 1819 the imperial taxation of Great Britain has been decreased by nearly two-thirds, while that of poor Ireland has been doubled.

"While the springs of English manufacturing have been let loose, the two chief manufactures of Ireland have been heavily weighted—distilling and tobacco making. The cultivation of tobacco up to 1820 was a valuable industry. Now it is prohibited. The average income of the Irishman is £15 per annum; that of the average Englishman £42. Yet while the Englishman's taxes are reduced, the Irishman's has been trebled."

Getting Nearer Home Rule.

The Lord Mayor had all the statistics at his fingers' ends, and he quoted them impetuously. Figures flowed from his mouth with every puff of tobacco.

"And so I think we are getting nearer home rule every day. Ireland already has her fair share of representation in Parliament. She has 103 members out of 670 odd. We don't want to be separated from England. We don't mind the levying of soldiers on us, and we don't want the right to declare peace or war, and we don't ask a hand in colonial affairs. All we want is to have something to say about taxing ourselves. We consider ourselves better able to manage our own affairs than outsiders.

"To-day home rule is stationary. It is neither advancing nor retrograding. The split in the Irish party is to blame for this. This prevents us having the influence in Parliament that we ought to have. When we were a solid party and all voting together we were occasionally in a position to turn out a Minister. This caused them to legislate more quickly than they otherwise might. Then, too, it had a great moral effect. And I am glad to say that there are indications that the party is coming together again.

"All England is now looking at the effects of the Local Government act. It has been in operation only a few months and yet it is succeeding well. It gives us a larger measure of freedom and allows us to manage our own roads, drainage and the like, and to elect our own county officers. But we haven't the power to refuse a tax imposed upon us by England, but it is coming some day. Redmond, John Dillon and Healy are working together for Home Rule, and we will win yet."

The Lord Mayor thinks New York is a great place. He admits frankly that he thought it couldn't hold a candle to London, but now says London isn't anything in comparison. He uses a green silk handkerchief. He thinks the Irish a wonderful race.

"An Irishman," said he, "is quick impulsive, generous. He is more intelligent than an Englishman and quick to understand. A thing enters an Irishman's head as quick as lightning and leaves it as quick. But it takes a long time to get anything into the brains of an Englishman; once there it sticks forever."

His Lordship was getting enthusiastic now. He declared that the Irishman is cleverer, quicker, wittier, more lovable than anybody else in the world.

"Are the Irish a handsome people?" asked the reporter.

"Ah," whispered His Lordship, "you

(Ireland will get home rule eventually.")

ought to go to the Horse Fair in Dublin if you want to see fine specimens of the human race."

The Lord Mayor is a man of perhaps fifty. He is rather short and thickset. When not in state dress he wears his Lord Mayor's gold chain inside his waistcoat. He smokes a pipe constantly and knows what good whiskey is. He is the most popular man in Dublin and is serving his fourth term, though no Lord Mayor has ever before served more than one term. The poor reverence him; the rich respect him. He takes a middle ground, seeking neither to antagonize England nor to gloss over the wrongs which he believes Ireland has suffered.

THE DANGEROUS AGE.

Time at Which Men and Women Get Entangled in Matrimony.

The most dangerous age for a bachelor is under 26½, to be accurate, 26.35, as the registrar general dryly puts it in his statistical return just issued, says the St. Louis Republic. The most joyous and delightful age for a woman is something over 24½—24.50. That is to say, that it was at those precise ages that the average bachelor of last year and the average maid became one.

The bachelor, however, becomes more wary year by year. He was older in 1898 than in 1897, when he fell in to the toils. The average bachelor was married in 1897 at 26.30 years of age, quite .05 less. The girl, too, has to wait longer now than she used to. She was .05 of a year younger in 1897 when she became a wife than in 1898. As for the people who marry as minors, they are rapidly becoming a vanishing number, among men, at least; eighty-four out of every 1,000 husbands in 1874 were married under the age of 21, and so were 227 out of every 1,000 women. The boy husband has come down to fifty-one per 1,000 now; the girl wives have dropped to 170 per 1,000. There have not been so few boy and girl marriages at any time since 1851.

Of the total marriages in 1898, 42,751 persons were minors. Of these there were 2 girls 14 years; 10, 15; 158, 16, five boys, 16; 664 boys, 17; 1,196 girls, 17, and 3,303 boys and 6,294 girls, 18; over 18 the girl-wives run into tens of thousands, and actually nearly 19,000 youths of 20 were married.

There has been a decided slump in widowers and widows of late. In 1871 138 husbands and 100 wives in every 1,000 were widowers and widows respectively. Things have changed since then; there were but 98 widowers and 69 widows in every 1,000 in 1898. The widower, by the way, is obviously more dangerous to the susceptible heart of the opposite sex than the widow. It is to be noted, however, that when the widow selects a bachelor as her husband she takes a man nearly two years her junior; when she chooses a widower her husband is nearly five years older than herself.

No Runaways in Russia.

Runaway horses are unknown in Russia. No one drives there without having a thin cord with a running noose around the neck of the animal. When an animal bolts the cord is pulled and the horse stops as soon as he feels the pressure on the windpipe.

Sexes Politically Equal.

In Iceland men and women are in every respect political equals. The nation, which numbers about 70,000 people, is governed by representatives elected by men and women together.

O brave old world take heart!
Each day, each wrong is cursed;
And the Evil look askance
For who shall bravely speak
The word defiant, just,
Man loves his fellow man.

—Carroll Austin.

A Chicago paper having kept a record of crime for ten years, declares that the saloon business of the United States is directly chargeable with a total of 53,426 murders during that time.

SPORTING.

ON THE GRIDIRON.

H. C. Smith's football team will play Vincent Miner's eleven in the cricket field on Giraud avenue tomorrow afternoon.

There is nothing afterall that will arouse enthusiasm to such a high pitch as a football game. There is something about the game that starts the blood in the veins of even the most sluggish. The games between the leading college teams that are to take place during this month are wonderful examples of the soul-stirring power of this popular game.

While the referee at the game between the Orient Field Club and the Alis football team at Newark Saturday, decided that the result was a tie, the captain and many of the members of the Newark eleven admitted that they were fairly beaten and refused to claim the match, saying that the Plainfielders won by a score of 5 to 0. The referee was an old player from the Orange A. C. who had been coaching the Orient team and was particularly anxious to see them win. Whether he was a poor observer of passing events on the gridiron, or whether he allowed his prejudice to overcome his good judgment, it is impossible to say. However it was, his decisions were so utterly unfair that his own team refused to sustain him.

GOLF

Next Saturday the preliminary round for the Chapman cup will be played on the course of the Hillside Tennis and Golf Club. The play for this cup is one of the most interesting and exciting of the year and should attract a large number of contestants.

THE COURTS.

JUSTICE MOSHER.

Summons—Barrett against Hatch, contract; returnable the 13th.

Chancellor McGill's Illness.

Dr. John D. McGill returned to Jersey City from Baltimore yesterday, whither he had gone to visit his brother, Chancellor Alexander T. McGill. The Chancellor is in the Johns Hopkins Medical Hospital, undergoing treatment. Dr. McGill was not encouraged by his brother's condition and it may be several weeks before the Chancellor will be able to resume his duties.

Death of a Little Child.

David Eberley, aged eight months and twenty-two days, son of John and Christena Eberley, of 722 South avenue, died last evening after a short illness. The funeral will be held from the residence of the parents tomorrow afternoon at 2 o'clock.

Miscreants Defaced Signs.

Some miscreants yesterday defaced the handsome signs on the corners of the Jackson building at West Front street and Madison avenue. Besides scratching the signs in many places a knife has been used to cut away pieces of the boards.

Ten Years for Manslaughter.

(Special to The Daily Press.)

Salem, November 2.—George Willetts was convicted yesterday of manslaughter. He killed former Councilman Mason M. Bennett December 26th. He was sentenced to ten years at hard labor.

False Rumor.

A report has been current on the street that Woodhull & Martin, dry goods merchants, have leased the store in the Babcock building formerly occupied by VanEmburgh & Son. The report is untrue and is denied by the firm.

No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50 cents at L. W. Randolph's Drug Store.

In a Nutshell:

Regular collections; intelligent washing; careful ironing, prompt deliveries. This makes a good laundry. People who have known us as dyers for thirty years back may not realize that we are doing the largest laundry business in New Jersey. Send us your bundle for a trail.

HILLIER & CO.,

129 West Front Street,

Opposite Crosby & Hill's. 'Phone 851.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders.

—There will be a regular meeting of the Borough Board of Health Monday evening next.

—The foundation for Col. Mason W. Tyler's new house on West Eighth street is being laid.

—More crushed stone is being spread on Park avenue in the hope of making it a passable thoroughfare.

—This is the season of pneumonia. Be prudent in your change of underwear. Peck has all weights and grades.

—The S D. Drake Realty Company has just sold a number of city lots upon which handsome residences will be built.

—There seems to be an epidemic of mumps about the city, several cases having been reported within the past few days.

—Under the auspices of the guild of St Stephen's P. E. church an entertainment will be given in the Y.M.C.A. Hall this evening.

—The Epworth League of the First M. E. church will hold a business meeting and social in Vincent chapel tomorrow evening.

—John Hand Camp, No. 23, S. of V., will hold a very important meeting next week Tuesday evening and every member is especially urged to attend.

—The regular monthly meeting of the lady managers of the Childrens' Home will be held this afternoon at the Y. M. C. A. building at 3 o'clock.

—The Women's Association of the Congregational church is holding an all-day sewing meeting in the church parlors today. Lunch was served at noon.

—Mrs. L. J. Denton, of West Front street, is advertising cut rates for choice flowers. The advertisement appears in another part of The Daily Press.

—A number of passengers were carried between this city and South Plainfield yesterday in the new omnibus now running to connect with Lehigh Valley Railroad trains.

—John Powers, the popular Somerset street druggist, is always up-to-date, and he presents now a handsome display of chrysanthemums in his window, which are much admired.

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with Typhoid Fever, that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even set up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong I can say too much in it praise." This marvelous medicine the surest and quickest cure in the world for all Throat and Lung Trouble. Regular sizes 50 cents and $1.00. Trial bottles free at L. W. Randolph's Drug Store; every bottle guaranteed.

A Church Fair.

Thursday and Friday afternoons and evenings, November 16th and 17th, a fair will be held on Somerset street under the auspices of the German Lutheran church. It will be held in a store near Warren Engine Company house.

Waverly State Fair Lost Money.

(Special to The Daily Press.)

Newark, Nov. 2.—Because of bad weather and the detracting influence of the Dewey celebration the last State Fair in Waverley, it was announced yesterday, resulted in a loss of $500.

Fifteenth Anniversary.

The fifteenth anniversary of the organization of Bethel chapel Sabbath school will be celebrated next Sunday afternoon at 3 o'clock. All the members of the school are requested to be present.

A Detailed Map.

Frank J. Hubbard has completed a detailed map for the Middlesex Land Company showing the streets and lots laid out west of Dunellen on the property owned by the company.

King's Daughters Meet.

The executive committee of the King's Daughters held the usual monthly meeting at the Y. M. C. A. building this morning. Routine business was transacted.

Celebrated Brooklyn Divine.

Rev. James Demarest, D. D., of Brooklyn, N. Y., will preach in Trinity Reformed church next Sunday morning, and possibly in the evening as well.

To Cure a Cough in One Day
To Cure a Cold in One Day
To Cure Sore Throat in One Day
To Cure Hoarseness in One Day

Take Cleveland's Lung Healer, 25c. Trial size free. If it fails to cure, your money will be refunded. T. S. Armstrong, the apothecary, corner Park and North avenue.

PARTICULAR MENTION.

J. B. Smith, of West End Park, is visiting friends at Orange.

Miss Annie Crum, of Haverstraw, N. Y., is a guest at the home of Rev. Dr W. C. Nelson, of Summit avenue.

Miss Margaret Kenney, the bright young daughter of John J. Kenney, of East Second street, is confined to the house with a severe attack of the mumps.

Mr. McDonald, of Terrill road, who together with his wife and son have been medical patients at the hospital, was discharged cured from that institution today. Mrs. McDonald and son will remain for a time.

WEDDED AT MT. HOREB.

Ticket Agent at Skillman Won His Bride and Married Her.

Yesterday afternoon at 4 o'clock at the home of the bride's father, Aaron Spencer, Mt. Horeb, occurred the marriage of his daughter, Miss Lucetta Spencer, to Mr. Skillman, of Skillman, N. J. The wedding was a quiet affair and was attended only by the relatives and intimate friends. The ceremony was performed by Rev. S. D. Harris, pastor of the Mt. Horeb M. E. church, and the bride and groom were unattended.

After the wedding supper Mr. and Mrs. Skillman left for a wedding trip to Washington. Upon their return they will reside at Skillman, where the groom is the ticket agent at the P. & R. R. R. station. The bride was formerly a school teacher, and is very popular in a large circle of friends. They both received a great many handsome presents from their friends.

A BIRD TALK.

The Common Birds of the Country Not Decreasing in Number.

There is a reassuring "Bird Talk" by John Burroughs in the November St. Nicholas. One of the good signs *of the times, he says, is the interest* our young people are taking in the birds, and the numerous clubs and societies that are being formed throughout the country for bird protection and cultivation. In my youth but little was heard about the birds. They were looked upon as of little account. Many of them were treated as the farmer's natural enemies. Crows and all kinds of hawks and owls were destroyed whenever chance offered. I knew a farmer who every summer caught and killed all the red-tailed hawks he could. He stood up poles in his meadows, upon the tops of which he would set steel traps. The hawks, looking for meadow mice, would alight upon them and be caught. The farmer was thus slaying his best friends, as these large hawks live almost entirely upon mice and vermin. The redtail, or hen-hawk is very wary of a man with a gun, but he has not yet learned of the danger that lurks in a steel trap on the top of a pole.

If a strict account could be kept with our crows and hawks for a year, it would be found at the end of that time that most of them had a balance to their credit. That is, they do us more good than injury. A few of them, like the fish-crow and sharp-shinned hawk, Cooper's hawk and the duck-hawk, are destructive to the birds and wild fowls; but the others live mainly upon insects and vermin.

I do not share the alarm expressed in some quarters over the seeming decrease in the number of birds. People are always more or less gloomy in regard to the present and present things. As we grow older the number of beautiful things in the world seems to be fewer. "The Indian summer is not what it used to be; the winters are not so bracing; the spring is more uncertain; and honest men are fewer." But there is not much change after all. The change is mainly in us. I see no decrease in the great body of our common field, orchard and wood birds. I do not see the cliff swallows I used to see in my youth; they go farther north, to northern New England and Canada. At Rangeley Lake, in Maine, I saw the eaves of a barn as crowded with their mud nests as I used to see the eaves of my father's barns amid the Catskills. In the cliffs along the Yukon in Alaska they are said to swarm in great numbers. Nearly all our game-birds are decreasing in numbers, because sportmen are more and more numerous and skilful, and their guns more and more deadly. The bobolinks are fewer than they were a decade or two ago, because they are slaughtered more and more in the marshes and rice fields of the South. The bluebirds and hermit-thrushes were threatened with extinction by a cold wave and a severe storm in the Southern States a few years ago. These birds appear to have been slain by the hundred thousand. But they are slowly recovering lost ground, and in ten or more years will no doubt be as numerous as ever. I see along the Hudson River fewer eagles than I used to see fifteen years ago. The collectors and the riflemen are no doubt responsible for this decrease. But the robins, thrushes, finches, warblers, blackbirds, orioles, fly-catchers, vireos and woodpeckers are quite as abundant as they were a quarter of a century ago, if not more so.

—Col. J. W. Coleman will open the Revere House to the public Monday next. He will call it The Park Avenue Hotel.

—Bulletins of the Sharkey-Jeffreys fight at Conep Island tomorrow evening will be given by the Postal Telegraph Compauy.

The Kind You Have Always Bought

Bears the Signature of Chas. H. Fletcher.

STORY OF OOM PAUL.

SKETCH OF A WONDERFUL PUBLIC CHARACTER.

He is a Hunter, a Philosopher, a Preacher and a Statesman—Has Great Wealth Although He Lives in a Modest Little Cottage.

Stephanus Johnnes Paulus Kruger, President of the Transvaal, is the most interesting public character of the day. Upon being introduced you first conclude that he has been greatly over-estimated. He seems nothing more than a shrewd old hunter, who, by constant contact with wild animals and savage Kaffirs, has developed a wariness that makes him suspicious of everything and everybody. He does not have the "penetrating eye" usually ascribed to great men. On the contrary, a puff of flesh underneath his eyes, as a rule, permits one to see but a narrow gleam giving one the expresson of shiftiness.

His legs are so short and slender that you wonder how they bear the weight of a heavy, thick and solid body. His head is big, wth nose and ears to match and his neck, concealed by beard, hair and coat collar, so that you cannot determine whether or not he indulges in neck wear. At home he is usually puffing a short briar pipe and as he handles this you notice that the thumb of his left and is missing. There is a story in connection with this that His Honor will tell you between puffs if he is in the mood. It gives an idea of the spirit which is a characteristic of the old Boers.

Mr. Kruger, when a young man, was out hunting one day with a rifle which

[President Kruger.]

had not been used for a long time. While tinkering with a charge the gun exploded, tearing his left thumb in shreds. Kruger's companions wanted him to give up the hunt and hurry to the nearest surgeon, but the intrepid young Boer refused. Taking out his hunting knife he placed the lacerated thumb on the stock of his rifle and amputated it himself. By tying about the stump a piece of rawhide he stopped the flow of blood, and, winding around it a red handkerchief, he continued the sport.

All through his life Kruger has had narrow escapes from death, and his career, if detailed fully, would be thrilling. When only fourteen years old he and his little sister strayed away from the laager down in Cape Colony, where the elder Kruger had settled on emigrating from Germany, and while playing were suddenly attacked by a leopard. Young Kruger's only weapon was a jackknife, but shielding his sister with one arm, he met the vicious spring of the leopard with the other, and after a bloody struggle succeeded in stabbing it to death.

His first duty, he believes, is to God, and his second to Rhodes, whom he detests like a poisonous reptile. But for Rhodes, Mr. Kruger says, all would be peace and quietness in the Transvaal. So long as this man is in South Africa there is no rest for the Boers, and their secret service agents may be found on every street in Johannesburg, on the lookout for Uitlander conspirators.

Kruger, in addition to his other accomplishments, is by far the best preacher in the Transvaal, and the Dutch Reformed Church boasts of some capable men there. He occupies the pulpit in a modern brick edifice across the street from his home about once a month, and always talks to standing room only. He uses no notes, but speaks off-hand from a text, and does not hesitate to sprinkle a little humor in the discourse. In his speeches before the Raad he quotes scripture generously, and even more so in conversation.

As for his private life, that seems to be exemplary. After rising he prays for a long time in his room, and, "talks over with the Lord" the questions of the day. When he develops a conviction in this way he proceeds to act upon it. Kruger's piety once nearly cost him his life. A good many years ago he suddenly disappeared, and when he failed to show up a searching party was made up to hunt for him. At the end of three days they found the future President, who was then a field cornet, lying face down on the open veldt. He had been proying three days and nights steadily, without food or water, and was nearly dead.

Mr. Kruger is now 76 years old, and has been elected to the Presidency four times. His salary is $35,000, with $1,500 for coffee. This he drinks black, and so hot that the burghers say it will scald the hair off a dog. His life has certainly been a remarkable one, and at different stages he has been a farmer, herdsman, hunter, soldier, clergyman, ambassador, triumvir, financier, head of the army, and is now serving his fourth term as President.

Mrs. Kruger has been Mr. Kruger's constant helpmate through all the years of his public life, and their affection for each other seems to have grown with each succeeding year. She is Mr. Kruger's second wife. Kruger's first wife was an aunt of Miss Du Plessis, and bore him one son, who died. Sixteen children were the fruit of this second marriage, and of those seven are living. The girls are comfortably married to burghers in and about Pretoria, and the boys take an active interst in the army. One son-in-law, Captain Eloff, has made himself famous by building the most expensive mansion in South Africa. He has accrued a fortune in real estate operations, and is supposed to be worth $2,000,000. One of Kruger's sons acts as his secretary and another is captain of an infantry company. Mr. and Mrs. Kruger live in a little two-story cottage, painted white and covered in front with morning glory vines.

The Great Bargain Sale to Last for Three Days.

A most remarkable money saving sale of the season. Having been successful in purchasing a handsome lot of Men's and Boy's suits, overcoats and trousers of one of the most leading clothing manufacturers on Broadway, New York. They have decided to dissolve partnership and to turn their entire stock into ready cash.

Every garment that we purchased has the full name on each label and are made in the latest and most up-to-date styles. Each and every overcoat is lined with pure silk. The suits are the most fashionable ever sold in Plainfield. A few minutes of examination will convince you that this is the handsomest lot of clothing that was ever shown in this vicinity, but on account of the way we purchased this elegant stock we will make the lowest prices on high grade clothing ever offered to you.

$10 00 Men's overcoats in kersey and beaver in blue, black or brown, also heavy weight covert cloth, special 4 75

$14 00 Men's overcoats, well made and trimmed with the best silk lining, perfect in every respect, for this sale at 6.25

A GOOD DOCTOR, THEY SAY, BUT BORN ROGUE.

Dr. Bondy's Victims Ascribe Hypnotic Powers to Him.

POLICE ARE AFTER HIM.

USED SWINDLING AS A SIDE LINE TO HIS PROFESSION.

Now That He Has Disappeared Under a Cloud From Somerville the Police of Several Places are Looking For Him—While There He Was Visited by a Blonde Woman From Plainfield.

Is Dr. E. S. Bondy a hypnotist? A hundred of his victims in Somerville believe he exercised some occult power over them to obtain their money.

Dr. Bondy is a short, thick-set man, who walks with a limp, which he says is the result of a gun-shot wound in the right leg, which he received while serving in a foreign army. He is dark-visaged, with luminous eyes and a smile that captivates. He says he is a Bonemian, but he speaks five languages fluently, and his foreign friends have never been able to determine his nativity.

He is reputed by the druggists to have a superior knowledge of medicine. His success as a physician won for him in five months a lucrative practice in Somerville such as other physicians of the place have failed to gain in as many years.

Dr. Bondy might have gained a livelihood by legitimate means, but he is a born rogue, and has used swindling as a side line to his profession in the several towns in which he has operated along the line of the New Jersey Central Railroad during the past year. Since his escape from Detective McCann, of Somerville, last Friday night, the authorities of Bayonne, Plainfield, New Brunswick and other nearby towns, have been anxiously inquiring of the police department of his capture. The police of Bayonne report that his swindling operations there were extensive, and that he is wanted for jumping bail.

During Dr. Bondy's five months residence in Somerville he lived alone in his office at Raritan, but he was frequently visited by a blonde woman of remarkable beauty. This woman Bondy said was his wife, who lived on his farm near Plainfield.

Dr. Bondy has a string of bondsmen who are anxious about his capture. Among them is Lewis Klein, of Somerville, who bailed him for an offense committed in Newark.

MEN WERE IN CHARGE.

They Arranged a Pleasant Sociable at Methodist Church

The men of the First Methodist church had their turn last night. At the request of the Ladies' Aid Society of the church they took charge and arranged a very enjoyable social that was held in Vincent chapel.

Rogers' orchestra was present during the evening and rendered a number of classical and popular selections

George R. Cornwell, of New York, formerly one of the leading men of the congregation, was present and held an informal reception, for there were many who wished to see him and shake hands. Later in the evening the committee served ice cream and cake to their guests.

The general committee consisted of Henry A. McGee, chairman; G. M. Rittenhouse, N. A. Miller, J. E. Joy, Arthur Orone, Harry Gee, D.E Davi, George A. Burgess and J. W. Jackson. A number of sub-committees assisted in arranging the affair.

GUILD WAS IN CHARGE

Entertainment Given in Y. M. C. A Hall for Benefit of St. Stephen's Church.

A good-sized audience assembled at the Y. M. C. A. Hall last evening and enjoyed an entertainment given under the auspices of St. Stephen's Guild. The programme included instrumental selections on the piano, Prof. Linder; ancient and modern magic, Yarrick; soprano solos, Miss Mabel E Jamison accompanied by her sister, Miss Ethel Jamison; original monologue and violin selection, Wm. "Josh" Daly; piano selection, Miss Helen A. Hasbrouck; dramatic recitals, B Russell Throckmorton, and illustrated songs, G. W. Johnstone, assisted by F. W. Norris. The programme concluded with a number of slides depicting scenes in the recent Spanish-American War.

Death of Mrs. Durant's Mother.

Mrs. John A. Graham, of New York, mother of Mrs. C. G. Durant, of 417 East Fifth street, died suddenly at her home last Sunday. She was 45 years of age The funeral was held from the late home Tuesday.

AID FOR THE DESERVING

NEW DEPARTMENT OF THE RELIEF ASSOCIATION.

A System for Furnishing Help to Transient Applicants That Will Keep Out the Habitual Hobo From the City.

The Organized Aid Association would call attention to the new department of the Plainfield Relief Association, which department consists of a system of furnishing aid to transient applicants for relief. The design of the Organized Aid and Relief Associations in establishing this system is to prevent aid being given to unworthy applicants (or tramps), while no worthy applicant need go unaided.

Tickets entitling the holder to such aid have been placed on sale at certain of the drug stores and at the Relief Association rooms; which tickets may be purchased by anyone desiring to furnish aid to such applicants. The holder of these tickets may give one or more, dated and signed by him to the applicants who will take them to a central bureau indicated on the ticket, where if on investigation the applicant proves to be worthy, the ticket is to be countersigned, and the applicant referred to the Plainfield Relief Association for the necessary aid.

It has been further arranged that each applicant must furnish a required amount of labor to compensate for the aid given.

GOOD ENOUGH FOR THEM.

So Cranford Parents Think of the Board of Education, and its Janitor Troubles.

The Cranford Board of Education brought a lot of trouble on itself by dismissing William E. Okey, who had been janitor for the last twelve years and appointing August Smitt, an alien, who got the job through political influence. It was said at the time that Smitt did not know how to run the heating apparatus. The latter part of last week Smitt did not keep the building properly heated.

On Saturday Smitt left town and his job. The school was closed on Monday morning, but the janitor of the Lincoln School visited the building and succeeded in getting up enough steam to hold an afternoon session This janitor has been attending to the building ever since, but it will be impossible for him to attend to both buildings for long. Meantime nobody knows what has become of Smitt.

There was considerable discussion among the citizens of this place over the appointment of Smitt as janitor, and many claimed they would take their children out of school rather than run the chances of having them blown up.

The Board of Education will hold a special meeting at once to determine upon a new janitor.

A RAG-TIME SURPRISE.

Conversed and Played in Rag-Time at Miss Finney's Home.

A delightful surprise party was given to Miss Edith Finney, of Jackson avenue, Wednesday evening. Those who arranged the affair, Miss Alice Davie and Miss Jennie Everey, called it a "rag time" party. A trio, composed of Albert Utzinger, Edward Baker and John VanHorn, sang rag time melodies, Miss Alice Davie acting as accompanist. Rag-time music was played by George Conover and Howard Huff on banjo and mandolin. Then there was other singing and instrumental selections. Supper was served late in the evening. A number of guests were present from Plainfield, Roselle and Somerville.

TO SAVE NEW BRUNSWICK.

Rival of That Army Which Tries To Frighten The Devil Away

Captain Thomas Herdmen and wife, of Trenton, have revived the Salvation Army in New Brunswick. This organization once an important factor here, became disrupted by the secession of the American Volunteers, and for a year the barracks of both organizations have been closed.

Captain Herdmen was detached from the Army in Trenton to try to stir up things in New Brunswick. Captain Herdmen's record shows him to be a man of determination, the Trenton police having arrested him a number of times for holding open-air meetings in violation of a city ordinance.

Work in the Y. M. C. A.

At last evening's monthly meeting of the board of directors of the Y M. C. A. written reports were received from the committee on religious, educational, and boy's work; also on membership and rooms. A partial report was made on the recent anniversary. A vote of thanks was tendered to Rev. Mr. Atkinson of St. John's church, Elizabeth, and to Frank Smith, army and navy secretary of the Y. M. C. A., for their interesting addresses at the recent anniversary.

TRAMPS TERRORIZE DUNELLEN CITIZENS.

Several Hold-Ups Have Recently Taken Place.

TWO YOUNG MEN ROBBED.

THEY WERE MADE TO STAND AND DELIVER.

From One of the Men The Highwaymen Secured $2.50 and From Another an Attempt was Made to Steal a Suit of Clothes—Women and Children Are Afraid to Be on the Streets at Night.

A reign of terror has struck Dunellen and is all over the tramp nuisance, which has become so noticeable as to attract the attention of the citizens. The tramps, becoming bolder because of non-interference with their repeated depredations, have finally taken to frightening and intimidating women and children in the early hours of the evening. Later in the night these scoundrels make bold to hold up lone pedestrians and when they refuse to stand and deliver do not hesitate to relieve them of their space cash and valuables.

Last Saturday night in the vicinity of the outskirts of New Market a young man named Albert Myers, of New Brunswick, who had been calling upon some friends, was held up by a tough specimen of humanity and was relieved of $2 50. Fortunately Myers was able to break away from his captor and succeeded in saving his valuable gold watch. Myers was so frightened that he didn't stop running until he reached the railroad station at Dunellen.

Again on Monday evening another hold up is reported to have taken place on one of the side streets and a young man was stopped by two hard characters and asked for money. He told them he did not have any. When threatened with bodily harm he tossed one of the men six cents—all the money he had. One of the men then tried to take from him a suit of clothing, which he had just bought in Plainfield. The young man finally eluded the tramps and made his escape.

Several other persons have also been stopped on the streets in the evening and asked for money by strange looking men. Scarcely a day passes but some house wife answers a knock at the back door and when it is opened she finds there a dirty specimen of the hobo specie who asks for food. The place is literally overrun with tramps, who have become so bold in their demands as to cause the good citizens to ask themselves what the outcome will be unless the check is placed upon them. Just as soon as the good natured house wife stoops feeding these vagabonds just as soon will they find that they are not welcome and will finally give the borough a wide birth. They are a nuisance and a menace to the welfare of the community and should be driven from the vicinity.

MR. CONWAY'S POLITICS.

Says His Mind is Uncertain as to What Candidates He Will Urge His Race to Support.

Spencer Conway wants his friends to know that he is at home once more and that he intends to enter politics this fall. He says that he has not been able to determine just which party he will work for, as recent events has placed his mind in an uncertain condition along this line. He wants to work for the people of his race and he will arrange for a mass meeting in a few days when the situation will be discussed at great length. The record of each man running for office, together with the leaders of each party, will be brought up and thoroughly gone into The colored people realize fully that they are a factor in this city at election, and claim that they will not be bought off this year to gratify the desire of the selfish politician.

MURDERED MAN ONCE LIVED HERE.

Lived For Several Years in House on Belvidere Avenue.

Henry C. Hardy, grandfather of Frederick Hardy, Jr., who was murdered at Fort Hamilton October 22d, was a former resident of Plainfield. He lived for several years in the house on Belvidere avenue lately occupied by Constantine P. Ralli. He was then a broker in Wall street. He moved away from Plainfield ten years ago.

Young Hardy was expecting to board at Metuchen while he contined the study of art in New York. The delay in learning of his disappearance was due to the fact that it was supposed that he had gone to Metuchen.

—V. L. Frazee's entire new list of prices in today's Press means money saving for the housewife.

A NIGHT FOR DEMOCRATS.

RECEPTION TO THE CANDIDATES TO BE HELD TONIGHT.

Will Probably be the Most Notable Affair for the Local Democracy in Several Years—Out-of-Town Delegations.

There is every indication that the reception arranged by the new Democratic City Executive Committee for the introduction of the Union county candidates to the voters of Plainfield and vicinity, to be held in the Ulrich building, on East Second street, tonight from 8 to 10 o'clock, promises to be the most notable function of the local Democracy in several years.

The executive committee has perfected every detail necessary for the occasion, and a large crowd of voters, irrespective of political belief, is expected to be on hand. Two thousand cards bearing invitations to the affair were distributed this morning at the station, stores, offices and factories, so that every voter will either directly or indirectly be invited.

Large delegations of Democrats from Elizabeth, Rahway, Westfield, Somerville, Scotch Plains and Fanwood are coming, and among them will be the leading party workers in the county.

There will be no set speeches, though perhaps for half or three-quarters of an hour there will be half a dozen five or ten-minute talks by some of those who are good at oratory and argument in politics.

Rogers' full orchestra will be on hand and during the evening to discourse musical selections.

A SOCIALIST EXPLAINS.

TELLS WHY WORKINGMEN SHOULD VOTE THAT TICKET.

William Walker, a Socialist-Labor Candidate in Essex County, Spoke to a Small Audience in T. A. B. Hall.

The ratification meeting of the Socialist-Labor party, advertised to be held at T. A. B. Hall last evening, was not largely attended. Matthew Maguire, of Paterson, who had been billed to speak, was not present. In his absence William Walker, of Newark, candidate for Surrogate on the Socialist-Labor party ticket, of Essex county, made a short address. His subject was: "Why Should the Workingman Vote the Socialist-Labor Party Ticket?"

The speaker did not advance any new arguments to support his views on the Socialist theories. The trusts and millionaires came in for a good share of denunciation. He maintained that under the competitive system the workingman was being crowded to the wall, and the time was rapidly approaching when labor would be so cheapened that the poor man would be subservient to the dictates of the combination of syndicates and trusts that were yearly growing stronger and stronger. He expressed the belief that in ten or fifteen years, if the Socialist does not assert his power, the condition of the workingman will be so deplorable as to bring about a state of misery that will force a revolution in this country. The only salvation for the workingman, he said, was at the ballot box He should vote for his own interests by uniting his strength with the Socialist party. With that party in power the destitution and misery that now confronts the workingman will cease. Mr. Walker said he believed that neither the Republican or Democratic parties were any benefit to the laborer. The two parties which the laboring man had to deal with today were those who earned their bread by the sweat of their brow and those who did not. He then referred to the growth of Socialism in France, and told how by perseverence the Socialistic party had succeeded after several years in securing a number of Socialists in the French cabinet. He endeavored to impress upon those present the belief that with Socialism prevalent through the land crime would be diminished, and that a new era would eventually dawn for the workingman.

Promotes Sale of American Machinery.

O. J Stone, of London, Eng., made a flying visit to Plainfield yesterday and spent some time at the Scott Printing Machine Works. Mr. Stone is the founder of what has become known to be as the largest agency in the world for the sale of American machinery. Henry D Morrison, a former Plainfielder, secured an interest in the business, and they are now joint managing directors of the company they have organized, known as "The Printing Machine Company." The company has branches all over the world. Mr. Stone returns to Europe tomorrow.

REPUBLICANS GREET THEIR CANDIDATES.

An Informal Reception For the County Standard Bearers.

APPEARANCE OF HARMONY.

A FEW SHORT SPEECHES WERE MADE.

Most of the Leaders Were There—The General Tone of the Conversation Was to the Effect That the Convention Settled All Differences and the Time for Work Had Come

There was every appearance of harmony and good feeling at the informal gathering of voters to meet the candidates on the Union county Republican ticket last evening. Fully 200 assembled and plenty of enthusiasm was shown. It was not intended that there should be any speaking, but, at the last moment, the candidates were called upon for a few words. The rally was held in Republican headquarters on East Front street and, with few exceptions, the local leaders were present.

All the candidates were present. Senator Joseph Cross, Robert G. Houston, nominee for Sheriff, and Ellis B. Meeker, nominee for the Assembly, came up from Elizabeth with County Clerk Wm. Howard, from Rahway. Chester M. Smith, the Westfield nominee for the Assembly, was also present. The party from Elizabeth also included Assemblyman George A. Squier and Joseph D. Lowden, city editor of the Elizabeth Journal. Chas. S Foote, the local candidate for the Assembly, was present.

Assemblyman Roger F. Murray, of this city, was prominent among the local politicians who received the guests and introduced them among the local workers. The first hour was devoted to introducing the Plainfielders to the candidates.

In the absence of Alex. Gilbert, chairman of the city executive committee who was out of town, the meeting was called to order by Former Assemblyman W. A. Codington, who introduced Senator Cross as the first speaker. The Senator paid a compliment to the great Republican strength of Plainfield and then told of the many distinguished men heretofore chosen by the Republicans of Union county to represent them in the Senate and declared his great appreciation of the honor conferred on him. He spoke of the little differences of the past and hoped and believed that they were now healed. He characterized this as an "off" year but said there should be no "off" year with the Republicans. He urged his fellow Republicans not to fall into the trap of overconfidence.

County Clerk William Howard expressed his belief that the Republicans could get out a full vote and win if they made a little effort. There was no place in the county, he said, where he could depend on such a Republican vote as in Plainfield.

The candidate for the shrievalty, Robert G. Houston, told his listeners that he was the first man nominated for that office who had been selected from among the workingmen.

Ellis B Meeker begged his friends to make considerable allowance for him as this was his maiden speech. He represented the Halsey element and declared that that the little breech was fast healing up. Mr. Halsey had told his friends that the best and only way they could serve him was by supporting and voting for the Republican ticket in its entirety.

Chester M. Smith smiled at his auditors and they smiled back. Then he declared that he was chosen to go to Trenton he would do all he could for Union county and the Republican party.

The introduction of Charles S. Foote was received with hearty cheers. Mr. Foote said that while he appreciated this form of encouragement, it was the votes that were needed whereat a man in the rear of the room shouted "You'll get them all right." And Mr. Foote thanked him.

Mr. Foote proved an able and interesting speaker. He referred to the pleasure of meeting so many fellow Republicans and said that the candidates were all there except the coroner and that at present the assemblage did not want to be sat on. He expressed his regret that Plainfield did not go to Elizabeth united. He paid a graceful compliment to William Newcorn and he declared that he recognized his right to the support of Plainfield as due his indefatigable labors in behalf of the party in the past. Regarding past differences in the party, he thought that the convention should settle it all and he impressed on his hearers that this was not a time for trading votes but to see that every candidate was elected The only purpose of the candidates now was to serve their constituents.

After a continuation of the reception, the guests from out-of-town departed for the 9:20 train for home.

ELIZABETH IS WILLING

THAT CITY WILL GRANT FRANCHISE TO RIKER-HINE SYNDICATE.

No Opposition to the Application at the Public Hearing Given by the Common Council—Ordinance to be Drawn Up.

(Special to The Daily Press.)

Elizabeth, Nov. 3—The Elizabeth City Council Wednesday night gave a hearing at the Council chamber on the application of the Elizabeth and Westfield Street Railway Company for permission to extend its road from Union township down Jersey street in Elizabeth to connect with the branch line of the North Jersey Street Railway Company that runs through West Jersey street to Elmora.

There was a large attendance at the meeting of interested property owners, and a number of speeches were made. There seemed to be no opposition to the granting of the franchise asked for, provided the company would only make reasonable concessions and pave the streets through which the new railroad is to run.

The company's representatives expressed themselves as willing to pay for the privilege, and the whole matter was referred to the street committee, with instructions to draw up an ordinance that would be satisfactory in its provisions to both the city and the railroad company, and submit the same to the City Council November 15th.

There is hardly any doubt now that the company will get what it asks for.

THE DEMOCRATIC CLUB.

Board of Governors Organized By Electing Judge Codding as President.

The board of governors elected by the new Democratic Club met last night to organize and get in working shape. The organization was made by electing the following officers: President, W. A. Coddington; vice-president, John H. Hillman; secretary, W. W. St. John; treasurer, H W. Marshall.

The matter of a constitution and by-laws for the government of the club was discussed informally, but at the next meeting of the governors they will be adopted.

It is probable that within two weeks the club will be thoroughly organized, and that it will be established by the end of this month.

WINNING THE COLORED VOTE.

Unseen Republicans Hands Arranged the Event, Which Democrats Criticise.

Through the efforts of unseen hands there was held last evening on Somerset street, in the borough, a Republican meeting for the colored people. Most of the sixty persons present were from this city. There was plenty to eat and drink and all appeared to have had a good time. It is alleged by some Democrats that disorder reigned as a result, but this is flatly denied by those present, who say that everything passed off harmoniously. William J. Pride, the Somerset street barber, was in charge of the meeting, and some good speeches were made by those present. The meeting broke up about 11 o'clock.

Defeated Man Trained Here.

The preliminary bout at the Broadway Athletic Club, New York, last night previous to the Dixon-Curley contest was between Sam Bolen and "Denny" Ward. The latter, who was defeated in a twelve round battle after a gamey fight, did his training in this city. Quite a number of the sporting fraternity will be at the ringside tonight to witness the Jeffries-Sharkey battle. The betting in this city is about evenly divided between the men.

Married in St. Joseph's Rectory.

John Ayers, of Duer street, and Miss Margaret Cassidy, of Rockview avenue, were united in marriage last Wednesday evening at the rectory of St. Joseph's church, by the pastor, Rev. Father Miller. Miss Kate Cassidy, sister of the bride, was bridemaid, and Edward Uhrhahn was best man. After the wedding a reception followed at the home of the groom on Duer street.

A Wonderful Dog.

Six fine bull puppies arrived yesterday at the drug store of John Powers, Somerset street. The mother is celebrated for the fact that since she has been a resident at the pharmacy she has almost lived on patent medicines and other things too numerous to mention.

Result of the Fight.

If any decision is had in the fistic encounter between Jeffries and Sharkey the result will be announced during the performance of "Blue Jeans" at Music Hall tonight.

Returns From the Fight.

Bulletins of the Jeffries-Sharkey fight will be read at McVey's cafe tonight as the fight goes on. Ballentine's and Anheuser Busch beers on draught.

A NEW POSTOFFICE AND NEW TOWN NAME.

Washingtonville Will Hereafter be Known as "Watchung."

FIRST POSTMASTER NAMED.

FREDERICK W. WOHLFERT HAS BEEN APPOINTED TO THE POSITION.

New Postoffice Established Through the Efforts of Mr. Wohlfert and Congressman Howell—Office Will be in Operation in a Few Weeks—Location Not Yet Selected—Locality Will Now Grow.

Through the efforts of Frederick W. Wohlfert of Washingtonville, backed by the influence of Congressman B. F. Howell of New Brunswick, who represents the third Congressional district, the citizens of the former place are soon to have the benefit of a postoffie. Yesterday afternoon Mr. Wohlfert received a letter from Congressman Howell notifying him that the postmaster general had decided to establish a postoffice at Washingtonville, which will hereafter be known as "Watchung," and that Mr. Wohlfert had been appointed to the position of postmaster.

The new postoffice wil be classified as a fourth class office, and the salary will be paid according to the amount of the cancellation of the stamps.

Mr. Wolfert told a Daily Press reporter this morning that he had not yet decided where the office will be located. It will probobly be established and in full operation inside of a month or six weeks. The mail will be sent via this city and taken to the Watchung postoffice by the stage that now carries the mail to Warrenville. There will be two mails each day for the present.

The establishment of the postoffice will be heartily welcomed by the citizens of Washingtonville, who for a long time have been anxious for this convenience. To Mr. Wolfert much credit must be given for bringing to a successful consummation this new departure. It was much desired and will prove to be a stepping stone toward a business boom to this delightful locality. With the proposed trolley line built there is every reason to believe that the day is not far distant when Watchung will assume the dignity of a borough of considerable importance.

FARMERS' INSTITUTES.

Thirty to Be Held in the State This Winter.

The New Jersey State Board of Agriculture has issued its Farmers' Institute Bulletin for the winter of 1899-1900. Arrangements have been made by order of the executive committee for about 30 such meetings throughout the State.

The following speakers have been secured to address the farmers at the different institutes: James E. Rice, one of the institute conductors of New York State; Alva Alger, of Ohio, a prominent institute speaker and conductor; F. H. Valentine, of the Poultry Monthly; Herbert W. Collingwood, editor of the Rural New Yorker; Mrs. F. H. Valentine, an accepted writer and speaker on poultry matters; Miss Anna Barrows, of Boston, editor of the Kitchen Magazine.

The twenty-seventh annual meeting of the State Board of Agriculture will be held at the State House, Wednesday, Thursday and Friday, January 17, 18 and 19, 1900. The executive committee is planning to make this meeting of exceptional value. All farmers and others interested in the process of agriculture are invited to attend both the institutes and the annual meeting.

Entertained by Mr. and Mrs. Vail.

The card club of which Mr. and Mrs. W. B. Vail, of Prospect place, are members, were entertained last evening by them at their home. The usual number of games were played and suitable prizes were given to the winners. Later in the evening refreshments were served by the host and hostess.

Approaching Nuptials.

Invitations have been issued for the approaching marriage of Mrs. Sophie Dickinson Baldwin to Frederick Shaw Robley, Wednesday afternoon, November 15th, at Plymouth church, Brooklyn. Mrs. Baldwin was formerly a resident of Plainfield.

Endorsed by Trades Council

A meeting of the Union County Trades Council, which includes several Plainfield labor unions, was held in Elizabeth last night, and George J. Reiss, one of the Democratic candidates for the Assembly, endorsed.

—Don't miss the special at Wieda's this week; it is the biggest bargain they have offered.

MORALES GOES TO MANILA

Former Spanish Governor of Island of Mindora Released by Filipinos.

PRISONER FOR A YEAR.

Was Finally Released Under a Recent Decree Rendered in Regard to Sick Prisoners.

Lieutenant Slavens With Eighteen Scouts Does Successful Battle With The Filipinos—Valuable Information Secured—No American Casualties In The Latest Fighting.

Manila, Nov. 3.—Lieut. Slavens, one of Gen. MacArthur's aides, with eighteen scouts, has made a reconnaissance in front of Angeles. He encountered a Filipino outpost of forty men. Lieut. Slavens charged the enemy, killing three and wounding many others, and capturing two Remingtons. He also secured some valuable technical information and returned without any casualty. The lieutenant was warmly commended for this work by Gen. MacArthur.

Senor Pedro Paterno and Senor Buencamino are reported to have resigned from Aguinaldo's so-called Cabinet. They were opposed to the revolutionists and in favor of a policy of moderation.

Major Morales, the former Spanish Governor of the Island of Mindoro, came to Manila from Calamba. He had been a prisoner at Lipa for a year and was liberated under a recent decree in regard to sick prisoners.

News comes from Spanish sources confirming the reported killing of the Filipino General San Miguel by partisans of Aguinaldo.

Welcome to Funston's Men.

Topeka, Kan., Nov. 3.—The four special trains bearing Gen. Funston and the 20th Kansas Regiment were delayed in the mountains of New Mexico and Colorado and did not arrive here until Thursday afternoon. The delay was caused by a severe blizzard in the Glorietta Mountains. The four trains pushed their way through eighteen inches of snow, but made up six hours' time east of La Junta, Col.

The reception at Topeka exceeded any demonstration ever witnessed in the West. Fifty thousand persons came here to welcome the volunteers. Massed about the station were the parents, brothers, sisters and sweethearts of the returning soldiers. They had half an hour for family greetings.

A parade two miles in length, with Gen. Funston, escorted by Gov. Stanley and staff and the Grand Army of the Republic, marched through the principal streets and avenues to the State House, where the ceremonies, consisting of the presentation of a sword to Gen. Funston and the return of the flags of the regiment to the Governor, were performed. The regiment marched to the banquet hall, seating one thousand, where the women of Topeka served refreshments. The decorations were the most elaborate ever seen here.

Pleased With Otis's Work.

Washington, Nov. 3.—Gen. Otis's recent despatches to the War Department have shown a progress in the campaign against the Filipinos which more than meets the expectations of Department officers. From present indications War Department officers believe that the insurrection will be of but short duration. The same view is entertained by the President and the Secretary of War. The members of the Philippine Commission, in their individual reports to the President, have expressed the opinion that the backbone of the uprising is already broken.

To Close Tin Plate Mills.

Pittsburg, Nov. 3.—The local plants of the American Tin Plate Company are preparing to shut down indefinitely. They are to be idle, probably, after Nov. 15, and when they are to be put in operation again is a question in which 700 workingmen are interested. The officials of the trust are contemplating the complete dismantling of the Monongahela and Star works, and a concentration of their business at the plants in Indiana and Newcastle, Pa.

Will Reopen The Plant.

Indianapolis, Ind. Nov. 3.—The Premier steel plant, sold at receiver's sale some months ago and purchased by William J. Carlin, of Pittsburg, will shortly be reopened for the manufacture of steel billets. Two hundred men will be employed. The plant was formerly owned by the DePauws. It has been closed for several years.

Will Pay Obligations in Full.

Lexington, Ky., Nov. 3.—The Security Trust and Safety Vault Company, as assignee of David A. Sayer & Co., publishes a signed statement of assurance that every penny of the defunct banking firm's indebtedness will be paid as soon as pass books are balanced and claims proved.

Government Will Investigate.

Washington, Nov. 3.—The action of the New York customs officials in failing to observe instructions to extend the usual courtesies and facilities to Sir Louis Davies, member of the Canadian cabinet, on his recent arrival at New York, has been taken cognizance of by the authorities here.

Steamship Daniel Ashore.

Halifax, N. S., Nov. 3.—The steamship Daniel from New York, bound to Tiltcove, Newfoundland, went ashore at Whitehead during the storm of Wednesday night. She is reported to be making water fast and may become a total wreck. The crew was saved with some difficulty.

Gives a Clock to Wichita.

Wichita, Kan., Nov. 3.—Helen M. Gould has shipped to Wichita one of Tiffany's best hall clocks as a gift to the Wichita hospital.

THE BIG FIGHT.

Both Men Confident—Corbett Tips Jeffries to Win.

New York, Nov. 3.—Both Jeffries and Sharkey have left their training quarters and are now in this city. When asked by a reporter what he thought of his chances of winning the fight, the Sailor replied: "I think that it is a sure victory for me, as I never felt better in my life than I do at the present moment. I will enter the ring weighing a trifle over 185 pounds, which is enough weight for me at this fight."

Any one who would look at Sharkey at the present moment and see his wonderful physique, and also hear him talk in his confident way, could not help feeling that he will win.

Brady and O'Rourke have agreed that they would have both of their men weighed on a pair of scales in the ring in the presence of the spectators before they began their battle, so as to let every one know just how heavy each man is when the bout starts. This proposition was first suggested by O'Rourke, who said to Brady: "Billy, the public is anxious to know what the weight of the two men will be before they fight. Suppose we put them on a pair of scales at the ringside just as they enter the ring?" "All right," said Brady," that is perfectly agreeable to me. The public knows the men are fighting at catch-weights, but nevertheless I will do that."

Then the managers talked about the tossing for the favorite corner. Brady began by saying: "We would like to have Jeffries occupy the same corner which he used on the night that he defeated Fitzsimmons."

"You won't have to toss for corners," said O'Rourke, for Jeffries can have his favorite corner, and I will take the one which was occupied by Fitzsimmons. I am only too glad to get the corner, for I haven't lost a fight in it in eleven years, and on that account I feel more confident now that Sharkey will win."

Jeffries will have as his handlers Billy Delaney, Tommy Ryan, his brother Jack and Ernest Roeber. Sharkey will be handled by Tom O'Rourke, Tim McGrath and George Dixon. George Siler will be the referee, Al Smith timekeeper for Jeffries, and Mike Bradley, of Lawrence, Mass., for Sharkey, and probably Alec Brown or Sparrow Robertson timekeeper for the club.

Previous to the big fight there will be a ten-round preliminary bout between Tony Moran, of Brooklyn and Kid Goulette, of Rochester. Jeffries and Sharkey will in all probability enter the ring between 9:45 and 10 o'clock. The men are to fight straight Queensberry rules. Jim Corbett comes out boldly and says that after figuring the match carefully he does not see how Jeffries can lose. Corbett has boxed with both men and thinks he ought to know the ability of each better than any other person.

A Probable Murder.

New York, Nov. 3.—Frederick Hardy, Jr., an art student from Tennessee, boarding at Fort Hamilton, disappeared Sunday night, Oct. 22. His body has been found off Keyport, N. J., and identified by his father and grandfather. He was seen late Sunday night on the Shore road, near Ninety-sixth street, by friends in whose house he ate. He was on his way to the Old Bennet House, where he lodged. There is a bruise on the temple. A purple line about the neck marked where a rope had been, either for the purpose of strangling him or to tow his body across the lower bay. Thirteen miles of watery expanse lie between Fort Hamilton and Keyport. Under the armpits and tied about the waist was a four-foot half-inch rope, to which was attached a stone weighing about twenty-five pounds. The pockets had been rifled of a roll of bills and small change. A gold watch and heavy gold chain worn conspicuously were gone. Everything was taken from his pockets except a letter from his mother, which was decipherable and helped to establish his identity. The father is rich. He will spend a fortune if need be in running down the assassins of his son.

They Forfeited Their Bonds.

South Norwalk, Conn., Nov. 3.—When the cases of Mrs. Mary Cohen and Mrs. Annie Sissel of New York, alleged shoplifters, were called in the Town Court before Judge Frost Thursday neither woman appeared and their bonds of $300 each were declared forfeited. The case of Abe Jackson, also of New York, accused of being a confederate, was continued until Monday. The same bond, $300, was required, and it is believed that the amount can be raised by his friends.

Killed by a Switching Locomotive.

Jamestown, N. Y., Nov. 3.—As Charles Rhoades and Alfred Abrahamson were walking on the tracks they stepped from one track to avoid a west-bound train and got immediately in front of the switching locomotive going in the opposite direction. Rhoades was instantly killed.

Gas Companies Consolidate.

Albany, N. Y., Nov. 3.—A certificate of merger of the Buffalo Mutual Gas Light Company with the Buffalo Gas Company has been filed with the secretary of state.

Ten Killed in a Collison.

Paris, Nov. 3.—In a collison near Thouars ten employes of the railroad company have been killed and fifteen injured. Deputy Cuineo d'Orano, director of the Petit Caporal, had both legs cut off.

THE MARKETS.

New York, Nov. 3.—Good buying dominated the stock market to-day, andand put prices at quite an advance over yesterday. The shorts recovered some on the reported British victory in South Africa. The trading, though, was not of a heavy character, but some activity manifested itself.

Cash prices for staples was as follows: Wheat, No. 2 red, 75⅛. Corn, No. 2 mixed, 40¼. Oats, No. 2 mixed, 29. Flour, Minnesota patents, $4.10. Cotton, middling, 7¾. Coffee, No. 7 Rio, 6⅛. Sugar, granulated, $5.18. Molasses, O. K., prime, 35. Beef, family, $11.75. Beef hams, $23.75. Hogs, dressed, 160lb., 6. Pork, mess, $9.50. Lard, prime, $5.50. Butter, Western creamery, 24.

BRINGING HEAVIER GUNS

The Boer Forces Still Continue the Bombardment of Ladysmith.

CITY IS AGAIN SHELLED.

Lieutenant Edgerton of the Cruiser Powerful, Has Been Dangerously Wounded.

British Naval Brigade Using Quick-Firing Guns That Have a Capacity of Ten Rounds a Minute—a Division To be Dispatched to The Relief of Kimberley and Mafeking.

London, Nov. 3.—An official dispatch received from Ladysmith says that the bombardment of the city is continuing and that Lieutenant Egerton, of the cruiser Powerful, has been dangerously wounded by a shell. Lieutenant Egerton was wounded by a piece of shell which struck him in the right foot. The naval brigade is using four 4.7-inch quick-firing guns. They have a capacity of ten rounds a minute.

Ladysmith Entirely Cut Off.

London, Nov. 3.—News has just been received at the War Office from the Governor of Natal, Sir Walter Francis Hely-Hutchinson, announcing that communication with Ladysmith has been absolutely cut off since half-past two Thursday afternoon. The cause of the interruption is as yet unknown.

This information is not regarded at the War Office as confirming in any way the report which has been in circulation that Ladysmith has been completely invested by the Boers. The War Office also declines to credit the report, which has also been received here, that Colenso has been captured.

British Casualties.

London, Nov. 3.—General Sir George Stewart White has cabled to the War Office that in the engagement on Farquhar's Farm, near Ladysmith, on October 30, when Lieutenant Colonel Carlton's column was compelled to surrender, six officers were killed and nine wounded. Among the non-commissioned officers and men the casualties were 54 in killed and 231 wounded, making 300 in all.

Again it is asserted at Aldershot that the mobilization of a second army corps will begin on November 10, and that the whole reserves of the transport branch of the Army Service Corps will be called out.

A composite detachment of Royal Marines will be formed at Portsmouth, consisting of experienced men, for inland service in South Africa.

Forming Relief Division.

Cape Town, Nov. 3.—Trustworthy advices from the northern frontier state that the Boers are bringing heavier guns across the Drakensberg mountains to join in the bombardment of Ladysmith. A division is forming at De Aar Junction, and it is said it will be sent to the relief of Kimberley and Mafeking.

Boers Make a Feint.

Ladysmith, Nov. 3.—The Boers have unmasked new batteries, which are easily silenced, only to break out again when the British fire slackens. It is thought the bombardment, which is not serious, is designed simply to distract attention while the Boers moved to the rear of the town. The Naval Brigade now has four long-range guns mounted.

Battle Expected at Colenso.

London, Nov. 3.—If the Boers destroy the bridge at Colenso, White cannot retreat south and reinforcements cannot be rushed to him. The Tugela River at Colenso is broad, and at this season of the year in a swollen condition. In addition to a contingent of land troops, it is understood a large force of bluejackets is guarding the bridge, and news of a sharp engagement there would not be surprising.

Apart from Gen. White's statement that the losses at the battle of Ladysmith were numerous, there is nothing to indicate the extent of them except a vague report that the soldier who took the news to Ladysmith said the British dead and wounded were lying in heaps and that hundreds needed doctors. The concluding sentence of Gen. White's despatch relative to the safety of Ladysmith has been received here with a certain reserve, in view of the fact that similar official assurances were given recently at Dundee and Glencoe, and there is intense anxiety for further news of the reported renewed attacks of Tuesday, which is not mentioned in the official despatch.

A dramatic incident in connection with the disaster at Ladysmith is given by a correspondent of the Echo in a despatch dated October 30. He says that after dark a man of the Irish Fusileers staggered into camp. He was haggard and almost exhausted. He said the troops were completely surrounded and had marched blindly into a trap. The first they knew of danger was when they were fired on by the Boers, who were stationed in a covered position. The fight raged for an hour, and there were heavy losses on both sides. The dead and wounded were lying about in heaps. The man from the Fusileers gasped out: "I came here for help to bury our dead."

Dixon Wins Championship.

New York, Nov. 3.—After twenty-five rounds of hard fighting George Dixon was given the decision over Will Curley of England at the Broadway Athletic Club Thursday night. The fight was for the featherweight championship of the world and a purse of $4,500.

Killed by Powder Explosion.

Terre Haute, Ind., Nov. 3.—William Solomon, a coal miner, dropped his lamp into a can of powder which exploded killing him instantly. He leaves a wife and six children.

Notice to Taxpayers.

Notice is hereby given to the tax payers of the City of Plainfield, that the taxes assessed in said City for the year 1899 are now due and payable, and that if said Taxes be not paid by November 20th next the names of the defaulters with their respective taxes, will be returned to the City Judge for prosecution.

The Commissioners of Appeal in cases of taxation in and for said city, will meet at the Council Chamber, No 109 Park avenue, Plainfield, N. J., on the fourth Tuesday of October next, (Oct. 24, 1899), at 2 p. m., to hear complaints relating to assessments.

J. A. MARTIN, Collector.

TEETH.

If you have any to be extracted remember you will not be hurt in the slightest. My local anæsthetic is the best that can be obtained and is not known to the other dentists in this city. Gas strictly fresh administered by an expert if you want that. If you need artificial teeth you may rest assured that the greatest care will be exercised in selecting shape and color to harmonize with the face, also to restore the features to their natural expression and fullness. **This is most important.**

Park Avenue and Fourth Street.

A person whom I know explains his pretty constant use of Ripans Tabules in this way. "When your hands are soiled," said he, "you apply water to them. If you are fatigued or travel-stained, a bath is efficient and pleasant in its restorative and freshening effect. Yet your hands will get dirty again; and on occasion you will once more be soiled by perspiration, and require water and soap. Now Ripans Tabules are to the inner man about what soap and water are to the outward. They refresh and sweeten, and will do so again and again, as often as occasion requires, which will be every now and then with all people who are hurried about meals, or who fail to masticate their food properly or are compelled to subsist on food that is improperly cooked or prepared. The people of this sort include about seven-eighths of every civilized community."

A new style packet containing TEN RIPANS TABULES in a paper carton (without glass) is now for sale at some drug stores FOR FIVE CENTS. This low-priced sort is intended for the poor and the economical. One dozen of the five-cent cartons (120 tabules) can be had by mail by sending forty-eight cents to the RIPANS CHEMICAL CO., No. 10 Spruce Street, New York—or a single carton (TEN TABULES) will be sent for five cents.

WILL BE A NEW BUREAU

New Possessions Require the Establishment of a Colonial Office.

IS A NECESSARY MOVE.

Robert P. Porter, of New York, is Likely to Be Placed at the Head of the New Office.

The Bureau to Be Primarily Under The Direction of The Secretary of War—Plans are Formed For The Best Interests of The Inhabitants of Each Possession.

Washington, Nov. 3.—A new bureau is being organized under the War Department for insular and colonial affairs. The multitude of questions in relation to affairs of the new possessions of the United States has made that course necessary. No bureau of the department, at the present time, is fitted for the work and none is prepared to undertake it. Secretary Root has, therefore, decided to organize a new one.

The bureau is to be primarily under the direction of the secretary himself, and it is to work with him in untangling the affairs of Cuba, Porto Rico and the Philippines. To it is to be delegated the task of preparing a plan of civil government for the various islands.

Secretary Root has been studying that matter and he has evolved plans that he believes are for the best interests of the inhabitants of each possession. The great mass of minor details he has had no time to consider, and is thus forced to place them in the hands of others. It is for that reason he will organize the new bureau.

Some person from civil life will be chosen as chief. Robert P. Porter of New York has applied for the position and will probably be appointed should no one better qualified be found willing to accept. Mr. Porter has been a special commissioner of the Treasury and other departments for some time, and he believes that his familiarity with tariff features specially fits him for the control of the new bureau. He called on the President this morning and expressed his willingness to accept the office. Mr. Porter's application is to be considered by the President and Secretary Root.

The Mexican-Chinese Treaty.

Washington, Nov. 3.—For some time negotiations have been in progress in Washington for establishing treaty relations between China and Mexico. The negotiations have been carried on by Ambassador Aspiroz of Mexico and Minister Wu-Ting-Fang of China, and are now so far along that the signing of the convention may take place early next week. Aside from its importance in being the first treaty ever negotiated between the two countries, its terms are such as to yield large benefits to each of the contracting parties.

Provision is made by which Mexico is to receive the benefits of the "favored nation clause," insuring her as low duties on imports as those given to any other country. Another advantage obtained by Mexico is access to the important treaty ports of China, which serve as the gateways to the commerce of the empire. Up to this time Mexican trade in China has been admitted at the treaty ports, not of right, but on suffrance.

On the part of China, important advantages are gained under the treaty. A considerable number of Chinese are in Mexico, who, thus far, have not had the protection secured by a treaty and by the presence of consuls and diplomatic representation of the government. China also receives favored nation treatment and a number of advantages in trade and navigation.

When the treaty is consummated the two governments will establish their respective ministers and consular representatives in each country.

A unique feature of the treaty is that English is selected as the "official language," instead of French, which is the universal language or diplomacy.

Fired Musket Into The Crowd.

Glouster, O., Nov. 3.—As the school children were returning from school at Mortonville Thursday a little ten-year-old girl named Owens got into trouble with some of the other children. She ran home, secured a musket, and deliberately fired at the crowd of children. A boy of the name of Bedow received the charge in the face and he died soon after.

Refused to Advance the Case.

Frankfort, Ky., Nov. 3.—The Court of Appeals, by unanimous decision of the judges, refused to advance the case of Brown Democrats, who sought to compel precinct election boards to allow anti-Goebel Democratic inspectors at the polls. The court adjourned till Nov. 8.

Chicago Has Its First Snowfall.

Chicago, Nov. 3.—Chicago was visited Thursday by the first snowfall of the season. It was a light flurry, and soon melted. Snow is reported from various points in the state. The storm on the lake continues fiercely, but it is believed that all of the shipping is safely in the harbor.

Generous Church Donations.

Indianapolis, Ind., Nov. 3.—Simon T. Yandes, of this city, has given $10,000 to the Home Missions Committee of the Presbyterian Church, of Indiana, to be used in Sunday school work. This makes $21,000 which he has given to the church this year.

Freight Wreck on The Fitchburg.

Leominster, Mass., Nov. 3.—The bursting of an air brake caused the wreck of an eastbound freight train on the Fitchburg Railroad here Thursday. Two cars were destroyed and the track was blocked for two hours. No one was injured.

"I want a good soap for washing the clothes; they wear out too fast, and I believe the damage is done in the laundry."

"Let me send you a box of Ivory Soap. We know it is pure, and will not injure anything. Many of our customers will not have any other for their laundry work."

The box was sent, and one more family uses no other. Try it for one week in your laundry, and ask your laundress what she thinks of it.

Copyright, 1899, by The Procter & Gamble Co., Cincinnati.

COULDN'T RULE THEMSELVES.

That is What the Commission Thinks of The Filipinos.

Washington, D. C., Nov. 3.—The report of the Philippine Commission has just been made public. It is a most exhaustive document of more than ten thousand words, and covers the operations and investigation of the American forces and emissaries since the arrival of Dewey on May 1, 1898.

The report in all of its details recites that the Filipinos are not capable of governing themselves and that American control is essential. In his part of the report Dewey says that independence was never promised Aguinaldo, and further on the report declares that many of the Filipinos are tired of the rebellion, condemn it and ask for protection.

The report also says that if the United States were to give up control of the Philippines other powers would divide the islands.

The causes leading up to the present difficulty are dwelt upon at great length and the report closes as follows:

"Our control means to the inhabitants of the Philippines internal peace and order, a guarantee against foreign aggression and against the dismemberment of the country, commercial and industrial prosperity, and as large a share of the affairs of government as they shall prove fit to take. When peace and prosperity shall have been established throughout the archipelago, when education shall have become general, then, in the language of a leading Filipino, his people will, under our guidance, 'become more American than the Americans themselves.'"

The report upholds the present aggressive policy of the President, and recommends the retention of the islands.

"Peeper" Removed by Yale Faculty.

New Haven, Conn., Nov. 3.—It has been announced by the Yale faculty that Dr. Frank H. D. Chase, an instructor in the English department, has been relieved from further duty in the university. Dr. Chase was arrested on last Friday at midnight while peeping into a bedroom window of a private house. There is a specific charge against him. He is out on $750 bail, and his case will probably never go to trial. Dr. Chase was graduated from Yale in 1894, and was the valedictorian of his class. He then studied abroad, and a year ago was made an instructor at Yale, when it was said that his prospects were bright. Dr. Chase's friends attribute his behavior to a breaking down of his nervous system.

Croker Wanted to Testify.

New York, Nov. 3.—Richard Croker went before the Mazet Committee on Thursday afternoon and asked to be placed on the stand to contradict the statement made by Mazet on the stump, that Croker had promised to aid the passage of the Astoria Gas bill. Mazet apparently did not like the appearance on the scene, of the Tammany chief, and would not allow him to be sworn. Mr. Croker asked Mazet to go on the stand and make a sworn statement to the charges he had made on the stump, but he could not see his way clear to do this, and as a consequence the end of the trouble between the two is not in sight.

Successfully Forged a Pardon.

Chicago, Nov. 3.—A despatch to the Record from Austin, Tex., says:

"Investigation by Governor Sayers and the state penitentiary officials shows that the escape of George W. Isaacs, a life convict, from the Rusk penitentiary by means of a forged pardon was one of the most remarkable occurrences in the criminal annals of the state.

"Isaacs walked out of the prison gates on Sept. 30, and the prison officials supposed that his pardon was legal until Thursday, when, by mere chance, the attention of Gov. Sayers was called to the fact that Isaacs was at large and saying that he had been pardoned."

Cuba's Yellow Fever Statistics.

Havana, Nov. 3.—Yellow fever is decreasing on the island. At the beginning of October there were in the hospitals twelve patients, who had been attacked by the disease in September. The [illegible] numbered 63; deaths, 23; recoveries, 26; under treatment, 24; Spanish cases, 36; deaths, 15; American cases, 20; deaths, 8. The total number of deaths for the year is 63. October was, as usual, the worst month.

Expelled Senator Mason.

Chicago, Nov. 3.—The political action committee of the Tippecanoe Club, a strong Republican organization, has decided to expel United States Senator Mason from its membership. The action was taken on account of Senator Mason's opposition to the policy of the national administration in the Philippines.

Called on The President.

Washington, Nov. 3.—The committee appointed by the National Educational Association to consider plans for founding a National University in Washington, called on President McKinley Thursday to pay their respects. President William R. Harper, President of Chicago University, is the chairman of the committee.

Hobart Passed a Quiet Night.

Paterson, N. J., Nov. 3.—Vice-President Hobart passed a quiet night. His condition, aside from being weaker, is not materially changed from Thursday. Messages of sympathy and inquiry from all parts of the country are pouring in in great numbers.

Bought a Big Oil Farm.

Marion, Ind., Nov. 3.—The Studebakers, of Bluffton, have purchased the farm of 200 acres in VanBuren Township, of Councilman John Kiley, of this city, for $15,000. The farm has 22 producing oil wells. Mr. Kiley retires from active business.

Schooner's Crew Landed.

New York, Nov. 3.—The crew of the schooner Napoleon Boughton, which was wrecked off the South Carolina coast on Saturday, has been landed here by the Clyde liner Comanche. The schooner was a total wreck.

Coinage in October $11,838,109.

Washington, Nov. 3.—The coinage executed at the United States mints in October amounted to 22,489,139 pieces, or $11,838,109. This amount was divided as follows: Gold coins, $8,220,000; silver dollars, $1,000,000; half-dollars, $994,569; quarter-dollars and dimes, $1,319,000; total silver, $3,313,569; nickels, $240,050; one-cent pieces, $64,490.

Died While Engaged in Prayer.

Indianapolis, Ind., Nov. 3.—Patrick Sullivan while attending mass at the Holy Cross Church, and while reciting the rosary, with the priest standing at the foot of the altar, preparatory to beginning service, Sullivan suddenly toppled over and fell to the floor a corpse, due to heart failure. He was 70 years old, and a man of family.

Cripple Creek Gold Output.

Cripple Creek, Colo., Nov. 3.—The gold output of the Cripple Creek District in October was $2,001,600. This is the first month's production that has exceeded $2,000,000. It is estimated that the total of the year will not fall short of $18,000,000.

Maine Bankers Assign.

Portland, Me., Nov. 3.—The private banking firm of Woodbury & Moulton, consisting of Theodore C. Woodbury and Edward H. York, has made an assignment for the benefit of their creditors to William M. Bradley and Harry M. Verrill.

Arrivals From Klondike.

Seattle, Wash., Nov. 3.—The steamship Humboldt from Skagway has arrived at this port with forty Klondikers, who left Dawson October 13. They will probably be the last to arrive from the district by water this season.

Vote to Have Roberts Expelled.

Harrisburg, Pa., Nov. 3.—The Woman's Home Missionary Society of the Carlisle Presbytery, has adopted resolutions asking that Congress expel Mormon Roberts and enact an amendment making polygamists ineligible for election to Congress.

Nov. 5—Boys' Bible class at Y. M. C. A. at 9:30 a. m.

Riparian Rights.

In course of time the State of New Jersey has given away to corporations and private individuals riparian rights of inestimable value for practically no beneficial returns, but in this day we are able to appreciate to some extent the short-sightedness of such a policy. In this respect there has been a great deal of agitation during recent years against action whereby riparian rights of any kind should be granted in perpetuity. Such a policy is in line with the spirit of this age when it is realized that it is a great wrong to grant facilities, designed and intended for the benefit of the public, to private individuals or corporations without a time-limit as to when such valuable privileges should revert to the State

In line with this idea the New Jersey State Board of Riparian Commissioners proposed to establish a rule the effect of which would be to refuse absolute grants and to issue leases for twenty years only. The proposed action was referred to Attorney General Grey, and now that distinguised State official comes along and puts the official stamp of disapproval upon such procedure. He advised that the Board had no right to establish the twenty year plan, and as a consequence the proposed action had to be abandoned.

Attorney-General Grey says, however, that the power to fix and determin the amount of rent or the price to be paid for a grant of land under water is vested in the commission as the agents of the State and that in making leases the interests of the State would seem to require that the term be long enough to induce the lessee to make improvements and not so long but that the State would have an opportunity in a reasonable time to avail itself of the increased value of its lands resulting from the improvements of its tenants, and thus increase its income.

If the Riparian Commissioners are prevented from establishing the twenty-year lease plan by a strict construction of the law, there should be a vigorous attempt made in the next Legislature to amend the law so that that action might be carried out before any more valuable riparain rights are disposed of.

Some Tax Figures.

Secretary Irvin W. Maguire, of the State Board of Assessors, has filed with the State Comptroller the assessment of railroad and canal property in the State of New Jersey for 1899. The aggregate assessed valuation of this class of property in the State is $224,284,792, as against $222,417,748 in 1898. The increase in the assessed valuation is $1,867,044, but as the assessments for this year are subject to review the net increase, it is expected, will be quite small Last year there was an increase of more than $16,000,000.

The total tax for State uses for this year is $1,121 423 96, as against $1,112 088 75 last year, being an increase of $9 335 21. Of this sum, however, $214,600 will be returned to the various municipalities, that being the sum collected by the State on second class railroad property and paid over to the various municipalities under the preliminary Equal Taxation law of 1897. In addition to this, the amount of tax levied for local uses is $423,019.91, as against $403 335 last year, an increase of $19,663 98 Of course, a large percentage of this money levied as taxes for local uses, as well as that paid back by the State, goes to Hudson and Essex counties.

The total tax on the various railway systems is as follows: Pennsylvania Railroad, $415,536 27; Central Railroad of New Jersey, $33,363 58; Philadelphia and Reading, $53 920.33; Erie Railroad, $163,840 51; Delaware, Lackawanna and Western, $276,952 57; New York, Susquehanna and Western, $46 823 13; Lehigh Valley, $133 815 63; railroads not classified, $140,191 85.

The Attorney-General of Illinois proposes to collect $402,500 in penalties from corporations that have failed to comply with the State laws and file affidavits that they are not in any agreement or combination for the control of output or prices or the restriction of trade. Civil suits have been begun. The Newark Advertiser comments as follows: "Many of the large corporations in New Jersey have violated the State law by failing to keep their stock and transfer books in a principal office in New Jersey, but the Attorney General of the State has remained blissfully ignorant of the fact. 'You must not,' the Attorney-General seems to say, 'disturb the goose that lays the golden egg.'"

Those mules, which by stampeding the ammunition train at Ladysmith, contributed to cause a woeful disaster, could not have been good American mules, observes the Newark News, and then adds: Our mules have better habits, as all old soldiers of the Civil War will recall, in their docility under fire and in critical situations. They must have been Dutch mules, bought in Holland, where the mule market is one of the most extensive in Europe outside of Spain.

Congressman William D Daly and Chairman Gourley, of the State Democratic Committee, are to speak at the mass-meeting to be held in St Mary's Hall, Hoboken, tonight. Whether they have buried the hatchet in the interest of harmony remains to be seen.

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

Thomas McGee, who was a corporal of Company E, Third New Jersey Volunteers, is now in the Twentieth United States Infantry, stationed at Manila. He writes to Adjutant Robert L. Patterson that it has rained nearly every day since he reached the Philippines, and he states that many of the streets of Manila are flooded, some knee deep He says the guard duty is hard on the soldiers, who are on guard 48 hours and off 24 hours. Corporal McGee is anxious for fighting and a speedy end of the war. He is not favorably impressed with the Philippines, and is looking forward with eagerness to get back to the States.

* * * * * *

From an old parchment that came to light in a Newark bookshop last week, says the Newark Sunday Call, it is learned that at the annual convention of the Episcopal churches of New Jersey, held in 1791, a considerable sum was raised for the benefit of aged and infirm clergymen of that faith. Each church in the state was expected to make contribution, and it is assumed that they all did so. At all events, nine churches appear in the list of contributors to the fund. Trinity church, of Newark, heads the list with the handsome sum of $26 47, and it was a good deal, too, in those days, when coin of any realm was exceedingly scarce, with the Revolution scarcely 15 years behind them and the currency system as yet in a more or less nebulous condition. Next on the list came t John's church, Elizabethtown, with a subscription of $16 83.

Bismarck's Iron Nerve

Was the result of his splendid health. Indomitable will and tremendous energy are not found where Stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills. They develop every power of brain and body. Only 25c at L. W. Randolph's drug store.

—This evening the Christian Endeavor Society of the First Baptist church will hold their regular weekly meeting and a cordial invitation is extended to all.

DRINK GRAIN-O

after you have concluded that you ought not to drink coffee. It is not a medicine but doctors order it, because it is health ul, invigorating and appetizing. It is made from pure grains and has that rich seal brown color and tastes like the finest grades of coffee and costs about ¼ as much. Children like it and thrive on it because it is a genuine food drink containing nothing but nourishment. Ask your grocer for Grain-O, the new food drink. 15 and 25c.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

AMERICAN STEAM LAUNDRY,
122 East Front Street.

JOTTINGS OF THE DAY

ENTERPRISINGLY GATHERED AND CONCISELY TOLD BY REPORTERS.

Newsy Notes of More or Less Importance Bunched Together for the Ready Reference of Press Readers

—Crescent Division, No. 13, U. R., K of P., met last evening for drill.

—W. H. Brokaw, the contractor, has commenced the erection of a house for himself in the West End.

—The Ladies' Aid Society of the First M. E. church will hold a festival in Vincent chapel the first week in December.

—At the meeting of the Borough Board of Health next Monday evening some very important business will be considered.

—A number of Plainfield Baptists have been attending the State convention of the denomination held in Newark this week.

—Victor Christofferson has secured a position with the electric light company and is working on the underground system.

—It is not economy to buy a cheap quality of meat. Good honest meat and good digestion. So says Fred Endress, the butcher.

—The Plainfield Electric Light Company is now making underground connections with buildings in the business part of the city.

—Next Sunday afternoon the members of Bethel chapel will appropriately celebrate the tenth anniversary of the founding of the chapel.

—The borough marshals have received their new uniforms, which they find a great improvement over the ones they have been wearing.

—Special attention is called to the advertisement of S. Scheur & Co. for Friday and Saturday. Great reductions in price of fresh meat and groceries will certainly pay you to call and see them.

—If you buy your shoes of Flynn Brothers, 222 West Front street, near Music Hall, you will find them warm and strong and will protect your feet. Their shoes have a soft, velvety feeling, that makes walking a pleasure.

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E W. Grove's signature is on each box. 25c.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Gems and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Daily Press.)

Dunellen, November 3.—Rev. Martin Sindall, pastor of the Seventh-Day Baptist church at New Market, who has been at New London, N. Y., for several weeks for his health which is unsatisfactory, has returned and will preach tomorrow morning in his church.

Extensive preparations are being made by the Dunellen Banjo Club, which is to take part in the Presbyterian church for the Lincoln School library Thursday evening, the 23d inst. A feature of the entertainment will be a "Tom Thumb Wedding."

The Chichester—Craig chair factory has been rushed with orders this fall. Recently the firm shipped a large consignment of stools for use with typewriters to Nyack, N. Y.; also a number of stools to a New York shoe firm.

The Dunellen band serenaded Mr. and Mrs. J. Travis Sutphen Wednesday evening. The happy groom did the honors and invited the musicians to accept his hospitality, which they did and were pleasantly entertained.

Miss Mable Jamison, who has been visiting friends at Brooklyn, has returned home. Last evening her sweet contralto voice was heard at the Plainfield Y. M. C. A. entertainment.

William McMahon, who was signal man between this station and Netherwood, has been made a fireman, his place as signal man having been taken by Harry Dodwell.

Mr. and Mrs. Charles B. Mattis have returned from their wedding trip. For the present they are stopping with Mrs. Mattis' parents.

S. Frank Tinsman, recently a brakeman on Conductor Dodwell's train, has been asigned to be station master at Finderne.

Mr. and Mrs. James R. Dunham, of New Market, will celebrate their silver wedding anniversary tomorrow evening.

Miss Grace Nerwood, of Boonton has been visiting the Misses Jamison at the Methodist parsonage.

The Board of Registry reports 338 names on the registry list, an increase of five over last year.

PLAINS AND FANWOOD.

(Special Correspondence of The Press.)

Scotch Plains, Nov. 3.—A man and woman were arrested by Constable Walpole last night about 10 o'clock for being drunk and disorderly upon Park avenue. The pair, who claimed to be man and wife, had been wandering about town all the evening and in the early part of the night were fighting and cursing each other near the Terrell road. They were separated by a passerby but the woman's face had become disfigured during the fracas. They wandered into town and began visiting the hotels In each place they were turned out. This made the woman, who seemed to be the drunker of the two, abusive, and she started in to tell the people what she could do. Constable Walpole arrived upon the scene and tried to quiet her. Failing in his endeavores he took the next best course, that was to put them in the cooler over night and today they will be arranged before the Justice of the Peace to face the charge of being drunk and disorderly.

The Fanwood Borough Council, at their meeting Wednesday evening, passed to its second reading an amendment to the hack ordinance which went into effect October 1st. The license of $1 for each driver was taken off and as amended reads, "The sum of $2 per year for each hack." The rate of fare was also changed to a fairer rate, allowing the hackman to charge 50 cents for night calls after midnight.

The monthly meeting of the Epworth League Literary Society of the M. E. church was held in the classrooms of the church last evening. The works which have been taken up have proved so interesting that the society will probably become a permanent organization with the church.

The local football eleven have no game scheduled for tomorrow, but will play the Dunellen eleven on the local gridiron election day morning at 10 o'clock.

Summons has been issued in Judge Schick's court in the contract case of John R. Marsh against John Tajelskia. Summons returnable November 9th.

Mrs. Thomas Whitenack has returned from a visit of several days with relatives in Bound Brook.

The Township Committee met in the town rooms last evening. Routine business only was tranacted.

John Richardson has accepted a position with the Campbell Press Works, of Plainfield.

Goodwill Lodge, K. of P., held an important meeting in their rooms last evening.

Mrs. Elizabeth Smalley, of Buffalo, N. Y., visited old friends in town yesterday.

Considering election is only a few days distant, politics is rather quiet in town.

Walter Reynolds, of Jackson avenue, has returned after an extensive sojourn in the Adirondacks.

Mr. and Mrs. Burton S. Jones, of Craig Place, left today for Philadelphia to visit the exposition, and also to spend several days with Mr. Jones' mother.

CURRENT ATTRACTIONS THAT PLAINFIELDERS MAY WITNESS.

Local Metropolitan Performances That Will Please Those Who Delight in the Art of Thespis and Mimic World.

"Blue Jeans," with its thrilling saw mill scene, its humorous "Rising Sun Roarers' Band," its great political barbecue, its sweetly charming apple orchard picture and its wealth of quaint characters and stirring story, will be at Music Hall tonight. From the night of its first production in New York it has taken and held a unique place among American plays. Its success was instantaneous. Not only was it recognized as a strong, well-constructed, evenly-balanced play, but its great saw mill scene, where the villain places the insensible form of his rival upon the moving carriage of the great circular saw, expecting him to be cut to pieces, was acclaimed a master piece of stage realism. Nothing so real, so terrible, so realistic had even been shown upon the stage. On that first night men sat with bated breath and blanched faces and women screamed and fainted as the body of the helpless hero slowly approached the gleaming saw, whose savage teeth had been seen only a moment before tearing huge planks in twain. Since that time there has been an era of stage realism and mechanical effects; but despite sinking ships, exploding safes and all sorts of locomotives, the great saw mill scene of "Blue Jeans" still holds its place as the acme of startling stage effects.

* * * * *

The novelty of witnessing the only American Indian actress, Go-Won-Go-Mohawk, in her picturesque sensational drama, "Wep-Ton-No-Mah, The Indian Mail Carrier," whose services the management of Music Hall has been fortunate to secure for its patrons for next Monday night, is without an extraordinary attraction. It has been seven years since last Miss Mohawk visited this city, since that time she has played all through Europe. Miss Mohawk, who is regarded as being the only Indian actress on the stage, is a descendant of Red Jacket. She belongs to the "Six Nations." Her father was Dr. Allen Mohawk, known to all Americans as that once famous "Medicine Man." Her play is true to life, realistic and picturesque, and admirably staged.

* * * * *

In the third act of "The Gunner's Mate," the great naval play which will be presented at Music Hall next Thursday night under the personal supervision of Augutus Pitou, manager of the Grand Opera House, New York. The Sailors Forecastle Band, consisting of mandolins, guitars and violin cello, plays for the dancers and for the singers. The scene is one of animation, and hilarious fun making. The second scene of the third act is in the fire-room of the ship. The discovery has been made that there is something wrong with one of the boilers, there is a leak in the back connections, the ship is hurrying to reach Bluefields, to protect the interests of Americans' there, the fires must not be drawn, the progress of the ship must not be impeded. Volunteers are called for to undertake the hazardous task of repairing the leak. (This actually happened in our Navy, and the sailor who volunteered and risked his life was promoted and awarded a medal of honor.) "The Gunners Mate" volunteers, and at the risk of his life repairs the damage. The scene is one of strong interest, and the surprising climax at the end of the act is a thrilling feature. The fourth act is in the home of the heroine, and here the exciting story of the play is brought to a happy end.

Volcanic Eruptions

W. C. Ostrom, formerly station master at Finderne on the Central Railroad, but who recently resigned, has taken up his residence on Manning avenue, in the borough.

William Newcorn, great senior sagamore of the Red Men of New Jersey, will go to Passaic this evening to attend the annual visitation of the great chiefs to the tribe in that city.

WESTFIELD

(Special Correspondence to The Daily Press.)

Westfield, Nov. 3—The American Chemical Extracting Co., of New York, has leased the large factory at Garwood formerly occupied by the Drawn Tube Steel Co., and will start up as soon as the building can be put in shape. The new company will, it is said, employ about 300 men.

John MacIntyre, the sixteen year-old boy who was arrested while in the act of stealing groceries from the store of F. B. Turrill, and who was sent to the county jail at Elizabeth, was allowed to go Wednesday, his aunt, Mrs. Hensdale, of Brooklyn, promising to look after him in the future.

Charles Burtis, the well known hotel and racing man, who was married at Orange Monday evening, arrived home with his bride last night and was given a rousing reception by his friends, who had procured a large cannon, and this was fired in his honor.

Lokal-Nachrichten aus der alten Heimath.

Preußen.

Provinz Brandenburg.

Berlin. Der türkische Sultan hat dem Deutschen Kaiser ein Gemälde aus dem Yildiz-Kiosk, welches dem Kaiser bei seiner vorjährigen Anwesenheit in Konstantinopel besonders gefiel, geschenkt und nach Berlin gesendet.—Eine Vorstellung von der enormen Lichtfülle, mit welcher die Stadt Berlin anläßlich des Festes für den Geographenkongreß die Festsäle des Zoologischen Gartens ausgestattet hatte, gewährt der Bericht des Stadtelektrikers Dr. Kallmann, demzufolge die von der Allgemeinen Elektrizitätsgesellschaft unentgeltlich gelieferte und von den Berliner Elektrizitätswerken gespeiste elektrische Beleuchtung insgesammt ohne die Bogenlampen und das Gaslicht über 4800 farbige Glühlampen in Guirlanden, Umrahmungen und Transparenten umfaßte, so daß eine Helligkeit von etwa 35,000 Kerzen entwickelt wurde.—In dem Neubau des Domes kam dieser Tage ein Unfall vor, der glücklicher Weise ohne Verlust von Menschenleben verlief. Als die für die Domnische bestimmte Christusfigur des Professors Schaper 110 Meter in die Höhe gewunden war, riß der Flaschenzug, und die kolossale Figur stürzte mit Donnergepolter herunter, den weiten Raum in eine Staubwolke hüllend. Als dieselbe sich verzogen hatte, bildete das schöne Kunstwerk einen einzigen Trümmerhaufen.

Lanz. Auf den bei dem Gastwirth Fritze wohnenden Studenten der Chemie, Mäder aus Glatz, wurde Abends ein Raubmordversuch gemacht. Mäder erhielt mehrere Schläge auf den Kopf von einem Manne, der sich Stuck oder Stucke nennt. Der Attentäter hat ungefähr 250 Mark geraubt und ist flüchtig.

Provinz Hannover.

Hannover. Der heurige Parteitag der deutschen Sozialdemokratie wurde hier im Saale des Ballhofes abgehalten. Es war ein eigenartiges Zusammentreffen, daß gerade die Verhandlungen in das Jubiläumsjahr der Errichtung des Ballhofsaales fallen, der vor 150 Jahren als „Ballhof" für die königliche Familie errichtet wurde. Damals fand das Ballspiel Eingang bei den deutschen Höfen.

Osnabrück. Der Bischof von Schweden, Dr. Albertus Bitter, beging in dem benachbarten Melle, seiner Vaterstadt, die Feier seines 25jährigen Priesterjubiläums. Dr. Bitter hat sich am Stockholmer Hofe eine sehr vortheilhafte Position erobert und auch in Preußen Anerkennung durch Verleihung des Rothen Adlerordens zweiter Klasse gefunden: Er ist einer der wenigen katholischen Geistlichen, welchen es gestattet ist, einen Vollbart zu tragen.

Provinz Hessen-Nassau.

Gelnhausen. Die hierorts befindlichen „Vereinigten Berliner und Frankfurter Gummifabriken" sind abgebrannt. Der Schaden beträgt mehrere Millionen Mark.

Wiesbaden. Anläßlich der anhier tagenden ersten internationalen Konferenz der Akademien der Wissenschaften waren von 28 eingeladenen Theilnehmern 24 erschienen. Es wurde eine Vereinigung aller Akademien zu fernerem gemeinsamem Vorgehen in wissenschaftlichen Fragen erzielt. Auf den zukünftigen wissenschaftlichen Kongressen sollen die deutsche, die englische, die französische und vielleicht auch die italienische Sprache als Verkehrssprachen zugelassen werden.

Provinz Pommern.

Althagen. Durch Blitzschlag wurden Wohnhaus und Scheune des Erbpächters Riemann eingeäschert.

Herzberg. In der Scheune des Bauerngutsbesitzers Klützkow brach Feuer aus, das die Ställe des Genannten und des Gastwirths Blieske verzehrte. An den Löschungsarbeiten betheiligten sich die im Dorfe einquartirten Soldaten.

Stralsund. Der langjährige Pächter des Rathsweinkellers, der Weinhändler Johannes Holm, eine der bekanntesten Persönlichkeiten unserer Stadt, ist gestorben.

Provinz Posen.

Posen. Die Handelskammer beschloß, den geplanten Bau einer Eisenbahn Neusalz-Wollstein-Grätz wegen der wirthschaftlichen Vortheile, die der Provinz aus dem Bau dieser Bahn entstehen, zu befürworten.

Ostrowo. Der Kreistag, der in der Mehrzahl aus polnischen Mitgliedern besteht, lehnte eine Vorlage, einen Beitrag für das in unserer Stadt zu errichtende Kaiser Wilhelm-Denkmal zu leisten, ab.

Provinz Ostpreußen.

Soldau. Mehrere Knaben machten sich an einer Lowry zu schaffen; hierbei gerieth der neunjährige Sohn des Lehrers Skowronski aus Pierlawken so unglücklich unter die Räder der Lowry, daß der Tod sofort eintrat.

Tilsit. Für das dahier zu errichtende Denkmal der in 1810 verstorbenen Königin Louise von Preußen sind bis jetzt 45,000 Mark gesammelt. Für das Denkmal wurde der Entwurf des Professors Eberlein angenommen. Es wird in weißem Marmor ausgeführt und erhält eine Höhe von 20 Fuß, wovon 10 Fuß auf die Figur entfallen.

EGGS 10 CENTS DOZEN

NEVER DRINK WATER.

Horses and Cattle That Slake Their Thirst on a Peculiar Grass.

The proverbial horse which can be led to water, but which cannot be made to drink, exists in great numbers in the Hawaiian islands. Among the cattle he has thousands of cousins of the same proclivities.

It is a surprising statement to make, and yet one that is literally true, and so commonplace that no one there thinks anything about it, that there are hundreds of horses and thousands of cattle which never take a drink of water throughout the whole course of their lives.

On all the islands the upper altitudes of the mountains are given up to cattle ranges. The cattle run wild from the time they are born until they are rounded up to be sent to the slaughterhouse. Except during possibly two or three months of the rainy season, there are no streams or pools of water in any part where the cattle range.

But everywhere there grows a recumbent, jointed grass, known by the native name of maninia. This is both food and drink. Horses and cattle grazing on it neither require water, nor will they drink it when offered.

Our first experience with this fact was on a trip to Haleakala. A party was mounted on horses which has just been brought in from the range. The journey they made was fourteen miles, in which distance they ascended about 9,000 feet.

The party started in the afternoon, and about sunset halted for supper. They thought it strange that the horses should leave a feed of grain to nibble the scanty grass which grew near by, but were willing to trust their instinct in the matter.

However, before starting, they insisted that they be given water. The native guide demurred in this, saying they didn't need it, but with the good-natured complaisance of his race, yielded to requests, and led a detour of about a mile, which brought the party to a ranch house where there was a well. But, to the utter amazement and stupefaction of the travelers, the horses would not drink.

They took it as another case of instinct, and assumed that the water, for some reason, was not good, and so refrained from drinking it themselves. It was not until the return the second day, to Kawaapae, that the travelers learned the secret of the wonderful maninia grass.—Cincinnati Enquirer.

What Sailors Have Survived.

The recent landing at this port of a half-starved seaman of the Norwegian bark Drot by the German steamship Catania, which picked him up off the Florida coast where he had floated on a roughly constructed raft for five days without food or water illustrated forcibly the powers of endurance of seamen in general. Some years ago Mate Brooks, of the American ship Belle O'Brien, which was burned off the Irish coast, was picked up lying unconscious among a boatload of dead and dying men by Capt. Dunn, of the Lord Line steamer Lord Erne, and brought to Baltimore. He had been ten days with little or no food or water. Robert Scotney, second mate of the English brig Thomas, was found by an East Indianman outward bound in a small boat a living skeleton. He had subsisted 76 days from the time the brig was lost on four pounds of meat, four pounds of flour, six pounds of bread, a scant supply of canned goods and a keg of water.—Baltimore News.

Index Making.

A young woman in London has for some years carried on the business of index making. During that period she has trained in her office forty women index makers, and she has indexed such works as Nansen's "Farthest North," "Science of International Law," 485 volumes of history, and numerous papers and periodicals. According to this enterprising woman, indexing affords a field for women workers that is as yet unoccupied. It is her belief that the feminine intelligence is particularly successful in this line and that she has found her pupils patient enduring accurate and conscientious. Moreover, women's well-known tendency to jump to conclusions here become a legitimate exercise as the quick intuition has a great value in successful index-making.—Exchange.

A Scientific Rascal.

Scientific knowledge has been perverted to the uses of blackmail by a medical student of Grantz, Austria, who endeavored to obtain 10,000 florins from a rich old lady for threatening to open a bottle of assorted deadly bacilli in her room if she refused to "pay up." When arrested bottles stolen from a bacteriological laboratory and containing microbes of several diseases were found in his possession.

Prone to Suicide.

Statistics show that the medical profession is more prone to suicide than any other. During the last three years the number of suicides occurring among physicians has been respectively forty-five, forty-nine and forty-seven per annum, an average of nearly one to 2,000; or as the death rate among the physicians is about twenty-five to 1,000, nearly one-fiftieth of all the deaths in the profession have been suicides.

A Simple Camera.

A Houlton (Me.) man recently took a very good photograph with a simple pastboard box and a dry plate. An aperture was cut in the box over which was pasted a piece of black paper in which a small hole was made with the point of a pin. The box was then taken to a dark room and plate securely fastened inside. The plate was exposed for one minute and a half and the result was very satisfactory.

Gambling In France.

Gambling in France is said to have reached such proportions that the Government has begun to study the question seriously. It is estimated that half of the suicides in Paris are due to losses at the races.

Women employed on Japanese tea farms work 12 hours and are paid 15 cents a day.

Girlhood's Charm.

The woman who keeps the simplicity of her girlhood, its generous impulses and quick sympathies, and who adds to her gifts the enlargement of study and the crown of experience, is always at her best and never past it. When the exterior attractions of form begin to fade, the radiance of our inner illumination will more than compensate their departure. But, in order that this should be so, her moral must equal her intellectual gain. She must be willing to learn, not only her own powers, but her own defects also, and to court the good influences which can help her to escape from the delusions of sense and the fatal tyranny of self-consciousness. She must discard the petty measures of vanity, and self-seeking, and learn to love her race, her country, and the humanity which she should help to adorn.

Ladies' Basque.

No matter how elaborately a waist may be trimmed, bloused or draped, it is invariably modeled with a tight-fitting lining. The design illustrates a plain close-fitting basque, with the bias French dart and curved front line. The close fitting sleeve is correctly shaped with slight fulness at the shoulder. Ladies tailors are making up some beautiful cloth gowns exactly like the illustration, fastened with single or double rows of tailor buttons. We have seen so much of these loose-fitting and bloused basques that this innovation is sure to gain

favor, especially with ladies who have good figures.

To make this basque in the medium yards of material forty-four inches wide. MAY MANTON.

Language Of Sealing Wax.

Postage stamps have long had a language and now comes some one who claims to translate the subtle meaning of sealing wax. Business letters should be sealed with red, friendly letters with gray. To your lover you devote blue, in token of constancy, unless you wish to hint that you have or think you have cause for jealousy, when you will use yellow. A reply to a wedding invitation should be sealed with white and a letter of condolence or death call for black or violet. A dinner invitation may be sealed with coffee colored wax, and when a man gets a letter sealed with green, from the girl he admires, he may feel that she shyly bids him hope.

A Breakfast Dish.

An appetizing dish for breakfast and one that the woman who is doing light housekeeping can make in the chafing dish, is dried beef with eggs. Put two tablespoonfuls of butter in the chafing dish with two gills of milk or cream, and a quarter of a pound of dried beef torn into small pieces. Let it simmer for about ten minutes and stir in rapidly three eggs, serving as soon as the egg are set. It is also very good with the beef put in with the butter in the chafing dish before the milk is added, and crisped a little. The milk is put in later, and the eggs as soon as it is hot.

Fish Chowder.

A Nantucket fish chowder is made from one pound of haddock six potatoes sliced, three onions cut fine, three slices of pork, one pint of water, boiling; one pint of milk, one tablespoonful of sugar; salt and pepper to taste. Fry the pork; then take out and fry the onions; put in potatoes with the fish on top, and add the water. Let it cook until the fish separates from the bones; then add the milk and let the chowder come to a boil again. Add two teaspoonfuls of flour and wet with milk, and after boiling up again serve hot.

A Nice Curry.

A simple way of preparing East Indian curry is to try out a large slice of fat, salt pork, and add to the fat a pint of boiling water. Stir in smoothly two tablespoonfuls of flour, one teaspoonful of curry powder, and a little salt. Let it boil up once, and add the meat already cooked and cut into small pieces—chicken or pork are best. Cover and let stand on the back of the range to simmer a short time. Have rice nicely cooked, white and dry, arrange on the dish, pour the curry in the centre, and serve very hot.

Bureau Drawer Perfume Bags.

A delicate perfume for the bureau drawer is made by mixing one ounce each of cloves, nutmeg and tonga beans with three ounces of orris root, all finely ground. Put in bags of thin China silk and lay among the clothing.

Old silk waists can be freshened up in innumerable ways. A black taffeta that has lost its freshness will take on new virtues when completely covered with scant ruffles of narrow satin ribbon.

Silk net or lace will cover a multitude of shortcomings.

EPWORTH LEAGUE.

Topic For the Week Beginning Nov. 5, "A New Name"—Text, Gen. xxxii, 24-29; Rev. ii, 17.

"What is thy name?"

We give names and titles to things to express the qualities we see in them. Names of persons are used in the simpler forms of society in the same manner to describe and identify the individual. Some physical peculiarity or action often impresses us and is instantly recalled when we think of the person. The two are well nigh inseparable in thought. The force of names and their inner significance are largely lost to sight in our more complex civilization, where children are named after parents or friends without reference to anything peculiar to the person bearing the name. We reach somewhat of the original result by our nicknames. In school and college life the primitive tendency asserts itself. The newcomer is scarcely settled in the seat at school before his measure has been taken by curious eyes and some characteristic seized upon by quick witted critics, and the stranger finds a new name at the first recess which no resentment will shake off.

Jacob began life as a substitute. He was always getting into somebody else's place. He knew the family traditions and had deeply religious impulses. He was quiet and thoughtful by nature. The stories of God and his ancestors, so different from the ideas prevalent among the people who lived around them in the land, impressed him from his early youth as he listened to his father, Isaac, under the black tents of the camp, or lying on the green hillside watching the sheep, or stood in awe near the altar on which upon some rare occasion this father as the tribal priest offered sacrifice. His brother as the elder of the two by the arbitrary law of the times was heir to all his father's honors and God's promises of Messianic hope. Jacob coveted these things more than he did his father's wealth. His life was a strangely diversified one of deception and penitence, sorrow and success. No romance surpasses it in dramatic interest. He learns by sharp experience the uselessness of trying to hasten or improve God's plans for himself and the world.

He earnestly seeks divine favor and finds it, as every earnest seeker has in every age. The brook Jobbok witnessed the all night struggle against his lower nature and the triumph of faith and godliness. The morning dawns upon a man transformed in insight and purpose. He is now Israel, "God's prince."

In some such way the struggle for mastery of one's own powers goes on in every life. We enter the world as bundles of physical weakness with mental and moral possibilities. The years bring interaction of the outer world and the inner life. Both are developed in the process, and soul growth remains the permanent product of value. Events occur and pass. The abiding results are not so much the material possessions accumulated as the personal character achieved. The greatest change wrought by the years of exile is not the increase in flocks and herds, tents and trappings, but the alteration in feeling and nature in the man who seeks his father's house and brother's face after years of alienation. In deepest truth, no one knows our true name but God. In the coming kingdom the Master will give us the title we have earned in the years of earthly toil. Shall it be "God's man—Israel?"

Shirking.

That was the sin of Jonah. It is the fault of many at the present time. He knew Nineveh was wicked. He knew that unless it was stopped Nineveh was doomed to speedy destruction. He knew he ought to give the warning. He did not want to do it. No matter why he shrank from the task—he may have had many reasons to dread it—the duty still remained, and no shirking could shift the responsibility from him.

You see some one doing wrong. You know that evil consequences must follow. The impulse comes to warn the evildoer of danger. You hesitate and refuse. It is the Jonah act of fleeing to Tarshish. It is dangerous for you and deathly to the unwarned one. Better go the way you are sent and give the message God has given you. Don't shirk. It's bad business.

Most Urgent.

Whatever else is done or left undone, the care of the religious nature should not be neglected. Better go without breakfast, dinner or supper than without prayer. It is a good thing to read the daily paper, but not good to neglect the Bible. Read both if possible, but be sure to read the Bible anyway. It may be urgent that the club meetings be attended; it is more necessary that the prayer meeting be sustained. You may get good in the first; you are sure to get good and do good in the second, if you will. Work well during the week, but be sure and spend the Sunday well. The family need food and clothing, but they also need family devotions. Be a good student, farmer, merchant or whatever your calling is, but be sure and be a good Christian. This is most urgent.

The Satisfier.

We taste Thee, O Thou Living Bread,
And long to feast upon Thee still;
We drink of Thee, the fountain head,
And thirst our souls from Thee to fill.

Jesus, Thou joy of loving hearts,
Thou fount of life, Thou light of men!
From the best bliss that earth imparts
We turn unfilled to Thee again.

Thy truth unchanged hath ever stood,
Thou savest those that on Thee call;
To them that seek Thee Thou art good,
To them that find Thee, all in all.

Our restless spirits yearn for Thee
Wherever our changeful lot is cast,
Glad when Thy gracious smile we see,
Blest when our faith can hold Thee fast.

O Jesus, ever with us stay,
Make all our moments calm and bright;
Chase the dark night of sin away,
Shed o'er the world Thy holy light.

—Bernard of Clairvaux (Translated by R. Palmer).

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Nov. 5—Comment by Rev. S. H. Doyle.

TOPIC.—A new name.—Gen. xxxii, 24-29; Rev. ii, 17.

Among the oriental nations great importance is attached to names. The Jews, for instance, in naming children selected the names for important reasons, because of some incident connected with the birth of the child or in an attempt to describe the character of the child. It is also customary to mark one's entrance into a new relation by a new name, the acceptance of the name signifying the acceptance of the new sovereignty and the obligations contained therein. It is easy to see, therefore, why God would signalize the entrance of His people into new relations with Him by giving them a new name, as He did to Abram, to Sarai, to Jacob and to others, and it is also easy to see the appropriateness of designating the new relation to God in heaven by the giving of a new name.

A new name given by God signifies that we have come into a new relation with God. It signifies that we have passed through a crisis in life, have had some new religious experience as a result of which we have come closer to God, have got a better conception of God and have consecrated ourselves anew to God. Jacob's new name had such significance. At Jabbok, where he wrestled with the angel until he received the blessing, his name was changed from Jacob (supplanter) to Israel (prince of God). At Jabbok Jacob had a new experience—he passed through a crisis in his life, he got a new and exalted conception of God and undoubtedly came into a new relation of consecration to God. He was entirely changed by the power of God. Jacob stood for his old life and character and Israel for the new. God gives to all His people at such times a new name. It is His own name. When our lives are changed, when we come into a new relation to God, God's name is stamped upon us. We are God's people, God's children, and our highest aim should be to keep the new name we hear unsullied by being faithful to the new relation.

The heavenly new name spoken of in Revelation has largely the same signification as the earthly new name. It stands for our new relation to God, and it also must be in some way the name of God. "To him that overcometh * * * I will write upon him the name of my God" (Rev. iii, 12). Just what the heavenly new name is, just what it signifies, we do not know, but what is more important here, how the new name may be obtained, we do know. It is better for us to know how to get the new name than to know so much about it. The all important question in this life is, How may we obtain the new name? And this is the way—we must overcome in Christ's name. "To him that overcometh will I give to eat of the hidden manna and will give him a white stone, and in the stone a new name written, which no man knoweth, saving he that receiveth it." If we overcome self, the world and sin, God will feed us upon the hidden manna, spiritual blessings impossible of attainment on earth. He will give us the white stone of acquittal on which will be inscribed the new name. Let us go forth in the power and strength of God in Christ to overcome, that we may be assured that we will experience this rich heavenly blessing.

Bible Readings.—Gen. xvii, 1-6; xxxv, 10; Ex. xxiii, 20,21; Neh. ix, 8-10; Prov. xxii, 1; Eccl. vii, 1; Luke x, 18-20; Acts xi, 25, 26; xiii, 9; Phil. iv, 1-3; Rev. iii, 12; xix, 11, 12.

A Menace to Godliness.

Far more dangerous to true godliness is that spirit among Christians which loves to mingle with the world and conforms itself to it. And this is the great temptation of Christians today. They allow themselves to be lost in the world's pleasures and concerns and have no time for secret meditation. Caught up by the whirl of this busy, giddy life, they have no desire for communion with God and do not know the value of solicitude. They find no time to "think on things" that are "lovely" and of "good report." They have turned their ears to the noises of this world and are deaf to the message of the "still small voice."—Lutheran.

With a True Light.

We are indebted to the faithful souls who have shone with such a true light amid the darkness, gloom and conflicts of the past, and we love to contemplate their lives and honor their memories—many in our own church—and our hearts are encouraged and inspired to to be steadfast, unmovable, always abounding in the love and grace and walking in the beautiful light of God. —American Friend.

God's Furnace.

Sweetness of character and life comes out of sanctified trial. Testing softens under divine grace. God's furnace is intended to refine and purify. It is not for us to repine under His chastening and molding operations. He knows best how to rub off the rough angles, to sweeten the temper, to subdue the wayward spirit and to bring into meetness for heaven.—Presbyterian.

Unanswered Prayers.

Many of our prayers are unanswered simply because they are against God's way of doing. We ask to be taken out of the world not by death, but by deliverance. Our desire is to live, but apart from real life. Such is not the divine purpose. Jesus Himself submitted to every human condition.—Presbyterian Journal.

The Little Things.

It is while you are patiently toiling at the little tasks of life that the meaning and shape of the great whole of life dawn upon you. It is while you are resisting little temptations that you are growing stronger.—Phillips Brooks.

Central R. R of New Jersey

Anthracite Coal Used Exclusively, insuring Cleanliness and Comfort

Stations in New York, foot of Liberty, and South Ferry Whitehall Streets.

TIME TABLE IN EFFECT OCT. 10th, 1899.

For New York 2 14, 3 37, 5 37, 6 29, 6 59, 7 26, 7 29, 7 55, 8 00, 8 13, 8 30, 8 37, 8 48, 9 16, 9 43, 9 58, 10 37, 11 10 a. m.; 12 09, 12 44, 1 35, 2 12, 2 29, 3 12, 3 46, 4 17, 4 55, 5 37, 5 51, 6 21, 6 30, 6 45, 7 06, 7 39, 9 30, 10 17, 11 28, p m. Sunday 2 14, 3 37, 5 25, 7 19, 8 01, 8 52, 10 08, 11 10 a. m.; 12 09 m, 12 58, 1 45, 3 17, 3 30, 5 41, 6 52, 8 13, 8 32, 9 15, 10 22 p. m.

CHINESE RAILROADS.

DIFFICULTIES AND HUMORS INCIDENT TO RECENT RIOTS.

Life of a Foreign Guard on a Train Not a Happy One—Mandarin's Servants Without Tickets Take Possession of a First-Class Carriage.

Mr. Cox, who was recently assaulted near Peking, has had many similar experiences during the dozen years he has been railroad building in the Chihli province, and has only extricated himself by dint of tact, pluck and good humor. He has practically for years carried his life in his hand.

Several years ago, for instance, during floods, a mob, led by the soldiery of Lutai, a military camp near Tien-Tsin, cut the railway embankment and destroyed seven miles of line, their officers encouraging them, and the enlightened Viceroy Li Hung Chang, in his yamen, a few miles off, "layin' low and sayin' nuffin'." The cause alleged was that the embankment prevented the flood water from running off, which as there were frequent outlets, was utter nonsense. Previous to that attempts had been made to wreck trains, and the lives of the foreign employes were constantly threatened.

The life, too, of the foreign guard on a train is not always a happy one. Mandarins' servants without tickets take possession of a first-class carriage, eat, drink and sleep in it. Perhaps they light a pan of charcoal to warm themselves, if the weather is cold. Charcoal has certain asphyxiating effects; the other passengers complain, and the servants have to be ejected. Too much violence might lead to a general attack on foreigners and another Tien-Tsin massacre, while too little would not be effective. The unhappy guard has to follow the "happy" mean between a good, hard push and a mild knock-down blow.

There have, of course, been many ludicrous, as well as dangerous, incidents on the North China line. When it was first opened Chinese would come to the booking office and try to bargain for tickets. When told the fare, they would offer half, and gradually raise their bid, much disgusted that they should not, in a business spirit, be met half way.

One day a country gentleman, on his first ride in a train, seeing his house midway between two stations, flying past, deliberately opened the door and stepped out into space. At the pace the train was going a European would certainly have been killed, but the supple celestial, after a prolonged series of somersaults, was seen to pick himself and bundle up, dust his clothes, and set off home across the fields, much pleased with his short cut and the convenience of the "fire-wheel carriage."

An unfortunate railway coolie, equally ignorant of the laws of mechanics, did not get off so well. Seeing two trucks coming at a snail's pace down a siding, he placed his foot on the rail to stop them. To his astonishment, it was cut off, and he learned, like Stephenson's cow, that "momentum is made up of mass as well as velocity.

But, in spite of everything, railways are bound to prosper in a country where traveling is otherwise so slow and so difficult, carts and ponies in the north and boats in the south never doing more than thirty to forty miles between dawn and dark.

First Names

In 1379 more than half the men were called John or William, says a writer in Notes and Queries, while more than three-quarters were called either John, William, Thomas, Richard or Robert, which in common parlance must have been Jack, Will, Tom, Dick or Rob, since among the commonest patronymics are Jackson, Wilson, Thompson, Dixon and Robson. Other names are less usual, Henry and Adam being each three per cent., Roger and Hugh are only two per cent., while Walter, Simon, Ralph, and Nicholas are one per cent. Still fewer are Geoffrey, Alan, and Stephen; Dennis and Jacob occur only once in four hundred names, Martin and Peter once in eight hundred.

In the thirteenth century William is the commonest name. In the fourteenth and following centuries John is first, with William second. Thus in Bishop Hatfield's survey forty per cent. of the men are named John, followed by William with twenty-two per cent., while if we add Robert and Thomas, eighty per cent. of all the men's names are accounted for.

From the York wills it appears that in 1636 John heads the list with sixteen per cent. William follows close behind with fifteen per cent. Thomas is twelve per cent., followed by Richard and Robert with eight per cent. each. Henry and George are only half as numerous; still fewer are Roger, Ralph, Nicholas, Edward, James, Charles, Francis, Humphrey, Anthony, Gilbert, Lawrence and Joseph.

Fined for Not Curing a Toothache.

"An advertiser has to stick to the truth in South America," said the representative of a large shipping concern. "I know that seems incredible, but, it's absolutely true. Some years ago a dealer in New-Orleans sent an assorted lot of patent medicines to an American agent at Santiago, Chili. Among the stuff was a lot of toothache drops, which were warranted on the bottle to cure the worst case of toothache in ten minutes. Here nobody would take such an assertion seriously, but down there it's different. The first man who bought a bottle made an immediate application, and then pulled out his watch. When ten minutes elapsed and the tooth calmly continued to ache he was furious and at once had the agent arrested. The poor fellow was fined $1,000 and sentenced to three months in jail. Through the efforts of the American Consul the imprisonment was knocked off, but he had to pay the fine, and it broke him up in business. That story is absolutely true, as can be testified to by a dozen people now in the city. It is sad to fancy the effect on commercial circles generally if such a law was enforced in the United States."

Would Be in the Future

"Are there any marks by which you can be identified?" asked the Chief of Police, preparatory to telegraphing.

"No," said the father of the boy who had started to Minnesota to fight Indians, "but there will be when I get hold of him again."

Do You

Like to buy goods for what they are worth and pay for what you get?

OUR PRICES are based on the market and are exactly the same to all purchasers for the same goods and the same service.

We do not make special prices at cost to get the "Other Fellow's" customers and charge our own customers enough extra to make up, but if you give us an order you can feel that you are paying the same as several thousand other good buyers.

OUR GOODS are the regular standard grades of officially inspected stock. They are bought by our men in the West, handled through our own Mill and Elevator, and our customers not only save all middlemen's profits but get Grain that is absolutely clean, and Feeds that are made on the premises and are KNOWN to be pure.

THE PAUL T. NORTON CO.

Everything for Horses, Cattle and Poultry.

Elizabeth, Elizabethport, Red Bank, Plainfield, Somerville.

SPORTING.

ON THE GRIDIRON.

Captain Roy T. Phillips of the Alis team promises a particularly exciting game for election day afternoon with the Marion Field Club, of Jersey City. The Marion Club eleven defeated the Alis team in Jersey City by a score of 5 to 0, the first defeat that the Alis boys have suffered in six years. Naturally, they are anxious to retrieve themselves and will make the hardest fight of the season to defeat the Jersey City boys.

There is every prospect for a hot game for tomorrow afternoon in Somerville when the Dunellen eleven will again try conclusions with the team from that place. It will be remembered that the Dunellenites won the first game of the series although greatly outweighed by their opponents. The Somerville boys put up a very poor game. Now they hope to wipe out their disgrace by defeating the Dunellen team by a big score. A second victory would just suit the Dunellen boys and they are going to try hard for it. The result is bound to be exciting. The Somerville team has plenty of fair material, but the boys do not seem to keep together and lack any semblance of team work.

The football enthusiasts who wend their way to Martine Common tomorrow afternoon are pretty certain to see a very good game. On that occasion, the Alis team, of this city, will meet the eleven from the Bayonne Athletic Club. This team is in reality the second team of the Knickerbocker Athletic Club which has recently absorbed the New Jersey Athletic Club. The K. A. C. has a team which plays on the grounds at Bergen Point. When the K. A. C. team is not there, the Bayonne A. C. team schedules games there. The Bayonne team is composed of a number of old college men and others interested in the sport. They are particularly strong for a middle weight team and will give the Alis boys all they want. The game is called for 4 o'clock.

—There will be a meeting of the Women's Relief Corps this evening in the rooms on East Front street.

No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50 cents at L. W. Randolph's Drug Store.

In a Nutshell:

Regular collections; intelligent washing; careful ironing, prompt deliveries. This makes a good laundry. People who have known us as dyers for thirty years back may not realize that we are doing the largest laundry business in New Jersey. Send us your bundle for a trail.

HILLIER & CO.,

129 West Front Street,

Opposite Crosby & Hill's. 'Phone 851.

PARTICULAR MENTION.

Mrs. Howard Smith and son, of Hartford, Conn., have been visiting relatives in town, previous to a residence in Cleveland, O.

Mrs. John Seay and James Miller, who have been spending the summer at Washingtonville, leave today for Newburg on-the-Hudson, where they will spend ten days visiting friends. They will then return to their home on Third street, this city.

MUST RESELL ESTATE.

Judge McCormick's Property to Be Put on Block Again.

The estate of Judge Thomas F. McCormick, of Elizabeth, which was recently sold at public action, will have to be resold, because of a misunderstanding of the terms of the recent sale

The purchasers thought they were buying the tracts free and clear of the widow's dower right, but now it is found that this was a mistake. The only way it can be rectified is to have another sale. It will be four or five weeks before another sale can take place.

It is said those who bid before will do so again. The price which will be realized by the new sale is likely to exceed the former figures.

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with Typhoid Fever, that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even set up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong I can say too much in it praise." This marvelous medicine is the surest and quickest cure in the world for all Throat and Lung trouble. Regular sizes 50 cents and $1.00. Trial bottles free at L. W. Randolph's Drug Store; every bottle guaranteed.

Stage Route to Lehigh Valley Station South Plainfield.

The new stage route established by TenEyck & Harris, from the City Ticket Office of the Lehigh Valley Railroad to South Plainfield, which makes connection for Lehigh Valley through trains for Rochester, Buffalo, Niagara Falls, Chicago and the West, will be run via Park avenue to Ninth street, to Central avenue, to Stelle avenue, to Plainfield avenue, to Lehigh Valley station, South Plainfield. Call up City Ticket Office (Telephone Number, 112-B) for information as to rates, time of trains, etc. See time table in another column. 11 3-3-eod

Chancellor McGill Better.

Chancellor Alexander T. McGill, who is undergoing treatment at the Johns Hopkins Institute, Baltimore, is much improved, his relatives in Jersey City say, and it is belived he will be able to resume his duties in a few days. Much regret is expressed on account of the Chancellor's illness.

Howard Gorman, of New York, has been visiting his father in this city for a ime.

—Doane & Edsall say in their ad today that they have never shown such a large stock of new fall and winter up to-date shoes as they have in their store now and at such good valuee. They insist that there is really no use to go to New York for shoes.

To Cure Constipation in One Week
To Purify the Blood in One Week
To Strengthen Nerves in One Week
To Cure Sick Headache in One Day

Take Cleveland's Celery Compound Tea, 25c. Trial size free. It it fails to cure your money will be refunded. T. S. Armstrong, the apothecary corner Park and North avenues.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders.

—Columbia Lodge, No. 58, A. O. U. W. will hold a regular meeting this evening.

—Gavett has a very complete line of lamps this fall in gas, electric, fancy and plain. See his assortment.

—The Union Bible class, taught by Rev. D. M. Stearns, will meet in the Y. M. C. A. Hall Monday evening.

—Next Monday evening Trinity Commandery, No. 17, K. T., will hold a conclave, and a full attendance is desired.

—Columbia Lodge, A. O. U. W., will hold a business meeting tonight, after which the usual quoit contests will be indulged in.

—M. Weinberger, manager of the New York Clothing Company, announces in his new advertisement in today's Press a great special overcoat sale for Saturday.

Railway Property Sold Cheap.

The cheap price paid for Union Hall building at yesterday's Sheriff sale in Elizabeth was a surprise to the people of Rahway who heard of the disposal of the property. The building is of brick, three stories high, and besides the hall and Brown's drugstore, the postoffice, together with the plant of the Rahway Advocate, are located in the place. The postoffice is about to be removed, however, to a new location on Irving street, where A. Edward Woodruff is to put up a substantial building for the use not only of the United States Government, but also as a location for the Adams Express office and the central station of the New York and New Jersey Telephone Compano in Rahway.

Armory for Political Headquarters
(Special to The Daily Press.)

Elizabeth, Nov. 3.—Company I, 2nd New Jersey Regiment, has leased the former regimental headquarters of the Third New Jersey on Broad street for a home for the company. Major Collins, of the Second Regiment, who was former commander of the company when it beloaged to the Third, is chairman of the City Democratic Executive Committee, and has engaged the place from yesterday until after the election for the use of the Democratic party, and a force of clerks was set to work there yesterday handling campaign material.

Grown in the Sandwich Islands.

"The soil of the Hawaiian Islands is of a very rich volcanic nature, and nearly all the plants and trees of the tropical and temperate zones may be grown on it, but only a small portion of the land is under cultivation. When irrigation is perfected there is scarcely a limit to the productive capabilities of the islands.

"Citreous fruits, oranges, lemons, limes and grape fruits can be grown, ripening in time to supply the deficiency of the California market when that gives out. All vegetables, breadstuffs, mangoes, dates, figs, mulberries, pomegranates, strawberries, guavas and cocoanuts grow in profusion. There are hundreds of acres of land which might be used for cocoanut groves with great success. Thousands of acres are covered with guavas in the wild state, which are falling to the ground ungathered. The fruit makes a fine jelly, and United States capital might make guava jelly factories profitable.

"Celery is grown if the proper soil is selected. That this vegetable thrives in a warm climate was proved in Southern California, where five years ago not enough was produced to supply the home market, but on the introduction of skilled methods from Michigan, celery raising has become a great industry. Dairying might be made a profitable business in the Hawaiian Islands, but at present is neglected."

Cuba's Benefactor.

The United States has done a great good in Cuba. It has lifted up a stricken people and put the reins of government into their unpracticed hands, in so far as it has been safe to do so. It is daily increasing the scope of this power, as the Cubans show themselves capable of receiving it. It has kept down the carpet bagger rushing here for employment, until the howl has been raised by indignant Americans that Americans are being discriminated against. It has given a Cuba for the Cubans at the cost of much patience and toil.

Since annexation there has been a mania for busines consolidation in Honolulu, and even the barber shops, and candy stores have formed trusts with a view to discouraging outsiders from offering competition.

Two Acquitted and One Convicted.
(Special to The Daily Press.)

Westfield, November 3.—Justice Collins has announced his decision in the Linden cock fight case. The case against Fred Ritter and Fred Semler was dismissed as not proven. John Semler, Jr., was convicted and sentenced to pay a fine of $25 and costs.

Special Overcoat Sale

FOR THIS SATURDAY.

We purchased 138 extra fine men and boys' sample overcoats. These garments were made especially for the manufacturer's show room. No custom tailor can produce anything finer or more stylish work on overcoats like these for less than from $15.00 to $35.00. They consist of the very best kersey, melton and patent beavers, plaid-backed coverts and whipcords. This entire sample lot was made up for this season's trade by one of the best clothing manufacturers in the United States.

There are not more than two or three of a kind, but on account of having such a large lot we are able to fit any man between the sizes 34 and 44. Here are the prices that we are going to sell them at.

LOT No. 1 consists of heavy weight beavers and covert cloths, lined with the best plaid worsted, satin yoke and velvet collars, wholesale price $8.00, 10.00 and 12.00. This lot to go at your choice, **$4.75**

LOT No. 2 consists of 40 extra fine men's overcoats, made and trimmed in the latest fashion, in black or blue meltons, kerseys and beavers, lined with first-class all-wool clay diagonal worsted, satin piped and French facing. These overcoats were actually sold at wholesale from $12.00 to 16.00. Your choice at **$5.75**

LOT No. 3 consists of 30 very handsome overcoats, cut in the short box style, full backs, satin lined, an overcoat that is good enough for a banker's son, wholesale price from $14.00 to 21.00, to close out this lot at **$6.75**

LOT No. 4. This lot will include the very best overcoats of this entire lot, and are the handsomest lot of overcoats ever shown in Plainfield, are lined with pure silk lining, have silk velvet and hand-made collars. Over 14 different styles of meltons, kerseys, coverts and patent beavers that sold at wholesale from $18.00 to 28.00. Price for this sale, **$8.75**

A Few Specials in Men's Suits.

First-class men's business suits in heavy weight cheviot cassimeres and homespuns cut down for this sale in price to $2.50, 3.00, 3.75 and 4.50. Other stores could not buy them wholesale for double this price. Men's dress suits made of very heavy black or blue serge with double-breasted vests, also black and blue worsted cheviots and worsted stripes and checks made up very stylishly and elegantly to be sold at $4.50, 5.50, 6.00 and 7 50. Other stores would consider them worth from $10.00 to 15.00.

Full line of children's suits at half regular retail price. Men's trousers from 75c upwards. Knee pants at 21c. Men's winter caps at 15c. All-wool men's gloves at 20c. Men's heavy working shirts at 19c. Linen collars at 5c. Men's all-wool half hose at 9c, and a great many other bargains to be had by attending this sale. Remember this is the cheapest place to buy your men's, boys' and children's clothing.

Customers from Dunellen, Lincoln, Bound Brook, Somerville and New Brunswick will have their car fare paid by buying a reasonable amount of clothing.

BUILDING BOOM BIDS FAIR TO CONTINUE.

Twenty-one Permits Issued for Month of October.

ELEVEN FOR NEW HOUSES.

MOST PRETENTIOUS IS RESIDENCE FOR COL. MASON W. TYLER.

Will be Occupied by His Son—Besides Eleven New Dwellings, Work Has Been Started on a Factory, a Barn, a Passenger Station and a Conservatory—Repairs Made on Six Houses

Even the approach of the cold weather does not seem to show any decrease in the strength of the building boom that has been so noticeable during the summer and fall months. During the month of October, twenty-one permits were granted by Building Inspector T. O. Doane, of which eleven were for new dwellings of various sizes, six for additions to houses, one for a brick factory, one for a barn, one for a passenger station and one for a conservatory.

The most elaborate structure planned and started during the month is the handsome brick and stone residence built for Col. Mason W. Tyler on West Eighth street in the rear of his present residence on West Seventh street, which is destined to be occupied by Col. Tyler's son. The architect was Evarts Tracy, of this city. The contract for the mason work has been given to Wm. H. Pangborn, and for the carpenter work to John Abbott.

Mrs. Catherine Lynch is the owner of a neat little cottage going up on West Fourth street, near Spooner avenue. J. A. McNally is the architect, Peter Galbraith the mason, and McNally & Hoffman the carpenters. Another is being erected on the same street, near Lee place, by David Arthur, Jr. Henry Wilson was the architect, J. H. Snyder is doing the mason work and David Arthur the carpenter work.

Cuming & LaRue are building a comfortable dwelling on Belvidere avenue. The plans were drawn by Fred L. Lancaster. Cormick Caufield has the contract for the mason work and David Arthur, Jr., for the carpenter work. Mrs. Wm. H. Brokaw is the owner of a new frame dwelling on West Fifth street, designed by Wm. H. Clum. W. Thompson is the mason and W. H. Brokaw the carpenter. Another cottage on West Fourth street, near Spooner avenue, has been started by Mrs. Catherine Rouse. Peter Galbraith is the mason and McNally and Hoffman the carpenters.

Patrolman James E. Totten is the owner of a comfortable little home at 918 West Fifth street. W. Mundy has the mason work under contract and Titus & Pope the carpenter work. W. K. Barnes is building one on Fifth street, near Lee place. Townley Brothers and W. H. Bohl hold the contracts for the building.

John J. Heideloff is the owner of a frame cottage on West Sixth street near Central avenue. The architect is W. H. Clum, W. C. Smith is the mason and C. L. Hedemark, the carpenter.

Williams Madison has a cottage underway on East Second street near Byran place which was designed by Fred L. Lancaster. Mr. Wyckoff is the mason and George Hummer the carpenter. Mrs. Laura Lewis is building a frame cottage at the corner of Richmond and East Second streets J. A. Oakley & Son were the architects. J. Lewis and A. Smalley are in charge of the mason and carpenter work respectively.

Adolph Kahrman is building a conservatory in the rear of the premises at 314 Jackson avenue. Adams and Sorenson are doing the work. J. V. Raymond is the owner of a brick factory in the course of erection at 404 East Second street. William Tallamy has the mason work and Wyman & Haberle the carpenter work.

John Ammon, builder, has completed a frame barn for E. W. Brokaw on Columbia avenue. McNally and Hoffman erected the passenger station at the Dunellen terminus of the West Front street trolley for Woodhull & Martin.

Not Entitled to Vote in Borough.

It is understood that there appeared on the borough registry lists of names of a number of people who are not entitled to vote in that place. The last day the Board of Registry met these names were erased from the lists. In most cases the parties resided in this city, but claimed a residence in the borough.

Ice at Mauch Chunk.

Ice formed at Mauch Chunk Thursday night and the temperature was pretty low. People living in that vicinity claim that it was the coldest November night known in years.

DEMOCRATS WERE OUT DESPITE THE RAIN.

Reception to Union County Candidates Was a Success.

APPEALS MADE FOR VOTES.

BRIEF REMARKS MADE BY CANDIDATES AND LEADERS.

Notwithstanding the Severe Rain Storm There Were Over 200 Who Attended the Assemblage—Plenty to Eat, Drink and Smoke—James E. Martine Acted as Master of Ceremonies Last Evening

The Democrats had the elements against them last night, but notwithstanding the fact that hundreds were discouraged from attending the reception to the Union county Democratic candidates, arranged by the new Democratic city executive committee, there were over 200 who turned out in spite of the storm and greeted those of the candidates that were able to appear.

The affair was held in the Ulrich building, which is well adapted for an assemblage of that kind. The executive committee had made elaborate arrangements for the entertainment of those who called, and had the weather been more propitious it would have been the most notable function held by the local Democracy in several years. As it was, however, it was declared a success, and the members of the committee who had it in charge feel gratified that they succeeded in having as big a turnout as they did; under the former party organization in Plainfield, and with such weather to contend with, it is probable that no meeting at all would have been held.

Rogers' orchestra was present and from 8 to 10 p. m. discoursed popular selections. In the rear room of the building there was a plentiful supply of refreshments in the shape of sandwiches and soft drinks, of which those who called were welcome to partake of. Cigars were passed around and the committee endeavored to make everyone feel welcome and at ease in the genuine Democratic spirit of sociability.

The candidates and guests from other towns arrived in town between 7 and 8 o'clock and were met at the depot and escorted to the Ulrich building. Soon after 8 o'clock the people commenced arriving at the clubhouse, and as fast as they came in they were introduced to the candidates and others who were there.

The nominees who were present were John H. Hillman, of this city, candidate for Senator; William M. Oliver, of Elizabeth, candidate for County Clerk; George J. Reiss, of Roselle, and John J. Gardiner, of Elizabeth, candidates for the Assembly. Owing to sickness Jacob Glaser, candidate for the Sheriff, was unable to be on hand, and the weather and other difficulties prevented William H. Swain, another candidate for the Assembly, and Dr. Cladek, candidate for Coroner, from being there. Among the others from out of town who were present were Major D. F. Collins, former Sheriff Nathaniel Thompson, Bertram Glaser, of Elizabeth, and Alvord B Cook, of Rahway. Letters and telegrams of regret from several prominent Democrats were also received, among them being a message from William B. Gourley, chairman of the Democratic State Committee, who was billed to speak in Hoboken last night, otherwise he would have been in Plainfield.

After the candidates had been pretty generally introduced, the assemblage was called to order by James E Martine, who made an introductory speech in which he touched on the issues and candidates in the county campaign. He paid a glowing eulogy to all the Democratic nominees, and urged upon Democrats to rally to the earnest support of them, as well as taking advantage of the dissatisfaction in Republican ranks over the "machine" politics and induce members of that party to vote to rebuke such tactics as was alleged prevailed in Republican affairs in this county. He referred to the arguments being made by Republican newspapers against the Democratic ticket, which, he said, were very weak.

Mr. Oliver was introduced and spoke briefly, saying that he appreciated the honor that was conferred upon him and that he was pleased to see the Democrats of Plainfield so enthusiastic.

Candidate Reiss, who is regarded as very strong man among the working classes, being prominently identified with labor unions, was introduced and spoke with special emphasis on what he considered was the unfair discrimination of the Republican administration in dealing with legislative

OFFICIALS OPPOSE PEOPLE'S GAS CO.

Object to Seeing City Streets All Torn Up.

WILL FIGHT DOLLAR GAS.

PROMINENT CITY OFFICIAL TALKS AGAINST IT.

People's Gas Company Will Have to Put Up a Strong Fight if They Want to Obtain a Franchise From the City Council—Hearing Will Be Had Before the Council Monday Evening.

If the advocates of the new People's Gas Company, which offers to furnish local consumers with $1 gas, expect to have their application for a franchise granted, they will find it necessary to do considerable hustling. It is the opinion of several of the prominent officials of this city that the people at large are not at all anxious to see the new gas company enter into competition with the old. If the contrary is not very forcibly shown to these same officials there will not be favorable action taken on the application by the Council.

In conversation with a Press reporter the other morning a prominent city official declared that he did not believe that the people of Plainfield wanted the Council to allow the new gas company in the field. The trouble, he explained, was that they did not want all the streets in the city dug up. When reminded that the company promised, in the event of the granting of the franchise, to put the streets back in the same condition that they were before without any expense to the city, he laughed and said that such a promise did not really amount to a great deal and pointed out, as an example, that a similar promise was made when the sewers were laid and that the streets were never put back the way they had been beforehand.

There is undoubtedly a feeling among certain city officials against the new company. The interested ones in the old concern are not likely to remain silent and it will be a hard fight for the People's Gas Company to secure their franchise.

There has already been some talk of bringing this question of granting the franchise to the $1 gas people in the coming municipal campaign and making an important issue of it.

MANIAC HUNTED DOWN.

Farmer Surrounded by an Armed Posse and Brought to Somerville, Thence Taken to Asylum.

Nathaniel Watt, a raving maniac, who has been confined in a padded cell in the Somerset county jail, was heavily ironed and taken to the insane asylum at Trenton Thursday by Assistant Chief of Police Koch and Detective Totten, of Somerville.

Watt is over 60 years old and is of powerful build. He was formerly foreman in the Bound Brook Woollen Mills. Recently he has lived a retired life on a small farm in the Watchung Mountains, near Chimney Rock, as he was subject to epilepsy. He was cared for in their little home by his aged wife. He became suddenly insane and attempted to kill her with a chair. She escaped to the woods unharmed and concealed herself, while the madman roamed the mountains in search of her.

He was quickly pursued by a posse of farmers headed by Constable Sebring, of Bounk Brook. When he was surrounded in the rocks it took the combined efforts of the posse to capture and subdue him.

He was chained in a farm wagon and brought across the country to Somerville.

SCRUB WOMAN UPSET THE COURT.

Cleaned Out the Judge's Docket and Disarranged His Plans.

The carelessness of a scrub woman has completely disarranged the cases set down for trial before Judge Woodbridge Strong in the Middlesex County Courts. She cleaned out the office of Judge Strong in the Library building so completely that his docket and diary were destroyed.

Every case set down has been called off, and a new arrangement is being made as fast as the lawyers can be communicated with.

Hearing on Two Important Matters.

At the meeting of the Common Council next Monday evening a number of important matters will be brought up. There will be a continuation of the hearing on the extension of the trolley through Arlington avenue, and the first public hearing on the application of the People's Gas Company for a franchise. Several other important matters will be considered.

"SHIRLEY DARE" SENT TO THE COUNTY JAIL

She is a Famous Newspaper Woman and Author.

SON MADE THE COMPLAINT.

REMARKABLE FAMILY. QUARREL WAS AIRED.

The Prisoner Accused of Being Disorderly by A. F. Power, Whom She Says is Her Son, but He Denies That There is Blood Relation — Judge Runyon Sorry He Had to Act as He Did.

The most remarkable case that has appeared in the police court in this city for several years was heard there yesterday afternoon by City Judge Runyon. The principals were Mrs. Arthur Dunning Power, a well known newspaper woman and novelist who writes over the non de plume of "Shirley Dare," and A. F. Power, whom she claims as her own son. The latter insists that he is no blood relation of the woman, but that she is his stepmother.

Mr. Powers is secretary of the Exporters Association at 11 Broadway. A month ago he moved his family to this city and took up his residence at 518 Belvidere avenue. Ten days ago "Shirley Dare" came to his home to take up her residence temporarily. Powers says that she has become impoverished to some extent on account of her inability to maintain amiable relations with the publishing houses and newspapers that have given her employment, and that he had opened up his home to her, though on frequent occasions before, when she has been with his family, she has been a disturbing factor.

After being here for a few days, the quarrels between "Shirley Dare" and Mr. and Mrs. Powers broke out anew, and finally became so intense that yesterday Powers says that his wife was threatened with hysteria. He requested the visiting relative to remain in her room when she was in the house, but the latter refused to do so, and, it is alleged, began screeching and crying about the house, inside and outside.

Roundsman Frederickson was sent for, and later Powers started for City Judge Runyon's office to make a complaint against the woman. The latter followed him, and the two met in the City Judge's presence. The Judge acted the part of peacemaker and finally got a promise from the woman to leave town and go to New York, Powers offering to supply her with the necessary funds. It was agreed that she should go on the 1:34 p. m. train.

Accompanied by Roundsman Frederickson, "Shirley Dare" left for Powers' home to pack up her things so as to be ready to leave at 1:34 o'clock. She claimed to be in fear of bodily harm and wanted the policeman to go along with her for protection from anticipated assault. When the woman got her things ready Powers and his wife agreed to accompany her to the depot and see her aboard the train. Roundsman Frederickson followed at a respectable distance.

When the train rolled into the Netherwood depot Powers assisted his step-mother on to the train, but instead of going into the car she jumped off the other sider and ran towards some bushes. Powers followed her insisted that she get on the train. She defied his efforts, however, and the train pulled out leaving her behind. Then she rain across the tracks to where Mrs. Powers was standing, and commenced to berate her, and created a scene. Roundsman Frederickson then placed her under arrest, and brought her to the police station. Powers preferred of a complaint against her for being disorderly and disturbing the peace of his home.

City Judge Runyon was then called, and for two hours and a half he heard both sides of the case. The woman claimed that Powers is of her own flesh and blood, but he flatly denied this to her face. Then she accused him of getting hold of her property and money and refusing to give it to her. For over two hours the matter was argued between the two principals and the judge. The latter tried to secure a promise from the woman that she would leave town and not bother the Powers family again, but she declined to commit her future actions in this respect.

The outcome of the matter was that Judge Runyon sentenced the woman to the county jail for ten days, and an hour after that she was taken there by Chief Grant and locked up in the woman's ward.

In speaking of the case this morn-

[CONTINUED ON PAGE 8.]

VETERAN FLORIST HAS PASSED AWAY.

William H. Brower Died in This City Last Night.

ONE OF OLDEST COMMUTERS

RESIDED IN PLAINFIELD FOR QUARTER OF CENTURY.

Was Born in New York and was First a Builder and Contractor—Started as a Florist in New York in 1853—Came to Scotch Plains Shortly After the War and Then Moved to Plainfield.

After an active career of more than the allotted three score and ten years William Hulse Brower, a resident of Plainfield for a quarter of a century, passed quietly away last evening at 431 West Sixth street, where he had been boarding for the past year. At the time of his death Mr. Brower was the oldest living florist in New York city, and one of the oldest commuters on the Jersey Central Railroad. He leaves a host of friends to mourn his loss.

Mr. Brower was born in New York city August 4, 1826. He was the son of Mr. and Mrs. William Brower. When he was a young lad the family went to Poughkeepsie, N. Y., where he spent his boyhood days and afterwards became a carpenter and builder there.

In 1849, he was married to Miss Hearst at Poughkeepsie by Rev. Dr. J. Hyatt Smith. They continued to reside there until a few years later, Mr. Brower went out of business and went to New York where he entered into partnership with several New York business men and established a florist store. The business grew and finally Mr. Brower became sole owner. The location of the store was changed several times. Finally it was moved in 1862 from the St. Nicholas Hotel to its present site in the narrow block between Fifth avenue and Broadway, just below Twenty-third street, and is now doing a successful business under the name of W. H. Brower & Sons. As they grew old enough Mr. Brower took his three sons into partnership with him.

When he first went into business in New York Mr. Brower made his home in that city but, at the close of the Civil War, he moved to Scotch Plains, commuting over the Central road daily.

While in Scotch Plains he was prominent in affairs of the town. He was one of the organizers of the fire company there and was made foreman of the company. A staunch Republican, he played an important part in local politics. He was very popular in the county and was nominated by the Republicans as candidate for County Clerk. The campaign was a hot one and he was only defeated by a small majority.

In 1875, Mr. Brower and his family moved to this city where he has made his home ever since. Mr. and Mrs. Brower have always boarded since they came to Plainfield.

Mr Brower was a very enthusiastic sportsman and was particularly fond of fishing. His vacations were usually spent near the haunts of the trout and bass, and he was a frequent visitor at the preserves of the Megantic Fish and Game Club in Maine. He was exceedingly popular with the members of that organization. He retained his love for the sport to the last.

He was a Freemason. He was a regular attendant at the Congregational church, this city, as long as his health permitted and was at one time a member of the board of trustees. He was in good health until four years ago when he was suddenly stricken down and it was feared that he would not recover. He gradually improved but has never recovered fully since. Of late his health would not permit his regular attendance at business. A month ago he began to grow worse and the last few days was confined to his bed. Yesterday afternoon he sank rapidly and the end came at 7 o'clock. Brights disease was the immediate cause.

Mr. Brower had a host of friends all over the country. He was very popular in all circles and was particularly well-known in this city by the older residents He leaves three sons, John L. Brower, of Westwood, N J, William I Brower, of New York City, and Lorenzo D Brower, of Bayside, L. I There was a daughter, the first child, who died when she was only a child

A few months ago Mr. and Mrs Brower celebrated their fiftieth wedding anniversary at the home of their son at Bayside, L. I.

The funeral will be held Monday afternoon at 2:30 o'clock from the late residence.

EXPERT TO INSPECT BOROUGH ACCOUNTS.

The Council Appropriates $100 For the Purpose.

TALK ABOUT SIDEWALKS

DIFFERENCE OF OPINIONS ABOUT SENDING OUT NOTICES.

It is Said That the Present Ordinance is Invalid and It Was Decided to Have a New One Drawn Up and Passed—Report of Collector Brown—Two New Ordinances Were Adopted

For a time it looked as though the meeting of the Borough Council would not be held last evening on account of the severe storm. It was nearing the hour of meeting, and those present included only Mayor Smalley, Councilman Coddington and Clerk Rowley. Just before 8 o'clock in came all of the other members of the Council, with the exception of Mr. Rogers, and he failed to attend.

Soon afterward the session was called and Clerk Rowley presented the report of Collector Geo. F. Brown as follows: Taxes and interest, $7,600.71; Board of Health, $94 41; special school, $3,154.72; Watchung avenue, $638 32; rent of borough property, $50; bills payable in notes, $500; clerk, for stone and labor on streets, $27.44; fines, $2; total, $12,067.60; balance on hand October 1st, $2,603.83; disbursements, $4 099 68; cash on hand November 1st, $10,571 75; borough fund, $10,384.03; Watchung avenue fund, $187.72; received from Recorder as fines for October, $4.

Mayor Smalley appointed James Black, the janitor of Watchung School, as special marshal, and the same was confirmed. The report of the street commitee was then called for and Mr. Clark presented it. It showed that during October $110.45 was expended for street work and $21 55 was spent for crushed stone. The total expenditures for the month amounted to $132.35, and there is a balance in the street committee fund of $711.90.

At this time two new ordinances were adopted on the third reading, and another ordinance repealing one relating to peace, morals and good order of the borough, were put through. One ordinance takes the place of the one repealed, and the other provides for people guilty of vagrancy, prostitution, etc.

Mr. Valiant called from the table a resolution providing for the expenditure of $150 for the purpose of having the books of the collector and clerk audited. He then stated that he knew of an expert who had volunteered his services for this work, and that the expense would be very slight. He at first thought it would be well to let the auditing committee have the benefit of the $150 although he was sure the expenses would not be as much as that. He claimed that the amount expended would establish the precedent and not the amount appropriated.

Mr. Clark spoke on the subject and stated that not long ago an up-to-date system of bookkeeping was introduced which simplifies matters, and he hardly thought it necessary to employ an expert. At the same time he would concur with Mr. Valiant provided the work of an expert would lessen the burdens of the auditing committee and would not run into unnecessary expense. On Mr. Clark's amendment to the original motion the sum of $100 was appropriated for this work.

The Council discussed briefly the question of a crosswalk on Brook avenue at the corner of Westervelt avenue, but nothing was done in the matter. Mr. Clark stated that walks were being laid on Duer street, Manning avenue, Jackson avenue and other streets.

This discussion led Mr. Valiant to say that he thought the Council was retrograding in regard to the laying of crosswalks and sidewalks, and he believed that steps should be taken to prosecute this work.

Regarding this Mr. Clark stated his side as chairman of the street committee. He said that Borough Council Reed informed him that the procedure last year in compelling people to lay walks was invalid. It was recently learned by the street committee that notices had been sent out from the office of the Borough Council compelling people to lay walks. Inquiry was made about the matter and Mr. Reed denied that the notices had been sent out. Further inquiry revealed the fact that they were sent out from that office. Mr. Clark said that Mr. Reed had knowlege of this matter, but has not imparted that knowlege to the Council. It lays with Mr. Reed to draw up a suitable ordinance compelling

REV. MR. JACKSON ON POLITICAL AFFAIRS.

Condemns Discharge of Colored Men at Pond's.

SAYS IT IS BAD POLITICS.

WANTS COLORED MAN TO HAVE CHANCE TO WORK.

Declares That Politicians Are to Blame for the Negro's Corruption, and That It Ought to Stop—Appeals to the Colored Men to Vote Right, But Does Not Say Which is the Right Ticket.

To the Editor of The Daily Press:—

I find in last evening's issue of the News myself misquoted, where it said that I urged the Socialists to vote for their interest instead of that of the rich man. That was not my sentiment, and if it was the time has not come for me to express it. I did not urge a vote either way. I said that owing to the present status of the political parties of this country they cannot determine what fifteen years will terminate, with the hypocrisy now demonstrated. I referred to the Pond Tool Works and the number of colored men who were thrown out of employment—it is believed for political reasons. The white men who are there now employed will no doubt make the impression upon their employers that on election day they will vote in gratification of their wish, but when they go to the polls they may find reasons from principle to change, as the Negro may have found in many respects. Will the white laborer lose his job? Is it just to throw a number of colored men out of employment for political reasons, and retain the white laborer who is guilty of the same? Is it just that the employer should dictate to his laborer how he should vote? When he was employed it was not what party do you belong to, but can you do my work? The first-class white people of this city do not question the Negro about his vote when they employ him, but his ability to do their work. While I am a Republican, the party has not bought me; neither have we any honest leaders in the party that will seek to make a poor colored man do anything that would detract from his manhood. The white race of this city know that we are not capable of dictating to them in superior matters; they know that for many of the political mistakes made by my race the leaders are to blame. More would be accomplished by educating the Negro by precept and example than teaching him the insanitary avenues in political parties.

Can any man cause me to become his friend who seeks to throw myself and family upon a merciless community for exercising my right of franchise? There is not one honest Republican in this city who would not say that the action of Mr. McCardell in throwing out of employment those men last Saturday for political reasons, was right, when the majority of the men were as ignorant of the political affairs as I was, and knew nothing more than to seek to please bosses in the shops. Even if he found two or three deceptive characters he should not punish the innocent for the guilty. I am not in politics and am not advocating the righteousness of any party, but as my people are oppressed by the party or leader of the party, I cry "Oh give us out of the superior race another Harriet Beecher Stowe, another Sumner, another Phillips." If there are none in the Republican party in this city who will not speak as I am speaking, they are saying amen to my statements.

E. E. Jackson.

May Lay Their Mains.

At a meeting of the Board of Freeholders Thursday afternoon, Director Hubbard in the chair, the entire board present, the Short Hills Water Company petitioned for the right to lay and maintain castiron water mains on Morris avenue, Springfield township. On motion of Mr. Boll the petition was granted, with the proviso that the work be done under the supervision of the county engineer and county road inspector.

Dismissed the Jury.

The case of Schomp against the Brunswick Traction Company for the killing of a horse on December 16th, of last year, was to have come up before Judge Strong, of New Brunswick, yesterday, but word was sent by the Judge that he had dismissed the jury. This is the second time he has adjourned this case.

Who is Responsible for the Liquor Traffic?

Rev. A. L. Wilson, of Bound Brook, will deliver an address on the above subject at the First Church of Christ tomorrow evening. Miss Wilson, his daughter, a fine vocalist, will sing.

SAILOR SHARKEY DEFEATED

The Husky Boiler-Maker is Given the Decision Over the Sailor on Points.

IT WAS A GAME FIGHT.

Both of the Big Pugilists Fought Hard From the Start, With Sharkey Doing the Forcing.

Spectators Get All That is Coming to Them in The Way of Exciting Sport —Sharkey Gave and Took Lots of Punishment—The Boiler Maker's Winnings Amount to a Fortune.

Coney Island, N. Y., Nov. 4.—With the ending of the twenty-fifth round in the battle for the heavy-weight championship of the world, another great event in pugilism has been added to the pages of history, and James J. Jeffries, the brawny boiler maker from California, according to the decision of the referee, demonstrated his superiority over Thomas Sharkey, the sailor aspirant for the championship.

More than 10,000 sports who paid fancy prices of admission to see the "mill" got all that was coming to them in the line of exciting sport, and it was a case of give one and take one in return from the call of time in the first round.

Sharkey started in to rush matters from the start and landed as often as Jeffries until the last five rounds;

JIM JEFFRIES.

then he began to show signs of tiring from the swift pace he had kept up, and the boiler-maker took advantage of this and rushed matters himself until the end, when he was declared the winner on points.

Following is the fight by rounds:

Round 1—Sharkey lead left and right for head. Sharkey rushed, then they sparred cautiously. Sharkey put right to Jeffries's jaw. The sailor was the aggressor. Sharkey put left and right to Jeffries's head.

Round 2—They went at it rip, bang, clinch. Jeffries put right to jaw and the sailor went to his knees. They fought fiercely, Sharkey seeming anxious. Sharkey forced matters, but got a cut ear. Sharkey swung left and right to Jeffries's head.

Round 3—Jeffries was very cautious. Sharkey swung left to neck. Sharkey jabbed Jim in the mouth. Jeffries got in a swift left to body.

Round 4—They come up strong and spar for opening. The sailor put right to Jeffries's ribs. They clinched repeatedly. Jeffries was smiling and confident, Sharkey sober and anxious. The sailor ducked into right uppercut.

Round 5—Sharkey landed left to face and right to Jeffries's neck. Jeffries put right to heart. They mix it fiercely. As the gong sounded the sailor punched Jeffries in ribs. Siler cautions Sharkey.

Round 6—Sharkey put right to kidneys and left to neck. Jeffries ducks a fierce left lead, and they clinched. The fighting was furious. The heat is having its effect. Jeffries's neck was raw from constant poking.

Round 7—Jeffries was slow getting into action. Jeffries ducked into two rights. Little science is shown by either. They exchanged lefts.

Round 8—Sharkey forces matters. Jeffries sprinted, then cut the sailor's eye with right. Sharkey landed repeatedly. Jeffries was tired. Sharkey's round.

Round 9—Sharkey, as usual, was the aggressor. Sharkey beat Jeffries's ribs with right and put right to jaw. The sailor kept after Jeffries's body. Both were tired. They roughed it as gong sounded.

Rounds 10 to 16 were sailor's. He landed at will.

Round 17—Jeffries kept away. The sailor rushed.

Round 18—Again Sharkey's round. Jeffries rested in clinches. His blows lacked strength.

Round 19—Sharkey forced matters. Jeffries weary.

Round 20—They fought fiercely, Tom watching for knockout blow. They mix it.

Round 21—Sharkey tired himself out rushing.

Round 22—Jeffries was fresher, but Tom fought hard.

Round 23—They mixed it. Tom hugs in clinches. They exchanged fierce lefts. Jeffries landed with the gong.

Round 24.—Jeff fought carefully. Tom got two on jaw. Sharkey was tiring fast with gong.

Round 25—They rushed, each clinching repeatedly. Both were very rough. Jeffries got in two uppercuts. Jeff fought fiercely. Jeffries won on points.

The battle was fought in the same ring where Jeffries won the championship from Fitzsimmons last June, and the Californian occupied the same corner Friday night as on his meeting with the Cornishman.

It was without doubt the greatest battle ever fought in a prize ring and the sports who lost their money on the event are willing to acknowledge that the best man won. George Siler was the referee.

While the spectators were prepared to see a hard fight, it is safe to say that not one of them expected the contest to last the limit of twenty-five rounds, and up to the nineteenth round neither of the men had particularly the best of it. Large sums of money were wagered at the ringside and Jeffries ruled the favorite at 10 to 7.

The winner's end of the purse which was in the neighborhood of $50,000, amounts to a fortune to Jeffries and he says he knows how to take care of it.

$6,000,000 GOES TO WIDOW.

Mrs. Hilson Made Rich by The Death Of a Millionaire.

Bridgeport, Conn., Nov. 4.—The dignified representative of a firm of English solicitors called at the modest little home of Mrs. H. F. Sturlz, in Brown street, to notify officially Mrs. George Hilson, Mrs. Stulz's mother, sixty years old, that she is heiress to $6,000,000.

The money comes from the estate of the late Elisha Crowell, of Bristol, England, who left a fortune of $30,000,000.

At the home, besides Mrs. Stulz, were Mrs. Hilson's other children, Mrs. . Z. Hewitt, wife of a local contractor; Mrs. Charlotte T. Hall, William and Spurgeon L. Hilston. The ceremonies lasted but a few moments and the solicitor left with the understanding that the heiress and her daughter will sail for England in a few days.

Mrs. Hilson was the favorite granddaughter of Crowell, who made his fortune in the manufacture of plush. She lived at his home in Somerset, where, forty years ago, she was married to Lieut. George Hilson. Thirty years ago they came to this country and settled at Bridgeport. He died a number of years ago and for the past five years the mother has lived with her children.

The other heirs, Mrs. Hilson says, live at Truro, N. S.

Will Talk Municipal Reform.

Columbus, O., Nov. 4.—Among the men who will speak at the good government conference in this city, Nov. 15, 16 and 17, when the National Municipal League is to hold its fifth annual meeting, is Bird S. Coler, controller of Greater New York. Mr. Coler's position is one of great responsibility, and whatever he may have to say concerning municipal affairs will be of the greatest interest and importance. The league meetings are to be opened by an address of welcome by Samuel L. Black, former mayor of Columbus and president of the League of American Municipalities. Other speakers will be Harry A. Garfield, son of ex-President James A. Garfield; Edward Kibler, member of the Ohio municipal code commission, and ex-Judge E. J. Blandin of Cleveland.

Sealer Sunk by Warship.

San Francisco, Nov. 4.—The story of the drowning of eighteen Japanese sailors, whose schooner was sunk by the guns of the Russian gunboat Alexis, has been brought by the whaling boat Charles W. Morgan. The Japanese were caught poaching in the Russian seal preserves. It was almost dark and the sealer tried to elude the gunboat. A shot was fired across her bows, but she kept on her course. Then the Russian captain ordered his guns trained on the schooner. Three of her men were picked up by the Russian boat, but the remainder were drowned.

All Thought To Have Been Lost.

Chicago, Nov. 4.—The northeast gale which has been raging for more than forty-eight hours, continues. A number of vessels have been wrecked, among them the schooner rigged yacht Chiquita, which went ashore near Miller's Landing, Ind. The Chiquita left Charlevoix, Mich., two weeks ago and had on board D. S. Day, his wife and Rollin Frazine, a young man. The body of a man, supposed to be Day, was found lashed to the rigging of the wreck. It is believed the entire party has been lost.

Three Lives May Be Lost.

New York, Nov. 4.—Fire late Friday afternoon destroyed the seven-story building at Nos. 94, 96 and 98 Mott street, which was occupied by the Manhattan Iron Beadstead and Spring Company, causing a loss of about $200,000. Three persons employed in the factory are missing and several were injured in escaping, while engaged in attempts to rescue the inmates and in managing the Fire Department's apparatus.

Strange Murder in Pennsylvania.

Altoona, Pa., Nov. 4.—F. J. Lenners, brother of the cashier of the First National Bank of Tyrone, was mysteriously murdered near the railroad bridge at Latrobe. Lenners was employed in the office of the Hostetter Coke Company, and no one can imagine why he should have gone to this lonely spot at night unless decoyed there by assassins. His head was crushed in and his pockets rifled. The authorities have no clue.

Woman Cuts Steaks.

Rochester, N. Y., Nov. 4.—This city has a female butcher. For over two years Miss Daisy Stevenson has handled the clever and carved out steaks and chops in her market on Plymouth avenue. She took up the work when her father became sick and unable to carry on the business. Under her management it has prospered. She opens the market herself every morning.

The Cadet Got Excited.

West Point, N. Y., Nov. 4.—Cadet Eby, of the second class, is to be tried by court martial for getting too excited over a football game. After the game he joined the battalion and marched to the mess hall. There he threw his plate at a water pitcher, turned the jam over on the biscuits, and tried to make a plebe crawl under the table.

There is Gold in Cuba.

Havana, Nov. 4.—A number of gold mining claims have been staked at Trinidad, province of Santa Clara.

Radam's Microbe Killer

—is admitted by physicians and scientists to be eminently healthful; being an antiseptic, it destroys all bacilli or disease germs in the human system. One can drink it freely without any danger from an overdose.

If you are ill, this remedy should be adopted quickly. Don't defer until there is no hope.

Radam's Microbe Killer will stay the ravages of **Consumption,** stop the pains of **Rheumatism,** allay the itchings of **Eczema,** prevent the wasting in **Bright's Disease,** neutralize the gnawings of **Dyspepsia,** sweeten the foulest stomach and bring back a normal appetite to the suffering patient. The above are only a few of the many germ diseases this remedy surely conquers. It has no injurious substance or mineral poison in its composition; for years it has been curing thousands of people in various parts of this country, Great Britain, France and Australia.

IT WILL CURE YOU

Large Bottle, $1. Gallon Jug, $3.

Send for free book containing testimonials and advice.

DRESSED CHICKENS.

There is nothing quite so good for dinner as chicken. This week we have an extra nice lot of fancy roasting chickens, broilers, also fowls of the highest grade. We pride ourselves on dressed chickens. Prices very low, considering the goods. We would like to have your meat trade and we think a plump dressed chicken would be a good introduction.

MUCH ALARM IN LONDON

Reported That the Boers Have Captured Colenso and the Railroad Bridge.

WHITE MAY BE DOOMED.

If Partially Confirmed Reports Are True, He May Have Already Met Another Disaster.

London Shows a Disposition To Discredit News of Boer Victories—Foreign Governments Priviliged to Send and Receive Cypher Messages From South Africa.

London, Nov. 4.—While there is a habit here to assume that news of Boer victories emanating from the Continent cannot be true, because of the censorship, the fact is forgotten that foreign governments are fully privileged to send and receive cipher messages to and from their representatives in South Africa.

As a matter of fact the rumors of the capture of the Hussars, the occupation of Dundee and the disaster of Monday came first from Berlin, from which city also came the first news of the Jameson raid. So, tidings of any British reverse are as likely to come from there as from anywhere, and that such news is possible is fully recognized, as General White's position is acknowledged to be so precarious that the landing of a big naval brigade to go to his assistance is being advocated.

Mounting More Guns.

London, Nov. 4.—The Daily Mail publishes the following dispatch from Ladysmith:

"Matters are quiet here. The Boers are apparently mounting more heavy guns to the north and northeast, which are likely to give trouble. A Boer contingent, 1,500 strong and clearly visible from the camp, is streaming away to the south. The inhabitants of Ladysmith continue to leave the town."

An army order just issued instructs the proper authorities to mobilize thirty-five battalions of militia at their respective headquarters on various dates after November 20.

Partial Report of British Losses.

London, Nov. 4.—The list of casualties among the non-commissioned officers and men at Farquhar's Farm shows the Gloucesters lost thirty-one killed and fifty-three wounded; the Fusiliers ten killed and forty slightly wounded, and the Tenth Mountain Battery two wounded before they surrendered.

The captured, who are given under the head of "missing," are divided as follows: Gloucesters, nineteen officers and 330 men; Tenth Mountain Battery, five officers and eighty-four men; Fusiliers, not yet reported.

Add Little Information.

London, Nov. 4.—Belated despatches from the British camp at Ladysmith, Natal, add little information regarding Monday's fight, except the estimates of the Boer's losses, which are said to be ninety-five killed and 200 wounded mostly victims of the artillery shells, which have wrought such great havoc that it is said Gen. Joubert, the Boer Commander-in-Chief, has written a letter to Gen. White, the British Commander, protesting against the use of lyddite.

According to all accounts the presence at Ladysmith of the long-range naval guns and the splendid shooting of the bluejackets have materially improved the position of the British. A temporary armistice was declared Monday evning to allow of the collection of the dead and wounded. A despatch from Kimberley says all the wounded are doing well. Small bodies of Boers, about 400 strong, were then frequently seen. They apparently came from Mafeking, for the purpose either of assisting in the attack on Kimberley or to resist the advance of reinforcements. The absence of water outside the place causes the Boers to continually move their camps.

Rumor of Disaster.

London, Nov. 4.—Alarm prevails here to-day. Ladysmith has been suddenly cut off by the Boers, and it is expected that a terrible disaster has overtaken the British there.

An unconfirmed report from Berlin says that the greater part of General White's army has been slain, the rest captured and Gen. White himself wounded.

The Boers it is reported, have captured Colenso and the railway bridge there. This is partially confirmed by the cutting of communication. If it is true White's army is doomed, even if disaster has not already overtaken it. The news comes, too, that the Dutch in Northern Cape Colony have risen and joined the invaders, that the natives are threatening to rise and that the Boers are advancing through Zululand and threatening Pietermaritzburg. Altogether, London is in a terrible state of mind to-day.

The report that Ladysmith has fallen comes from Berlin. It is not generally credited, yet the fact that the report of the disaster to the Fusileers and the Gloucesters first came from Berlin leads to the belief that something serious has happened.

The report that the Boers have captured Colenso and the railroad bridge is in line with the last despatches that came from Ladysmith. They said that the Boers were advancing on Colenso, and that their bombardment of Ladysmith was meant to keep Gen. White's forces occupied while they seized the railroad bridge. The capture of Colenso, if true, is the worst strategical blow that has yet fallen on the British. It practically dooms White and his army. It not only cuts off his retreat, but makes it impossible for reinforcements to reach him. It is hoped that the railroad bridge has not been captured.

Public alarm is increased by the belief that before the wires were cut bad news of some kind was received from Gen. White. The War Office will not admit this.

"WILL MEET IN HEAVEN."

So a Wealthy Missing Man Says in a Note

Port Chester, Nov. 4.—George E. Weigand, one of the wealthiest men of East Port Chester, and prominent in society, disappeared on Monday. He left a note in which he gave his entire estate, which is large, to a sister in New York. Friends believe he has gone to China, where he was once employed as a pilot by the Chinese Emperor on a boat that was hunting pirates. Mr. Wiegand, who is forty years old, is a son of the late Philip Wiegand, one of the formost business men of East Port Chester. He was a bachelor and prominent in club life. He was noted throughout Fairfield and Westchester counties for his fine horsemanship. He drove thoroughbreds and won races on local tracks.

When Miss Annie Weigand opened her brother's safe on Tuesday morning she found a note addressed to her in the order book. Wiegand wrote that he had gone away and never would return.

"We will meet in heaven," the note continued. He wrote that she could take possession of all his property. When Wiegand was last seen he was perfectly rational. His acounts are all right. His friends cannot understand his action.

PENSION SWINDLES.

Forgery of Impersonation of Widows Employed in Fraud.

Washington, Nov. 4.—"We are just in the act of cleaning out the greatest gang of pension frauds that ever operated in the South," said Pension Comsioner Evans to-day.

"I have just received a telegram from Chattanooga, Tenn., that up to date we have secured eleven convictions. There are four or five more to be tried, and we will get convictions in every case. The scheme these Chattanooga scoundrels worked was to visit the soldiers' burying ground, pick out the names of the dead, and then get colored women in the vicinity to impersonate the widows of the deceased. One of the colored men tried and sentenced down there confessed that he was regularly employed at forging signatures at ten cents each."

OUR EXHIBITS IN PARIS.

Appointment of Twelve American Commissioners Expected.

Washington, Nov. 4.—Ferdinand W. Peck, Commissioner-General of the United States to the Paris Exposition, has just had a conference with President McKinley. The appointment of the twelve commissioners, which will represent as many different sections of the country, is expected to be announced in a few days. Commissioner-General Peck said that the negro race of the United States would be represented by a fine exhibit at the exposition.

A special exhibit of the Tuskegee Normal School will be presided over by Booker T. Washington, principal of the school. Thomas J. Callahan, of Washington, will be placed in charge of the general negro exhibit. It is expected that the shipment of the government exhibits will begin very soon, the exhibits being carried in two shipments, probably on the cruiser Prairie.

Mr. Croker's Denial.

New York, Nov. 4.—Mr. Croker took the stand before the Mazet Committee and said to Mr. Mazet: "I want to contradict the statements you have made with reference to me under oath. You know the speeches you have made, don't you?" "What speeches?" asked Mazet. "The speeches about my offer to sell New York gas stock to the Consolidated Company. I deny that on this stand. Will you please take the stand now and swear to what you said?" Mazet sat silent and soon afterward Mr. Croker left the room.

Godkin's Retirement.

New York, Nov. 4.—The Evening Post makes this editorial announcment: "In response to numerous inquiries we regret to announce that Mr. E. L. Godkin has severed his active connection with the Evening Post. It was his intention to do so in any case on the 1st of January next, but the step has been hastened by impaired health. H will continue to be an occasional editorial contributor."

Messenger Company Incorporated.

Albany, Nov. 4.—The Brokers' District Telegraph Company, of New York, has been incorporated with a capital of $10,000, to supply messengers for the purpose of delivering messages and other property and to deliver messages by telegraph or telephone. The directors are Samuel M. Richardson and George H. Vandewalker, of New York City, and Henry D. Kuck, of Tompkinsville, S. I.

Bishop Moreland Coming East.

San Francisco, Nov. 4.—William H. Moreland, bishop of Sacramento, has left for a tour of the eastern and western states in behalf of his diocese. He will also give lectures in all the larger cities in behalf of the great general convention of the Episcopal Church, which is to be held in October of 1901 in this city.

THE MARKETS.

New York, Nov. 4 —While the trading was not especially active at the stock market to-day the amount of stocks that changed hands was very large; 1,000 blocks were common. The quotations generally show an advance. Owing to the anxiety regarding the actual situation at Ladysmith the security markets in London to-day were somewhat restricted in business, and the majority if figures showed declines.

Cash prices for provisions:

Wheat—Dull; No. 2 red, 74½ f.o.b afloat.

Corn—Active; No. 2, 41 f.o.b. afloat.

Newark, N. J.

GEO. W. ROCKFELLOW,
THE GROCER.
Standard Butter, Coffee, Tea and New Canned Goods.
Park Avenue and Fourth Street.

As two ardent members of a leading Quaker City Bicycle Club were rounding City Hall on their return from a century run, one was heard to say: "This is the earliest spring long distance ride I have taken during my eight years of riding." "I suppose you attribute your improved condition and better muscle to Ripans Tabules," said the other laughing. "Well," was the answer, "I do. They have put my system in better shape than it has been for years. The tired feeling one gets so quickly on re-entering the sport after a winter's non indulgence I have not felt this year."

A new style packet containing TEN RIPANS TABULES in a paper carton (without glass) is now for sale at some drug stores FOR FIVE CENTS. This low-priced sort is intended for the poor and the economical. One dozen of the five-cent cartons (120 tabules) can be had by mail by sending forty-eight cents to the RIPANS CHEMICAL COMPANY, No. 10 Spruce Street, New York—or a single carton (TEN TABULES) will be sent for five cents.

GARRISONS TO BE WITHDRAWN.

Matters Considered at Cabinet Meeting in Washington.

Washington, Nov. 4.—The regular meeting of the Cabinet Friday was occupied with a discussion of affairs in the Philippines and in Cuba. The report of the Philippine Commission was examined in detail, and the document was spoken of as a very strong argument in support of the Administration policy. One Cabinet officer said after the meeting that the report would certainly have a desirable effect on the elections in several States. The same member disarmed possible criticism of the President's action in making the report public just before election day by saying that it was only fair that honest-minded citizens should have all the non-partisian information in the possession of the Government before casting their ballots for or against the Administration.

The question of civil government in Cuba was considered at some length at the Cabinet meeting. The general opinion among the Cabinet members was that affairs are progressing so rapidly in the Island that it would be advisable before long to withdraw some of the military garrisons. As soon as this withdrawal begins, the civil government will become more prominent, although it is recognized that no thoroughly civil form can be established until Congress takes the necessary action. The President discussed with his Cabinet in a general way his proposed recommendations to Congress on the subject.

Getting Tired of "Hero Business."

Washington, Nov. 4.—A report has reached this city from Tacoma that a reunion of the Dewey family is to be held in New York in January, and that the Admiral will preside. When asked about it, however, the Admiral said: "I know nothing whatever of this movement on the part of my alleged relatives. I am endeavoring to gain a little rest. This hero business is wearing me out. Fifteen hundred are to be present, eh? My relatives seem to be increasing in numbers."

No Fatality is Reported.

Washington, Nov. 4.—At the headquarters of the Isthmian Canal Commission nothing has been heard of the reported drowning of Mr. White and other members of an engineering party at Machuca Falls, Nicaragua. Rear-Admiral Walker has requested the State Department to cable the United States consul at Manague for information.

Custom House Architect Selected.

Washington, Nov. 4.—The Secretary of the Treasury has approved the findings of the commission appointed to select a design for the New York Custom-House, and has selected Cass Gilbert, of New York, as the architect. The selection of Cass Gilbert, it has been reported, was opposed by Senator Platt.

Admiral Schley Starts South.

Washington, Nov. 4.—Rear Admiral Schley, accompanied by Mrs. Schley, Miss Letterman and General Felix E. Agnus, of Baltimore, have left Washington for the South. The party occupied a private car.

Gas Company Loses Its Charter.

Houston, Tex., Nov. 4.—The San Antonio Gas Company has lost its charter because it joined a trust. The company became a member of a local combination to control the private and public lighting of San Antonio. Judge W. S. Ely, of the Fourth State Court of Civil Appeals said: "It does not matter that the immediate result of the combination may be a reduction in the price in commodities. A dangerous arbitrary power has been placed in its hands by which the business of the country may be absolutely dominated and prices arbitrarily controlled regardless of the laws of trade or the rules of supply and demand."

Fever Quarantines Raised.

New Orleans, Nov. 4.—The weather bureau predicted a cold wave Thursday and at night the themometer was down to 46 degrees. With the coming of the cold wave telegrams were received from neighboring states notifying the Louisiana Board of Health of the lifting of quarantines. By night all quarantines had been raised on every class of freight except household goods. The wholesale merchants of this city have been waiting for the lifting of the embargoes against commerce, and all out-going trains are now carrying traveling salesmen.

Put Poison in The Well.

Hartford, Nov. 4.—Some one has poisoned J. T. Bransfield's well, which in dry times is used by a whole neighborhood. Mrs. Mary Ahearn, who lives with the Bransfields, became violently sick after drinking water from the well. Dr. William S. Kingsbury found paris green on the well bucket, on the dipper that hung near it, and in the well. Evidently a large amount of the poison had been put into the water. The doctor worked over the woman all night and thinks now that she may recover.

Didn't Like Platt's Letters.

Philadelphia, Pa., Nov. 4.—Because he believed Edward H. Platt, of this city, was trying to ruin his home, Jay H. Worst, of Berwyn, Pa., dashed vitriol in Platt's face, and it is believed the latter will lose the sight of both eyes. During the Peace Jubilee here Platt made the acquaintance of Mrs. Worst, and when she returned to Berwyn he sent her letters couched in dearing terms which Worst found.

Troops to Remain in Idaho.

Boise, Idaho, Nov. 4.—A dispatch from Wardner says: "Company H, Idaho National Guard, went on guard at the prison last night. Adjutant General Weaver has received a dispatch from General Merriam which says that the Federal troops will remain in their camps in the Coeur d'Alene."

Whaler's Good Luck.

San Francisco, Nov. 4.—The whaling bark Charles W. Morgan has arrived here from Okhokzt Sea. During her year's cruise she obtained 1,400 barrels of sperm oil, 2,600 pounds of bone and sixty pounds of ambergris. The ambergris is worth $250 to $400 a pound.

MORE FIGHTING IN LUZON

The Americans Again Succeed in Driving the Filipinos to the Hills.

SEVERAL WERE KILLED.

Major Bell Makes Another Descent on Porac and Wins With But Little Difficulty.

Horses And Baggage of Filipinos Captured—Cavalry of The Natives in The District Destroyed—One American Officer Killed And a Private Wounded.

Manila, Nov. 4.—The insurgents attempted to ambush Capt. Batson's scouts between Santiago and Saragosa, but Capt. Batson charged them and drove them out from their position, killing and wounding several of them. One American officer was killed and a private was wounded.

Gen. Young's troops are beginning to live on the country, trying buffalo meat and rice partly in lieu of army rations. The capture at the Talouren Arsenal includes thirteen small brass howitzers and 800 one-pound projectiles.

Major Bell's regiment has advanced from Guagua on Florida Blanca, which was found to be deserted. Bishop's battalion is stationed there. Major Bell also made another descent upon Porac, pursuing the Filipinos thence into the mountains and capturing their horses and baggage. The American loss was one killed and two wounded. Major Bell reports that he entirely destroyed the insurgent cavalry that was operating in that section.

Medals For Iowa Troops.

Des Moines, Ia., Nov. 4.—Plans are now complete for the reception of the Fifty-first Iowa Volunteers in all the towns that have companies in the regiment. The state reception is to be at Council Bluffs Monday afternoon, and every company is expected to reach home that night.

The Des Moines companies will be given a brief reception on their arrival, when fifty-one girls will pin medals on the soldiers. The medals are given by the city at a cost of $5 each.

Lieut. H. M. Boutelle Killed.

Washington, Nov. 4.—Second Lieut. Henry M. Boutelle, who was killed at Aliaga, in the Philippines, Friday, was a son of Capt. Frazier A. Boutelle, U. S. A., retired, and a nephew of Representative Boutelle of Maine. He was appointed second lieutenant of the Third Artillery July 9, 1898, from civil life, and the next month accompanied his regiment to the Philippines.

O'Reilly Ordered Home.

Washington, Nov. 4.—Owing to ill-health, Maj. O'Reilly, Chief Surgeon of the Army at Havana, has been relieved of duty there and ordered back to the United States. His successor will be Lieut.-Col. Dewitt, surgeon at Fort Monroe. Col. Dewitt was in charge of the hospital at the Soldiers' Home at Hampton during the recent outbreak of yellow fever.

Rusty Nail Causes Death.

Ogdensburg, N. Y., Nov. 4.—Frank Bean, jr., has died here from lockjaw resulting from stepping on a rusty nail. The nail penetrated his foot, blood poisoning developed and was followed by lockjaw. He died in extreme pain. Mr. Bean was a florist who had been in business in Ogdensburg for thirty years.

Lafayette Dollar Design Is Ready.

New York, Nov. 4.—It has been decided by the director of the Mint to postpone coining the Paris Exposition Lafayette souvenir dollars until the beginning of the new year. The design has been decided upon. On the reverse of the coin are the faces of Lafayette and Washington in double profile.

Diphtheria Closes Schools.

Malone, N. Y., Nov. 4.—An epidemic of diphtheria has broken out here. Three children in the family of Mr. and Mrs. Frank Flury are dead, and many other households are affected. All the schools have been closed and there is a close quarantine of all the cases.

His Body Cut in Two.

Elizabeth, N. J., Nov. 4.—The body of Samuel Van Arsdale, brakeman on the Central Railroad, was found cut in two on the tracks at the avenue yards at Elizabethport. It is believed that he fell under the wheels while coupling cars. He was recently married.

Broke a Leg in Golf Game.

Lyons, N. Y., Nov. 4.—While playing golf on the Black Brook links Herman Miller broke his right leg. He drove the ball across a stream and then attempted to clear it himself. He landed on the opposite side, but struck a stone.

Escaped From Mrs. Eyler.

Trenton, N. J., Nov. 4.—Two girls have escaped from the charge of Mrs. Eyler at the Girls' Industrial School. Mrs. Eyler's husband, who informed the police, could not give the girls' names nor say how the escape was effected.

Locomotive Explosion Kills Two.

Towanda, Pa., Nov. 4.—Two men were instantly killed and another was injured fatally by the explosion of a Lehigh Valley Railroad locomotive near Wyalusing, a short distance from here. The locomotive was rented by the Lehigh Valley Company.

Cut Down By a Ferryboat.

Seattle, Wash., Nov. 4.—The revenue cutter Patterson, while at her anchorage here, was run down by the ferryboat City of Seattle. There is a hole fifteen feet wide and eight feet high in the side of the Patterson.

Nov. 5—Boys' Bible class at Y. M. C. A. at 9:30 a. m.

Result of One Gas War.

After vainly struggling for the right to furnish gas at a maximum price of $1 per thousand cubic feet, the new lighting company of Passaic has given up the battle and will retire and leave the field to the established company that has had a monopoly of it for years.

Harry Myers, who is at the head of the proposed new company, says he is ready "to throw up his hands." He adds in explanation: "We don't mind competing with the old company, and taking our chances as to getting a franchise, but we were astounded at the public sentiment in favor of municipal ownership manifested at the mass-meeting last night, and in view of this we don't want to go ahead."

It is to be hoped that Plainfield's project for cheaper gas will materialize more than has been the case in Passaic, although that city can count itself considerably better because of the agitation and prospective competion. The possibility of a new company in the field made the old corporation come down to much lower rates than had prevailed for years.

THE CAMPAIGN IN NORTHERN LUZON.

It looks now as if the next storm center in Luzon would be at or near Tarlac. It is said that Aguinaldo has a force of 16,000 at Tarlac and Generals Lawton and Young, starting from San Isidro, and General MacArthur, from Angeles, are marching on the Filipino chieftain's headquarters. By this movement, concentrating the two forces against the insurgents, the Ameritan commanders hope to deliver a telling blow for the American arms.

A St. Louis editorial on Emperor William's message of godspeed to Bristish regiments in which he holds an honorary rank says: "Whatever policy the Kaiser may have determined to follow with regard to England will, of course, be maintained just the same. His relations toward the British Royal Dragoons are an entirely different matter—not touching statecraft or the ultimate destinies of the two nations. He might, in fact, wish that regiment all sorts of good luck while preparing to dust the jackets of every other organization on the British army list."

The suit of the city of Paterson against the city of Summit, in which Union county's newest city is accused of having violated the State laws by polluting the Passaic river with sewage, will be vigorously defended by Summit. The Summit officials consider the suit brought by Paterson to be one actuated by malice, and in support of this they claim that Paterson is doing more to pollute the waters of the Passaic than any three other places along that stream.

William B. Gourley, chairman of the State Democratic committee, and Congressman William D. Daly spoke at a mass meeting in Hoboken last night. In their speeches both men made a plea for harmony in the party. They did not, however, show any signs of recognition of each other. Daly was spoken of by many of the speakers as the future vice-president of the United States.

Those members of either political party, who are said to be "kicking over the traces," will have to be placated and "got into line" by this time if they are to be harmonized at all. When you hear a politician talking against his own party up to this late day in the campaign it is pretty fair evidence that his vote will also be cast in opposition to it next Tuesday.

The fact that former Mayor Charles J. Fisk is not taking the interest in the political campaign this year as he has in the past, is a considerable loss to the forces of the Republicans. Mr. Fisk is not a sulker, however; ill health compels him to be quiet.

The weather yesterday was what is usually described as "Democratic," but with a reception on for the evening the Democrats are impelled to believe that the G. O. P. was in league with the weather clerk.

In the death of William H. Brower Plainfield loses a representative and respected citizen.

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

It was the intention of the board of trustees of the Hackettstown Institute to spend in the near future about $50,000 on the building for the purpose of making it a more modern institution, and plans had about been decided upon when the institute burned down. It is believed that the trustees will at once go before the M. E. conference and ask for a sufficient amount of money to rebuild. It is believed that the money will be given. If not at present it is possible that they will have to wait until the conference meets again, which will be next year.

* * * * *

A slight change of the mind prevented Dr. and Mrs. Whitney, of this city, from being in the Hackettstown Institute when it was destroyed by fire last Tuesday morning. Last Sunday the M. E. church at Newton, Sussex county, celebrated the sixty-ninth anniversary of its organization, and after much persuasion Dr. Whitney consented to attend the anniversary exercises and take part. He was accompanied by his wife. Before they left Plainfield Dr. Whitney's daughter persuaded them to stop off at Hackettstown on their way home and make a short visit. She thought that while they would be so near to the institute where her father presided for twenty one years, that they should stop for a short time and visit. After the doctor and wife concluded their visit at Newton and were on the train coming home, they decided that they would not stop at Hackettstown as it would delay them a day or two in getting home, as Dr. Whitney did not feel well enough to remain away so long. They therefore came right through. Had they stopped off they surely would have been at the institute the night of the fire. They were both very thankful that they were led to decide not to stop off.

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E W. Grove's signature is on each box. 25c.

EARLY INTELLIGENCE.

—The Plainfield Board of Education will meet in regular session next Monday evening.

—The Plainfield Street Railway Company has concluded the repairs to their tracks on West Front street.

—At the meeting of the Borough Board of Health Monday evening the members will consider several cases of violation that have been brought to their attention.

—The bulldog that attacked one of the U. S. Express Company's horses a few days ago and injured him severely, was shot yesterday by the owner, J. F. Wilson, of the borough.

—At the regular meeting of Martha Washington Council, No. 23, Daughters of America, next Tuesday evening, the fair committee will make a report and other important business will be transacted.

—The women of the German Lutheran church of the borough have decided to hold their fair for four afternoons and evenings, instead of two. It will probably be held November 15th, 16th, 17th and 18th.

Bismarck's Iron Nerve

Was the result of his splendid health. Indomitable will and tremendous energy are not found where Stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills. They develop every power of brain and body. Only 25c at L. W. Randolph's drug store.

—The present cool weather has its effect upon the large number of commuters that assemble at the North Avenue station every morning, and they now seek the waiting room, which is now heated, in preference to standing outdoors.

DOES COFFEE AGREE WITH YOU?

If not, drink Grain-O—made from pure grains. A lady writes: "The first time I made Grain-O I did not like it but after using it for one week nothing would induce me to go back to coffee." It nourishes and feeds the system. The children can drink it freely with great benefit. It is the strengthening substance of pure grains. Get a package today from your grocer, follow the directions in making it and you will have a delicious and healthful table beverage for old and young. 15 and 25c.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

Special Overcoat Sale
FOR THIS SATURDAY.

We purchased 138 extra fine men and boys' sample overcoats. These garments were made especially for the manufacturer's show room. No custom tailor can produce anything finer or more stylish work on overcoats like these for less than from $15.00 to $35.00. They consist of the very best kersey, melton and patent beavers, plaid-backed coverts and whipcords. This entire sample lot was made up for this season's trade by one of the best clothing manufacturers in the United States.

There are not more than two or three of a kind, but on account of having such a large lot we are able to fit any man between the sizes 34 and 44. Here are the prices that we are going to sell them at.

LOT No. 1 consists of heavy weight beavers and covert cloths, lined with the best plaid worsted, satin yoke and velvet collars, wholesale price $8.00, 10.00 and 12.00. This lot to go at your choice, $4.75

LOT No. 2 consists of 40 extra fine men's overcoats, made and trimmed in the latest fashion, in black or blue meltons, kerseys and beavers, lined with first-class all-wool clay diagonal worsted, satin piped and French facing. These overcoats were actually sold at wholesale from $12.00 to 16.00. Your choice at $5.75

LOT No. 3 consists of 30 very handsome overcoats, cut in the short box style, full backs, satin lined, an overcoat that is good enough for a banker's son, wholesale price from $14.00 to 21.00, to close out this lot at $6.75

LOT No. 4. This lot will include the very best overcoats of this entire lot, and are the handsomest lot of overcoats ever shown in Plainfield, are lined with pure silk lining, have silk velvet and hand-made collars. Over 14 different styles of meltons, kerseys, coverts and patent beavers that sold at wholesale from $18.00 to 28.00. Price for this sale, $8.75

A Few Specials in Men's Suits.

First-class men's business suits in heavy weight cheviot cassimeres and homespuns cut down for this sale in price to $2.50, 3.00, 3.75 and 4.50 Other stores could not buy them wholesale for double this price. Men's dress suits made of very heavy black or blue serge with double-breasted vests, also black and blue worsted cheviots and worsted stripes and checks made up very stylishly and elegantly to be sold at $4.50, 5.50, 6.00 and 7.50. Other stores would consider them worth from $10.00 to 15.00.

Full line of children's suits at half regular retail price. Men's trousers from 75c upwards. Knee pants at 21c. Men's winter caps at 15c. All-wool men's gloves at 20c. Men's heavy working shirts at 19c. Linen collars at 5c. Men's all-wool half hose at 9c, and a great many other bargains to be had by attending this sale. Remember this is the cheapest place to buy your men's, boys' and children's clothing.

Customers from Dunellen, Lincoln, Bound Brook, Somerville and New Brunswick will have their car fare paid by buying a reasonable amount of clothing.

New York Clothing Company
M. WEINBERGER, Mgr.
214 W. Front St. Next Door to Music Hall.
Plainfield, N. J.

We Want You To Know

That for many years we have not had such a large stock of new fall and Winter Up-to-Date Shoes as now

They have all been bought at the old prices, and our patrons will receive the advantage thus gained.

We are positively selling a better shoe today for the same money than ever before.

We are right up in the front ranks of the shoe trade, and are in good shape to offer unusual inducements.

Just put on sale a new shipment of Peddie's Trunks, Dress Suit Cases and Hand Bags at the old prices. Remember our "specialty" shoes are having a big sale; don't go out of town for shoes.

DOANE & EDSALL.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Daily Press.)

Dunellen, Nov. 4.—The cosy waiting room erected by Messrs. Woodhull & Martin, of Plainfield, at the trolley terminus, is much appreciated by the traveling public. Yesterday many ladies sought its shelter from the inclement weather. The enterprise of this firm is often referred to by the patrons of the trolley lines.

The young folks wi h good voices are practicing preparatory to taking part in the humorous entertainment to be given by Jed. Basset, the originator of the "singin skule," which is to be held at the Methodist church Thursday and Friday evenings, the 16th and 17th inst. It is to be held under the auspices of the Ladies' Aid Society and there will be a chorus of fifty voices. Tickets are now on sale at 25 cents.

At a recent meeting of the Township Committee of Piscataway township a representative was present from the New York and New Jersey Telephone Co. requesting permission to erect poles on certain thoroughfares in the township. A committee was directed to draw up an ordinance to be submitted at next Thursday's meeting at Hotel Nelson.

The regular monthly meeting of the Common Council will be held on Monday evening. It is expected that H. Brewster Willis, the borough counsel, will be in attendance and advise the Council what action to take with reference to accepting the water works.

A social party was held in Apgar's Hall Thursday evening by some of the young folks of the borough and Plainfield. Miss Kitty Ransome was the leader. Naylor's orchestra supplied the music.

Holy communion will be celebrated at the Methodist church tomorrow morning, after which the pastor will speak on "Broken Things." In the evening the subject will be "A Study of Faces."

The Dunellen football team has decided not to disband but will play a game this afternoon on the Lincoln grounds with the Somerville team.

The Dunellen Banjo Club met for practice Thursday evening with Miss Loretta G. Clawson, one of the members.

PLAINS AND FA

(Special Correspondence of The Press.)

Scotch Plains, Nov. 4.—The man and woman who were arrested and put in the lockup Thursday night for creating a disturbance on Park avenue were, strange to say, released Friday morning without even a hearing. People are wondering if the lockup is to be used as a lodging house by tramps at an expense of $1.50 per night to the township, for the services of a man to watch the place when occupied. If so, Scotch Plains could have lived a little longer without its jail.

Rev. G. M. Shott will take for his subject for tomorrow morning's sermon "Conscience of Christ." The hour of morning service has been changed from 10:30 to 10:45, so as not to interfere with the Sunday-school service which meet from 9:30 to 10:45

Rev. Mr. Shott is endeavoring to revive an interest in the home department of the Baptist Sunday-school. His efforts are meeting with encouragement and in a short time he expects to have a strong adjunct to the Sunday-school established once more.

The enthusiastic sportsmen in town are anxiously awaiting the tenth of the month when the rabbitt law opens. A number of them have made the promise of a game supper to a number of their friends.

Thomas Reed, an old employe at Seeley's Mills, lies dangerously ill at his home near Murray Hill. Very little hopes are entertained of his recovery.

Ernest Clark, of Washington Valley, has rented the Hollingsworth cottage on Front street. He will move into the village next week.

Mrs. Wm. Gere, of Bartle avenue, has been spending a few days with her parents, Mr. and Mrs. Brockway, in Brooklyn.

Miss Kizzie Naegle, of Plainfield, has been spending a few days with her cousin, Miss Helen Whitenack.

Mrs. William S. Terry, of Netherwood, spent yesterday with her mother, Mrs. James Buckley.

Twilight Council, Jr. O. U. A. M., held an interesting meeting in their rooms last evening.

Announcement.

To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Cream Balm in liquid form, which will be known as Ely's Liquid Cream Balm. Price including the spraying tube is 75 cts. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation. Cream Balm is quickly absorbed by the membrane and does not dry up the secretions but changes them to a natural and healthy character. Ely Brothers, 56 Warren St., N. Y.

WESTFIELD.

(Special Correspondence to The Daily Press.)

Westfield, Nov. 4.—From what is being said by the Republicans of the township it would seem that Chester M. Smith, the Westfield nominee on the Republican ticket for Assemblyman, would be cut very badly on election day. Mr. Smith is far from a prominent or popular man in this town. If he does not run better throughout the county than he does in his home township he will not be elected.

Everyone is invited to attend the union service under the auspices of the W. C. T. U. in the Presbyterian church Sunday night. The address of the evening will be delivered by Miss Belle Kearney, a southern speaker, who has won fame throughout the country.

The Democrats of Westfield have rented a room in the Standard building and will hold nightly meetings until election day. The party candidates and speakers of note will be on hand to interest the visitors to the headquarters.

THE AMUSEMENT WORLD

CURRENT ATTRACTIONS THAT PLAINFIELDERS MAY WITNESS.

Local and Metropolitan Performances That Will Please Those Who Delight in the Art of Thespis and Mimic World.

The attraction billed for Music Hall Monday night is a strong one. It is after an absence of seven years that Go-Won Go Mohawk, the only American Indian actress, comes to this city to present to the theatre-going public her famous picturesque, sensational drama, "Wep Ton-No Mah, The Indian Mail-Carrier." The author of this play is Miss Mohawk herself. Let it not be imagined that Go-Won-Go-Mohawk is some half-savage type of an Indian, given to guttural gruntings and incoherent jabberings, and bouncing upon the stage with more vigor than grace or intelligence. She is a lithe, graceful, striking woman, full of sinuous and intellectual to a high degree, both by inherent qualities and educational training. Miss Mohawk is supported by a company of artists whose names are known both far and wide.

* * * * *

"The Gunner's Mate," which will be seen at Music Hall next Thursday night, is a naval drama, dealing with the new American navy. It is not a war play. There is no conflict. There are no scenes of battle, no shots fired. It is a play of human interest, with an abundance of good, clean comedy to relieve the tension of its dramatic story, a story full of episodes, that will appeal to every heart The play depicts with absolute correctness the life of our gallant sailors on land and at sea. The scenes on shipboard are faithful reproductions of photographs taken on board of the U S. S. New York. The production will be on an elaborate scale. The play is in four acts and five scenes. The first act is in a sailors' boarding house in New York city. The second act shows the gun deck of the U. S. cruiser New York in New York harbor. The first scene of the third act transpires in the forecastle, while the ship is at sea, and shows the life of our sailors while off duty. Some are mending their clothes others writing to the loved ones at home, while others are skylarking, dancing, boxing and enjoying themselves generally. In this scene specialties are introduced, and the play as a whole is one of surpassing interest.

DEMOCRATIC LEADERS MEET

William B. Gourley and Robert Davis Put Their Heads Together and Won't Tell Why.

William B. Gourley, chairman of the New Jersey Democratic State committee, paid a visit yesterday to Robert Davis, the leader of the Hudson county Democracy.

The two leaders were closeted together for several hours, and when they reappeared refused to talk of their conference. It is said that Mr. Davis wishes to effect a reconciliation between Mr. Gourley and Representative William D. Daly, of Hoboken.

Mr. Gourley said the outlook for the Democrats was most encouraging, and expected they would elect five out of the eight Senators to be chosen next week.

Volcanic Eruptions

Are grand, but Skin Eruptions rob life of joy. Bucklen's Arnica Salve, cures them; also Old, Running and Fever Sores, Ulcers, Boils, Felons, Corns, Warts, Cuts, Bruises, Burns, Scalds, Chapped hands, Chilblains. Best Pile Cure on earth. Drives out Pains and Aches. Only 25 cts. a box. Cure guaranteed. Sold by L. W. Randolph, Druggist.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

James Fields, of Somerville, was a welcome visitor in this city yesterday.

Mrs. J. R. Randolph, of Summit, is visiting Mr. and Mrs. J. T. Green, of Stone street.

George Firstbrook, of West Fifth street, has returned from a western business trip.

Miss Bowers, of Basking Ridge, has returned home after a visit with borough relatives.

Miss Ada Wagoner, of West Fourth street, has been entertaining company from out of town.

The Misses DeMott, of Somerset street, have been entertaining company from Bound Brook.

Miss Backer, of Hunterdon county, who has been visiting Plainfield relatives, has returned home.

Mrs. Harry W. Hull, of New York, is visiting her mother, Mrs. W. H. Slape, of East Fifth street.

Mr. Bristol, of Northfield, Mass., who has been visiting his son in this city, has returned to his home.

Mr. and Mrs. Sindall, of New York, are spending a few days with Mrs. I. C. VanNatta, of LaGrande avenue.

Edward Ryder and family, of Central avenue, will soon take up their residence in New York for the winter.

William Jones, the porter at Randolph's pharmacy, returned to work today after enjoying his annual vacation.

Miss Lounsbury, of Plainfield avenue, will entertain the junior class of the High School at her home Monday evening.

For the present Mr. and Mrs. Erwin Y. Neighbor are residing with Mr. Neighbor's grandmother on East Front street.

Rev. James Demarest, D. D., of Brooklyn, will preach morning and evening tomorrow in Trinity Reformed church.

Mr. Ball, of West Front street, expects to leave Plainfield next month for Florida, where he will reside permanently with his son.

The marriage of Miss Corrinne Young, of Central avenue, and Harry Auten, of Perth Amboy, will take place next week Wednesday.

Miss Nettie Beeching, of Washingtonville, who has been visiting several places in the State in the interest of Sunday school work, has returned home.

Mr. and Mrs. Arthur Moore, who were recently married, and who are boarding for the present on Orchard place, expect to move to New Brunswick in the near future.

George Cornwell, of Brooklyn, a former resident and at one time superintendent of the First Methodist church Sunday-school, has been visiting E. C Horne, of Willow avenue, and other friends in this city.

Thomas McDonald, of the borough, who is a senior in the Hackettstown Institute, expects to go to college next year, and is therefore very anxious to continue his studies. He, together with the other members of the senior class, are hoping that arrangements for continuing study will soon be made.

CHEAPER TELEPHONE RATE.

Chandler W. Riker Says They Will Come Through New Combines Which His Company Will Join.

Chandler W. Riker, counsel for the Newark Telephone Company, and also president of the Plainfield Street Railway Company, says that negotiations are pending for the transfer of the company to the big telephone combination recently organized, and which is capitalized at $50,000,000.

Mr. Riker said all independent companies were going into the big concern, which has, after a hard struggle, succeeded in getting permission to run its wires into New York city in competition with the Bell Telephone Company and the New York and New Jersey Telephone Company. The new combination will make a reduction of 50 per cent. in telephone rates to all customers, whether regular or transient.

How's This?

We offer One Hundred Dollars Reward for any case of catarrh that can not be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Props., Toledo, O.

—Luther H. Tappan, auctioneer, will Wednesday, Nov. 15th, sell at public auction the effects of the late Ellis A Campbell. The sale will take place at the late residence on Park avenue.

GUNNING SEASON OPENS.

Sportsmen are on the Move Now in Anticipation of Rabbit Season.

According to the New Jersey law, the open season for woodcock, partridge or grouse is now in its height Wild duck, wild goose and brant are also to be shot legally at the present time. The season for quail and rabbits, or hare, that probably affords nine-tenths of the shooting in this State, will open three days after election, on the 10th instant. At the same time the second season for gray, black or fox squirrels will open and continue open for one month. The quail and rabbit season will remain open until the first of January. No woodcock must be shot after the 10th of December. This applies also to partridge and grouse. No one may shoot a deer or ring-neck pheasant until 1902

In south Jersey the report is that rabbits were never known to be as plentiful as they are this season, but the gunners must wait for nine days before they can go to the hunt.

The duck season on the Chesapeake is also about to open, and the fly of ducks there is reported to be unusually large Gunning points and boats suitable for duck hunting are said to be bringing the highest kind of prices—in fact, the highest known to the sport.

New Office of the Lehigh Valley Railroad.

Frank Rowley, druggist, 218 West Front street, Plainfield, has been appointed by the Lehigh Valley Railroad, city ticket agent of that company. The office is supplied with a full line of local and through tickets to Geneva, Rochester, Buffalo, Niagara Falls, Toronto, Chicago and the West via the Lehigh Valley Railroad; and a stage line has been established, to run from Plainfield to South Plainfield to connect with through trains. The telephone number of the new city ticket office is 112 B. Information as to rates of fare, time of trains, etc., will be cheerfully given over the telephone, or personally at the office of Mr. Rowley, on request. THE VANARSDALE STORE

We are showing a large and reliable line of $3 shoes for men and women, made expressly to our order; shoes that can be depended upon and shoes that will cost you more money at some stores.

VAN ARSDALE,

127 East Front Street.

Lokal-Nachrichten aus der alten Heimath.

Provinz Westfalen.

Bochum. Der seit 1882 hier wirkende Oberrealschuldirektor Liebhold trat neulich in den Ruhestand. Unter seiner umsichtigen Führung hat sich die von ihm geleitete Anstalt von einer sechsklassigen höheren Bürgerschule mit kaum 100 Schülern zu einer Oberrealschule mit fast 500 Schülern entwickelt. Die ehemaligen Schüler der Anstalt hatten zu Ehren ihres scheidenden Lehrers einen großartigen Fackelzug veranstaltet, an den sich ein Festmahl schloß.

Dortmund. Laut Mittheilung des Oberpräsidenten erfolgte eine auf drei Monate festgesetzte Verkehrssperre des Dortmund-Ems-Kanals, an dem Undichtigkeiten beseitigt werden sollen, vom 20. Dezember ab.

Iserlohn. Unter dem Verdacht, einen Giftmordversuch an ihrem Vater verübt zu haben, sind eine hiesige geschiedene Ehefrau Wiggers und die Ehefrau Neideck verhaftet worden. Die That soll geschehen sein, um in den Besitz einer von der Mutter herrührenden Erbschaft von 20,000 Mark zu gelangen.

Sachsen.

Dresden. Kommerzienrath Hopfke, der frühere Schatzmeister des Albert-Vereins, eines unter dem Protektorat der Königin von Sachsen stehenden Wohlthätigkeitsvereins, wurde wegen Unterschlagung von 250,000 Mark Vereinsgeldern zu 4 Jahren 9 Monaten Gefängniß verurtheilt.

Bautzen. In Schmiedefeld erhängte sich der Maurer Hermann Winter, als er, von der Feldarbeit heimkehrend, seine beiden Kinder und seine Ehefrau erhängt vorfand.

Chemnitz. Der ehemalige Rittergutsbesitzer Oskar Albert Möbius aus Mittelfrohna hat seine nächsten Verwandten um etwa 15,000 Mark betrogen. Er wurde dieserhalb vom hiesigen Landgericht zu einem Jahr drei Monaten Gefängniß und drei Jahren Ehrverlust verurtheilt und sofort in Haft genommen.—Das hiesige Landgericht hat den aus einem erzgebirgischen Dorfe stammenden Arbeiter J. Thomä wegen Majestätsbeleidigung zu einem Jahr drei Monaten Gefängniß verurtheilt.

Leipzig. Das beste Geschäft bei den jüngsten Landtagswahlen dürfte der „Deutsche Patriotenbund für die Errichtung des Völkerschlachtdenkmals" gemacht haben, denn als die Wahlmänner den klingenden Lohn ihrer Thätigkeit in Gestalt eines 5-Markstückes eingeheimst hatten, wurden sie „mit sanfter Gewalt" unter Ueberreichung einer bereits geschriebenen Quittung am Ausgange des Lokales „gebeten," die erhaltenen 5 Mark auf dem Altare des Völkerschlachtdenkmals wieder zu opfern. Es gab zwar überraschte Gesichter, aber —herausgerückt wurden die 5-Markstücke doch.

Zittau. Die Dampfziegelei und Thonwaarenfabrik von Hotop in Großporitzsch ist mit Material und Maschinen niedergebrannt; 80 Arbeiter sind brodlos geworden.

Zwickau. Dieser Tage ist bei Kirchberg die Maschine und der Gepäckwagen eines Personenzuges entgleist und umgestürzt. Nur der Führer und der Heizer wurden beim Abspringen leicht verletzt.

Thüringische Staaten.

Altenburg. Der im 94. Lebensjahre stehende Pfarrer der Gemeinde Rasephas, Dr. phil. und theol. Julius Löbe, kann jetzt auf eine 60jährige seelsorgerische Thätigkeit in genannter Gemeinde zurückblicken. Am 8. Oktober 1839 wurde Löbe Nachfolger des Pfarrers Seidel, der seit 1794 Pfarrer in Rasephas war. Löbe konnte bereits im Jahre 1881 sein goldenes Jubiläum als Dr. phil. feiern. Aus diesem Anlaß wurde er von der theologischen Fakultät der Universität Jena zum Ehrendoktor promovirt.

Eisenach. Das neuerbaute „Sophienbad," eine der schönsten deutschen Schwimm- und Badeanstalten, ist in Gegenwart des Großherzogs und Erbgroßherzogs und unter Theilnahme einer sehr ansehnlichen Versammlung feierlich eingeweiht worden. Das Sophienbad ist eine Musteranstalt, wie eine solche in Thüringen noch nicht bestand; ihre Entstehung ist in erster Reihe dem Aerzteverein und an deren Spitze den Aerzten Dr. Wedemann und Dr. Brauns zu danken. Der Bau hat 360,000 Mark gekostet.

Jena. Professor Ernst Häckel von hier, der Prophet des Darvinismus in Deutschland, hat in Rom bei einem Spazierritt durch Sturz vom Rücken eines Maulthieres sich ernstliche Verletzungen zugezogen.

Schleiz. Auf dem nahen Steinertsberge wird eine Bismarcksäule errichtet; die fürstliche Regierung hat hierzu einen herrlichen Platz von 25 Ar kostenlos hergegeben. Die Säule wird weit hinein nach Sachsen, Bayern und Thüringen sichtbar sein.

FOR LOCKJAW.

Remarkable Results of Trials of Dr. Wood's Discovery.

Whenever medical science achieves a triumph over disease the world stops for awhile to admire and wonder at it. Just now the discovery of a remedy for tetanus, commonly called lockjaw, made by Dr. D. Flavel Woods, the widely known physician of Philadelphia, is attracting unusual attention among leading physicians. In a recent article, which apeared in the Medical Journal, Dr. Woods made the following statement:

"Having seen many cases of this dreadful nervous disorder treated in many different ways in hospitals and private practice, I cite this case and its treatment as the only one I have ever seen recover."

As lockjaw has generally been regarded as incurable, the treatment used by Dr. Woods has been tried in a number of cases since with astonishing results. The original case cured by Dr. Woods, he says, was a twelve-year-old boy in Philadelphia. The lad was in such a serious condition that his mother would not permit his going to a hospital, preferring, as she said, that he remain and "die at home."

The following is what Dr. Woods tells of the treatment he used, after stating that the lad's foot had been injured:

"The place of injury was freely opened and a dark, tarry substance (altered blood) was scraped out. The foot was then soaked in a weak solution of carbolic acid and warm water for about half an hour. As it was impossible for him to swallow, 10 minims of a 10 per cent. solution of carbolic acid was used hypodermically; 15 minutes after the first 20 minims were injected; 15 minutes after the second, 30 minims were used. Thirty minims were continued throughout the day every half hour, with half a grain of cannabis indica; at night the cannabis indica was discontinued, the pupils of his eyes at this time being very contracted. The carbolic acid solution was administered through the night.

"On the afternoon of the third day he slept for two hours, seemed refreshed and said he felt better. From this time he continued to improve, but the rigidity did not leave him for three weeks after the attack.

"From this case I learn that carbolic acid in tetanus is effective only in large and heroic doses. Under these circumstances it is surprising how much the system will bear. I believe that carbolic acid acts as an antitoxin, and is much more reliable than any serum, which I have seen tried. If given boldly as early as possible, so that the system may be quickly and completely saturated, its antiseptic influence will be manifest on the blood, and I believe that there is great hope of this agent becoming a great boon to humanity in the cure of this distressing and alarming malady. Shortly after convalescence of this boy, I learned through Capt. Wolcott, Civil Engineer of the United States Navy at League Island, of a case of tetanus in one of their horses cured by the use of carbolic acid on my suggestion of that treatment."

It has been learned that the carbolic acid treatment has been used often in Philadelphia and some western cities with very great success. Army surgeons have taken it up as the first known remedy to cure lockjaw among horses.

Young Alfred Vanderbilt.

Alfred Gwynne Vanderbilt the new head of the house of Vanderbilts has just attained his majority. He graduated from Yale University last June, and is the second living son of the late Cornelius Vanderbilt. The eldest son died while an undergraduate at Yale.

Physically Mr. Vanderbilt is about five feet eight inches tall and weighs about 150 pounds. He is well built. His complexion is dark and rather pale. His features strongly resemble those of his father, and he possesses points of resemblance in expression to his mother, who was Miss Gwynne, of Cincinnati.

While in college Mr. Vanderbilt had, it is said, formed an attachment which society believes will soon result in a marriage. Miss Elsie French, daughter of the late Francis Ormande French, president of the Manhattan Trust Company, is the young lady whom everybody believes will be Mrs. Alfred Gwynne Vanderbilt. She has a fortune in her own right of more than $5,000,000. She is also very pretty.

A Photographic Feat.

Probably the longest solar specrum achieved at a single operation is one taken by Sir Norman Lockyer, showing the lock spectrum of iron, with a comparison spectrum of the sun thirty inches long. This was taken with the large concave Rowland grating which Sir Norman now uses for solar spectroscopic photographs; but, owing to the focal plane of this grating being considerably curved it is impossible to get a sharp photograph of the entire spectrum on a glass plate as only about eighteen or twenty inches of the spectrum can be brought into focus on the same plane.

Black Diamonds.

The only place where "black diamonds" are found is in the Brazilian Province of Bahia. They are usually found in river beds and brought up by divers. Others are obtained by tunneling mountains. The largest specimen ever found was worth $20,000.

How to Tell a Lady—in Boston.

Hicks—No gentleman will swear in the presence of a lady.

Wicks—No; but if a lady happens to make her appearance when a man is in the midst of a swearing fit, she is no lady if she expects him to leave off at once.—Boston Transcript.

The Memory.

Scientists have discovered that the memory is stronger in summer than in winter. Among the worst foes of the memory are too much food, too much physical exercise, and, strangely enough, too much education.

A Load of Fans.

It is no unusual thing for a vessel plying between Japan and London, to carry 1,000,000 fans as a single item of its cargo.

THE NEW FIGURE.

No Longer Stylish to Have a Slender Waist.

The new figure is built on the lines of the perfection of the Venus de Milo. You must be one size from the bust to the abdomen in front. You can imagine the size some women's waists will be. It is not modish to have a wasplike waist nowadays, and therefore the wasplike waist must go, like so many other tabooed things in this world of ours.

The new female figure is straight in front curving in at the sides over the hips. Now the question comes in, how are you going to make a figure straight which has been curving ever since corsets were worn?

The conundrum is solved in this fashion. Some women who curve in very much wear pads over the stomach, making themselves solid from the bust to the abdomen, taking away any semblance of a curve in front, and resembling more than anything else, pictures of fashion plates in Queen Elizabeth's time, but as usual, presenting a great improvement over the original.

These new, straight front corsets, in order to obtain the proper shape, have done away with the short, bust gore, everything being straight in front and long over the abdomen. From hygienic standpoints, this must certainly be more healthful than corsets made to compress the stomach and produce the curve which has now gone out of fashion.

For slender figures the same lines are carried out, but the corset is made shorter on the hips. Even the little empire corsets, which are shown for young girls, have the straight fronts. Of course all the shops carry a stock of corsets built on the old time lines, but these are generally of a cheaper grade. All the expensive, well-made corsets are fashioned on the new model.

The ever popular ribbon corset is shown in three sizes, and in pale blue, pink, violet, black and white. These are very dainty for a slim, girlish figure, but no earthly use to a stout person. As it is necessary to be full breasted, and so many women sink in under the arms, instead of using pads which everyone will acknowledge unhealthy, the bust of the corset is filled in with many ruffles of white gros-grain ribbon, and the experiment has proved most satisfactory.

There is also shown a corset for stout people, made of silk rubber webbing, stoutly boned, and which is guaranteed to keep the figure snug and at the same time permit free breathing by the wearer.

And, for a last word, you must wear your garters fastened to the front of the corset. They come made specially for that purpose, and the corset is arranged for their attachment a la mode.

Miss Celia Miles.

The story of the engagement of Miss Celia Sherman Miles, the only daughter of General Nelson A. Miles, by Captain Samuel Reber, U. S. A., is one of a man's devotion to the ideal of his childhood and youth. Captain Reber is the son of Judge Reber, of St. Louis. His mother was, before her marriage, Miss Sherman, of Ohio, first cousin of Mrs. Miles. The betrothed pair are, therefore, second cousins,

(Miss Celia Miles.)

once removed. It is seldom that a betrothal meets such unqualified approval as General and Mrs. Miles have shown to that of their daughter. Miss Miles is "divinely tall and divinely fair."

A Chance For Plain Girls.

"This is the era of the plain girl in business," said a leading milliner, "and the girl whose beauty is so insistent that none may deny it has to stand aside for her plainer sisters. You will find that is the case in nearly every business establishment in the big towns. Not that there is any aversion to moderate beauty in the employes—that is often to be desired; but pronounced loveliness is entirely too attractive, both to its possessor and contemplator, to facilitate the interests of employers. Go into any large milliner's and you will see scores of girls behind the counter who are quite plain, although not positively ugly. You will seldom find one whose charm of face or grace of form is so near to perfection as to hold you spellbound."

A Long-Haired Woman.

A woman's glory is her hair, and that of Mercedes Lopez, a Mexican, is said to be unique. Mercedes' height is 5 feet, and her hair, which is said to be the longest in the world, trails on the ground 4 feet 8 inches. It is so thick that she can wrap it around herself till she is completely hidden by it. Mercedes is the wife of a poor shepherd, and so fast does her hair grow that she is able to sell large tresses of it to hair dealers every few weeks.

ORIGIN OF MOVABLE TYPE

The Honor is Now Ascribed to the Coreans, in the Fifteenth Century.

Even Corea can boast of her share of the great inventions of the world, though, singularly enough, neither the world at large nor she herself, except in one case, has benefited permanently by the inventions.

Corea was the first of all peoples to originate movable metal type. For hundreds of years the country and the King had been under the domination of the Buddhist priesthood, and the land was suffering the extremes of sacredotalism. Every third son must by law become a monk—in other words, an unproductive member of society; the killing of a cow was a greater crime than the killing of a man. The people's houses were being seized for the erection of worse than useless monasteries.

At last the General Yi T'a-jo, whom a dotard King had sent upon the insane mission of invading China, turned to his soldiers and said: "Shall we return to the capital and apply ourselves to the cleansing of the unspeakable corruption of our country?" He was applauded to the echo, and, like Julius Caesar, but with better purpose, he recrossed the Yalu, Corea's Rubicon, marched back upon the capital, and sealed the death warrant of sacredotalism.

No sooner had the new dynasty been founded in 1492 than literature received a new impetus through the revival of Confucianism and the study of the ancient classics. The monasteries, which had become the repositories of the scholarship of the land, were filled with the unintelligible jargon of Buddhism, and literature was almost wholly confined to its ritual. But now schools were being established, books were being demanded, and students were calling impatiently for the time-honored classics.

Thus it was that in the reign of King Tajong a font of metal type was cast, the first the world had ever seen. The art of Xylography had existed for centuries, and clay type had also been used in Japan, but Corea was the first to discern the need of the more permanent and durable form of metal type; and so well did she carry out her plan, that the type then cast has come down to the present day practically unimpaired.

Each type was built on the principle of the arch, being cylindrically concave on the under side. The purpose of this was to secure a firmer hold upon the bed of beeswax which constituted the "form," technically so called. A shallow tray was filled with wax, and the type, after being firmly imbedded in it, were "planed" in the ordinary manner.

The printer, sitting cross-legged before it, applied liquid ink by means of a soft brush, after which a sheet of paper was lightly laid upon the form. A piece of felt was brushed softly across the porus paper with the right hand, and the left removed the printed page. In this way it was possible to strike off some 1,5000 impressions in a day.—Harper's Magazine.

Hat Tricks by M. P.'s.

That members of parliament should *be allowed to* wear their hats in the *house has often* surprised foreign visitors to the historic chamber.

It is lucky for a great many members that the rules of debate, while demanding the wearing of a hat, make no provisions as to the character the headgear shall take. The obvious result is that the variety of parliamentary hats is wonderful and vast.

But it is not so much the character of parliamentary hats as the manner in which they are worn that is of interest. Some truly marvelous balancing feats are performed with hats during every session.

A. J. Balfour and the Duke of Devonshire can balance their hats in the bridge of their noses as if they had been weaned practicing the feat. The Duke of Devonshire is especially clever in this way, and it is very difficult to say whether he is not dozing peacefully behind the ample brim tilted over his nose.

It has been said that the leader of the house of commons deliberately sets a trap for his adversaries by pretending to sleep in the shadow of his hat brim, so they may fall into error and he can pounce upon them.

Another wonderful trick is that performed by Tim Healy, who balances the front brim of his hat upon the bridge of his pincenez in a way few men could accomplish the task. It is one of the unmistakable signs that trouble is brewing in the immediate neighborhood of Mr. Healy's seat. It practically amounts to an ultimatum to the government, one which the party whips must not ignore.—London Mail.

Saved From Bear by Soap Powder.

Carl Livernole, a German peddler, had a lively encounter with a small brown bear in the woods south of Brackney, Pa., a few days ago, in which, for the first time in history, a man's life was saved by the use of soap powder. Last winter bear tracks were seen in the neighborhood, but hunters failed to discover bruin's whereabouts. Livernole was going along the dug road when there was a crashing in the bushes beside the path, and a brown bear plunged through the brush and rearing on his hind legs stared at the peddler.

Flight was his first thought, but his legs are stiffened with rheumatism, and he realized he would take second money in a race with bruin. The bear blinked savagely and advanced slowly. Quickly unstrapping his pack Livernole took out several packages of soap powder, and opening them dashed the contents into bruin's face. For a moment the act surprised his bearship. Then he let out a howl of rage and began pawing the air and trying to rub his eyes. Taking advantage of this occupation Livernole left his pack and plunged into the brush and escaped. Later he obtained a wagon and drove to the scene, recovering his goods. He could see where the animal had rolled on the ground in agony, but did not attempt to track him to his den.

Cheaper to Let It Go

Client—This bill of yours is exorbitant. There are several items in it that I don't understand at all.

Lawyer—I am perfectly willing to explain it, but the explanation will cost you $10.—New York Journal.

SILENT BILL STROTHERS

Not All Cowboys Waste Their Breath in Yelling or Talking.

"Don't you believe that all the cowboys of the West waste their breath in yelling or talking," said the Major as he was telling of life on a ranch. "I've got a man named Bill Strothers who hasn't wasted a word since he was old enough to speak. Men who have thummed with him have told me that he would go three or four days without uttering a word. I'd been trying to find him for a year. One day I heard that he was over at Red Hill, and I rode over and found him sitting in the shade of a tree. He nodded to me as I got out of the saddle, and I sat down beside him and said:

"'Well, Bill, I'll give you $50 a month to come over to the C. P. ranch. I've got a dozen herders who need a hard boss for a few months. I suppose you've got some private affairs to straighten up, and I'll give you a week to do it in. What do you say?'

"I said all that and perhaps more. Bill gave me a look of reproach, and slowly got up and mounted his cayuse. I thought I'd lost him, and in some anxiety I asked where he was going.

"'Ranch, of course,' he grudgingly replied, and he rode alongside of me for thirteen miles without opening his mouth again.

"About eight months after he came to me I took a two days' ride in his company. In those two days I uttered just ten words, as duly recorded in my notebook, and those ten words were in regard to the body of a man we found hanging to a limb. I was mighty lonesome for a talk, I can tell you, but I started out with the intention to preserve my dignity. Bill muttered a 'Humph!' over the corpse, but let out no word. When we got back home I prided myself that I had won a medal, but in the midst of my self-congratulations in walks old Bill and says:

"'Major, I'm goin'!'

"'But what's the trouble?' I asked. 'Anything wrong with the work?'

"He shook his head.

"'Want a raise of wages?'

"He shook it again.

"'You are not taking up a herd of your own?'

"There was a third shake, and, drawing a long breath, as if about to do some desperate thing, Bill replied:

"'See, hyar, Major, I was out with you for two days and you talked too darn much!'

"I promised to better my record," laughed the Major, "and I'm sure I've done it. I've spoken to him only twice in the last eleven years, and I know he thinks I ought to be President of the United States."

The New Honey.

Honey is enjoying renewed favor. Men of wealth and leisure are testing and experimenting with the different kinds of honey, and wrinkling their brows over the problem of producing what seems to them the most desirable flavor during the coming summer.

For the bee is no longer allowed to pursue his own sweet peregrinations and sip of the nectar of flowers wherever he chooses. Honey made in this promiscuous way is much too ordinary. His actions are restricted and guided. As a result, such honey as never was tasted before is tickling the palates of many. If it is the white sweet clover flavor that has gained favor with the epicure, he goes systematically to work to produce it; and plants a large plot of ground, perhaps half an acre, with this particular kind of clover. He has it carefully kept from weeds, or any other variety of clover that might endeavor to find a footing there. The whole bed is inclosed and roofed with a fine wire netting, and the beehives are then placed within the inclosure. From the bee's life, therefore, the spice of variety is plucked, and try as he will he can produce none other than white sweet clover honey. In flavor it is very delicate and almost white in color.

Yellow sweet clover honey is preferred by others. The flavor is slightly stronger than that made from the white variety and its color is a deep yellow. Then there is the honey that is made from thistles and milkweeds; it is amusing to hear producers of such flavors tell of their tribulations in making these wayward plants grow within their restriction. Some of the wild flower honey is almost black in color and the flavor is certainly very different from what it was in the days when honey was honey and that fact settled the question. It is almost verging on the indiscreet to mention buckwheat honey nowadays, although it is still acknowledged to have wonderful "staying properties."

The Quest of Inertia.

"Pete," exclaimed Meandering Mike, "I'm gittin' res'less."

"Don't do it. Take t'ings easy while ye kin."

"Ever since I dropped into dat lecture hall last winter to git warm I've had somet'in on me mind an' I can't git it loose. It rankles in me conscience an' overwhelms me wit' a re'lizin' sense of de resistlessness of fate. Dis life ain't nottin' but one hardluck story any way you take it. But a man of brains kin sometimes git de best of de situation."

"Dat lecture mus' of sunk into yer system deep."

"It did. But I've got a scheme dat'll help out. De nex' time we takes a freight train, we'll take one goin' east."

"What fur?"

"Did you ever hear of velocity?"

"Sure. Dey's got t'ree wheels an de kinchens tries to run over you wit' 'em."

"Dats close to, but not next. Velocity is what de world moves wit'. It's so many miles a second. We're goin' it, all de time; shovin' from west to east, an' when you t'inks ye're restin' it's only another delusion an' a snare. You can't stop movin'."

"Well," asked Plodding Pete, discontentedly, "what 're you goin' to do about it?"

"Jes' what I told ye. De world's movin' from west to east. De only chance to neutralize de swiftness is to take a train goin' from east to west. I dunno as we kin hope for any actual repose, but it's de only chance I see fur comin' anywhere near it."

"It's a bright idea, but it won't do."

"Why not?"

"It only work one way. We can't keep on ridin' west fur ever. An' t'ink of de double exertion when we have to turn around an' come de other way."—Washington Star.

ENNUI AND ITS CAUSES.

The Great Spirit of Unrest Lurks Everywhere.

Ennui is the great axle of life around which everything revolves. Agnes Repplier, that easiest and most artistic rippler of essays, has spun out long, delightful pages with this delicate subject as theme, faultlessly, in her own quaint style, wording over the subtle pivot of action, but in the end she does not "arrive," as the French would put it. The reader has been entertained for an hour with the charms of a string of pearls, yet lays aside the book murmuring to the world, as did the King of France, "Vien laisses nous enouyer ensemble."

This fine malady of boredom is a common disease which people have without knowing it. In the cottage it is expressed every morning in the query of, "Well, what we got ter do ter-day?" It may be scrubbing, it may be house-cleaning, assorting scraps, running next door for a bit of gossip, but it will be something.

The great spirit of unrest lurks about the dish rag as well as the queen's lace handkerchief.

In the mansion the daily question is, "What's on the tapis? and what's going on for to-day?" The very children come with the eternal cry of "Mamma, what shall we do to amuse ourselves?" And it is this pitiful plaint that drives the crowd on, that sends the women down town to rant the dusty streets simply because the hour was empty and they could not fill it from their own brains.

It is the whip of boredom that forces the men to nightly haunt the clubs, the cardrooms, the glary Bohemian places of rendezvous—anything—everything rather than stay at home and draw happiness from the cultivation of their own souls. Ennui is the great clique maker of society, the great fad maker and club organizer, to all of which men and women may fly in desperation singing the song of the King of France. It is this subtle unrest that fills the world's beautiful temples of fine endeavors with busy fools, whose jangling bells would drown the music of the masters. Oh, ennui, under thy spur, what donkeys prance and gallop around the mighty coliseum; what precious hours, like jewels, are cast to the wind!

Caught empty-handed in an idle hour with only self as a companion, the first impulse is to get out of the house and run away, to be up and on the go and leave the leaden ghosts behind. When there is no definite place or pastime in view, the streets are the last resort. Look at the dozens of men loafing around the crowded shopping corners, the dozens of women walking aimlessly from one store to another. What do they do it for? Because their brains are empty, they cannot fill the vacant golden settings of time from the store of their own resources, but must go out on the highways and pack and gorm themselves with the quick, tinsel, trash excitement of the streets.—New Orleans Times-Democrat.

Old Pennsylvania Woodsmen

One of the most interesting and picturesque types known to backwoods life, the old-time lumberman and woodchopper of the Alleghanies, is now almost a thing of the past. At the present day the number of men engaged in that healthful but arduous occupation is small compared with the thousands that labored in the fine forests of a quarter of a century ago. The fine forests of Pennsylvania are themselves only a memory.

The genuine old-time woodsman of the Alleghany spread of waters cannot be mistaken. He will be seen in midwinter always wearing a fur cap, which is, more than likely, some long-preserved trophy of his own rifle or trap. He wears no coat or waistcoat, his body and chest being covered by a heavy flannel or woollen shirt—not the gorgeously colored garments of the later day lumbermen, but good, old-fashioned stuff, such as his father used to wear. Trousers of some warm woollen goods cover his legs. The new order of woodsmen wear their trousers tucked into a long pair of stockings. These stockings are often as gorgeous in varied color as the shirt or jacket he affects, and their tops are drawn snug to the leg by a puckering string, the ends of the string sometimes ending in fancy tassels. They wear "gum" shoes. The old-time woodsman's father wore cowhide boots, well greased with tallow and with no stockings between their leather and his feet; so his sons, or the most of them, wear cowhide boots, greased with tallow, and no stockings, and declare that thus clad their feet are kept warmer than by the bundling of heavy stockings. The old-timer will defy any one to remember an instance of any one's feet ever having been frosted when dressed on the cowhide boot, no stocking plan. These fast disappearing specimens of the days "when lumberin' was lumberin' and not playin' circus" also scorn suspenders, or "galluses," as they call them.

"A feller can't have his shoulders all clawed up if he wants to swing an axe or pull a raft oar," is the rule of these forest craftsmen.

Clad thus the woodsman is ready for a shooting match, a dogfight, a bear hunt, a log chopping, or a mourner meeting. The mourner meeting is the backwoods revival, conducted usually by some strapping, lusty-lunged preacher, and generally at the district school-house. Everybody within a circuit of five or six miles attends the mourner meetings, and frequently a majority of the congregation join the mourners before the revival is over. But the steadfastness of the backwoods convert is evidently not to be depended upon, for mourners of one winter are to a great extent the mourners of the next. This doesn't seem to be looked upon as anything to be unfavorably commented upon; on the contrary some regard it as a very commendable action, as witness the boast of one old-time woodsman:

"I stand high in this here deestrict and I ought to. I been a mourner ev'ry winter at the mourner meetin's fer better'n forty year."

As a rule these untutored woodsmen are honest and generous, although always boisterous, and it is to be regretted that they are being replaced by an element so different in all respects, for to their sturdy and aggressive character is due, more than to any one thing, the place western Pennsylvania enjoys in the estimation of the entire country.

989

SOME MEN THINK

That they are doing their duty by providing bread for to-day. But how about the future? Is that provided for by LIFE INSURANCE?

SPORTING.

GOLF

This week will end the competition that has aroused such general interest among the members of the Park Golf Club this summer. The contest for the Mrs. C. W. McCutchen cup closes this afternoon. The contest began in June and has been continued every Saturday afternoon since. The result has been more than satisfactory. A large number of members of the club have competed and taken a decided interest in the event. Not only have the younger players tried for the cup but the older set have competed and many have made a very good showing for the trophy. The cup was given with the idea of sustaining interest in the club and it has succeeded admirably. It is to be hoped by all lovers of the sport that a similar contest will be started early next year.

It is a rather regretable fact that there have been comparatively few of the ladies of the Park Golf Club who have taken any active interest in the royal game. While there are many young women of the city and borough who play golf, most of them belong to the Hillside Club. To encourage the sport among the young women of the club, the Buttfield cup was offered at the same time that the McCutchen cup was given. Only three entries have taken any part in the contest during the summer, although there are many in the club who might have gone into the game and found pleasure and profit there. The last of the season has shown more interest in the game among the associate members of the fair sex, and it is to be hoped that another season will see many more taking up the game on the Park Club links.

Mrs. Pond's Purchase.

Mrs. A. B. S. Pond, of Watchung avenue, has purchased a valuable piece of property on Evergreen avenue, Woodland Park, which has an elevation of one hundred feet above Plainfield proper. Plans are now out for a handsome residence to be erected thereon. During the past few months Mrs. Pond has been very successful in real estate and other operations.

No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50 cents at L. W. Randolph's Drug Store.

In a Nutshell:

Regular collections; intelligent washing; careful ironing, prompt deliveries. This makes a good laundry. People who have known us as dyers for thirty years back may not realize that we are doing the largest laundry business in New Jersey. Send us your bundle for a trail.

HILLIER & CO.,

Opposite Crosby & Hill's. 'Phone 851.

STOCKHOLDERS LOSE.

The Bank Receiver Hoped to Realize Something on Pidcock's Paper, but Evidently Cannot.

The stockholders of the defunct Somerset County Bank, of Somerville, have given up all hope of realizing on the $50,000 worth of former Congressman J. Nelson Pidcock's paper which the receiver for that institution has held for three years.

Mr. Pidcock recently filed an insolvency petition in the United States District Court at Trenton, in which he stated that he owes upwards of $350,000 and has absolutely nothing with which to meet the claims.

The late William Johnston, of Trenton, who was appointed receiver of the bank, investigated Pidcock's affairs and informed the stockholders that it was his belief that they would ultimately realize on the ex Congressman's paper. Pidcock's latest action blights the hopes of a number of people who had their savings invested in the bank stock.

QUOITS THE ATTRACTION.

Columbia Lodge, A. O. U. W., Combined Business With Pleasure.

The disagreeable weather last night did not prevent a good attendance at Columbia Lodge, A. O. U. W. After the business meeting, at which one application was received, some of the members indulged in the usual game of quoits. Messrs. Laing and Nash, who were pitted against Messrs. Forrestell and Compton, won by a score of 17 to 21. The contest between Leland and Compton against Woodruff and Forrestell, resulted in a victory for the latter team by a score of 20 to 21. Kenney and Woodruff then outpointed Laing and Forrestell by a score of 21 to 17. Single matches were played between Messrs. Nash, Compton and Forrestell, the former winning by scores of 20 to 21 and 21 and 19. Eugene M. Laing won the assessment prize.

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with Typhoid Fever, that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even set up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong I can say too much in it praise." This marvelous medicine is the surest and quickest cure in the world for all Throat and Lung Trouble. Regular size, 50 cents and $1.00. Trial bottles free at L. W. Randolph's Drug Store; every bottle guaranteed.

The Secret Of It.

"Why is it you so seldom have occasion to call in a doctor?" asked one acquaintance of another. "Because," was the reply, "I always employ one that understands his business." If you employ the lesson of this to the care of your clocks and watches, and will take them to Collier's for treatment, you will have occasion to congratulate yourself on the same result. 103 Park avenue.

—On account of the election Tuesday, the Rasores Club will postpone the next regular meeting until Nov. 14th. It will then meet at Mrs. Wm. D. W. Miller's, LaGrande avenue.

To Cure a Cough in One Day
To Cure a Cold in One Day
To Cure Sore Throat in One Day
To Cure Hoarseness in One Day

Take Cleveland's Lung Healer, 25c. Trial size free. If it fails to cure, your money will be refunded. T. S. Armstrong, the apothecary, corner Park and North avenue.

EXPERT TO INSPECT BOROUGH ACCOUNTS

[CONTINUED FROM PAGE 1.]

the laying of walks and when he does the street committee stands ready to proceed with the work.

These remarks were concurred in by the Mayor and other members, and it was finally agreed that Mr. Clark should see that a suitable ordinance is drafted by the Borough Council.

After the Council voted an appropriation of $15 for repairs on a Manning avenue house which is being rented by the borough, the Council adjourned. The $15 will be charged against the property.

DEMOCRATS WERE OUT DESPITE THE RAIN.

[CONTINUED FROM PAGE 1.]

measures designed for the benefit of the workingman. He appealed especially to the laboring men to support the Democratic ticket, the legislative candidates of which would use their influence and vote for fairer and better laws.

At this time Mr. Gardiner, another candidate for the Assembly, arrived at the clubhouse, and he was immediately introduced by Mr. Martine. Mr. Gardiner responded to the reception given him, and spoke briefly of the campaign and its issues, urging all Democrats to support the ticket enthusiastically.

Plainfield's representative on the ticket, John H. Hillman, the nominee for Senator, was then introduced and spoke at some length on the issues that were involved in the campaign and bearing on the office for which he was named. He scored the present Republican administration, and for the sake of the well-being of the State urged upon voters to put the Democrats in power.

Major Collins, one of the most popular of the Elizabeth leaders, followed with a talk that put the assemblage in an enthusiastic frame of mind. The Major told of the organization efforts in Elizabeth and congratulated the Plainfield Democrats on the fact that they were making similar efforts in an aggressive and apparently successful manner. He closed with the promise that if the Republicans of Plainfield and vicinity would hold down the big Republican majorities the Democrats of the city of Elizabeth would meet them at the city line with such a Democratic majority that the Republican administration of Union county would be swept out of existence. The Major was cheered enthusiastically.

As the closing remarks, Alvord B. Cook, one of the old war horses of Union county, was called upon. He said that the young Democrats of Rahway were effecting a re-organization of the party the same as is being done in Plainfield, and if all would work hard and earnestly the Democrats of Union county would win this year.

"SHIRLEY DARE" SENT TO THE COUNTY JAIL.

[CONTINUED FROM PAGE 1.]

ing Judge Runyon said to a Press reporter: "The case was the most disagreeable that I have had before me since I have been judge, and while I disliked to send the woman to the county jail, I felt that I was perfectly justified in doing so. From everything I could gather, and from the general tenor of the woman's actions and her dispositions, it looked as though she was positive and set in her purpose to make the family of Mr. Powers all the trouble that she could. She refused to agree to leave town or to leave the Powers household to its own seclusion. I did not impose a fine because I knew it would be paid at once and that probably the woman would immediately raise another disturbance. I am sorry that she had to go to jail, but in disposing of the complaint made by Powers I could not allow my sympathy to overcome my duty in the matter."

PARTICULAR MENTION.

Miss DuBois, of Park avenue, is visiting relatives at Whitehouse.

Piano Recital by a Boy.

A piano recital will be given by Master Miner Walden Gallup from the Virgil Piano School, New York, at the Randolph-Cooley Collegiate School, 303 LaGrande avenue, Wednesday afternoon, November 8th, at 3:15 o'clock. At the same time Miss Sarah A. Palmer, of this city, will give a ten-minute talk on new ideas as applied to pianoforte study through the use of the virgil method and the clavier.

Told of His Trip to Manila.

Captain Morrison delivered an interesting lecture at the North Plainfield High School Thursday morning, telling something of his trip to Manila. He spoke on the condition of the islands, described the people there and had considerable to say about Admiral Dewey. He presented the school with a fragment of one of the vessels of the Spanish fleet destroyed by Dewey.

Home for a Rest.

Rev. Arthur Crane, who has been holding very successful evangelistic meetings for the last four months in the south, returned to his Plainfield home Wednesday for a few days' needed rest. On November 13th he expects to go west and hold a series of meetings.

To Clean the Brook.

An effort will soon be made to have Green brook cleaned out in that part which lies in the heart of the city. The health boards of both city and borough have the matter under consideration.

—A. C. LaBoyteaux will conduct the meeting at the East Third Street mission tomorrow evening.

VOGEL'S WIVES AT ODDS

MRS. VOGEL NO. 1 HAS SECURED POSSESSION OF FURNITURE.

Had Mrs. Vogel No. 2 Arrested on the Charge of Stealing $75 From the Husband, Now Dead—Sheriff Arrested Her.

(Special to The Daily Press.)

Bound Brook, November 4.—"The Old Homestead" was closed yesterday by Sheriff Schoonmaker and Mrs. Herman Vogel, No. 2, who was attempting to carry on the business since Vogel shot himself in New Brunswick, was arrested on the charge of larceny. It will be remembered that Vogel, proprietor of the "Old Homestead" killed himself after attempting to murder wife No. 2, and her mother. Then wife No. 1, who had been living on Vogel's farm in Connecticut, put in an appearance.

Mrs. Vogel, No. 2, returned to Bound Brook shortly after the shooting and opened up the place again. Vogel charged her at the time of her departure before the shooting with stealing $75 from him. He was after the $75 when the shooting took place. The "Old Homestead" continued to do business until yesterday when Sheriff Schoonmaker took possession of the place in the name of wife No. 1, and attached furniture, piano, horses and carriage. Two vans were loaded with the furniture which was carted away and stored in the LaMonte block.

A warrant was out for Mrs. Vogel No. 2, and she was arrested. She was held in $250 bail for a hearing. The bail was finally secured.

WORK OF POOR WOMEN.

On Exhibition at the Relief Association Headquarters.

The storm of yesterday interfered very much with the tea arranged to be given by the Plainfield Relief Association, but a few persons braved the driving rain and were present. The work of the women dependent upon the association was on exhibition and attracted favorable comment. Various articles made by them such as clothing, trimmed hats, rag carpet, etc., were displayed to good advantage. Those present were agreeably surprised to see what had been done. These articles are for sale and sales are held on Thursdays and Saturdays of each week at the association rooms. It is quite likely that another tea will be given in the near future.

Just a Change of Landlords.

To the Editor of The Daily Press:—Owing to the fact of a recent article in your paper that my landlord, R. I Tolles, of the Union Beef Company, had sold his real estate at 318 Liberty street, the impression has gone abroad that I had also sold out my business as a butcher. This is not the fact. Please inform the public that I am still in business at 318 Liberty street, and have not sold out and do not intend to as long as my business is as good as it is at present. The sale by Mr. Tolles only causes a change of landlords. J. C. Storms,
318 Liberty street.

May Lose Sight of One Eye.

Charles Harris, aged fifteen years, of Cranford, was brought to the hospital last evening suffering with an injury to his eye. The young man is employed in one of the machine shops at Garwood, and about two weeks ago his eye was injured with a wire. The eye continued to grow worse and it was thought best to have proper treatment given. It is probable that the young man will lose sight of the eye. He is a nephew of S. B. Hope, janitor of the Bryant School.

LEADERS ARE TIED FOR M'CUTCHEN CUP.

Competition Ended At Park Club Links Saturday.

WILL PLAY TIE OFF TUESDAY.

ANDERSON AND COOLEY SCORED FOURTEEN POINTS EACH.

In the Play Saturday Cooley Won First Honors and Anderson Third — Thiers Played Great Golf and Was Second—Buttfield Cup Won Easily By Miss Daisy Elsbery—Weather Not Conducive to Players.

The ownership of the Mrs. C. W. McCutchen Cup has not yet been decided. The competition for the trophy, which has continued on the links of the Park Golf Club every Saturday all summer, was ended Saturday afternoon. It resulted in a tie, however. W. de la R. Anderson and Gifford W. Cooley both scoring fourteen points for the cup, which will be played off Tuesday morning during the Election Day events.

The competition for the W. J. Buttfield Cup also ended Saturday but the result has been a foregone conclusion for the past month. Miss Daisy Elsberg winning easily with Miss Saidee Mae Howell, second and Miss Adelaide G. Ball third.

There were a dozen entries for the last day for the McCutchen cup and eight cards were handed in The high west wind interfered with the playing somewhat while the recent heavy rains left the course in anything but an ideal condition. There was plenty of casual water all over the course while the ditches, most of them usually dry, had become regular torrents. Most of the putting greens were wet and muddy Under these conditions, the scores that were made were unusually creditable

The official final standing of the candidates for the cup follows:

W. de la R. Anderson	14
Gifford W. Cooley	14
W. J. R. Thiers	12
Meredith Dryden	10½
Charles E. Faber	8
W. R. Faber	7½
Charles A. Reed	7
Geo. T. Rogers	7
George C. Worth	6½
G. W. Faber	6
Samuel Townsend	4½
Morgan T. Townsend	4
J. H. Howell	4
Wm. A. Townsend	3½
E. T. Douglass	3½
H. D. Hibbard	3½
Arthur Peck	3
Fred P. Taylor	2½
R. S. Squires	2½
A. B. Lainé	2
Volney F. Green	1½
Fred S. Overton	1½
Clarence S. Boome	1½
Augustus VanDeventer	1
C. W. McCutchen	½

It was arranged so that the four leaders for the cup played in pairs Gifford W. Cooley and Meredith Dryden started out together. Dryden was off his usual form and had his share of hard luck. Cooley was playing a steady conscientious game that paid. He was low man for the afternoon winning first honors by a single stroke.

W. J. R. Thiers and W. de la R. Anderson were matched together. Thiers played brilliantly for the first round, winning from Anderson. In the second, the club champion braced up and showed marked improvement while Thiers fell slightly off his former brilliant style. Anderson won by three strokes but Thiers' handicap of nine took his net score below Anderson's. The greens committee had reduced Thiers' handicap from twelve to nine.

While Thiers showed even better than par golf several times, his most remarkable play was on the sixth hole, commonly called "Desperation." His second landed him on the green and but for the fact that the green was wet and sticky, he would have made the hole in three. As it was, the ball hung on the edge of the hole but just failed to drop in.

The Fabers played together, but did not turn in their scores. George T. Rogers and Morgan T. Townsend made their rounds in company. Townsend has not been playing in his old form this fall, and is really deserving of a better handicap.

Up to Saturday there remained four contestants who still had a chance for the cup Anderson has led through the entire season. During the summer he was playing great golf, but his playing fell off owing to lack of practice and Saturday was the first time for several months that he has scored. It was a saving game for him for otherwise Cooley would have won the cup. Anderson did stand first with thirteen points; Cooley second with eleven; Dryden third with ten and a half, and Thiers fourth with ten. Dryden has been playing very little lately so there was little likelihood of his winning. The cup lay between the other three. Cooley scored three points and Anderson one, tieing them with fourteen points each, while Thiers, with two points passed Dryden and

[CONTINUED ON PAGE 8.]

DEMOCRATS HOPE TO WIN COUNTY CLERK

Centering Support to Elect William M. Oliver.

REPUBLICANS CONFIDENT.

LOCAL DEMOCRACY WELL ORGANIZED FOR GOOD WORK.

Troubles in First and Fourth Wards Among the Republicans Will Probably Help the Democrats to Some Extent—One Plainfield Favorite on Each of the Two Opposing Tickets.

The biggest fight in the election in Union county will be over the County Clerkship. William Howard is the Republican candidate for re-election, and William Oliver is the Democratic nominee. Oliver is the Democrats chief hope, and they are working hard to secure his election The Republicans claim that they will be able to elect their entire ticket, but admit that the Democrat's greatest strength lies in Oliver.

In Plainfield there will be more than the usual interest in tomorrow's election. The Democrats here have effected an organization and will try its efficiency for the first time. They hope to materially reduce the Republican plurality that Plainfield always gives. Troubles in the First and Fourth Wards, they hope, will assist their labors.

The local Republican machine expects to give the Republican candidates the normal plurality and laughs at stories to the effect that there is dissatisfaction in the Republican ranks. They expect the Democrats to poll a slightly larger vote than usual on account of better organization, but they hope that a little extra hustling will make up for it.

Plainfield has two of its citizens among the candidates, J. H. Hillman as Democratic nominee for Senator, and Charles S. Foote as Republican nominee for the Assembly.

CHURCH CONSECRATED.

St. Patrick's at Elizabethport, Solemnly Dedicated by Bishop Wigger.

The crowning work of Father Martin Gessner's lifetime was the consecration yesterday at Elizabethport of St. Patrick's church, after twelve years and six months of hard work. Seated in a front pew were Governor Voorhees, Udited States Senator Kean and Mayor Mack. The consecration services began at 6 o'clock in the morning, and were not ended until 9:30. The consecration was performed by Bishop Wigger, assisted by many priests. The celebrant of the solemn pontifical mass afterward was Archbishop Corrigan, of New York, and the sermon was preached by Bishop McQuade, of Rochester

The new church cost $500,000 and is built of Maine granite. The cornerstone was laid in May, 1887. The three altars in the church cost $48,000 and the organ $10,000, while the statuary and the forty-four stained glass windows, imported from Europe, cost many thousands of dollars.

WHERE IS YOUNG OLSON?

He Has Left His New Brunswick Home, and is Missing a Week

The police of New Brunswick were yesterday asked by Mrs. Annie Olson, of New street, to assist in finding her fifteen-year-old son Albert, who has been missing since Thursday. The boy was employed in one of the local factories.

Mrs. Olson thinks her stepbrother Charles, aged seventeen, with whom she has had considerable trouble, has enticed her son to leave home. Both boys have disappeared.

Stage Route to Lehigh Valley Station South Plainfield.

The new stage route established by TenEyck & Harris, from the City Ticket Office of the Lehigh Valley Railroad to South Plainfield, which makes connection for Lehigh Valley through trains for Rochester, Buffalo, Niagara Falls, Chicago and the West, will be run via Park avenue, to Ninth street, to Central avenue, to Stelle avenue, to Plainfield avenue, to Lehigh Valley station, South Plainfield. Call up City Ticket Office (Telephone Number, 112-B) for information as to rates, time of trains, etc. See time table in another column. 11 3-3-eod

A Chain, but no Watch.

Chief Marshal Campbell, of the borough, is now wearing a very handsome watch chain, but he refuses to tell how he got it. The supposition is that it was presented to him as a token of esteem in honor of his birthday anniversary. The officer is contesting for a gold watch, and he hopes to be able to wear the watch and chain together.

—ELECTION RETURNS—

Tomorrow night complete election returns of the State, County and city will be thrown by stereopticon on a big canvas

In Front of The Daily Press Office.

Everybody welcome to come and see the superb service secured for the information of Plainfielders on Election Night.

STIRRING UP HIS CHURCH

REV. MR. SHOTT TALKS OF SCOTCH PLAINS SIN AGAIN.

Says That Since He Has Stopped Agitating Reform the Members of His Church Have Lost Interest in the Movement.

(Special to The Daily Press.)

Scotch Plains, Nov. 6—Rev. G. M. Shott preached a strong sermon yesterday morning from the subject "Conscience of Christ," as a prelude to the sermon. He said: "Since I have eased up somewhat on my agitations from this pulpit for a better moral and spiritual standard in our village, I notice that you have lost some of your interest in the fight. Are you through? The responsibility rest with the church. I shall begin again this evening and continue each Sunday preludes to the sermons. The battle is on again. Will you join and enter the conflict? This beautiful village is made the dumping ground of neighboring towns; not only are men dumped upon us but some of their women as well. I am going to put papers into the hands of some of you men and women and during the next six months I in end to find out where this community stands, morally.

"When I started my agitations from this pulpit I had some people say to me, 'We must stop, you have decreased the valuation of our property 10 per cent.' But since then some of these same people have come to me and told me that instead of decreasing the value of property by the fight we have increased it 10 per cent."

As a prelude to evening sermon the recent Grand Jury recommendation, regarding the number of habitual drunk and disorderly people Union county was sheltering continually, was read. Commenting upon it he said: "If I should be able to wipe out some of this sin, by closing the saloons in this town, would not this decrease your taxes? for you are taxed to provide your share of these people's support. If it were not for the saloon we would not have so many cases thrust upon our county."

Mr. Shott was heartily in favor of some measure being taken to do away with the habitual committing of men and women to the county jail, and hoped the next Legislature would take some measure to abate the nuisance.

Credit for Mr. Brown.

At the meeting of the Borough Council Friday evening proper credit was not given to Collector George F. Brown for his good work in collecting taxes. For the first time in the history of the borough in many years the Council expended over $12,000 and not a penny was borrowed. This is partly due to the collector, and proper credit should be given to the taxpayers for responding so promptly.

Twentieth Century Black

That's what we call the black dyed by our new method. If you have a suit of clothes or a dress, color out of style, or faded, we can make it a rich black that won't rub off. You'll practically have a new suit or dress at a cost so little as to not be worthy of consideration. Hillier & Co., 129 West Front street.

Charged With Being Disorderly.

Fred Randolph, colored, was haled before City Judge Runyon, this morning. He was charged with being disorderly Saturday afternoon. The arrest was made by Roundsman Frederickson. Sentence was suspended.

Betting on Election

Betting on the result of the Senatorial contest in Somerset county is very close and small odds are offered on either side. General opinion seems to be divided so that either candidate has little advantage.

Prize Choisters.

The prize choristers of Grace P. E. church for October are: VanWyck Brooks, Albert Yaeger, Miss C. Woodward, Miss J. Little and Miss M. Ulrich.

GOOD GOLF WAS PLAYED

PRELIMINARY ROUND FOR THE CHAPMAN CUP SATURDAY.

Most Expert of Hillside Club Were Out—Tie for Eighth Position—Exciting Competition for Election Day.

Despite the rather cool weather of Saturday last there was a large crowd of golf enthusiasts at the Hillside Tennis and Golf Club. Aside from the event of the day, the preliminary round for the Chapman cup, a large number arranged individual matches. The preliminary round for the cup brought out a goodly number of contestants, all anxious to be among the first eight to qualify for the first round play which takes place election day. The contest was very close throughout and good scores were made. Play was from scratch and this fact had a tendency to bring out the best players in the club.

One interesting feature of the play was the tie between T. R VanBoskerck and D H. Rowland for eighth position. Both scored 104, and they will have to play off the tie before tomorrow's play, so as to determine which one shall take part in the first round to be played tomorrow. Those who contested and their scores in Saturday's play is as follows: C. W. Fisk, 90; J. W. Baker, 94; W. L. Glenney, 94; A. R. Fisk, 96; F. L. Schoonmaker, 96; P. W. Mason, 97; Owen Fleming, 101; T. R. VanBoskerck, 104; D. H. Rowland, 104; H. R. Stockton, 106; R. M. Shepard, 106; D. H. Taylor, 116.

Tomorrow the first and semi-final play for the Chapman Cup will be played, and there will be other golf features that will no doubt bring out a large number of golfers. There will also be social features at the clubhouse.

MAY COME TO PLAINFIELD.

Centinary College May Utilize the Hotel Hunterston Building at Netherwood Temporarily.

The trustees of the Centinary Collegiate Institute, the buildings which recently burned at Hackettstown, will meet this afternoon at 2 o'clock in the office of Colonel Dobbins, Newark. It is expected at that time that arrangements will be made for temporarily locating the institute until the buildings can be rebuilt.

Several places are under consideration by the trustees. It is understood that the Hotel Hunterston, in Netherwood, has been offered. The Paxinosa Inn, at Easton, and a large hotel at Schooley's Mountain have also been suggested.

John T. Dunn Non-suited.

(Special to The Daily Press.)

Elizabeth, Nov. 6.—Former Congressman John T. Dunn lost his suit against former Mayor Randolph, of Plainfield, to recover $235 for legal services rendered. Judge Atwater granted a non-suit on application of Mr. Randolph's lawyer. Mr. Dunn declared he would appeal the case.

St. Peters' Church Fair.

By some misunderstanding the impression has gained ground that the German Lutheran fair is to be held this week, but and advertisement in these columns will correct this. The general public is invited to remember a worthy undertaking by their gifts and presence.

School Work in Syria

The regular monthly meeting of the Sunshine Mission Band of the Crescent Avenue church will be held Wednesday afternoon in the church parlors at 4 Dr Richards will give an address on school work in Syria, to which the money raised by the band is sent.

Third Dime Sociable.

The third dime sociable of Martha Washington Council, No 23, Daughters of America, will be held at the residence of Mr. and Mrs. Wm Thompson, Liberty street, near Second street, Thursday evening next.

ELECTION DAY GOLF

ATTRACTIVE SCHEDULE ARRANGED BY PARK GOLF CLUB.

Qualifying Round For Men's Handicap in the Morning—Final Round and Mixed Foursomes in the Afternoon.

As Election Day, tomorrow, is a legal holiday and most of the members will be at home, the Park Club has arranged a schedule of events for the day. It will be the practical end of the active season at the club although the course and clubhouse will remain open throughout November. The greens committee have so arranged the programme for the day as to give both sexes an opportunity and to provide interesting matches all day.

At 9:30 o'clock tomorrow morning there will start a men's handicap, eighteen holes, medal play, open to active and associate members of the club. During this round, Gifford W. Cooley and W. de la R. Anderson will be matched together and their scores in this qualifying round will settle the tie for the McCutchen cup. The play for the McCutchen cup is medal play and they will play with the handicaps allotted for the event tomorrow.

The two competitors handing in the best net scores for the morning are to qualify for match play, eighteen holes, scratch, in the afternoon at 2:30 o'clock. A prize will be awarded to the winner.

In the afternoon at 2:35 o'clock a mixed foursome will be started. It will be scratch, nine holes, medal play. The winning pair will receive prizes. This event has been specially provided for the benefit of the ladies of the club and it is hoped that as many as possible will participate.

Found Dead on Tracks.

(Special to The Daily Press.)

High Bridge, Nov. 6.—On Saturday night a strange man, who has not been identified, was found dead lying on the Jersey Central tracks. He was well dressed and bore the appearance of respectability. The coroner was summoned and has taken charge of the party pending an investigation.

Baptist Missions.

The regular monthly meeting of the Woman's Foreign Mission Circle of the Park Avenue Baptist church will meet tomorrow at 3 p. m. at the home of Mrs. Walter Freeman, 819 First place. Subject: "Baptist Missions in Africa."

He is Very Confident.

Former Mayor B. A. Hegeman, Jr., in conversation with a Daily Press representative this morning predicted that the Republicans will carry Somerset county by about 1,500 majority, and the borough by about 450 majority.

A Success.

The sale of home-made cakes by the Young Women's Mission Band of Trinity Reformed church, at the home of Miss Woodruff, East Second street, Saturday afternoon, was a very gratifying success.

Open Cars in a Storm.

Last week when it was storming the very hardest open trolley cars were run on the Netherwood line, much to the discomfort and inconvenience of people who were obliged to ride.

May be New City Clerk.

Councilman Frank H. Smith's name is prominently mentioned as the successor to City Clerk MacMurray. The latter's term will expire the first of the year.

Democratic City Committee.

The Democratic city executive committee will hold an important meeting this evening, at which all the members are urgently requested to attend.

Harvest Home for Hospital.

The harvest home will be held at the hospital November 23d, and donations of any kind will be very thankfully received by those in charge.

Recovering From Diphtheria.

The two cases of diphtheria on Grove street are well and Borough Physician Buchanan is happy.

HUSTLING HARD FOR THE VOTERS TOMORROW

End Of An Aggressive Campaign In Somerset.

FRAUDULENT BALLOTS OUT.

THEY LACK THE ENDORSEMENT OF THE COUNTY CLERK.

The Whole Contest Centers On The Senatorship — North Plainfield a Hot Battle Ground—DuFour Has Made No Canvass and It Is Thought That Cooper Will Go To Assembly Again

The hottest fight in the political history of Somerset county is in full swing. The election tomorrow will be the most bitterly contested of any in the memory of the present generation. There is trouble in both political camps and the election will be noticeable for the remarkable amount of cutting done. Both Republicans and Democrats claim that they are sure of victory but both are using every endeavor to win votes in the little time remaining.

In the borough of North Plainfield the balloting promises to be decidedly warm. There will be an unusually large turnout in the borough, where much interest will be centered, owing to the fact that it is the home of Senator Reed. The Republican leaders there promise to get out a big vote for the candidate. The Democrats anticipate a big cut in the Republican ranks.

The fight centers over the election of a State Senator in which Senator Charles A. Reed is the Republican nominee and James J. Bergen the choice of the Democrats. One Assemblyman will be elected also, but even the Democrats admit that E. E Cooper, the Republican candidate, will be re-elected. L. S. DuFour, the Democratic nominee, has made no effort to secure his own election.

A number of fraudulent ballots have been circulated through the county. They purport to be the regular Republican ticket and bear the names of the regular nominees. They lack the official endorsement of the county clerk on the back and are therefore illegal and will be thrown out in the county. This is one of the schemes of the enemies of Senator Reed and the the Republican workers throughout the county have been warned to keep a strict watch for them.

SOMERVILLE MUST WAIT.

Next Time, Perhaps, the Town Will Send a Swifter Policeman.

Joshua Hines was not only freed on a charge of murder in New York Thursday, but he escaped arrest on a charge of theft by making a bold dash for liberty in the Criminal Court building and evading his pursuers.

Hines was under indictment for murder in the first degree, being charged with having killed a man last June at the corner of Bayard street and the Bowery, in New York, during a dispute over the division of some plunder. The authorities of Somerville asked that in case of his discharge he be turned over to them on a charge of theft. When Hines was arraigned Thursday Assistant District Attorney McIntyre handed up a recommendation that the man should be discharged on his own recognizance because no one could be produced to testify as to the shooting. Justice Fursman discharged the man.

Hines walked out of the courtroom, and was about to speak to some friends when a Somerville policeman attempted to seize him. Hines ran to the stairs leading to Centre street. Down the stairs he leaped four at a time. The crowd chased him, but he was soon lost to view.

THIRTEEN NEW MEMBERS.

Grace M. E Church Forces Increased Considerably Yesterday.

Thirteen persons were added to the membership of Grace M. E. church yesterday morning, two on probation, nine from probation into full membership, and two by letter. The attendance at the communion service was large as was also the evening congregation.

Rev. Thomas Houston, the "blind evangelist," will assist the pastor in a series of evangelistic meetings beginning with Wednesday evening, Nov. 15th and continuing until Nov. 25th.

Some Stores Will Close.

Some of the places of business will be closed tomorrow, it being a legal holiday. It is understood that the grocery stores, whose proprietors are members of the Grocers' Association, the shoe stores, meat markets, laundrys, etc, will be closed in the afternoon.

—Sparklets, water, milk, light wines, tea, etc., aerated immediately. Cost 2½ cents. Agency Compressed Gas Capsule Co., 310 and 312 Park avenue.

VIKINGS OUTPLAYED BY ALIS ELEVEN.

Local Team Won By a Score Of 22 to 0.

ON THE MARTINE COMMON.

IT WAS SUPERIOR TEAM PLAY THAT DID THE WORK.

Score Would Have Been Larger But Game Was Cut Short to Allow Visitors to Catch the Train—Green's Great Run of Half the Length of the Field—Taylor Made Big Gains—Visitors Were On Defensive.

Victory was an easy thing for the Alis football team in the game with the Vikings of the Bayonne A. C. on Martine Common Saturday afternoon. Superior team play gave the Alis boys the game by a score of 22 to 0. But for the fact that the second half was cut short so that the visitors might catch their train, the local players might have rolled up even a larger score.

The Vikings were really the second team of the Knickerbocker Athletic Club and included some excellent material. They outweighed the Alis boys and did some excellent tackling and blocking. Their offensive work was decidedly weak, however, and the Alis team managed to keep the ball most of the time. The game was an interesting one and was witnessed by several hundred people who were very enthusiastic over the hard and fast playing of the Alis combination.

The Vikins took the western goal while Alis kicked off. The ball was steadily carried back to the centre of the field and gradually worked up against the wind to the Viking goal. It was then evident that the team play of the local team was going to win without much trouble. The visitors tackled brilliantly when they got a chance but the interference carried the rumor for a substantial gain on almost every play. With one or two stops the ball was carried until the Viking territory was reached and then Taylor went through the line for a touchdown for the Alis team. Phillips kicked the goal. Score—Alis 6; Viking, 0.

It took five minutes to make the first goal and as much more to carry the ball down the field again and push Taylor over the line for a second touchdown. Phillips failed to kick the goal. Score—Alis, 11; Vikings, 0.

For the remaining ten minutes of play the visitors braced up slightly and tried to hold the Alis boys back. Taylor did some great work in bucking the line, while Green made several pretty plays. Cuming did not show up for the first half and Woolston went back to fill his place at half. Beard playing end. Time was called with the ball in Alis' possession on Viking's twenty-yard line.

The Vikings kicked off in the second half and George Smith picked up the ball and ran with it after fumbling it. He collided with a Viking runner and both were stunned. After the first three plays, Cuming took his old place behind the line and Woolston returned to end. Cuming was fresh and made good gains. The Alis boys played harder and took the ball right down the field. Green circled left and behind good interference and made 50 yards before Jacobson could pull him down. It would have been a touchdown but for the fact that Jacobson made a clever tackle. Dumont, on a trick, covered the remaining fifteen yards for a touchdown, the kick failing. Score—Alis, 16; Vikings, 0.

The visitors tried punting once and a good gain resulted. Had the Viking boys kicked more in the first half, they might have prevented such an easy victory. Taylor continued to distinguish himself by his fine work in line-bucking. He made a good share of the gains for the Alis. Again the ball travelled right down the field and Cuming went around the end for ten yards and a touchdown. Phillips kicked the goal. Score—Alis, 22; Vikings, 0.

The game was called after ten minutes of play so that the visitors might catch a train. It was so dark that the men found difficulty in keeping watch on the entire teams.

They lined up as follows:—

ALIS.		VIKINGS.
Woolston-Beard	right end	Goodwin
Waring	right tackle	Fisher
Kline	right guard	O. Jacobson
G. Smith	centre	Tuddie
Long	left guard	Delapierre
Taylor	left tackle	Taft
H. Smith	left end	Howell
Dumont	quarter back	Mott
Green	right half back	Knight
Cuming-Woolston	left half back	Jennings
Phillips	full back	H. Jacobson

Score—Alis, 22; Vikings, 0. Touchdowns—Taylor (2.) Dumont and Cuming. Goal on touchdown—Phillips (2.) Referee—John Gluck, of Westfield. Umpire—Arthur H. Serrell, of Plainfield. Timekeeper—A. Willis West, of Plainfield.

—The missionary study class of the Y. M. C. A. will meet this evening at 8 o'clock. All men are invited.

SURGEONS ARE CRITICISED

Board of Inquiry Makes Severe Charges Against Them.

DEATHS ON TRANSPORTS

Many of the Sick Men Said to Have Been in a Deplorable Condition.

Major Rafter, of The Twentieth Kansas, Comes in For Heavy Censure—The Transport Service Severely Arraigned by Investigating Board at San Francisco.

San Francisco, Cal., Nov. 6.—A local newspaper says that the most sensational report of a military board of inquiry ever sent to the War Department from this city has been forwarded to Washington from the headquarters of Major General Shafter. The document consists of nearly one hundred typewritten pages and contains the severest kind of criticism of the methods employed by officers in charge of the sick soldiers who returned from the Philippines on the transports Tartar and Newark, on Oct. 10.

Upon Major Rafter, the surgeon of the Twentieth Kansas volunteers, who came back on the Tartar, the heaviest censure is laid. Colonel Metcalfe, of the same regiment, who commanded the ship, General Funston being only a passenger, is indirectly referred to. Many other officers are given a hard measure of criticism, but their names are being withheld until the War Department sees fit to make known the details of the report.

The board of inquiry which has so severely arraigned the transport service was appointed by General Shafter two weeks ago at the suggestion of Colonel Alfred C. Girard, chief surgeon in the General Hospital at the Presidio. Colonel Girard's desire for an invistigation was occasioned by the deplorable condition in which he found the sick men from the transports Tartar and Newport. There were about forty of them, and nearly all were suffering from dysentery. Three men who came in these transports died a few days after arrival. They were J. T. Fabisak, and John A. Logan, of the Fourth cavalry, and George W. Mills, of the Twentieth Kansas.

Are After Aguinaldo.

Manila, Nov. 6.—A fleet of transports and gunboats has left Manila for the most important expedition of the autumn campaign. Its destination is supposed to be Dagupan or some other northern port.

General Wheaton commands, with a brigade consisting of the Thirteenth infantry, the Thirty-third infantry, two guns of the Sixth artillery and two Gatlings. The transports Sheridan, Francisco de Reyes and Aztec carry the troops, with the gunboat Helena as escort.

A dispatch boat was sent ahead to arrange a rendezvous with the United States cruiser Charleston and the other warships that are patrolling the north coast of Luzon.

The landing will be made under cover of the guns of the fleet. It is assumed here that the purpose of the expedition is to move down the Dagupan-Manila Railroad toward Tarlac, or to prevent Aguinaldo's forces making another base further north.

Would Not be a Candidate.

Washington, Nov. 6.—Replying to a question put to him by a newspaper reporter Saturday evening, Admiral Dewey said:

"I would not under any circumstances consent to be a candidate for the Presidency, and I should consider it an act of friendship if the press would treat this decision as sincere and final. I wish they would now drop the matter. I feel that any further boomnig of my name for the Presidency tends to make me ridiculous."

Says it is Not a Trust.

Albany, N. Y., Nov. 6.—President P. E. Dowe, of the National League of Commercial Travellers, announces that Attorney General Davies has decided that the evidence submitted to prove that the American Spool Cotton Company is a trust or monopolistic combination is insufficient for the purposes of prosecution, but that District Attorney Gardiner, of New York county, has maintained otherwise, and will commence, on the application of Mr. Dowe, proceedings under the Donnelly Anti-Trust law of the State.

Can Erect The Monument.

Boston, Nov. 6.—The Board of Trustees of the Cemetery Department has voted to allow the Victorian Club to erect its proposed monument to the British soldiers who fell at Bunker Hill. Mayor Quincy was first petitioned by the club and he turned the petition over to the Cemetery Committee, with the endorsement that he saw no reason why it should not be granted. The monument will be erected in the central burying ground on Boston Common.

May Save the Parnell Estate.

Boston, Nov. 6.—Lord Mayor Tallon of Dublin has received a cable that the ancestral home of Charles Stewart Parnell at Avondale would not be sold until Nov. 24. The sale was originally scheduled for Nov. 4. The Lord Mayor believes that before the date now fixed the sum necessary to save the estate will have been obtained.

Nine Hurt in Trolley Car.

Louisville, Ky., Nov. 6.—An inbound Louisville and Nashville train struck a Fourth Avenue electric car at Fourth avenue and G street completely demolishing the car and injuring nine persons, including the motorman. All will recover.

Gen. Corbin Visiting in Cleveland.

Cleveland, Nov. 6.—H. C. Corbin, Adjutant-General of the United States Army, is the guest of Col. Myron T. Herrick. Gen. Corbin said that the war in the Philippines would be over by Jan. 1, and that Gen. Otis would probably not be recalled.

MISSOURI MINERS RIOT.

Two Negroes Killed and Several More Wounded in Hard Fight.

Macon, Mo., Nov. 6.—Sheriff Glenn and several deputies have just left for Kansas and Texas Mine No. 61, southwest of Bevier, in response to a telegram from the superintendent stating that the negro miners had been attacked by armed men and that several had been killed and wounded. The negroes had been warned by the company not to leave the stockade, but several had been breaking the rule.

Two negroes were killed and several were wounded in the fight. After this fight a body of non-union negroes invaded a mine, which had lately been leased to W. E. Murlin by the Kansas and Texas Company, and which was to start up next week with union men, and after the exchange of a few shots were driven off, but it is feared they will return, as they are highly incensed over the shooting of their comrades.

Brought In a Crew of Eleven.

Newport News, Va., Nov. 6.—Capt. Scamba and ten men of the crew of the Italian bark Colomb, which was disabled in the hurricane of last Tuesday morning about 300 miles south of Hatteras, have been brought into port by the British steamship Pondo, Capt. Brewis, which sailed from Pensacola on Oct. 23 for Antwerp, via this port for coal. The bark was seventy-seven days out from Catania. She struck the hurricane eighty miles from Savannah, her destination. Her masts were torn away. She signalled a passing schooner for assistance. When the Pondo was sighted the schooner sailed off. All of the effects of the officers and crew were lost.

Wedding Party Had to Fight.

Bridgeport, Nov. 6.—The wedding of George Pendelton and Miss Anna Devine was announced to take place in the Congregational Church of Stratford. To avoid the curious crowd, gathered about the church, the bridegroom at the last moment decided to have the ceremony performed at the bride's home. When the sight-seers learned of the deception they attacked the bridegroom and his bride on their way to the depot, throwing old shoes and anything available, until the wedding party was obliged to fight its way through the street.

Says She is Over 100 Years Old.

New York, Nov. 6.—Ann Kenny, who says that she is over 100 years old, has been committed to the Alms House by Magistrate Deuel of the Tombs police court. Mrs. Kenny was found wandering along lower Broadway during the storm on Friday afternoon by Detective Lynch of the Church street station. She did not know her exact age, but said that she was born in Dublin over 100 years ago. She said she had no relatives or friends living and asked to be taken care of.

Promenade Committee Chosen.

New Haven, Conn., Nov. 6.—The Junior Promenade Committee of Yale has been chosen, and consists of Paul Lincoln Mitchell, of Cincinnati; H. S. Curtiss, of Cleveland Ohio; Sherman Lockwood Coy, of Lakeville, Conn.; James Hutchinson Wear, of St. Louis; Leonard Moorehead Thomas, of Philadelphia; Dudley Stuart Blossom, of Cleveland; John Arthur Keppelman, of Reading, Pa.; Robert Lewis Atkinson, of St. Louis, and Harold Chappell, of New London, Conn.

Hiccoughed Himself to Death.

Syracuse, N. Y., Nov. 6.—Col. W. W. Teall died here after suffering eight days from hiccoughs which came on after he had eaten his dinner. He was eighty-two years old and is survived by his wife, Sarah Sumner Teall, daughter of Major-Gen. Edwin V. Sumner, and four children, Oliver Sumner Teall, of New York; William S. Teall and Mrs. C. Herbert Halcomb, of this city; Mrs. John McIntyre, of New York, and Mrs. Charles G. Kidd, of England.

Robbed Between Revolving Doors.

New Haven, Nov. 6.—The revolving storm doors at the entrance to the First National Bank building in this city were put to a new use Saturday afternoon. While passing out through these doors William M. Townsend, a contractor, was jostled by two men who crowded behind him and who immediately disappeared. On reaching the sidewalk Mr. Townsend discovered that he had been robbed of $103 just drawn from the bank.

Mr. Wiegand is Found.

Portchester, N. Y., Nov. 6.—George V. Wiegand, who, is was said, had disappeared from his home in East Portchester, leaving a note bequeathing his property to his sister, has been found. He was at the Newtown Hotel, Elmhurst, L. I., which is kept by Jas. T. O'Brien, his friend. Mr. Wiegand says the story of his disappearance was a fabrication. His relatives, however, insist that they did not know of his whereabouts.

Ran Into an Open Switch.

Indianapolis, Nov. 6.—The fast express on the Peoria and Eastern division of the Big Four Railroad ran into an open switch at Clermont, the engine and tender, the postal car and one day coach leaving the track and being turned bottom up in the ditch. The train was running sixty miles an hour to make up lost time. Only the engineer and fireman were hurt and neither seriously. The switch had been tampered with.

THE CAMPAIGN CLOSES.

Both Sides Claim Safe Majorities in Several States.

ALL APPEAR CONFIDENT

Republicans and Democrats Give Opinions on Probable Results.

Jones's Managers Think He Will Carry Buckeye State—Nebraska is Claimed by Both Fusionists And Republicans—The Outlook in Iowa And Maryland.

New York, Nov. 6.—Saturday practically closed the state campaigns throughout the country, and reports received here from many of them show that both parties have put in a lot of hard work and claim that their respective candidates will win in the coming battle of ballots. The principal interest seems to center in Ohio, Nebrasska and Kentucky, where the fight has been waged with vigor since the opening of the campaign and the Democrats, as well as Republicans claim that safe majorities are assured. Jones, the "Golden Rule" candidate for Governor in Ohio is particularly sure that he will be elected governor of the Buckeye state.

Republicans Claim 40,000.

Des Moines, Ia., Nov. 6.—Governor Shaw will be re-elected Tuesday by 40,000 plurality over Fred White, the Fusion nominee, and it may be more. The result is no way uncertain except as to the size of the Republican majority.

I rely upon the patriotic inspiration our people have felt and shown over their return of the Fifty-first Iowa Volunteers which tells me that the sentimen of our people is with the McKinley Administration. The Philippine issue helped the Republican party in this state rather than hurt us.

H. O. Weaver,
Chairman of Republican State Committee.

Rely on The German Vote.

Des Moines, Iowa, Nov. 6.—Reports show that we will receive at least 80 per cent. of the German vote of the state, and if this proves true Fred White, the Democratic nominee for Governor will be elected by not less than 20,000 plurality. We shall also make considerable gains in the Legislature. We are making these gains on the issue of imperialism chiefly.

G. A. Huffman,
Chairman of Democratic State Committee.

Claims it For Jones.

Columbus, O., Nov. 6.—J. A. Cannon, executive officer of Mayor Jones's Committee says:

"There will be 900,000 votes cast in Ohio. The man who gets 335,000 of the votes will be elected. I claim Mr. Jones's election. This is not based on a poll, but on countless straw votes taken all over the state. Mr. Jones has made more speeches in the campaign than other campaigners except Bryan ever made in the same time.

"McLean will be second in the race. The bulk of the Jones vote will come from the Republicans."

Republicans are confident.

Columbus, O., Nov. 6.—Charles Dick, Chairman of the Republican State Committee, says in regard to Judge Nash's chances:

"The situation in Ohio is entirely satisfactory from a Republican standpoint. The largest vote ever polled in a State campaign will be cast, approximating 950,000 votes. Conceding Mr. Jones from 75,000 to 100,000, Judge Nash's plurality will not be less than 50,000 in the state. The Legislature will be Republican in both branches."

John R. McLean's Campaign managers claim that the Democratic ticket will go through safely and that Mr. McLean will have a majority of from 20,000 to 30,000.

The Prospects in Maryland.

Baltimore, Md., Nov. 6.—Chairman Vandiveer, of the Democratic State Committee, says:

"I believe we will carry twenty-one of the twenty-three counties of the state and all the legislative districts. We will win by nearly twelve thousand."

Chairmon Shyrock, of the Republican Committee, says the Republicans will carry every county in the state, but gives no figures.

Betting On Nebraska.

Terre Haute, Ind., Nov. 6.—B. S. Hudnut, President of the Vigo County National Bank, and Fred B. Smith, President of the Anti-Trust Distillery here, met Saturday in a cafe, and before they left had put up a total of $3,900 on the Nebraska election, Mr. Smith betting at odds of 10 to 7 that the Fusion ticket would carry Nebraska. Smith formerly lived in Nebraska and is a personal friend of Col. Bryan.

Both Sides Claim Kentucky.

Louisville, Ky., Nov. 6.—Congressman D. H. Smith, acting Chairman of the Democratic Campaign Committee, estimates that Goebel's plurality will be 22,000. Chairman Long, of the Republican committee, will make no statement, but Gen. Taylor, Republican candidate for Governor says he will have 40,000 plurality.

They Are Both Sure of It.

Omaha, Nov. 6.—The Chairman of the Democratic State Committee, J. C. Dahlman, claims the state for Fusion by 12,000. Orlando Tefft, Republican Chairman, says the Republican majority will be between 5,000 and 10,000.

New Steamship Launched.

Wilmington, Del., Nov. 6.—The steamship San Juan, for the New York and Porto Rico Steamship Company has been launched at the yards of the Harlan & Hollingsworth Company. Miss Louise Adams Ceballos, the daughter of J. M. Ceballos, President of the company, was the new steamship's sponsor.

New York Announcement.

Horner's Furniture.

The BEST IN THE MARKET because representing the productions of the best makers only. Other advantages are the unequalled assortments in all lines, whether wanted for city or country houses, and the very moderate prices at which the goods are marked.

The completeness of our assortments can best be understood from the fact that we carry in stock, and exhibit, more than *two hundred and fifty distinctively different Bedroom Sets* in every variety of material, as well as endless lines of Parlor, Drawing Room, Library and Dining Room Furniture, ranging from the modest and inexpensive to the most elaborately carved and inlaid.

In a word, every article required for use, comfort and adornment in the household can be had with its plainly marked moderate price at the Great Furniture Emporium of

SHE RECOMMENDED THEM.

DIRECTOR. That stenographer and typewriter who has been with you so long is a mighty pretty woman by the way; I notice that she appears to be always well. Her carriage is erect; her ways are brisk. She has good color, and her eyes are always bright.

PRESIDENT. What you say is true. For two successive years she has not failed one day in her attendance at the office and has never once been even late in the morning—but she takes Ripans Tabules.

DIRECTOR. What does a person with a temperament of steel and a constitution of iron, as you describe and as she seems, want of a patent medicine?

PRESIDENT. That is what I asked her one day, and she said: "Sometimes I do have a headache, and that is what I take Ripans Tabules for. I don't know the cause of the trouble, but I do know that I can get rid of a headache shortly after taking a Tabule, and that is the result I want to accomplish." She says they are all the manufacturers claim for them.

A box containing TEN RIPANS TABULES in a paper carton (without glass) is now for sale at some drug stores. The five cents box, which is the low priced sort is intended for the poor and the economical. One dozen boxes (six cents worth of tabules) can be had by mail by sending forty-eight cents to the RIPANS CHEMICAL COMPANY, No. 10 Spruce Street, New York—or a single carton (TEN TABULES) will be sent for five cents.

LANSDOWNE IS BLAMED.

He is Held Responsible For Reverses of the British.

UNPREPARED FOR WAR.

The Condition of Affairs in South Africa Discussed in London.

Boers Prove Themselves Determined Fighters And Splendid Sharpshooters—Even the British Praise Their Bravery—Nearly Every Garrison Surrounded.

London, Nov. 6.—The War Office has just issued the following:

"Buller to the Secretary of State for War: Cape Town, Nov. 5.—The Commandant at Durban sends the following, received from Ladysmith by pigeon post, dated Nov. 3:

"'Yesterday General French went out with cavalry and field artillery, and effectively shelled the Boer laager, without loss on our side.

"'Lieutenant Egerton of the Powerful is dead. General Joubert sent in Major C. S. Kincaid of the Royal Irish Fusiliers and nine wounded prisoners. Eight Boers were sent out in exchange no others being fit to travel.

"'Colonel Broklehurst, with cavalry, field artillery, the Imperial Light Horse and the Natal Mounted Volunteers, was engaged with the enemy to the southwest of Ladysmith. The fighting lasted several hours. Our loss was very small.

"'The bombardment of Ladysmith continued yesterday and to-day, many Boer shells being pitched into the town.

"'Our troops are in good health and spirits, and the wounded are doing well.'"

Secretay of State Censured.

London, Nov. 6.—Almost the only subject of discussion at present in England is the disastrous reverse suffered by General White, the British commander at Ladysmith. Public opinion seems to be fairly divided, one section bitterly blaming the General and the other maintaining that he is probably not so much at fault as he made himself out. The latter section, which includes many service men and nearly all the service publications, urges the withholding of definite criticism for the present. The Naval and Military Record says:

"Considering the nature of the country, the lamentable unpreparedness of England and the unwillingness of the opposition to allow a British regiment to go to South Africa until President Kruger's ultimatum was received, it is almost surprising that we have been able to hold our own so far. Not only have the Boers proved themselves determined fighters and splendid sharpshooters as we knew them to be, but they have developed surprising military and strategic qualities. They have nearly surrounded every garrison we hold and have invariably occupied almost unassailable positions, fighting with great courage. Against such fighters our little force, left isolated far from our base and without hope of relief for days to come, has not only done splendid work, but has gained successes which we venture to believe no other soldiers in the world placed in similar positions and in similar unfavorable conditions could have achieved."

Since the first news of the Ladysmith disaster reached England a storm has been gathering over the head of the Secretary of State for War, the Marquis of Lansdowne. Some of the ablest of the government supporters declare privately that almost criminal neglect was shown in not sending at least ten thousand more troops by October 4, and that if Lord Lansdowne's hands were tied by higher powers he ought to exculpate himself beyond the shadow of a suspicion. The failure to send out troops enough cannot be charged to the opposition, for Parliament was not then sitting.

When these criticisms were repeated to a high government official he would not discuss the point, but declared that the broad lines of policy affecting Natal had been much misunderstood.

"We are often asked," said he, "why we sent Sir George Stewart White up the neck of Natal unless we were sure he could hold it. Considering the tremendous reinforcements now on the way to him, it occurs to almost everybody at first sight that he ought to have retired without risking engagements, but it is forgotten what would happen in Natal unless we made a vigorous stand there.

"Natal has risked her little all in behalf of the empire, and the least we can do is to risk something on Natal and prevent the overrunning of one prosperous towns and rich fields by hordes of the enemy. Purely military considerations, I admit, might point to the fact that we ought immediately to have withdrawn from our advanced positions, but purely military considerations have sometimes to be subordinated to the interests of the empire, and, although many good lives have been lost in such a cause, they have not been wasted."

Mr. J. B. Robinson, the South African millionaire, writes that General White will be perfectly safe if he sits tight at Ladysmith, refusing to be induced by the usual Boer tactics into being drawn out with the view of inflicting a defeat on the Boers. This is the expression of universal hope, but previous experience of General White's tactics leaves room for much uneasiness during the week.

General White Cut Off.

Pretoria, Nov. 6.—Five thousand Boers have crossed Klip River, south of Ladysmith, thus cutting off White from Colenso. Ladysmith has again been vigorously attacked and the Boers hope to reduce the town within the next few days. Heavy guns have been sent from Pretoria to Joubert's aid.

John Robertson is now in Pretoria Jail on a charge of enlisting men in the Light Horse to serve against the Transvaal. He will be treated as a prisoner of war and not tried for treason.

All is quiet at Johannesburg. Colenso will not be attacked unless Ladysmith falls, and if the Boers are forced to retire in the near future from Natal, it will become necessary to destroy Newcastle, Dundee and Charlestown. The general belief is that White will sally out and make a dash for the south.

An unusually large proportion of wounded English prisoners have died in Pretoria Jail. The Boers lost 33 killed and 60 wounded in the Farquhar Farm fight. Kruger is in excellent health.

Refuses to Give Details.

London, Nov. 6.—A despatch from Pretoria, says that Colonel Moeller, who commanded the Hussars, captured by the Boers, declined, on being interviewed, to give the details of the misfortune, but praised the treatment he and his men had received from the Boers. The British prisoners were playing football when their commander was interviewed. Their officers are anxious to be exchanged.

GIVES ESTATE TO HIS WIFE.

Disowned Son is Made Rich By His Father's Death.

Houghton, Mich., Nov. 6.—Victor H. Matson, a member of one of the oldest and wealthiest families of Finland, and a graduate of a university of his native land, but who has been a day laborer here for some time, has received a letter from Finland notifying him that by the death of his father he had fallen heir to the entire family estate, valued at $100,000.

An hour later Matson formally had assigned the estate to his wife, and as soon as arrangements can be made, Matson, with his family, will return to Helsingfors, the capital of Finland, where the estate is situated.

Several years ago Matson, then a university student, fell into bad habits and was disowned. He came to this country, was married and for a time prospered. Gradually he lapsed into his old habits and lost position after position, finally being compelled to labor on the streets for a living, while his wife and children became dependent on charity.

When Matson received the letter announcing his inheritance, he at once hunted up his destitute family, and in the presence of Judge Curtis, first signed the pledge, then turned over his inheritance to his wife.

Suffered in a Refrigerator Car.

Columbus, O., Nov. 6.—A story of terrible suffering and starvation is told by Antoine Gerrand, fourteen years old, who was released from a refrigerator car at Dennison, this State, after having been imprisoned for four days without anything to eat. Though the car was loaded with bananas in cold storage he could not get at them. He had concealed himself in the car at New Orleans, where his parents live, intending to go to Cairo, Illinois, but the car was locked and though he repeatedly pounded on the inside and called despairingly no one heard him until Sunday, after the car had been sidetracked. He was taken out nearly dead and terribly bloated, having suffered intense agony in the cold with nothing to eat.

Will Remember Wheeler and Lee.

Chicago, Nov. 6.—Women of Chicago have started a movement toward a systematic effort to show in some substantial way to Generals Fitz Hugh Lee and Joseph Wheeler the appreciation by the American people of their bravery and patriotism. To this end a meeting of those interested has been called for Tuesday in the Chicago Beach Hotel. The idea is to more firmly unite the people of all sections of the country through these two great commanders. Mmes. McKinley, Garfield, Grant, Cleveland, Fuller, McLean, Astor, Vanderbilt and others will be asked to act as a general committee to carry out the movement in such a manner as they may deem proper.

Minister Accused of Wife-Beating.

Binghamton, N. Y., Nov. 6.—An edict has been issued by the Right Rev. Bishop Huntington suspending the Rev. R. Eugene Griggs, an Episcopal minister of this city, pending the investigation by an ecclesiastical court into charges of wife-beating and desertion made by Mrs. Griggs. Mr. Griggs has already been fined $25 in the police court for wife-beating, and was compelled to give security to support his wife a year. Other charges affecting his moral standing will come up before the ecclesiastical court.

AT THE THEATRE.

As the cue is given, a last look into the mirror testifies to a fairness not gained with paints and powders, but by the use of a soap free from harmful alkali, and made of clean vegetable oils. Such a soap is "Ivory"—it is 99 44/100 per cent. pure.

COPYRIGHT 1899 BY THE PROCTER & GAMBLE CO. CINCINNATI

Reagan to Unveil Davis Monument.

Austin, Tex., Nov. 6.—Judge John H. Reagan of this city, the only surviving member of the Confederate Cabinet says he has accepted the invitation extended to him in response to an expressed wish of Mrs. Jefferson Davis to unveil the monument to the late Jefferson Davis at Richmond, Va., on Nov. 9, at the time the monument to Winnie Davis is also to be unveiled. Judge Reagan will also deliver an address on that occasion.

Miss Rohrer to Name the Comus.

Newport News, Va., Nov. 6.—The sponsor for the new steamship Comus, building here for the Cromwell line, has been selected. She is Miss Josephine Rohrer, daughter of Commander Rohrer who has been attached to the battleship Kentucky as executive officer. She has arrived here from Burlington, Vt. The Comus will be launched on next Thursday instead of Tuesday.

Razor May Cause His Death.

Camden, N. J., Nov. 6.—Bert Adams, 8 years old, the son of Elmer Adams, a barber, tried to shave himself, and as a result of injuries probably will die. The boy was playing in his father's shop and, obtaining a razor, began to shave. The blade slipped and cut a deep gash in the lad's throat. Physicians say the young man's recovery is out of the question.

The "Peeper" Goes Free.

New Haven, Conn., Nov. 6.—Frank H. D. Chase, instructor of English in Yale University arrested last week on the charge of trespass for looking into the windows of houses, has been discharged in the police court. There were no prosecutions.

To Outdo The X-Rays.

Toledo, Nov. 6.—M. F. Howe, a scientific student residing at Forrest, has placed in the hands of Toledo attorneys plans and principles by which he says he has demonstrated whereby the invisible is to be made visible to the naked eye. As soon as his rights are protected he proposes to publish the principles which were evolved after ten years of study.

Feud Cases are Postponed.

London, Ky., Nov. 6.—Judge Brown reached Manchester and ordered Acting Judge Eversole to dismiss court in the feud cases until after the election, which was done. Dan Parker was sentenced to ten years in jail for killing A. C. Turner. The Griffin trials will not come up before the latter part of the week.

The Germanic's Mail Has Arrived.

Boston, Nov. 6.—The foreign mail that left England on the Germanic of the White Star Line has arrived here on the Canada, to which it was transferred after the accident to the Germanic. There were 1,327 sacks of the mail, most of which was for New York.

Wheeler Will Return Home.

Nashville, Tenn., Nov. 6.—Judge W. J. Wood of Florence, Ala., has received a letter from Gen. Joseph Wheeler, who says that he will resume his seat in Congress when that body meets. Gen. Wheeler does not say when he will return from the Philippines.

Dewey Gets Another Invitation.

Newark, N. J., Nov. 6.—The trustees of the New Jersey Historical Society have elected General William E. Stryker of Trenton president for the year. The society has invited Admiral Dewey to the centenary observance of the death of Washington.

Got Judgment Against Railroad.

Richmond, Va., Nov. 6.—The crimes committed by railroads are many. The Buckingham Circuit Court has rendered a verdict of $500 against the Chesapeake and Ohio for giving a man's family malarial fever by allowing water to stand along its line.

NOMINATIONS.

DEMOCRATIC. UNION COUNTY.	REPUBLICAN. UNION COUNTY.
For Senator, JOHN H. HILLMAN, of Plainfield.	For Senator. JOSEPH CROSS, of Elizabeth.
For Sheriff, JACOB GLASER, of Union.	For Sheriff, ROBERT A. HOUSTON of Elizabeth.
For County Clerk, WILLIAM M. OLIVER of Elizabeth.	For County Clerk, WILLIAM HOWARD, of Rahway.
For Assemblymen, JOHN J GARDNER, of Elizabeth. W. H SWAIN, of Summit.	For Assemblymen, ELLIS A. MEEKER, of Elizabeth. CHESTER M. SMITH, of Westfield.
GEORGE J. REISS, of Union.	CHARLES S. FOOTE, of Plainfield.
For Coroner, DR. W. E. CLADEK, of Rahway.	For Coroner, DR. J. W. GRAY, of Summit.

SOMERSET COUNTY. DEMOCRATIC.	REPUBLICAN.
For Senator, JAMES J. BERGEN.	For Senator, CHARLES A. REED.
For Assemblyman, L. M. S. DUFOUR.	For Assemblyman, E. E. COOPER.

In a letter to the New York World yesterday Senator Reed summed the situation in Somerset county as follows: "Busy men have little time for politics, but I believe the people generally are well satisfied with the national and State administrations, and are proud of our flag and its defenders, and will show it by their vote tomorrow. Considerable quiet but effective work is being done by both sides to get the vote out, and in my opinion the county will give a substantial Republican majority."

The election in this State tomorrow is for sixty Assemblymen and eight Senators. There are seven Republican Senators whose terms now expire and one Democrat. The Assembly now stands, Republicans, 37; Democrats, 23; and the Senate, Republicans, 14; Democrats, 7. A State Comptroller and Treasurer will be elected next winter by the Legislature, and Senators now chosen will vote for United States Senator to succeed Senator

BATTLEFIELDS IN SOUTH AFRICA.

The map gives a clear idea of the location of some of the battlefields in the present South African war. Glencoe, the scene of the fiercest fighting so far, was finally evacuated by the British, their forces falling back to a junction with the chief command, under General White, at Ladysmith.

ewell in 1901.

The note printed in these columns a few days ago to the effect that a voter whose name was not on the registry list election day could swear in his vote, proves to be erroneous. The information was printed on what was considered good authority, but further investigation shows that if a man's name is not on the registry list tomorrow there is no way for him to vote.

It is a serious duty every man owes to his country to vote. It is the men who hold aloof from exercising the suffrage of ballot that are as much to blame for the unsatisfactory condition of the body politic as those who work and vote to bring success to the dominant political parties to whose leaders the so-called "better element" attribute the ills of government.

Notwithstanding the internal troubles in the Republican organization in this city, those who have undertaken the management of the campaign this year are working like Trojans for the success of the G. O. P. standard bearers, and predict that Plainfield's Republican majority will be up to former figures.

The Home Visitor, a weekly paper at Flemington, has suspended publication. The Home Visitor has been the official publication organ of the Fourth Congressional District. It was the only prohibition newspaper in Nothern New Jersey.

The regular Republican ballots that the Republicans mailed to all the voters in this city yesterday have a prominent error in the first word at the head of the ticket. What should be the word regular is spelled "recular."

The time has passed when Democratic politicians pray for inclement weather on election day. Politicians, irrespective of party affiliations, delight in seeing clear, balmy weather for the day when election is held.

In a signed statement in yesterday's papers Senator Cross predicts a Republican victory in Union county by majorities ranging from 1,500 to 1,800.

The local Democracy will commence work on election morning with more system and aggressiveness this year at anytime within the last ten years.

It is reported that a good many politicians in Plainfield have arrenged for hunting expeditions election day.

PASSING COMMENT

Things that Are Not Exactly News but Just as Interesting.

Fitful gusts of wind blew sheets of rain into the faces of pedestrians last Friday night. Some whom the rain beat down upon were belated politicians who had been detained at the Democratic headquarters, where the glad hand had been extended to the faithful. One well known local politician on his way home about 11:30 o'clock was surprised to find a crowd in front of a North avenue hotel.

"Something unusual has happened," said the belated wayfarer to himself. Visions of an accident or a fire flitted through his mind. Seeing several people hurrying across the street, two or three of whom were women, the politician's curiosity was aroused and he hastened along. Pushing his way into the crowd about the door of the hotel the now thoroughly excited politician breathlessly exclaimed:

"Is any one hurt?"

A bleer-eyed individual, with an unsteady gait, looked quizzically at the politician and then in a voice denoting satire, replied as he cast a disdainful glance at his questioner.

"Hurted? Why, de sailor is knocking h—l out of him."

"Out of who—what do you mean? What on earth are you talking about, my friend," excitedly exclaimed the belated politician suddenly assuming an interest in the tough specimen beside him.

The other man gazzed at the politician for about ten seconds and then ventured a reply as he looked with disgust toward the man who had to him displayed such apparent ignorance:

"Why, Sharkey's lickin' dat big stiff from California to a standstill."

Noticing a far-off expression in the eyes of the belated politician the man with the unsteady undermining volunteered further information to the effect that he was referring to the big battle of Jeffries and Sharkey at Coney Island.

The belated politician turned from the crowd in disgust, and as he left some one overheard him say something that sounded like——well, it is immaterial what he said; it might not look well in print.

"Say, Bill, who was dat guy?" asked the unsteady individual of an acquaintance as he gazed in astonishment after the figure retreating down the street.

"Why, don't you know him? Dat's Jim Martine, de 'farmer' orator. He's alright; but I guess he ain't much on scrappin' exhibitions."

• • • • •

J. Bislin, assistant paymaster of the U. S. Army, who has just returned from Cuba, has been stopping for a short time with his friend, F. K. Van-Auken, of this city. He tells some interesting things in connection with his experience in Cuba. He paid $14 a week for board, and the food he received was hardly sufficient to keep a man in good health. Two meals a day were served, and they were very light. Breakfast was served at 10 o'clock and dinner about 4 o'clock in the afternoon. Between those hours the streets are deserted, as no one as a rule go out of doors. Mr. Bislin is very glad to get back home and has no desire to return to Cuba for the present.

EARLY INTELLIGENCE.

—The Ladies' Aid Society, of the German Reform church will open their fair and bazaar tonight.

—The rite of baptism was observed at the Mt. Olive Baptist church last evening. There were several candidates.

—This is the weather for fine oysters. The finest are at Rogers. We are the only handlers of Blue Point oysters.

—On account of the storm Miss Beeching did not address the Loyal Temperance Legion, but is expected tomorrow. All members are urged to be present.

Working Night and Day

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. Every pill is a sugar-coated globule of health, that changes weakness into strength, listlessness into energy, brain-fag into mental power. They're wonderful in building up the health. Only 25c per box Sold by L. W. Randolph.

—This evening an important meeting of the Common Council will be held.

GIVE THE CHILDREN A DRINK

called Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee but is free from all its injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant but a health builder, and children, as well as adults, can drink it with great benefit. Costs about ¼ as much as coffee 15 and 25c.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

AMERICAN STEAM LAUNDRY,
122 East Front Street.

Special Overcoat Sale
FOR THIS SATURDAY.

We purchased 138 extra fine men and boys' sample overcoats. These garments were made especially for the manufacturer's show room. No custom tailor can produce anything finer or more stylish work on overcoats like these for less than from $15.00 to $35.00. They consist of the very best kersey, melton and patent beavers, plaid-backed coverts and whipcords. This entire sample lot was made up for this season's trade by one of the best clothing manufacturers in the United States.

There are not more than two or three of a kind, but on account of having such a large lot we are able to fit any man between the sizes 34 and 44. Here are the prices that we are going to sell them at.

LOT No. 1 consists of heavy weight beavers and covert cloths, lined with the best plaid worsted, satin yoke and velvet collars, wholesale price $8.00, 10.00 and 12.00. This lot to go at your choice, $4.75

LOT No. 2 consists of 40 extra fine men's overcoats, made and trimmed in the latest fashion, in black or blue meltons, kerseys and beavers, lined with first-class all-wool clay diagonal worsted, satin piped and French facing. These overcoats were actually sold at wholesale from $12.00 to 16.00. Your choice at $5.75

LOT No. 3 consists of 30 very handsome overcoats, cut in the short box style, full backs, satin lined, an overcoat that is good enough for a banker's son, wholesale price from $14.00 to 21.00, to close out this lot at $6.75

LOT No. 4. This lot will include the very best overcoats of this entire lot, and are the handsomest lot of overcoats ever shown in Plainfield, are lined with pure silk lining, have silk velvet and hand-made collars. Over 14 different styles of meltons, kerseys, coverts and patent beavers that sold at wholesale from $18.00 to 28.00. Price for this sale, $8.75

A Few Specials in Men's Suits.

First-class men's business suits in heavy weight cheviot cassimeres and homespuns cut down for this sale in price to $2.50, 3.00, 3.75 and 4.50. Other stores could not buy them wholesale for double this price. Men's dress suits made of very heavy black or blue serge with double-breasted vests, also black and blue worsted cheviots and worsted stripes and checks made up very stylishly and elegantly to be sold at $4.50, 5.50, 6.00 and 7.50. Other stores would consider them worth from $10.00 to 15.00.

Full line of children's suits at half regular retail price. Men's trousers from 75c upwards. Knee pants at 21c. Men's winter caps at 15c. All-wool men's gloves at 20c. Men's heavy working shirts at 19c. Linen collars at 5c. Men's all-wool half hose at 9c, and a great many other bargains to be had by attending this sale. Remember this is the cheapest place to buy your men's, boys' and children's clothing.

Customers from Dunellen, Lincoln, Bound Brook, Somerville and New Brunswick will have their car fare paid by buying a reasonable amount of clothing.

New York Clothing Company
M. WEINBERGER, Mgr.
214 W. Front St. Next Door to Music Hall.
Plainfield, N. J.

We Want You To Know

That for many years we have not had such a large stock of new fall and Winter Up-to-Date Shoes as now

They have all been bought at the old prices, and our patrons will receive the advantage thus gained.

We are positively selling a better shoe today for the same money than ever before.

We are right up in the front ranks of the shoe trade, and are in good shape to offer unusual inducements.

Just put on sale a new shipment of Peddie's Trunks, Dress Suit Cases and Hand Bags at the old prices. Remember our "specialty" shoes are having a big sale; don't go out of town for shoes.

DOANE & EDSALL.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Daily Press.)

Dunellen, Nov. 6.—The Dunellen football team did not play with the Somerville boys Saturday as expected. The home team had made every preparation to do so, but shortly before the time set for the game the manager received a telegram from the Somerville team's manager to the effect that they would not be on hand. The announcement was a great disappointment to the members of the team as well as many of the citizens, who had looked forward to witnessing a stiff game. No reason was assigned by the Somerville team for its non-appearance.

Messrs. Woodhull & Martin have had painted upon the side of the waiting room at the terminus to the trolley lines at the Dunellen end a sign offering a reward of $10 for the arrest and conviction of any person who defaces the structure.

The glee club of Rutgers' College will give an entertainment at Friendship Hall, New Market, next Thursday evening for the benefit of the Baptist church.

George Campbell has moved his familly to the borough from Montrose, Pa., and is to occupy the house made vacant by the removal of S. S. Frank Tinsman.

While attempting to open a can of cooked meat a few days ago, Mrs. Flora P. Wrench, of Lincoln, accidently cut three fingers of her left hand.

Mrs. Joseph Maier, of the Park Hotel, have had as their guests recently Mrs. Mary Boyle and Mr. and Mrs. James Doyle, of Cranford.

Mr. and Mrs. William H. Cole have been entertaining Mrs. Stewart W. Smith, of Clinton and Miss Gertrude Parke, of Butte City, Mont.

Fred Sandford has returned home after a stay of about five months in Maine. He is stopping at Taylor's hotel.

The steel works at Lincoln is rushed with orders and there is reported to be plenty of light work for young women.

Tomorrow being election, Abe Gulick, of Lincoln, will have teams in readiness to carry voters to the polls.

The condition of Jesse Dalrymple, who is seriously ill, is about the same at this (Saturday) writing.

Mrs. Catherine Maier, of Port Reading, is visiting her son, Joseph Maier, of the Park Hotel.

C. D. Taylor has a new horse which he recently came into his possession of a drawing.

The residence of R. F. Bogardus on Main street has been painted by Wm. Corlell.

Mrs. A. N. Randolph has been entertaining Mrs. J. B. Sproul, of Jersey City.

PLAINS AND FANWOOD

(Special Correspondence of The Press.)

Scotch Plains, Nov. 6—What promises to be a good football game will be played upon the local gridiron tomorrow afternoon at 3 o'clock, when the home eleven meet the Dunellen team. Both teams have been practicing hard and an interesting game is looked for.

The trolley company are at last making an attempt to make the Park avenue crossing passable. A layer of crushed stone is being put on and when rolled will be a blessing to those who have been using the cars during the wet weather.

Tomorrow is election day, and the leaders of both parties are working hard to get the vote out. The registry this year is one of the heaviest since Fanwood borough separated from the township.

Mrs. Frederick Hoppell and sister, Miss Trantman, have returned from a visit of several days with relatives in Brooklyn.

Mr. and Mrs. Charles Grant, of Plainfield, were the guests Sunday of Mrs. Grant's parents, Mr. and Mrs. T. M. Paff, Sr.

The trolley cars were kept pretty well filled each trip Sunday afternoon with visitors to the village.

The Public School will observe tomorrow as a holiday much to the delight of the children.

Louis B. Tuzo, of Fanwood, started Saturday upon an extended business trip to Porto Rico.

Miss Annie Parse led the Young People's meeting in the Baptist church last evening.

Mrs. Wm. Gere has returned from a pleasant visit with her parents in Brooklyn.

Miss Emma Clark entertained the Misses Gaskills, of New Market, yesterday.

THE AMUSEMENT WORLD

CURRENT ATTRACTIONS THAT PLAINFIELDERS MAY WITNESS.

Local and Metropolitan Performances That Will Please Those Who Delight in the Art of Thespis and Mimic World.

"The Gunner's Mate," which will be presented at Music Hall Thursday night, is not a war play. It is a drama of strong human interest, relieved by comedy. The play is in four acts and five scenes. The first act transpires in a sailors' boarding house in New York city. The second act shows the forward deck of the U. S. S. New York, the vessel being at anchor off Staten Island in New York harbor. During the third act the ship is at sea. The first scene of the third act shows the between decks, with the sailors off duty enjoying themselves, and will be a faithful representation of how our sailors amuse themselves when off duty. The second scene of the third act is in the fire room of the ship The final act of the play is in a fashionable home in New York. To get the truthfulness of the stage pictures, Manager Pitou has engaged Harry W. Fero, bugler of the U. S. cruiser Boston.. Fero receives his honorable discharge Nov. 8th, after five years' service in the navy. He was bugler on the Boston with Admiral Dewey's fleet at the time of Dewey's great victory at Manila Bay.

* * * * *

"The Sidewalks of New York," one of the latest New York Star Theatre productions, has been secured by Manager Maze Edwards for presentation at Music Hall next Saturday night.

* * * * *

The only American Indian actress, Go-Won-Go-Mohawk, appears at Music Hall tonight, and her performance is looked to with much interest. The play, "Wep-Ton-No-Mah, The Indian Mail Carrier," is by the pen of Miss Mohawk. Everything in this production tends to stamp indelibly upon the minds of its patrons the real, true life of the border. It is mounted splendidly, reminding one of the numerous romances of the prairie, which has been written by writers of such fame as Fenimore Cooper. Its sensationalism is not beyond that of the usual melo-drama, and never does it descend to the level of the blood-and-thunder type It is needless to enter at any length into the plot. Wep-Ton-No-Mah determines to spend her life in revenging the murder of her father, how she follows the trail for such a long, weary while, without success, how after long years of patient waiting, she is rewarded with ample revenge, a bowie knife fight settles once and for all the Murderous Mexican who robbed her of him she loved most dearly in all the world, 'her father."

Red Hot From the Gun

Was the ball that hit G. B. Steadman, of Newark, Mich., in the Civil War. It caused horrible Ulcers that no treatment helped for 20 years. Then Bucklen's Arnica Salve cured him. Cures Cuts, Bruises, Burns, Boils, Felons, Corns, Skin Eruptions. Best Pile cure on earth. 25cts. a box. Cure guaranteed. Sold by L. W. Randolph, Druggist.

WESTFIELD.

(Special Correspondence to The Daily Press.)

Westfield, Nov. 6—There was a free fight at the Italian colony on Central avenue last evening which might have ended in murder had not Justice of the Peace Collins arrived on the scene, and with drawn revolver broke up the gang. It appears that one of Westfield's celebrated characters, by name "Jack" Kelly, and a friend went to the Italian saloon and because the barkeeper would not serve them with a drink began to smash up things and one hit the barkeeper. This started a free for all fight and the Italians were beating Kelly when Collins arrived. No arrests were made at the time but it is expected that some will be made during the day.

WASHINGTONVILLE.

(Special Correspondence of The Daily Press.)

Washingtonville, Nov. 6.—The following named pupils have not been absent or tardy from the Washingtonville public school for the month of October: Bertha Bicknell, Ernest Bicknell, Charles Bicknell, Clara Mersing, John Queed, Clara Dembowski, Sadie Bilyew, Lilly Willis, Noral Reed and Ernest Reed. Number of pupils enrolled in both departments is 62.

—Friday afternoon in the parlors of the Crescent Avenue church the Woman's Home Missionary Society will hold its usual meeting for sewing.

—A valuable property for business purposes on West Front street, in the vicinity of Central avenue, will change owners this week much to the surprise of some people, who after it is sold will wish they had bought it.

PEOPLE COME AND GO.

SHARKEY POSTS A FORFEIT.

He Deposits $5,000 For a Return Fight With Champion Jeffries.

New York, Nov. 6.—Jim Jeffries and Thomas Sharkey, both looking considerably the "worse for wear," are about the streets as usual again. The Sailor carries his left arm in a sling, has a black eye and is nursing a broken rib as a result of his prize ring experience with Jeffries at Coney Island on Friday night, and the boiler-maker carries a black eye and a broken nose as a reminder of what happened to him on the same occasion.

Sharkey's manager, Tom O'Rouke, has posted a forfeit of $5,000 with a New York evening paper for a return match with the champion with the stipulation that the next meeting must be fought to a finish and not a limited round contest. It is understood that Jeffries has agreed to meet the sailor on these terms and that the side bet shall be $20,000—ten thousand dollars a side.

Both Sharkey and Jeffries are to go on the stage and appear in the burlesque "Around New York in Eighty Minutes."

COMPANIES TO COMBINE.

Project on Foot to Get All Factories In One Concern.

Savannah, Ga., Nov. 6.—A well-defined rumor in business circles has it that all of the naval stores companies of Savannah, and probably Brunswick, are to be brought into a combination with large capital. The promoter of the enterprise is understood to be J. K. Garnett. He has been working up the scheme with a Mr. Barber, an attorney of Boston.

The general plan, as it is understood, is for the organization of one large company with a capital of $12,000,000 to $15,000,000, to buy up all the large factories and form one gigantic company. It is stated that some of the large houses in Savannah have given options on their business.

A number of naval stores men have given tacit confirmation to the rumor that the deal is on foot. It may be consummated next week. Savannah is the leading naval stores market of the world. A consolidation of interests here would dominate the markets at home and abroad.

Freight Cars in a Runaway.

White Plains, N. Y., Nov. 6.—Another accident happened on the Tarrytown, White Plains and Mamaroneck Railroad. Thompson, a conductor in charge of three trolley freight cars, while going down the Mamaroneck hill in that village, lost control of his train, and the freight cars dashed into a passenger car which stood at the terminus of the road at the foot of the hill. Thompson was thrown from his car, and his head and face were severely cut and one of his legs was injured. There were only two persons in the passenger car, and they escaped with a shaking up. The platforms were demolished and all the windows broken.

"Dead" Man Came to Life.

La Salle, Ill., Nov. 6.—The body of a man was found in a pasture north of Peru about ten days ago and identified by Mrs. John Roberts as her husband. The Coroner's Jury brought in a verdict of death from exposure and exhaustion. The body was buried by Mrs. Roberts in the family burying ground and Robert's insurance collected of his wife. Now she receives a letter from her husband, who, it appears, is in the County poorhouse in Ottawa, where he had been sent by the Supervisors.

Want Export Duty Removed.

Austin, Tex., Nov. 6.—A despatch from Cordova, State of Vera Cruz, Mexico, says that the principal ceffeo growers of Mexico have presented a petition to the Mexican Government asking that the export duty of 3 cents a pound on coffee be removed. The request will be complied with immediately upon the arrival of Secretary of Finance Limantour from the United States.

Plenty of Kilts.

A Scottish paper says that between 150,000 and 200,000 kilts are made every year. The kilted regiment of regulars, militia and volunteers number some seventeen battalions To these may be added the pipers, belonging to Lowland regiments, making in all about 14,000 men. As the military kilt is only provided biennially, this represents a supply of 7,000 each year.

Hollanders Smoke Most.

The Hollanders are perhaps of all the northern people those who smoke the most, the humidity of their climate making it almost a necessity while the moderate cost of tobacco with them renders it accessible to all. To show how deeply rooted is the habit, it is enough to say that the boatmen of Holland measure distances by smoking.

Elephants Have Eight Teeth.

Elephants have only eight teeth, two below and two above on each side. All Baby elephants' teeth fall out when the animal is about 14 years old, and a new set grows.

Nasal CATARRH

In all its stages there should be cleanliness.

Ely's Cream Balm cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Druggists or by mail; Trial Size, 10 cents by mail.

Lokal-Nachrichten aus der alten Heimath.

Freie Städte.

Hamburg. Die diesjährige Auswanderung über Hamburg zählte 48,997 Personen gegen 29,688 im Vorjahr. Deutsche waren dabei 7928, gegen 6221 im Vorjahr.—Kürzlich ist hierselbst eine große öffentliche Bücherhalle mit mehr als 10,000 Bänden eröffnet worden. Außerdem liegen in den vier Lesezimmern mehr als 120 Zeitschriften zur allgemeinen Benutzung aus. Diese Benutzung der Bücherhalle ist natürlich eine unentgeltliche. Der Andrang von Lesern ist nun ein so gewaltiger, daß der Vorstand der Halle bereits eine Vergrößerung derselben in's Auge gefaßt hat.—Kapitän Armbrust des hiesigen Seeschleppers „Herkules" ist während eines heftigen Sturmes auf der Ostsee von den Wogen über Bord gerissen worden und ertrunken.

Bremen. Für den Weiterbau des zweiten Freihafens bei der Stadt Bremen werden eben wieder 1,786,000 Mark gefordert, nachdem vorher bereits 3,400,000 Mark bewilligt waren. Es ist dies indeß nur ein kleiner Theil der Gesammtkosten; diese werden etwa 25,000,000 bis 30,000,000 Mark betragen. Immerhin ist es sehr erfreulich, daß der Seeverkehr an der Stadt durch die Korrektion der Unterweser so entwickelt ist, daß ein zweiter so großer Hafenbau erforderlich wurde.

Lübeck. Die Fertigstellung des Elbe-Trave-Kanals, die bis zum Frühjahr nächsten Jahres erfolgen soll, wird, wie nunmehr feststeht, bestimmt zu diesem Termine erfolgen. Die umfangreichen Brückenbauten, die bei der Einmündestelle des Kanals in die Trave erforderlich sind, gehen zum Theil schon ihrer Vollendung entgegen. Schwierigkeiten dürfte noch die Fertigstellung der maschinellen Anlagen für die Hubbrücken machen, allein auch hier steht eine Ueberschreitung des ausbedungenen Lieferungstermines nicht zu erwarten. An dem Kanalhafen selbst, der sich an der Wakenitzseite um Lübeck herumzieht, sollen umfangreiche Lösch- und Lagerplätze während des Winters hergerichtet werden.

Oldenburg.

Elsfleth. Als der Matrose Karl Diercks von Urlaub zurückkehrte und an Bord des Häringsloggers „Elsfleth" gehen wollte, that er einen Fehltritt, stürzte in's Wasser und ertrank.

Braunschweig.

Braunschweig. Das Schwurgericht verhandelte gegen die unverehelichte Jutta Seiden aus Galizien, die beschuldigt ist, am 13. März d. J. allein oder in Gemeinschaft mit ihrem steckbrieflich verfolgten Bruder Juda Seiden ihr drei Wochen altes Kind ermordet zu haben. Die Leiche wurde mit durchschnittenem Halse auf dem Felde bei Erzhausen aufgefunden. Die Geschworenen erklärten die Angeklagte des Mordes oder Todtschlages nichtschuldig, dagegen der Aussetzung mit tödtlichem Erfolge. Der Staatsanwalt beantragte 12 Jahre Zuchthaus. Das Gericht hob indeß das Urtheil der Geschworenen auf, da diese sich in der Hauptsache zum Nachtheil der Angeklagten geirrt hätten, und verwies die Sache vor das nächste Schwurgericht.

Großherzogthum Hessen.

Darmstadt. In allen Weinbau-Gemeinden wird jetzt geherbstet. Die vielfachen Befürchtungen wegen der Qualität des neuen Weines sind—wie immer—nicht allzu ernst zu nehmen, die Trauben haben sich zuletzt noch ganz gut entwickelt. Die Quantität befriedigt allerdings nicht überall.—Die auf Kosten des russischen Kaisers neuerbaute russische Kapelle auf der Mathildenhöhe wurde durch feierliche Einweihung ihrer gottesdienstlichen Bestimmung übergeben.

Bingen. Dieser Tage wurde ein erst kürzlich aus Amerika hierher verzogener Juwelier mit seiner Frau wegen Bigamie verhaftet. Der Verhaftete war vor einigen Jahren von Böhmen nach Amerika mit seiner Geliebten durchgebrannt und hatte dort Frau und Kinder sitzen lassen. In Amerika heirathete er die Geliebte.

Mainz. Der städtische Finanzausschuß beschloß die Errichtung eines eigenen Wasserwerkes für den neuen Schlacht- und Viehhof.—Die Frau des Schneidermeisters Bornkessel trank Nachts Schwefelsäure, an welcher sie unter den schrecklichsten Schmerzen alsbald verschied.—Ein frecher Diebstahl wurde hier Mittags auf offener Straße ausgeführt. Ein Fuhrunternehmer hatte auf dem Ballplatz einen Wagen mit zwei Pferden einen Augenblick ohne Aufsicht stehen lassen. Ein Dieb benutzte die Gelegenheit und stahl beide Pferde, die einen Werth von 3000 Mark repräsentirten.

Worms. Bei einem Streite wurde der Tagelöhner Johann Biegi von Worms von dem Schuhmachergesellen Kolb erstochen. Der Mörder ist verhaftet.

NEVER TO BE FORGOTTEN.

Terrible Discomforts of Post Cart Traveling in South Africa.

In the old days, while in South Africa, the traveler had to trust himself to the tender mercies of the post contractor, and we did so, as a rule, in fear and trembling. There were, as in all else, degrees in the various services, but the man who could have found pleasure in a trip even on the best roads must have indeed possessed a disposition of which Mark Tapley might have been proud. In some of the services on the principal routes from the Cape Colony and Natal the carts were well horsed, the drivers were thoroughly up to their work, and the conditions were made as desirable as was possible under the circumstances. But the carts had been built to suit the roads, the space was strictly limited, and the mails would absorb a considerable quantity of this space, and the unfortunate passenger, jammed in between a couple of other unfortunates, his knees compressed against a pile of bags and his back sore from constant friction against the seat, would sit in silent agony until his destination was reached.

The start from the town was always of the same nature. The four or six horses would stand pawing the ground while a couple of Hottentots would hang on to their heads, the driver would gather up the reins and crack his whip, the boys would spring to one side, and the equipage would disappear in a cloud of dust in the distance. On some lines this would hold good at all the various stopping places, but in others, once the first halt was reached, and civilization left behind, a span of weary mules would be dragged reluctantly forth, and the traveler's heart would sink into his boots, and he would glance reproachfully at the driver.

The mules would be inspanned and a fresh start made, and the driver's assistant would bring forth his short "sjambok" and prepare for business. Tender-hearted travelers would at first sympathize with the mules; later on the sympathy would be transferred to the wretched boy who had to urge them on, by jumping down from the cart every few minutes, and running alongside the animals and belaboring them.

After a time the traveler's sympathy for both would have vanished, and he would mentally consign both to the nether world. Like the Irish jarvey, the post cart driver firmly believed in "saving a trot for the avenue," and the coach would wheel into the village in a blaze of glory, the driver awakening the echoes with a shrill blast from his bugle.

The village would turn out to see "the cart" arrive. The postmaster would pull himself together and assume a severe judicial expression as of one who had weighty business on his hands and must not be lightly approached. The cart would pull up at the post office and disgorge the mail, and would then make for the hotel, and the traveler would alight to be welcomed by the host at the hospitable portals. The village would by this time be at the post office clamoring for their letters and passing unpleasant remarks as to the dilatoriness of the postmaster, heedless of the fact that that official was working like a galley slave inside. The little window would at length be thrown open and the public would receive their mail, and the postmaster would draw a breath of relief and retire into the innermost recesses of his dwelling, and peaceful night would once more settle down on the village.—South African Ex.

NUTRITIOUS FOODS.

Beef and Eggs Must Step Down From Their High Place.

Professor Atwater, who has devoted himself to the study for a number of years, declares that there is no single perfect food, the nearest approach to it being milk. No food, however, contains the essential constituents in right proportions, and thus we have to get what we want by combining our foods.

It will be a great shock to many thrifty housewives to learn that beef and eggs are among the greatest of all economical mistakes. A single dollar spend in wheat-flour will yield as much nutrition as $30 spent on sirloin of beef. Sugar ranks next to wheat-flour as an economical food, for a dollar's worth of sugar contains as much nutriment as $6 worth of milk, $12 worth of eggs, or $40 worth of oysters. In proportion to their cost oysters are almost the least nutritious of all foods. Beans and potatoes run a close race for the third place among valuable and cheap foods, and the fourth place is shared between fat, salt pork and cheese made from skimmed milk.

Wasted Energy.

Do you know a man who twiddles his thumbs all the time he talks to you, or his fingers, or possibly the watch chain which he wears? Or, if he does not do any of these things, he does something equally annoying.

It may be that you yourself, when you sit thinking what you will say next to your shorthand clerk, beat time with the tips of your finger nails while she taps her foot.

All these little idosyncrasies the neurologist classes as physical automatisms and regards as energy wasters.

Probably you will find yourself avoiding or stepping on cracks, or counting figures in patterns or the posts flying past the windows, grouping uniformly recurring shapes in wall paper or bisecting lines and rows of figures. The great Napoleon counted windows as he walked abroad, and if he happened to lose count his temper was completely upset for the rest of his walk. Everybody knows the story of poor old Dr. Johnson, who counted posts, and many sad, insane men are doing the same to-day. One should avoid as much as possible this tendency of mind and body to dissipate valuable energy.

Pie That "Ate" Well.

Ted's friend treated him to a piece of pie. It was so good that he wanted another, but thought that it would not be polite to ask for it. So he sidled up to her and said: "Miss Turk, that pie eats well."

WOMEN AND HOME

HOME POISONING.

The Pantry is a Prolific Source of Danger to Good Foods.

It is very desirable that the conditions under which food may become poisonous should receive more practical consideration than they do. A well-known physician has called attention to some glaring defects in the location of food storerooms, which are worthy of attention. In house construction the position of the pantry is too often treated as of minor importance. In some houses the space under the stairs or some equally unsuitable and inadequately lighted and ventilated place is thought good enough for the purpose. In a great number the pantry is a small offshoot from the house, the ceiling, floor and walls often being damp, owing to faulty construction; in some of these matters are rendered worse by the water taps being placed therein without any provision being made for carrying away the droppings from the tap or overflow, from vessels into which the water is run. One of the most frequent entries in his inspection notebook is "defective yard pavement," permitting of soakage of filth into the soil underneath. Not only is the soil thus rendered a good breeding ground for pathogenic microbes, it also supplies those conditions requisite for increased virulence.

Those Long Rooms.

Long, narrow rooms are more difficult to furnish artistically than are rooms of better proportions. If furnishing such rooms the endeavor must constantly be made not to interfere with the little width they already have, but to cut off the length in effect. Where two long rooms open into each other, screens and portieres may be effectively employed to give them a shorter and therefore a broader appearance. A sofa stood across a corner or a table so placed, especially with a screen behind it, helps to break up the length of an apartment. Another way to break up length is to form a group of objects, such as a table with books on it and a jardiniere with a couple of chairs close to it, as if inviting guests to sit there; this group should stand three quarters of the length of the room from its front or rear and a little to one side, to break the length of the wall line. Another way to make a room look less long and narrow is to place a large rug over the carpet floor and a lesser rug of another color effect just beyond it, placing a table on the smaller one.

Home Remedies.

For sore throat try a compress of cold water.

For bilious colic try soda and ginger in hot water.

For sick headache rub peppermint oil on the temples.

For nervous headache bathe the back of the neck with hot water.

For cold in the head try snuffing powdered borax up the nostrils.

A hop bag wrung from hot vinegar is a quick relief for earache.

Snuffing tannic acid is one of the best remedies for a serious case of bleeding at the nose. Dissolve the acid in water.

If an artery is cut tie a small cord or a handkerchief tightly between it and the heart.

For legache and the "growing pains" of which the children complain wrap the leg in salt water and then in flannel.

For neuralgia try wet cloths of alcohol and water, or paregoric, or laudanum and water, laid on a hot water bottle and the affected part steamed over it.

Tincture of arnica is the best applicaton for sprains and bruises, and equal parts of tincture of arnica and spirits of camphor make an excellent liniment for rheumatism.

A Good Polish.

An excellent cleaner and polisher for furniture with a very high finish is recommended by an experienced dealer in rare woods. To one tablespoonful of linseed oil add in equal proportion of turpentine, together with a piece of any pure soap the size of a walnut. Pour this into a vessel containing one quart of boiling water and let the whole boil for about ten minutes, stirring it occasionally so that it may be well mixed. This liquid can be used warm or cold, but experience teaches that it is more effective when warm. It can be heated several times before it will need renewing. Apply with a soft flannel cloth, well wrung out, to a small portion of the surface to be cleaned and after the dirt has been well wiped off take a fresh flannel to polish with, and a few minutes' vigorous rubbing will soon restore the wood to its original brilliancy. Crude oil is the polish used in most of the furniture shops. But it is well to remember that in the stores there is scarcely a day when each piece of furniture is not carefully wiped off with a soft cloth keeping the surface perfectly clean so that the aid of the oil is only called in to take off the cloudy appearance that will at times disfigure the most carefully tended furniture.

Skirts may be lengthened and the piecing concealed by means of stitching, braid, ribbon, a band of fur, or various other devices.

JOKE MANUFACTURE.

AN ARTIFICER GIVES AWAY A FEW SECRETS OF HIS CRAFT.

Writers Consider the Garb in Which to Dress Their Antiques—Served Up With Sauce Southern, Northern, Eastern or Western.

"I have come to regard an idea as purely a matter of merchandise," said a local newspaper man, who augments his salary by supplying pearls of thought to the Northern periodicals. "When I invent a joke, for instance, I immediately consider the garb in which it will bring the best price, and you would be surprised at the extent of my literary costume shop. To illustrate the point, I had a small inspiration this morning that I have not yet decided how to use. The simplest form would be a bit of dialogue to accompany a picture in one of the comic weeklies, in which case it would run about like this:—

"'Old Moneybags (severely)—I trust, sir, that you haven't contracted any new debts.'

"'Young Moneybags (with engaging frankness)—Oh! no sir; but I have succeeded in expanding a number of old ones.'

"I would label this 'Expansion Policy Up to Date,' and, if accepted, I would receive a check for the munificent sum of $1."

"But I have a good paper on my staff," continued the industrious young man, "that is fond of little anecdotes of the brand once popular in Harper's Drawer, and is essentially partial to a Southern flavor. If I send my jokelet there I shall dress it about as follows:—

"'One of the small tenants on the plantation owned by Colonel L. was a good natured, shiftless old negro, who answered to the name of Mose. Although Mose had an excellent piece of land that was cultivated with fair success by his numerous progeny, he was always hopelessly entangled in debt, and the Colonel took frequent occasion to lecture him on his improvidence. One day the old darky hobbled past the manor house, sunk, apparently, in the deepest dejection. "Hello! Mose," called the Colonel from the porch. "What are you looking so glum about?" "I'se might'ly 'stressed in mind, Kurnel," replied the tenant, mournfully. "Well, I suppose you've been contracting a lot of new debts," said the planter. "No, sah!" replied Mose, earnestly. "No, Kurnel; there ain't been no new debts 'tracted, but they's been er po'ful 'spansion of sommer th' ole ones."'

"Now that's an innocent little anecdote, not calculated to bring a blush to the cheek of any reader and illustrating what our Northern friends regard as the native wit of the colored brother. Such jeux d'esprit sell at three for $5.

"I might continue these lightning changes indefinitely," the speaker went on, "but I think I've covered my point. However, if I was running a series of dialect or character sketches I wouldn't use such a joke separately at all, but would store it away to work into the general drift of the text. Merely as an illustration, suppose I was the inventor of Mr. Dooley, which I wish to the Lord I was, I'd start off about like this:—

"'They'se no denyin' Hinnessy, that th' imper-rayel policy has taken fur'rm hould on th' imagination of th' toilin' masses', said Mr. Dooley. 'They're like th' lad on th' far'rm, pinin' to go to th' city to acquire exper-rience an' goald bricks. At prisent iverythings fer ixpansion. I was at Hogan's last night, an' young Tim, ye know he's a wild divvle, struck th' ould man fer fifty. "What fur?" says Hogan, "an' is it new debts ye've been contractin'?" says he. "No, father," says Tim, "it's ould wans," says he. "I've been ixpandin'," says he. "'Tis no wonder, Hinnessy, that——'

"But you see how it is. With a little care and ingenuity I can serve up my diminutive idea in almost as many different forms as Oscar at the Waldorf-Astoria can serve eggs, which I believe is 916. Sometimes I start to indite a two line text for a picture and expand the theme into a 3,000 word storiette. It's one of the tricks of the trade, me boy, without which I should be obliged to take my meals at a considerably cheaper hashery."—New Orleans Times-Democrat.

Verdant, But Obedient

"We see lots of strange things," said the talkative hotel clerk, "but one of the strangest that ever happened along this way came in one day last March—an old man with a carpet bag and an old umbrella who wanted to know if this was a tavern. I assured him it was, and he said he guessed he would hang up with us a bit if we didn't mind. He looked so green and innocent that I congratulated myself that the house used electricity for lighting purposes and that there was no gas for him to blow out.

"I handed him over to a bellboy with instructions to see him safely to his room and to carefully explain all the mysteries of a modern hotel. It wasn't two hours before a chambermaid sent down word that the old man was gathering up all the fire buckets on the floor and burning them up in the grate in his room.

"I charged up to his room to find out what he meant by such conduct. I found him in his room calmly smashing up the buckets by bringing his No. 14 cowhide boots upon them. The buckets were some that we had placed in the halls a number of years ago to be used in case of fire. But as we had lately placed five hydrants on every floor with reels of hose at every point, we had allowed the buckets to go into disuse.

"'See here!' I yelled as I took in the situation. 'What in the name of heaven do you mean by burning up those buckets?'

"'Why,' answered the innocent old codger, as he picked up one of the buckets, 'doesn't it say right here on them, "To be used for fire only?"'

"I wilted and told him to go ahead. They were not worth much, anyway, and I was afraid if I didn't allow him to go ahead that he might break out at some other spot that would cost us more."

Ethel: "They say it costs Percy Von Noodle £2,000 a year to live."

Penelope: "Dear me! Then what does he do it for?"—Tit-Bits.

SHOPLIFTING.

Ways That Are Dark And Tricks That Are Vain.

There is no section of criminals that displays such varied ingenuity as shoplifters, said a clever detective who has had a long experience of the fraternity; and I can assure you that many of them might give lessons in cunning to the most artful Chinee.

Shoplifting is a science that appeals largely to women. Their sex, to a certain extent, disarms suspicion, especially when, as is usual, they are elegantly dressed, and do their shopping in a well-appointed brougham. Their dress gives them unlimited scope for the concealment of small articles; and again, the game is so comparatively free from risk, for if they are caught red-handed, as a rule it simply means an awkward interview with the proprietor, and payment for the goods appropriated.

You see, it does not pay a fashionable shopkeeper to give his house a bad reputation as a haunt of thieves; and, further, many of the lady-lifters are women with some standing in society, who are either kleptomaniacs, or who cannot resist the sudden temptation of annexing a pretty thing without payment.

Ladies of this class are novices in the art, and are readily detected. A common practice with them is to slip any small article from the counter into their umbrellas when the assistant's back is turned. If detected, it is the simplest of accidents, and the culprit apologizes prettily, and restores the article.

One lady, who had quite a long and successful career at counter-stealing, was always accompanied by a little girl, ostensibly her daughter, carrying a large doll. The mother, who was young and pretty, and faultlessly dressed, would hold the doll while she was being served (a very natural and prudent act with a valuable doll which the child might drop at any moment); and when the assistant's attention was withdrawn she would slip into the hollow interior of the doll any small article, from a bottle of scent to an article of jewelry, that might be lying near her.

Of course, nearly all city firms employ women detectives, smartly dressed and of lady-like appearance, who mix with the crowd of purchasers, and have a very keen eye indeed for these peculations.

The tricks of the male shoplifter are much more varied and subtle than those of his female rival. A very common practice is to carry a stick or umbrella with a hollow receptacle at the top. A spring releases the silver or gold mounted top; the stolen article, which must naturally be small as it is valuable, is slipped into the padded hollow, and the top sprung back again into position.

A very skilful thief made a hiding-place of the hollow part of an artificial forearm into which he could palm an article with lightning rapidity. One of the latest devices is to wear a glove with a pocket or a series of pockets in the palm; and while examining small articles of jewelry, rings, brooches, gold pendants, and so on, to slip one or more into the concealed pocket by a practised movement of the fingers.

Another trick is to carry some adhesive substance in the palm of the gloves, and by carelessly resting the palm on an article of jewelry to remove it. The opportunities for exercising these tricks while the assistant's back is turned, or while he is attending to another customer, are many.

But much shop-lifting is done with the help of a confederate, who strolls in casually while number one is making his purchases. One or two valuable articles are handed to the second customer, who is apparently quite a stranger to number one; and if the latter is suspected and searched, of course, nothing is found in his possession. Of till robberies, with smeared and hook-ended sticks, of false alarms which draw the shopkeeper in pursuit of imaginary thieves, leaving the real pilferer free to do his work, and of the hundred and one other artifices, it would require almost a volume to speak.

THE STAGE.

A Mirror of Fashion Where Correct Costumes Are Seen.

The stage continues to form the mirror of fashion. One scarcely need take in a fashion paper if one pays constant visits to the theatre. There one can study all the varieties of la mode and the latest and newest designs. Each play seems to have its own specialty in dress, its favorite color and its favorite dressmaker.

Possibly spectators never give a thought to the fact that these constant changes of costume form no inconsiderable portion of the fatigue incurred by an actress in a long and heavy part. Dress cannot be slurred over now. Gowns must be laced and buttoned up, gloves, shoes, hats, petticoats be worn to match. It was different in the good old days when actresses shuffled one gown over another and fastened them lightly with a button. The Japanese costume is one of the most intricate. The real Japanese lady wears three gowns, one over the other, a small portion of each showing at the neck, the gowns being artistically shaded, say, from pale pink to deepest rose, or from violet to sky blue. The chemise, too, match, and a special touch of deep, contrastive color is given by the waistband.

A Dog Buried in Style.

Fanny, a Newfoundland dog that died in New York the other day, had a satin-lined coffin, with a bunch of lilies of the valley and forget-me-nots on her breasit, in the home of her mistress, a widow, in Twenty-fourth street.

The widow wept bitterly until the afternoon, and then had her pet removed to a carriage, in which it was taken to a railway station and thence to the animal cemetery at Hartsdale. The bereaved widow will have a monument erected over the grave of the dog, and will lay fresh flowers upon it as often as she can spare the time. Grief takes many forms, and is suffered from all kinds of objects in a big community like that.

Russia could put in the field 155,000 cavalry to the 122,000 of Germany and Austria-Hungary combined.

Central R. R. of New Jersey

Anthracite Coal Used Exclusively, Insuring Cleanliness and Comfort

Stations in New York, foot of Liberty, and South Ferry Whitehall Streets.

TIME TABLE IN EFFECT OCT. 10th, 1899.

For New York 2 14, 3 37, 5 37, 6 29, 6 59, 7 26, 7 29, 7 55, 8 00, 8 13, 8 30, 8 37, 8 48, 9 16, 9 43, 9 58, 10 37, 11 10 a. m.; 12 09, 12 44, 1 35, 2 12, 2 29, 3 12, 3 46, 4 17, 4 55, 5 37, 5 54, 6 21, 6 30, 6 45, 7 06, 7 39, 9 30, 10 17, 11 28, p. m. Sunday 2 14, 3 37, 5 25, 7 19, 8 01, 8 52, 10 08, 11 10 a. m.; 12 00 m, 12 58, 1 45, 3 12, 3 30, 5 41, 6 52, 8 13, 8 32, 9 15, 10 22 p. m.

For Newark at 5 37, 6 29, 6 59, 7 26, 7 47, 8 13, 8 37, 9 43, 9 58, 10 37, 11 10 a. m.; 12 09, 12 44, 2 12, 2 29, 3 12, 3 46, 4 17, 4 55, 5 37, 6 21, 6 45, 7 39, 9 30, 11 28 p. m. Sunday 7 19, 8 52, 10 08, 11 10 a. m.; 12 58, 1 45, 3 30, 5 41, 6 52, 8 13, 8 32, 10 22 p. m

For Somerville at 5 18, 7 12, 8 19, 9 40, 9 54, 11 00, 11 59 a. m.; 1 01, 2 08, 2 20, 3 32, 4 35, 5 03, 5 27, 5 34, 6 04, 6 09, 6 19, 6 38, 7 12, 7 34, 8 21, 9 27, 10 26, 11 29 p. m.; 12 44 night. Sunday 5 45, 8 06, 9 55, 10 44 a. m.; 2 03, 3 40, 5 09, 6 35, 8 30, 10 15, 11 14 p. m.

For Easton at 5 18, 8 19, 9 54 a. m.; 1 01, 2 20, 5 27, 6 38, 8 21 p. m. Sunday at 5 45, 8 06 a. m.; 2 03, 6 35 p. m.

For Lake Hopatcong at 9 54 a. m.; 5.27 p. m.

WESTWARD CONNECTIONS.

5 18 a. m.—For Flemington, Easton, Allentown, Reading, Harrisburg, Pottsville, Mauch Chunk, Williamsport, Tamaqua, Upper Lehigh, Wilkesbarre and Scranton.

7 12 a. m.—For stations to High Bridge, connecting for stations on High Bridge Branch except Chester.

8 19 a. m.—For Flemington, D. L. & W. R. R. Easton, Bangor and Mauch Chunk.

9 54 a. m. For stations on High Bridge Branch, Flemington, D. L. & W. R. R. Easton, Allentown, Reading, Harrisburg, Mauch Chunk, Williamsport, Tamaqua, Pottsville, Shamokin, Nanticoke and Upper Lehigh, Wilkesbarre, Scranton, etc.

1 01 p. m.—Way for Easton, connecting at Junction for stations on D. L. & W. R. R.

2 20 p. m.—For Flemington, Easton, Bethlehem, Allentown, Mauch Chunk, Tamauqua, Sunbury, Williamsport, Wilkesbarre and Scranton.

5 27 p. m.—For Flemington and Easton, Bethlehem, Bangor, Allentown, Mauch Chunk, Reading, Harrisburg, connecting at High Bridge for stations on High Bridge Branch.

6 19 p. m.—For Flemington.

6 38 p. m.—For Easton and at Junction for D. L. & W. R. R.

8 21 p. m.—For Easton.

5 45 a. m. Sundays—For Easton, Bethlehem, Allentown, Mauch Chunk, Tamaqua, Sunbury, Lewisburg, Williamsport, Wilkesbarre and Scranton.

8 06 a. m. Sundays for Flemington and Easton.

TRAP DOOR SPIDERS

NEST CONSISTS OF AN EXCAVATED TUBE SIX INCHES DEEP.

Wonderful Intelligence Displayed by These Remarkable Insects—A Common Garden Spider Attaches Wood to Its Nest to Act as a Drag Anchor

A curious species of insect is the trap-door spider, whose nest consists of a tube excavated in the earth to the depth of six or eight inches. It is always lined with silk and it is closed with an ingeniously constructed door. One sort of door closes into the nest like a cork in a bottle; another is as thin as a piece of paper.

In all cases the door opens outward, and when the nest is placed, as it usually is, on a sloping bank, it opens upward, so that there is no fear of its gaping. The object of the trap-door is to conceal the nest, and consequently it is always made to resemble the general surface of the ground. Sometimes, however, an enemy attempts to open the door; and then the inmate braces its legs against the sides of the nest and holds it as fast as possible.

Still other spiders have inner doors besides outer, so that if their first defense be carried, they may have another behind which to retreat. More curious still is the ingenuity of the branch trap-door; that is to say, a door that opens from the main tunnel of the nest into a side branch, which the spider knows, of course, but which no stranger could discover, since there is nothing to distinguish it from any other part of the main nest. So, then, if an enemy should effect an entrance, the lawful occupant of the nest can quietly slip into the side branch, close the door and there remain in security while the intruder wonders what has become of her.

If all these wonderful things are done by instinct, have we any proof whatever of individual intelligence among spiders? Most assuredly. If we remember that intelligence is proved whenever we observe a manifest application of means appropriate to the accomplishment of particular ends, it is hardly possible to deny that there is some evidence of the intelligence of spiders. Many instances have occurred more or less like the following:

"One of my friends was accustomed to grant shelter to a number of garden spiders under a vacant veranda, and to watch their habits. One day a sharp storm broke out, and the wind raged so furiously through the garden that the spiders suffered damage from it, although sheltered by the veranda. The mainyards of one of these webs, as the sailors would call them, were broken so that the web was blown hither and thither, like a slack sail in a storm.

"The spider made no fresh threads, but tried to help itself in another way. It let itself down to the ground by a thread, and crawled to a place where lay some splintered pieces of a wooden fence, thrown down by a storm. It fastened a thread to one of the bits of wood, turned back with it and hung it with a strong thread to the lower part of its nest, about five feet from the ground. The performance was a wonderful one, for the weight of the wood sufficed to keep the nest tolerably firm, while it was yet light enough to yield to the wind, and so prevent further injury. The piece of wood was about two and one-half inches long, and as thick as a goose-quill.

"On the following day a careless servant knocked her head against the wood and it fell down. But in the course of a few hours the spider mended her web, broke the supporting thread in two, and let the wood fall to the ground."

A Persistent Collector.

A man did a little work about the premises of a Cleveland doctor and as the latter was not at home when the job was finished the man said he would come back for his pay. He came in the evening, and the doctor was away on a professional call. The man waited around for some time and finally said to the housekeeper:

"I come again pretty soon."

"Better come early in the morning," said the housekeeper.

The man nodded.

"Yes, I come," he said.

At just 3 o'clock next morning there came a furious ringing at the front door bell. Somebody in the household hastily answered the call and then came back to report to the doctor.

"It's that man, doctor, who did some work about the garden, and he says he wants his money."

"What!" roared the doctor. "Go back and ask him what he means by coming around here in the middle of the night."

So the maid went back and asked the man why he came so early.

"I come here yest'day afternoon, an I come again las' night," said the man. "Doctor no at home. I vait. He don't come no more. I say I call again. Vooman say, 'Come tomorrow morning early, you be sure to catch him.'

"The doctor is here," said the maid, "but he doesn't want to get up unless he has to."

"Vell," said the man resignedly, "I vill vait me here. So long I catch I don't care." And he sat down on the doorstep.

The maid went back and reported to the doctor and the latter thought of the silent figure out on the doorstep, and finally got up, and found out what the fellow had done, and paid him.

A Hard Hit.

A citizen whose home is up town has a great liking for working in his garden, as he calls his back yard. He gets up early in the morning, dons an old coat and starts out with rake and hoe. On his head he usually wears a shocking old cap that has been kicking about the premises for years.

The other morning he wore this cap to his place of business. Of course he did it by mistake and was greatly chagrined when he found it on his head. He fancied everybody was looking at him on the car and he felt quite sure the conductor grinned at his head covering as soon as he came within sight of it.

He didn't have time to go back for his derby, and so he stuck it out. He would have got through it pretty well he says, if it hadn't been for the aggravating remark of a street urchin who saw him alight from the car. Turning to a ragged companion he pointed at the cap and said:

"Say, Pete, dere's anudder of dem dude golfers!"

A DOUBLE CHIN.

If It Should Offend Thee, Have a Surgeon Cut It Off.

It is no longer necessary for women to suffer annoyance or chagrin from the double chin that so often accompanies good living and advancing age. Simpler and more effective than massage, diet and other prescribed treatments is the surgical operation which removes the superfluous flesh, and leaves so slight a scar that in a short time it disappears entirely. A New York woman who underwent the operation says: "I went to an eminent surgeon. He examined my neck, and said, 'Booh! That is nothing.' Then he listened to my heart, and declared that I could take anaesthetics with perfect safety. My double chin had been the bane of my existence for years. I dreaded the operation, but I made up my mind to submit to heoric measures rather than to endure continuous mortification. So to the hospital I went. The surgeon and his assistants were polite and considerate, yet the whole thing seemed terribly formidable. I had thought of backing out even then, but the surgeon gave me an encouraging word, and I marched to the operating table like a lamb to the slaughter.

After that I knew nothing until I awoke in a clean little room with my head swathed in stuff, that made me look like a mummy. The bandages that went around my chin and over my head contained something that stiffened after they were in place and held my head as if it were in a plaster cast. Outside of that came yards and yards or something like gauze. I felt a little sick from the ether, but otherwise I had no pain. But I dreaded the day when the bandages should be removed. I thought that would kill me. To my surprise, the doctor unwound and unwound the bandage until my throat was bare, and not a bit of sticking had there been. The vaseline, or something like it, which had been applied on the first layer of cloth had prohibited that. Then I was bandaged up afresh, but not so rigidly as at first. In ten days I was able to leave the hospital, and in a fortnight more no one would have have known that anything had happened to me, except that I had lost my double chin, a result that causes general comment upon my improved appearance and untold satisfaction to myself. If I should begin to lay on flesh there again I would think no more of going to the hospital to have it removed than of going to the chiropodist, or the manicurist.

CROKER'S CIGARS.

How a Senator Prevented the Discovery of The Real Donor.

At the Hoffman House they are talking of a scandal in Richard Croker's Democratic club. It appears that shortly after the elevation of one of the jurists of Tammany Hall to a seat in one of the minor Courts this gentleman thought it would be a kind and delicate thing to do to supply Richard Croker a sufficient number of cigars for his daily consumption. Therefore, whenever opportunity offered, he slipped a handful of perfectos into the pocket of the Democratic leader and said nothing about it. Mr. Croker, of course, was very much surprised when he put his hand in his pocket to find a lot of cigars, but the story runs that he was never able to catch the man who put them there. When Mr. Croker became a daily visitor at the Democratic Club, and it was his custom to take off his overcoat and hang it on a certain peg every night, he found a pocket of the coat full of cigars when he put it on.

According to the story, an eminent State Senator discovered this strange custom. So one evening, while awaiting the arrival of his chieftain, he noticed on which hook the coat was hung. He took it off, hung it on another hook, and substituted his own coat, with the result that the jurist was fooled and the Senator got the cigars. But that would not have been so bad had it not happened on this particular night. The Democratic chieftain was anxious to discover who it was who kept him supplied with so fine a brand of cigars. For the purpose of ascertaining, some of his friends made note of the absentees each night. Of course, if a man was not there he could not have put the cigars in the coat.

By this process of elimination on this particular night but two members were left under suspicion. One of these was the eminent jurist, and on that evening the Democratic leader found no cigars in his pocket, thus relieving the jurist of suspicion. The other member under suspicion was not there at all, so it was decided that he must be it.—New York Correspondent Chicago Inter-Ocean.

Isolation for the Church Mutineer.

"Perhaps the most effectual system with the mutineer in the church," writes Ian Maclaren in the November Ladies' Home Journal, "is not scolding and storming, but a policy of isolation. As nature makes a cyst and incloses any strange material so that it be kept separate from the body, let this man be imprisoned in a place by himself. If he should offer any remarks upon church affairs, let the other person answer on the state of the weather; and if he criticises a sermon, say that you are sorry to hear of his dyspepsia. If he rises to speak at a church meeting, let the silence be such as will be felt, and after he has spoken let the chairman call for the next business as though he had never existed. If he has ever to be spoken to, the best plan is to treat him as an absurdity, and play around him with ridicule, for this will give much innocent amusement to other people, and it is the particular attack which he cannot stand. Between loneliness and laughter he will depart to another church."

Small for His Age.

"Grandfather," said a saucy little boy the other day, "how old are you?"

The old gentleman, who was much under the ordinary size, took the child between his knees and said: "My dear boy, I am 85 years old, but why do you ask?"

The little fellow replied: "Well, it seems to me you are very small for your age."

At meetings of the British Cabinet no official record is kept of the proceedings.

THE HABITS OF FISH

WAYS OF THE SALMON, THE COD AND THE BLUEFISH.

Some Are Romantic, But Others Are Practical—The Cod Is Actually Ridiculous—Clams Are Silly, of Course—Bluefish Are Warlike.

It is not too much to say that in some ways the love of salmon passeth that of women. To reach the object of their affection they perform feats and undergo hardships greater than any man could do or bear, and to maintain it they fight with a courage and fury which might make many soldiers envious.

The salmon trials begin when they first leave the sea on their long upriver journey to meet their sweethearts. Presently, perhaps, they meet a high waterfall. Then the salmon backs away as far as possible, makes a locomotive-like rush and leaps for the top. He actually whizzes through the air, his tail is moving like lightning, his scales shine like silver enamel. Perhaps he fails to reach the top by a foot, but he catches the water, hangs suspended for a moment, and then with miraculous strength forces his way up and reaches the quiet water beyond.

Perhaps the next waterfall is five feet higher, and the salmon leaps in vain. Then, finding the feat impossible, he actually climbs the sides, jumping up from ledge to ledge and resting in little pools until the water above is reached. Then he goes on pushing through rapids and floundering over shallows until the spawning ground is reached. In many of the larger rivers of this continent the salmon is no beauty when he reaches his journey's end. His scales, perhaps, are torn off, his fins torn and his body a mass of bruises. But nevertheless he woes his ladylove boldly, caresses her tenderly, fights his rivals fiercely and wins his bride like a soldier.

But all fish are not so romantic. The codfish, for instance, is unsentimental and actually ridiculous. He is a great, gray, ugly fish, and his name itself is absurd. If there was such a thing as submarine humor he would figure in it as the goat does in our comics. The codfish has, in fact, an appetite which makes the goat's look pale, and when the fishermen cut the fish open they assert that they often find such things as scissors, suspender buckles, horseshoes, potato parings, oil cans, doorknobs, marlin spikes, corn cobs and India rubber shoes.

Another startling story told by fishermen is that in heavy weather codfish eat stones to balance them, but it is more likely that these rocks are taken in while attached to sea anemones, of which the codfish are very fond. It may be inferred that codfish do not object to nibble the fingers or hands of human beings, because the wedding ring of a drowned woman was once found in a cod's stomach, and the finder got £50 reward for its return.

Oysters and clams in the shell are very popular with the codfish, and there are vast heaps of dead shells in the ocean, "nested" together like strawberry boxes, which are believed to have once been in the stomachs of codfish. The appetites of these fish are insatiable. They will fill their stomachs, fill their gullets and fill their mouths with food and still try to get more.

If people knew more about the fish they eat it is possible that a slice of "baked blue" might fill many a man with shuddering horror, for the bluefish is perhaps the most terrible and bloodthirsty thing in all nature. The tiger has a sweet and cheerful disposition compared to the bluefish, the shark seems a phlegmatic and amiable creature, and the wolf, by comparison, is positively mild. The bluefish make menhaden their especial prey. When a school of these fish perceive bluefish near they swim away with such terrific haste that the ocean foams under them, but the bluefish cannot be distanced. They rush among the helpless menhaden, biting, tearing, thrashing and even throwing them into the air.

They do not stop to swallow their prey, but kill purely for the love of slaughter. The sea is reddened with blood and dotted with dead fish, but bluefish kill on until exhaustion stops them or until the menhaden get into such shallow water that the bluefish do not care to follow. Sometimes these helpless fish are so blind with terror that they swim ashore and are piled up in windrows a foot deep.

The bluefish do not eat one-tenth of the fish they kill, although when surfeited they are believed by some people to disgorge their food in order to take in another meal. It is estimated that during a fair season 1,000,000 bluefish are caught between New Jersey and Monomoy, and that about 999,000,000 remain uncaught. Thirty or forty fish are sometimes found in the stomach of one bluefish, but placing a bluefish's kill at only ten per day it will be seen that during their four months' yearly stay on the New England coast they destroy about 1,200,000,000,000,000 fish and that is excluding the vast numbers of minute fish eaten by little bluefish, which are not included in the estimate. Carried into avoirdupois it is calculated that 2,500,000,000 pounds of fish are eaten daily by bluefish. Nevertheless they are handsome and graceful fish. Very little is known of their other habits, but they are so nervous while in captivity that they develop corns on their noses by trying to push the latter through the glass sides of their tanks.—Los Angeles Times.

Bank Notes Destroyed.

The Bank of England destroys about 250,000 of its notes every week, to replace them with freshly printed ones. One evening in each week is set apart for the making of this expensive bonfire.

Drink in France.

Since the sale of alcoholic liquors in France has been restricted, the number of drinking places have increased, until now there is one saloon for 85 inhabitants.

A scientist has calculated that the eyelids of the average man open and shut no fewer than 4,000,000 times in the course of a single year of his existence.

Do You

Like to buy goods for what they are worth and pay for what you get?

OUR PRICES are based on the market and are exactly the same to all purchasers for the same goods and the same service.

We do not make special prices at cost to get the "Other Fellow's" customers and charge our own customers enough extra to make up, but if you give us an order you can feel that you are paying the same as several thousand other good buyers.

OUR GOODS are the regular standard grades of officially inspected stock. They are bought by our men in the West, handled through our own Mill and Elevator, and our customers not only save all middlemen's profits but get Grain that is absolutely clean, and Feeds that are made on the premises and are KNOWN to be pure.

THE PAUL T. NORTON CO.

Everything for Horses, Cattle and Poultry.

Elizabeth, Elizabethport, Red Bank, Plainfield, Somerville.

SPORTING.

ON THE GRIDIRON.

The younger generation of football players had a great contest Saturday afternoon on the Giraud avenue grounds. The game was between the elevens captained respectively by H. C. Smith and Vincent B. Miner. Smith's teams won by a score of 21 to 0. Miner's team made a stong fight, but the others were too much for them.

Among the Plainfield young men playing football on the various college teams is Nathan E. Lewis, of West Eighth street. Lewis is now playing centre on the Stevens Institute eleven for the second year. Although not very heavy, Lewis is considered an excellent man for the place, being quick and able to hold his own against many much heavier players. He was one of the tackles on the old Plainfield A. A. team and played centre on the Stevens School team.

GOLF

Tomorrow on the Hillside Tennis and Golf Club grounds the first and semi-final rounds for the Chapman cup will be played. Next Saturday the final play will take place.

In the contest at the Westchester Golf Club last week Mrs. N. Pendleton Rogers, Jr., of the Hillside Tennis and Golf Club, secured third position with a score of 113 from scratch. She played with a partner.

CYCLING COMMENT.

It is the general belief of those in a position to know that the price of bicycles in 1900 will be still higher than there are at present. The reasons for this are that only the best grade of wheels will be made, as the manufacturers with less capital will be crowded out of business. It is the opinion that in the future better wheels will be built and a standard price will be asked for them.

ROD AND GUN.

Fred Sandford, who has been spending sometime in Maine on a hunting expedition, has returned.

J. A. Smith has returned from a hunting trip through Virginia, and he brought back a large number of ducks.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, Bronchitis, Hoarseness and all diseases of the Throat, Chest and Lungs are surely cured by it. Call on L. W. Randolph, Druggist, and get a free trial bottle. Regular size 50c. and $1. Every bottle guaranteed, or price refunded.

In a Nutshell:

Regular collections; intelligent washing; careful ironing, prompt deliveries. This makes a good laundry. People who have known us as dyers for thirty years back may not realize that we are doing the largest laundry business in New Jersey. Send us your bundle for a trail.

HILLIER & CO.,

129 West Front Street,

Opposite Crosby & Hill's. 'Phone 851.

LEADERS ARE TIED FOR M'CUTCHEN CUP.

[CONTINUED FROM PAGE 1.]

advanced to third place. The twenty-one players who have scored points for the cup remained in the old order.

The scores handed in during the afternoon for the McCutchen Cup were as follows:

	Gross.	Handicap.	Net.
Gifford W. Cooley...	106	9	97
W. J. R. Thiers.....	107	9	98
W. de la R. Anderson	104	0	104
George T. Rogers...	128	21	107
M. T. Townsend.....	114	5	109
Meredith Dryden....	122	12	110
H. D. Hibbard.....	129	18	111

For the Buttfield Cup, nine holes, the score:

	Gross.	Handicap.	Net.
Miss Daisy Elsberg..	81	18	63

FINANCIAL NEEDS OF RUTGERS.

Rev. James Demarest, D. D., Appealed to Trinity Reformed Church for Help.

Rev. James Demarest, D. D., of Brooklyn, who occupied Trinity Reformed church pulpit yesterday proved himself to be a very entertaining and scholarly speaker. At the morning service he presented the financial needs of Rutgers Seminary, to a large congregation, in a very interesting and instructive address, that no doubt will cause the people of Trinity church to respond liberally to so worthy a cause. In the evening he delivered a grand sermon on the slaying, in battle, of King Ahab, as chronicled in twenty-second chapter of First Kings, taking as his text the first half of the thirty-fourth verse of the chapter named.

The Companion's New Calendar.

The Youth's Companion calendar for 1900 is unique in form and beautiful in design. The oval centerpiece, in high colors and enclosed in a border of flowers, represents "A Dream of Summer" and is supported on either side by an admirably executed figure piece in delicate tints. The whole is delightful in sentiment and in general effect. Larger than any of the Companion's previous calendars, it is equally acceptable as a work of art. As an ornament to the home it will take a pre-eminent place. The calendar is published exclusively by The Companion. It cannot be obtained elsewhere. It will be given to all new subscribers for 1900, who will also receive, in addition to the fifty-two issues of the new volume, all the issues for the remaining weeks of 1899, free from the time of subscription. Illustrated Announcement Number, containing a full prospectus of the volume for 1900, will be sent free to any address. The Youth's Companion, 203 Columbus avenue, Boston, Mass.

Imposed Fine of $3.

Andrew Mitchell, of Fourth street, was arrested in the borough Saturday night by Chief Marshal Campbell. He was intoxicated and somewhat disorderly. This morning at 9 o'clock he was arraigned before Recorder Long and a fine of $3 was imposed.

Week of Prayer.

The week of prayer for young men will be observed next week at the Y. M. C. A. It will commence Sunday and will be observed Tuesday, Thursday and Saturday evenings at 9 o'clock p. m. All young men are invited.

To Cure Constipation in One Week
To Purify the Blood in One Week
To Strengthen Nerves in One Week
To Cure Sick Headache in One Day

Take Cleveland's Celery Compound Tea, 25c. Trial size free. It it fails to cure your money will be refunded. T. S. Armstrong, the apothecary corner Park and North avenues.

JOTTINGS OF THE DAY

ENTERPRISINGLY GATHERED AND CONCISELY TOLD BY REPORTERS.

Newsy Notes of More or Less Importance Bunched Together for the Ready Reference of Press Readers

—Use Press want ads.

—There will be a meeting of the Plainfield Board of Education this evening.

—This evening Washington Camp, No. 38, P. O. S. of A., will hold an important meeting.

—The Borough Board of Health will meet this evening to consider some important matters.

—Burt Hetfield, of this city, has accepted a position as a surveyor for the trolley company.

—Trinity Commandery, No. 17, Knights Templar, will hold a regular conclave this evening.

—Gutter connections have been made with the sewers at Grant avenue and South Second street.

—An informal dance was held in the Park clubhouse Saturday evening by a number of the younger members.

—Some improvements have been made at the Watchung School in the borough which are greatly appreciated.

—It is rumored that an automobile company is soon to locate in this city where a general business will be carried on.

—Julius Stahl, the Somerst street baker, appeared this morning with his delivery wagon handsomely painted and decorated.

—The collection at the First Baptist church yesterday morning was for the benefit of the Baptist Home for the Aged in Newark.

—There will be a highly important meeting of the Sons of Veterans tomorrow evening, and every member is urged to attend.

—The next meeting of the Rasores Club will be held Tuesday, Nov. 14th, at the home of Mrs. W. D. W. Miller, LaGrande avenue.

—The steam roller is now being used with good results on South avenue, where a portion of that avenue is being macadamized.

—At the Randolph-Cooley Collegiate School, LaGrande avenue, Wednesday afternoon at 3:15 o'clock, a piano recital will be given.

—Sparklets, a vest pocket soda fountain, at a cost of 2½ cents. Agency Compressed Gas Capsule Co., 310 and and 312 Park avenue.

—Rev. Edward E. Matthews, assistant rector of St. James' church, New York, will officiate in the Church of the Heavenly Rest Sunday next.

—The Association Volunteer League and Men's Bible Study class of the Y. M. C. A. will meet this evening at 8 o'clock. All young men are invited.

—The Young Ladies' Missionary Society of the First Baptist church will hold a regular meeting Friday evening of this week in the church parlors.

—The Borough Board of Education will soon be asked to lay a stone walk in front of the Watchung School, corner of Mountain and Watchung avenues.

—J. A. Mets, county superintendent of schools of Somerset county, was a visitor to the borough schools Friday and was much pleased with the way he found everything.

—Plainfield men ought to be interested in knowing that either Dent's or Myer's kid gloves may be had at Woodhull & Martin's. Both makes are fully guaranteed.

—At the regular meeting of Martha Washington Council, No. 23, Daughters of America, tomorrow evening, the fair committee will make a report and other important business will be transacted.

—Sparklets, Vichy, Kissenger, Carlsbad, Lithia, citrate of magnesia tablets, in fact all carbonated beverages, at a moment's notice. Cost of 3 cents. Agency Compressed Gas Capsule Co., 310 to 312 Park avenue.

—The popularity of the omnibus run between this city and South Plainfield in connection with the Lehigh through express train service, is steadily growing, and there is scarcely a trip made that passengers are not carried.

—The Paul T. Norton Company deal in everything for horses, cattle and poultry, and they also sell a fine grade of flour that cannot be excelled. Their prices are based on the market and everyone pays the same. Give their goods a trial and you will secure the highest satisfaction. Their place is on East Front street.

CASTORIA

For Infants and Children.

The Kind You Have Always Bought

Bears the Signature of Chas. H. Fletcher.

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

Mr. Allen, of Flemington, is in Plainfield today on business.

Miss Hattie Garretson, of Central avenue, is spending a week with relatives at Somerville.

Mr. and Mrs. Hazell, of Elizabeth, spent Sunday with Mr. and Mrs. Augustus Frentz, of Scotch Plains.

The marriage of Miss Ada Wagoner, daughter of Mr. and Mrs. Jacob Wagoner, of West Fourth street, to Barron Brewster, of Woodbridge, will take place Wednesday, November 22d, at the home of the bride.

A MONSTROSITY.

Calf Born With Three Eyes and Two Mouths—Mother Cow of Holstein Breed.

The barn of Mrs. Julia M Van-Buren on Central avenue was an attractive place all of yesterday. The neighbors suddenly appeared to have reached a degree of curiosity that had not been experienced in many a day. It was all over the birth of a calf that was something of a curiosity as well as monstrosity. The aforesaid calf was born with three eyes and two mouths. Two of the eyes are in their natural place, but the third is to be found just back of the left ear. The additional mouth is alongside the one usually found. The rumor that the calf had two heads and six legs proves not to be true. At last accounts the calf was alive and it bids fair to survive the curiosity which its birth has excited in the neighborhood. The mother of the calf is of the ordinary breed of Holstein cattle.

BURGLAR CUT HIS HAND.

Broke Window in Taynor's Store Early Yesterday Morning When Marshal Winn Chased Intruder.

An attempt was made to rob the little store belonging to C. Taynor, corner Watchung avenue and Chatham street, at 1 o'clock yesterday morning. The burglars broke the glass in the window. The work was evidently that of a novice for the burglar cut his hand in the attempt.

Louis Apgar, who lives in the neghborhood, heard them and notified Marshal Winn. When the officers arrived there, the would-be burglars fled. The officer pursued them as far as the brook. They succeeded in taking a little tobacco, candy and several articles of small value.

Brave Men Fall

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache, and tired, listless, run-down feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: "Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me new strength and good appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50 cents, at L. W. Randolph's Drug Store. Every bottle guaranteed.

Will Not Move.

A rumor has been current that Putnam & Degraw are going to take the store in the Babcock building formerly occupied by VanEmburgh & Son. This is untrue as the firm is perfectly satisfied where they are.

Discharged From Hospital.

Nicholas Papallo, the Italian, who was injured a few days ago at Wilson's stone quarry, Dunellen, was discharged from the hospital this morning. His injuries were slight.

Nineteen at the Hospital.

There are now at the Muhlenberg Hospital nineteen patients and all are doing well.

—Unity Lodge, No. 102, K. of P., will work the second rank next Wednesday evening at their meeting.

Her Sweet Revenge

Revenge is sweet, and a complete triumph over the foe is a most satisfactory feeling. So there must be one young lady in London who is perfectly happy. She happened, in going from Kensington eastward, to step into one of those private 'buses which are particularly rife at holiday times. On tendering her customary twopence, she was informed that there were no fares under sixpence, and, as did two other victims, who were her only fellow passengers, she paid. The day was dirty, the rain falling and walking most unpleasant, so the vehicle was stopping many times to allow of would-be passengers to enter, but to each and all the young lady, who was cozily ensconsed at an end seat, said in dulcet tones: "Excuse me, but are you aware that this is a private 'bus?" Every one of the people thanked her and stepped down. At Hyde Park there were quite a crowd waiting to get a lift. As they boarded the 'bus however, they were met with the silvery notes warning them of their danger and the nature of the vehicle in which they proposed to travel. The result was that the 'bus remained empty, save for its original passengers, till Chancery lane was reached, where the young lady alighted, and as she nodded the conductor "Good morning" she seemed very well pleased with herself. —London Telegraph.

THE MINT EARNINGS

UNCLE SAM MAKES A TIDY PROFIT BY COINING MONEY.

The Gross Earnings of the Mints and Assay Offices of the Country Last Year Were $4,495,000 of Which $173,614 Was for Refining Bullion.

It is supposed generally that the United States Mint and the Government assay offices and refineries are maintained for the public convenience and that the Mint, like other branches or departments of the extensive Treasury service, is run pro bono publico, the Government making up by appropriations the shortage of each year. The recent public report of the Director of the Mint shows that Uncle Sam has a thrifty interest in the operations of the Mint and its branches and makes a tidy profit from their operation each year. Last year the gross earnings of the mints and assay offices of the country—there are mints in Philadelphia, San Francisco, Carson City and New Orleans, assay offices at Denver, Boise, Helena, Charlotte, St. Louis, Deadwood and New York—were $4,495,000, of which $173,614 was for parting and refining buillion, $10,046 for copper alloy, and $15,321 for melting, assaying and stamping charges. The seigniorage on the coinage of silver was $3,073,958, on subsidiary silver coinage $256,311, on minor coinage $1,031,000 and on the recoinage of minor coins $18,383. The value of the deposit in melting room grains and "sweeps" removed was $8,726; the value of the surplus bullion returned was $53,024, and the gain on bullion shipped by the minor assay offices to the Mint for coinage there was $6,675.

The expenditures of the Mint service, including wastage, loss on sale of sweeps, and expense of distributing minor coins, was $1,263,133. The net earnings for the year were $3,432,664. Some of the items of expense (the chief of which is, of course, salaries and wages) illustrate the curiously complicated work of minting, which requires not only knowledge of chemistry and metallurgy, but considerable exactness in the use of materials and in the adaptation of dies and designs. For acids used in the mints and assay offices $27,400 was expended by the Government last year; for chemicals, $4,700; for wood, $6,675; for copper, $9,600; for firebrick, $1,300, and for zinc, $2,766. For gloves and gauntlets required by the mint workers $8,100 was needed; for gas, an aid to metallurgy, $14,700; for charcoal, $3,740; for oil, $1,100; for hardware, $1,400, and for crucibles and mechanical appliances, $5,400.

Varied as these items are, they do not exhaust the number of things required in the Mint, for $2,000 was expended in lumber, $1,400 in ice, $500 for salt used in the refineries, and a small charge for flags needed as designs. Apart from gas, the fuel needed for mint and assay offices was of three kind—charcoal at an expense of $3,700, coke at an expense of $7,500, and coal at an expense of $17,000. One item, which to the uninitiated seems large, is the item of sewing, $3,425. This sewing is required for the bags containing the metal or coins, in addition to $563 for barrels and $350 for bullion boxes.

Uncle Sam in his liberality made no appropriation for soap, it would appear, but the expense of laundering the towels (presumably "it was given out") was $3,000, and $2,200 additional was paid for water. The item of wastage, so-called, arising from work at the Mint, and which is not a large one when compared with the enormous operations of the Mint, was $16,000, and some other minor items brought up the Government's whole expense in the year to $1,250,000, or about 25 per cent. of the total receipts, the profit being represented by the other 75 per cent.

First Suspension Bridge.

The first suspension bridge that can be dignified by that name was thrown across the Im-jin River in Korea in 1592. Here again dire necessity dictated the terms. The Japanese in P'yeng-yang, learning of the defeat of the army of reinforcement, determined to withdraw. China had begun to bestir herself in favor of Korea, and the Japanese, driven from P'yeng-yang by the combined Chinese and Korean armies, hastened southward toward Seoul.

When the pursuers arrived at the Im-jin River, the Chinese General refused to cross and continue the pursuit unless the Koreans would build a bridge sufficiently large and strong to insure the passage of his 120,000 men in safety. The Koreans were famishing for revenge upon the Japanese, and would be stopped by no obstacle that human ingenuity could surmount. Sending parties of men in all directions, they collected enormous quantities of chik, a tough fibrous vine that often attains length of 100 yards.

From this eight huge hawsers were woven. Attaching them to trees or heavy timbers let into the ground, the bridge builders carried the other ends across the stream by boats and anchored them there in the same way. Of course the hawsers dragged in the water in mid-stream, but the Koreans were equal to the occasion. Stout oaken bars were inserted between the strands in mid-stream, and then the hawsers were twisted until the torsion brought them a good ten feet above the surface. Brush-wood was then piled on the eight parallel hawsers, and upon the brushwood clay and gravel were laid.

When the roadbed had been packed down firmly and the bridge had been tested, the Chinese could no longer refuse to advance; and so upon this first suspension bridge, 150 yards long, that army of 120,000 Chinamen, with all their Korean allies, camp, equipage and impediments, crossed in safety. This bridge, like the tortoise boat, having served its purpose, was left to fall of its own weight.—Harper's Magazine.

In capturing gulls the sea lion displays no little skill and cunning. When in pursuit of a gull it dives deeply under water and swims some distance from where it disappeared, then, rising cautiously, it exposes the tip of its nose along the surface, at the same time giving it a rotary motion. The unwary bird on the wing, seeing the object near by, alights to catch it, while the sea lion at the same moment settles beneath the waves, and at one bound with extended jaws seizes its screaming prey and instantly devours it.—Scientific American.

STANLEY'S NEW ANECDOTES

He Illustrates the Ignorance About Africa 21 Years Ago.

It is twenty-one years since Henry M. Stanley's celebrated book "Through the Dark Continent" was printed. It told the thrilling story of his journey through Africa, in which he made his boat survey of Victoria Nyanza and followed the Congo from its upper waters to the sea. A new edition of the book is about to appear and Stanley has written a long preface for it, in which he tells of the remarkable changes that have taken place in the regions described in the book. He has sent the preface to the geographer, Wauters, of Brussels, and the first installment of it has appeared in Le Mouvement Geographique in advance of the appearance of the book. A few extracts from this part of the preface are reproduced here. Obviously, Mr. Stanley's exact language cannot be given, as the extracts are translated from the French.

"As a striking instance of the general indifference in Great Britain to all I had written about Africa in the year 1878 (when this book appeared) I remember an interview between two members of the council of the Royal Geographical Society and myself. The gentlemen were calling on me, and one of them, observing my manuscript map of the Congo hanging on the wall and the annotation I had made along the river's course, turned to me with the remark:

"How long do you think it will be before a white man sees Stanley Falls again?"

"'Perhaps two or three years,' I replied.

"'Two or three years!' he exclaimed. 'Why, I expected to hear you say fifty years at least.'

"'Fifty years!' said I. 'I am ready to wager that within twenty years there will be no part of the continent 100 miles square that will not have been explored.'

"'I accept the wager, and will make the sum $50, if agreeable to you,' said my caller.

"The bet was made, the twenty years have at last expired, and, though I do not pretend to say that I have won the bet, I do assert that my prediction has been almost completely confirmed by the facts.

"The same year Sir Rutherford Alcock, president of the Royal Geographical society, remarked in his annual address that I had expressed the opinion to him that if sufficient money were expended Africa could not only be explored but also pacified and civilized. I did not think there was anything surprising in the statement, but Sir Rutherford must have thought it worthy of reproduction or he would not have mentioned it. I speak of the matter only to show the prevailing ignorance in all circles at that time of matters relating to Africa.

"Seven years later I was introduced by a canon of Westminster to a well known bishop, and as I was talking to him about the Congo he smilingly remarked:

"'This is all very interesting, but, to tell the truth, I do not know that I should be able to find the Congo on the map.'

"You may imagine my surprise. All the newspapers of the country had been printing every day for a year news of one sort or another about the Berlin conference and its results, and I certainly supposed that a prince of the church would know something about it. But his indifference to the large events that were passing in Africa was so great that he did not even know the name of the Congo!"—New York Sun.

MORE TROLLEY, BUT NO CHEAPER GAS AS YET

Result of Two Hearings Held by the Council.

FEW PEOPLE WERE HEARD.

NO ONE FOR OR AGAINST TROLLEY AND FRANCHISE GRANTED.

A Few Heard in the Interest of the People's Gas Company, but the Council Decided That no Representative Voice Had Been Secured and Another Hearing Would Be Held.

The Common Council at its regular November meeting last evening, adopted the ordinance on the third reading which gives the Plainfield Street Railway a franchise to locate and operate a trolley road through Arlington avenue. The Council gave those present an opportunity to speak for or against the proposed action, but not a person had a single word to say, although there were a number present who are interested on both sides. The lobby was filled with people who have shown great interest in this trolley extension, but no expression of opinion was given either way. The Council therefore very properly adopted the ordinance.

Following the trolley hearing, the Council granted another hearing regarding the application of the People's Gas Company to furnish $1 gas in the city. Several officials of the new company were present, but it seemed difficult at first to get anyone to talk. H. E. Rider made a few remarks urging the Council to grant a franchise to the company.

A communication was then received from H. G. Runkle, of the Plainfield Gas and Electric Light Company, which rehearsed at great length a number of objections to granting another franchise. His objections were chiefly those cited by Frank Bergen, at a recent committee meeting.

Mr. Hetfield thought that in so important a matter, there should be more interest. He would gladly vote to give the new company a franchise if he could be assured that the people will get dollar gas. He was in favor of giving the people the most for the least, but thought that there should be absolute assurances that the new company means business, that the streets will be restored to the best of condition after the pipes are laid, that the company will not sell out and that the dollar gas will be a reality after the franchise is given.

Mr. Buckle was in doubt as to whether dollar gas could be furnished in Plainfield. He stood willing to vote for it as soon as proper assurances are given. He thought Plainfield should have cheaper gas.

These remarks had an effect and W. A. Coddington, of the People's Gas Company, made a few remarks setting forth clearly the purpose of his company. He said that there is no possible way of organizing a company and forever keeping stock away from other people. The application, he thought, states clearing what the company will do. It agrees to put up a bond for $10,000 to put the streets in their former condition and to the satisfaction of the street commissioner. If the new company fails to furnish dollar gas, that will be their funeral and not one for the old gas company. Mr. Codington assured the Council that the new company means business, that it has the necessary capital to establish a plant to supply gas to this city and the borough for a dollar and the price can never be raised.

He contended that the question of consolidation or selling out is not one to be considered at present. If the people do not want dollar gas why are they not here to object to it, said Mr. Coddington. He had not heard of a single objection to it. He said that the new company was organized to kill monopoly and intends to do it.

Other members expressed willingness to vote for the franchise if there are ample assurances that the people will get what is promised.

James Bell, of the West End, favored the city owning a plant and selling gas without a profit. F. E. Kinsman thought the franchise should give the city dollar gas or provide for the city owning the plant and selling its own gas at a low figure.

Mr. Barrows in conclusion stated that the Council had not taken any definite action regarding the application, and that a further hearing would be granted the people in the near future. The hearing then closed.

Major Coleman's New House.

Major Coleman will make the change from the Hotel Hunterston to the Park Avenue Hotel tomorrow at noon, when dinner will be served for the first under his management at the latter place.

REDUCED RATES FOR CHILDREN OF CLERGY

Matter Was Discussed by Board of Education.

NO ACTION WAS TAKEN THEN

WOULD GIVE OUT-OF-TOWN CLERGYMEN LOWER RATES OF TUITION.

Question Was Brought Up By Letter From J. A. Cubberly, of South Plainfield—Board Approved Re-organization of High School Cadets and Gave Mr. Maxson Power to Secure a Drill Hall For Them.

The advisability of offering reduced rates of tuition to clergymen living outside of the city limits was the only question of importance to come up in the open session of the Plainfield Board of Education last evening. And that subject was laid over until another meeting to allow the members to consider it.

The report of the Tax Collector showed that school taxes to the amount of $4,965 33 and $28 25 interest, making a total of $4,933.58 had been collected. The secretary reported that $339 had been received for tuition.

Superintendent H. M. Maxson made an interesting report concerning the condition of the schools. Regarding the High School, he said, that the attendance this year was larger than ever before, there being now 180 enrolled, more than 40 more than last year. All the seats in the study hall were filled and the new pupils had to be seated in the recitation rooms. The school year had opened with a very satisfactory spirit. He attributed this as a result of opening school a week later in September so that the pupils entered the school more promptly. There was general improvement all along the line and parents were much gratified at the methods used.

He reported that Henry Pierce, a graduate of the High School, had won the prize at Union College for passing the highest entrance examination. He was the third graduate who had won such an honor. He told of the holding of a parents' meeting during the month that had been very satisfactory in bringing teachers and parents in closer touch with each other and enabling them to become acquainted.

A letter was read from Rev. J. A. Cubberly, of South Plainfield, asking if the Board of Education made a reduction in its tuition rates as was customary in many schools. Mr. Lounsbury expressed himself against it, believing taht it would be illegal, as the tuition should be the same to all non-resident pupils. Dr. Probasco and Mr. Abbott favored the granting of the lower rate. Mr. Lovell feared it might be a dangerous precedent. The matter was laid over until another meeting and the Board went into executive session.

In the executive session, the Board heard Superintendent Maxson's plan for reorganizing the High School cadets and approved it. The also empowered him to secure a suitable place for the school battalion to drill.

CONTRACTOR COOK'S CASE.

Suing Cranford for Crushed Stone Furnished.

At the Circuit Court, Elizabeth, yesterday morning, presided over by Judge B. A. Vail, the case of Contractor John G. Cook, against the township of Cranford, was called and proceeded with, County Attorney Codington appearing for the plaintiff and Paul Q. Oliver for the defendant.

The case was brought by Cook, the plaintiff, to recover money, which he alleged was due him by the township for crushed stone furnished by him for roads in Cranford township during the spring of 1898, he furnishing the stone in accordance with a bid presented by him and accepted by the township committee.

During the cross-examination the memory of the witness as to amount of stone furnished, time, date and locality appeared very defective, so much so that at one time the court felt obliged to inform him that unless his memory served him better, and he was able to answer more positively some of the questions asked him, it would be difficult for him to prove his case.

Heard Fine Singing.

Mr. and Mrs. Willard Ross entertained a few of their friends at their home on Codington avenue Saturday evening by giving a delightful musicale at which Mlle. Mira Marisona, a grand opera singer, of New York, and a friend of the hostess, delighted all with her charming voice. Among those present were: Mr. and Mrs. G. VanWinkle, Mrs. Waldron, Mrs. Albert C. Wyckoff, Miss Lillian B. Thorne, G. Thorne and Mr. and Mrs. George Taylor.

ELECTION RETURNS

This Evening complete election returns of the State, County and city will be thrown by stereopticon on a big canvas

In Front of The Daily Press Office.

Everybody welcome to come and see the superb service secured for the information of Plainfielders on Election Night.

ROAD ACROSS THE STATE.

PLANNED TO RUN FROM CAPE MAY TO JERSEY CITY.

The Pet Project of State Road Commissioner Budd—Contention Caused in Middlesex County Over It.

Although threatened with the loss of State aid for building macadam roads, the Board of Freeholders of Middlesex county seem determined to build such macadam roads as they desire, even if those roads are not approved by State Road Commissioner Henry I. Budd.

It is Mr. Budd's pet project to have a trunk macadam road running from Cape May to Hudson county. Much of such a road has been constructed. In Middlesex county there is one link missing, about ten miles, from Black Horse Tavern to Cranbury Village. Mr. Budd insisted that the road be the first to be improved this year by the Middlesex county Board, under the State road act.

The Board of Freeholders desired to build a macadam road from New Brunswick to Old Bridge, from Dunellen to Bound Brook, and from Carteret to the Union county line. All these plans were approved by the road commissioner at the same time as he approved of the plans for the Cranbury road, but he specified that the Cranbury road should be built first. Bids were invited, but when they were opened it was found that to build all four roads would cost nearly $120,000. Under the State act the whole sum which the Board could spend this year is only about $60,000.

The contract for the Old Bridge macadam road was let to J. R. Shanley, of Newark, for $36,000, leaving only about $24,000 for all other roads.

In deference to Mr. Budd's pleas, however, the Board divided the remaining $24,000 at its disposal, allotting $14 000 to the Cranbury road, $4 000 to the Carteret road and $6,000 to the Dunellen road.

Commissioner Budd has been so earnestly in his advocacy of the Cranberry road that he has even threatened to deprive the county of its share of the State road appropriations unless roads were built in accordance with his wishes.

MASONIC HOME INVESTIGATED.

Charges Made by Inmates Considered Trivial.

The epidemic of investigations in New Jersey has reached the Masonic Home, just outside of Burlington. The home committee of the grand lodge of New Jersey made a secret investigation.

Tha charges that are made are all of a trifling character, but there are enough of them to indicate that the officers of the home are not working together in harmony. Those residing in the home charge favoritism. One man complained that he was discriminated against because, he alleges, he was always forced to eat dark meat of the chicken and never got any white meat.

Another found fault with the way his roast beef was cut. He preferred it thin and well done. Somebody sent to the home some bottled ginger ale of a fine brand. It did not suit one of the users.

Another man complained that his room was so located that he could not get sun on all days.

Several complained that they were so restricted in their actions that they were as badly confined as convicts in the State penitentiary.

A member of the home committee said, "The faultfinders are getting too numerous in the home. We gave the home a shake up, and there will be no more faultfinding."

Burglar May Be Caught.

It is reported that the two men who attempted to break into Charles Taynor's store, corner of Watchung avenue and Chatham street, last Sunday morning, are known, and that arrests will soon follow.

FIGHT IS BITTER OVER IN SOMERSET.

Large Vote Is Expected in North Plainfield Borough.

MANY WORKERS AT POLLS.

SENATOR REED WAS ON THE GROUND AT AN EARLY HOUR.

Morning Has Passed Quietly, But There Will Probably be Excitement This Afternoon—Republican Organization is Better in Borough Than Democratic—Counting Will be Watched by Many.

Somerset county is in the throes of a bitter fight. From the hour of the opening of the polls in North Plainfield, both Republicans and Democrats have been steadily at work. The clear, cold weather of the morning has given both sides an opportunity for an effective canvass.

What the result is going to be nobody can tell. Republicans and Democrats naturally assure their friends that victory is certain. Which is right will be known tonight when the ballots are counted.

There is quite a crowd on hand this morning in the vicinity of the polls. The polling places in the borough are nearly opposite each other on Somerset street, so it is possible for the workers to cover both indiscriminately.

Senator Charles A. Reed came to the neighborhood during the morning and made his headquarters in Arnold's store. He had a handshake and a pleasant word for all. There were many to see him, and his lieutenants were busy in the neighborhood.

The Republicans have the advantage of a better organized machine in the borough and hope to give their candidate a substantial majority in the borough. Carriages were utilized, as is customary, to bring out the voters. The vote promises to be good, for the battle has interested all the county, and has assumed such a personal character that many who would not vote at an ordinary election will cast their ballots this time.

Everything has been comparatively quiet so far but there is much bitterness between the opposing ranks and there are likely to be lively times this afternoon when the rush comes. The counting of the votes will be watched with much eagerness by both sides and there will be many of the boroughites who will happen in the neighborhood of The Press office this evening to get the latest returns from the county.

At 10:30 o'clock this morning the vote in the First district of the borough was 170 and in the Second district 141.

TRIED TO KILL HER BABY.

Margaret Jackson Fought the Police Who Arrested Her.

Margaret Jackson, aged 32 years, of Union, who is held in the county jail charged with having attempted to murder her child yesterday afternoon, is believed to be insane. She was discovered by Everett Brickhouse kneeling in a field in the rear of Senator Kean's homestead, on Morris avenue, near Lake Ursino. Brickhouse was walking along the road with two friends when he saw her hugging her 2-months-old baby to her breast. As he approached her she deliberately drew the blade of a large knife over the throat of the baby.

The men yelled to her and she arose and fled towards the woods. The men chased her, but she disappeared in the woods. The police were called from Elizabeth and the woman was found hiding behind a tree, still cluching her child. She fought the police, but they finally got her in a wagon and took her to police headquarters, where she acknowledged that she tried to kill her baby, but they would not let her.

CRANFORD LIKES GOLF.

ITS GOLF CLUB IS NOW A DECIDED SUCCESS.

Members Will Hold a Meeting Tomorrow Night—Course will be Open on Sundays—Many Non-resident Players.

(Special to The Daily Press.)

Cranford, November 7—The success of the Cranford Golf Club is now assured, and at a meeting of the members of that organization tomorrow evening arrangements will be completed for the building of a clubhouse and all the other necessary features for a first-class golf club. All Cranford society is interested in the result of the club, and much interest has been expressed by golfers of other towns. The fact that the course is to be open Sundays has insured a number of non-resident members from other parts of the county.

The course was laid out by Willie Dunn, the famous professional, who declared that no club in the State was better provided with natural features of advantage to a golf course than the Cranford Club. There is now a six-hole course completed, but a full eighteen-hole course is expected to be ready for play by May first next.

One of the special advantages that is claimed for the links of Cranford's club is its close proximity to the railroad station and trolley line. The location of the proposed clubhouse is only four minutes' walk from the station of the Jersey Central Railroad. The entire playing distance of the completed course, eighteen holes, will be about 5,600 yards. The longest hole will be 540 yards long.

The president, LeRoy M. Lyon, has called a meeting of the members for tomorrow evening, when the board of trustees will make their report regarding the present state of finances and the advisability of providing for the construction of the clubhouse at once. The initiation fee will probably be advanced from $10, where it is at present, to a higher figure.

RECEIVER ALLOWED $1,500.

Cashier Maguire Paid for One Month's Work at Perth Amboy.

James A. Maguire, of Elizabeth, was yesterday formally discharged by Vice-Chancellor Emory as temporary receiver of the Middlesex County Bank of Perth Amboy, which was wrecked by Cashier Valentine. The Vice-Chancellor allowed Mr. Maguire $1,500 for his services.

Mr. Maguire acted as receiver immediately after the bank was wrecked and he labored for one month on an inventory of the bank's assets and other matters. He was required to continue as permanent receiver, but his bank duties in Elizabeth would not permit this, and Edward A. Campbell, of Newark, was named as permanent receiver.

CHAMBER CONCERT.

Prof. Ward Stevens Arranging for His Second Annual Affair.

Plainfield music lovers are looking forward with great pleasure to the second chamber music concert to be given under the direction of Mr. Ward Stephens at the Y. M. C. A. Hall Tuesday evening, November 14th. Mr. Stephens' first chamber music concert, given in Plainfield last May, was a brilliant artistic success and there is every reason to believe that this one will be also. The following artists will appear:

The Richard Arnold String Quartette, Miss Adele Rafter, soprano; Francis Carrier, baritone; Leo Tanssig, 'cellist; Ward Stephens, painist.

Insulted a Woman.

Fritz Bendelstetter was haled before City Judge Runyon this morning on the complaint of Mrs. Harriet Hubler, of Leland avenue, for using profane and indecent language to her. Judge Runyon found him guilty and sentenced him to pay a fine of $5 or go to jail for twenty days.

THE LIBRARY WANTS BALANCE OF $600.

Did Not Draw All of the $3,800 Appropriated.

CITY OFFICERS' REPORT.

MORE SIDEWALKS TO BE LAID BY THE CITY.

President Andrews Not in the Chair and Councilman Smith Acted as the Presiding Officer—Only Ten Applicants For Aid to Overseer of Poor During the Month—Other Business Done.

Outside of the public hearing regarding the extension of the trolley through Arlington avenue, and that regarding the application of the People's Gas Company for a franchise, there was not a great deal of business considered at the regular November meeting of the Common Council last evening. President F. H. Andrews was away and his place was filled by Councilman Smith. City Clerk MacMurray's place was filled by George B. Wean. The rest of the members were present except Mr. Mellick.

A communication was received from Nelson and Wm. N. Runyon, counsel for a Mrs. Skillman, in which they asked to have certain assessments on her property in the city rightly adjusted. The property was affected by the Martin Act and they asked that certain amounts be corrected and assessed properly. W. R. Mosher and others asked for an electric light on New street, between Fourth and Fifth streets. A communication was received from the Plainfield Electric Light Company stating that lights ordered by the Council had been located. S. R Struthers, for the Home Building and Loan Association, stated in a communication that the assessment on the property at 407 Plainfield avenue, had been paid twice, and he asked to have the same adjusted. This was referred to the proper committee.

J. B. Dumont, for the directors of the Plainfield Public Library, stated that in 1898 the library directors only received the sum of $3,200, while they were entitled to $3,800. Since that time there had been a deficit and it had been impossible to carry on the work as heretofore. He asked that the Council draw a warrant for the balance due according to law. The matter was referred to the finance committee. Residents in the vicinity of West Fifth street between Grant avenue and Lee place, asked for a electric light in that locality.

Building Inspector Doane reported the granting of twenty one permits, and Street Commissioner Gavett reported that eleven sewer permits had been granted. The city physician reported that medical aid and medicine had been furnished to the city poor, and Overseer of the Poor Hansen stated in his report that during the past month there were ten applications for aid, of which number six were granted, and five were for temporary aid. There was one death. At present there are twenty-four beneficiaries.

Street Commissioner Gavett stated that application had been received from Major Coleman, of the Park Avenue Hotel, asking for permission to run water into the sewer on Eighth street. This water it was proposed to use to run an elevator in the hotel. There would be about 10,000 gallons a day, and he desired to ask the Council for instructions in the matter. The proper committee will consider it and report later.

Mr. VanHerwerden offered a resolution borrowing $1,200 on account of the poor fund. He offered another resolution providing for the issuing of five notes of $1,530.94 each payable in one year, for the purpose of taking care of sewer obligations according to an ordinance adopted at the last meeting of the Council.

Mr. Barrows offered a resolution providing for the laying of sidewalks where property-owners have failed to comply with the law. He stated that when such action had been taken heretofore the property-owners in most cases had laid the walks, thus relieving the city of the expense, and he believed that such would be the result in this case. This concluded the business and Mr. Barrows moved that when Council adjourned it be to meet next Monday evening at 8 o'clock. Council then adjourned.

Succeeding in His Pastorate.

Rev. Mr. Schaffer, pastor of the German Lutheran church on Grove street, is getting along satisfactorily with his work. Although he but recently came to Plainfield, he is rapidly becoming acquainted and is making new friends every day.

—Use Press want ads.

VOTE IN PLAINFIELD WILL BE VERY LIGHT.

General Apathy is Shown Over Today's Election.

FINE ELECTION WEATHER

REPUBLICANS EXPECT NORMAL VOTE OUT IN SECOND AND THIRD WARDS.

In the First and Fourth Wards There is a Noticeable Absence of Leaders Prominent in Former Years—New Democatic Organization Working Hard To Make a Good Showing Today.

A fairer Election Day than this never dawned on Plainfield. As far as Dame Nature is concerned, she has done all that she can to give both political parties an opportunity to get all their voters to the polls. But the weather cannot do everything. A general apathy seems to prevail all over the city and the vote up to noon is light.

There are two sets of workers on duty at the city polls today. The regular Republican "machine" is represented, and then the new Democratic organization is making an effort to bring the Democratic vote out. It can fairly be said that the Democrats, while they lack the extensive organization of the G. O. P., are making an enthusiastic fight. They realize that they cannot possibly carry the city, but hope to make a material reduction in the Republican plurality.

In the Second and Third wards, the Republicans will get out their normal vote. The regular workers, whose faces are familiar to the voters of the ward, are on hand, and both parties have a supply of carriages ready for an emergency.

There are several faces, prominent in years past in the First and Fourth wards, that are not on hand this time in the old way. Both wards are looked after, but there are signs of apathy that suggested a small vote. Several of the leaders, who were always on duty early and late, came to the polls this morning, cast their ballots and returned home.

Unless there is some remarkable stir that is not now apparant, the vote throughout the city today will be the lightest for several years. The Second and Third wards will poll the usual vote for an "off" year but there will be a decline in the Republican vote in the First and Fourth. The Democrats expect to poll a heavier vote than they have for many years which is likely for this is the first time for a lengthy period that they have had anything like an organized effort to get out the vote.

The city is very quiet and the holiday is pretty generally observed. Most of the stores are closed and some of those that were open during the morning will close their doors this afternoon. The vast majority of the commuter element is home. Most of the factories are running full blast owing to the heavy press of orders.

The usual little gathering of workers and interested ones hang about in the neighborhood of the polls and converse earnestly. So far, no disorder has been reported. The day promises to be a very quiet one. It is yet impossible, however, to say what the night will bring forth.

As soon as the returns begin to come in, there will be a great crowd on North avenue to watch the Press bulletins of the result. The crowd will remain until the early morning hours when the result is known, one way or the other.

Jacob Glaser, the Democratic nominee for sheriff, visited Plainfield this morning and was escorted about the city by James E. Martine and introduced to many of the voters.

The vote in the various districts was as follows at 10:30 a. m.:

First Ward,	1st dist.	111
	2d dist.	33
Second Ward,	1st dist.	157
	2d dist.	43
Third Ward,	1st dist.	201
	2d dist.	51
Fourth Ward,	1st dist.	96
	2d dist.	75
	3d dist.	45
	Total	812

Farm Property for Sale.

The effects of the late E. A. Campbell are advertised for sale at the club house, Park avenue, adjoining the race track, at 10 o'clock a. m., next week, Wednesday, Nov. 15. The entire contents of the barn and yard, consisting of eleven horses, carriages, wagons, harnesses, farming utensils, etc. Besides the above, the well-known trotting horse "Prince Edward" will be offered for sale. See advertisement in another column of the Daily Press.

HOISTED TRANSVAAL FLAG

The Boers in Zululand Show Their Fidelity to Kruger.

INTEREST AT HIGH PITCH

Situation at Ladysmith is Said to be Practically Unchanged.

White's Garrison Forced to Accept Isolation—The Situation Becoming Complicated—The British Withdraw From Cape Colony Before the Boers' Advance.

Estcourt, Natal, Nov. 7.—A reliable messenger has just arrived from Ladysmith, passing the Boer lines in the night, who reports that heavy fighting had again occurred around Ladysmith. The hottest engagement was on George Tatham's farm, on the Orange Free State side of Bester's. The British drove the Boers back to their camp. The enemy suffered great loss and thirty mounted Boers were captured.

A large Boer force with artillery, under John Wessels, has taken up a position on the left of Beacon, locating on the Woodhouse, Picciones and Langvaracht farms, facing Bester's, and a small commando is encamped on the south side of Pieter's Station, commanding the railway. The Boers have torn up the culverts of the railway near Pieter's Station and have burned the wooden portions.

Interest Runs High.

Komatipoort, Nov. 7.—Boers in Zululand hoist the Transvaal flag.

The military correspondent of the Globe, wirting on the military situation, says that interest at Ladysmith it still kept at the highest point. The fact that the British force there now is completely isolated will not tend to decrease it, but save for the fact that news can only come to hand now by means of the pigeon post or despatch riders, and that trains have ceased running, there is no material difference in the situation.

It might be argued that the cessation of trains is an important factor in such cases, but unless the organization of the commissariat and ordnance departments has been criminally defective, Ladysmith should long ago have been put in a position to hold out against investment for a considerable period.

The arrival of long range quick firing guns, accomplished just in the nick of time, must have tended to show the Boers that Ladysmith could not fall an easy prey to them.

While the moral and material effects of shelling the Free State camps at Bestors, and apparently at Acton Homes also will show that General White's garrison was forced to accept isolation, it is still able to strike hard, and that its cavalry is exceptionally effective.

It is, of course, a matter of regret that it should have been found needful to evacuate Colenso, but there are no indications in the official report that the withdrawal has been to any great distance. It may be that the defending forces has only been withdrawn to a more defensible position on the southern bank, or else the flanking movement of the Boers through Zululand and the Umvoti country has become so pronounced as to necessitate concentration on Pietermaritzburg itself.

That the position is regarded serious is clear from the fact that the cruisers are being hurried to the Cape Station.

Meanwhile the situation is becoming complicated by the natural unrest among the Bassutos, for it appears increasingly unlikely that we shall be able to restrain them from action.

At last, too, the Free State Boers have taken heart of grace and have begun the invasion of the Orange River line of Cape Colony.

Here also the policy of withdrawing before the enemy's advance has been adopted.

It appears as if General Buller intends to allow the invaders to debauch through the passes of Stormberg before attacking them strategically. It is possibly the correct policy, but its effect will, in all likelihood, precipitate an open alliance of all disloyal Cape Dutch with the Boers. In that case, the sooner the home authorities mobilize and despatch further reinforcements the better it will be for our hold on South Africa.

All are reported well from Kimberley, Mafeking and Rhodesia, but with the exception of these small gleams of light the whole situation is more serious than it has been since the Boers first crossed the borders.

Supply Camp Abandoned.

London, Nov. 7.—Reports of the fall of Ladysmith still persist on the continent. The taking of Colenso and of Colesbeg by the Boers is confirmed.

The British have abandoned their great supply camp at Stormberg Junction, in Cape Colony, in face of the Boer Invasion. A stand against the Boers will probably be made near De Aar, where Gen. Buller is concentrating troops. A dispatch from Pietermaritzburg, dated Friday last, says that, in the fierce battle between Ladysmith and Colenso, many Boers were killed. The Boers have proclaimed the annexation of the Upper Tugela division of Natal to the Orange Free State. The Boers around Kimberley now number 5,000, and they have considerable artillery. The Bechuanaland Boers have joined the besiegers. A report from Orange River Station says that Kimberley was safe on Wednesday night last. At Mafeking, according to advices received at Cape Town, there was rejoicing that a big gun planted by the Boers seven miles from the town had failed to reach it, except with a single shell, which caused the burning of a store. A message from Pretoria, however, states Cronje has advanced to within a mile of Mafeking. A final report of the loss of the British in the engagement at Farquhar's farm, in which the Gloucestershires and Fusileers were captured, puts the total of the missing at 843. Thirty-two of the Gloucestershire Regiment, ten Fusileers and ten batterymen were found dead on the field.

THE HARDY MYSTERY.

Suicide and Other Theories—A Suspect is Discharged.

New York, Nov. 7.—John J. Martin, arrested as a suspect in the Hardy murder case, has been discharged in the Adams Street Court, Brooklyn. Captain Reynolds, Chief of Detectives, stated that he had investigated the case and could find nothing to connect the prisoner with the murder. "I don't see why he was arrested at all," commented Magistrate Brenner. The only thing against Martin was the fact that he was about the dock on the night of the murder, but he satisfactorily accounted for his time.

Edgar Moxham, at whose home in Ninety-sixth street Hardy was last seen alive, now believes the youth committed suicide. Mr. Moxham was not at home on the night of Sunday, Oct. 22, when Hardy disappeared. For ten days he has been investigating the mysterious case, and he has formed as a result the theory of suicide. It was after going over the region where the murder was supposed to have been committed that Mr. Moxham expressed himself as to the cause of young Hardy's death.

"I was away from home on a yachting cruise on the evening when Hardy was at my house," he said. "I was sorry that I was not there, so that I might have seen just what happened. I have been making inquiries, however, and do not believe the young man was murdered. I think he went down the path at Ninety-ninth street, threw away his hat, his cards and his pocketbook, which were afterwards found there; that he tied the stone about his body and jumped into the water from the boat. This is not a neighborhood where one reasonably could expect such a crime to be committed. The houses hereabouts are occupied by well-to-do families. The neighhood is not one to which criminals and rowdies come."

"How do you explain that clot of blood which was found on Hardy's brain, and that no water was found in the lungs?" Mr. Moxham was asked.

"I have simply been told by a police officer that this is so. I do not know it of my own knowledge. It has been taken for granted."

Mr. Moxham was asked if he knew of any act or word of Hardy's that would lead him to believe that Hardy had drowned himself.

"I hope," he replied, "that you will excuse me from answering the question at this time. I may answer it later.

"Have you thought how improbable it is that the supposed murderers would have scattered Mr. Hardy's cards in the path and left his hat and pocketbook where they could be found so easily?"

The tone of Mr. Moxham's story was such as to lead one to believe that he has much else to confirm his theory which he did not care to divulge.

Trying to Restore The Scalp.

Philadelphia, Nov. 7.—One of the most interesting cases of skin grafting in the annals of the medical profession has been undertaken at the Methodist Hospital here. Clara M. Hixon, aged ten years, whose home is near Altoona, Pa., is the patient. The girl's hair became entangled in a belt in her father's grist mill and her scalp was torn off from above the eyebrows to the base of the skull. The skin grafting operation began Sunday, when another woman patient sacrificed a square inch of her cuticle. Another square inch was grafted Monday, but it will be two or three days before it can be determined whether the operation is successful.

Indian Trouble Expected.

Perry, Okla., Nov. 7.—Trouble is expected at Tahlequah, capital of the Cherokee Indian nation, when the Cherokee Senate convenes to count the votes cast at the last election. The full bloods were defeated and allege that fraud was practised on them. A petition was sent to Washington, asking the Indian Department at the capital to assist in setting the election aside. It is said that the full bloods will attempt to prevent the organization of the tribal senate. A number of deputy United States marshals and some soldiers will be present when the senate convenes.

October Grain Exports.

Philadelphia, Nov. 7.—During the month of October thirty-nine vessels sailed from this port with full or partial cargoes of grain, aggregating 2,977,286 bushels of corn, 1,142,168 bushels of oats, 320,028 bushels of wheat, 33,910 bushels of rye and 278,979 barrels of flour. The increase for the ten months of the year as compared with the corresponding period of last year was: Flour, 622,990 barrels; wheat, 124,145 bushels; corn, 2,182,412 bushels; oats, 1,270,561 bushels. In rye exports there was a decrease of 191,574 bushels.

To Sail For Manila Soon.

San Francisco, Cal., Nov. 7.—The Fortieth United States Infantry, Col. Godwin commanding, has arrived from Fort Riley, Kan., and is in camp at the Presidio. It is soon to sail for the Philippines.

A Big Swindle.

New York, Nov. 7—Frank G. Thompson, chief of the Internal Revenue Bureau, declares that $5,000 worth of restored revenue stamps are used daily.

THE MARKETS.

New York, Nov. 7.—With the exception of United States Leather and American Smelting, the stock market to-day was weak. The unfavorable bank statement of Saturday threw the whole bull faction into a selling mood, and while the liquidation was heavy Saturday it continued unabated to-day. Leather, however, was freely bought, so freely that 20,000 shares changed hands in the first five minutes. Trading was active, but at declines of from ⅛ to 1 point.

Cash prices for provision:

Wheat—Dull and depressed; No. 2 red, 72.

Corn—Firm; No. 2 in elevator, 38¾.

Oats—Quiet, No. 2 mixed, 29.

Flour—Dull patents, $3.50@$4.00.

Lard was slow; Western, $3.55.

Pork—Dull; mess, $9@9.75.

Butter—Creamery Western, 24@24½.

Sugar—Raw was dull and unchanged; refined quiet and steady.

The Same Old Story.

Told on the Streets of Plainfield As Well as Elsewhere.

Something you cannot tell too often.
Repetition gives it added strength.
The same old story is pleasant to hear.
When it brings happiness to home.
Brings joy to the afflicted.
Tells how burdens can be raised.
How the back can be relieved.
All the pains and aches removed.
Proves how easily it is done.
Plainfield people tell this story.
Friends and neighbors talk of it.
They tell about their kidney ills.
How they suffered, how the cures came.
What they think of Doan's Kidney Pills.

Here is what a citizen says:

Mrs. Valentine Utzinger, of 75 Grandview avenue, says: "I suffered from kidney complaint for six years. I doctored and used various kinds of medicine with little or no result. I had almost a constant sharp darting pain across my back, and if I over exerted myself or took cold I suffered severely. I always felt it most when the weather was damp. There was also a kidney weakness which was very distressing and inconvenient. While in this condition I saw Doan's Kidney Pills recommended and my son brought me a box from L. W. Randolph's drug store. I started to use them at once, following directions closely. They helped the pain in my back, and relieved my other difficulty. I give all the credit for this relief to Doan's Kidney Pills, for they are beyond a doubt a grand medicine for kidney trouble. I have recommended them to a number of my friends and will continue to do so."

Doan's Kidney Pills are for sale by all dealers; price 50 cents a box. Mailed on receipt of price by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name—Doan's—and take no substitute.

HEAD ACHE

"Both my wife and myself have been using CASCARETS and they are the best medicine we have ever had in the house. Last week my wife was frantic with headache for two days, she tried some of your CASCARETS, and they relieved the pain in her head almost immediately. We both recommend Cascarets."

THEY FOUGHT AT ANGELES

Colonel Smith's Forces Encounter 1,000 Filipinos.

THEY DROVE THEM BACK

Americans Succeed in Almost Surrounding the Enemy.

General Wheeler's Brigade Held at Angeles—Over a Hundred Natives Killed and Wounded—Eleven Americans Wounded—Governor of Negros Installed.

Manila, Nov. 7.—Latest reports of the capture of Magalang by the American troops under Col. Smith show that the Filipinos suffered considerably. Col. Smith had two battalions of the 17th Infantry, two guns from Battery E of the 1st Artillery, and a detachment of engineers and Signal Corps men from Angeles. Major O'Brien at the same time started from Calulut with the other battalion of the 17th and two troops of the 4th Cavalry. General Joseph Wheeler's brigade was held at Angeles to be in readiness in the event of a general engagement.

Col. Smith struck a small body of nativs about a quarter of a mile outside of Angeles. The Filipinos were quickly routed. They left two of their men dead and nine wounded in the trenches.

Near San Francisco the enemy made a short stand. The advance guard under Capt. Brush charged on them after the artillery had shelled the position and chased the enemy. Col. Smith's men killed and wounded over one hundred natives and took fifty prisoners. They also captured a considerable quantity of stores.

Maj. O'Brien struck another column of Filipinos and had a sharp fight. After the engagement the bodies of forty-nine natives were found on the field. The natives also left many of their wounded behind. Maj. O'Brien's men also captured twenty-eight prisoners and fourteen rifles. The town of Magalang was occupied early in the afternoon.

The Americans had eleven men wounded. The Filipinos numbered about 1,000 and were probably under command of Gen. Mascardo.

The newly elected Governor of Negros has been installed in office.

Shortage of Food in Guam.

Chicago, Nov. 7.—A despatch to the Record from San Francisco, says:

"The transport Ohio, which has arrived from Manila, brings news of a shortage of food in Guam. The Ohio reached Guam October 16. Purser Hedges went ashore and was beseiged by the members of the military colony, foreigners and natives, who pleaded with him to have sufficient flour, potatoes and other food necessities sent ashore to last until relief could be sent by the government. Owing to a shortage of provisions on the Ohio she was unable to leave anything at Guam."

Colombian Cruiser Sinks The Draga.

Kingston, Jamaica, Nov. 7.—Reliable Colombian advices just received here describe the pursuit of and engagement with insurgent convoy steamers by the Colombian cruiser, the Hercules, under General Rodriguez, accompanied by the steamer Colombia, having troops on board. The insurgent steamer, the Draga, was rammed and sunk and four smaller ones were captured after a sanguinary fight. Then the Cisneros, with the surviving insurgents, escaped into Rio Blanco. The insurgents lost 250 men and the loss of the steamers is regarded as a severe blow to the insurgent cause.

New Yorker a Suicide.

Cape Charles, Va., Nov. 7.—The captain of the steamer Old Point Comfort reports that as the vessel was making her landing here one of her passengers jumped from the deck and was drowned. A line was thrown to him, but he made no effort to grasp it. The man's body has been recovered, and it is believed he was the representative of a New York furniture house. A round trip ticket from Norfolk to New York and $118 in cash were also found in the man's pockets.

May Build War Ships in New York.

Washington, D. C., Nov. 7.—After the meeting of the Naval Board of Construction Monday evening Rear Admiral Hitchborn, as Chief Naval Constructor, and Rear Admiral Melville, Engineer-in-Chief, were directed to investigate the ability of Townsend and Downey, of New York, to build warships. This firm submitted bids to build one or two protected cruisers and one or two cruisers of 17½ knots' speed. The firm sent a certified check for $20,000 with the bids.

Robbed New Haven Boat.

New Haven, Conn., Nov. 7.—It is stated here that on Friday night during the trip form Providence to New York the purser's room on the steamboat Richard Peck was broken into and a sum of money taken. The officals of the New Haven line decline to state at present the amount of money taken. There are no clues.

Burned to Death in His Room.

Buffalo, Nov. 7.—William A. Smith, who was twenty-six years old, and a son of John H. Smith, manager of the R. G. Dunn Company, was burned to death in his room at the home of his parents. It is supposed that the fire started from a lighted cigar that Mr. Smith had thrown away or had held in his hand while lying on his bed.

Ran Down Explorers' Ship.

Antwerp, Nov. 7.—A vessel entering the harbor here ran into the steamship Belgica of the Gerlacho Antarctic expedition. The latter's mainmast and yard were broken. No one was injured.

Mr. Hobart's Condition.

Paterson, N. J., Nov. 7.—The condition of Vice-President Hobart is apparently unchanged. He passed a comfortable night. The patient sleeps most of the time.

TRYING TO RECLAIM LAND.

Northern Pacific Commences an Important Lawsuit.

Tacoma, Nov. 7.—A despatch from Spokane says that an important lawsuit affecting real estate in Spokane has been commenced by the Northern Pacific Railroad against 150 prominent Spokane citizens. The rights involved affect property valued at millions of dollars, and include property not only in Spokane but throughout this and other states through which the Northern Pacific passes.

The contention of the railroad is that it is entitled to 200 feet of land on each side of its tracks wherever it was laid through lands belonging to the government, through the act of congress under which the Northern Pacific was organized. At present the railroad occupies only fifty feet on each side of its track and many buildings, including business blocks, warehouses and residences have been constructed within the 200-feet line.

In its present action the Northern Pacific seeks to clear its right-of-way of all improvements, laying claim to the same, and to quiet its title to the 200 feet of land on each side of its tracks, contending that the company being a quasi-public corporation is not permitted to sell or dispose of any of its right-of-way.

The defendants insist that they have acquired their title by open occupation for more than ten years and that the railroad company is estopped from claiming title by failing to bring its action within ten years.

The Samoan Question Settled.

London, Nov. 7.—Although the exact terms of the agreement are still carefully guarded, the Samoan question is practically settled, and the finalities will take place within a few days, unless some most unexpected hitch occurs. It can be said that American control of Tutila Island is confirmed, while the United States, has, it is understood, signified its approval of the projected arrangements between Germany and Great Britain. Regarding the details of the latter, the British Foreign Office remains mute, except to authorize the statement that none of the recent surmises of the German press have correctly outlined the plan, which now seems sure of acceptance.

Change in Molineux Case.

New York, Nov. 7.—Justice Giegerich, of the Supreme Court has, on the application of Assistant District Attorney James W. Osborne, made an order removing the indictment of Roland B. Molineux, who is charged with the murder of Mrs. Katherine Adams, from the criminal branch of the Supreme Court to Part II. of General Sessions, where it will come up before Recorder Goff. There was no appearance on the part of Molineux, the application being made exparte. In an affidavit Mr. Osborne set forth that his reason for making this application was that witnesses had been subpoenaed to Part II. of the General Sessions Court.

Jeffries Under Arrest.

New York, Nov. 7.—Jim Jeffries, the champion heavyweight fighter, and his brother John were arrested after they had boxed on the stage of Koster & Bial's. Bail speedily was furnished and the men were released pending a hearing of their cases. Police Captain Price and Detective Tompkins gathered them in as they were leaving the stage, where they had boxed three rounds in imitation of the Jeffries-Sharkey bout at Coney Island.

Opportunity For a Fortune Gone.

New York, Nov. 7.—A gold mine near Deadwood, S. D., said to be turning out $400,000 a week, has just passed out of the control of Charles Kelly, a dye manufacturer of No. 100 William street, this city, because he neglected to take advantage of an option he had on it. Mr. Kelly declares he had an option on the mine for $50,000, but he let it expire two weeks ago because he thought it was worthless.

Death of John A. McNamara.

Binghamton, N. Y., Nov. 7.—Former ex-Supervisor John A. McNamara died at his home from apoplexy Monday. Mr. McNamara, who was one of the best known real estate appraisers in that state, and was engaged at the time he was stricken in settling a difference between the city of Utica and the County of Oneida over taxation.

Esterhazy Must Go to Prison.

Paris, Nov. 7.—Major Count Esterhazy, the reputed author of the bordereau, which brought about the conviction of Captain Alfred Dreyfus on the charge of treason, has been sentenced, by default, on his cousin Christian's charge of swindling, to three years' imprisonment and to pay a fine of 50f. He was also ordered to refund the 35,000 f. claimed by Christian.

Col. W. F. Durant, of Chicago, Dead.

Chicago, Nov. 7.—Col. William F. Durant, for many years one of the most widely known railway contractors in the country, died here at the Auditorium Hotel of penumonia. Col. Durant was born in 1823 at Lanesborough, Mass. He had lived thirty years in Chicago. He retired from business several years ago.

Two Vessels Ashore in Chesapeake.

Baltimore, Nov. 7.—Schooner O. D. Witherell is reported ashore at the lower end of Cut Off Channel on north side. She has a lighter alongsside. Another schooner, unknown, also is reported ashore in that vicinity.

Gardner Again Defeated.

New York, Nov. 7.—Oscar Gardner, the "Omaha Kid" was defeated by Martin McCue at the Broadway Athletic Club Monday night. McCue got the decision on points at the end of the twenty-fifth round.

For Relief of Refugees.

London, Nov. 7.—The Queen has given £1,000 to the Mansion House Fund for the relief of the refugees in South Africa. The Prince of Wales gives an additional £260.

Woman For Charity Inspector.

Albany, Nov. 7.—The appointment of Alice O. Moore of Buffalo as an inspector of the State Board of Charities has been certified to the State Civil Service Commission.

TEETH.

If you have any to be extracted remember you will not be hurt in the slightest. My local anaesthetic is the best that can be obtained and is not known to the other dentists in this city. Gas strictly fresh administered by an expert if you want that. If you need artificial teeth you may rest assured that the greatest care will be exercised in selecting shape and color to harmonize with the face, also to restore the features to their natural expression and fullness. This is most important.

Full Set (guaranteed)	$8
Bridgework	$5

Harry Anderson, of Brooklyn, N. Y., is ten years old. This is a picture of him and his dog. Harry has suffered much from what they call a stye on his eyelids. Every now and then—*just continually*—sometimes several at a time, there would be some incipient ones and some real bad ones. His father used to say that Harry's bad health was all in his eye. This was funny but not very comforting. It was a lady friend of his mother who induced Harry to use Ripans Tabules. That was before the Chocolate Coated Tabules were to be had at the drug stores, and Harry would not swallow the common sort because they were so bitter. So the lady crushed half a Tabule and put it on a half spoonful of sugar, then added more sugar to fill up the spoon. In this shape Harry would take the Tabule and seemed to rather like it. He took half a Tabule once a day—*after supper*—and in three weeks his eyes were well and he has not had a stye since. You'd be surprised to see what an improvement there has been in Harry's appearance.

A new style pocket containing TEN RIPANS TABULES in a paper carton (without glass) is now for sale at some drug stores for FIVE CENTS. This low priced sort is intended for the poor and the economical. One dozen of the five-cent cartons (120 tabules) can be had by mail by sending forty-eight cents to the RIPANS CHEMICAL COMPANY, No. 10 Spruce Street, New York—or a single carton (TEN TABULES) will be sent for five cents.

MRS. MAUFF OBJECTS.

Does Not Care to Have Her Picture On Gin Bottles.

Chicago, Nov. 7.—Mrs. Estelle G. Mauff is the wife of John R. Mauff, Secretary of the Chicago O'Neill Grain Company, and beautiful. She is not yet eighteen. She is plaintiff in a law suit against Cavanagh & Co., distillers, of 273 Kinzie street.

The concern had labels printed bearing Mrs. Mauff's picture, which they attached to gin bottles. They say they thought the portrait was that of an actress, who wouldn't object to getting so much advertising.

No one seems to know how Mrs. Mauff's photograph fell into the hands of the alcoholic Philistines. She is a beautiful young woman, and objects strongly to having her face beam from bottles in barrooms. She seeks no damages and only asks that the offensive labels be called in and others substituted. Her face has also appeared on stereopticon signs.

She refuses to talk of the matter, and her attorney, Louis Spahn, said: "I have asked for an injunction which will certainly be granted. Any judge must see the injustice of the matter."

MADE IT A BIG HOLIDAY.

Iowa Volunteers Royally Welcomed At Council Bluffs.

Council Bluffs, Ia., Nov. 7.—The 51st Iowa volunteers arrived in this city Monday afternoon from the Philippines. The occasion was made a holiday for all western Iowa. The Governor and his staff were here, and all the public men of the State. The city was formally transferred to the soldiers by Mayor Jennings. Congressman W. B. Hepburn was the chairman of the day. Chaplain Williams, of the 51st, delivered a prayer before the first section sat down to the banquet, Governor Leslie Shaw followed with an address of welcome, and then five-minute addresses followed by Congressman Hull, Congressman McPherson, the Hon. Fred F. White, the Hon. Lafe Young and others. The different companies left for their homes in the evening.

Alabama Welcomes Schley.

Birmingham, Ala, Nov. 7.—Birmingham was crowded with visitors from all over Alabama who had come to pay honor to Admiral and Mrs. Winfield S. Schley. The train bearing the party to this city was late in leaving Atlanta and did not arrive in the city on schedule time. When it did appear, however, every engine in the city blew a blast, and all the bells of the city added to the clamor. A cordon of the military under command of Colonel L. O. Smith, former Major of the First Alabama Volunteers in the Spanish-American war, formed an escort for the Admiral from the depot to the Morris Hotel. The streets were gay with bunting and pictures of the Admiral, while those of Wheeler and Dewey were prominent everywhere.

Prussian Veteran Coughs up Bullet.

New Paltz, N. Y., Nov. 7.—In a paroxysm of coughing the other day T. E. Geiselhart, of Houk Hill, near this village, coughed up a bullet which had been in his body since the spring of 1872. Geiseslhart was a cavalry officer in the Prussian army during the Franco-Prussian war. He escaped injury until near the close of the war, when he was shot in the left breast. Efforts to extract the bullet failed, because it could not be found, though Geiselhart at all times suffered great inconvenience from it. His condition has greatly improved since the bullet came to light, and he says he expects to live for many years.

May Investigate Student's Death.

Geneva, N. Y., Nov. 7.—The Berkeley drowning case has again come up before the public. District Attorney Moran, of Seneca county, in which the accident took place, is authority for the statement that he will present the case to the Grand Jury. Berkeley was the young Cornell student who was drowned while on his way to initiation in the Kappa Alpha fraternity the week before last. Mr. Moran believes Berkeley should not have been sent on the errand without being fully acquainted with the nature of the surrounding country.

Ran Away With the Hearse.

Elizabeth, N. J., Nov. 7.—While the body of Miss M. McGrath, of No. 22 Elizabeth avenue, was being carried from her late home to be placed in hearse, the hearse team became frightened and ran away. The horses dashed down South First street in the direction of the meadows, and dragged the hearse into a ditch. The hearse was upset and badly damaged. could not be used to convey Miss McGrath's body to Holy Rosary Church, and the undertaker's wagon was pressed into service for the purpose.

Valuable Addition to Museum.

Richmond, Va., Nov. 7.—The shaft of the Confederate ironclad ram Virginia (Merrimac) has been presented to the Confederate Museum. The ladies of the Confederate Memorial Association passed resolutions condemning the Southern press for not publishing the ram by her right name, the Virginia, instead of the Merrimac, the original name of the vessel before she was converted by Admiral Buchanan into an ironclad.

Killed Just Before Their Wedding.

Altoona, Pa., Nov. 7.—Albert Cocheneur and Anna Roberts, of West Newton, who were to have been married within a week, were talking so earnestly as they crossed the Pennsylvania tracks that they did not notice the approach of a fast train. They were hurled forty feet and killed instantly.

Havana's New Superintendent.

Boston, Nov. 7.—Alexis Everett Frye, who has been appointed Superintendent of the public schools of Havana, is forty years old. He has a degree of L.L. B., from Harvard. In 1890, he was superintendent of schools of San Barnardino, Cal. During the Spanish war, he drilled a company of students at Harvard.

They Want American Soup.

East Tawas, Mich., Nov. 7.—An order for fifty tons of vegetable soup preparation for the English army has been received by a local concern.

SCHLEY IS TO SAIL SOON.

May Start For South Atlantic Station Within Ten Days.

NOT ON DEFINITE ORDERS

Can do as He Pleases, But Will Probably Go to South Africa.

The Warship Montgomery Sails For Rio—News of The Drowning of Two American Engineers is Confirmed—Cases Involving Indian Land Titles Are to Be Heard.

Washington, Nov. 7.—Solicitor-General Richards, who has been ill for a long time, was in the Supreme Court Monday afternoon for the first time this term, and moved that the cases against the Choctaw, Chickasaw and Wichita Indians be advanced for a speedy hearing. The cases came from the Court of Claims and they involve the title to the Wichita reservation, 743,610 acres, the Kiowa, Comanche and the Apache reservation, 2,968,839 acres, and the district known as Greer county, 1,511,958 acres.

"It is desired," said the Solicitor-General, "to allot a portion of the Kiowa, Commanche and Apache reservation among the Indians now living theron as soon as possible, and also to dispose of any unallotted balance of said reservation as well as of the district known as Greer county; but none of these things can be done until the above appeals are decided. The present uncertainty as to the title of the three tracts of land, aggregating 5,224,461 acres, prevents the United States from making any final disposition of them, thereby seriously interfering with the prosperity of a large number of Indians, who are kept on their old reservations without any permanent individual ownership in the lands that they occupy, and consequently without those inducements to industry and progress which are furnished by the system of allotments of land in severalty—the system which the Government is trying wherever practicable to substitute for the old reservation system."

The Montgomery Off For Rio.

Washington, Nov. 7.—The Montgomery has left Pernambuco for Rio, to be nearer Cape Town in case the presence of an American war ship is needed in South African waters before Admiral Schley could reach there in the Chicago from New York.

It is understood at the Navy Department that the Admiral will hoist his flag early next week and start within the next ten days for the South Atlantic station.

That he will go directly to South Africa is not doubted, though his orders will give him absolute discretion in choosing his destination.

In Jail Charged With Murder.

Lafayette, La., Nov. 7.—Charged with giving his sweetheart poison, Arthur Henry, the twenty-year-old son of S. P. Henry, a former Speaker of the State Assembly, is a prisoner here. His chum, Sidney Debarge, is locked up as an accessory. Henry was engaged to marry Miss Alice Coldwell, but wearied of her. When she complained of feeling ill he gave her a capsule containing poison. The young woman took it and died a few minutes later.

Soldiers Want $60 Each.

Chicago, Ill., Nov. 7.—Suit will be brought against the State of Mississippi by the Chicago men who served in the regiments of that state during the war with Spain unless they are paid $60 apiecec, a bounty to which they claim they are entitled under an old law providing for the payment of that amount to every non-resident recruited in a Mississippi regiment. This was the decision reached at a meeting of 300 ex-Mississippi volunteers.

Yale's Cross Country Team Picked.

New Haven, Nov. 7.—Captain J. P. Adams, of the Yale Cross-Country Club, has selected the team which will represent the University in the intercollegiate meet, to be held on Nov. 18 at Morris Park. The men chosen are: H. P. Smith, E. Strong, H. S. Hetrick, S. B. Chittenden, H. P. Rogers, R. G. Teel, G. W. Butts, Jr., G. G. Parkhurst and W. D. Waldron. The Cross-Country Club will hold another series of paper runs.

In Trouble Over Revenue Stamps.

Newark, Nov. 7.—Caleb L. Crockett, of No. 47 Spring street, has been released on $2,500 bail by United States Commissioner S. Whitehead, charged with erasing cancelation marks from used revenue stamps. Internal Revenue Agent Thompson, of New York, charges that Crochett bought the used revenue stamps from boys employed in brokers' offices and removed the marks with acids.

New Hotel for Chicago.

Chicago, Ill., Nov. 7.—A twelve-story steel and fireproof hotel building at northwest corner of State and Monroe streets, is to be built by Chicago and New York capital. It is said that the structure will occupy the site of the Frank Bros. building, 100 by 90 feet, be twelve stories high and contain 300 rooms, with ten stores on the ground floor.

Report of Drowning Confirmed.

Washington, Nov. 7.—The State Department has sreceived from the United States Consul at Managua confirmation of the reported drowning of two American engineers with the surveying party of the Isthmian Canal Commission. Consul Donaldson at Managua has telegraphed that Engineers Clark and Merriman were drowned at Machuca on Oct. 29.

McKinley Votes in Canton.

Canton, O., Nov. 7.—President McKinley, according to previously arranged plans, came here from Washington to vote. The President voted in the ward in which is situated the residence he recently purchased in Canton.

Nov. 21—Lecture by Dr. W. R Richards for the benefit of Y. M. C. A. subject—"Oliver Cromwell."

A Deliverer From Industrial Serfdom.

In this day and age when push and vim are concentrated in every walk of life in order that facilities of both individual and mechanical labor may be used with the most widespread results from the least amount of expenditure, electrical development comes in for important consideration. In the November issue of The Engineering Magazine, Dr. Louis Bell contributes an interesting and instructive article on the subject:

"The electrical developments of the last decade have cleared the way for at least a partial solution of the difficult problem of saving and restoring distributed industries. The most sanguine engineer would hardly put forward his art as a panacea for these economic ills—other and more drastic remedies must come at the hands of the long-suffering people if they would save themselves from industrial serfdom; but, nevertheless, electric power is no insignificant factor in the situation. At the present time we must look upon water powers not merely as local privileges, but as available anywhere within a radius of, say, twenty-five miles in almost every instance, or at several times that distance in regions where fuel is dear. And this means that if, within such distance of a water power, there are locations otherwise desirable for manufacturing purposes, the power user there will be in a better situation economically, so far as cost of power is concerned, than his large competitors who have to depend upon steam. And all along the line of such a transmission this industrial advantage exists."

The result of the election today is awaited with much anxiety by the prominent leaders and politicians of both parties. It will go a long way toward determining who shall be elected United States Senator to succeed General Sewall in 1901. Should the Democrats elect several State Senators that would be an indication that a change in partisan feeling is under way, and that it is in favor of the party now in the minority. A gain of Democratic Senators would encourage the leaders of that party to prepare for a contest for the seat now held by General Sewall, and would in other ways enliven political affairs throughout the State. In the event of the Republicans holding their own in the Senatorial elections, which would mean the success of seven of their candidates, then the result of the contest for the Legislature of 1901 could be easily prophesied.

MAYOR DANIEL TALLON AND JOHN E. REDMOND.

John E. Redmond, M. P., and Daniel Tallon, mayor of Dublin, are in this country and will visit the leading cities in the interest of the Parnell monument fund. The corner stone of the monument was laid in Dublin October 7. The visitors have met with good success since their arrival in America, the collections so far, especially in New York, amounting to a goodly sum.

President McKinley will, it is expected, devote considerable attention in his annual message to another executive branch of the government, with a cabinet officer at its head, to have charge of interstate and foreign commerce. It seems to be pretty well settled that a recommendation will be made for a new department of commerce, but its full scope is still a matter for discussion and will probably not be decided until subordinate officials of the government have submitted the data which they have been requested to furnish and there has been a general exchange of views around the cabinet table.

Here, once more, is the detective who is again hot on the trail of the men who blew up the battleship Maine. In fact, this last story, which comes from Havana, says the detective has a man, who, for a consideration of $15,000 to $20,000, will tell how he and several others did it. This man wants the money so he can live quietly here after away from fear of vengeance. The destruction of the Maine is a tragic bit of history that will probably never have a chapter such as the Havana man proposes to contribute for the mere bagatelle of $15,000 or $20,000.

The New York World, which has, intermitently, been a strong advocate of Dewey's candidacy for the Presidency, printed an interview with the Admiral in which he said: "I would not, under any circumstances, consent to be a candidate for the Presidency, and I should consider it an act of friendship if the press would treat this decision as sincere and final. I wish they would now drop the matter. I feel that any further booming of my name for the Presidency tends to make me ridiculous." The statement is another evidence of Dewey's good sense.

There is a well authenticated rumor afloat that the deft hand of Allan L. McDermott is being felt in this campaign and that he is getting in what he considers to be effective work for the election of a Democratic Senate. Such a result he would view as an entering wedge for the choosing of a Democratic Legislature in 1901 when he would announce his candidacy for the United States Senate. And in conjunction with that arrangement Edward F. C Young would be made the Democratic candidate for Governor.

In an interview las evening Charles N. Codding, chairman of the Union county Republican committee, said Senator Cross would be re-elected by about 2,100 plurality, and that the Republican candidates would have substantially the same vote. He predicted that Robert G. Houston, the Republican candidate for Sheriff, would have 1,500 plurality, and that the plurality of William Howard, the Republican candidate for County Clerk, would not fall far below 1 500

Collector George F. Brown, of the borough, appreciates the recent action of the Mayor and Council in deciding to employ an expert to examine the books. It gives him much relief and thereby assures to the people of the borough as well as the collector that the accounts are correct. This is in no way a reflection on the auditing committee of the Council, but they feel that it is a good deal of work to do considering the amount of time at their disposal to do it.

PASSING COMMENT

Things that Are Not Exactly News but Just as Interesting.

"When I was a boy," said a teacher in a local Sunday-school, "some of my companions wished me to go with them to a saloon to get beer, but I declined the invitation and hid around the corner. 'Now, boys, what made me do that?'"

Small boy in the corner, raising his hand, said: "I know teacher; suppose you was 'fraid you'd be asked to chip in for the beer."

* * * * *

One of the most desolate places in the city at present is the Union County Country Club. The shades are drawn, and the absence of former habitues makes the place look forlorn. Situated in such an ideal spot it does seem as though a first-class club out to be conducted successfully, and there are many who have fond hopes that once more the club will again present a lively and inviting appearance.

* * * * *

The convenience the early commuter finds in cutting across lots from East Fourth street to the North Avenue station will soon be a thing of the past. The Central Railroad Company is soon to fence in its property from Jersey City to Somerville. In a few weeks a wire fence will shut out trespassers and incidentally protect the railroad company from damages in the event of accident caused by people crossing its tracks at points not for public use.

* * * * *

Tramps have again grown bold in Middlesex county and from the frequency and boldness of some of the recent outrages it would appear as if they thought the chain gang of Middlesex county had gone out of existence. At all events they seem to have little or no fear of having to serve again in that organization. The death of William C. Canse, the Freeholder from New Brunswick, who originated the chain gang, marked to a large degree the relinquishing of the crusade against the "hoboes," a fact which those gentry were soon sharp enough to profit by. So little has been done of late by the county officials to keep the county rid of the tramp nuisance that the tramps have become emboldened to such a degree that one occasionally may be seen on the outskirts of New Brunswick, something never witnessed when Mr. Canse was alive and the "hoboes" were hunted regularly.

Working Night and Day

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. Every pill is a sugar-coated globule of health, that changes weakness into strength, listlessness into energy, brain fag into mental power. They're wonderful in building up the health. Only 25c per box Sold by L. W. Randolph.

GRAIN-O BRINGS RELIEF

to the coffee drinker. Coffee drinking is a habit that is universally indulged in and almost as universally injurious. Have you tried Grain-O? It is almost like coffee but the effects are just the opposite. Coffee upsets the stomach, ruins the digestion effects the heart and disturbs the whole nervous system. Grain-O tones up the stomach, aids digestion and strengthens the nerves. There is nothing but nourishment in Grain-O. It can't be otherwise. 15 and 25c. per package.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

AMERICAN STEAM LAUNDRY,
122 East Front Street.

Special Overcoat Sale

We purchased 138 extra fine men and boys' sample overcoats. These garments were made especially for the manufacturer's show room. No custom tailor can produce anything finer or more stylish work on overcoats like these for less than from $15.00 to $35.00. They consist of the very best kersey, melton and patent beavers, plaid-backed coverts and whipcords. This entire sample lot was made up for this season's trade by one of the best clothing manufacturers in the United States.

There are not more than two or three of a kind, but on account of having such a large lot we are able to fit any man between the sizes 34 and 44. Here are the prices that we are going to sell them at.

LOT No. 1 consists of heavy weight beavers and covert cloths, lined with the best plaid worsted, satin yoke and velvet collars, wholesale price $8.00, 10.00 and 12.00. This lot to go at your choice, **$4.75**

LOT No. 2 consists of 40 extra fine men's overcoats, made and trimmed in the latest fashion, in black or blue meltons, kerseys and beavers, lined with first-class all-wool clay diagonal worsted, satin piped and French facing. These overcoats were actually sold at wholesale from $12.00 to 16.00. Your choice at **$5.75**

LOT No. 3 consists of 30 very handsome overcoats, cut in the short box style, full backs, satin lined, an overcoat that is good enough for a banker's son, wholesale price from $14.00 to 21.00, to close out this lot at **$6.75**

LOT No. 4. This lot will include the very best overcoats of this entire lot, and are the handsomest lot of overcoats ever shown in Plainfield, are lined with pure silk lining, have silk velvet and hand-made collars. Over 14 different styles of meltons, kerseys, coverts and patent beavers that sold at wholesale from $18.00 to 28.00. Price for this sale, **$8.75**

Customers from Dunellen, Lincoln, Bound Brook, Somerville and New Brunswick will have their car fare paid by buying a reasonable amount of clothing.

New York Clothing Company

M. WEINBERGER, Mgr.
214 W. Front St. Next Door to Music Hall.
Plainfield, N. J.

We Want You To Know

That for many years we have not had such a large stock of new fall and Winter Up-to-Date Shoes as now

They have all been bought at the old prices, and our patrons will receive the advantage thus gained.

We are positively selling a better shoe today for the same money than ever before.

We are right up in the front ranks of the shoe trade, and are in good shape to offer unusual inducements.

Just put on sale a new shipment of Peddie's Trunks, Dress Suit Cases and Hand Bags at the old prices. Remember our "specialty" shoes are having a big sale; don't go out of town for shoes.

DOANE & EDSALL.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Daily Press.)

Dunellen, Nov. 7.—Miss Ida Simons, of the borough, who takes much interest in Sunday-school affairs, took the part of the "Gypsie Queen" at the recent entertainment given by the Sunday-school of the Presbyterian church at Bound Brook.

The water was let out of the New Market pond Sunday afternoon. Quantities of fish, most of them being of the carp variety, were found in large quantities. Dan Moody, of New Market, is reported to have captured a carp that weighed nearly fifteen pounds by the aid of a hoe.

At last evening's meeting of the Common Council considerable routine business was transacted. H. Brewster Willis, the borough counsel, was present and gave the members some good advice regarding matters pertaining to the affairs of the borough.

The Dunellen football team is to play the Scotch Plains team at the latter place today. Saturday the Dunellen boys will tackle the High School team, of New Brunswick.

Capt. George D. Morrison, of Plainfield, gave an interesting talk at the Presbyterian church Sunday evening on mission work in the Phillipines.

John Cruser, night operator at the Central Railroad station, will move soon to the borough from Neshanic.

Miss Lillian Gaskill, of the borough, has accepted a situation in the music store of W. H. Brokaw at Plainfield.

Mrs. Catharine Meirs and Miss Lena Meirs have returned from a visit with relatives at Port Reading.

Walter Clawson took a trip to Pluckamin Sunday to visit his relatives and friends.

A new crosswalk has been laid at the junction of North avenue and Prospect avenue.

Miss Ida Harris, of Rahway, has been visiting friends in the borough for a few days.

There is every indication that a large vote is being polled in the borough today.

The Board of Education will meet this evening.

William Larkin is seriously ill.

PLAINFIELD AND FANWOOD.

(Special Correspondence of The Press.)

Scotch Plains, Nov. 7.—Tomorrow night at the home of the bride's parents, Mr. and Mrs. Thomas J. Nichol, will occur the marriage of their daughter, Miss Lillian, to Lowrey T. VanDyke, of New York. Over 100 invitations have been sent out and the nuptials will be the social event of the season.

Several from town attended the funeral service of the late Wm. H. Brower held in Plainfield yesterday afternoon. Mr. Brower was a former resident of the town a number of years ago and at the time of his death was a member of the Exempt Firemen's Association of this place.

Rev. Mr. Shott has been making a number of improvements about the Baptist parsonage grounds. The old fruit trees have been trimmed of the dead and useless branches and a number of young trees have been planted.

John E. Flannery has returned to his home in Plainfield after a pleasant visit with his daughter, Mrs. George H. Johnston.

Mr. and Mrs. Charles Frentz, of New York city, have been spending a few days with relatives in town.

Fanwood Council, Royal Arcanum, hold their semi-monthly meeting in their rooms this evening.

Miss Minnie Malone has returned from a two weeks' visit with relatives and friends in Brooklyn.

The local football eleven are playing the Dunellen team on the local gridiron this afternoon.

Mrs. George Collins, of Westfield, spent yesterday with relatives in Fanwood.

A Maclaren Evening.

A "Maclaren Evening" will be held at the Congregational church tomorrow evening. There will be readings from the works of Ian Maclaren by Mr. and Mrs. Alex. Millar, Miss Alice Miller, Miss Ellis and W. B. Wadsworth. The pastor, Rev. C. E. Goodrich, will also take part.

—Press want ads bring results.

Nasal Catarrh quickly yields to treatment by Ely's Cream Balm, which is agreeable and aromatic. It is received through the nostrils, cleanses and heals the whole surface over which it diffuses itself. A remedy for Nasal Catarrh which is drying or exciting to the diseased membrane should not be used. Cream Balm is recognized as a specific Price 50 cents at druggists or by mail. A cold in the head immediately disappears when Cream Balm is used. Ely Brother, 56 Warren Street New York.

THE AMUSEMENT WORLD

CURRENT ATTRACTIONS THAT PLAINFIELDERS MAY WITNESS.

Local and Metropolitan Performances That Will Please Those Who Delight in the Art of Thespis and Mimic World.

In the new musical play, "A Chinese Romance," which Manager Maze Edwards presents next Monday evening, will be found many interesting features, a company of capital domestic players selected for their individual strength, a Chinese orchestra, a troupe of celestial acrobats, among whose number are the only two females who have been permitted to leave the empire.

* * * * * *

Amid the whirl and excitement of election week in Greater New York, there has been no overlooking of the requirements of the patrons in Mr. Proctor's two theatres. The big novelties at the Pleasure Palace are those marvelous Burmese wonders, Moung Toon and Moung Chit, the greatest jugglers and oriental fakirs ever seen on the stage. They are masters in the manipulation of colossal objects. At Proctor's Twenty-third Street Theatre some of the big features of the programme will be: Adelaide Herrman, widow of the renowned magician, who will appear in a magical and terpsichorian melange; Gerald Griffin and Co. in the comedietta, "Silence is Golden"; Haines and Pettingill, blackface comedians; Alexander Tacianu, the male soprano; Seven Reed Birds, in a musical skit; Caroline Hull, vocalist, and a score more.

* * * * * *

The presentation of the new naval play "The Gunner's Mate" at Music Hall Thursday night, will be one of much importance. It will be produced under the immediate supervision and direction of Augustus Pitou, manager of the Grand Opera House, New York, and this fact alone commends it to the attention of all theatre and amusement seekers. Mr. Pitou is recognized as one of the most proficient of stage managers as has been shown by his work with noted stars and plays before produced by him. He is the manager and author of the play wherein Chauncey Olcott, the noted comedian appears, and in his selection of the artists who appear in the several roles he is unrivalled. The scenery of the new play is all new and true to life and will be reproductions of actual life on board the war vessels of our navy.

* * * * * *

"The Sidewalks of New York," a sensational melodrama by Scott Marble, that has been enjoying triumphs on the road, will be presented here for the first time at Music Hall next aturday night. It is chock full of love and vengeance, relieved of course by specialties and broad comedy features. A trained bear helps the comedians while a high diver, Paul J. Tustin, who learned his business on St. Louis levees, plunges headlong from a tall shot tower to the rescue of a woman whom the villians attempt to drown, making a thrilling climax for the third act. All of the ten sets of scenery are from the brush of John Young of the Broadway Theatre. The Herald Square scene, representing the New York Herald office illuminated, is pronounced by that paper the best and most life like picture ever placed upon the stage.

Red Hot From the Gun

Was the ball that hit G. B. Steadman, of Newark, Mich., in the Civil War. It caused horrible Ulcers that no treatment helped for 20 years. Then Bucklen's Arnica Salve cured him. Cures Cuts, Bruises, Burns, Boils, Felons, Corns, Skin Eruptions. Best Pile cure on earth. 25cts. a box. Cure guaranteed. Sold by L. W. Randolph, Druggist.

EARLY INTELLIGENCE.

—At present the borough streets are in the best of condition, making driving and riding a pleasure.

—Miss Nettie Beeching will address the members of the Loyal Temperance Legion at their meeting this afternoon.

—The Christian Endeavor Society of the Seventh-Day Baptist church will hold a business meeting tomorrow night.

—Excellent progress is being made with the macadamizing of West Third and Fourth streets, and the job is a good one.

—Owing to an increase in business Woodhull & Martin, dry goods merchants, have been obliged to put on extra help.

—The second rank will be conferred on one candidate at the meeting of Unity Lodge, Knights of Pythias, tomorrow night.

—The Women's Society for Christian Work of the Seventh Day Baptist church will hold a sewing meeting tomorrow afternoon.

—The Home Missionary Society of the First Presbyterian church will hold a meeting next Friday evening of special interest.

—Contractors Patsy Christmas and C. M. Meeker have completed the work of macadamizing Richmond and East Second streets.

CORWIN DISCONCERTED

Impression Is That He Was Never Bested By an Antagonist.

"The general impression is," said the Professor, "that Corwin was never disconcerted by any antagonist. But there was an old story current in Central Ohio thirty-five or forty years ago, showing the contrary. Soon after Antioch College, at Yellow Springs, began to achieve a reputation under Horace Mann, there was an outbreak among the students. In attempting to quiet the disturbance one of the professors was roughly handled. The professor insisted that the ring-leader in the hazing frolic threatened him with a heavy cane, and finally struck him. The student was arrested on complaint of the officers of the college, who were represented in court by 'Tom' Corwin.

"Corwin's great reputation and his manner took nearly all the fight out of the students, who were standing by the parties under arrest. Corwin was carrying all before him, making witnesses say almost what he wanted them to say, when one of the principal offenders took the stand. This young fellow admitted that the professor was threatened with canes, but denied that he was struck by any one. He said, in fact, the boys only wanted to scare the professor, and had no thought of hurting him. The witness was a quiet, athletic fellow, and as he made this explanation he smiled at the exaggerated look of amazement on Corwin's face.

"Corwin made the witness show how the canes were flourished about the professor's head, and questioned him persistently as to how close the canes went to the professor's nose. He began with five inches and forced the witness to say that the distance was not greater than three inches, two inches, one inch. Then, triumphant, he took the cane from the hand of the witness, and, flourishing it about the young fellow's head, so close as to make him dodge, thundered: 'If a man should flourish a heavy cane about your head like this, and this, and this, within an inch of your nose or ear or hair, what would you think, what would you do, sir?' The student, who had been dodging this way and that, much to the amusement of the spectators, suddenly sprang to his feet, and imitating Corwin's intense, dramatic manner, and his humorous voice, said: 'I would welcome him, sir, with bloody hands to a hospitable grave.' This application of the famous sentence in Corwin's speech on the Mexican War brought down the house and threw the great orator off his base."—Chicago Inter-Ocean.

An Artistic Failure.

"Never!" said the stern-faced father to the fair-faced daughter, who stood before him in an attitude of petition. "You have brought me the surprise and disappointment of my life. Marry a Smith! I say most emphatically and decidedly, no! That is final, my child. We trace back beyond the flood and through a royal line. We were among the first to visit the shores of this new world and among the earliest settlers of Detroit. Have you no pride; no proper sense of your importance? Has it come to a point where I must exercise paternal authority in such a matter?"

"Oh, I guess the Smith family is as old as it is numerous," for the girl has a dash of American independence. "No Indian maiden ever saved any of our family in the early history of the country, that I can discover, and if you make it an issue, I'll undertake to show that the Smiths have all the best of it."

Now the old gentleman's face was red, and his eyes were snapping. It has been his way to cow his family by dramatic action, and in this case he wanted to throw in a little of the melodramatic. To do this he must be upon his feet, and have room. He sprung forward with the air of a tragedian, but he was in one of those narrow chairs with a frayed cane bottom and stiff arms. The chair clung to him as he leaped and he looked too ridiculous for words. He swore violently. The daughter screamed with laughter. His supreme dramatic effort was a howling farce, and he collapsed.

"Smith" is on the cards.

Needed in the Business

"I say," said the business man to the detective, "some fellow has been representing himself as a collector of ours. He has been taking in more money than any two of the men we have and I want him collared as quickly as you can."

"All right; I'll have him in jail in less than a week."

"Great Scot, man! I don't want to put him in jail; I want to engage him."—San Francisco Examiner.

His Explanation Went

"You were letting your horseless carriage run at an illegal rate of speed."

"Well, you see, judge, it was the first time she had been out of the stable for a month, and that idiotic new hostler of mine gave her a double allowance of kerosene, and, besides this, I was trying to drive her without blinders, and——"

"Discharged. Next case."—Cleveland Plain Dealer.

"I never knowed till jist now, Willie, de utter lonesomeness o' me situawashun. While I'm smokin' dis cigar ev'rything I got in dis world is goin' up in smoke."

Lokal-Nachrichten aus der alten Heimath.

Bayern.

München. Von dem amtlich mit 2,500,000 Mark festgestellten Hochwasserschaden in der Stadt München treffen auf die Schäden, die Privatpersonen erleiden, nur 26,000 Mark.—Das Schwurgericht sprach den „Süddeutschen Postillon," der durch seine Maifeiernummer sich eines Vergehens wider die Religion schuldig gemacht haben soll, frei.—In einer Menagerie auf der Festwiese verletzte sich ein Thierbändiger dadurch, daß ihm bei einer unvorsichtigen Manipulation mit dem Revolver ein Schuß in's Auge drang, so daß dieses verloren sein dürfte. Das andere Auge hatte der Bedauernswerthe schon früher eingebüßt.

Amberg. Die Stadt Amberg verlieh dem Rathe am königlichen Obersten Landesgerichte, Johann v. Walter, das Ehrenbürgerrecht.

Bamberg. Reichstagsabgeordneter Schädler ist zum Dompfarrer dahier ernannt. Er behält seine Mandate im Reichstag und in der bayerischen Abgeordnetenkammer bei.

Hof. Der Restbesitz der in Liquidation befindlichen Aktienbrauerei Hof (vormals Gebrüder Angermann), der aus einem größeren Komplex von Feldgrundstücken, den beiden Gasthäusern zum alten Bahnhof und zur Traube, sowie der Restauration zum Angermannsbräu in Gera und dem Gasthause zur Krone in Plauen besteht, ist durch Kauf an den dermaligen Liquidator Gustav Strauß dahier übergegangen.

Höhenstadt. Das Schwefelbad Höhenstadt ging von Baumeister Sommer in den Besitz der Frauen Platiel und Weinzierl aus München über. Der Kaufpreis soll 90,000 Mark betragen.

Karlstadt. Die Gemeinde Himmelstadt hat beschlossen, eine steinerne Brücke über den Main zu erbauen; der Bau ist gesichert. Die Gemeinde besitzt 800 Tagwerk Feld, Wald, Wiesen und Weinberge am rechten Mainufer.

Landshut. Die vom hiesigen Stadtmagistrat beschlossene Bäckerei-Verordnung, die unter anderen Bestimmungen in Bezug auf Reinlichkeit auch das Rauchen und Schnupfen in den Geschäftsräumen verbietet, ist von der königlichen Regierung genehmigt worden und wird nun in Kraft treten. Auf Anregung der königlichen Regierung wird auch das Tabakkauen in die Verbote einbezogen.

Lindau. Der Gesammtfremdenverkehr in unserer Stadt während der ersten neun Monate dieses Jahres ergibt die Zahl 55,166 gegenüber 49,101 des Vorjahres.

Lohr. Die Neubauarbeiten für das Sanatorium für Lungenkranke schreiten rüstig vorwärts; zur leichteren Transportirung des Materials wurde eine Drahtseilbahn in Betrieb gesetzt.

Nürnberg. Es wird hier noch ein zweiter Stadtpark errichtet, der einen großen Umfang erhalten wird, indem 130 Tagwerk in Aussicht genommen sind. Der Park wird auch Reit- und Fahrwege, besondere Wege für Radfahrer enthalten. Von dem Areale sind bereits 30 Tagwerk in den letzten Jahren angepflanzt worden, indem die betreffenden Grundstücke zur Ablagerung der Haushaltungsabfälle (Mülle) benutzt wurden. Es wurden der Sand tief ausgehoben, die Abfälle eingesenkt. Diese Düngungsart hat sich sehr gut bewährt.

Aus der Rheinpfalz.

Ludwigshafen. Hier haben die Raiffeisen'schen Genossenschaften der Pfalz eine neue Centralkasse „Pfälzer Genossenschaftsbank e. G. m. b. H." errichtet. Als Direktor der Bank ist der pfälzische Verbandsdirektor Dr. Nolden bestellt worden.

Wachenheim. Dem Pfälzischen Revisionsverbande landwirthschaftlicher Genossenschaften für Geld- und Warenverkehr dahier wurde das Recht zur Bestellung des Revisors gemäß Paragraph 52 des Genossenschaftsgesetzes vom 1. Mai 1889 verliehen.

Württemberg.

Stuttgart. Die hier stattgehabte photographische Ausstellung war von 12,000 Personen besucht und schloß mit einem finanziell befriedigenden Ergebniß ab.—Für das dem verstorbenen Dichter J. G. Fischer am Fuße des Hasenbergs zu errichtende Denkmal sind in Folge Preisausschreibens fünf Entwürfe eingelaufen. Das Preisgericht tritt demnächst zusammen. Die Preise betragen 1000, 500 und 300 Mark.

Ehingen. Professor Dr. Herter, der Vorstand des hiesigen Konvikts, wurde zum Domkapitular in Rottenburg ernannt. Dr. Herter ist 1846 geboren.

Ellwangen. Die Strafkammer verurtheilte den Postsekretär Eduard Prölz von Frankfurt a. O. und den Studenten Emil Kallenberger von Stuttgart wegen Herausforderung zum Zweikampf und Kartelltragens zu einer Woche respektive zwei Tagen Festungshaft. Prölz hatte während einer militärischen Uebung mit dem Kaufmann Otto Weber von Gmünd, der wie er als Vizefeldwebel der Reserve eingezogen war, ein Renkontre, das nach Prölz, Entlassung eine Pistolenforderung auf 15 Schritte Distanz zur Folge hatte. Weber nahm die Forderung nicht an, übergab vielmehr die Sache der Staatsanwaltschaft.

ALPHABET MAKERS.

Song Sam-mun's Genius Solves the Problem for Korea.

Korea boasts of the invention of a pure phonetic alphabet. Of course it was not the first, but it was original with her, and therefore no less creditable. The invention of this alphabet is the last of three great protests which Korea has made against the cumbersomeness of the Chinese written character. King Se-Jo, early in the fifteenth century, determined that the people must have a phonetic alphabet, and a college of scholars was convened, with the distinguished San-mun at its head, to devise an alphabet. Looking about for a model, they found nothing like a phonetic alphabet, except in the Tibetan books which had been brought from China and deposited in the monasteries of Korea. But Tibetan, like Sanskrit and like the Semitic languages, is consonantal in its character. The consonant is the foundation, and the vowel is simply the bridge that spans the interval between consonant and consonant.

Song Sam-mun's genius is demonstrated in his recognition of the fact that this is wrong, and that the vowel is the basis of all articulate speech. He therefore divided the symbols into two classes—"mother" and "child"—the vowel being the mother and the consonant the child. This was not only absolutely original with him, but it was absolutely scientific. The Tibetan furnished the basis for the Korean consonants—not the finished Tibetan of to-day, but the singular characters found in the Tibetan Buddhist books of Korea. For the vowels they turned to the ancient seal character of China and from its simplest radicals picked out six, which became the Korean vowels. The combination of the letters in the syllable was, so to speak, triangular.

In simplicity the Korean characters are unsurpassed. Tradition says that the inventor took them all from the Korean door, which consists of a combination of horizontal and oblique lattice-work; and in truth this could be done.—Harper's Magazine.

Simpson and Sulzer.

Jerry Simpson and William Sulzer of New York were at one time friends. They exchanged confidences and discussed ways and means by which the country might be saved from going to the demnition bow-wows, so to speak. One day Gen. Henderson of Iowa, approached Representative Amos Cummings of New York.

"What kind of a man is Sulzer of New York?" he asked.

"What does he want?" said Cummings, by way of reply.

"Why, I have got an hour on such a measure, and Sulzer wants me to give him half of my time," said Henderson.

"Well," said Cummings, "Sulzer is my colleague, and it would be better for you, I think, to get an unbiased opinion of him. Go over and ask Simpson what he thinks of Sulzer; they have been as thick as thieves."

Henderson acted on this suggestion, and presently returned with a broad smile on his face. "Simpson says," he said, "that Sulzer is an all-around——."

The explanation of Simpson's hostility to Sulzer came later. It seems that when a certain matter was pending before the house Sulzer sought out Simpson and asked his views regarding it. Mr. Simpson said that he expected to speak on the subject, and outlined his sentiments. Mr. Sulzer the next day got the floor ahead of Simpson and delivered the latter's speech.

Of course, Simpson was nonplussed, and naturally indignant. He did not speak on the measure himself, and from that time on his opinion of Mr. Sulzer was much more forcible than polite. "It was a dirty, mean trick," said Simpson, in referring to the matter. "I thought that Sulzer was my friend, but he has played me false. He is a first-class chump."—Washington Times.

Novel Temperance Scheme

A manufacturer at Three Oaks, Ind., has just inaugurated a temperance reform in that town that is at once novel and apparently practicable. This man, who has several hundred employes, recently offered to pay into the village treasury annually an amount equal to the license fees derived from the saloons if the authorities would abolish the saloons and make the town "dry." If the offer was refused he threatened to remove his factory to another town.

The proposition was submitted to the council, and it in turn referred the matter to the people at a special election. The result was an overwhelming victory for temperance. The saloons will be closed, the village treasury will receive the annual payment promised and the factory will not be removed.

Of course it is not difficult to understand why this manufacturer desired the closing of the saloons. He probably realized that he could get better work from his employes if they were always sober, and he will doubtless discover that the money paid for the closing of the saloons is well invested.

The Planet Mars

While many astronomers regard the planet Mars as a "dying world," others, notably the Abbe Moreux and Col. du Ligondes, consider it as a young and growing planet. Moreux explains the doubling of the "canals" by an optical effect, and the other holds that Mars was formed after the earth and Jupiter. Owing to its distance from the sun and its light atmosphere, Mars ought to be an icy desert, but observation shows that it is not, and hence he concludes that the body of the planet is still warm. The "canals," he thinks, are cracks produced by contractions of the crust. The white poles of Mars are formed not by snow, but hailstones. Mars, in short, is, according to him, like the earth when she was in the primary era.

Mrs. Rambo—Absalom, are you a good accountant?

Mr. Rambo—At the office they think I'm somewhat above the average. Why?

Mrs. Rambo—You couldn't give a very good account of yourself when you came in at three o'clock this morning—that's all.—Chicago Tribune.

Little Nell—Johnny, what is a philsopher?

Brother Johnny (a little older)—A fellow that rides a philosopede of course.

Then little Nell fainted.

COST OF PRESENTATION.

Enormous Expense Attached to This Ceremony.

It costs more to make one's debut in England than in America, for over there a girl is not properly introduced till she has been presented at court, and the cost of launching a daughter in society is something to drive impecunious fathers into a lunatic asylum. One girl who came up from her Berkshire home to be presented last spring has given an account of what she endured, and what her father's pocketbook suffered. First, a large, aristocratic and handsomely furnished house was rented in London for the season—nearly everyone rents his town house now—and a big rent charged. Then began the work of laying in a wardrobe.

This girl first made a visit to a place where corsets are made to order. She had a pretty figure, but madame insisted that she must have an eighteen inch waist to be beautiful. She was measured and fitted for riding, opera and ordinary corsets, and the bill came to $100. Twenty-five pairs of the smartest boots and slippers added to the bills. A score of pretty hats, to go with various dresses, made a big hole in $500, and three times the amount went to the dressmaker. A riding habit cost $50, a bicycle suit the same, and several dozen pairs of gloves to match were no small item.

The presentation dress cost $600, though it was plainly made of exquisite white satin broche. For a fee of $15 a lady came and taught the young woman the court bow, the way to courtesy and carry her train. This was hard work for a debutante, and she said she was as tired after an afternoon with her teacher as though she had spent all the time on the golf links. And after all the time and trouble it was but a few brief seconds she spent in the royal presence. But she was properly launched and happy.—Kansas City Star.

A Misses' Wrapper.

When the school-girl comes home at night, she should have a wrapper in place of the more uncomfortable

school dress. This illustration shows a pretty one with two collars and gathered at the waist with a belt of ribbon.

What Women Are Doing.

Miss Alice Serber, of New York, who is the first Russian woman admitted to the bar in the United States, has been admitted to practice in the District Court of the United States for the Southern District of New York—the first woman ever granted this privilege. Miss Serber has been in this country for eight years and was admitted to the State bar in 1896, after being graduated from the New York University Law School. She was born in Bar, Russia, and when she came to this country in 1891 could not speak English. But in a little while she mastered the language, and within five years had completed her law course. She then served as managing clerk with Miss Rosalie Loew and David Solomon. Now she is in business for herself.

Dr. Rose Kidd Beere, the Red Cross nurse who returned to Denver with the Colorado regiment, says: "I rejoice in the fact that California women are not club women. I rejoice, because they have had time to be patriotic. Every returned volunteer will bear me out in this—there are no women in the world to equal California women. At the biennial here we thought that because only two clubs from California were represented that the women in that state must be benighted indeed, because they were not club women. Thank God they are not."

Mrs. Mary Grinnel Mears, who has been returned to the Presidency of the New York State Assembly of Mothers, combines personal charm with executive ability. She is a fluent speaker and an untiring worker. It is largely owing to her efforts that the association has reached its present prominence. Mrs. Mears is the wife of the Rev. Dr. D. O. Mears, of Albany.

Miss Maggie Jeffer, probably the only female press agent in America, is a niece of Buffalo Bill, with whose show she is. She was in the newspaper business in Duluth, Minnesota, when she talked her uncle, as she puts it, into trying her as a press representative. She got along so well that she has been on the road the entire season.

A silk waist that has become worn under the arms may be freshened by a bolero.

THE RIVER ROUSTABOUT.

He Is Still Doing Business at the Old Stand.

One who makes a trip up the river and watches the antics of the negroes and listens to their wierd songs and tales will not agree with the iconoclast who says that all the beauties and the picturesque features have faded out of the steamboat man's life. As a line of negroes goes up the hill under the glare of the searchlight with their peculiar swinging tread and sing the music, which seems somehow to be a essential part of the action, the light alone which has a strange wildness about it and a fascination, too. The negro is not the same as he was before the war. Conditions have changed too much for that. But he has retained his love for the fantastic and most of those barbaric customs which civilization seems unable to eradicate from the African mind.

The first mate has undergone a marked metamorphoris, and to his change is due some portion of the new features in the deckhand's character. Time was when the first mate had a vocabulary which would make an ordinary sailor's parrot die for shame. He had this vocabulary, and the negroes held the same opinion as the one who answered when asked if he did not object to the mate's abuse, "No, boss, dat's whut he's paid for. He's got to make out he's doin' somethin', an' it don't do us no harm." Now the deckhands actually object to being sworn at when the oaths become too vigorous. The pay of the deckhand is usually $60 a month, even when the business is only moderately heavy, and last winter, during the big rush, a crew of negroes refused to ship because the wages did not suit them. They were offered $90 per month, but wanted $100 for the trip.

The first peculiarity which strikes the observer about the deckhand is his walk. He has climbed up the steep river embankment when there was mud all over it, and he has come down that same slide with a heavy weight upon his back. He has adopted a step which prevents him from slipping, and this gives him a peculiar shuffling step unlike any movement seen elsewhere. He combines with this a hoisting of the shoulders and a peculiar turn of the head acquired from turning his face to let a sack rest upon his shoulder. These three traits are distinctive and give the deckhand a strange appearance upon the levee, or anywhere off a boat or away from the river.

As he works going up the inclines or along the gangplank, precariously resting upon a levee's crest, he has a rhythmic sort of chant which fits in with his music. Always the same class of songs are sung. Usually there are no words, but some leader chants and the others voice the chorus as they bend to their tasks. There are sack songs and barrel songs and music for the cotton bale and the ordinary package. The music varies with the task, as the movement of the negro's body varies. The cotton song, as the bale is lifted forward and allowed to drop, has a catchy swing to it. Down go the sharp hooks and the bale starts up to fall with a quick thud. So does the music. The other airs, like all negro music, are harmonies, not melodies, which are timed to the labor.

The crap game can be seen in its full glory only when the deckhand plays it upon the boat's deck. From the foot of President's Island to the city no stops are made, and a like condition prevails in regard to boats from the upper river. This is called the crap limit. The negroes are paid off before they reach the city, and usually at the last stop before the city. As soon as the pay is received the negroes gather and begin to shoot craps, and the cries for "Big Dick" and "Little Joe" and "Ada" are heard until the boat has landed. When it does some few negroes generally possess the money paid to all.—Memphis Scimitar.

Canada's Fuel Problem.

"The most serious problem that confronts the Canadian people of the future," says Colonel Seyfert in a letter to the State Department from Stratford, "is material for fuel. The gigantic lumber industry and the great annual forest fires have so denuded the timber area of Ontario that the people are thoroughly alarmed about the future fuel supply. Hard wood for fuel is now worth from $6 to $8 a cord and soft from $3 to $3, while, coal, which is all imported from the United States, costs $6 a ton. The item of fuel is, therefore one of the heaviest expenses to every person in this latitude of long and severe winters. An ordinary resident will consume no less than $100 worth of fuel a year. It has been well known for years that there are extensive beds of peat bog in Canada, and particularly in the providence of Ontario. An effort has been made during the last six months to utilize this product of nature. In Holland, Ireland, Wales and Bavaria peat has long been the chief fuel used by the people. The recent invention of machinery by means of which vast areas of hitherto unused bogs can be converted into marketable peat has opened up a new Canadian industry."

Alcoholism and Crime.

The alcoholic craving accounts for many a confirmed criminal. Doubtless the tendency exists in a minor degree as belonging to all habituals, who make it a secondary part of their life, teetotalers being rarely met with in criminal walks. But there is a large number of hopeless prisoners whose only idea of life is drunkenness at any cost. In such the craving makes the criminal, and as the drink cannot be obtained without money other means are resorted to, such as breaking into public houses, robbing bar tills, stealing jugs and bottles from children sent out on such errands, dressing up as blind men, mutilated beggars crawling along the pavement and other pleasantries so well known to the expert. Chewing a piece of soap and thus forming a lather to the simulation of epilepsy is a common fraud, and the profits all go to the publican. The alcoholic aspect is, however, very difficult of concealment, and the experienced observer well knows the pseudo-epileptic, the armless, legless cripple, and the unfortunate widow who with five children (all hired) parades the street in lamentation of woes.—Gentleman's Magazine.

HOW HIDES ARE TANNED.

Process of Leather Making From Skin to Finished Article.

The leather man was busy hoisting bundles of leather up from the cellar by means of a pulley rope, weighing it and loading it on the cart which stood at the door ready to carry the load to the shoe manufacturers. He looked up, however, at a question and paused to wipe the perspiration from his brow.

"Tell you about leather? Well, that's a long story You see, there are fifty different kinds of leather if there is one, and the processes through which the hides go between the time they leave the stock yards and the time when the shoe man gets them are many and varied. There are steer hides, calf skins, goat skins and others, which are prepared each in one certain way.

"The green skins come from the great stock yards in Chicago and Kansas City to the tannery, which is generally built on the bank of a pure stream and near woodland. At the tannery the hides are at once placed in great vats filled with fresh cold water, and left there to soak for two or three days. The water tends to soften them. Then the skins are put in a long trough and run through a sort of slide, while heavy hammers pound them to a greater softness and pliability. Water is played on them in a steady stream. When the work in the trough is finished the hides are placed back in the vats, and they soak there a little more, for a day or so. The next move is to keep them four or five days in the sweat pits.

"After the turn in the sweat pits the hides are ready for scraping. It takes a trained tanner to know just how long to keep them in the sweat pits. When the thing is done right the hides should be just about at the point of decomposition before they are taken out. Then bare-armed men stand ready with long, sharp knives which they work over the skins with both hands, removing all the hair and the small particles of flesh so that there is not a shread of it left. Each skin is gone over thoroughly and tossed into still another vat filled with a liquid in which there are small strips of hemlock bark. The hemlock bark has a hardening tendency on the skins. In some cases acids are used in addition to the bark.

"Tanners have an instrument they call a barkometer with which they test the strength of the liquid. It would not do to have it too strong or the skins would be burned. So they are generally put first into a weak solution. The bark juice, or whatever you want to call it, permeates the skin through every pore. The next process is that of drying. Then the dry hide is rolled and a coating of fish oil spread over it to give it the peculiar gloss which you notice in leather. The skins are next stored in a loft for two or three days and afterwards shipped to the leather sellers in New York and other cities. We have nothing to do here but weigh them and send them off to the shoemen. That is the way that soleleather is prepared."—N. Y. Sun.

Olive Oil for Convivalists.

A man with a hard head for drinking has always been the admiration of every one who sits round "the festive board," and the capacity for imbibing strong liquor has from time immemorial been a subject on which the outside world is always as ready to listen as the person having that great capacity is always ready to talk.

Among the great drinkers, says a London weekly, there has always been a tendency to place the Englishman, especially an army or navy officer, at the head of the list. The reason for this singular immunity enjoyed by the followers of these professions has never been hitherto explained, but there is a system which explains the reason of this thusness, although, as the writer of this article is not a naval or military man, and, unfortunately like Cassio, "has a poor head for drinking," so that he is compelled against his will to be a teetotaler, he is in no position to vouch for the truth by actual experience.

Briefly then, the secret is said to lie in olive oil, one wineglassful of which is to be taken before starting on a carouse, and, if possible, one during the course of the evening.

It is supposed that the oil acts by coating the stomach, and so keeps the alcohol from being absorbed by the system, and so getting to the brain, where it produces its peculiar poisonous effects.

A Nice Distinction.

The other patrons of the fashionable restaurant felt sure the two at the corner table were father and son, and were from the rural districts. Their table manners were such that any polite jury would have brought in a verdict of justifiable homicide had the head waiter fallen upon the two as they sat side by side at the little table, whose snowy cloth they were sadly disfiguring. Vigorously they wielded knife and fork—very little fork, but much knife. At last the way in which the son spread his elbows interfered with the free play of the father and brought about a loud rebuke from the old man.

"Look-a-here, Jefferson," said the father, sternly, "draw in them elbows and eat in a narrer circle. Ain't your mar ever told you it warn't polite to shove others with your elbows when you dine out? It is powerful bad manners to make your old father cut his mouth at the table."—Waverly Magazine.

The Passaic Public Library.

One of the most beautiful and useful institutions of its kind is the public library at Passaic, N. J. While the State has larger and wealthier libraries, in very few communities does the public library occupy a more prominent place or take a more active part in educational life than in the city of Passaic.

The City Hall, in which the library rooms are located, is one of the most attractive public buildings in northern New Jersey, being situated on the highest ground in the city, known as Tony's Nose. The building, originally of an artistic Moorish design, and the beautiful park surrounding it were planned for the residence of the late C. K. Paulison.

Days You Work.

The English workingman has 278 working days in a year, the American 308, the Hungarian 312, and the Russian 267.

Taxed for Weight.

Dogs in Hamburg are taxed according to size—the bigger the dog, the higher the tax.

Central R. R of New Jersey

STRATEGY.

But Nobody Yet Knows How It Worked On the Wedding Present.

"Diplomacy, my boy, diplomacy," laughed the young man, in response to a question from a friend who had received one of the cards.

"Her father isn't such a bad old chap if you know how to handle him. I will admit that getting his consent to our marriage caused the girl and I no end of concern, but I went at it in the right way and won out.

"Her father is a man who lives to have his own way, which as a matter of fact is bound to be different from that of any one else. Knowing this, I called upon him at his office to get his consent, but I was wise enough not to ask it in a direct way.

"'I suppose you know,' I began, as the old man sat on his chair and glared at me, 'that I have paid a good deal of attention to your daughter. Much to my regret it has gone much further than I wish it had. Your daughter has assured me that I alone can make her happy, and I am afraid that she speaks the truth. I will be candid with you, sir, and say that at one time I thought I loved her, but I have found one whom I love more, and I have called upon you, sir, for assistance in breaking off an attachment that I have found unbearable.'

"'What's that?' shouted the old man, sitting bolt upright on his chair.

"'Your assistance, sir,' I continued. 'I know that wou have been opposed to my marrying your daughter, and I thought that you would be willing to assist me in breaking the unfortunate attachment that your daughter bears for me.'

"'Never!' roared the old man. 'You miserable scoundrel! What do you mean by playing with my daughter's heart and then casting it lightly aside? By heavens, you will marry her or I will know the reason why! At once, sir, at once!'

"Well, there is no use repeating all the old man said, for he kept it up until he ran out of breath and had succeeded in frightening me into agreeing to marry the girl.

"The old man is all right if you know how to handle him. I have served notice on him that I don't want him to make a vulgar display by placing a check among the wedding presents, and if there isn't a good fat check there I'll lose my guess."

Mosquitoes in the Furnace.

"Mr. Tompkins will be back in a moment," said Mrs. Tompkins to a city friend who was spending Sunday in the country with them. "He has just gone down to fix the furnace—"

"What! in these dog days?" inquired the guest, in astonishment.

"Yes," was the reply; "he is going to make sure that the cranks are turned that stop the pipes, so that the mosquitoes can't come up through the registers."—Harper's Bazar.

Beginning of Their Quarrel.

"When you call me a masculine woman, Alfred Spoonamore," she exclaimed, with flashing eyes, "you insult me!"

"What else are you, I'd like to know, Cassimere McGinnis?" he retorted. "You re always asking me whether I'm sure I still love you, when you know well enough that the typical woman is satisfied with merely loving. It's the man, blame him, who is always wanting to be loved!"

Not in the Book.

A funny incident happened during a performance of Macbeth in Dublin, says Tit-Bits. In the sleep-walking scene, when the nurse and the doctor appear on the stage together and confabulate with one another, a loud voice suddenly called out from the gallery, causing a roar of laughter in the middle of a most serious scene:

"Well, doctor! Is it a boy or a girl?"

A Brave Man.

"Did you say your friend had risked his life for his country?" asked the young woman.

"Yes," answered Col. Stilwell.

"But you don't address him by any military title."

"Well, he never was in a regular war. But he has run foh office in Kentucky."—Washington Star.

Terror for the Tardy Clerk.

According to the Scientific American they have commenced making in Switzerland phonographic clocks and watches which pronounce the hour most distinctly.—Punch.

Needed Lengthening.

"I don't know where you are thinking of spending your summer vacation, Ferguson, but I want to warn you against going to Lake Winnakoosky. A week there seems like a month."

"Then that's where I want to go, Throggins. A week is all the vacation I get."

Feminine Pinpricks.

"Well, I can't see anything in her—in fact, I think she's positively plain."

"Oh, do you think so? I only wish I were half as lovely."

"You are, darling."—London Punch.

Of the Other Kind.

"As regards the removal of the dams from the Illinois River," said the professor, "they need not be wasted. St. Louis can use them in its vocabulary."

He Never Does.

There is this to be said of the person who has troublesome lungs: He never coughs up the money he pays for medicine.—Boston Transcript.

MARS AT CLOSE RANGE

Easy to Study His Face When Only 35,000,000 Miles Away.

All the monster glasses with which the late rapid advance has been made in knowledge of our celestial neighbors have come into being since the civil war, says Mrs. Mabel Loomis Todd in the St. Nicholas. Until then, in this country, the Harvard telescope of fifteen inches was the largest.

About 1860 one of eighteen and a half inches was ordered for the University of Mississippi, but with the breaking out of the war telescopes had to wait, and these lenses are now at the Northwestern University in Evanston, Ill. It is only since 1870 that really huge instruments have multiplied and are nightly turned upon the starry skies to ask the questions which seem to our impatience so slowly answered.

But many answers have come, after all, and some things are clear which before could only be surmised. For instance, we feel quite sure now that Mars has an atmosphere, though not more than half as dense as our own; but far better than none, as we can tell by looking at our bright though dead and desolated moon, from which air and water has long since disappeared.

And if Mars has air, the polar caps alone would seem to show that he has also ice and snow; and there appear to be, as well, areas of water or marsh, though less in extent than the land. The northern hemisphere looks brighter through the telescope, even showing tints of red and yellow, which astronomers are inclined to think are chiefly dry land, probably desert, while the southern is dark, the "seas" brown or dull gray, quite as water might appear. These spots were first called seas, like the smooth regions of the moon, and the name continues in both, whatever they may be.

In 1877 Mars was at his nearest to us; near, that is, from an astronomer's point of view, though really at the enormous distance of 35,000,000 miles. Yet a great deal was learned about this neighbor in the sky—among other things, that he is attended by two tiny satellites, or moons, never seen before. And the same year an Italian astronomer, Signor Schiaparelli (pronounced skeea-pa-rel-ly) made careful studies and drawings of the strange markings on Mars, completing, with the fine telescope at Milan, a series of elaborate sketches afterward combined into an accurate detail map.

Again, in 1892 and 1894, the earth and Mars came near each other in their flight through space, though somewhat farther than during the year 1877.

The Fatal Boiling Habit.

"Apropos of the hardships of our boys in Cuba," said an officer who saw a good deal of duty on the island, "I'll tell you a bit of a story. Shortly after our regiment went on duty near Santiago, at the beginning of Wood's administration as governor, we began to be able to take a little better care of ourselves than we had done throughout the campaign. One of our captains—I won't mention his name, for he's sore about this affair—was a great crank on the subject of microbes, and took extraordinary pains to avoid their society. He had picked up a raw Cuban cook, and gave him the most explicit orders to boil all the water used in the mess, no matter where he got it. 'Boil everything we drink,' he said, 'or I'll kick your backbone through the top of your hat.'

"The Cuban promised faithfully, and obeyed the orders to the letter. A week or so afterward the captain, while foraging about town, was presented with a quart bottle of champagne from one of the ships. He was overjoyed, and, securing a small lump of ice, he hustled back to camp and turned over his prizes to the cook. 'I want you to get up something extra good today,' he said, 'for I'm going to ask a few friends to dinner to help drink this wine.' At the appointed hour the party assembled, and, after serving a repast of stewed beef and sweet potatoes, the cook stalked in, carrying a steaming saucepan half full of a muddy yellow liquid. 'What in thunder is that?' asked the captain. 'That's th' wine, senor,' replied the Cuban gravely. 'I boil 'im good deal, an' 'e most' all go 'way.' The guests roared with laughter, and the captain was so thunderstruck he couldn't say a word. He subsequently recovered himself sufficiently to grab a cleaning rod and chase the Cuban nearly half a mile. After that all anybody had to do to get a fight was to say boiled champagne. When I left the wound still rankled."—New Orleans Times-Democrat.

Remembered Him

"There's no use of your saying a word!" exclaimed the woman of the house, as soon as she had opened the door and glanced at the man standing outside. "I know you."

"But ma'am——"

"I recognized you as soon as I saw you. You can't——"

"Ma'am——"

"You're the man who sold me a washing machine six months ago for $6.50 that wasn't worth shucks. It wouldn't——"

"All I wanted to tell you, ma'am, is——"

"It wouldn't wash anything. The longer you used it the dirtier the clothes got. You couldn't sell me anything now if you was to pay me for taking it. When a man fools me once he won't ever have the chance to do it again. I can tell you that. I'll sell that washing machine back to you for fifty cents. It doesn't make any difference what you've got this time. I wouldn't touch it with a ten-foot pole, and you can talk til you are gray. It won't do you any good."

"Madam," replied the man, who had been dancing about impatiently, "your kitchen roof is blazing where that iron stovepipe runs up and through it. That's what I stopped to——"

"Good land, why didn't you say so? What did you want to stand there talking for when the house is burning up? Run over to that grocery store on the corner and turn in an alarm! Fire! Fire!"—Chicago Tribune.

Resented at Once.

"I would die for my country!" he exclaimed dramatically.

"Well," she replied quietly, "I've no doubt your country would appreciate it."

Then he got mad.—Yonkers Statesman.

SPORTING.

ON THE GRIDIRON.

It is to be hoped that the management of the Alis team will see its way clear to secure a game with the Somerville team. Although the Somervillians would far outweigh the local team, the latter would play all around them at team work. In this way the advantage would be with the local boys. Somerville would probably secure a lot of college boys to strengthen her team and give Plainfield a hard time in winning. The old time rivalry between this city and Somerville would give much interest to the contest.

The Alis team of this city is unusually fortunate this year in having such an excellent set of backs. Phillips, Cuming and Dumont have played on the team together for four years and are thoroughly acquainted with each other. Green, although now on the Alis team this year, is an old hand at the game, having been one of the crack ends of the old Plainfield A. A., where, although the lightest man on the team, he was very effective in his work. Dumont plays a good game at quarter, passes hard and accurate and shows good judgment when called upon to take the ball.

There was a great football game at New Brunswick Saturday afternoon when the Rutgers boys defeated the Stevens Institute by a score of 39 to 0. The first game of the series between the two teams was played at Hoboken several weeks ago. At that time Stevens won by a score of 6 to 0. The Rutgers men braced up for the return game and played good fast football. Stevens had several substitutes and proved an easy mark. Nat an E. Lewis, of this city, played centre for Stevens. Ernest Bapalje, who formerly attended the Plainfield High School, played right end for Rutgers. There were a number of Plainfielders who witnessed the game.

ROD AND GUN.

Henry Staats, of Greenbrook road, and Jesse Taylor, of East Fifth street, have gone to Bucks county, Pennsylvania, on a hunting trip.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, Bronchitis, Hoarseness and all diseases of the Throat, Chest and Lungs are surely cured by it. Call on L. W. Randolph, Druggist, and get a free trial bottle. Regular size 50c. and $1.. Every bottle guaranteed, or price refunded.

In a Nutshell:

Regular collections; intelligent washing; careful ironing, prompt deliveries. This makes a good laundry. People who have known us as dyers for thirty years back may not realize that we are doing the largest laundry business in New Jersey. Send us your bundle for a trail.

Opposite Crosby & Hill's. 'Phone 851.

NOTHING FOR HARGRAVES

ONE JUDGEMENT ALLOWED TO OFFSET ANOTHER.

The End of a Somewhat Infamous Case —Judge Van Syckel Decided in Favor of Brokaw's Claim Made by His Lawyer.

Immediately after judgment was rendered in the Union County Circuit Court in the case of Fred W. Hargraves against Wesley R. Brokaw, for the alleged alienation of the affections of the plaintiff's wife, giving the plaintiff $25 of $10,000 which he sued for, Lawyer Brady moved before Justice Van Syckel, at Elizabeth, to off set the Hargraves judgment with another judgment which he had recovered against Hargraves at the suit of Brokaw, for rental of piano, the removal of which for non-payment of rent had precipitated the suit.

On account of several complex legal questions which arose because the judgments were in different courts and were founded on different kinds of injuries, and the further fact that Hargraves had made a general assignment of his entire property to Lawyer Angleman, Hargraves' counsel, Lawyer Moy, having objected to the allowance of the offset, the Court ordered counsel to submit briefs.

After considering the arguments and authorities presented by the lawyers for the respective parties, Judge VanSyckel yesterday rendered his decision, completely sustaining Attorney Brady's interpretation of the law on each of the points referred to and ordering the allowance of the offset, which is slightly in excess of the $25 judgment. Evidently this litigation has not been very profitable for Hargraves.

FUNERAL OF LATE W. H. BROWER.

Services Held in the Congregational Church Yesterday Afternoon.

The funeral of the late William Hulse Brower was held from his late residence, 431 West Sixth street, yesterday afternoon at 2:30 o'clock. The service was conducted by Rev. C. L. Goodrich, pastor of the Congregational church. There was a large attendance. A delegation from the Excelsior Engine Company of Scotch Plains was present.

The bearers were Mayor George W. Rockfellow, Randolph Stelle, James E. Martine, E. M. Laing, Frank Miller and W. K. McClure. The floral decorations of the casket were very handsome. Rev. C. L. Goodrich made a short address filled with words of comfort and hope.

New Office of the Lehigh Valley Railroad.

Frank Rowley, druggist, 218 West Front street, Plainfield, has been appointed by the Lehigh Valley Railroad, city ticket agent of that company. The office is supplied with a full line of local and through tickets to Geneva, Rochester, Buffalo, Niagara Falls, Toronto, Chicago and the West via the Lehigh Valley Railroad; and a stage line has been established, to run from Plainfield to South Plainfield to connect with through trains. The telephone number of the new city ticket office is 112-B. Information as to rates of fare, time of trains, etc., will be cheerfully given over the telephone, or personally at the office of Mr. Rowley, on request. See timetable in another column. 11 4 3 eod

Harvest Home for Hospital.

The harvest home will be held at the hospital November 23d, and donations of any kind will be very thankfully received by those in charge.

REFORMED CHURCH FAIR

WAS OPENED LAST NIGHT UNDER FAVORABLE AUSPICES.

The Ladies' Aid Society Have it in Hand—An Array of Useful and Fancy Articles on Sale—List of Committees.

The fair of the German Reformed church, which is being held in the Sunday-school room of the church on Craig place, under the auspices of the Ladies' Aid Society, opened most auspiciously last evening. The room was prettily decorated and about the place was a profusion of fancy articles —the handiwork of the ladies and their friends. The fancy work is to be sold during the week at reasonable prices. The ladies have worked with zeal and a degree of interest that is praiseworthy. The Daily Press predicts that their efforts will be crowned with the success.

The following is the committe of arrangements: The pastor, Rev. Geo. Hauser and Mrs. Joseph Angerbauer, Mrs. Jacob Blimm, Mrs. Philip Bach, Mrs. Geo. Hauser, Miss Annie Ptaschinsky.

A prettily decorated booth, made to represent "Rebecca's Well," was presided over by Miss Rose Suterline and Frank Bach. Miss Lou Windham and Miss Katie Blimm looked after the interests of the candy table, while the cake table and ice cream booth was presided over by Miss Satie Blimm and Mrs. Henry Bender. The ice cream was served by Miss Annie and Mamie Barkelow.

The fancy table was entrusted to Mrs. August Windham and Mrs. Andrew Stickley. In charge of the grocery table was to be found Mrs. William Schorb, Mrs. Beatrice Suterline and Mrs. Charles Hook. The tea and coffee was served by Mrs. Maurring and Mrs. Betzholt, the waiters being the Misses Augusta Myers and Mary Clouse. Joseph Angerbauer held the responsible position of door tender and saw that all who passed its portals were provided with the necessary pasteboards entitling them to an admission.

The bazaar will be continued throughout the week. It is worthy of patronage. Drop in and try a cup of delicious coffee which the ladies have provided for their patrons.

RENTED ANOTHER STORE.

Woodhull & Martin Lease the Store Vacated by VanEmburgh in the Babcock Building.

Woodhull & Martin, Plainfield's progressive and wide-awake dry goods merchants, have again demonstrated that they are determined to keep in the lead and give the people one of the best up-to-date stores of the kind in this section.

Yesterday this firm signed a lease to take the store in the Babcock building formerly occupied by VanEmburgh & Son, and as speedily as possible they will convert the store into a handsome carpet department that will be second to none in the State. At present they are using the store as a place to unpack their holiday goods, mark them and then transfer them to their main store.

About the holiday time the new carpet department will be ready for inspection and it will be complete in every detail. In this department will also be kept lace curtains, window shades, etc. There will be displayed the finest grades of carpet to be had as well as other grades, all of which will meet the requirement of every pocketbook. The first floor as well as the basement will be used and every convenience provided.

In the near future the firm hope to have an arch cut through so as to combine the two stores. There is no doubt but what the people will appreciate this popular firm's advanced step and accord them the increased patronage they so richly deserve.

Brave Men Fall

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache, and tired, listless, run-down feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: "Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me new strength and good appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50 cents, at L. W. Randolph's Drug Store. Every bottle guaranteed.

Prize Choisters.

The prize choristers of Grace P. E. church for October are: VanWyck Brooks, Albert Yaeger, Miss C. Woodward, Miss J. Little and Miss M. Ulrich.

A WALKING GALLOWS

LIEUT. HEPENSTALL WHO HUNG MEN FROM HIS OWN NECK.

This Notorious Individual Was an Apothecary in Dublin—A Man of Splendid Physique, Six Feet and Two Inches Tall—Died in 1804.

Among the examples and records of British tyranny during the terrible year of 1798 there is none more extraordinary, according to a writer in an English magazine, than that of Lieut. Edward Hepenstall, known by the nickname of "The Walking Gallows," for such he certainly was, literally and practically.

This notorious individual, who had been brought up as an apothecary in Dublin, obtained a commission in the Wicklow militia, in which he attained the rank of lieutenant in 1795. He was a man of splendid physique, about six feet two inches in height and strong and broad in proportion. Referring to this handsome but brutal giant, Sir John Barrington, in his "Memoris," states:

"I know him well, and from his countenance should never have suspected him of cruelty, but so cold-blooded and eccentric an executioner of the human race never yet existed."

"At the outbreak of the sanguinary rebellion, when the common law was suspended and the stern martial variety flourished in its stead, Lieut. Hepenstall hit upon the expedient of hanging on his own back persons whose physiognomies he considered characteristic of seditious tenets. At the present day the story seems most incredible, but it is a notorious fact, revealed by the journalism of the period, that when rebels either suspected or caught red-handed, were brought him, Hepenstall would order the cord of a drum to be taken off, and then rigging up a running noose, would proceed to hang each in turn across his athletic shoulders until the victim had been slowly strangled to death, after which he would throw down his load and take up another.

The "Walking Gallows" was clearly both a new and simple plan and a mode of execution not nearly so tedious or painful as a Tyburn or Old Bailey hanging. It answered his majesty's service as well as two posts and a crowbar. When a rope was not at hand, Hepenstall's own silk cravat, being softer than an ordinary halter, became a merciful substitute.

In pursuance of these benevolent intentions, the lieutenant would frequently administer an anesthetic to his trembling victim—in other words, he would first knock him silly with a blow. His garters then did the duty as handcuffs, and the cravat would be slipped over the condemned man's neck.

Whenever he had an unusually powerful victim to do with Hepenstall took a pride in showing his own strength. With a dexterous lunge of his body the lieutenant used to draw up the poor devil's head as high as his own, and then, when both were cheek to cheek by jowl, begin to trot about with his burden like a jolting cart horse, until the rebel had no further solicitude about sublunary affairs. It was after one of these trotting executions, which had taken place in the barrack yard adjoining Stephen's Green, that Hepenstall acquired the surname of "the Walking Gallows." He was invested with it by the gallery of Crow Street theater, Dublin.

At the trial of a rebel in that city the lieutenant, undergoing cross-examination, admitted all the forementioned details of his method of hanging, and Lord Norbury, the presiding judge, warmly complimented him on his loyalty and assured him that he had been guilty of no act which was not natural to a zealous, loyal and efficient officer.

Lieut. Hepenstall, however, did not long survive his hideous practice. He died in 1804. Owing to the odium in which he was universally held, the authorities arranged that his funeral should take place secretly, while a Dublin wit suggested that his tombstone would be suitably inscribed by the following epitath:

Here lie the bones of Hepenstall.
Judge, jury, gallows, rope and all.
—Baltimore Sun.

A Japanese Sword Trick

"I had a little party of Jap jugglers on the road in '91," said an ex-theatrical manager, "and got on to a good many of their tricks. Most of them were surprisingly simple in reality, and one that I don't remember ever having seen explained was the feat of walking bare-footed up a ladder of sharp swords. The swords were of the native straight-bladed shape and were so keen that they would easily slice a handkerchief in two in mid-air. Before sticking them through the uprights to form the ladder the head Jap always passed his thumb along the edge of each, from tip to tip. As he did so he drew out a narrow steel tape, which was coiled on a spring in the handle. The tape had a hole in the end, which caught on the point and held it in place, and it completely shielded the edge. After the walking was over it was quietly released, as the swords were being taken out, and flew up into the handle again. The weapon could then be passed around for inspection. Most people supposed that the Jap used some chemical to toughen his soles, but the truth was as I have stated."

She Knew Something

The beautiful girl had parted forever from the only man she ever really loved, and she was even sadder than was usual with her upon such occasions.

They tried to comfort her.

"There are always good fish left in the sea!" they urged.

"Yes; but when you catch them they turn out to be lobsters!" she exclaimed bitterly, thereby showing that after all a person's hair may curl naturally without rendering a person entirely devoid of sense.—Detroit Journal.

"They say that electricity is a sure antidote for the sting of bees," said an electrical enthusiast.

"Yes, I've tried it," said the student.

"Really? How did it work?"

"Well, a bee stung me and it hurt so that I applied the electricity. After that I went over and sat down on a hornets' nest to see if I couldn't get over the effects of the cure."—Detroit Free Press.

ABOUT FLORIDA MOSS

MANY HUNDRED BALES A WEEK USED BY NORTHERN UPHOLSTERERS.

Moss Either Alive or Killed Piled in Heaps and Covered With Muck or Sand Soon Begins to Ferment—Temperature Rises Rapidly.

People who do not recognize what it means to have the Florida moss killed by a freeze, must think that this somber gray drapery of the Southern forests gives one hundred bales a week of "moss hair" to the Northern upholsterers from the little village of Micanopy, Fla., alone, and other factories in the State yield many times as much, and this is only about one-half of the weight of the moss when taken from the trees. The other half is the useless envelope to the inner and valuable hair. There is a mistaken idea as to how the outer portion of the moss is removed. It is generally supposed that the covering is removed by chemicals or by passing through some ingenious stripping machine. The latter would be too expensive and the former open to the danger of injuring the natural elasticity of the fiber.

The moss when first gathered is greenish-gray. When killed by frost or lack of proper sustenance, it is easily distinguished from the live moss. It turns gray, and if bitten feels soft, while the live moss "crunches" between the teeth. But the outer covering will remain on either the dead or fresh moss for months. If the moss, either alive or killed, is simply piled in heaps in a moist place and covered with muck or sand it soon begins to ferment. The temperature of the interior of the heap rises to a point too hot for the hand to bear, and, if not checked, it keeps heating till too hot to walk over. But this stage means damage to the interior hair and must be avoided. Properly conducted, the fermentation means the complete destruction of the outer skin, and the moss is left duly "colored," i. e., showing the dark brown color of the hair.

It reaches this stage in the hands of the pickers, who then deliver it in loose wagon loads, like hay, to the gins. There are about fifty of these ginning establishments in the State—very simple affairs. The building is constructed as cheaply as possible, and, costing from $200 to $300, no insurance is obtainable. The floor is six feet from the ground and made of slats one and one-half inches apart, so that short fibers, sticks and dirt will sift out. In the building is nothing but a cheap modification of a cotton gin—a cylinder two feet long and of the same diameter, with two inch teeth which beat moss against similar stationary teeth, taking out sticks and rubbing off most of the adhering remains of the outer covering of the moss. The machine is cheap and very inefficient. The resulting moss is either "2 cent moss" or "3 cent moss"—the price per pound after ginning—according to the care with which the picker delivered it.

The writer was surprised to learn that this is the only preparation the moss receives. It is shipped in bales direct to the wholesaler, who generally distributes them unopened to the upholsterers.

The dead moss is treated just as before the freeze. But the outlook for the following year is bad. The crop will be small. Usually, where a tree has been picked clean, plenty of small bits are left, so that in a favorable locality the tree will be full again in two or three years. This was shown by the practice in moss localities of cleaning it from the orange trees every two years.—Scientific American.

How Rats Steal

However much fear you have of rats —and if you are a girl you are probably "scared to death" at the mere sight of one—you cannot help but admire their sleek, smooth coats, their nimbleness and their bright eyes. If you cared to make their acquaintance still further you would find that they are exceedingly cunning. If there is anything to be stolen you may depend upon a rat to devise some plan for stealing it. As a general thing a rat is not selfish with his plunder, and when it is to be divided among several of his cronies or members of his own family he is very careful to get it to the rendezvous in a state of good preservation, so that it may be apportioned fairly.

In illustration of this principle, a man who for want of something better to do has made a study of rats, describes a purloining which he witnessed. The article being stolen was an egg. It seemed that the rat that was the prime mover in the robbery was instinctively aware of the fragile nature of his booty, and that it would be disastrous to roll it to their den, which was separated from the place where the egg lay by several yards of uneven ground. But the ingenuity of the chieftain was equal to the difficulty. The recess where he had found the egg was too small for the entire rat colony to assemble there for a banquet, so plainly the prize must be moved at all hazards.

Accordingly the old fellow lay down on his back and clasped the egg tightly over his breast with his four feet, and his accomplice, who understood at once what was required of him, caught hold of the leader's tail and dragged him to the den. The plan having been once successfully executed the process was repeated again and again until enough eggs had been removed for a feast in rat town. How the hero's lacerated back was subsequently healed after being thus bumped and bruised on lump earth the historian fails to relate.

Another devotee in ratology relates how a trio of the gray pests who were particularly fond of olive oil found a flask of it one night, which, while it was uncorked, was so placed that it could not be upset. Again their quick wits triumphed, and each took turn about at mounting the flask and sticking his tail down into the oil and then withdrawing it so that his companions could feast off the oil that adhered to his caudal appendage. This unique method of dining was repeated until the appetites of all were satisfied.

A Forecast Set Aside.

"My wife was sorry when her poodle was brought back."

"Wasn't she fond of him?"

"Yes; but she had told all the neighbors that she knew she would never see him again."—Chicago Record.

MARK TWAIN'S DEBUT.

How the Famous Fun-Maker Became "A Literary Person."

Mark Twain's first apearance in an Eastern magazine was made over the name of "Mark Swain." How it came about he explained in the Century Magazine:

In those days I had already published one little thing ("The Jumping Frog") in an Eastern paper, but I did not consider that that counted. In my views, a person who published things in a mere newspaper could not properly claim recognition as a literary person; he must rise away above that; he must appear in a magazine. He would then be a literary person; also, he would be famous—right away. These two ambitions were strong upon me. This was in 1866. I prepared my contribution, and then looked around for the best magazine to go to glory in. I selected the most important one in New York. The contribution was accepted. I signed it "Mark Twain;" for that name had some currency on the Pacific coast, and it was my idea to spread it all over the world now, at this one jump. The article appeared in the December number, and I sat up a month waiting for the January number; for that one would contain the year's list of contributors, my name would be in it and I would be famous and could give the banquet I was meditating.

I did not give the banquet. I had not written the "Mark Twain" distinctly; it was a fresh name to the eastern printers, and they put it "Mike Swain" or "MacSwain." I do not remember which. At any rate, I was not celebrated, and I did not give the banquet. I was a literary person, but that was all—a buried one; buried alive.

My article was about the burning of the clipper-ship Hornet on the line, May 3, 1866. There were thirty-one men on board at the time, and I was in Honolulu when the fifteen lean and ghostly survivors arrived there after a voyage of forty-three days in an open boat, through the blazing tropics, on ten day's rations of food. A very remarkable trip; but it was conducted by a captain who was a remarkable man, otherwise there would have been no survivors. He was a New Englander of the best sea-going stock of the old capable times—Captain Josiah Mitchell.

I was in the island to write letters for the weekly edition of the Sacramento Union, a rich and influential daily journal which hadn't any use for them, but could afford to spend twenty dollars a week for nothing. The proprietors were lovable and well-beloved men; long ago dead, no doubt, but in me there is one person who still holds them in grateful remembrance; for I dearly wanted to see the islands, and they listened to me and gave me the opportunity when there was but slender likelihood that it would profit them in any way.

I had been in the islands several months when the survivors arrived. I was laid up in my room at the time and unable to walk. Here was a great occasion to serve my journal, and I not able to take advantage of it. Necessarily I was in deep trouble. But by good luck his Excellency, Anson Burlingame, was there at the time, on his way to take up his post in China, where he did such good work for the United States. He came and put me on a stretcher and had me carried to the hospital where the shipwrecked men were, and I never needed to ask a question. He attended to all that himself, and I had nothing to do but make the notes. It was like him to take that trouble. He was a great man and a great American, and it was in his fine nature to come down from his high office and do a friendly turn whenever he could.

Western Cattle for Maine.

An attempt on a large scale is soon to be made to stock the abandoned farms of Maine with cattle from the west. The promoters of the scheme claim that cattle raising can be made to pay largely in the state because the cattle would be near to a good shipping point and that the "rundown" farms in Maine could in that way be redeemed. It is understood that leading business men in Boston and New Yark are interested, and that an option has been obtained from the state on a tract of 38,000 acres for the central or experimental station.

The promoters are to furnish farmers with all the steers they can fatten for the market, the profits to be derived from the sales to be divided after the state has received a percentage. Cheap transportation is a feature likely to enter into the scheme, and it is said that the four railroads operating in Maine are to furnish some backing. The number of abandoned farms in Maine grow with each year.

Why Pluto Couldn't Live Long.

When Thomas T. Crittenden was Governor of Missouri he had a colored hostler who was much in awe of his employers. The man was apologetic at trifles but when the Governor's favorite horse died one night the case seemed to be beyond the man's power of palliation. He wandered about the stableyard for a long time, lost in thought. Then going into Crittenden's presence he said: "Guv'nor, that ycre black horse, Pluto, ain't a-goin' to live berry long." "What makes you say that, Ben?" asked the Governor in surprise. "Case he am dead."—The Argonaut.

CLEAN SWEEP FOR G. O. P.

REPUBLICANS ELECTED ENTIRE TICKET IN UNION, MIDDLESEX AND SOMERSET COUNTIES.

G. O. P. Carried Everything Before It In Union County, Winning With Nearly 2,500 Plurality—Plainfield Only Place Where Republican Plurality Was Decreased—Senator Reed Carried Somerset County With Over 800 Plurality —Other Election Returns.

The elections of yesterday resulted in a wholesale victory for the Republicans. In Union county the entire ticket was elected by nearly 2,500 plurality. Plainfield was the only place where Republican gains were not made. Senator Chas. A. Reed was elected in Somerset county with the rest of the Republican ticket by a plurality of over 800. The Republican ticket in Middlesex county was also victorious by varying majorities.

VOTE WAS LIGHT.

But the Republicans Swept Union County With Very Heavy Majorities

The Republicans of Union county won a signal victory in the election yesterday. Their ticket was elected in its entirety with pluralities ranging from 2425 to 1244. The overwhelming pluralities for the Republican candidates were a surprise to both parties. The Republicans expected to win but 1500 plurality was the greatest anticipated. All over the county, except in Plainfield, the Democrats were fairly "snowed under." In Plainfield the Republican plurality was lowered by 200.

Although a better day for election could not have been asked, the vote was comparatively light through the county. There was considerable cutting but not as much as was generally predicted. The count was completed before midnight, and nearly two hours before that time it was plainly apparent to the leaders of both parties that the Republicans were going to have everything their own way. Elizabeth, in particular, came out very strong for the G. O. P. ticket and where the Democrats usually count on a small plurality, the Republicans won by several hundred votes. The result in county seat caused great rejoicing at Republican headquarters.

The returns from the wards in lower Elizabeth were among the first to reach the Republican headquarters in the Dix building, Elizabeth, where Charles N. Goddington, chairman of the county committee, was on duty. United States Senator John Kean, Congressman Fowler and the other principal Republicans of Elizabeth were present while Governor Voorhees at his home kept in close touch with the party through the aid of his telephone. The first of the returns showed surprising gains for the Republicans.

The First Ward of the county seat showed a Republican gain of 100. In the Third Ward, the Republicans were victorious by a small plurality. That Ward is usually Democratic by nearly 100. The other Elizabeth wards reported Republican gains varying from 10 to 100.

Oliver made the best run of any of the Democratic candidates and was the only one on that ticket to carry Elizabeth. According to the figures given out by the Republican county committee, Cross' plurality in Elizabeth was 349, Houston's was 5?0, Oliver's was 437, Meeker's 409, Smith's 366 and Foote's 172.

Rahway gave Howard a big complimentary vote, while Smith held his own but did not run ahead of his ticket in Westfield. Of the candidates for the Assembly Foote was scratched the most throughout the county. Reiss made the best showing of the Democratic candidates for the Assembly.

Dr. Cladek did not file his acceptance of the Democratic nomination for Coroner and so his name was not on the ticket. He received a few scattered votes nevertheless.

In another part of this issue will be found a table of the vote in the county as reported last evening. Some of the returns were not reported so the vote still lacks figures from New Providence and two wards of Rahway. They will make little difference in the result. Basing their calculations on the returns received, the Republican county committee announced the following pluralities for the county at a late hour last evening: Cross, 2,425; Houston, 2,354; Howard, 1,234; the Assembly candidates, 2,175. Owing to the few returns still missing it is impossible to give the total vote of any of the candidates.

THE CITY RESULTS.

Democratic Activity and Republican Dissatisfaction Kept Down the G. O. P. Majority.

The election in Plainfield passed off very quietly. The voting was light but the Democrats with the aid of their new organization and certain troubles in the Republican ranks succeeded in reducing the Republican plurality to a little more than 700, as against 902, the plurality given to Governor Voorhees at last year's election.

The fact that a number of prominent workers in the First and Fourt wards were conspicuously absent attracted special attention to the results in those wards. The smaller polling districts in the city finished their count at an early hour and the first district of the Third ward, where the Roger Murray tally system was in use, was also completed early in the evening.

There were two local candidates in the field, Foote on the Republican ticket and Hillman on the Democratic ticket. It was expected that Foote would receive a complimentary vote in his own ward at least, but he did not. The second district of the Second ward gave him two more than the other candidates for the Assembly on the Republican ticket. In the first district of that ward he simply ran even with the ticket. In the rest of the city he polled the smallest vote of any of the Republican Assemblymen.

Hillman did not get any complimentary vote in the city. In fact, Glaser and Oliver both polled a bigger vote in the city than he did. The Democrats made their strongest fight over the county clerkship and Oliver ran some 90 votes ahead of his ticket in Plainfield.

A comparison of the division of the Republican plurality among the wards with that of last year shows that the Democrats made their greatest gain in the Fourth ward. In the First, where it was expected that the Democrats would be able to considerably reduce the Republican plurality owing to the trouble between the factions in the G. O. P., the Republicans increased their lead.

In the First ward, the Republican plurality was 177, as against 154 last last year. In the Second ward, there was a slight decrease in the Republican lead from 259 last year to 223, this year's figures. In the Third ward, the Republican plurality remained the same, 272. In the Fourth, it dropped from 187 to 54

SENATOR REED WINS BY 1,021 MAJORITY.

Cooper's Vote Will Be 1,200 Over DuFour For Assembly.

BOROUGH'S STRONG VOTE.

REED'S OWN TOWN GAVE HIM 387 MAJORITY.

Somerville was Counted on as the Stronghold of Bergen, But Several of the Districts Were Carried by the Present Senator—Cooper Ran Ahead of Reed and Will Get a Very Large Majority.

Senator Charles A. Reed has won his great fight. As a result of the election held in Somerset county yesterday, he was re-elected to the State Senate by a plurality that will amount to 1,081. This overwhelming victory for Mr. Reed was a big surprise to his opponents. Assemblyman E. E. Cooper was re-elected to the Assembly by a plurality that will figure over 1,200.

The returns from all over the county that came in last evening told that the Senator had won. It has not been possible, however, to obtain the authentic and complete results from the county as yet.

In North Plainfield township the vote was particularly close, Bergen receiving 67 and Reed 64. Cooper received 88 and DuFour 43.

Somerville was counted on as the stronghold for the followers of J. J. Bergen. In the first district of Bridgewater Bergen's plurality was 44, in the second 7, in the third 59. Reed won in the fifth with a plurality of 48. Cooper's plurality was 117. Bound Brook gave Reed 82 plurality and Cooper 85. Raritan was for Reed with a lead of 171.

In North Branch Reed's plurality was 40 and Cooper's 44. Neshanic gave Reed 58 plurality and Cooper 48. They all appeared to take more interest in the humorous pictures than they did in the figures of the returns.

Later returns from Somerset county show that Senator Reed's plurality will be even larger than was first expected. It is now placed at 1,021. The pluralities in the townships and boroughs of the county are as follows:

	Reed's Plural'ts	Bergen's Plural'ts
Bedminister.		75
Berdards, first dist.	3	
second dist		26
Branchburg, first dist.	40	
second dist.	58	
Bridgewater, first dist.		44
second dist.		7
third dist.	59	
fourth dist.	49	
fifth dist.	112	
sixth dist.		13
Bound Brook, borough	82	
Franklin, first dist.	61	
second dist.	64	
third dist.	51	
Hillsboro, first dist	58	
second dist.	45	
Millstone, borough	25	
Montgomery	101	
N. Plainfield township		3
N. Plainfield borough	387	
Warren		6
	1,192	172

Reed's plurality in the county, 1,021.

BOROUGH GIVES REED 387.

Big Majority for the Senator in the Community in Which He Lives.

The Republicans made a clean sweep in the borough and a large vote was polled. There were 661 Republican votes cast, while the Democrats cast 282 votes. The Prohibition ticket brought out 31 votes. Reed for Senator had a majority of 387 over Bergen, while Cooper, for Assembly, had a majority of 422 over DuFour. Fisher for Coroner secured a majority of 376 over Anderson. There were two rejected ballots in each district. In each district the count was completed before 10 o'clock. Below is the vote in detail:

Senator.

	Reed.	Bergen.	Lunger.
1st Dist.....	367	127	14
2d Dist.....	289	142	18

Assembly.

	Cooper.	DuFour.	Quick.
1st Dist....	363	132	15
2d Dist.....	316	125	16

Coroner.

	Fisher.	Anderson.	Vactor.
1st Dist.....	359	140	15
2d Dist.....	299	142	16

MIDDLESEX REPUBLICAN

Democrats Are Defeated After Making a Hard Fight in the Campaign.

The result in Middlesex county is without doubt strongly Republican. A large vote was polled and the entire county ticket is elected by good majorities. John H. Conger, Republican candidate for County Clerk, ran ahead of his ticket, defeating William C. Jaques, the Democratic candidate, by nearly 1,500. Lyon, Groves and Montgomery, for Assembly, were also elected by good majorities.

DUNELLEN REPUBLICAN.

Jose Field Defeated by 11 Votes for Sheriff in That Town.

The vote was as follows in Dunellen:

Republican: For Sheriff, Isaiah D. Barclay, 142; for County Clerk, John H. Conger, 154; for members of General Assembly, Adrian Lyon, 142; H. Raymond Groves, 141; John E. Montgomery, 141; for Coroners, Arthur L. Smith, 145; John C. Albright.

Democrat: For Sheriff, Joseph V. D. Field, 131; for County Clerk, William C. Jaques, 116; for members of General Assembly, James Dougherty, 123; Daniel W. Clayton, 125; Charles S. Farrell, 125; for Coroners, William H. Quackenboss, 125; John F. Dooley, 124.

No satisfactory returns have been received from Piscataway township but there is good indication to believe that it is slightly Democratic. The total vote cast 523. Joseph D. Field, the Democratic candidate for Sheriff, has a majority of 31 over Isaiah D. Barkley with a possibility that these figures may be somewhat increased.

Kicked by a Mustang.

Hackman Kennedy is suffering with several bruises and cuts about the face, the result of being kicked by his mustang. The animal is somewhat new and only recently was he broken in. While Mr. Kennedy was driving him a few days ago the horse raised his hind feet and planted them on the driver's face. The blow was terrific and almost resulted fatally. The best of treatment was secured and Mr. Kennedy is now able to attend to business once more.

Rev. George Angleman, of Junction, who has been visiting Plainfield relatives, has returned home.

RIOT ON TROLLEY CAR.

Gang of Young Men Made Trouble for Conductor Hatfield—Complaint to City Judge.

Conductor Jesse Hatfield, of the Plainfield Street Railway, made complaint to City Judge Runyon this morning that a number of young men had created a disturbance on his car last night about 9:30 o'clock while enroute to Dunellen. They unfastened the incandescent lights and destroyed them and committed other depredations. They were accompanied by a number of young women.

Some of the young men are known and the names of the others will be ascertained today when all will be cited before Judge Runyon to explain their conduct.

Sold a Valuable Property.

Fred S. Cutter, executor of his mother's estate, yesterday closed a cash sale of the homestead property on West Front street, opposite the First Baptist Church, to John O. Campbell, for about $10,000. The property is a valuable one, having a frontage of 74 feet on Front street, and a depth of 320 feet, on which there is a large frame dwelling house and a fine brick barn. The deal also includes an adjoining lot on New street, 65x90 feet.

Pictures of a Burning Building.

Rev. George H. Whitney, D. D., of this city, formerly president of Hackettstown Institute, is the possessor of several fine photographs of the Institute, three of which were taken while the building was burning. The other photographs show the ruins after the fire. They have been seen by a number of people and all pronounce them a fine piece of work.

Reed Congratulated by Sewell.

Senator-elect Charles A. Reed established headquarters for himself and friends last evening at Collector Geo. F. Brown's office, where he received the full returns not only from Somerset county, but various parts of the State and country. During the evening Senator Sewell telephoned his congratulations to the successful candidate.

—Use Press want ads.

—Next Friday evening the members of Plainfield Lodge, No. 44, I. O. O. F., will go to Stirling and visit the new lodge of Odd Fellows at that place.

JUDGE NASH WINS IN OHIO

Republican Candidate Elected by a Sate Plurality.

A HEAVY VOTE POLLED.

Fusionists Carry Nebraska and Democrats Make a Sweep in Virginia.

Massachusetts And Pennsylvania Carried by The Republicans—New York City Goes Democratic and Republicans Gain in Country Districts—All of The Latest Election News.

New York, Nov. 8.—The Battle of ballots for 1899 is over, and from all of the twelve states (including New York) where elections were held the reports that the fight would be a hard one on both sides, have been fully verified. From the early days of the campaign the deepest interest in the probable results of the hard work that was being done by the friends of the candidates on the respective tickets, centered in Ohio, Kentucky and Nebraska, and in these three states there was probably more campaign hustling done than in all the others combined. Speculation was rife as to who would carry away the coveted honors on election day, and all sorts of guesses were indulged in by those who felt that they were in a position to give the correct idea as to what would happen when the ballots were counted. But, it is quite unnceessary to say that many have been badly disappointed, while the forecasts of others have come true.

While 1899, is known in political parlance as an "off" year so far as an election of particular importance is concerned, there was an exceptionally and unexpected large vote cast in the majority of the twelve states.

In Ohio "Golden Rule" Jones put up a plucky fight for the governorship and made a good showing, but the vote of the two great parties were too great for him to overcome and he was defeated by a considerable number by both McLean and Nash, the election of the latter being conceded by a safe majority.

In Nebraska the Fusionists polled a somewhat heavier vote than was anticipated and carried the state by a majority running up into the thousands.

In Virginia the Democrats made almost a clean sweep of everything on the ticket. The next Legislature will be Democratic by a considerable majority.

The Election in a Nutshell.

The following summarizes the situation at this hour:

NEW YORK—County Democratic by 45,000. A Republican gain of 15,000 over 1898.

KINGS—(Brooklyn) Democratic by 10,000. A Republican gain of 8,382 over 1898.

ASSEMBLY—Republican by 26. Republican gain, 2.

MAZET—Beaten in 19th Assembly District (New York) by 396 votes.

GRAY (Dem.) for Registrar of Brooklyn beaten by 135 votes in the whole city.

OHIO—Republican by 30,000. McLean (Dem.) beaten by Nash (Rep.) for Governor. Jones, "Golden Rule" non-partisan candidate, gets 100,000 votes. Republican gain over Bushnell's majority in 1897 of 2,000.

NEBRASKA—Fusion by 5,000 majority. A Republican loss over the Fusion majority in 1897 of 2,000.

IOWA—Republican by 65,000. A Republican gain over 1898 of 12,000.

KENTUCKY—Republican by 10,000. A Republican gain over 1897 of 27,000.

MARYLAND—Democratic by 15,000. A Republican loss over 1897 of 21,109.

MASSACHUSETTS—Republican by 65,000. A Republican loss over 1898 of 21,109.

NEW JERSEY—Assembly Republican by 22. Senate Republican by 5. Republican gain.

SOUTH DAKOTA—Republican by 10,000. A Republican gain of 11,000.

PENNSYVANIA—Republican by 120,000. Philadelphia Republican by 70,000.

VIRGINIA—Democratic. Practically no opposition.

Voted Early in New York.

New York, Nov. 8.—Up to noon on Tuesday a large percentage of votes were cast in the various polling places here, and indications pointed to a vote nearly equaling the registration. Few arrests were made. At a majority of the polling places there was quiet and no signs of trouble. The vote polled in the forenoon was larger than on previous off years. Both the Democratic and the Republican workers were on hand early and were laboring for success. In the cases of arrests made in the morning, clerical errors were the cause, and in nearly all the cases the voters were allowed to swear in their votes, and most of the persons arrested were discharged.

In Greater New York, as usual, the Tammany organization got all that was coming to it, making some gains in the city assembly districts, and electing the Democratic judiciary and County ticket in Manhattan.

George C. Bartlett is elected Justice of the Supreme Court by a practically unanimous vote. His majority is more than 175,000.

James O'Gorman, now Municipal Court Judge, is also elected to the Supreme Court bench.

Warren W. Foster succeeds James A. Blanchard as Judge of the Court of General Sessions by a safe plurality.

James M. Fitzsimons and Lewis J. Conlan are re-elected Judges of the City Court.

William F. Grell is elected Sheriff over the Republican, Labor and Citizens Union candidate, William J. O'Brien.

In the Nineteenth Assembly district, which was the scene of the great fight between Croker and Platt, Robert B. Mazet was defeated for the Assembly by Perez M. Stewart.

Bryan Wins in Nebraska.

Omaha, Neb., Nov. 8.—Bryan has won his fight. His vigorous campaign against imperialism and trusts has been successful. His state has indorsed him and has responded enthusiastically to his appeals. The Fusion ticket has carried Nebraska by a majority of not less than 12,000. Mr. Bryan has issued a statement announcing a victory by from 10,000 to 15,000. Returns are coming in slowly, but every one shows an extraordinary gain for the Fusionists over the Gubernatorial election of 1898, when Poynter was elected Governor by a majority of 2,721 votes.

Republicans Gain in Kansas.

Topeka, Kan., Nov. 8.—Returns indicate Republican gains in the County elections. It is predicted by politicians that the Republican gain will reach 10 per cent.

In Shawnee County the whole Republican ticket is elected by a gain of 20 per cent. over last year. A light vote was polled all over the state.

Kentucky Probably Republican.

Louisville, Ky., Nov. 8.—Returns from the state come in slowly, but each county shows Republican gains and to such an extent that Taylor's election by a majority of over 3,000 is indicated.

Secretary Hampton, of the Republican Committee, claims Taylor's election by 10,000. The Courier Journal (Dem.) from its figures says the result is in doubt. The Post (Dem.), which has opposed Goebel, claims Taylor's election by 10,000.

Despite the predicted trouble at the polls over the contemplated displacement of election officers, there was an entire absence of any serious disturbance.

Ohio Republican.

Cincinnati, O., Nov. 8.—The indications are that the Republicans have carried the state by probably 30,000. Jones, the "Golden Rule" candidate without a party, has upset all calculations by running like wild fire in some districts. He carried the city of Cleveland, Hanna's home, beating both Nash and McLean. In other districts Jones has not done as well as expected, losing his own city, Toledo, to Nash. Jones's erratic vote makes it impossible to give reliable estimates on the entire State, but it is Republican surely. Less than one-third of the state has been heard from at this hour.

South Dakota Republican.

Sioux Falls, S. D., Nov. 8.—Reports thus far received show strong Republican gains. Sioux Falls gives the Republican nominees for Justices of the Supreme Court 258 majority; Republican gain 194 over the vote cast here in 1896 for McKinley. Former estimates of from 6,000 to 10,000 majority for the Republican Supreme Court nominees will doubtless be borne out.

Iowa is Republican.

Des Moines, Ia., Nov. 8.—Returns from 123 precincts show a net Republican gain of 2,951. The same ratio, if maintained will give Shaw, Republican, for Governor 75,000 plurality.

Two hundred and thirty-three precincts give Shaw, Republican, 28,321; White, Democrat, 19,768.

Democratic Gain in Virginia.

Richmond, Va., Nov. 8.—The regular Democrats have overwhelmingly defeated the Independents, Populists and Republicans. Not more than one-third of the registered vote was polled. The sole issue was the United States Senatorship. Senator Thomas S. Martin has defeated Gov. J. Hoge Tyler by a tremendous majority.

Democratic Gains in Pennsylvania.

Philadelphia, Pa., Nov. 8.—One Congressman was elected in Pennsylvania. In the Ninth district, comprising Berks and Lehigh Counties, Capt. H. D. Green, Democrat, was chosen, by a majority of 5,000, to succeed D. M. Ermentrout, deceased.

No Change in Mississippi.

Jackson, Miss., Nov. 8.—The election passed off quietly throughout the State. The Democratic majority is estimated at 30,000.

Democrats Get Maryland.

Baltimore, Nov. 8.—The Democrats have reclaimed Maryland, changing Gov. Lowndes's Republican plurality to a Democratic plurality of 10,000 to 15,000.

Used The Voting Machine.

Ithaca, N. Y., Nov. 8.—Ithaca gave the Democratic candidate for County Treasurer a plurality of 158, and the Republican candidate for Sheriff 190. The Standard voting machine was used in this city and the result was known seventeen minutes after the polls closed.

Republicans Carry Rochester.

Rochester, N. Y., Nov. 8.—Rochester complete gives Carchan (Fusion), 2,353 plurality for Mayor against Warner, Democrat. Monroe County elected four Republican Assemblymen. Democrats claim the First District and the defeat of Assemblyman Merton E. Lewis, Republican.

The Vote in Oswego County.

Oswego, N. Y., Nov. 8.—Thomas D. Lewis, Republican, was re-elected to the Assembly in the First Oswego District by 1,642 votes, and Thomas Costello, Republican, re-elected to the Assembly in the Second Oswego District by 1,540 votes.

Utica Goes Democratic.

Utica, N. Y., Nov. 8.—Democrats elected their Mayor here by 87 majority. The Common Council is Republican by a vote of 8 to 7. The city returns a Democratic Assemblyman from Oneida County by 371 majority.

In Onondaga County.

Syracuse, N. Y., Nov. 8.—After one of the most bitter fights on record, Mayor McGuirk was re-elected by close to two thousand majority. All four Assemblymen elected in Onondaga County are Republicans.

Gray Defeated in Brooklyn.

Broklyn, N. Y., Nov. 8.—The latest figures show that Brooklyn went Democratic by from 8,000 to 10,000. Gray, Democratic candidate for Registrar, was defeated by about 8,000.

Republicans Elected.

Canton, N. Y., Nov. 8.—C. S. Plank was elected to the Assembly in the First district and B. A. Babcock was re-elected in the Second district of St. Lawrence county. Both are Republicans.

Republicans Re-Elected.

Watertown, N. Y., Nov. 8.—Jefferson County returns Charles O. Roberts and Morgan Bryon, both Republicans, to the Assembly by pluralities of 1,037, and 2,016 respectively.

Buffalo Goes Republican.

Buffalo, N. Y., Nov. 8.—There was a landslide here for the Republicans. Thomas Henney (Rep.), for District-Attorney was elected by over 10,000 plurality.

Republicans Win in Albany.

Albany, N. Y., Nov. 8.—Albany County elected Republican Assemblymen in the First, Second and Fourth Districts, and a Democrat in the Third.

West Returned to Assembly.

Saratoga, Nov. 8.—George H. West (Rep.), was elected to the Assembly in Saratoga county.

Hanna Voted Early.

Cleveland, Ohio, Nov. 8.—Senator Mark Hanna voted early. He was in good spirits and confident of victory. "Well, boys," he said as he walked to the booth, "how is it going?" When told the vote was heavy, he said: "I am glad they're coming in early." He voted the straight Republican ticket and remarked on departure: "It's great Republican weather, isn't it?"

Voters Cheered Bryan.

Lincoln, Neb., Nov. 8.—W. J. Bryan voted in the forenoon Tuesday. He walked from his home to the polls and was cheered by the voters at the booth.

After voting Colonel Bryan entered a carriage and drove to various booths to watch the polling. He was cheered at all of them.

Democrats Gain in Massachusetts.

Boston, Mass., Nov. 8.—The Republican plurality of 82,000 last year in Massachusetts has been cut down to a little less than 70,000—probably 68,000—and the Democrats have carried Boston. The latter fact affords them especial gratification, as in 1889 the city was Republican by nearly 2,000. The vote was light everywhere, except in the western counties, where Lieutenant-Governor Crane lives and where he is extremely popular.

Killed at The Polls.

Louisville, Ky., Nov. 8.—Blood was shed at the election in Kentucky. One man was killed at the polls in Ashland and one in Maysville. Reports of fraud and disorder came from many parts of the state.

Gov. Bradley was asked by Judge Wheeler to send militia to Covington to arrest Chief of Police Pugh and fifty policemen who were intimidating voters, but no troops were sent.

Longino Elected in Mississippi.

Jackson, Miss., Nov. 8.—There was a light vote all over the state, and the Populists ticket, headed by Dr. Prewitt, polled a smaller vote than the same party polled four years ago, when it received 17,000. About 60,000 votes were polled altogether, and Longino was elected Governor by a majority of 40,000.

Light Vote in Pennsylvania.

Harrisburg, Pa., Nov. 8.—The Regular Republican tciket in Pennsylvania was elected by a somewhat reduced majority. The vote was light in nearly every section of the state.

Jealousy Causes Fatal Shooting.

Chicago, Nov. 8.—August Wischman, a saloonkeeper, and his wife, Rose, were shot and dangerously wounded Tuesday by Mrs. Leona J. Jay, Wischman's divorced wife. The shooting occurred at Thirty-fourth street and Chicago Grove avenue, as Wischman and his wife were on their way home. As they passed the corner their assailant stepped from the shadow of a building and fired two shots. One of the bullets entered Wischman's left breast above the heart, and the other penetrated the right breast of his wife. As he two victims fell Mrs. Jay fled, but was captured later. Wischman was fatally injured. Hopes for the recovery of his wife are entertained. Mrs. Jay admitted the shooting.

Would Not be Burned at The Stake.

Bedford, Ind., Nov. 8.—George Buskirk, formerly of Stinesville, Ind., is said to be in trouble in Central America. Relatives at Stinesville, have received word that Buskirk some time ago killed a native Central American, and was captured by the native's friends, who tried to burn the American at the stake. Buskirk killed two of his captors and escaped into the woods. The adventurous Stinesville man was formerly a saloonkeeper in this county, and ten years ago killed a man named Easton, who was trying to break into the saloon. Buskirk was tired for murder and acquitted. He then went to Central America, where he engaged in the lumber business.

Clerk Captured The Robber.

Mishawaka, Ind., Nov. 8.—A stranger entered Graham Wilson & Co.'s pharmacy on the North Side and assaulted the clerk, Evan Lucas. He was rifling the money drawer when Lucas recovered and engaged the robber in a terrible physical contest, in which young Lucas received severe injuries. The clerk finally secured a ball bat and conquered his adversary. The police regard the capture as an important one, as the prisoner answers the description of one of the men who escaped from the South Bend Jail Friday.

Columbia Badly Beaten.

Manhattan Field, N. Y., Nov. 8.—Before a crowd, the like of which has not been seen on Manhattan Field since the days when Yale and Princeton held their football battles here, the elevens of Cornell and Columbia met this afternoon in a struggle that was fraught with the greatest importance to both. The final score was Cornell 29, Columbia 0.

Hobart Growing Weaker.

Paterson, N. J., Nov. 8.—Vice-President Hobart although growing weaker, continues to be in a cheerful mood. The end, however, is likely to come at any time.

Germs Of Disease

Radam's Microbe Killer will stay the ravages of Consumption, stop the pains of Rheumatism, allay the inchings of Eczema, prevent the wasting in Bright's Disease, neutralize the gnawnings of Dyspepsia, sweeten the foulest stomach and bring back a normal appetite to the suffering patient. The above are only a few of the many germ diseases: this remedy surely conquers these, and health is again restored.

RADAM'S MICROBE KILLER

Perfectly harmless to human life, but certain destruction to the Germs and Bacteria of all disease.

If you are sick, this remedy should be taken immediately. Don't defer the trial until there is no hope. Write us for free book and advice at once.

Large Bottles, $1. Gallon Jugs, $3.

The Wm. Radam Microbe Killer Company, 121 PRINCE STREET, NEW YORK, or L. W. Randolph, Plainfield.

DRESSED CHICKENS.

There is nothing quite so good for dinner as chicken. This week we have an extra nice lot of fancy roasting chickens, broilers, also fowls of the highest grade. We pride ourselves on dressed chickens. Prices very low, considering the goods. We would like to have your meat trade and we think a plump dressed chicken would be a good introduction.

FRED ENGRESS, 131-135 West Front Street.

LADIES' TAILORING

RICHARDSON & WALD

325 W. Front St.

Tailor-made Garments at reduced prices during August.

We make a specialty of Riding Habits, Bicycle Suits and Golf Jackets. Alterations and re-lining promptly attended to.

Our Dressmaking Department is in charge of Madame Walsh.

DRESSMAKING

Thirty Tons of Spruce Gum.

The spruce gum of crop of Maine of 1899 has been harvested and sent to market. It has proved to be the largest crop in the history of the state—thirty tons, worth $63,000. This is all collected by the lumbermen, and contains considerable bark and chips, but is sorted over by the thrifty Yankee, who sells it to the trust.

An interesting and peculiar thing in connection with the gum crop is the fact that the harvesters have combined to crush the trust. They will sell none of their product to any dealer who does not give his promise that no gum handled by them shall be manufactured and put on the market by the trust.

A Balloon Bridge.

A French aeronaut has invented a "balloon bridge," which is not a bridge sustained by balloons in the air, but supported by small balloons or air bags on the surface of the water. For a river 100 yards wide 200 bags are required, and 100 men can build the bridge in less than an hour. A platform of twenty-one wooden rafts, end to end, and tied by ropes is laid upon the bags. This new pontoon is actually in use in the French army.

A Fighting Family.

A monument recently placed in a cemetery in Louisville, Ky., bears inscription to the memory of John E. Austin, a soldier of the revolution; J. Allen Austin, his son, a soldier of the war of 1812; James Grigsby Austin, his grandson, a soldier of the war with Mexico, and James Richard Gathright, his great-grandson, a confederate soldier, who was killed at Mufreesboro, Tenn., Jan. 1, 1863. All were privates.

Alcohol For Automobiles.

The majority of motor cars are now driven by petroleum, but a French engineer recommends the use of alcohol instead, and motors are being altered so as to consume it. There is no fear of explosion with alcohol, and it is said to be less costly than petroleum.

German Army Gloves.

German army officers are ordered by imperial decree to wear reddish-brown dog-skin gloves during the maneuvres.

BLEW UP THE MAGAZINE.

The Boers Do a Lot of Serious Damage at Kimberley.

CECIL RHODES BESEIGED

More Heavy Fighting Takes Place in the Vicinity of Ladysmith.

Feared That The Naval Gun And Ammunition at That Point Have Been Exhausted—Boers Bayonetted From Their Position—Gen. White's Big Victory.

London, Nov. 8.—The War Office has received this despatch from Gen. Buller, regarding the situation at Ladysmith:

"The following has been received from the General at Estcourt, through the Governor of Natal:

"Since Friday there has been a cessation of hostilities. A note was sent on that day to Gen. Joubert by Gen. White, asking permission for the noncombatants and the sick and wounded to go south. Joubert refused to grant the request, but agreed to allow them to go to a special camp four miles from Ladysmith.

" 'The townspeople refused to accept this offer. The sick and wounded and a few of the inhabitants have moved.

" 'The only casualty in the town from the shells up to the present time was one Kaffir killed.

" 'Ninety-eight of our wounded from Dundee who were sent here have arrived and are doing well.

" 'Our position here is now believed to be entirely safe. It has been greatly strengthened during the last twenty-four hours. The people have deserted their dwellings and are living in bomb-proof places. There are plenty of good stores of all kinds.'

Fire Threatens Magazine.

London, Nov. 8.—The Boers have blown up a magazine at Kimberley, where Cecil Rhodes is beseiged. They set fire to the veldt around the town. The fire is threatening a large magazine.

There has been heavy fighting around Ladysmith. It is feared the naval gun and ammunition there is about exhausted.

Fierce fights on Thursday and Friday are reported. It is reported that Gordon Highlanders bayonetted the Boers from their main position. The Czar and Kaiser have met at Potsdam to discuss mediation.

Hard Fighting at Ladysmith.

London, Nov. 8.—Dispatches from Pietermaritzburg indicate that there is some big news of hard fighting at Ladysmith trying to get through to the coast.

Dispatches confirming Gen. White's carrier pigeon message of a battle, say the Boers lost 800 in killed, wounded and captured.

White Scores a Victory.

London, Nov. 8.—A despatch to the Exchange Telegraph Company from Cape Town, says the British have scored a victory at Ladysmith, capturing 2,000 Boers. The Boers are said to have suffered heavy losses.

Will Land Guns at Once.

Durban, Natal, Nov. 8.—The battle ship Terrible, has arrived and will at once land guns and a naval brigade to go to the defence of Pietermaritzburg.

Volunteers are Mobilizing.

Pietermaritzburg, Natal, Nov. 8.—New companies of volunteers are mobilizing here and going to the front.

Officers Charged With Stealing.

Great Falls, Mont., Nov. 8.—Something of a sensation has been caused by the arrest in Choteau County of State Senator Phillips and Deputy Sheriff Green on charge of sheep stealing. It is alleged that these men got away with a band of sheep numbering 1,737, belonging to Taylor Brothers and others. At a preliminary examination both men were held in $2,000 bonds.

England May Abandon Samoa.

Berlin, Nov. 8.—A semi-official note appearing in the Norddeutsche Allegemeine Zeitung says:

"Count von Bulow (the German minister of foreign affairs) is as little inclined as formerly to yield the German position with regard to Samoa." This is interpreted to mean that, in the approaching settlement, Great Britain will abandon her rights in exchange for compensation elsewhere.

Hunter Finds $50,000.

Jackson, Miss., Nov. 8.—Hunter H. Johnson, a white citizen of Jackson, while hunting in Pearl River swamp, east of the city, several days ago, discovered a box containing nearly $50,000. The money was in an iron case and is in gold pieces, nearly all of them $20 in denomination. It is believed the money is a war treasure. All of the coins bear date prior to 1850.

The Bite May Prove Fatal.

Tiffin, O., Nov. 8.—George Sell was bitten on the hand by a ferret last week. Nothing was thought of the wound, however, as it had healed to all appearances. Tuesday his hand began to swell and grave fears are entertained for his recovery, as blood poisoning has developed.

Body Found Near The Track.

Marion, O., Nov. 8.—The mangled remains of a young man were found near the railroad east of La Rue. He had probably fallen from a morning train. Papers found indicate that the dead man was Joseph Crabtree, of Broadway, Ohio.

Butted Against His Cell.

Muncie, Ind., Nov. 8.—John Casey has died here from the effects of butting his head against the bars at the jail while suffering with delirium tremens. He was recently turnkey at the jail.

If your hands are rough, hard or chapped from the repeated washings necessary to keep them free from the office dirt, examine carefully the soap you use. If it is a cheap toilet soap, you will find that it is greasy, acrid and irritating.

Ivory Soap makes a profuse lather that removes the dirt and rinses easily, leaving the skin soft and clean.

If your office force is large there are two considerations that will recommend Ivory Soap to you. It is quick in action, saving time; and is inexpensive.

Send the office boy for some and try it.

NEWARK MAKES FAST TRIP.

Cruiser Is Now Expected to Reach Manila About Nov. 12.

Washington, Nov. 8.—Reports received at the Navy Department from Honolulu tell of the remarkably quick run made by the cruiser Newark from San Francisco to that place. The voyage was made under adverse conditions, as the Newark had 300 tons of fresh water and about 200 tons of extra ammunition on board. She covered the distance of about 2,200 nautical miles in 7 days and 2 hours, an average speed of thirteen knots an hour. Capt. McCalla was so pleased with the performance of his ship that he promoted every man in the steam engineering department one classification.

The Newark reached Honolulu on Oct. 25, and probably left there a few days later for Manila. The distance from Honolulu to Manila is about four thousand miles, and it is calculated that the Newark will average twelve knots an hour for that leg of the voyage. She is expected to reach Manila about Nov. 12. If she gets there within that time she will be the first of the five vessels recently ordered to Manila to reach the Philippines.

Bridgeport Accepts Proposition.

Bridgeport, Conn., Nov. 8.—The Board of Aldermen has voted to allow the New York, New Hampshire and Hudson River Railroad to begin work on the improvements contemplated in this city. The railroad proposed to build a new station, a drawbridge and a stone viaduct four miles long, the whole to cost $3,000,000. The city was asked to pay $400,000 of that sum, but its legislative body hesitated to accept the proposition. The railroad thereupon threatened to drop the contemplated improvements in Bridgeport for five years and devote its attention to Providence, where costly changes are needed.

Watched a Battle From Sea.

Chicago, Nov. 8.—A despatch to the Tribune from Seattle says:

"The government transport Garonne has arrived from Manila, some days before she was expected. While leaving the Philippines the officers stood on the decks of the vessel and watched a battle between American soldiers and Filipinos two and one-half miles back from Cavite. The natives had approached so near to the scene of Admiral Dewey's famous fight that the marines were landed from the warships in the morning and were out on the firing line at noon."

Fifty Killed in a Theatre.

San Francisco, Cal., Nov. 8.—Hong Kong papers, received by the Doric, give details of a great fire in Canton, by which more than fifty persons lost their lives by drowning or burning to death. It seems that a matshed theatre had been built by the river side and about 100 flower boats had been anchored near it. While the theatrical performance was going on fire broke out on one of the boats, and spread rapidly to the inflamable material of the theatre. A wild rush of the audience resulted and many boats were capsized.

Objected to Going to Manila.

San Francisco, Nov. 8.—Twenty-two East Indians employed as oilers, coal passers and firemen on the British ship Pathan, recently chartered by the United States to carry troops to the Philippines, have been put in irons by order of Capt. Butler because they objected to going to Manila. The East Indians shipped at Singapore in September for an eighteen month's voyage. They are afraid of the hostile Filipinos, but the captain thinks he will soon force them to complete their contracts.

Young Mr. Edison Weds.

Elizabeth, N. J., Nov. 8.—Miss B. Fowler Travers has become the wife of William Leslie Edison, youngest son of Thomas A. Edison, the inventor. The ceremony was performed at Sunnyside, the home of Miss Mary Cecelia Ryan, whose protege the bride was. Rev. Dr. Otis Glazebrook, rector of St. John's Episcopal Church, officiated. The bride is the daughter of the late Dr. Travers. Her uncle is Senator Daniels, of Virginia.

MAY END BY CHRISTMAS.

Latest Move to Settle Hostilities in the Philippines.

NEW PLANS OPERATING.

Hope Expressed in Washington That the End is Near at Hand.

The President Thinks Aguinaldo Will Either Surrender or Be Captured by Dec. 25th—Followers of the Filipino Leader Likely to Be Penned in By The American Troops.

Washington, Nov. 8.—General Otis has begun the campaign mapped out several months ago, and within a week there will be three armies closing in on the natives from the south, north and east under the command of MacArthur, Wheaton and Lawton. This is not a new plan of campaign. It was reported to the War Department some months ago as the plan which would be put into execution as soon as the rainy season ended and the soldiers could find enough ground on which to stand and make a fight. The question has often been asked why Gen. Otis did not send troops to Dagupan to move down the railroad against the Filipinos. The answer is that it was not worth while to do this until the rainy season ended, as it was the President's desire that the new troops should be kept near Manila, where there are barracks, until the general was ready to make a campaign.

The President did not want green troops unnecessarily exposed to the dangers of disease during the rainy season.

Gen. Otis has kept his fresh troops in and near Manila, where he had barracks for them, and has used seasoned troops to do the skirmishing and the scouting necessary to keep the country free from the Filipinos who threatened those natives who had returned to their homes to live under the protection of the United States.

Now that the rainy season is nearly over Gen. Otis has sent Lawton north with about 4,000 troops to keep along the hill country and be ready to prevent the natives from escaping to the east into the rich tobacco country in the northern part of the island. Gen. Wheaton has taken a brigade around to Dagupan on transports and will guard the escape in that direction, and MacArthur with a strong army is moving north along the railroad against the Filipinos to drive them north. It is predicted at the War Department that Aguinaldo and his followers will be penned in by these three armies, and if they do not surrender, will be crushed.

The members of the Philipines commission are satisfied that this movement will crush the insurrection, but there will have to be garrisons left for a time in all the important towns to guard against maruding bands of robbers bent on plunder and murder of those natives who refused to join the insurrection. It is predicted that the fighting campaign will be ended by the time congress meets. The President has for months fixed the close of the war at this date when the insurrection would be crushed, and he has had no reason to change his mind. He still believes that before Christmas Aguinaldo will either surrender or be captured, and his army compelled to lay down their arms.

Insane Man Defied Arrest.

Ft. Wayne, Ind., Nov. 8.—Julius E. Rudolph, aged 25, made a murderous attack on his brother with a hatchet. He wounded his brother, but other relatives intervened in time to prevent murder. The maniac fled upstairs and got onto the roof through a scuttle hole, where he defied capture. The police were notified and several officers and Deputy Sheriffs surrounded the house, and, finally, at great risk, succeeded in capturing and disarming the man. Rudolph has recently recovered from an attack of typhoid fever, and the illness is supposed to have unbalanced his mind.

FACTS ABOUT PLAINFIELD.

(The accompanying facts about Plainfield are for the information of the non-resident public and do not recognize the dividing line line between the city of Plainfield and the borough of North Plainfield, except when such a distinction is necessary in describing a municipal institution)

CLUBS—Ten.
BANKS—Three.
HOTELS—Seven.
SEWERS—24 miles.
GAS—20 miles of mains.
CHURCHES—Thirty-five.
BONDED DEBT—$120,000.
PUBLIC SCHOOLS—Eleven.
SOCIETIES AND LODGES—Ninety.
POLICE—Nineteen paid members.
POSTOFFICE—Free delivery of mail.
FREE PUBLIC LIBRARY—18,000 volumes.
BUILDING AND LOAN ASSOCIATIONS—Ten.
NEWSPAPERS—Five; two daily; three weekly.
THEATRE—Music Hall; seating capacity, 1,000.
TELEGRAPH—Postal Telegraph and Western Union.
TELEPHONE—Local and long distance; 600 local subscribers.
HOSPITAL—Muhlenberg; ward capacity, 20; emergency, 30.
STREETS—Seventy miles graded; thirty-seven macadamized.
WATER SUPPLY—Artesian wells; forty-five miles of mains.
TAXABLE VALUATION—City, $8,000,000; borough, $2,250,000.
COUNTY—Plainfield in Union; North Plainfield in Somerset.
POPULATION—City and borough, 20,000; immediate suburbs, 5,000.
FIRE DEPARTMENT—Eight companies; paid drivers; four departments.
ELECTRIC LIGHT—Incandescent and arc in every part of city and borough.
STREET RAILWAY—Nine miles of track; cars run every 12 minutes from 5:30 a. m. to 12 p. m.
RAILROAD—Central Railroad of New-Jersey; 24 miles from New York; 65 miles from Philadelphia; 45 minutes from New York; four depots; commutation ticket to New York $80 a year.

COMING EVENTS.

Nov. 13—Literary Society of the Y. M. C. A.
Nov. 14—Meeting in connection with Week of Prayer for young men at 9 p. m.
Nov. 16—Y. M. C. A. meeting at 9 p. m.
Nov. 18—Y. M. C. A. meeting at 9 p. m.
Nov. 21—Lecture by Dr. W. R. Richards for the benefit of Y. M. C. A. subject—"Oliver Cromwell."

The Election in Union County. There was no note of uncertainity sounded in the election of yesterday in Union county. It was a complete victory for the Republicans who swept the county by larger pluralities than they have rolled up since the last National election. The Democrats based their hopes on William Oliver, their candidate for County Clerk, but although he carried his home city of election he was defeated in the county by fully 1200. The entire Republican ticket was elected by big pluralities.

There was very little excitement in Plainfield over the election. With only county offices to be filled, this is what is commonly known in political parlance as an "off" year. The vote was light.

The two facts that excited much interest in the results of the city vote was that the Democrats were to give their new organization its first test, and that certain Republican leaders, heretofore very active, would take no part in the campaign. These causes had their effect on the Republican majority in Plainfield, reducing it by some 150 to 200 votes. Plainfield was the only place in the county where the Democrats were able to make any gains.

As a result of the election Joseph Cross, of Elizabeth, is the State Senator and William Howard, of Rahway, will be back at the old stand in the County Clerk's office for the next five years. Robert G. Houston, of Elizabeth, will succeed William T. Kirk, of this city, in handling the reins of the Sheriff's office. Houston is the first workingman to be placed in such an office in Union county.

There will be an entire new trio to represent Union county in the Assembly this fall. They will be Ellis R. Meeker, of Elizabeth; Chester M. Smith, of Westfield, and Charles S. Foote, of Plainfield, who succeeds George A. Squier and Robert G. Houston, of Elizabeth, and Roger F. Murray, of this city.

LADYSMITH, NATAL, SOUTH AFRICA.

Ladysmith was the most northerly town held by the British in Natal at the breaking out of the war. It has been the storm center recently. The British force here was about 10,000 men when the town was surrounded by the Boers. The main Boer force, under General Joubert, surrounded Ladysmith and the British lost heavily in the several engagements which followed, one sortie costing them nearly 2,000 men.

Senator Reed's Victory.

There is no question now as to the leader of the Republican party in Somerset county. Senator Charles A. Reed met the forces of his opponent for party honors in the county convention and defeated them. He was nominated. It was then said that Senator Reed would never be elected. After one of the hottest campaigns that Somerset has witnessed, Senator Reed has been re-elected to the higher branch of the New Jersey Legislature by a convincing majority. It is a significant victory for the Senator, particularly as it comes backed by a majority of some 800 votes.

It may never be known just exactly what the Thompson faction of the Republican party did to secure the defeat of Senator Reed. All sorts of conflicting rumors were abroad, some claiming that L. A. Thompson and his friends were working actively for the others and that they had retired to the back ground and were going to allow the other faction to do the work. It was hinted about that much quiet work was being done against Mr. Reed. However that may be, the Senator is elected and the borough of North Plainfield turned out and gave its favored son a strong majority to aid him in the county.

Though started too late to do the very best work, the evidences of Democratic organization were conspicuous features of yesterday's election. By the time city election is held the Democrats will undoubtedly be in better fighting condition than at any time in local political history within ten years.

President McKinley and Col. Bryan have their ears close to the ground. The thunder of the election returns mean much to the careers of these statesmen during the next twelve months.

The steamer left early this morning for its annual trip up Salt River. There were a good many glum looking faces on board.

PASSING COMMENT

Things that Are Not Exactly News but Just as Interesting.

Charles L. Borg when arrested in Chicago for forgery, although he has no hands, confessed to the crime and showed the officers how he was able to make a postal money order for $6.75 with a pen held in his mouth.

* * * * *

There is an apparent and substantial desire on the part of Plainfield property owers to improve their properties and make them as much up-to-date as possible. The march of improvement has struck the city in a favorable manner and its many natural advantages are becoming more widely known every day. Never in the history of Plainfield has so many strangers taken up their residence here, and they are of the right sort, the kind that will tend to build up the outlying districts and thus give the city what it needs so much, a steady growth in all directions.

* * * * *

Rosie Davis, a bearded lady now in Chicago waiting to fill an engagement with a circus, got lost the other night while out walking in Lakeview and not desiring to be conspicuous went to the back door of a house to inquire her way. The result was a great fright on the part of the people who lived in the house, three women going into hysterics and a man running out the front door in search of the police. The bearded lady fled and tried another house, at which her appearance caused a woman to faint. By this time the police arrived with a patrol wagon and the free exhibition for which people generally pay to see was suppressed.

HOT FOOTBALL GAME.

ALIS TEAM DEFEATED THE MARION FIELD CLUB.

It Was a Return Game, the Visitors Having Previously Defeated the Alis Boys—Big Attendance—The Score 6 to 0.

The hottest game on a local gridiron was played on Martine Common yesterday afternoon when the Alis football team succeeded in defeating the eleven from the Marion Field Club, of Jersey City, by a score of 6 to 0. Five hundred people witnessed the game from the sidelines.

The Marion boys won the game in Jersey City by a score of 6 to 0, and the game yesterday was the return game. The Marion boys had the advantage of weight and made their gains through the line. The team work of the home club was the better, and was directly responsible for the victory.

Marion had the choice of goals and took the eastern. Alis kicked off The fight soon began in the centre of the field end every gain was bitterly contested. Fronde lost the ball for Marion on a fumble and then Alis carried the ball steadily down the field, the end and tackle plays proving the most successful. With the ball on Marion's twelve yard line, Dumont took the ball from Phillips on a double pass and circled left end for a touchdown after twelve minutes of play. Phillips punted out to Woolston and then kicked the goal. Score—Alis, 6; Marion, 0.

The game went on and Marion braced up. Several times the Alis boys were held for three downs and Phillips or Dumont punted. Time was called with the ball on the Marion 35 yard line in Alis' possession.

The second half showed an advantage for the visitors. They kept hammering the Alis line with a revolving tackle play that netted good gains every time. They were unable to gain at all around the ends.

Alis lost ten yards for off-side play by Cuming and Waring and that encouraged the Marions. They began to force the ball toward Alis' goal. Alis could not seem to hold the fierce attacks in the line. Two fumbles after Alis finally gained the ball gave it back again to their opponents. Time was finally called with Marion in possession of the ball on Alis forty yard line.

The teams lined up as follows:

ALIS.		MARION F. C.
Woolston	right end	Taylor
Waring	right tackle	Walton, Simmonds
Kline	right guard	Corey
Smith, G.	centre	Weidemeyer
Long	left guard	E. Smith
Taylor	left tackle	Wright, Hahne
Smith, H.	left end	Brown
Dumont	quarterback	Chapman
Green	right halfback	Stone
Cuming	left halfback	Fronde
Phillips	fullback	King

Score—Alis, 6; Marion, 0. Touchdown—Dumont. Goal from touchdown—Phillips. Referee—Lewis E. Waring. Umpire—T. A. Cuming. Timer—A. Willis West. Linesmen—J. B. Schinger, of New York, and L. M. Hillman, of Plainfield.

DRINK GRAIN-O

after you have concluded that you ought not to drink coffee. It is not a medicine but doctors order it, because it is health ul, invigorating and appetizing. It is made from pure grains and has that rich seal brown color and tastes like the finest grades of coffee and costs about as much. Children like it and thrive on it, because it is a genuine food drink containing nothing but nourishment. Ask your grocer for Grain-O, the new food drink. 15 and 25c.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

AMERICAN STEAM LAUNDRY,
122 East Front Street.

THIS WEEK

You Will Need Cold Weather Goods.

Candidly we know of no other concern so well able to provide for your wants. Anticipating the advance in prices which has already taken place we bought early and heavily, and find ourselves able to sell good goods a little cheaper than our competitors.

Underclothing will naturally appeal to you first.

We have a special lot of ladies' heavy ribbed vests (no pants to match) made of Egyptian Cotton, heavily fleeced, extra full sizes, value is 50c. If you don't mind an occasional oil spot or slight imperfection you may have them at 25c each.

Special Overcoat Sale

We purchased 138 extra fine men and boys' sample overcoats. These garments were made especially for the manufacturer's show room. No custom tailor can produce anything finer or more stylish work on overcoats like these for less than from $15.00 to $35.00. They consist of the very best kersey, melton and patent beavers, plaid-backed coverts and whipcords. This entire sample lot was made up for this season's trade by one of the best clothing manufacturers in the United States.

There are not more than two or three of a kind, but on account of having such a large lot we are able to fit any man between the sizes 34 and 44. Here are the prices that we are going to sell them at.

LOT No. 1 consists of heavy weight beavers and covert cloths, lined with the best plaid worsted, satin yoke and velvet collars, wholesale price $8.00, 10.00 and 12.00. This lot to go at your choice, $4.75

LOT No. 2 consists of 40 extra fine men's overcoats, made and trimmed in the latest fashion, in black or blue meltons, kerseys and beavers, lined with first-class all-wool clay diagonal worsted, satin piped and French facing. These overcoats were actually sold at wholesale from $12.00 to 16.00. Your choice at $5.75

LOT No. 3 consists of 30 very handsome overcoats, cut in the short box style, full backs, satin lined, an overcoat that is good enough for a banker's son, wholesale price from $14.00 to 21.00, to close out this lot at $6.75

LOT No. 4. This lot will include the very best overcoats of this entire lot, and are the handsomest lot of overcoats ever shown in Plainfield, are lined with pure silk lining, have silk velvet and hand-made collars. Over 14 different styles of meltons, kerseys, coverts and patent beavers that sold at wholesale from $18.00 to 28.00. Price for this sale, $8.75

Customers from Dunellen, Lincoln, Bound Brook, Somerville and New Brunswick will have their car fare paid by buying a reasonable amount of clothing.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Daily Press.)

Dunellen, Nov. 8.—Nothing but routine business was transacted by the Common Council on Monday evening. Many bills were ordered paid. The Committee with relation to matters pertaining to the Brunswick Traction Company reported progress. The Council has not yet decided to accept the waterworks.

Two scrub football teams, captained by Abner Coriell, Jr., and Rudolph Fisher, lined up on the Lincoln field yesterday morning. Coriell's team was victorious by a score of 16 to 6.

The Board of Education did not meet last night as had been expected owing to yesterday being a legal holiday. The board will meet next Tuesday evening.

SCOTCH PLAINS AND FANWOOD.

(Special Correspondence of The Press.)

Scotch Plains, Nov 8.—The Republicans of Fanwood borough more than held their own in the election yesterday as the entire ticket was elected by a majority of 32 for Cross, 38 for Houston, 52 for Howard and the entire Assembly nominations by 32. The total number of votes cast was 72 out of a registry of 96.

Harry Flannery while at work at the Albumum Press work on Monday, caught his hand in a piece of machinery, badly lacerating it. It will be some time before he will have much use of this member.

The local football team met and defeated the Dunellen eleven yesterday afternoon on the gridiron in the rear of the school. The playing of the home team was all that could be desired.

Westfield avenue is being rolled and cleaned up by the trolley people preparatory to opening the extension to the Westfield line.

Miss Anna Parse of Springfield, has been spending a few days with her aunt and uncle, Mr. and Mrs. Stites M. Parse.

Ernest Clark and family have taken possession of the Hollingsworth cottage on Front street.

Mrs. Adelaide West, of Newark, was the guest of friends in the village yesterday.

George Allen is entertaining his friend, Wm. Bullman, of Brooklyn.

Richard Robison has been enjoying a few days vacation from business.

CRANFORD MUST PAY $500.

John G. Cook Won in His Action to Collect Money for Furnishing Stone.

The action of John G. Cook, of this city, vs. the township of Cranford, was tried Monday, before Judge Vail and a jury in the Court of Common Pleas at Elizabeth. This was an action in which the plaintiff sought to recover a sum of money for the sale of a quantity of cracked stone which he claimed to have furnished to the township of Cranford for use on the highway. It appears, however, that the town had sub-let the contract to one David Bowden, and the defendants maintained that the plaintiff should look to Bowden for his pay. The plaintiff, on the other hand, claimed to have made a contract with the township to furnish all the stone used for highway purposes in 1898, and had nothing to do with Bowden. The jury appeared to take the same view and returned a verdict of $550 for the plaintiff. Messrs. Coddington & Swackhamer represented the plaintiff, and Paul T. Oliver, of Elizabeth, the plaintiffs. Former Judge Coddington made the plea to the jury in his usual masterly manner.

Farm Property for Sale.

The effects of the late E. A. Campbell are advertised for sale at the club house, Park avenue, adjoining the race track, at 10 o'clock a. m., next week, Wednesday, Nov. 15. The entire contents of the barn and yard, consisting of eleven horses, carriages, wagons, harnesses, farming utensils, etc. Besides the above, the well-known trotting horse "Prince Edward" will be offered for sale. See advertisement in another column of the Daily Press.

—Tomorrow Bonn, of Front street, will display fifty "Tam" crown velvet hats, prettily trimmed with fancy wings, ribbons, velvet and ornaments, black and colors, at the low price of $2.98.

THE AMUSEMENT WORLD

CURRENT ATTRACTIONS THAT PLAINFIELDERS MAY WITNESS.

Local and Metropolitan Performances That Will Please Those Who Delight in the Art of Thespis and Mimic World.

"The Sidewalks of New York," a sensational melodrama by Scott Marble, will be presented here for the first time at Music Hall, Saturday night. It is full to the brim, of pistols, razors, love, crime and vengeance; relieved of course, by specialties and broad comedy features. This successful melodrama is founded upon startling and realistic scenes of life in the great metropolis. There is plenty to stir the sluggish blood in the startling scenes of violence and crime, and in the laughable comedy specialties. Paul J. (Splash) Tustin, a champion high diver, is seen in the play making a tremendous dive from the top of an old shot tower to a tank, fifty feet below, rescuing the heroine from drowning in the nick of time. All the scenery is from the brush of that master hand, John H Young, including views of Sixth avenue, Broadway, Herald Square and the Herald building.

* * * * *

The new musical novelty which Manager Maze Edwards will present at Music Hall, Monday evening the 13th, embraces a company of American and oriental players. In the company will be Kate Davis, Irene Vera, Fred Frear, Claude Amsden, Frank Wooley, Chas. Campbell, Orpha Thaylor, and a host of others, together with a lyric ensemble of twenty picked voices, also a native coterie of actors direct from the Celestial Empire, by permission of the Emperor.

GOOD WORK IN SCHOOLS.

INTERESTING REPORT MADE BY SUPERINTENDENT H. M. MAXSON.

Largest Attendance at High School on Record—Satisfactory Spirit in Schools—Parents' Meeting Held—Honors Won.

At the meeting of the Board of Education Monday evening, Superintendent H. M. Maxson presented a very interesting report concerning the progress made in the schools during the fall. His report was as follows:

To the Honorable Board of Education:

Gentlemen—There are several matters of sufficient interest for me to make a report of them to the Board.

The enrollment of the High School this term is the largest in its history, being nearly one hundred and eighty. This is about forty more than last year. All the seats in all the study rooms are now occupied, and new comers have to be assigned seats in the recitation rooms until some seats become vacant. The scholarship of the entering class, and also of the school as a whole, is much better than in previous years, and the spirit in which the school has started out is especially satisfactory.

This is true, indeed, of the schools generally; they have opened very happily, and the work has been taken up with more than usual satisfaction, in spite of considerable increase in numbers. Part of this improvement is due to our beginning the fall term one week later, which resulted in more prompt attendance at the beginning. Part of it is due the increased efficiency in teaching and managements all along the line.

Parents from other cities where there are good schools, who have brought their children to our schools on moving here, have been pleased to speak in strong terms of approbation of the thoroughness of our teaching, and of the way in which the child is studied and taught as an individual, not simply as part of a mass, as in the schools they have known.

Word received from Union College brings the information that Henry Pearce, one of our graduates who entered there this fall, has been awarded the $200 scholarship, which is the highest prize for excellence in entrance examinations. He is the third of our graduates to be awarded such a prize within a few years.

During the month I have held a parents' meeting in the Stilman building in conjunction with the teachers of the High School, with the aim of bringing about a closer acquaintance, a better understanding, and a cordial co-operation between teachers and parents. There was a good attendance of the parents and the meeting was very enjoyable and satisfactory, many of the parents expressing hearty approval of the plan. It is my purpose from time to time to hold similar meetings in the other schools, since I believe that the closer the bond between teacher and parent, the better the work our schools can do. Respectfully submitted,

H. M. Maxson,
Supt. of Schools.

NO CAUSE FOR ACTION.

Fred W. Hand Will Not Have to Pay the Claim Made by Cold Storage Company

Among the cases which occupied the attention of the Court of Common Pleas at Elizabeth Monday was the action of the Plainfield Ice and Cold Storage Company against Fred W. Hand of this city. The action has twice been tried in justice court. Upon the first trial the jury disagreed and at the second trial the jury found for the plaintiffs. The case was then appealed by the defendant and taken to the higher court. In 1897 the defendant, who was in the ice business in this city, sold out to the plaintiffs but reserved two customers from whom he afterwards collected for ice and delivered. The plaintiffs maintained that he sold to them the entire business and by collecting money he did so wrongfully. The plaintiffs therefore began action in tort, claiming that the defendant had misappropriated money belonging to them.

The case was tried before Judge Vail and a jury. Isaac P. Runyon, who represented the plaintiffs, had associated with him W S. Angleman, The defendant's interests were looked after by S. S. Swackhamer of the firm of Coddington & Swackhamer. The case was tried with considerable vigor on both sides. Mr. Swackhamer's summing up was one of the able efforts of that well known lawyer's ability. After being out a short time the jury brought in a verdict of no cause for action.

PARTICULAR MENTION.

Mrs. W. C. Coddington, of Newark, has been visiting relatives in this city.

Mrs. Ira Gramley, of Kaneville, Kane county, Illinois, is visiting Plainfield relatives and friends for a few weeks.

Miss Edith Cairns, of West Fifth street, has returned from Philadelphia, where she has been spending a few days with friends.

Mrs. T. H. Tomlinson, of LaGrande avenue, has returned from Seattle, Wash., where she was a delegate to the National convention of the W. C. T. U

For Benefit of Drinking Fountain.

Next Saturday afternoon and evening there will be a fair and sale at the W. C. T. U rooms under the auspices of the Loyal Temperance Legion for the benefit of the public drinking fountain which will be erected in the near future. The Plainfield Water Supply Company has agreed to furnish water for the fountain free, and they have also agreed to donate $50 toward the fountain.

To Cure a Cold in One Day.

HOW THE CROWD TOOK IT

WATCHING THE ELECTION RETURNS LAST NIGHT.

Streets Filled With People Anxious to Hear the Results, But There Was No Excitement — Serenaded Senator Reed.

The election yesterday in this city passed away very quietly. There was not the least disturbance at any of the polling places. In some districts the vote was lighter than usual, due in a measure to the apathy of the Republicans, many of whom were disgruntled at various phases of the local campaign.

The returns at night came in rather slowly. They were read with much interest by a large crowd about the office of The Daily Press, where a canvass had been stretched upon which the returns were thrown.

While the crowds watched the returns the small boy was considerably in evidence. He filled the air with the blast of hundreds of tin horns, which he blew with strong lungs that only a good American youth possesses. It was not only the small boy who was in evidence, but many older boys were also abroad and they organized small sized parades, which marched up and down Front street and North avenue in gangs.

The crowds about the bulletins were anything but demonstrative. But little interest was apparent, however

The bulletins were much appreciated by the people and for nearly three hours the crowd stood about. The fact that the usual Republican majority was cut somewhat greatly pleased the Democrats and caused chagrin to appear upon the faces of their Republican friends.

Returns were received at the Republican headquarters, the club rooms about the city and at the hotels. There was not much excitement owing perhaps to the fact that the returns came in very slowly.

It was not until about 10:30 o'clock, when the election of Senator Charles A. Reed appeared to be a certainity that the Republicans woke up. Then the Senator was looked up and he accompanied several hundred of his friends on a short parade. Some one suggested that a band would be the proper thing. The Senator's friends hustled about and securing a drum corps paraded the streets with the newly elected Senator at the head. Paraders marched over the brook and about the streets of this city.

A small transparency, carried on a scrubbing brush, attracted considerable attention. It contained the significant inscription, "Reed Birds." Along the line of march the Senator was repeatedly cheered and as the parade passed through the streets of the city and North Plainfield the paraders numbers grew as rapidly as a snowball. When the procession reached The Daily Press office on North avenue and came opposite the stereopticon, where the returns were being shown, the paraders noticed the handsome features of the popular Senator which had been thrown up in courtesy to the gentleman. Instantly there was a shout. Hats went up and the cheers that followed were heard to echo against the Watchung Mountains. The Senator bowed his acknowledgments. Finally the Senator saw an opportunity to elude the gang and he made his escape by entering the Kensington Hotel, where he held levee till early this morning.

Brave Men Fall

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache, and tired, listless, run-down feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: "Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me new strength and good appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50 cents, at L. W. Randolph's Drug Store. Every bottle guaranteed.

A Golden Wedding.

The golden wedding anniversary of Mr. and Mrs. Randolph Dunham, of Madison avenue, is being celebrated today. The affair is simply an informal one, no invitations having been issued.

Wien. Das „Post- und Telegraphen-Verordnungsblatt" verlautbart, daß der Postanweisungsverkehr zwischen unserer Monarchie und Montenegro eingestellt worden ist. Die österreichisch-ungarische Postverwaltung sieht sich offenbar zu diesem Schritte veranlaßt, weil die Abrechnung seitens Montenegros Einiges zu wünschen übrig läßt. Der sonstige postalische und telegraphische Verkehr mit Montenegro erleidet keine Störung oder Unterbrechung.—Die Wiener Volkssänger veranstalten am 24. November anläßlich des 100. Geburtstages des Volkssängers Johann Baptist Moser eine Säkularfeier.—Die österreichische Regierung hat angeordnet, daß Anwerbungen für das Transvaal verhindert werden sollen.—Der Sozialist Ernst Berner (Olmütz) interpellirte die Regierung, welche Schritte sie gegenüber den tschechischen Exzessen ergreifen wolle. Bei demselben seien bis jetzt schon elf Personen getödtet worden. Vom Regierungstisch erfolgte keine Antwort.

Graz. Für das hiesige Goethe-Denkmal erhielt die „Tagespost" von Universitätsprofessor Schuchardt einen Beitrag von 10 Gulden mit folgender Zuschrift: „Sehr geehrte Redaktion! Da mein Vater einmal bei Goethe gespeist, aber keine Gelegenheit gehabt hat, sich zu revanchiren, so erlaube ich mir, hiermit eine Kleinigkeit zum Grazer Goethe-Denkmal zu übermitteln. Hochachtungsvollst Dr. Hugo Schuchardt."

Innsbruck. Hier, wo bereits ein deutsches Konsulat besteht und auch Großbritannien und Amerika Konsulate beziehungsweise Konsularagenturen besitzen, ist nun auch die Errichtung einer Konsularvertretung für Frankreich in naher Aussicht. Die Vorbereitungen hierzu sind bereits im Gang.

Lemberg. Einer der ältesten polnischen Schriftsteller und Journalisten, Theophil Szumski, hat sich hier erschossen. Der etwa 60 Jahre alte Mann, der sich großen Ansehens erfreute, wurde durch seine Nothlage in den Tod getrieben. Großes Aufsehen erregte vor einiger Zeit die Verurtheilung seines Schwiegersohnes Hendrygery wegen Spionage zu zehn Jahren schweren Kerkers.

Liesing. Hier wurde die noch junge Frau eines Arbeiters, Mutter von fünf Kindern, neuerdings von Drillingen entbunden.

Lipto-Szmrecsan. Der greise Landwirth Johann Briadka erschlug seinen 28jährigen Sohn, welcher die Mutter mißhandelte und den Vater mit einer Axt angriff, mit einer Wagendeichsel.

Prerau. Dieser Tage wurde unter den Grundbuchsakten der Stadt das langgesuchte Testament des berühmten Pädagogen Johann Amos Comenius aufgefunden. Comenius, der 1670 gestorben ist, war durch mehrere Jahre Rektor der damals berühmten lateinischen Schule der böhmisch-mährischen Brüder zu Prerau.

For sale by all druggists. L. W. Randolph, Wholesale Agent.

TRIMMINGS.

Fringe of All Varieties Takes a Foremost Place.

Fringe has been already mentioned as a trimming which is rapidly pushing its way to the very front and is to be a prominent feature in winter costumes. Many varieties are now seen, the more elaborate kinds being deeply knotted in points or scallops, these irregularities being frequently followed by the ends of the fringe also. This wide fringe is usually so arranged as to fall over wide flounces or plaitings, although sometimes it is sewed flat upon the goods.

There are also very narrow "Tom Thumb" fringes, something like those which used to be used for edging Christmas cards. These are employed to bor-

PRINCESS TOILET.

der ruffles, yokes and scarfs, and a plastron or skirt panel is sometimes entirely covered with them, set so closely that the heading does not show.

The role played by trimmings this winter is extremely important. The form of the gown is unchanged, and as it has been reduced to the simplest denomination it is only by a variety of decorations that diversity of effect can be secured; hence there has seldom been a season when devices for ornamentation were so plentiful.

The princess costume depicted is of pearl gray satin cloth. At the middle of the skirt is a wide, pointed band of emerald green velvet, bordered by flat folds of pearl gray satin. The short bolero of emerald velvet is bordered with gray satin folds and is closed at the side by three velvet buttons. The velvet sleeves have cuffs of gray satin folds, and the plaited collar is of velvet. The hat of emerald velvet is trimmed with spangled ornaments and black feathers.

JUDIC CHOLLET.

HOUSEHOLD FASHIONS.

Attractive Decorations For the Dining Table.

The newest way of decorating the dining table is to place in front of each guest a little basket, made of silver, crystal or china, filled with flowers. The middle of the table is occupied by a mirror with delicate silver trimmings, and plates of bonbons encircled by garlands of flowers are arranged on the mirror. This method of decoration does not obstruct the communication of the guests, as does any tall or clumsy system of ornamentation

Fruits and flowers are now frequently mingled in table decorations. In select-

MORNING JACKET.

ing flowers for the table care should be taken to avoid all those having a strong scent, like the narcissus, tuberose, jasmine and hyacinth, as many persons are made ill by such odors. Scentless flowers, like the camellia, tulip, crocus or jonquil, are preferable, although roses and violets seldom cause annoyance. The smell of the chrysanthemum is usually quite inoffensive, and it is an extremely decorative flower. Ornamental foliage, green and colored, may also be used alone with excellent effect.

The cut shows a breakfast jacket of printed cashmere. It is loose in front and closes at the side with choux of velvet held by a jeweled button. At the back it is shirred in at the waist. The wide collar and revers are of plain silk, and the entire garment is edged with double ruffles of lace bordered by narrowest velvet and headed also by bands of the same decoration.

JUDIC CHOLLET.

IRISH MOHAMMEDAN.

HENRY MOORE, ARRESTED AS A VAGRANT, TELLS A QUEER STORY.

Became a Dervish and Traveled for Years Through India, Persia and Afghanistan—Exalted to the Position of Mualum Makahsus.

There is a living curiosity at the City Prison in the person of Henry Moore, a self-styled Irish Mohammedan, who tells a story of his adventures in Oriental lands scarcely less wonderful than any "Arabian Nights" tale. Moore was arrested Sunday night on Montgomery street for begging, and appeared yesterday in Police Judge Mogan's court to answer to a charge of vagrancy. He is 74 years of age and wears overalls, a frayed and faded coat of broadcloth and a silk hat, also much the worse for wear.

In 1862, according to his narrative, Moore left County Clare, Ireland, and settled with his parents in Maine. He migrated to this State in 1849, cleaned up some dust, and three years later took ship for Australia, where he mined in the Forest Creek diggings, eighty miles out of Melbourne. After a stay of four and a half years Moore set out for a trip around the world, going by way of Ceylon to India. He had £25,000 to his credit then.

Arriving in Hindostan, Moore says, a spirit of adventure prompted him to join the Mohammedan faith and become a dervish. In this guise he wandered all over India, made his way into Afghanistan through the Khyber Pass, and finally visited Teheran, Persia. The journey consumed several years, during which time Moore learned the languages of the lands through which he had passed and familiarized himself with the duties and manners of a dervish. After a short stay in Teheran adventures as well as good fortune were fairly poured upon the Celtic follower of Mohammed.

Being the only European dervish ever seen in the kingdom of the Shah, Moore's fame soon reached the royal palace. He was sent for by the favorite wife of the Persian ruler, who talked with him and then recommended to the Shah that he be engaged as Mualum Makahsus, or chief tutor to the royal family. This exalted job, Henry Moore says, he held for a period of five years. He was also given the title of Sertib, or Colonel, in the Persian army, and other favors were heaped upon him by the Shah.

One day, upon finding that the young Princess could read and write English, the Shah gave Sertib Moore an order on his Minister, instructing that officer to confer upon the white man an estate and a pension for life. The Minister refused to give him either estate or pension, and Moore told one of his royal pupils about his reception, whereupon the young Prince told his father. The haughty Minister, Moore declares, was packed off at once to a remote part of Persia under sealed orders to drink hemlock when he reached his destination.

Enemies then sprang up about Moore, seeking his life, he says. He obtained permission to go on a pilgrimage to Mecca as a substitute for the Shah, and having converted his wealth into £38,000 worth of diamonds, he set out on the trip, intending never to return to Teheran. From Mecca he made his way back to the United States in 1882, and soon lost most of his money in Rocky Mountain mining. Then he tried Australia again, met with more bad luck, and turned up here a year ago, old and with but little cash. He has none now. Moore seems to believe his own story.—San Francisco Chronicle.

How to Wear Whiskers.

"The first thing a young man should do in starting out in life," said an old timer, oracularly, "is to decide how he wants to wear his whiskers. Then he can choose his vocation accordingly. The matter may be reduced to an exact science," he continued, "taking the mustache as a basis. A mustache is essentially romantic and convival, and is important to any calling in which good fellowship cuts a figure. If very heavy and drooping it lends an air of sagacity to its owner. I knew a railroad manager whose mustache draws $20,000 a year; he never does anything himself, and an idea would kill him dead.

"The addition of side whiskers tempers the mustache with a solid suggestion of business acumen, and if gray and well kept proclaim their wearer an old-school gentleman whose palate may be trusted on the question of vintages. A mustache and imperial are ensigns of determination and are valuable for lawyers and doctors. They inspire confidence. Up to middle age small side-whiskers of the mutton-chop brand are chiefly useful as indicating seriousness of purpose.

"When they begin to whiten they are indispensable to financial magnates of the first class—symbols, so to speak, of austerity and haughty reserve. The theory might be expanded indefinitely, but I am sure you catch its drift. I ought to add, by the way, that long chin whiskers are an excellent stimulant to thought. A friend of mine has an immensely long goatee, without which he would be as helpless as a babe.

"Ordinarily his brain is in a state of complete repose, and when asked a question he responds with a fishy stare. Then his hand steals slowly up to his goatee and he gives it a slight tug. That tug releases some sort of a catch in his mental machinery, and it proceeds to grind out one think, whereupon he immediately gives you an intelligent answer. If his chin whiskers were shaved off he would be reduced to a condition approaching coma."—New Orleans Times-Democrat.

An Extreme Limit.

Two shop girls were overheard talking together several days ago.

"Say, did you know Mame was setting up for an invalid?" inquired the girl with the long feather in her sailor hat.

"Is she?" queried the other girl. "She looks well enough."

"That's what I think. And she sleeps well, too."

"Can she eat?"

"Eat!" cried the other girl. "I should say she could eat! Why, at lunch today she got away with 24 cents' worth!"

And then their voices died away.

IN WAR AND IN PEACE

RECORD OF WILLIAM ROSE, COLORED, OF SOUTH CAROLINA.

Served in the Seminole, Mexican and Civil Wars—Long Employed as Governor's Messenger—Knew a Great Many Prominent Southerners.

William Rose, messenger to the Governor of South Carolina, has a record that stands alone among the millions of his race. Now aged and bent, he is kept in a position of honor and profit, a reward for long years of faithful service in war and peace. Dignified, but respectful to a degree, this old fellow, who sits in an armchair by the door of the Governor's office, receives a hearty salutation from all who enter. His name and history are known to many, while his face is familiar to those who have frequented the State House at any time during the last twenty-three years.

great political revolution of 1890 there was only one person the sweeping tide held sacred, and that was William Rose. Yet he was an aristocrat of the bluest kind, and did not change his coat. Two years later when the Legislature put the knife into salaries, not one man offered to cut

WILLIAM ROSE.

the pay of the Governor's messenger, although it would have been practicable to have had the office filled for half the money.

For more than twenty years Rose has been "orderly" in the Richland Volunteer Rifle Company, one of the oldest companies in the State, having been organized in 1813. He had been a member of the company in the capacity of musician since 1834. As orderly he wears non-commissioned officer's stripes, carries a sword, and marches in the file-closers—the only white organization in the country. Rose attends all company meetings, and votes on all questions. Annually the members shoot for the "Rose medal," presented the company by the old negro, while he is proud of walking with a heavy, gold-headed cane, suitably engraved, presented him by the white comrades.

Recollections of Lafayette.

William Rose was a slave of a Charlestonian, who hired out the few men he owned and William was allowed to choose his own masters in that he got the men he liked to hire him. He does not know how old he is, and never has mastered the art of reading. The first event of great importance to impress him was the visit of Lafayette to South Carolina in 1825. William was then, he says, between fifteen and twenty years old—an apprentice at the carpenter's trade in Columbia. The Light Dragoons from Charleston went to the North Carolina State line, where General Lafayette was met and escorted to Columbia. The old man's memory is remarkably good, and he gives accurate information about many details incident to the reception of the distinguished Frenchman seventy-four years ago. Troops were gathered in Columbia, he says, from all parts of the State, and were encamped to the east of the city. When notice of the general's approach was received, Gov. Richard I. Manning, Col. Wade Hampton, father of the present General Hampton and Governor Manning's staff rode out to meet the party. The troops were drawn up and saluted as the distinguished visitor drove down their lines. Lafayette's carriage was drawn by four cream horses. The party then entered Columbia and General Lafayette was taken to the house on Gervais street, which is now occupied by Bishop Capers, of the Episcopal diocese of South Carolina.

Seminole and Mexican Wars.

In 1834 Rose went into the Richland Volunteer Rifle Company as drummer, and on July 11, 1836, embarked with the company at Granby, two miles below Charleston, for Florida, to fight the Seminoles. There were no railroads and no steamers and the trip was a tiresome one. The James Boatwright was the name of the flat-bottom craft in which they floated down the Congaree. Finally reaching Charleston, where they re-embarked in a larger vessel, and sailed for Savannah. Columbia at that time was a village of 2,000 inhabitants, but there was plenty of enthusiasm, the company marching away from the old town hall shared by all the people assembled.

From Savannah the company proceeded by water to St. Augustine, a little village, where they remained in barracks for three months. The Seminoles kept in the hammocks. The men were fed on shipboard by contract and fared well. Uncle William says. There were no complaints of bad beef, and but one casualty—man fell overboard.

The Richland Volunteer Rifle Company was one of the star companies that composed the Palmetto Regiment, which played so important a part in the Mexican war. William Rose went along as drummer and also as body-servant of Capt. Pierce Butler, afterward Colonel. While he was there and saw it all, the Spanish language and Mexican names were confusing to William He can tell how the enemy was fought and whipped and how the cannon roared and the smoke settled over the land, but the names of the battles are unknown to him.

Civil War and Reconstruction.

Life passed peacefully for William until the guns opened on Ft. Sumter. Then he went from Columbia to Charleston by the next train and offered his services to Gen. Maxcey Gregg, as body-servant. They were accepted and General Gregg made arrangements with William's master for his absence. The old negro was at Manassas and other battles, and was near General Gregg at Fredericksburg when he was mortally wounded. As he was dying on the battlefield, the general presented his faithful servant with his handsome watch, which is now proudly worn, and gave the last messages to his family. William brought the body of his commander back from the battlefield in Virginia to Columbia—a most difficult feat in those days.

William expects to see several more inaugurations. His mother, he says, died at the age of 111 years and he feels able to equal that record. The old man's house is decorated on the interior with pictures of many distinguished South Carolinians whom he has served or known, and with relics and souvenirs of value. His acquaintance has been remarkably large and varied, and there are few Southern statesmen and soldiers he has not seen. Since he has been messenger he has served under 11 Governors—Hampton, Simpson, Jeter, Hapgood, Thompson, Sheppard, Richardson Tillman, Evans, Ellerbe and McSweeney—three of them having been twice elected.

FIRST SHOT AT MANILA.

It Was Fired by Peter Lauterrette, Chief Olympia Gunner.

Peter Lauturette of Waterloo, N. Y., tells of the first shot at Manila thus:

"Under Admiral, then Commodore Dewey's order, I fired the first shot. Then we gave 'em the port battery, came around and fired the starboard battery, and repeated the manoeuvre five times. I distinctly remember, before we had turned around the second time, the Spanish Admiral came out in the Reina Cristina to give us battle. Say, he did look ferocious and gallant. He stood on the bridge of the Reina Cristina. I could see him as plain as daylight, and made out that he was urging his men to fight. I aimed one of our guns for the bridge as we came about, and just as the old Admiral lifted his cap and waved it I let her go. The shot struck the bridge and knocked it to smithereens. Then we turned again, and that was the last I saw of the old admiral. They say he came out alive, but how he did it has always been a mystery to me. Later—not very long after, for the battle was fought, it seems to me, almost as quick as I can tell it—an eight-inch shell, I have since heard from the Boston, struck the stern of the old admiral's ship and set the Reina Cristina on fire.

"You know the story of the rest: how we sunk the Spanish ships and destroyed the defences. I guess there's only one more thing I know more about than anybody else, perhaps, and that is the moment when the torpedo launches from Cavite attempted to run us down. I tell you they were the most precarious moments of the fight. I didn't see a man flinch at his post, although one poor devil bowed his head in prayer as the launches neared us. For some time every effort to hit these little hornets with the shells from our big guns failed. I myself let fly a many as a dozen shots at 'em.

"The boats came within five hundred yards of the Olympia, I should say. Then by order of the Commodore our secondary batteries sent in a perfect hail of 6-pound shells, smashing up the leading boat, killing all on board and driving the second launch back on the beach with twelve shot holes through her.

"The order for breakfast? Well I shouldn't care to say the order wasn't altogether for that. Anyhow we hauled off and had breakfast right after we sunk the torpedo boats. Of course a consultation was had by the officers. At about eleven o'clock we steamed in, headed by the Baltimore and destroyed what little was left of the batteries. A few minutes past high noon the Spanish colors went down."

Dumb Heroes.

Having reached the firing line, many officers left their horses tied to the brush on the sands of San Juan River, says Frederick Remington, in Harper's Weekly. Baggage and gun mules were turned loose, and stood stupidly about. There was a constant tweet of bullets coming through the trees from the Spanish position. One horse caught three almost in a bunch; another passed through him, and he lay down on his side, panting desperately. A big gun-mule lay on his side gasping, and another horse sat down like a dog, giving every evidence of great pain. A ball cut the skin on a mule's knee, but he only stamped the leg as though to get rid of a troublesome fly. Why do not horses die for their country? They do not have a previous intention of so doing—the act is not voluntary. Well, possibly. Neither does a conscript die voluntarily, or a man put war stamps on checks voluntarily, but its for the country, just the same.

TIPS A SERIOUS EVIL

EFFORTS IN ENGLAND TO ABOLISH SECRET MISSIONS.

All Branches of Trade and the Learned Professions as Well Reported to Have Been Scandalized by Revelations—An Intolerable Infliction.

Evidence multiplies daily of the seriousness of the evil which it is now sought to combat by legislation in the shape of a bill, penalizing the giving or accepting of secret commissions. Not only all branches of trade, but the learned professions as well, have been scandalized by the revelations of the past few days. It is, however, one of those evils which are based upon defective moral sense and are so universal that the difficulties of coping with them by legislation are almost insuperable. Lord Russell of Killowen, has introduced in the House of Lords his bill making it a criminal offense to give or receive secret commissions. The offense is classed as a misdeameanor, with a maximum punishment of two years at hard labor. The most interesting part of Lord Russell's speech was that devoted to recalling the various shifts resorted to in covering secret commissions which he had met in his experience as commercial lawyer and judge.

A number of witnesses drew attention to the prevalence of bribery in the case of buyers for large houses and co-operative companies; also in the calico trade, the publishing trade and the printing trade. Lord Russell said he had a letter from the representative of a large firm of dealers in ink, color and varnishes, who said that the managers of a certain newspaper in the provinces allowed their machine overseer to order inks, with the result that his firm had to pay this man 3s per drum so as to get the orders. When the price fell so as to make that commission too heavy the overseer suggested that they should send smaller drums, as the drums were not weighed on delivery. Another machine overseer, who was leaving one place to go to another, demanded £2 from his firm, otherwise he would not recommend their inks at his new place.

In another case a foreman levied a commission of one penny a pound, or about 25 per cent., on the ink supplied by the firm. From this man a communication was received to the effect that he would not be able to use as much ink as formerly, because a gas engine had been put in in place of a boiler, and there was no furnace in which he could get rid of the ink. The writer of this letter added that the acceptance of ink or machinery depended, except in cases where men looked after their own business, not upon the excellence of the things nor their price, but upon the amount of the bribes that were given. He had in his possession original demands from overseers for Christmas boxes which were to be sent to them privately, and in some of these cases sums amounting to £25 had been paid. The report also stated that the practice prevailed in the brewing trade, bribes being given to butlers, major domos, coachmen, game-keepers and even gardeners.

A case had come before the courts in which a company had been formed for the sale, in part, of some kind of medicated wine in which it was shown that founders' shares were distributed among doctors upon the terms that the doctors were to puff the wines.

Lord Russell quoted from the last report of the committee of the London Chamber of Commerce appointed to inquire as to the extent of secret commissions. The committee found it proved that engineers received fees or payments from builders. It was also proved that chemists paid doctors commissions of 25 or even 50 per cent. on the prices charged for medicine supplied by prescriptions to patients; that doctors handed to the sorrowing widow an undertaker's card and received a percentage of 10 to 20 per cent. on the funeral charges, though he should be sorry to believe that these practices were general among medical men.

Then the report went on to give illustrations relating to the cutlery trade, in which it was stated this mischievous practice had done a great deal of harm. The system of levying blackmail went right through some houses to the boy who took in the manufacturer's card to the buyer, and civility and attention had to be paid for by the unfortunate traveler. One witness said he had lost scores of orders through refusing to bribe

It can not be said that the prospects of Lord Russell's bills passing this session or next are particularly bright. The Lord Chancellor pointed out that a previous bill collapsed because it appeared that a gentleman who gave a porter a sixpence on a railway platform rendered himself liable to two years' imprisonment. It was a secret commission, because it was a bribe to the company's servant to do something for a third party. Possibly an act may bring the more flagrant cases inside the criminal law, and the whole system be discouraged by publicity, as it is in the secrecy that the vice lies.

Mrs. Victoria Woodhull Martin, an an American woman long resident in England, gives her experience of the effect of secret commissions on domestic arrangements. She mentions the case of a woman who had reason to be dissatisfied with her chef, and engaged a country girl for the post. For some weeks after the girl was mistress of the kitchen the account books kept a reasonable level. Then they gradually increased, until the employer felt herself compelled to point out the steady swelling of the figures. The girl burst into tears and told her story of how the butcher's boy and the grocer's boy and all the tradesmen's boys, one after another, made it plain that something terrible would happen unless she provided their usual commission. Her fellow servants worried and bullied her for their perquisites, and eventually she had to give way in every direction. Of course, in every case the payments were extortions from the employer's pocket, taken without her knowledge and for no services to her.—London Correspondent New York Sun.

Do You

Like to buy goods for what they are worth and pay for what you get?

OUR PRICES are based on the market and are exactly the same to all purchasers for the same goods and the same service.

We do not make special prices at cost to get the "Other Fellow's" customers and charge our own customers enough extra to make up, but if you give us an order you can feel that you are paying the same as several thousand other good buyers.

OUR GOODS are the regular standard grades of officially inspected stock. They are bought by our men in the West, handled through our own Mill and Elevator, and our customers not only save all middlemen's profits but get Grain that is absolutely clean, and Feeds that are made on the premises and are KNOWN to be pure.

THE PAUL T. NORTON CO.

Everything for Horses, Cattle and Poultry.

Elizabeth, Elizabethport, Red Bank, Plainfield, Somerville.

SPORTING.

ON THE GRIDIRON.

Last year saw quite a delegation of Plainfielders journey to Princeton to witness the annual meeting of Yale and Princeton on Brokaw Field. This year, as the game is to be played at New Haven, there will be a comparatively small attendance from this city. The wonderful showing made by the Carlisle Indians this year and the fact that they will meet Princeton on Manhattan Field, New York, Saturday afternoon, will see quite a number of the local enthusiasts there instead.

The football season is nearly half gone and has been to Plainfield a remarkably successful one. During the past few years, the Plainfield A. A. has furnished more or less sport but the management had trouble in keeping the players together and were therefore unable to play every week. This year the Alis boys have made a good showing. They have played every Saturday afternoon, and generally at home, and have given their patrons a first-class article. The boys have played at Martine Common, through the courtesy of James E. Martine, and have managed the business themselves. They have provided proper police protection to keep the crowd within bounds and have been very successful in all their games. The management should be complimented on their success. They should have the support of every lover of the game in Plainfield. It is to be hoped that they conduct the remainder of the season in such a successful manner as they have the first part.

GOLF

Last evening a large dinner party was given at the Hillside Tennis and Golf Club.

W. M. Miner, one of Plainfield's mast enthusiastic amateur photographers, visited the links of the Park Golf Club Saturday and secured a handsome collection of photographs of the grounds and principal players.

In Saturday evening's issue of the Commercial Advertiser there was a photograph of W. Lester Glenney in the act of driving off. Glenny is a member of the Hillside Tennis and Golf Club of this city where he is considered one of the best players. He won a place on the golf team of Columbia College and it was as a member of that team this illustration was printed.

The Hillside Tennis and Golf Club grounds presented a lively appearance yesterday when a large number of enthusiasts were present. The event of the day was the first round and semi-final play for the Chapman cup. There were eight contestants who qualified on Saturday. In the first round A. R. Fisk beat Frank Schoonmaker 8 up and 7 to go; C. W. Fisk beat Owen Fleming 7 up and 6 to go; J. W. Baker beat P. W. Mason 5 up and 3 to go; Lester Glenney beat T. R. VanBoskerck 2 up and 1 to go. In the afternoon the semi-finals were played, when A. R. Fisk defeated C. W. Fisk and Lester Glenney defeated J. W. Baker. The former two were obliged to play twenty holes as they were even up on the eighteenth and nineteenth holes. On the last hole A. R. Fisk beat his brother 1 up. Glenney beat Baker 1 up, and the finals between A. R. Fisk and Lester Glenney will be played off next Saturday.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, Bronchitis, Hoarseness and all diseases of the Throat, Chest and Lungs are surely cured by it. Call on L. W. Randolph, Druggist, and get a free trial bottle. Regular size 50c. and $1. Every bottle guaranteed, or price refunded.

In a Nutshell:

Regular collections; intelligent washing; careful ironing, prompt deliveries. This makes a good laundry. People who have known us as dyers for thirty years back may not realize that we are doing the largest laundry business in New Jersey. Send us your bundle for a trail.

HILLIER & CO.,

129 West Front Street,

Opposite Crosby & Hill's. 'Phone 851.

EARLY INTELLIGENCE.

—On account of yesterday being election day the usual 8:30 a. m. New York train for the commuters did not run.

—Excellent progress is being made on the new building being erected for Hope chapel worshippers, and it will no doubt be completed during December. The work on the interior is now being pushed rapidly.

—Invitations have been sent out for a tea to be given for the benefit of the Young Woman's Club, at the home of Miss Whiton, 821 Central avenue, Saturday, November 11th, from 4 until 7. The young ladies having the tea in charge are Miss Ginna, Mrs. Kimball, Miss Lowe, Miss Cooley and Miss Holly.

Stage Route to Lehigh Valley Station South Plainfield.

The new stage route established by TenEyck & Harris, from the City Ticket Office of the Lehigh Valley Brilroad to South Plainfield, which makes connection for Lehigh Valley through trains for Rochester, Buffalo, Niagara Falls, Chicago and the West, will be run via Park avenue to Ninth street, to Central avenue, to Stelle avenue, to Plainfield avenue, to Lehigh Valley station, South Plainfield. Call up City Ticket Office (Telephone Number, 112-B) for information as to rates, time of trains, etc. See timetable in another column. 11-3-3-eod

A Special Church Meeting.

A meeting of special interest will be held in the Congregational church this evening. It will be a "Maclaren Evening," and there will be readings of a number of selections from the readings of Ian Maclaren. Those who will take part will be Rev. C. L. Goodrich, Mr. and Mrs. Alex. Millar, Miss Ellis, Miss Alice Miller and W. B. Wadsworth.

Few Workers Around the Polls.

There was a noticeable and unusually small number of workers around the polls in the borough yesterday, but those who were working are considered to be the best that either party affords.

Miss Clarence Leland, of West Second street, who has been visiting with her parents, has returned home.

VOTED, THEN PLAYED.

ELECTION DAY EVENTS ON THE PARK CLUB GROUNDS.

Qualifying Rounds of the Men's Handicap—Twenty-four Entries—The Mixed Foursomes Were Won by Two Ladies.

Election Day furnished the golfers of the Park Golf Club with ideal weather for the ancient game. The day was a busy one on the course, and the two events scheduled for the day passed off very successfully, furnishing several lively contests. The course was in excellent condition.

The event of the morning was the qualifying round in the men's handicap competition, eighteen holes, medal play. There were twenty-four who entered, but several did not complete the eighteen holes and fifteen cards were turned in at noon. First honors for the morning went to H. D. Hibbard with 99 net, and Aubrey C. Crowe, with 100 net, was second. They qualified for the finals in the afternoon.

The scores handed in during the morning were:

	Gross.	Hand.	Net.
H. D. Hibbard	117	18	99
Aubrey C. Crowe	105	5	100
W. W. Beekman	132	30	102
Samuel Townsend	127	24	103
R. M. Shepard	113	7	106
Meredith Dryden	118	12	106
W. de la R. Anderson	110	0	110
Gifford W. Cooley	119	9	110
J. L. Myers	137	27	110
W. J. R. Thiers	120	9	111
J. H. Howell	125	14	111
Morgan T. Townsend	117	5	112
George T. Rogers	128	15	113
S. St. John McCutchen	122	14	122
Robert Turrill	163	40	133

W. de la R. Anderson and Gifford W. Cooley played together and the result of their rounds was to count as final for the play-off in the tie for the McCutchen cup. It resulted in another tie, however, both scoring 110 net. The tie will be played off later.

The final round in the men's handicap was played in the afternoon, match play, between Hibbard and Crowe. After an exciting contest Hibbard won, 2 up and 1 to go.

The other event of the afternoon was the mixed foursome, which was won by Miss Edith Hyde and R. M. Shepard.

The scores handed in were as follows:

R. M. Shepard. Miss Edith Hyde.	123
W. de la R. Anderson. Miss Howell.	127
Meredith Dryden. Mrs. Meredith Dryden.	127
Morgan T. Towesend. Miss Davis.	157

THREW OIL IN THE FURNACE.

Sheet Flame Bursted Out and Burned Councilman Smith.

Councilman Frank E. Smith is suffering from severe injuries which he received yesterday at his home on Madison avenue. While attempting to start up the furnace fire he threw in a cup full of kerosene oil. In an instant the oil flashed in a blaze and before Mr. Smith realized his peril the right side of his face and neck were severely burned. Fortunately his eyeglasses protected his eyes, which were not materially injured. The blaze set fire to his coat sleeve and his right arm and hand were also slightly burned. It is not believed his injuries will prove particularly serious, although they are painful and will confine him to the house for a few days.

"The Gunner's Mate."

The U. S. S. New York, considered one of the model vessels of our national navy, and has been selected by Messrs. McKieman and Gallagher authors of the play "The Gunner's Mate," for the presentment of their dramatic work at Music Hall tomorrow night.

It is a play of great human interest, interpreted by a strong dramatic company which includes many noted people of recognized ability, selected by Augustus Piton, manager of the Grand Opera House, New Yrok.

An Approaching Marriage.

Cards have been issued by Mr. and Mrs. Jacob Wagoner, of 109 West Fourth street, for the marriage of their daughter, Miss Ada Louise, to S. Barron Brewster, of Woodbridge. The event will take place Wednesday evening, November 22d, at 6:30 o'clock at the home of the bride's parents.

City Election Next.

Now that the State election is over the next event of interest is the city election which will occur next month. From now on there will be plenty to keep the politicians busy, and there is no doubt but what there will be several important issues.

Death Rate Has Been Low.

According to the best of authority the death rate in this city during the past two months has been the lowest known in the history of the city for the same period of time.

Canned and Dried Vegetable and Fruit Sale!

FOR FOUR DAYS.

WEDNESDAY will inaugurate the largest, most far-reaching sale in these goods that has ever been known in this State. Our winter supply of choice and fancy canned fruits and vegetables and delicious evaporated fruits has already arrived; hundreds of carloads received direct from the producers, quantities so large that you might not believe us were we to tell you the figures; in short a veritable avalanche, sufficient to stock a hundred stores.

If You Want to Save money on your Winter's supply of Groceries, don't miss this opportunity Rather than go to the trouble and expenses of carrying stock over the Winter we will sell them now at prices so low as to appear ridiculous—and remember that the goods we sell are all fresh and sweet and clean; they are the best goods obtainable at any price—anywhere.

A CRIPPLED HOBO.

Had Only Stumps of His Legs Left but He Gave Roundsman Frederickson a Hard Fight.

A miserable specimen of the hobo-tramp fraternity was picked up early this morning on Randolph road by Roundsman Frederickson, who had been notified of his suspicious actions about the homes of some of the citizens on the south part of the city. The man was without feet, the stumps of his legs being enclosed in a covering of rags bound about with a leather shield. When Roundsman Frederickson attempted to arrest the tramp the hobo resisted vigorously and struck the officer on the breast with one of the short canes he uses to assist locomotion.

The Roundsman telephoned for a wagon and Patrolman Flanagan responded. It was with difficulty that the tramp was placed under arrest. He backed against a fence and swinging his canes, both of which had heavy iron ferrules upon the ends, he defied the officers to lock him up. He cursed the officers and heaped the most villainous abuse upon them. Later before City Judge Runyon the fellow gave his name as James O'Connor and said his home was in Newark. As he could not give the Judge any satisfactory statement as to how he made a living the court imposed a sentence of $10 fine or 30 days in the county jail.

MAY SECURE AN INJUNCTION.

Opposition to Arlington Avenue Trolley May Assest Itself.

It is confidently expected that the opposition to the Arlington avenue trolley will appear at the proper time and secure an injunction from the courts restraining the company from putting the road down. They recognized the fact that there was little use in objecting at the Council chamber, where the members had made up their mind to grant the franchise, but they hope to do something in the courts and if possible defeat the efforts of the company.

Cyclist Attacked by a Dog.

This morning while Benjamin Scribner was riding his wheel through North avenue, a big black dog owned by J. W. VanSickle, the butcher, ran into the roadway and attacked him. The rider was thrown off his wheel, but fortunately escaped injury. The dog also attacked another wheelman previous to that time, but failed to do any damage.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

Mr. Allen, of Flemington, who has been visiting Plainfield friends, has returned home.

Miss Lunger, of the borough, who has been visiting at Whitehouse, has returned home.

Miss Cora Skull, of Central avenue, leaves town today to attend the marriage of a friend.

Mr. and Mrs. William Barry, of the borough, are happy over the arrival of a baby daughter.

Miss Grace Estella Adams, of Netherwood, is spending a short time with relatives in Orange.

Mr. and Mrs. Isaac Schwed, of Fairview avenue, has been entertaining company from New York.

Julius Williams, of Plainfield avenue, started yesterday on an extended business trip through the west.

Mrs. F. H. Smith, of Madison avenue, has gone to Westerly, R. I., owing to the severe illness of her brother.

Clarence Bloxam, formerly drug clerk at Armstrong's pharmacy, has returned to his position at the drug store.

Mr. and Mrs. Apgar, of Brooklyn, spent yesterday with Mrs. Apgar's parents, Mr. and Mrs. Henry Angleman, of East Fourth street.

Rev. Father Brennan, of the borough, has entirely recovered the use of his hand which was severely injured sometime ago while riding his wheel.

One familiar face was missed at the second district polling place in the borough yesterday. It was that of John Goodwin, who has served on the board for many moons. Just why he failed to appear has not yet been fully explained, but no doubt the mystery will be cleared up in the near future.

—Seasonable deserts, charlotte de russe, eclairs, pastries, mocha cakes, etc., at Stephenson's, 145 North avenue.

—Plainfield Council, No. 44, Order of Chosen Friends, will meet this evening at 8 o'clock. All members are requested to be present, as business of very much importance must be transacted.

COULD NOT CARRY OUT THEIR NUPTIAL PLANS

It Was Arranged to Have Double Wedding at St Mary's.

ELIZABETH PRIEST SAID NO.

FATHER GESSLER OBJECTED TO HIS PARISHONERS GOING AWAY.

Insisted That the Elizabethport Couple be Married in Their Own Parish—They Acquiesed, but Then Came to Plainfield to See the Other Couple Joined in Wedlock by Father Smyth.

Two interesting events of yesterday were the marriages of John Clark and his sister, Miss Kate Clark, son and daughter of Mr. and Mrs. Bernard Clark, of West Third street. It was arranged that there should be a double wedding at St. Mary's R. C. church, this city, but Father Gessler, of St. Patrick's church, Elizabethport, in whose parish Mr. Clark and his bride, Miss Mary Darcy, are members, objected to the couple going out of the parish to get married, and at the last minute there was a change in the plans, all of which is deeply regretted by the interested parties.

Unless Father Gessler consented to the proposed plan, Father Smyth, of St. Mary's church, would not officiate at the double wedding, hence the change. The change did not, however, stop the marriages and they took place as intended.

At 2 o'clock yesterday afternoon Mr. Clark and Miss Darcy were married at St. Patrick's church, Elizabethport, by Father Gessler. They were attended by Martin Darcy, brother of the bride, and Miss Anna Ford, both of Elizabethport. The wedding was largely attended and was a very pretty one. After the ceremony the bridal party and a large number of the guests came to this city where they witnessed the marriage at St. Mary's church of Miss Kate Clark and Michael J. Divine, of Brooklyn. The ceremony took place at 5 o'clock and was very largely attended. The ceremony was performed by Rev. Father Smyth, pastor of the church.

The bride was gowned in steel grey cloth trimmed with point lace and spangled net. She carried bridal roses, as did also the bridesmaid, Miss Mary Clark, sister of the bride, who was gowned in steel grey cloth, trimmed with pale green silk. Both wore opera capes and hats to match their costumes. The best man was Frank Clark, brother of the bride.

After the ceremony the bridal party returned to the home of Mr. and Mrs. Bernard Clark, West Third street, where a reception was held. There was a large number of guests present from New York, Elizabeth, Plainfield and other places. The wedding gifts were elegant, costly and numerous During the the hours of the reception an elaborate wedding supper was served and both couples were given a good send off.

Mr. Clark, one of the grooms, is a wholesale liquor dealer at Elizabethport, and he and his wife will reside at that place. Mr. Divine, the other groom, is also a liquor dealer at 94 Kent avenue Brooklyn, and he and his wife will take up their residence there.

MARRIED BY HIS THREE SONS.

Aged Preacher Takes School Teacher for Third Wife.

(Special to The Daily Press.)

New Brunswick, Nov. 9.—Rev. Dr. Benjamin S. Everett, pastor of the Presbyterian church at New Gretna, was married for the third time yesterday noon to Miss Carrie Mount. The ceremony was performed at the residence of Mrs. Albert Paxton, near Jamesburg. The preacher was married by his three sons, all ministers, who, like him, have married school teachers. They were Rev. Frank B. Everett, of Trenton; Rev. William Everett, of Baltimore, and Rev. Benjamin Everett, of Titusville.

Wedded at St. Mary's Rectory.

Miss Marie Agnes Gordon, of Brooklyn, and Patrick J. Fahy, a conductor on the local trolley, were married yesterday at the rectory of St. Mary's R. C. church, by Rev. Father Smyth. Miss Smith and Daniel Galbraith, intimate friends of the contracting parties, were witnesses to the marriage. The bride and groom have gone to housekeeping on We3t Second stree t, in a home already furnished.

Overland to the South.

Fred Bird, of East Front street, started yesterday with horse and wagon for the south, where he has interests in a saw mill. Mr. Bird's wagon is so arranged that he can stop anywhere and live just as though he was at home. It has every convenience and he will be in no particular hurry in reaching his destination.

GIRLS' SEWING SCHOOL.

TO BE ESTABLISHED BY CHURCH OF HOLY CROSS.

The Membership Will Not be Confined to the Parish, But Will Take in all the Borough Who Care to Join the School.

A sewing and industrial school for girls will be opened in Holy Cross Parish beginning with next Saturday, November 11th. The sessions will be held each Saturday afternoon from 2 to 4 o'clock in the Parish House, a large and commodious building, well lighted, heated and ventilated and splendidly adopted to a work of this kind.

The privileges of the school will not be restricted to children of the parish, but will be free to all in the borough who choose to avail themselves of them.

The school will have a kindergarten department for the little tots, who will be taught the first steps in sewing and advanced as they become more proficient. There will be classes in embroidery, crocheting, knitting, darning, etc. Every three months prizes will be awarded the scholars for the greatest improvement in each department. There will also be an honor roll for attendance.

The management of the school will be under a lady superintendent, and an able staff of assistants, who are in every way eminently fitted to cope with the work and carry it to success. The aim is to do good and to provide for a long felt want. There seems to be a need for just such a practical work as this among the girls of the parish and borough, and it is hoped that so excellent an opportunity will be embarased by all who feel the need. The use of the school is free to every child in the community. Each Saturday afternoon from 2 to 4 o'clock in the Holy Cross Parish House, Mercer avenue near Washington avenue.

SOPHOMORES HAVE THEIR FUN.

Freshmen at Rutgers Climb Trees After Their Clothes.

Being obliged to climb a tree monkey fashion, while Rutgers' sophomores stood by and laughed derisively, was the unpleasant experience which fell to the lot of Stephen Malvin and Frank Erler, of Newark, at midnight, Tuesday, in New Brunswick. The freshmen had been captured by a band of sophomores out for a lark, and when they had been conducted half around the city the sophomores decided to have some sport, and stripping off their victims' outer clothing threw it up in the branches of a tree. The two underclass men then made the best of their way upward.

Sophomore raiders captured Volney Schlick, of Warsaw, N. Y., and Daniel Applegate, of Red Bank, N. J., earlier in the evening, as they were leaving the chapel of the Second Reformed church. The two men were tied to the porch in the rear of Professor Shumway's house, in Livingston avenue. The Professor was not at home, but the cries for aid were heard by Mrs. Shumway, and she hastened to their assistance. As she was trying to untie the ropes the Professor came along and set them free. The freshmen class is indignant and threatens reprisals.

FURNITURE VAN RUN AWAY WITH.

Horses Tied to a Post on East Front Street When They Were Frightened.

A team of horses attached to a furniture van from Perth Amboy, and driven by Thomas Redding, became frightened on East Front street about 3:30 o'clock yesterday afternoon and made a dash up the street. The team had been hitched to a sign post in front of Casper's Hotel. The post was broken off and the team came dashing down the street at a lively gait. Near the residence of Dr. Probasco the heavy van came into collision with the delivery wagon from Keenan's grocery at Fifth and Richmond streets. The impact was sufficient to wrench off a wheel from the rear axle and came within an ace of injuring the grocer's horse. The big team continued on down the street to the corner of Watchung avenue, where Druggist J. H. Leggett succeeded in stopping the runaways.

TRANSFERS TO DOWNTOWN.

Elizabeth Merchants Ask the Trolley Company to Make the Concession.

(Special to The Daily Press.)

Elizabeth, Nov. 9—The merchants downtown believe that the Westfield and Elizabeth Street Railway should give transfers for passengers to ride to that section of the city. A petition has been circulated by McManus Brothers and Hersh and has been signed by many people from Union Square down. This petition will be presented tomorrow night at the street committee, when the question of franchise is to be discussed.

—Sparklets should be in every household. Wm. W. Moore, 310 Park avenue.

TRUE STORY OF "WHAT HAPPENED TO JONES."

He Was Married For Two Years Before Friends Knew It.

CAUSED A GREAT SURPRISE.

THE NUPTIALS WERE GUARDED WITH GREAT SECRECY.

Frank L. Jones, President of the Monarch Printing Company, the Groom, and Miss Kate A. Reed, of Blairstown, Pa., the Bride — They Will Soon Go To Housekeeping in This City.

Frank L. Jones, president of the recently organized Monarch Printing Company, sprung a surprise upon his many friends in this city Tuesday by announcing his marriage. Although it was well known that Mr. Jones has been paying attention to a young lady who has been making her home in this city for some time, his friends or those of the lady had no idea that they were married. The fact leaked out a few days ago. When asked about it Mr. Jones admitted the truth of the report.

Mr. Jones bride is Miss Kate A. Read, of Blairstown, Pa. For sometime she has been making her home with Mrs. Mary Richards on East Fifth street and has been assisting that lady in her duties as a dressmaker. Mr. Jones married his wife nearly two years ago. For reasons best known to themselves Mr. and Mrs. Jones decided to keep their marriage a profound secret for a time. The fact that they have guarded their secret so zealously for many months has caused their friends to marvel.

However, the cat's out of the bag and they are making the most of the situation by receiving the congratulations of their friends. Mr. and Mrs. Jones have made arrangements to at once go to housekeeping at 441 West Sixth street.

Tuesday evening the members of "The Club" on Front street, hearing of Mr. Jones' marriage, sent a committee out to gather in the newly married man and usher him before the other members of the club to have him show cause why he should not explain himself. Mr. Jones very willingly complied with the request and he was present to do the honors, which he did in a graceful manner. For several hours the boys enjoyed at Mr. Jones' expense an old fashioned symposium at the headquarters of "The Club."

At present Mrs. Jones is visiting her retatives at her old home at Blairstown.

COMMISSIONERS OF APPEAL

They Allowed $37,960 Deduction From the Assessed Valuations in This City.

German Lutheran Fair.

The committee of arrangements at the Lutheran church feel very much encouraged in its undertaking. The merchants of the city as well as friends and members of the congregation have responded liberally so that success can be predicted. A week from today will be the grand opening opening at 79 Somerset street. All are invited to present.

HE RODE HEADFIRST INTO BERRY'S HORSE.

Grant Buckalew Seriously Injured in Collision.

WAS RIDING HIS BICYCLE.

ACCIDENT HAPPENED ON PARK AVENUE LAST NIGHT AT DUSK.

Bicyclist Was Hurrying Along East Fourth Street and Did Not Notice Carriage Until Too Late—Berry Pulled Up His Horse and Shouted a Warning—Buckalew Taken to the Hospital.

"Whoa!" exclaimed Grant Buckalew as he rode headfirst into Hackman Charles Berry's mare just at dusk last evening. Then he went down and the wheels passed over his shoulder. When he was picked up he was unconscious and remained so until some time after his arrival at Muhlenberg Hospital. His injuries are not believed to be fatal.

Berry was driving on Park avenue, returning to the North Avenue station. It was shortly after 6 o'clock when he reached Fourth street. He was just about to cross that thoroughfare when he noticed a wheelman approaching on East Fourth street. Berry yelled and pulled up his horse. The animal stopped short. Berry says there was no light on the wheel and that the man was riding fast. The wreck of a lantern was found afterwards, but it was impossible to tell whether or not it had been lighted. None of the spectators of the accident saw the light.

Grant Buckalew, colored, who lives at 543 West Third street, was the wheelman. His attention was drawn by Berry's yells. He looked up and tried to swerve to the right. He didn't go far enough and crashed right into the horse's forequarters. Buckalew fell under the front wheels unconscious while his bicycle landed in front of the equine. After putting its feet in the wheels of the bicycle the animal made a spring. Berry pulled the horse up so sharp that one of the shafts snapped and the stump ran into the horse's side.

The now thoroughly frightened horse ran down Park avenue, kicking its heels about Berry's head. After some trouble the driver pulled up his charge under the railroad bridge. Then a train went over the bridge and the horse started again. After a few plunges, horse and cab came to a suddn stop against the high curb and driveway into Boice, Runyon & Co.'s coal yard.

Berry didn't stop, but described a curve over the dashboard and landed on his face on the sidewalk. He was very thankful to escape with his life. The horse fell down, cutting his leg badly on the curb. The cab was disabled to the extent of a broken axle and spring, while the front windows were smashed.

Buckalew was picked up by Fred J. Stack and Fred Shepard, from Rockfellow's grocery and carried into Rockfellow' bicycle store. Dr. Long attended him. The ambulance was summoned and carried the colored man to the hospital.

A CHANCE TO BE HEARD.

Board of Health to Hear What People Have to Say About Burning Leaves.

The regular meeting of the Board of Health will be held at the office of the Board tomorrow afternoon at 5:30 o'clock. An opportunity will then be given for any citizen of Plainfield to address the Board on the subject of the burning of leaves in the fall of each year. The Board is anxious to know the feeling of the citizens on this subject in order that proper action may be taken before another season. Many complaints of the above practice have been made to members of the Board within the past few weeks.

Camden County's Prosecutor.

(Specialto The Daily Press.)

Camden, November 9.—Frank J. Lloyd, a former member of the Assembly, was yesterday appointed Prosecutor of the Pleas of Camden county by Justice Garrison and Judge Armstrong, to serve until the Governor appoints a Prosecutor for the full term. He succeeds Prosecutor Jenkins, who dropped dead at the Aqueduct track a week ago.

June Marriage Just Announced.

The many friends of Lawyer Charles H. Angleman, of this city, will be surprised to learn of his marriage to Miss Emma Holbrook Carpenter, of Rahway. The event took place June 1st, last, at Peekskill, N. Y., where the bride at that time was visiting relatives. For the present the bride and groom are residing at the home of the bride's parents at Rahway.

CITY MAY TAKE HOLD OF GARBAGE DISPOSAL

Councilmen Confer With Sanitary Company Stockholders.

TALK OF TAX TO KEEP IT UP.

NO DEFINITE ACTION IS TO BE TAKEN AT ONCE.

Plant Can Be Bought or Leased by the City and Then Operated for the Benefit of the Whole City—A Small Tax Would Maintain it in Good Shape—The Project to Be Considered More.

There was a meeting last night of a special committee from the Common Council and a committee from the Plainfield Sanitary Company, consisting of J. W. Murray, H. G. Runkle, L. W. Serrell, D. C. Ivins and Dr. Murray from the Board of Health. The object of the meeting was to consider the advisability of leasing or selling the sanitary plant to the city to operate according to its own ideas and plans.

The matter was talked over at great lenghth and was considered in a favorable light. The councilmanic committee was not in doubt as to the feasibility or desirability of the scheme, but they realized that next month a large majority of the present Council will go out and they did not feel like taking steps towards leasing or buying the plant. It was determined in the discussion that it would be cheaper for the city to lease the plant and then assess taxpayers a small sum for collecting the garbage and ashes. By doing this the expense to the city would be nominal and the tax to be fixed on each citizen affected would be very reasonable.

It was the desire of those from the sanitary plant that the city should take the plant and run it as a municipal institution. This plan was very favorably thought of by the Councilman present. However, the problem was thought to be a serious one, needing more consideration, and the chances are that nothing definite will be done until next year.

It was stated by those present from the sanitary company that operations would be suspended at once, that the teams will be sold and the wagons disposed of, and people will have to make other arrangements for the collecting of garbage and ashes.

Those present to represent the city consisted of Mayor Rockfellow, Councilman Tolles and Buckle. Messrs. Hetfield and Homan, members of the committee, were detained and could not be present.

A MACLAREN EVENING.

An Interesting Hour Spent in Reading Parts of Books by the Great Scottish Author.

The "Maclaren Evening" at the Congregational church last evening proved a great success and was largely attended. It was in charge of Rev. C. L. Goodrich, the pastor. There were a number of readings from the works of that great Scottish author. Rev. Mr. Goodrich, introduced each with a few remarks explaining the preceding part of the story so that the listeners might get a general understanding of the situation.

The readings were from "Beside the Bonnie Brier Bush," and "Auld Lang Syne" and were as follows:—"Domsie on Giving," read by Miss Alice Miller; "Marget, Concerning the Almighty," by Miss Ellis; "A Prayer," by Mrs. Alex. Millar; "His Mother's Sermon," by William B. Wadsworth; "Burnbrae's Conscience," by Alex. Millar. A solo, "My Ain Countree," was sung by Miss Charlotte Strong. Rev. Mr. Goodrich read the Maclaren Creed and spoke somewhat on it.

Bride Formerly Lived Here.

Announcement is made of the marriage of Miss Cora D. Painter, daughter of Mr. and Mrs. George F. Painter, to Harry Kitchen, both of Jersey City. The event took place Wednesday, Nov. 1st, at the home of the bride's parents. The bride was formerly a resident of this city, where she has a host of friends who will be interested to learn of her marriage.

Keeping in the Background.

There are some residents of the borough who have not been seen very much since election day. They are principally bolters of the G. O. P. ticket, and like the small boy who stole the apples, they are not having anything to say as to the result.

Soon to be Finished.

In a short time when the work of macadamizing South avenue is completed this will be one of the best streets in the city. At present travellers are inconvenienced, but the work will soon be finished.

—Sparklets, invaluable in the sick room. Wm. W. Moore, 310 Park ave.

WEDDED IN BRIDE'S HOME

MISS CORRINE YOUNG BECOMES THE WIFE OF HENRY AUTEN.

Ceremony Performed by Rev. Cornelius Schenck—House Prettily Decorated—The Couple Will Reside in Perth Amboy.

A pretty wedding of last evening was that of Miss Corrine Young, eldest daughter of Mr. and Mrs. Peter Young, of 136 Central avenue, and Harry Auten, of Perth Amboy, which took place at 6:30 o'clock at the home of the bride's parents in the presence of about seventy-five relatives and friends.

The ceremony was performed by Rev. Cornelius Schenck, Ph.D., pastor of Trinity Reformed church, in the parlor which was tastefully decorated with smilax, palms and chrysanthemums. The wedding march from Loehengrin was played by Clifford Braider, of the borough, as the bridal party entered the room. There was no best man, but the bride was attended by two bridemaids, Miss Nettie Young, sister of the bride, and Miss Helen Auten, of Roycefield, sister of the groom. There were also two flower girls, Miss Mable Kline, niece of the bride, of Reaville, and Miss May Auten, sister of the groom, of Roycefield. They preceded the party and were gowned in white swiss and carried baskets of flowers The bride's gown was white mull over white taffeta. She carried bride roses. The bridemaids wore gowns of white dotted swiss over green, and carried pink roses.

After the ceremony congratulations were offered. Then followed the wedding supper, after which Mr. and Mrs. Auten departed from the city on a honeymoon trip. Upon their return they will reside at Perth Amboy, where the groom has an excellent position with the Metropolitan Life Insurance Company. Both he and his bride are popular young people, the latter being a member and attendant at Trinity Reformed church, where she has a host of friends. A large collection of useful and handsome gifts were received by them from relatives and friends.

Those who acted as ushers at the wedding were Charles D. Smith, of Weston, and W. K. Crater, of Somerville. There were guests present from New York, Brooklyn, Long Island, Flemington, Somerville, Ringoes, Bound Brook and this city.

MIDDLESEX AND HUNTERDON.

Both Naturally Democratic, but Middlesex Went for G. O. P.

Revised returns for Middlesex county received at New Brunswick up to noon yesterday show that the Republicans elected the entire ticket by pluralities ranging from 718 to 1,527. The pluralities for the candidates elected follow: Isaiah D. Barclay, Sheriff, 1,144; John H. Conger, County Clerk, 1,527; Adrian Lyons, 1,203; H. R. Groves, 1,127; J. E. Montgomery, 1,027, Assemblymen.

Complete returns from Hunterdon county gives Paul A. Queen, for Surrogate, 2,109 majority; George M. Frech, for Sheriff, 252 majority; O. I. Blackwell, for Assembly, 1,191 majority; Warren Loudenberg, for Assembly, 859 majority—all Democrats.

SET FIRE TO GRACELAND DEPOT.

Tramps Discovered in the Act Make Their Escape.

An attempt was made Tuesday night to set fire to the Graceland depot. John Pierson, walking along North avenue, saw a fire beside the stairway, and, going to investigate, a couple of young fellows ran away. Pierson trampled the fire out.

The persons were probably tramps, who are angry at the railroad officials, who keep the depot securely boarded up to stop tramps from making it a sleeping place.

The Same Old Cry.

It is said that the colored people of the city intend to figure prominently in the next city election, and that they expect to receive equal recognition from the leaders of the party. It is also reported that they intend forming an organization so that more effective work can be done.

Jersey's Oldest Church Burned.

St. Mary's Episcopal church at Colestown, the oldest church in New Jersey, was destroyed by a fire of supposed incendiary origin last night. It was built in 1676 and was historic because of its age. The fire is supposed to have been started by thieves.

Address by Mrs. W. L. Remsen.

The Young Women's Mission Band of Trinity Reformed church will listen to an address by Mrs. Remsen, of the First Presbyterian church, tomorrow evening in the lecture room of the church. A cordial invitation is extended to all to hear the address.

—The Union gospel service will be held in the W. C. T. U. rooms this evening at 8 o'clock.

ATTACKED OFFICER WITH HIS PICKAXE.

Special Officer Aaron Mattox Finally Arrested Italian.

JUDGE FINED VALARE $5.

GANG OF ITALIANS WERE AFTER THEIR ANNOYERS.

Crowd From the Boulevard Tantalized Gang of Italians Working for Contractor Meeker Until the Foreigners Rose Up—Picked Out John Hogan and Went for Him—Attacked an Officer.

When Special Officer Aaron Mattox arrived on the scene yesterday afternoon the Italians were fully determined that John Hogan should suffer. When Hogan saw half a dozen burly sons of sunny Italy seize upon their picks and hurry in his direction, he departed for the most convenient place of refuge which happened to be the home of a friend on Liberty street. Then the officer interfered and came near being jabbed with one of the picks.

Contractor Meeker is macadamizing West Third street and has a large gang of Italians employed in the work. They are now employed in the v cinity of Liberty street. Yesterday morning, a crowd of men from that neighborhood watched the foreigners at work. Some of these spectators offered suggestions and commented on them. One old man jeered at the laborers and told that he and half a dozen Irishmen could do the work in a day that it took them a week to do. Sneers and jeers continued until Patrolman Flannagan drove the crowd away and started the old man homeward. After the policemen departed the crowd returned and continued to bother the foreign laborers.

It was during the noon hour when the men were eating their lunch on the curb that Hogan and several others came up to them. It is alleged that Hogan offered some insulting remarks which Salbrun Valare, the Italian foreman, resented. The constant irritation of the morning had told on the tempers of the Italians. Six of them arose as one man, seized upon their picks and started after Hogan. Then Hogan sought safety in a house on Liberty street, where the indignant Italians followed.

Special Officer Mattox was passing by and saw the trouble. He went up to Valare, as leader, and showing his badge of authority, told the Italian that they must desist and leave Hogan alone. The Italians were indignant and started for Mattox. Valare resisted and showed that his limited English vocabulary was sufficient to express some pretty strong language.

Mattox retreated under the shadow of the pickaxe, but finally succeeded in arresting Valare and taking him before City Judge Runyon. The judge explained to the Italian foreman that punishment lay with the city and suggested that any future interference with their work by the "Boulevard" gang should be reported to the police who would see that the offenders were brought to justice. He also explained that it was not a good plan to try to dig holes in a policeman with a pickaxe and fined the prisoner $5 to impress the fact.

CLEANED OUT THE WHOLE COOP.

Republican Poultry Exhibit in Union County Clerk's Office.

(Special to The Daily Press.)

Elizabeth, Nov. 9 — There was a unique after-election exhibit to be seen yesterday in the County Clerk's office. It is a small chicken-coop, in which is proudly strutting a big gamecock, while hanging outside by their necks are six small dead roosters, each one labelled with the name of the Democratic candidates for Senator, Assemblymen, County Clerk and Sheriff. On the coop are the words:

"I have cleaned out the whole bunch and am still in it."

An American flag floats from the top of the coop. The exhibit causes much amusement, and scores of people viewed it yesterday morning.

JERSEY JUSTICE SEVERE.

Horse Thief Gets Five and Harness Thief Three Years In Jail.

(Special to The Daily Press.)

Flemington, Nov. 9—Judge H. B. Herr administered another dose of Jersey justice to two criminals who were arraigned before him yesterday. Jacob Sheets, for stealing a set of harness, was sentenced to three years in the State Prison. George Kertz, who stole a horse, was sentenced to five years at hard labor. Kertz had just finished a term in the State Prison.

The Misses Auten, of Roycefield, who have been visiting Plainfield friends, have returned home.

REACHED AN AGREEMENT.

The Samoan Question is Now Practically Settled.

OFFICIALLY ANNOUNCED.

Terms of Agreement Subject to Approval of United States.

Great Britain and Germany's Understanding Likely to be Accepted—Damages During the Late Trouble in The Islands to be Settled by The Imperial Court of Arbitration.

Berlin, Nov. 9.—It has been officially announced that an agreement, subject to the approval of the United States, has been arrived at between Great Britain and Germany, by which the Samoa act is repealed and the islands of Upolu, Cavaii and the small adjacent islands fall to Germany as free property, and the island of Tutuila and the subsidiary islands go to the United States.

Great Britain, it is added, renounces any claim to the Samoan Islands, and Germany, in turn, renounces any claim to the Tonga Islands, and to Savage Island in favor of Great Britain, and also cedes Choiseul and San Isabel, the two easterly islands of the Solomon group, with their insular surroundings, to Great Britain.

The Consular representatives of the two powers in Samoa and the Tonga Islands are to be withdrawn for the present, and German subjects are to have the same rights as British subjects in regard to the free and unimpeded enlistment of native laborers in the whole of the Solomon group in the possession of Great Britain including Choiseul and San Isabel.

At the same time an arrangement has been arrived at between the two powers, by which the so-called neutral zone in the Hinterland of German Togoland and the British gold coast will be divided in such a manner that the boundary of the German and British territories will be formed by the Daka River up to a point where the latter cuts the ninth degree of latitude, thence north by a line to be fixed by a mixed commission. To this is appended a reservation that the countries of Mamprusi and Gambasa shall fall to Great Britain, and the countries of Yeudi and Chakosi to Germany. Finally, according to the decision of the Colonial Council, Germany has promised to renounce her extra territorial rights in Zanzibar till the expiration of the commercial treaty of 1902, with the proviso that the renunciation is only effective when the other nations abandon their extra-territorial rights in Zanzibar in favor of Great Britain.

A further agreement concluded between Germany, Great Britain and the United States is to the effect that the question of compensation for claims for damages during the late trouble is to be submitted to an imperial court of arbitration, which will decide all claims.

American Approval Probable.

Washington, Nov. 9.—The State Department has not yet been advised of the agreement between Great Britain and Germany respecting Samoa. It is gathered, however, that if the cable advices are accurate there will be no disposition to withhold our approval provided certain minor conditions are concluded.

He Sold Out Cheaply.

Ansonia, Conn., Nov. 9.—A ten-dollar bill prevented bloodshed and stopped the elopement of Fred Snyder, of Westfield, Mass., with Mrs. Margaret Ryan.

The woman's father, Peter Bard, followed them. He was armed with a revolver, and after threatening to shoot Snyder, attempted to assault him, but was restrained by the police.

"See here, Mr. Bard," Snyder then said, "we can settle this in a friendly way. I will pay you for the trouble you have been put to and give up the woman."

"No, you won't," Mrs. Ryan interposed, but the old man grasped at the suggestion of money and demanded $25.

Snyder protested that he had only a $10 bill and a little change. Bard took the bill and departed for home, taking the weeping woman with him.

Two Churches on Fire.

Mount Holly, N. J., Nov. 9.—The old historic Episcopal Church in Colestown, some miles from here, has been destroyed by fire. The loss amounts to several thousand dollars. The Methodist Church in Moorestown had a narrow escape from destruction by fire Wednesday. The sheds attached to the church were consumed, but the villagers saved the edifice after a hard fight. This blaze is also believed to have been the work of firebugs.

Princeton Won Easily.

Princeton, N. J., Nov. 9.—In the football game here Wednesday, between Princeton and the North Carolina University elevens, the Princetons won by a score of 30 to 0. It was an easy victory for the winners.

Mgr. Cantwell Dead.

Philadelphia, Nov. 9.—Mgr. Nicholas Cantwell, Vicar General and Rector Emeritus of the Roman Catholic Church of St. Philip De Neri, died Wednesday. He was eighty-six years old.

Jacob Bright Dies in London.

London, Nov. 9.—Jacob Bright, who was a brother of John Bright, and chairman of John Bright & Bros., of Rochdale, is dead here. He was born in 1821.

Another Post Office Robbed.

Geneva, N. Y., Nov. 9.—The Post Office at Dundee has been robbed. This makes the sixth post office robbery in central New York in a month.

Death of Viscount Bolingbroke.

London, Nov. 9.—Viscount Bolingbroke (Henry St. John) is dead. He was born in 1820.

MAY TAX THE STREET CARS.

New Haven Public Protests Against the Companies' Privileges.

New Haven, Conn., Nov. 9.—The subject of taxing street cars has been raised in this city. At a recent meeting of the common council one of the aldermen offered a resolution providing for an annual tax of $100 a car, but the proposition did not meet with favor. A proposition for a tax of $50 on passenger cars and $25 on freight cars is now to be brought before the aldermen and there is a probability that it will be adopted.

The city fathers of New Haven have been discussing the street car tax for some months and seem to have come to a general agreement as to the advisability of the tax, but there is a difference of opinion as to the amount that should be paid. Two street car companies operate in this city, and their privileges have been protested against by the public.

SHIPWRECKED CREW LANDED.

Sailors of the Daniel Taken to Halifax by the City of Ghent.

Halifax, N. S., Nov. 9.—The crew of the steamship Daniel, which went ashore at Whitehead last week while on a voyage from New to Tiltcove, N. F., have reached here on the steamship City of Ghent. The captain, chief officer and chief engineer of the Daniel remained at the scene of the wreck. A large force of wreckers was at work on the vessel when the crew left her, and if the weather remains favorable she may be afloat in a week or ten days. When that is done she is to be brought to Halifax and placed in dry dock.

The steamship British King, from Antwerp for New York, which put in here Wednesday, is to be detained several days. She has been docked, and an examination shows that one of her propeller blades is gone and two others broken half off.

Invention May Displace Firemen.

Chicago, Nov. 9.—An employe of the Pennsylvania road has invented a machine that is to revolutionize the firing of locomotives. It is designed to throw coal into the engine fire-box with an even distribution. If the device is adopted generally by the railway companies it will displace several hundred thousand firemen and make it possible for one man to operate a locomotive. The machine is arranged so that an engineer, merely by turning a little wheel, can place coal on a fire-box at a speed of twenty-one cubic feet a second.

An Olden Time Thanksgiving.

Concord, N. H., Nov. 9.—In his proclamation setting aside Nov. 30 as Thanksgiving Day Governor Rollins advises that the afternoon be devoted to deeds of brotherly kindness and loving charity, visiting the sick and needy, sending flowers and delicacies to hospitals and bringing the joyousness of the day to the inmates of charitable and reformatory institutions. The evening, he suggests, should be given over to the children. He says, in conclusion: "Make merry in the good old way and roll back the burden of the years."

Shot Two Friends.

Rahway, N. J., Nov. 9.—William E. Nagle and Thomas Doyle are being treated for dangerous wounds, but refuse to explain why they were shot. They were standing in the door of Nagle's home, when Adam E. Greiner came along and entered into the conversation. All three were supposed to be good friends, but suddenly Greiner pulled out a revolver and shot them both. He was arrested, but, like the others, declines to make any explanation.

Mother Badly Burned.

Newark, N. J., Nov. 9.—Mrs. Jennie Lewis and her nine-year-old daughter Madge are in St. Barnaba's Hospital suffering from frightful burns. The child will probably die. Mrs. Lewis received her injuries while trying to extinguish a blaze on her daughter's clothing, which was ignited by a red-hot stove. She tore off the child's clothing before she desisted.

Public Money For a Railroad.

Chattanooga, Tenn., Nov. 9.—Van Buren County has voted to lend the Tennessee Central Railroad $133,000, to enable it to finish the work of building its line through the country. The bonds are to be issued and sold in the eastern market as soon as possible, to facilitate the completion of the road.

Big Strike is Spreading.

Vancouver, B. C., Nov. 9.—The Slocan strike continues. The bringing of non-union miners has caused the strike to spread to several districts. A. W. McCune of Salt Lake, it is said, will make a test case of the eight-hour law, which is the cause of the trouble.

Mare Island Strike Settled.

Vallejo, Cal., Nov. 9.—The striking shipwrights of the Mare Island Navy Yard have resumed work on the Hartford in consideration of the promise that the black-list cards already turned in against them would be withdrawn.

Masillon's Big Fire.

Masillon, Ohio, Nov. 9.—A fierce fire destroyed the business centre of town Wednesday. Two firemen were overcome. Several saleswomen in dry goods stores had narrow escapes. The loss is between $250,000 and $300,000.

Senator Carter Arrested.

Helena, Mont., Nov. 9.—United States Senator Thomas A. Carter was arrested and fined $1 for spitting on the sidewalk. The complaint was made by a man who was arrested and fined Monday for the same offense.

Spanish Vice-Consul Again.

Norfolk, Va., Nov. 9.—Arthur C. Humphreys has been reappointed Spanish vice-consul for Norfolk and Newport News. He held that position before the Spanish-American war.

The Grant Sails From Manila.

Washington, Nov. 9.—Gen. Otis has informed the War Department of the sailing of the transport Grant on the 7th inst, for San Francisco.

The Same Old Story.

Told on the Streets of Plainfield As Well as Elsewhere.

Something you cannot tell too often.
Repetition gives it added strength.
The same old story is pleasant to hear.
When it brings happiness to home.
Brings joy to the afflicted.
Tells how burdens can be raised.
How the back can be relieved.
All the pains and aches removed.
Proves how easily it is done.
Plainfield people tell this story.
Friends and neighbors talk of it.
They tell about their kidney ills.
How they suffered, how the cures came.
What they think of Doan's Kidney Pills.

Here is what a citizen says:

Mrs. Valentine Utzinger, of 75 Grandview avenue, says: "I suffered from kidney complaint for six years. I doctored and used various kinds of medicine with little or no result. I had almost a constant sharp darting pain across my back, and if I over exerted myself or took cold I suffered severely. I always felt it most when the weather was damp. There was also a kidney weakness which was very distressing and inconvenient. While in this condition I saw Doan's Kidney Pills recommended and my son brought me a box from L. W. Randolph's drug store. I started to use them at once, following directions closely. They helped the pain in my back, and relieved my other difficulty. I give all the credit for this relief to Doan's Kidney Pills, for they are beyond a doubt a grand medicine for kidney trouble. I have recommended them to a number of my friends and will continue to do so."

Doan's Kidney Pills are for sale by all dealers; price 50 cents a box. Mailed on receipt of price by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name—Doan's—and take no substitute.

Sour Stomach

"After I was induced to try CASCARETS, I will never be without them in the house. My liver was in very bad shape, and my head ached and I had stomach trouble. Now, since taking Cascarets, I feel fine. My wife has also used them with beneficial results for sour stomach."
JOS. KREHLING, 1931 Congress St., St. Louis, Mo.

REPORTS ARE CONFIRMED

Boer Losses at Ladysmith Are More Than 1,000 Men.

GUNS WELL HANDLED.

Smokeless Explosive Makes the Boer Battery Hard to Locate.

British Losses Acknowledged to be Heavy—Boers Again Accused of Treachery—Railroad to Colenso Being Repaired—Lancers Annihilated. Latest War News.

London, Nov. 9.—Military experts believe that if General White can keep the British flag flying over Ladysmith until he is relieved the campaign will take on a new aspect; and, with the advance of Sir Redvers Buller's force, the day for the British will be saved.

The feeling of relief here over the recent successes of White are tinged by a certain anxiety lest the General again should make some fatal miscalculation involving a repetition of the Nicholson's Nek disaster.

Her Majesty does not share this anxiety and, apparently, is sanguine of his ability to pull through successfully. It is asserted that she has written to Lady White, expressing sympathy with her husband in the trials and difficulties he is now experiencing, and assuring Lady White of her own undiminished confidence in his generalship. The purport of this letter has been cabled to Gen. White by the Marquis of Lansdowne.

Boer Loss at Ladysmith.

London, Nov. 9.—A dispatch to the Times from Pietermaritzburg, says:

"Yesterday's reports confirm the statement that the losses of the Boers at Ladysmith amount to more than 1,000 men.

"The Boers have received a serious check, and have retired four miles north of Colenso.

"The railway will soon be reopened. Our losses were heavy, owing to the Boers' treacherous use of the white flag."

A dispatch from Estcourt, Natal, says a native in describing the engagement at Groblerskloof, near Ladysmith, stated that fully a hundred Boers were killed by the "men-women." On account of their kilts the Gordon Highlanders are generally referred to by the natives as "men-women."

A dispatch to the Times by courier from Ladysmith, after describing Colonel Brocklehurst's action, which was referred to in General Buller's dispatch, says:

"The enemy are now shelling the town and their artillery is being splendidly handled. The enemy sent an artillery officer, disguised as an ambulance driver, into the town under a flag of truce. The enemy's battery is hard to locate. They are using a smokeless explosive."

Train Forced to Return.

Estcourt, Natal, Nov. 9.—An armored train left here in an attempt to reach Ladysmith. The train got beyond Colenso, but was then forced to abandon the project and return.

The Boers were found to be in force at Pieter's Station, half way between Colenso and Ladysmith, where they had torn up the railroad track.

The Boers have not made any demonstration south of Colenso. Brigadier-General Wolf-Murray, in command here, is availing himself of the delay to strongly fortify the town.

Brigadier-General Wolf-Murray has received important dispatches from Ladysmith, by a runner, but their contents have not yet been divulged.

It is reported that the Boers are not within twenty miles of here.

The bullet holes in the uniforms of the Durban Volunteers show the narrowness of their escape from Fort Wylie, which was only effected after the heavy fire of the Dublin Fusiliers had inflicted severe loss on the Boers. A member of the garrison who was hard pressed by the Boers leaped into the river amid a shower of bullets and, diving repeatedly, reached a far bank unscathed.

General French managed to leave Ladysmith by the last train from here. Four miles from Colenso the Boers fired on the train, but no one was hit. The General is going to Cape Town in order to take command of the cavalry.

Sub-Inspector Petley, of the Natal police, says that his men alone, forming one of several burial parties, interred sixty-four Boers who were killed at the battle of Talana Hill.

The colonial forces are fighting in their shirt sleeves, and it is expected that custom will spread to all the forces before long.

Lancers Reported Annihilated.

Paris, Nov. 9.—Information has been received in diplomatic circles here that in the battle near Ladysmith, Natal, the Fifth Lancers were annihilated.

Six hundred of them are reported to have been killed, wounded or taken prisoners. Four hundred horses were captured.

London, Nov. 9.—The strength of the Boer army has amazed British military experts. The War Office estimates were entirely erroneous. The Boer forces seem to be about twice as large as the War Office thought they were. They are now placed by some experts at 50,000 men. The Boer forces, it is believed, have been largely increased by Cape Colony and Natal Dutch and foreign adventurers. Trained foreign artillerists and engineers are evidently in the Boer army.

Orange River, Nov. 9.—Runners have brought despatches from Mafeking undate of Oct. 26. They tell of the heavy bombardment by the Boers and an attempt to storm the place defeated by the garrison. There was a fearful rifle fire, and the Maxims sent a hurricane of shot right in the teeth of the Boers, who wavered, broke and stampeded in a mad panic. They were driven over mines, which exploded, scattering them in all directions. They must have suffered great loss. They were completely driven off.

DOES NOT CHANGE RESULTS.

The Original Election Returns Were Nearly Correct.

New York, Nov. 9.—Practically official returns from the twelve states in which elections were held Tuesday, do not change materially the results as published Wednesday. In some cases the majorities or pluralities have been cut down or increased slightly, but, aside from this there is little change. In Kentucky Goebel refuses to give up that he was defeated by Taylor and still claims that he won out by more than 3,000 votes, while the friends of Taylor, the Republican candidate and Taylor himself, claim a majority of at least 15,000.

In Ohio the semi-official count has somewhat increased Nash's plurality, which is announced as 50,000. "Golden Rule" Jones made such an unexpected run in Cleveland that he came very near having a majority over McLean and Nash. There is practically no change from the original count in New York State and New York City.

Mr. Jones Speaks.

Toledo, O., Nov. 9.—Mayor Samuel N. Jones, the "Golden Rule" candidate, who wasn't elected Governor of Ohio, had this to say to-day:

"The result of the election is extremely gratifying to me, as it must be to every lover of liberty. The vote for the non-partisan idea is large enough to justify the claim that the cause has won the greatest victory ever recorded in the political history of the State. I believe the moral force will lead the Legislature to pass the Municipal Code Commission bill which provides that every municipal officer in Ohio shall be elected by the non-partisan plan, doing away entirely with political parties in all our cities. Furthermore, the vote for the non-partisan idea will have its influence in shaping national issues next year. There will be more of morals in the national platforms by reason of it. I am thankful that the non-partisan vote in Ohio may be regarded as favoring a Christian policy toward the Philippines."

Bryan's Message to Danforth.

New York, Nov. 9.—William Jennings Bryan Wednesday sent a telegram to this city to Elliot Danforth, chairman of the Executive Committee of the Democratic State Committee, acknowledging the receipt of Danforth's despatch congratulating the Nebraskan on the result of the election in that state. Danforth in his message characterized Bryan as the leader of his party. Bryan's telegram declared that the Democrats of Nebraska had done their duty.

Mazet May Contest.

New York, Nov. 9.—Robert Mazet who was defeated in the nineteenth assembly district by Perez M. Stewart the Democratic candidate, says he is not at all satisfied with the election so far as he is personally concerned, and threatens to make a contest. Mr. Mazet charges fraud of various forms against the Tammany leaders. He says he believes a great deal of money was spent to accomplish his defeat.

Death Roll of Twenty-Four.

Louisville, Ky., Nov. 9.—Twenty-four men were killed during election riots at different places throughout the State on election day and night. Some were shot, others ambushed, others stabbed and one case has been reported where a man was stoned to death. Most of the trouble occurred in the eastern part of the State. At White Sulphur, Marshal James Pegram shot James Herrick. In Lexington a negro was shot and seriously wounded during a riot.

Dr. Slade is a Wreck.

Detroit, Mich., Nov. 9.—Dr. Henry A. Slade, the once famous Spiritualist, who cleverly fooled, among others, such men as Henry Ward Beecher and Theodore Tilton, is in Detroit, a total wreck. He is suffering from paralysis. His right side is useless. Dr. Slade is still endeavoring to give seances. He can hardly walk and exposes all his once noted tricks by his clumsiness. Slade was the originator of spook slate writing and twenty years ago was one of the acknowledged leaders in spiritualism and clairvoyancy. In 1876 he went to Europe and showed his tricks to several "crowned heads."

Will Protest to the President.

Havana, Nov. 9.—Gen. Ruis Rivera, former Civil Governor of the Province of Havana, will leave for the United States Saturday by the Ward line steamer Mexico. He intends to present a protest to President McKinley against his recent dismissal from office. Leading members of the former autonomist party intend to form a new party with a platform favoring an American protectorate. The presidency of the organization will probably be offered to Senor Fernando de Castro.

Arrested in a Murder Case.

Altoona, Pa., Nov. 9.—James Welles and George Sheets are under arrest in Somerset, charged with the murder of August Glessner, a carpenter, of Berlin, who was found dying in the road one night about two weeks ago. Welles, who is a mere boy, confessed and implicated Sheets who finally made a clean breast of the crime. A Pittsburg detective landed the men.

McKeever Beaten by Smith.

New York, Nov. 9.—Mysterious Billy Smith was given the decision over Charlie McKeever, of Philadelphia, at the Broadway Athletic Club Wednesday night. Both men did hard fighting but McKeever was much more severely punished than the "mysterious" boxer. The fight lasted the limit of twenty rounds.

Had a Stormy Passage.

Plymouth, Eng., Nov. 9.—The Hamburg Line steamer Pretoria, Captain Karlowa, from New York Oct. 28, for Hamburg, has arrived here with rail damaged from a storm she encountered. Owing to the necessity of replacing rudder pin, she will be detained here for some time.

Loading Lumber for Cramps.

Vancouver, B. C., Nov. 9.—The bark Katie F. Troop is loading 1,000,000 feet of specially selected lumber here for the Cramp shipbuilding firm of Philadelphia.

SAVED BY GOOD LUCK.

Air Brakes Prevented a Lackawanna Train Wreck.

Lake Hopatcong, N. J., Nov. 9.—By the merest chance, 200 passengers on the Buffalo Express over the Delaware, Lackawanna & Western Railroad escaped death when two engines attached to the train suddenly left the track. Two express cars and a baggage car were dragged after them and turned around so as to completely block the road. The first of two day coaches stopped short at the open switch, which is supposed to have been responsible for the disaster. By a miracle, almost, no one was badly hurt, although the passengers in the day coaches were hurled in heaps to the floor. Even the engineers and firemen escaped unharmed.

The five sleepers following the day coaches were brought to a standstill with a jerk that knocked passengers from their berths and sent them hurrying in terror from the car, in fear of—they knew not what. Not fifty feet from the spot where the engines and cars were derailed is an embankment thirty feet high. Had the accident occurred at this point the entire train would have been dragged over.

The rest of the train remained on the track, thanks to the prompt application of the air-brakes, and the bruised and frightened passengers came tumbling forth like so many sheep.

Shrieks and cries from the scared travelers went up from every coach. Scores of women dropped fainting in the sleeping coaches, and in the day coaches several were badly bruised. Several passengers came tumbling over the uneven ground in the light cast from the car windows until they reached the wrecked engines. There they were met by porters and conductors who persuaded them to return to the cars. Engine No. 534 is a complete wreck.

Yaquis Kill Americans.

Guaynas, Mex., Nov. 9.—The Yaqui Indians have renewed hostilities in the lower Yaqui Valley. A special courier has arrived with intelligence of a terrible fight between Nettleton, an American, and Rossick, a German, and Indians at Cajame Hacienda, near Bacom. The two men were overseers of the property. At the beginning of the attack, they made a brave defence and used their arms effectively, but the doors of the house were battered down and in the hand-to-hand battle that ensued Nettleton was shot and clubbed to death. Rossick, although wounded, was spared. After taking all the provisions in sight and their prisoner, the Indians withdrew to the south side of the river. Three Americans have been killed by the Indians since July.

Dewey's Marriage License.

Washington, Nov. 9.—A marriage license has been issued to Admiral George Dewey and Mrs. Mildred M. Hazen. The application for the license was made by Lieut. Harry H. Caldwell, United States Navy, Admiral Dewey's secretary. The information furnished the clerk and set forth in the license is that Admiral Dewey is sixty-one years of age and his bride-elect forty-three; that both are citizens of the United States and that in the case of each party there was one former marriage. To those statements Lieut. Caldwell was required to make oath.

Telephone and Telegraph Company.

Trenton, N. J., Nov. 9.—Articles of incorporation have been filed here for the United Telephone and Telegraph Company, with an authorized capital of $15,000,000. The company is organized to construct telephone and telegraph lines, to manufacture appliances for the same, and to furnish heat, light and power. The incorporators are Alexander Brown, Henry A. Parr, Thomas J. Haywood, L. Davies Warfield and James Bond, all of Baltimore, and John Headdon of Jersey City.

Anglo-American "Auto" Combine.

Philadelphia, Pa., Nov. 9.—The big $75,000,000 automobile combine, which was incorporated last week in Delaware and which it was said was backed by Whitney, Widener and Elkins, it now appears is an Anglo-American combine, with many millions of English capital. W. W. Gibbs, president of the Marsden Company, is president of the new concern, and although several American capitalists are interested in it Messrs. Whitney, Widener and Elkins are not identified.

D. C. Irish Dies of Apoplexy.

Pittsburg, Nov. 9.—The body of Col. Dallas C. Irish, one of Pittsburg's richest men, was found in an unfrequented part of the city. Foul play was at first suspected, but the physicians believe death was caused by apoplexy. Col. Irish was a descendant of Capt. Nathaniel Irish of revolutionary fame and was the owner of one of the most valuable entailed estates in Pennsylvania.

Hobart Much Better.

Paterson, N. J., Nov. 9.—Vice-President Hobart's condition is such as to give hope for his ultimate recovery. Dr. Newton said that for the first time since the beginning of the Vice-President's illness he was gaining strength. Dr. Newton spoke hopefully and cheerfully.

This Gold Brick is Real.

Vancouver, B. C., Nov. 9.—A $100,000 gold brick, the largest ever melted in a Canadian mine, is soon to be sent down from the Kootenai district.

THE MARKETS.

New York, Nov. 9.—Southern Pacific and Union Pacific were the features of a very strong market for American stocks in London to-day. The Continental bourses were stronger, due to the ceding of Samoa to Germany by Great Britain. American stocks were advanced fractionally all along the list.

Cash prices for provisions:
Wheat—No. 2 red, 72½.
Corn—No. 2 in elevator, 38¾.

Pork—Dull; mess, $9@$9.75.
Butter—Creamery, Western, 24@24½.
Sugar—Raw, unchanged; refined steady.

ANOTHER TOWN IS TAKEN.

General MacArthur Now Occupies Mabalacat.

IS IN A GOOD POSITION

His Entire Line Extended Three Miles in Front of Angeles.

The Enemy Located and Several Filipino Officers Killed—Two Companies of Natives Driven Out of Mabalacat—The Americans Suffer no Casualties in the Battle.

Manila, Nov. 9.—Gen. MacArthur has occupied Mabalacat. His entire line, including the Twelfth, Ninth and Seventeenth Infantry and part of the Fourth Cavalry, is extended three miles in front of Angeles, in a good tactical position. Major Bell took Mabalacat. Being ordered to reconnoitre until he located the enemy, he pushed into the town, driving out two companies of Filipinos and killing several Filipino officers. The Americans suffered no loss.

Otis Cables War Department.

Washington, Nov. 9.—The following cablegram has been received at the War Department:

"Manila, Nov. 8.

"The following was received from Negros: "To the President of the United States: The civil governor, counsellors, judges and secretaries who constitute the new government of this island in taking possession thereof this day have the high honor of affectionately saluting your excellency and trust that in the inauguration of this form of government, based upon the liberal and democratic institutions which have made that great republic so grand and prosperous, a new era will open up to this region which will enable it to reach the legitimate goal of its inspiration.—Menicio Severilo."

OTIS."

The St. Paul Reaches 'Frisco.

San Francisco, Nov. 9.—The transport St. Paul has reached this port after a rough passage of twenty-one days from Nagasaki. She had but eleven passengers, including several discharged soldiers. The transport Indiana, with the Tennessee regiment aboard, was at Nagasaki when the St. Paul sailed. Besides the Tennessee regiment, she had more than a hundred prisoners aboard. Most of these are destined for Alcatraz. The Bilibil Prison, on Luzon, is so crowded that many prisoners escape court-martial, as there is no space to confine them. When the St. Paul left Manila it was understood that each transport would bring 50 or a hundred to Alcatraz. Most of the men are charged with minor offenses, though three were convicted of assaulting an officer and one of desertion.

The United States cattle transport Wyefield has arrived from Manila. Her voyage was uneventful.

Soldiers Sentenced to Death.

Washington, Nov. 9.—The War Department has received the reports in the cases of three volunteer soldiers court-martialed in the Philippines and sentenced to death for assaults upon natives. While no information as to the nature of General Otis's indorsement has been made public, it is understood that he has approved the sentence of the court, as otherwise the papers would not have come to Washington.

Liabilities of Stockholders.

San Francisco, Cal., Nov. 9.—Judge Morro of the United States Circuit Court, in the case of J. Frank Aldrich, as receiver of the Tacoma National Bank, vs. Louis D. Campbell, has ruled that the controller of the currency has jurisdiction to enforce by assessment the individual liability of the stockholders of an insolvent national bank, equally and ratably, and not one for another, to the extent of the amount of their stock in the bank at its par value.

Gen. Miles at Two Banquets.

Portland, Ore., Nov. 9.—Major-Gen. Nelson A. Miles, commanding the United States army has inspected the fortifications at the south of the Columbia River. A banquet was tendered him by the Astoria Chamber of Commerce, and later he was the guest of the Portland Chamber of Commerce at a banquet. Gen. Miles will go from here to San Francisco.

Merchandise Exports From New York.

New York, Nov. 9.—Exports of general merchandise from New York for the week ending Wednesday were valued at $7,372,000, against $10,316,745 last week and $10,168,330 the corresponding week last year. Since Jan. 1 they have footed up $388,843,230, against $406,175,169 last year.

Fatal Fire in Washington City.

Washington, Nov. 9.—A fire at 355 Pennsylvania avenue, N. W., Wednesday resulted in the death of J. T. E. Francis, an employe of the government printing office. His death was caused by suffocation. The firemen rescued a number of persons from the windows of the house.

Pillsbury Aids The Needy.

Minneapolis, Nov. 9.—The Board of Trustees for the Home of Children and Aged Women have received $10,000 from ex-Governor and Mrs. John S. Pillsbury to be invested in a permanent fund, the interest of which is to be spent toward the maintenance of the institution.

Astor Donates to National Fund.

London, Nov. 9.—William Waldorf Astor has contributed £100 to the national fund for the widows and orphans of the soldiers and sailors killed in the war and for the destitute wives and families of those now serving in South Africa.

The Fever at Key West.

Jacksonville, Fla., Nov. 9.—Two new cases of yellow fever have been reported from Key West, and the same number from Miami.

Nov. 18—Y M. C. A. meeting at 9 p. m.
Nov. 21—Lecture by Dr. W. R Richards for the benefit of Y. M. C. A. subject—"Oliver Cromwell."

Deplorable Lack of Interest.

There is scarcely a person in this city who is a consumer of gas but that would like to see a reduction in the rates as charged for that commodity, and yet the Common Council has found it necessary to twice adjourn the hearing on the application of the People's Gas Company for a franchise owing to the failure to obtain a fairly representative expression of opinion from citizens at large in respect to the new company's position.

This condition of affairs denotes a lack of civic interest on the part of people that is in contradiction to good citizenship. The matter of granting a franchise for a competitive gas company, which promises gas at lower and fairer rates, is of intense importance to the welfare of the city. If it is to be granted or is to be refused, such action should, whichever it is, be guided by the say so of the people. The Council is the executive medium through which the people's wants are cared for, but the members of that body should be shown the popular path of action when so important a matter as cheaper gas is promised. The only way that this can be accomplished is by the public hearings.

It is to be regretted that at the two hearings already held there have not resulted a fuller expression of public opinion, but in the decision of the Council to give the people a chance to say something either for or against the proposed new gas company franchise, there is opportunity to do those things that have been left undone thus far.

New Jersey's G. O. P. Sweep.

Tuesday's election in New Jersey turns out to be a Republican sweep almost as complete as that of 1895, when John W. Griggs was swept into the Governor's chair on a tidal wave. The Republicans elected seven of the eight Senators, and 44 of the 60 Assemblymen, making gains of the three Assemblymen in Middlesex, three in Monmouth and one in Salem. The Democrats elected a Senator in Warren, an old Democratic standby. The 1900 Legislature will therefore be composed of 14 Republican and seven Democratic Senator; 44 Republican and 16 Democratic Assemblymen, a Republican majority on joint ballot of 35.

The Senate at least will remain Republican for two years, for those Senators whose terms expire next year are all Democrats from Democratic counties, except Senator Packer, who is a Democrat from the unusually Republican county of Burlington. This practically assures the re-election of United States Senator William J. Sewell for another term, and his friends were showering him with congratulations yesterday.

The State on an average vote for Assemblymen gave about 16,000 Republican majority.

According to the last returns, the Democrats carried but four counties in the State—Hudson, Hunterdon, Sussex and Warren. The Republicans gain seven Assemblymen, hold their own in the Senate, and have their majority on joint ballot increased from twenty-one to thirty-five. The State Senators elected, with their pluralities, were: Camden, H. W. Johnson, 8,931; Essex, T. N. McMcCarter, 5,032; Gloucester, S. H. Stanger, 862; Monmouth, C. Asa Francis, 100; Salem, Richard C Miller, 100; Somerset, Charles A. Reed, 1,021; Union, Joseph Cross, 2,319; Warren, Johnston Cornish, 1,800. All these are Republicans save Cornish.

An enterprising statiscian has compiled a map of the country showing where the various centers—as of population, illiteracy, manufacturing industry, agricultural output and the like—are located. The centre of population is now in Indiana, of agricultural output in Iowa, of manufactures in northwestern Pennsylvania, and it will not be a startling thing in these days of political intrique to find from this map that the centre of crime is in the centre of Ohio.

The Syracuse Post-Standard points out that the idea that the Boers would commit atrocities was mistaken, evidencing Joubert's prompt offer of safe conduct for the British medical staff after the engagement before Ladysmith. The Post-Standard says: "It is gratifying to note that General Joubert, whose example must so largely affect his subordinates, possesses the merciful nature that would succor a suffering enemy."

M. Arton, the chief briber in the Panama canal corruption, has been released from prison through the unceasing efforts of his daughter after four years' confinement. He is broken in health and will live but a little while. Despite the indignation which is still extant in France at the Panama scandal that impoverished so many, general public make no objection to the release of this old man.

In the inner circles of the local Republican party the name of Robert Bushmore is prominently mentioned as a Councilmanic candidate from the Third Ward at the coming city election.

The tradition that Salem county never had re-elected a State Senator, and therefore never would, was upset by the re-election of Senator Miller.

Secretary of the Treasury Gage will again urge congress to establish the gold standard by law.

Mayor Jones, of Toledo, is a puzzle in Ohio politics.

WHAT THE SHEARS FIND

Editorial Comment From Other Papers of Interest in Plainfield.

The reports that come from Plainfield with reference to local quarrels among the leaders and workers in the Republican party do not seem to be of much importance in the present election. The Plainfield Press, says:

Notwithstanding the internal troubles in the Republican organization in this city, those who have undertaken the management of the political campaign during this year are working like Trojans for the success of the G. O. P. standard bearers, and predict that Plainfield's majority will be up to former figures.

This is as it should be. The general county ticket should not be affected by local differences. These are, as a rule, worked out at the purely local election, and they may come up when the Plainfield municipal election is held. Such differences are to settle the question of local leadership, and should in no wise affect results at a general election.—Elizabeth Journal.

PASSING COMMENT

Things that Are Not Exactly News but Just as Interesting.

The need of another ward in this city is strongly apparent. The Fourth ward is now so large that it should be divided and a Fifth ward made. The present division of the ward as to districts is very unsatisfactory, and this accounts in no small measure for the light vote of yesterday. Voters do not mind voting, but they do object to walking a mile or two to do so.

* * * * *

The report on the street in the borough Tuesday that Senator Reed was being cut to pieces in both election districts and that he would not have a majority of 200 votes in the borough, goes to show how far from the truth people get. A few days ago Former Mayor B. A. Hegeman, Jr., predicted that Mr. Reed would recieve a majority of about 400, which was thirteen more of a majority than he received.

* * * * *

The use of a whistle by letter carriers has become quite common. The delivery of mail without a whistle would prove a serious inconvenience to the postman. The shrill notes of the whistle are always welcome sounds to the occupants of the home. Everyone enjoys receiving mail and the appearance of one of Uncle Sam's messengers is always hailed with delight by both old and young. But the novel way different carriers have of announcing their arrival often attracts some notice. One man will give a short, sharp blast; another will make his presence known by tooting two or three times, while yet another simply blows long, loud and often. It was interesting in listening to one carrier whose route is in the North Plainfield district. This man gives evidence of his good nature by whistling a few bars of a popular air, the refrain of which can be heard for some distance away. By the time this musical carrier has jumped from his wheel the door or window is opened to receive the mail he has to offer. Like the average politician's interest in you about election time, there's a method in his welcome, for it obviates the necessity of his waiting.

TO CALIFORNIA.

Via The Midland Route.

Every Friday night, at 10 35 p. m., a through Tourist Car for San Francisco, carrying first and second-class passengers, leaves the Chicago, Milwaukee & St. Paul Railway Union Passenger Station, Chicago, via Omaha, Colorado Springs and Salt Lake City (with stopover privileges at Salt Lake City), for all points in Colorado, Utah, Nevada and California.

DOES COFFEE AGREE WITH YOU?

If not, drink Grain-O—made from pure grains. A lady writes: "The first time I made Grain-O I did not like it but after using it for one week nothing would induce me to go back to coffee." It nourishes and feeds the system. The children can drink it freely with great benefit. It is the strengthening substance of pure grains. Get a package today from your grocer, follow the directions in making it and you will have a delicious and healthful table beverage for old and young. 15 and 25c.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

AMERICAN STEAM LAUNDRY,
122 East Front Street.

Special Overcoat Sale

We purchased 138 extra fine men and boys' sample overcoats. These garments were made especially for the manufacturer's show room. No custom tailor can produce anything finer or more stylish work on overcoats like these for less than from $15.00 to $35.00. They consist of the very best kersey, melton and patent beavers, plaid-backed coverts and whipcords. This entire sample lot was made up for this season's trade by one of the best clothing manufacturers in the United States.

There are not more than two or three of a kind, but on account of having such a large lot we are able to fit any man between the sizes 34 and 44. Here are the prices that we are going to sell them at.

LOT No. 1 consists of heavy weight beavers and covert cloths, lined with the best plaid worsted, satin yoke and velvet collars, wholesale price $8.00, 10.00 and 12.00. This lot to go at your choice, $4.75

LOT No. 2 consists of 40 extra fine men's overcoats, made and trimmed in the latest fashion, in black or blue meltons, kerseys and beavers, lined with first-class all-wool clay diagonal worsted, satin piped and French facing. These overcoats were actually sold at wholesale from $12.00 to 16.00. Your choice at $5.75

LOT No. 3 consists of 30 very handsome overcoats, cut in the short box style, full backs, satin lined, an overcoat that is good enough for a banker's son, wholesale price from $14.00 to 21.00, to close out this lot at $6.75

LOT No. 4. This lot will include the very best overcoats of this entire lot, and are the handsomest lot of overcoats ever shown in Plainfield, are lined with pure silk lining, have silk velvet and hand-made collars. Over 14 different styles of meltons, kerseys, coverts and patent beavers that sold at wholesale from $18.00 to 28.00. Price for this sale, $8.75

Customers from Dunellen, Lincoln, Bound Brook, Somerville and New Brunswick will have their car fare paid by buying a reasonable amount of clothing.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Daily Press.)

Dunellen, Nov. 9.—The Dunellen football team met a signal defeat at Scotch Plains Tuesday afternoon by a score of 19 to 0. Robert Maltby, who played left end, was so severely injured near the close of the game that he was carried home in a carriage. He was kicked in the head by one of the Scotch Plains team.

Mrs. O. A. Douglass has returned from a visit with relatives at West New Brighton, Staten Island. While there Mrs. Douglass had the pleasure of assisting at a very successful fair held under the auspices of the Richmond Lodge of Masons.

The Dunellen football team played twelve games last season and won all of them, not even a score being made against them. This year the team has played but three games and has been defeated twice.

The Brunswick High School will play football with the Dunellen team on the Lincoln avenue grounds Saturday afternoon. The New Brunswick team is said to be a very strong one.

This evening the Rutgers' College Glee Club will give an entertainment at Friendship hall, New Market, for the benefit of the Baptist church. Admission 25 cents.

Miss Ida Harris, who has been visiting relatives in the borough, has returned to her home at Rahway.

There were 338 names registered in the borough on Dunellen. Of this number 292 votes were cast.

Mr. and Mrs. Crowell, of Plainfield, visited their daughter, Mrs. Joseph DeGroff, yesterday.

John Peters, Jr., has been visiting friends at Cranford.

PLAINS AND FANWOOD.

(Special Correspondence of The Press.)

Scotch Plains, Nov. 9—William R. Stanbery is detained at home from business by a severe attack of malaria.

The Sacred Literature Society of the Baptist church resumed their weekly meetings in the church parlors last evening. Rev. Mr. Shott, who has charge of the meetings, has started a series of study upon "The Spade, or What Recent Excavations in the Holy Lands are Doing Towards Proving the Bible Stories."

One man, who only lives two minutes' walk from the polls, delayed voting Tuesday just two minutes too late, arriving just as the polls were declared closed. His friends had a good laugh at his expense.

The Republican enthusiasts were entertained at E. L. Hand's Tuesday evening. Arrangements having been made whereby Scotch Plains got as much and as reliable news as any other place.

The condition of Thomas Reed, who lies seriously ill at his home near Murray Hill, remains about the same, and very little hopes are entertained of his recovery.

Mr. and Mrs. Strong, who have been visiting Mrs. Strong's sister, Mrs. F. W. Westcott, for a month, have returned to their home in Boston.

The small amount of cutting on both the Republican and Democratic tickets Tuesday was a surprise to the members of both parties.

Mrs. Ann Cleaver rented the upper part of her dwelling to Henry Pfleiffer. The business was done through Paff's agency.

George Bullman, who has been visiting his friend, George Allen, has returned to his home in Brooklyn.

John G. Cook has rented the west side of his double house on Westfield avenue to George Doren.

WESTFIELD.

(Special Correspondence to The Daily Press.)

Westfield, Nov. 9.—Fully four hundred people witnessed an excellent game of football on the Broad street grounds Tuesday morning, when the Westfield team met and defeated the strong team from the Vigilant A. C., of Brooklyn, by a score of 5 to 0. The game was full of brilliant plays and was most interesting from beginning to end.

Mrs. Tomlinson, of Plainfield, delivered a most interesting and instructive address at the parlor meeting of the W. C. T. U. at the Presbyterian manse on Tuesday afternoon. Piano solos were rendered by Miss Helen Gale and Miss Julia Fink, and Miss Anna Louise Harrison gave several selections in the recitation line. Vocal and instrumental music was supplied by Mrs. William Goodsell.

Society is looking forward to this evening when the home of Mrs. Jane Williams, on Dudley avenue, will be thronged with friends and relatives gathered to witness the wedding of her daughter, Miss Jennie Williams, to Lyle Morehouse, son of Mr. and Mrs. Wellington Morehouse. The ceremony will be performed by the Rev. Dr. C. M. Anderson, pastor of the Methodist church.

Nasal Catarrh quickly yields to treatment by Ely's Cream Balm, which is agreeable and aromatic. It is received through the nostrils, cleanses and heals the whole surface over which it diffuses itself. A remedy for Nasal Catarrh which is drying or exciting to the diseased membrane should not be used. Cream Balm is recognized as a specific. Price 50 cents at druggists or by mail. A cold in the head immediately disappears when Cream Balm is used. Ely Brother, 56 Warren Street New York.

THE AMUSEMENT WORLD

CURRENT ATTRACTIONS THAT PLAINFIELDERS MAY WITNESS.

Local and Metropolitan Performances That Will Please Those Who Delight in the Art of Thespis and Mimic World.

The costumes employed in the new musical play "A Chinese Romance," to be presented at Music Hall Monday evening, were designed by the Royal Court costumer, of Pekin, and made by the Woo Fong Kai Co., of Canton. They are said to be one continuous dazzle throughout the play, nothing ever having been seen in this country to approach their design or workmanship. The Emperor and Dowage-dresses alone required five months in the gold embroidering.

* * * * *

One of the many strong features of "The Sidewalks of New York," which will hold the boards of Music Hall Saturday night, is a terrific and perilous headlong dive from the top of the stage. The "tank drama" has fallen into general ridicule, but it becomes somewhat dignified when a professional high diver like Paul J. Tustin in the guise of a hero plunging to the rescue of the heroine, precipitates himself from a heighth of fifty feet into a tank of water but three feet deep. The piece is a comedy-drama bordering upon the melo-dramatic, and the action hinges upon the fortunes and misfortunes of a lover falsely charged with defalcation and suspected of robbery, and a sweetheart who goes through fire and water in her constancy. There are some wonderful complications in the first act which are finally worked out satisfactorily in the death of the villain by his own hand and the happiness of everybody who deserves it. The dramatic process is replete with startling situations, amusing comedy features, and picturesque and prodigal scenic display.

* * * * *

A rare dramatic treat is in store for patrons of Music Hall tonight at the presentation of the new naval drama, "The Gunner's Mate." As before told in these columns, this is not a "War" play, although the principal scenes and incidents are supposed to take place on board the U. S. S. New York. It is a story of great human interest, the hero being a gunner's mate attached to the war vessel. It is full of startling, sensational incidents which are more startling from the fact they are so true and real. The stage pictures are marvels of scenic beauty and art, and are actual reproductions from photographs taken on the decks of the famous cruiser. A company of unexcelled merit appear in the speaking roles, while for the proper carrying out of details showing the true life of our naval "Jackies" a number of specialists have been engaged, including Fero, bugler of the U. S. S. Boston, who was with Dewey's fleet at the time of Dewey's great victory in Manila Bay.

EARLY INTELLIGENCE.

—There will be child baptism at the Crescent Avenue church next Sunday morning.

—Owing to the breakdown in a coal train on the Jersey Central at Asbury, Tuesday, several passenger trains were delayed.

—Star Crockery store, 23 Somerset street, are still offering good bargains in crockery as good as ever before offered in Plainfield.

—Next Monday evening there will be an adjourned meeting of the Common Council when some important business will be considered.

—The dressmaking class of the Young Woman's Club will meet Tuesday night, November 14. All wishing to join this class please take notice.

—Prepare for—not war—but cold weather. Buy our overcoats and ulsters for ammunition. They cover well. Schepflin & Schultz, 322 West Front street.

—A. G. Fritz, son of Adam Fritz, has started in business for himself and has opened at 228 West Front street a first-class meat market. He respectfully requests a share of the public patronage.

Red Hot From the Gun

Was the ball that hit G. B. Steadman, of Newark, Mich., in the Civil War. It caused horrible Ulcers that no treatment helped for 20 years. Then Bucklen's Arnica Salve cured him. Cures Cuts, Bruises, Burns, Boils, Felons, Corns, Skin Eruptions. Best Pile cure on earth. 25cts. a box. Cure guaranteed. Sold by L. W. Randolph, Druggist.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

Miss Maude VanDyke, of East Front street, entertained company from out of town election day.

Mrs. David Kenney and daughter, has returned from Brooklyn, where they have been visiting.

Dr. and Mrs. J. Hervey Buchanan, of Duer street, have been entertaining company from Raritan.

Mr. Heidloff, of Somerset street, has been enjoying a visit from his brother who resides in New York.

Miss Bessie Francis, of Meriden, Conn., is the guest of Mrs. Walter C. Dobbins, of Elmwood place.

J. T. Armstrong and family, of Brooklyn, have been visiting Miss Mary Brown, of Washington avenue.

Charles F. Powlison, secretary of the West side branch of the New York Y. M. C. A., has been visiting friends in town.

W. F. Dedrick, a former resident of this city, but now of Kingston, N. Y., has been visiting friends in town for a few days.

Major Brevoort H. Moulton, who has been connected with the Hotel Hunterston for the past summer, sails for Italy on the 18th inst.

Miss Teddy Scrymser, of Staten Island, has returned home after a visit at the home of Mr. and Mrs. W. J. R. Thiers, Watchung avenue,

Rev. Lester Leggett, the well known evangelist, and his wife, will commence a series of meetings at Castleton, S. I., Sunday evening next.

Mrs. Gilbert B. Fletcher, of Brooklyn, returned home today after a few days' visit at the home of her parents, Mr. and Mrs. P. A. Emmons, Jackson avenue.

The last letter received from Fred Leland, who is in the south for his health, states that he is greatly improved and that he is now able to work every day.

George Serrell, who is in a hospital in New York, being treated for two fractures of the leg, is steadily improving, although it will be sometime before he can come home.

EARLY INTELLIGENCE.

—Sparklets, a wonderful invention. Wm. W. Moore, 310 Park avenue.

—Some repairs are being made to the steam pipes that run across North avenue from McVey's Hotel to the annex.

—Woodhull & Martin are now displaying their holiday goods for children, and there is a large assortment to select from.

—There will be a meeting of the Woman's Home Missionary Society of the Crescent Avenue church tomorrow afternoon in the chapel.

—The Young Ladies' Missionary Society of the First Baptist church will hold their regular meeting in the parlors of the church tomorrow afternoon.

—The co-partnership existing between Robert H. Rushton and James C. Hanson, painters and decorators, has been renewed. See advertisement in another column.

—Assistant Baggageman Jacob Wagoner and Edward Martin, the caller at the North Avenue station, have appeared in blue flannel jumpers adorned in small brass buttons.

—The teacher's meeting to study the Sunday lesson at the Park Avenue Baptist church last evening was led by Rev. J. W. Richardson. These meetings are to be held every Wednesday evening.

Brave Men Fall

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache, and tired, listless, run-down feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: "Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me new strength and good appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50 cents, at L. W. Randolph's Drug Store. Every bottle guaranteed.

New Superintendent of Metropolitan.

The many friends of John H. French, superintendent of the Metropolitan Insurance Company, will learn with regret that he is soon to be transferred elsewhere. J. W. Graham, of Brooklyn, has been assigned to the Plainfield office, and will enter upon his duties next Monday. Mr. French has been in this city two years, and during that time has made a host of friends. His departure will be a source of regret. He does not know at present where he will be sent.

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

We Want You To Know

That for many years we have not had such a large stock of new fall and Winter Up-to-Date Shoes as now.

They have all been bought at the old prices, and our patrons will receive the advantage thus gained.

We are positively selling a better shoe today for the same money than ever before.

We are right up in the front ranks of the shoe trade, and are in good shape to offer unusual inducements.

Just put on sale a new shipment of Peddie's Trunks, Dress Suit Cases and Hand Bags at the old prices. Remember our "specialty" shoes are having a big sale; don't go out of town for shoes.

DOANE & EDSALL.

Lokal-Nachrichten aus der allen Heimath.

Preußen.

Provinz Brandenburg.

Berlin. Die städtische Steuerdeputation hat einstimmig beschlossen, dem Magistrat zu empfehlen, von der Erhebung der Steuerstufe von 660 bis 900 Mark für die Gemeindeeinkommensteuer künftig abzusehen.—Dieser Tage gerieth das Dach des Raubthierhauses des Zoologischen Gartens in Brand, wobei ein Jaguar erstickte, während eine Löwin durch den Rauch schwer gelitten hat.—Beim Heruntertragen einer Leiche in der Steglitzerstraße verstarb plötzlich der 65 Jahre alte Leichenträger Gustav Leopold. Der Tod trat anscheinend durch einen Herzschlag ein.—Aus Nahrungssorgen sprang die hier wohnhafte Anna Panzer, die Gattin eines in den Ver. Staaten befindlichen Schauspielers, mit ihrer Tochter Franziska, einer Sprachlehrerin, in den Teltower See. Die Tochter wurde gerettet, während die Mutter den ersehnten Tod fand.—In der Irrenanstalt zu Dalldorf hat eine Rebellion irrsinniger Verbrecher stattgefunden, doch gelang es den Wärtern, dieselbe zu unterdrücken.

Charlottenburg. Hier ist Koschtes Nähmaschinen-Fabrik ein Raub der Flammen geworden. Die Fabrikarbeiter Salewsky, Klasse, Mettheis und Stier haben dabei lebensgefährliche Brandwunden davongetragen.

Krossen. Hier ist in Folge einer Kesselexplosion der Oderdampfer „Christian" gesunken. Vier Personen wurden verletzt.

Potsdam. Die Statuen vor dem Stadtschloß sind neulich Abends von Unbekannten in roher Weise beschädigt worden.

Provinz Hannover.

Emden. Hierselbst hat sich nunmehr die dritte Häringsfischereigesellschaft mit einem Aktienkapital von 400,000 Mark gebildet. Man beabsichtigt, bereits im kommenden Jahre den Betrieb vorerst mit zehn Loggern aufzunehmen. Die Flotte soll dann entsprechend vergrößert werden.

Linden. Unsere Stadt hat durch den dieser Tage erfolgten plötzlichen Tod des Senators Stephanus einen schweren Verlust erlitten. Stephanus, der ein Alter von 73 Jahren erreichte, war auch außerhalb Hannover-Lindens in weiteren Kreisen bekannt. Er stand stets an der Spitze aller humanitären Bestrebungen seiner Vaterstadt. Im Jahre 1892 errichtete er eine große Stiftung von 500,000 Mark für Lindener Arme, deren Zinsen alljährlich an Weihnachten zur Vertheilung gelangen.

Osnabrück. Landgerichtsrath Kolligs ist zum Landgerichtsdirektor in Essen a. d. Ruhr ernannt worden. Kolligs war der Führer der hiesigen nationalliberalen Partei, die in ihm ihr umsichtigstes und begabtestes Mitglied verliert.

Provinz Hessen-Nassau.

Kassel. Neulich Nachmittags wurde der Intendanturrath Prüssen von der Militär-Intendantur des 11. Armeekorps dahier als Leiche am Fuße des Neuen Wasserfalles auf Wilhelmshöhe aufgefunden. Der erst 37jährige verheirathete Mann war seit längerer Zeit nervenleidend.

Frankfurt. Der hiesigen Kriminalpolizei ist es gelungen, in zwei hiesigen Wirthschaften Spielhöllen zu sprengen und die Theilnehmer festzustellen. Die Spielgelder wurden beschlagnahmt.

Hanau. Der im Alter von 73 Jahren stehende Martin Kronenberger aus Großauheim stürzte sich in den Main. Obwohl es zwei Einwohnern von Großauheim gelang, ihn nach kurzer Zeit aus den Fluthen zu ziehen, war er doch bereits todt.

Provinz Pommern.

Stettin. Das große Schiffsunglück, das sich im Juni d. J. auf der Oder bei Zülchow ereignet hat, beschäftigte dieser Tage das hiesige Landgericht. Bei einem Zusammenstoß der Dampfer „Pölitz" und „Blücher" sind 15 Frauen und Kinder ertrunken. Die Kapitäne Winter und Ehrke waren deshalb wegen fahrlässiger Tödtung angeklagt. Auf Grund der Beweisaufnahme kam das Gericht zu dem Schluß, daß bei Ehrke eine Fahrlässigkeit vorgelegen hat, und verurtheilte ihn zu 1½ Jahren Gefängniß, während Winter freigesprochen wurde.

Gollnow. Hier hat der Bürgermeister Gerichtsassessor a. D. Quandt Selbstmord begangen.

Leba. An der Mündung der Leba in die Ostsee sind bei einem Sturme auf der Ostsee die Lebaer Fischer Albert, Schimanke, Bork, Bogadke und Franz Gnadt ertrunken.

Provinz Posen.

Gnesen. Hier ist die Kaserne des 6. Pommer'schen Infanterie-Regiments Nr. 49 abgebrannt.

Pieschen. Als neulich bei Boguslaw zwei russische Arbeiter, die keinen Paß besaßen, den Grenzfluß Prosna durchwateten, um nach Beendigung ihrer Beschäftigung in die Heimath zurückzukehren, gab die russische Grenzwache zahlreiche Schüsse auf sie ab und tödtete einen Arbeiter.

Provinz Ostpreußen.

Alt-Weynothen. In einem Anfall von Geistesstörung hat sich die Wittwe Anna Skeries vergiftet. Die Frau glaubte sich von den Miterben ihres im vorigen Sommer verstorbenen Ehemannes übervortheilt.

FASHION HINTS.

Varieties In Underwear to Accompany Clinging Gowns.

Large china buttons are employed upon elegant gowns for indoor wear. The buttons are of course finely painted.

In order to avoid all fullness of underwear various devices are resorted to. Some women wear combination underwear of webbing, with additional tights for extra warmth, and abandon muslin underclothing altogether. Others wear

DINNER GOWN.

the muslin combination and eschew the petticoat, substituting a deep flounce of silk on the inside of the gown skirt. Still others wear the silk petticoat, but have it made in one piece with the corset cover, like a low necked, sleeveless princess gown. It need hardly be said that women inclined to stoutness will do well to wear the closest possible undergarments, but should not follow the fashion of extremely clinging gowns, as an utter absence of folds in the attire makes superfluous flesh more evident.

Willow green, automobile red (a sort of magenta), violet, silver gray, blue gray and beige are fashionable for elegant and even ceremonious toilets.

The princess gown illustrated is of violet silk embroidered with silver spangles and black. The skirt opens in front over a tablier of lighter violet plaited mousseline de soie, and the edges of the opening are bordered with a plaited mousseline ruffle. A band of black galloon embroidered with silver spangles follows the outlines of the gown. The bodice is opened in a point over a crossed fichu of plaited mousseline de soie, and there are epaulets of mousseline over the sleeves of embroidered silk. JUDIC CHOLLET.

WINTER MODES.

Silk and Satin Folds—New Patterns in Moires.

A decoration which is destined to great success during the winter consists of bias bands of satin or taffeta applied to cloth or velvet. The satin or taffeta must be of the best quality, as the folds require frequent brushing and are usually exposed to considerable wear. The folds are stitched down in place with silk and follow simple straight lines or are arranged in a design the pattern of which has been previously marked out on the goods. The stitching must be done be-

RECEPTION GOWN.

fore the lining of that part of the garment is put in, but in case of very soft cloths an interlining of stiffening may be basted to the back of the goods, and the folds may be stitched to the two together. The folds must be even and laid on with precision if they are to be effective.

Moire fabrics are to be much worn, not the ordinary moires, but new designs in which the watermarks show great variety, forming peacock eyes, arabesques and waved lines. These are seen in evening shades and will compose very elegant costumes.

The gown illustrated has a tunic of nile green taffeta cut in points and embroidered with white. It falls over a plaited lower skirt of nile green silk. The bodice of moss green velvet has a draped front fastened at the side with bows of moss green satin held by rhinestone buckles. The guimpe and sleeves are of puffed nile green mousseline de soie. Epaulets of white lace continue across the back to form a bertha. Ruffles of moss green velvet finish the wrists. The collar is of nile green mousseline de soie. JUDIC CHOLLET.

The inhabitants of Winton, England, believe that with the close of the century the world will come to an end.

SHE WIELDS A CLEAVER.

Miss Daisy Stevenson One of the Few Lady Butchers of the Country.

Rochester has been referred to by some envious persons as a "back number," but she can boast of being a leader with but a single exception in one respect—that of a female butcher. The name of this fair knight of the saw and cleaver is Miss Daisy Stevenson, and she disposes of her wares at an up-to-date little market at the corner of Plymouth avenue and Grieg street. The proprietor is a modest, unassuming little woman, 28 years of age, slightly below the average height, and fair. She is a brilliant conversationalist and possesses exceptional executive abilities. Miss Stevenson has now been cutting meat for a living for two years and three months, having first undertaken the task when her father, who had become sick and unable to carry on his work, concluded to take a rest for a few weeks. Miss Stevenson was at that time keeping the books for the concern. Rather than allow strangers to take the business, Miss Stevenson opened the market and continued the business just as though nothing had happened. Under her management the trade was steadily increased, until now it is established upon a firm basis.

When asked how she liked the work she replied: "It is not through choice that I do the work, but because it is a means of support for the family. It was difficult at first, but now it does not seem harder than home work. I am my own boss, which means a great deal. I open the market at 6:30 in winter and 6 in summer. I find it difficult to get good help; any one can sell cut goods, but it is the odds and ends which go to make up the profit, and which must be disposed of as well. I seldom lose any thing from bad accounts, as my customers are prompt. If I send a statement and receive no returns, I immediately drop those people from my roll and refuse to trust them again."

So far as can be learned there is but one other woman in the United States who is at present pursuing this business as a means of livelihood, and that one is in Syracuse. During the re returns, I immediately drop these peothing which attracted his attention was the evident satisfaction with which the patrons received goods. There was not the usual fault-finding as to weight and quality of the meat; in fact, several went so far as to say that it was an exceptionaly good cut. Miss Stevenson went about her work in a manner which denoted the utmost confidence.—Rochester Democrat and Chronicle.

SEEDING RAISINS.

Machines Will do It at the Rate of Ten Tons Daily.

Unlike the eastern imitation, the California seeded raisin is subjected to a dry temperature of 140 degrees Fahrenheit from three to five hours, after which the fruit is submitted to a chilling process, and while in this reduced condition of temperature is passed through the cleaning or "brushing" machines, which remove every particle of dust and capstems, thus making it a pure and wholesome article. It is then taken automatically by elevators to a room where spread upon wire trays, it is exposed to a temperature of 130 degrees Fahrenheit, which brings the fruit back to its normal condition, and in this "processing" the berry is converted into pectin, that delicous jelly which gives to fruit its best flavor.

The raisins having been prepared through this alternate heating and chilling to keep indefinitely and resist climatic influence are passed through seeding machines, each of which has a capacity of from ten to twelve tons daily. The raisins are pressed between rubber or similar surfaced rollers, which at first flatten the berry and press the seed to the surface, when an impaling roller catches the seeds between its needles, or teeth, affixed to its periphery deftly removing them from the fruit, while the latter passes on, minus its seeds, but possessing evry particle of its flesh. The seeds are removed from the roller by a "flicking" or whisking device, and are sent along to the seed receptacle, finally ending their journey in the engine room, where they are burned as fuel.

Four hundred and fifty carloads of ten tons each, or 9,000,000 pounds of seeded raisins, were shipped from the Fresno district last year, and a very much larger tonnage will be turned out this year.

Some estimate can be formed of the possibilities of the Fresno seeded raisin plants when it is stated that their aggregate capacity for this season will approximate from 1,700 to 2,000 carloads, while it is probable that 1,400 cars will be the output. Each seeding plant has from five to twelve machines of ten tons daily capacity per machine. Some of the packing houses cover a ground space 150 by 225 feet and are three stories high.—California Vineyard.

Snagboat Cook's Lemon Pies.

"Good cooks are born like poets," said Major J. B. Quinn. "Once upon a time I bought a lot of turnips for a government snagboat on one of the interior waterways, and, visiting it not long afterward, was surprised to find lemon pie being served out to all hands for dinner. I ate a piece of it myself and, although it was delicous, I felt it my duty to call down the steward for squandering government funds.

"'Where did you get the lemons for those pies?' I asked sternly.

"'You sent them up with the others, sah,' he replied, grinning.

"'Why, I didn't send anything except turnips,' I said, in surprise.

"'Well, that's what them pies is made of,' he admitted reluctantly. 'The men don't like turnips no other way, sah, so I made 'em up into lemon pies.'

"It was strictly true, and, beyond the fact that he had used some sort of chemical to secure the flavor, I was never able to ascertain how he did it."—New Orleans Times-Democrat.

Family Pride.

The Husband—"But we can't afford to keep a carriage."

The Wife—"I know that we can't, but I want to show that stuck-up Mrs. Brown that we can have things we can't afford just as well as they can."—New York Journal.

ONE STREET BEGGAR.

He Lives in a Handsome Residence and Owns a Block.

John Carr has been a beggar on the streets of this city for the past quarter of a century. To-day he is a very wealthy man, the owner of beautiful East End property and a valuable block in another part of the city. All this was accumulated from the pennies, nickels and dimes daily dropped into his hat by the charitable people who were moved to pity by the sign that dangled from his breast, "I am Blind." Recently Carr, under the name of Terrance O'Mara, was a prisoner at police headquarters charged with violating a city ordinance. When arrested $61.38 was found upon him, not an uncomfortable roll for a "beggar."

There is no doubt according to the police, that Carr is one of the most successful beggars of the age. It seems almost incredible that a street beggar should live in a palatial East End residence, with all the luxuries that go with it, spacious grounds, &c. But that is just what Carr does. The story of Carr and his life since he became a beggar is a most remarkable one. When under arrest some time ago he, in a burst of confidence, told it.

Some years ago, when he was in the best of health and enjoying the use of his eyes, he was made a beggar by accident. It was a real hot day. He was walking the streets out of work and thoroughly disgusted with his lot. Becoming tired he sat down upon a stoop to rest. He took off his hat and was mopping the perspiration from his brow. At this juncture a kindly disposed pedestrian passed. Seeing Carr he took compassion upon him. Carr at this time had no thought of becoming a beggar, but when he put his hat upon his head a bright silver quarter rolled upon the ground. This started him to thinking.

From that time until to-day Carr has been a professional beggar.

He has been arrested numerous times, and was never taken into custody without a roll being found upon him. On one occasion $300 was taken from an inside pocket. Three times amounts aggregating a total of $75 were discovered. If Carr should ever be found at the police station without a large sum of money on him the officials would be greatly surprised.

Not long ago he was arrested by Officer Robert Smith at Seventh avenue and Smithfield street. He objected vigorously to being taken into custody. Some of those who had witnessed the arrest declared it a shame that a poor blind man should not be allowed to make a living. They did not know what they were talking about. At the station house Carr denied having anything of value on him, but Sergeant Sterck discovered the money. Carr left a forfeit for his appearance this morning and then took an East End car for his home in order to get there in time for his 6 o'clock dinner. —Pittsburg Post.

CHRISTIANITY IN BUSINESS.

Its Principles Applied Would Work a Glorious Revolution.

"There is not the least question that as the commercial world is organized and run to-day it is run at a fearful loss along the side of money," writes Rev. Charles M. Sheldon, author of "In His Steps," in the Ladies' Home Journal. "Even the rules of success that business men lay down do not insure success. Perhaps no age has equaled this for disturbance and unrest and warring interests in the business world. If the principles of Christianity were applied to the whole business world it would cause a shock that for the time being would result in what might prove to be the greatest financial panic of the ages. But out of that result would emerge a new order of buying and selling that would result ultimately in more financial success on the part of more people than the world has ever witnessed. Ultimately love will pay in dollars and cents better than selfishness. On selfish principles the business world today does not succeed even in the matter of making money—that is, not for any length of time nor for the masses of the people. Love in business would lose less money, and actually distribute the real earnings of toil among a far greater number of human beings, than is possible now under the present system."

Cost Of a Church Carpet.

"The Chicago Advance" gives the following estimate of the direct and collateral cost of a church carpet. The price was $800, but as the women of the church raised the money by giving entertainments the pastor's estimate was that when all the items of cost was figured in the carpet had cost fully $4,000. He reached this astonishing total by estimating the work, worry, nervous strain, bodily weariness and heartaches of one hundred women, the heroic efforts of men, women and children to eat the things which were to be eaten, and hear, see or buy things which had been provided to extract money from them; the colds, fevers and other ailments contracted while attending the entertainments, and the consequent doctors' bills; the money spent in other churches, for if they come to your entertainment you must go to theirs; and, worst and most costly of all, the demoralization of the church and the curtailment of the legitimate giving which follow the train of such methods of raising money. But they got their carpet.

Matrimony on the Move.

A unique wedding occurred in one of the suburbs of Columbus, when Eugene Smith and Miss Lillie Satcher, young people of East Highlands, were married on a street car. The preacher who was to wed them, the Rev. J. W. Simons, was on the car hurrying to meet an appointment, and did not have time to leave the car. Accordingly the car stopped for a minute or two at Wildwood Park. The young people stood up in the car and the minister married them in the presence of the passengers. The marriage was followed by congratulations all the way around as the motorman turned on the full current to make up for lost time and the car whizzed through space. It was not a runaway match, the couple merely failing to meet the pastor at his home on time as by appointment.—Atlanta Constitution.

A TRYING TIME.

The Man of Experience Recalls a Dinner at Vassar College.

He was a man of experience. He had visited nearly every known country and had thrilling adventures in some of them. He had hunted big game, and had been through at least one South American revolution. Consequently he was looked upon as an interesting story teller, and, being in a convivial party, there was a natural desire on the part of his associates to draw him out.

"Tell us about the most thrilling, awe-inspiring experience you ever had," one of them urged.

"There is one that stands out preeminently as the most trying ordeal of my life," he said at last. "No other experience that I ever went through begins to equal it. Nothing else ever made me half so nervous."

"Tell us about it!" they all cried.

"It was the day I took dinner at Vassar College," he began.

"Oh, come off!" they broke in. "Don't try to jolly us.

"I'm not," replied the man of experience. I'm telling you the solemn truth. I was a friend of the family of a girl at Vassar, and, being armed with the proper credentials, I called upon her there and was invited to remain to dinner. I was the only man in the dining room. When I entered the girls were already seated and they took me in from head to foot. I could feel them doing it. At a rough guess I should say there were 500 pairs of eyes riveted upon me, and I knew that 300 girls were passing judgment upon me and everything connected with me —my dress, my bearing, my features, my manners, everything. One pair of feminine eyes can make a man feel uncomfortable, two pairs can make him think that life isn't worth living, and three pairs can give him the cold shivers. A girl knows it and she just glories in it. When she has man at a disadvantage there is nothing that gives her greater pleasure than to make the most of it and watch him suffer. Those girls had me at their mercy. They overwhelmed me with cold, critical, analytical glances that were more deadly than Mauser bullets. By the time I reached the guests' table, where I sat in solemn grandeur with the girl at whose invitation I was there, I would have gladly exchanged places with a man leading a forlorn hope on the field of battle. Before the dinner was half over I would have considered being lost in a tropical jungle pleasing by comparison. Oh, those girls, those girls! They left the dining room before I did, and, in doing so, they passed my table. I tried to talk entertainingly to my friend, but I could feel them going by—and sizing me up, and I was satisfied that I didn't pass muster. It seemed as if each one was saying to herself: "Oh, he's not so many! He lacks ease, and his tie isn't on straight."

"And that," he added, "was my most terrible experience. There was a thrill or a chill to every minute of it." —New York Sun.

CEREMONY OF THE HAT.

When Society Demands the Man to Raise or Remove His Headgear.

"The ceremony of the hat is something more punctilious than formerly," writes Mrs. Burton Kingsland of "Good Form for All Occasions," in the Ladies' Home Journal. "A man awaits the lady's recognition before he raises his hat to her. He also raises his hat when presented to a woman, when meeting and taking leave of her, when about to address her, or when she first speaks to him—for whatever reason, if he passes her on a stairway or in front of her in public conveyance, theatre or elsewhere —indeed, whenever the least apology would be in order; when he offers his services in any way, even tacitly, or shows her some trifling courtesy; and he should always raise his hat when acknowledging her thanks. A man should pay the same mannerly tribute to her sex when a woman enters an elevator, and remain uncovered during her stay therein. He should also raise his hat upon recognizing an acquaintance who has a lady with him. If the friend with whom he may be bows to a lady, he should show the same courtesy, although she may be unknown to him. Should a lady be with him and recognize a friend, he should lift his hat."

She Met Ruskin.

Mr. Ruskin was taking a morning walk not long ago near Brantwood, when he saw a woman seated on a campstool making a sketch of the house, and with a courteous grace which is intensely his own he addressed her, inquiring her reason for choosing the house in question for her subject. "It is the house of the famous John Ruskin," she frankly answered. "Have you met Ruskin?" she was asked. "No, indeed," she replied. "If I had I would have deemed it one of the greatest privileges of my life." "Then, madam, if you care to follow me, I will show him to you." In a twinkling the stool and easel were packed up, and the artist eagerly followed the guide. To her surprise and gratification, he led her up to the house, and, entering, bade his guest follow, which she readily did. On marched the stranger into the drawing room; then, placing his back to the fireplace, a familiar attitude, he exclaimed, to the amazement of his companion: "Now, what do you think of Ruskin?"

Wanted the Letter.

She confronted him at the breakfast table.

'George, I want that letter in your pocket. Please give it to me. Don't refuse."

A guilty look swept over his face, and he answered hoarsely: "W-what letter, my dear?"

"Why a V, but if you could make it an X it would do just as well. I have got some shopping to do.'

And he was so grateful at the hairbreadth escape that he made it a XX.

Rushing Him Through.

"Casey's hearing has given out and he is rapidly going blind."

"What's to become of him?"

"His friends are trying to have him made a baseball umpire."—Philadelphia North American.

Central R. R. of New Jersey

Anthracite Coal Used Exclusively, Insuring Cleanliness and Comfort.

Stations in New York, foot of Liberty, and South Ferry Whitehall Streets.

TIME TABLE IN EFFECT OCT. 10th, 1899.

For New York 2 14, 3 37, 5 37, 6 29, 6 59, 7 26, 7 29, 7 55, 8 00, 8 13, 8 30, 8 37, 8 48, 9 16, 9 43, 9 58, 10 37, 11 10 a. m.; 12 09, 12 44, 1 35, 2 12, 2 29, 3 12, 3 46, 4 17, 4 55, 5 37, 5 54, 6 21, 6 30, 6 45, 7 06, 7 39, 9 30, 10 17, 11 28, p. m. Sunday 2 14, 3 37, 5 25, 7 19, 8 01, 8 52, 10 08, 11 10 a. m.; 12.00 m, 12 58, 1 45, 3 17, 3 30, 5 41, 6 32, 8 13, 8 32, 9 15, 10 22 p. m.

For Newark at 5 37, 6 29, 6 59, 7 26, 7 47, 8 13, 8 37, 9 43, 9 58, 10 37, 11 10 a. m.; 12 09, 12 44, 2 12, 2 29, 3 12, 3 46, 4 17, 4 55, 5 37, 6 21, 6 45, 7 39, 9 30, 11 28 p. m. Sunday 7 19, 8 52, 10 08, 11 10 a. m.; 12 58, 1 45, 3 30, 5 41, 6 32, 8 13, 8 32, 10 22 p. m.

For Somerville at 5 18, 7.12, 8 19, 9 40, 9 54, 11 00, 11 59 a. m.; 1 01, 2 08, 2 20, 3 32, 4 35, 5 03, 5 27, 5 34, 6 04, 6 09, 6 19, 6 38, 7 12, 7 34, 8 21, 9 37, 10 26, 11 29 p. m.; 12 44 night. Sundays 5 45, 8 06, 9 55, 10 44 a. m.; 2 03, 3 40, 5 09, 6 35, 8 30, 10 15, 11 14 p. m.

For Easton at 5 18, 8 19, 9 54 a. m.; 1 01, 2 20, 5 27, 6 38, 8 21 p. m. Sunday at 5 45, 8 06 a. m.; 2 03, 6 35 p. m.

For Lake Hopatcong at 9 54 a. m.; 5.27 p. m.

WESTWARD CONNECTIONS.

5 18 a. m.—For Flemington, Easton, Allentown, Reading, Harrisburg, Pottsville, Mauch Chunk, Williamsport, Tamaqua, Upper Lehigh, Wilkesbarre and Scranton.

7 12 a. m.—For stations to High Bridge, connecting for stations on High Bridge Branch except Chester.

8 19 a. m.—For Flemington, D. L. & W. R. R. Easton, Bangor and Mauch Chunk.

9 54 a. m. For stations on High Bridge Branch, Flemington, D. L. & W. R. R. Easton, Allentown, Reading, Harrisburg, Mauch Chunk, Williamsport, Tamaqua, Pottsville, Shamokin, Nanticoke and Upper Lehigh, Wilkesbarre, Scranton, etc.

1 01 p. m.—Way for Easton, connecting at Junction for stations on D. L. & W. R. R.

2 20 p. m.—For Flemington, Easton, Bethlehem, Allentown, Mauch Chunk, Tamauqua, Sunbury, Williamsport, Wilkesbarre and Scranton.

5 27 p. m.—For Flemington and Easton, Bethlehem, Bangor, Allentown, Mauch Chunk, Reading, Harrisburg, connecting at High Bridge for stations on High Bridge Branch.

6 19 p. m.—For Flemington.

6 38 p. m.—For Easton and at Junction for D. L. & W. R. R.

8 21 p. m.—For Easton.

5 45 a. m. Sundays—For Easton, Bethlehem, Allentown, Mauch Chunk, Tamaqua, Sunbury, Lewisburg, Williamsport, Wilkesbarre and Scranton.

8 06 a. m. Sundays for Flemington and Easton.

2 03 p. m. Sundays—For German Valley, Flanders, Kenvil, Easton, Allentown, Mauch Chunk, Tamaqua, Sunbury, Lewisburg, Williamsport, Reading and Harrisburg.

5 09 p. m. Sundays—For Flemington.

6 35 p. m. Sundays—For Easton, Bethlehem, Allentown, Mauch Chunk, Reading, Harrisburg, etc.

FOR LONG BRANCH, OCEAN GROVE, ETC.

Leave Plainfield at 3 37, 8 13, 10 37 a. m.; 3 46, 4 17, 6 21 p. m.; Sundays, except Ocean Grove, 8 52 a. m.; 3 30 p. m.

For Perth Amboy, 3 37, 5 37, 8 13, 8 37, 9 58, 10 37 a. m.; 1 35, 3 46, 4 17, 5 37, 6 21, 6 30, 11 28 p. m. Sundays 8 52, a. m.; 3 30 p. m.

For Atlantic City, 3 37 a. m.; 1 35 p. m.

For Freehold, 3 37, 8 13, 10 37 a. m.; 1 35, 4 17, 5 37 p. m.

For Lakewood, Toms River and Barnegat, 3 37, 8 13 a. m.; 1 35, 4 17 p. m. Sundays 8 52 a. m.

ROYAL BLUE LINE.

THE AUTOMOBIKE.

A Self-Propelling Bicycle Invented by a Michigan Man.

The rapid strides that automobilism is making may be illustrated by a vehicle which has been brought out here.

The new machine is called the "mobike," and, as its name implies, is a self-propelled bicycle, run by a very small and light motor—a sort of gasoline turbine—which, in spite of its diminutive size, possesses such astounding power that the capacities for high speed and hill climbing abilities of the new machine put the old type of foot-power bicycle far in the shade.

The inventor is Prof. A. M. Herring, whose recent experiments in aeronautics have created widespread interest. The experiments of the professor and Mr. Chaunts, with the gliding machines at Dune Park, Ind., will be remembered by many readers, some of whom will also recall the last year the professor produced a new flying machine, the first to carry an operator in successful flight. This machine, technically known as an aerocurve, or aerodrome, was merely an experimental one operated by compressed air engines, but its flights were nevertheless successful enough to remove all apprehension of failure in a flying machine propelled by a more permanent power. The new engines for the perfected flying machine were practically completed when the Truscott Boat Company fire occurred, which destroyed the professor's quarters and work, along with everything else in the main building. The only machine to escape destruction was the half-completed "mobike" tandem, which he was building for his own use.

This machine has room and power enough for two people; it plows through the sand of rough roads and up ordinary grades with such a load with apparently the same ease as it runs along the smoothest street. All of the machinery is fully automatic, as merely pushing the mobike along sets all the machinery in motion, after which the rider has simply to mount by the step and steer, controling the speed the while by an almost imperceptible movement of the foot, which rests upon an engine governor at the rear of the turbine head. The batteries and hot-tube igniters, the source of trouble with all gasoline engines, are dispensed with, and even the adjustment of the gasoline and air valve, which in other machines requires such constant attention in the newest type of automobile, is automatically effected by the machine itself. The machine now has been used on runs which already aggregate 600 miles, and apparently never needs attention or repairs.—St. Joseph (Mich.) Cor. Chicago Record.

ANOTHER MEAN MAN.

Is a Bachelor and Gets Sewing Machine Agents to Do His Mending.

"He's the meanest man I ever had anything to do with," said the sewing machine agent. "I received a note from him the other day saying that he desired to view one of our matchless machines with the view of purchasing if found to be satisfactory. In these piping days of competition it is a novelty for a sewing machine agent to be invited to call and show goods so when I had recovered from my surprise, I promptly loaded a machine in my cart and started for the address the man had given.

"An old man met me at the door and invited me to bring the machine inside so he could more closely examine it. I did so, setting the machine up in the sitting room and calling his attentions to its fine points. He was an attentive listener, and I talked with the confidence of a man who considered a sale certain. Finally, having exhausted all my arguments, he asked to see a practical test of the capabilities of the machine. I agreed, and asked him to bring me something upon which to work. He left the room, returning a few minutes later, his arms filled with damaged linen.

"I sat down at the machine and showed him how easily rents and tears could be mended, making the garments as good as new and saving in a short time the price of the machine. The man seemed very much interested, and kept handing me garment after garment that needed attention. I worked for two solid hours mending the old man's garments, and at last, having nothing else that needed attention, he commenced to find fault with the machine. Finally he told me he guessed he wouldn't buy a machine right away.

"I was so mad that I didn't dare trust myself to speak, and I was glad afterward that I didn't, for when I learned the whole truth I realized my total inability to do the subject justice. The miserable old sinner, who happened to be a bachelor, had brought me up there simply to do his mending. He has worked the same game on other agents."—N. Y. Sun.

Rustic Ignorance.

Those who know the French peasantry will not be particularly surprised at the news that the gatewoman at the railway crossing near Rennes had never heard of Dreyfus. And, of course, the story can be matched in this country. At the time of the Duke of Wellington's death a parson sauntered into his garden after breakfast, newspaper in hand, mentioned the news to his elderly gardener, who replied, "Lor, sur, and 'oo was 'e?"

Again, the story runs that Mr. Kipling, while on a visit to Mr. Hardy, went to see a house which the author of "Life's Little Ironies" thought would suit him, and that when Mr. Kipling moved out of earshot Mr. Hardy observed to the occupant, "I may mention to you that this gentleman is no other than Mr. Rudyard Kipling." "Is that so?" she replied. "I never heard the name before." Presently Mr. Kipling, in turn, found himself alone with the lady, and remarked. "Possibly you may not be aware that the gentleman who brought me here to-day is Mr. Hardy, the eminent author." "Oh, indeed," was her reply, "I don't know his name."—London Chronicle.

Thought It Was a Dinner Plate.

Mrs. Benham—"The report of the baseball game says that one of the players died at the plate."

Benham—"Well, what of it?"

Mrs. Benham—"I suppose it was overeating that killed him."—Judge.

PICKING BILLIONS OF FLOWERS.

Work Where the Perfume Industry Is Carried On in France.

Grasse, in the southern part of France, is the centre of the perfume industry. There women and girls may be seen, with broad hats on their heads, gathering flowers from 5 until 11 A. M. and then returning with their fragrant burdens to the houses, where they pluck the leaves from the blossoms and pass the rest of the day in preparing them for the work of extracting the essences of essential oils, which contain the perfume itself.

In March they begin plucking violets, from which violet water is made, and from the beginning of May to the end of June they gather the jessamine, roses and orange blossoms, as well as the tuberoses in July, the mignonette in August and the cassia in September. The nimble fingers of the women must move rapidly to pluck the millions of leaves that go to make up the 1,200,000 kilograms of rose leaves alone that are used each season. Besides there are a million kilograms of jessamine to be plucked, and violets and orange blossoms to the extent of two million kilograms a year. To give an idea of the number of plants that are raised for this huge result, it is calculated that each stalk of jessamine yields two kilograms of blossoms a season. So there must be at least five hundred thousand stalks to yield the million kilograms required.

But the gathering of the blossoms is only the beginning of the work, for then the flowers must be picked apart and all the spoiled leaves thrown aside. Then the making of the perfume begins. The leaves are spread one by one upon layers of pure lard that cover plates of glass. Three or four times these flower-layers are renewed before the lard has absorbed all of the purfume that it can hold for the fat has a peculiar attraction for the essential oils of the flowers. This purfumed lard is the pomade of commerce, not the pomade used for hair or beard but the crude material out of which this is afterward manufactured. The lard is then either shipped as it is to other manufacturers, or put into alcohol which draws off the perfume from the fat, having a stronger attraction therefor than the lard and the result is the finest eau de cologne. Most of this pomade is shipped as it stands to all parts of Europe and America, but some of it is reserved and the oils are extracted by distilling processes, making the purest extracts.—Exchange.

A BROKEN HEART.

Queer Case of a Philadelphia Dog With Two Owners.

Do dogs die of broken heart? That is a question which has frequently excited the interest of dog physicians and of particularly fond owners of canine pets, and with a view to answering that question to a particular owner's satisfaction a post-mortem examination was held recently at the dog hospital of the University of Pennsylvania.

The animal in question was a huge, shaggy English-mastiff, white in color, and with a fond attachment for its master, C. B. Mellor of West Philadelphia. It seems that a dispute arose as to the dog's ownership, and one day it was taken away to Haverford by Andrew McPhillips, a drover. McPhillips claimed to have owned the dog two years, but Mellor claimed that the brute was but 16 months old, as the detention of the teeth would show. Mellor then swore out a warrant charging the drover with larceny, and the case was called before Magistrate Jermon in the city hall. Mellor's counsel demanded that a veterinarian be brought into court to testify that the dog's teeth proved to be less than 2 years of age, but the court had been advised that a dog's age could not be determined in that way, so the dog itself was ordered into court to act as a witness in the case. Court was then adjourned till the dumb witness could be summoned, and when the case was called for trial again it was found that the dog had suddenly died. McPhillips brought its body to the city hall in a wagon. The magistrate then quashed all legal proceedings on the ground that both parties in the suit seemed sincere in their claims to ownership. There was evidently a mistake somewhere.

But Mellor did not like the idea of the dog's sudden death, and declared that if his pet was dead it had died of a broken heart, caused by being separated from him, its right master. An autopsy, he averred, would prove it.

McPhillips scornfully gave up the body, and Mellor, with an officer of the Society for the Prevention of Cruelty to Animals, hauled the corpse out to the university veterinary and canine department. There Dr. J. N. Adams, the veterinarian, held a post-mortem examination to determine the cause of the dog's death.

The dog's heart, when cut into, was found to be swelled almost to bursting, and filled with dark, half-coagulated blood. The head and neck veins were swollen and blue, and in places a bloody serum had been forced through the walls of the blood vessels into the cavities of the body.—Philadelphia Inquirer.

Chinese Can Endure Pain.

"A very curious thing about the Chinese is their indifference to pain," said Dr. E. Z. Simons, the veteran missionary of Canton, who was in the city a few days ago. "We do a great deal of surgical work in the great city hospital conducted by the united missions at Canton, and it was at first supposed that there would be endless trouble in persuading the natives to take anaesthetics, but the doctors found, to their surprise, that anaesthetics were rarely needed, and that their patients endured the most serious operations without flinching the fraction of an inch. The average Chinaman will assume the required position and hold it like a statue. When the knife touches his flesh he begins a slight monotonous moan, and keeps it up until the ordeal is over, but he gives no other indication of pain. Whether this is due to nerve, bluntness or stoicism, or a combination of both, I have never been able to determine, but the fact remains that the Canton Hospital uses less chloroform or other drug than any other institution of the kind on earth." —New Orleans Times Democrat.

RUSSIA'S GREAT CANAL.

A Long Ditch To Connect the Baltic And Black Seas.

European papers and scientific magazines are occupying themselves pretty generally at the present moment with criticisms concerning the great ship canal which is destined to connect the Baltic with the Black Sea, work on which was begun last year by the Russian Government, and is being pushed forward with the greatest zeal, and at the same time with a quietness amounting almost to secrecy. When finished the work, on account of its immensity and the almost insuperable difficulty to be overcome, will be worthy of a place beside such modern wonders as the St. Gotthard tunnel, the Suez Canal, the tunnels of Frejus and the Simplon.

The projects offered for the construction of this really herculean labor were many and various, but the choice finally rested between two schemes—one, a proposition to unite the river Dnieper, which flows into the Black Sea, with the Dwina, which empties its waters into the Baltic at Riga; the other a plan to connect the Dniester, west of Odessa, with the river Vistula, which has its mouth at Danzica on the Baltic.

The first of these projects met with the special favor of Alexander III., and is the one which has been adopted for the carrying out of the great work of uniting the two seas. The route starts at Riga, following the course of the Duna River as far as Duneberg, where it is united to the Beresina by means of an immense course cut right through the country. The Beresina and the Dnieper are then used to complete the connection. The total length of the line is 1,600 kilometers, or about 1,000 English miles, 200 kilometers of the entire distance being artificially cut through the land. The work is to be finished in five years if all goes well and a sufficient number of men are kept at work during that period.

The canal is 66 meters, or about 307 feet wide, and about 30 feet deep, thus allowing the largest vessels means of passing from one sea to the other. Seventeen large ports, or artificial bays, are to be constructed along the line as well, each capable of containing a large number of ships, so that a Russian vessel, however large it may be, may make the entire transit in six days, without hindrance of any kind.

The cost of the work, at the lowest estimate, and taking into consideration the means at the disposal of the Russian Government as to the adoption of unpaid labor, will amount to about $120,000,000.

The principal of the reasons for the adoption of the above mentioned plan in preference to the Driester-Vistula project is that the whole passage is kept within the limits of the Russian Empire, thus allowing Russia absolute sovereignty over the entire course.

Putting aside the great political advantages given to Russia by the new enterprise, the gain commercially and economically will be an incalculable one, and beneficial in many more ways than one. With her great power and resources the great semi-Oriental kingdom is in position to carry out with ease works that, in their immensity, recall the wonders of ancient history, and before the undertaking of which a lesser power would retire discouraged.—Rome Correspondent New York Times.

CAT ADOPTS RABBITS.

Robbed of Her Own Litter She Is Content With Substitutes.

A cat on the farm of Andrew Harris, near McKeesport, Pa., has adopted four baby rabbits in the place of the litter of kittens which she recently brought into this world and which Mr. Harris thought the world could get along without. The day after the kittens disappeared the cat was observed carrying something in her mouth to the barn. Three times she was seen making the same journey, and then Mr. Harris made an investigation. He found, hidden in the hay, three baby rabbits. While he was looking at them puss appeared for the fourth time carrying another little rabbit in her mouth. It was deposited with the others and she lay down with them, purred with the greatest of pride and satisfaction.

The young rabbits are getting along finely. They hop all about with their foster mother. Mr. Harris is proud of his cat and is permitting her to raise her queer family undisturbed, except for the visitors who are constantly calling to witness this queer freak.

It Did Not Work.

"A good, strong bluff at the proper time is a very good thing, but it may fall flat," said a well known traveling man who is at present visiting Washington. "It was at one of the best hotels in Kansas City a few days ago that one of the guests stepped into the lobby to leave his umbrella, and not desiring to go to his room thought he would try a scheme of his own to prevent some one from walking off with it. Taking a slip of paper from his pocket in big black letters he wrote the following notice: 'Beware! The man who owns this umbrella weighs over two hundred pounds and can strike a ten-ton blow. He will be back in fifteen minutes.' It was not long after that some one was attracted by the sign, and he feared not the consequences of the dire threat. Quickly taking the coveted umbrella he removed the paper, and, turning it over, wrote on the back as follows: "The man who took the umbrella weighs less than one hundred and fifty pounds, but can walk ten miles an hour. He is never coming back.'"—Washington Times.

An Unsatisfactory Treatise.

She—Why should they say stolen kisses are the sweetest?

He—I think that it is due largely to the natural perversity of human nature. It is not so much due to the fact of any sweetness in the mere performance of osculation as to an adherent desire for that which is supposed to be unattainable. For instance, I read an article by an eminent sociologist on the——"

"It is getting real chilly out here on the porch. I think we had better go into the house."—Indianapolis Journal.

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

L. C. Hurtt, of Manasquan, has been visiting relatives in Plainfield.

Miss Tillie Snow, of Jersey City, is visiting relatives on Netherwood avenue.

Mrs. W. W. St. John, of West Front street, is visiting relatives in New Haven, Conn.

Peter Q. Merrill, of East Millstone, has been visiting his daughter, Mrs. John Whitenack, of Duer street.

Rev. W. E. Honeyman and wife, of Lincoln place, are spending a few days in the upper part of New York State.

Baggagemaster J. E. Garretson, of the North Avenue station, has been enjoying a visit from his brother who lives at Roycefield, N. J.

B. S. Braider, of Manning avenue, who fractured his leg some time ago, is steadily improving and expects soon to be able to get about the house.

Miss Eudora Grant, of West Fifth street, has returned to her former position as typewriter and stenographer at the law office of Winfield S. Angleman.

SPORTING.

GOLF

Tuesday last at the Hillside Tennis and Golf clubhouse seventy-six dinners were served by the steward. A large dinner party will be given at the clubhouse next Saturday evening.

A great deal of interest is centered in the approaching match play between A. R. Fisk and Lester Glenney in the final play for the Chapman Cup. It will be played next Saturday on the Hillside course.

Thursday, November 23d, at 10 o'clock in the morning there will be play for the Gilbert cup on the Hillside Tennis and Golf Club course. This is for mixed foursomes, handicap play, open to active and associate members, and is the last scheduled event for the season.

ROD AND GUN.

Harvey Moore, of West End Park, is on a hunting expedition with his friend John Long, at Martinville, where he will spend a few days.

FOUND DEAD IN BED.

Lorenz Ulrich Slept the Sleep That Knows No Awakening—Lived Here For Twenty Years.

Lorenz Ulrich, age 62 years, of 507 South Second street, was found dead in bed at his home yesterday morning by his daughter, who resided with him. For sometime past he had been complaining. Mr. Ulrich was a native of Germany, but for twenty years past he resided in this city and was employed as a tailor at Schepflin & Schultz's clothing establishment. He is survived by a daughter and a step-son. The latter lives somewhere in the west, but it is not known exactly where.

The funeral services will be held from the late residence Sunday afternoon next at 2:30 o'clock. In the meantime an effort will be made to get word to the step-son so that he can attend the funeral.

—The Sons of Veterans decided at their meeting last Tuesday evening to have a good time at the next regular meeting Tuesday evening, November 21st.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, Bronchitis, Hoarseness and all diseases of the Throat, Chest and Lungs are surely cured by it. Call on L. W. Randolph, Druggist, and get a free trial bottle. Regular size 50c. and $1. Every bottle guaranteed, or price refunded.

20th Century Black.

That's what we call the black dyed by our new method. If you have a suit of clothes or a dress, color out of style, or faded, we can make it a rich black that won't rub off. You'll practically have a new suit or dress at a cost so little as to not be worthy of consideration.

HILLIER & CO.,

Opposite Crosby & Hill's. 'Phone 851.

AT HACKETTSTOWN AGAIN

CENTENARY COLLEGE WILL BE REBUILT THERE.

The Authorative Decision Will Have to be Left to the Methodist Conference — Some Reliable Fac's About It.

A great many people, especially among the Methodists, will be anxious to learn something of the plans concerning the rebuilding of the Hackettstown Institute and the future welfare of that seat of learning which was destroyed recently by fire. The Daily Press is able to give authoritative information on the subject.

The main building was totally destroyed and the elegant structure is a mass of ruins. The only part saved was the two gymnasiums and the laborarory. The total loss was $250,000 and the insurance was $116,000. For the present the school will not reopen; but the Institute will be rebuilt in Hackettstown at a cost of not less than $300,000. There will probably be a series of buildings—a chapel, a dormitory for women and one for the men, a house for the furnace and boiler, a separate electric light plant. It will be in every sense fire proof. The Institute has long been the leading school of its kind in Methodism, and the new structures will be in every respect up-to-date.

The question of rebuilding lies with the Newark Conference of the M. E. church, and the trustees have decided not to interfere in any manner with the conference. The Institute has had a career of extraordinary success. The corner-stone was laid in September, 1869. At that time Rev. George H. Whitney, D. D., (now of Plainfield), was elected the president. He raised a large amount of funds, superintended the construction of the great edifice and remained president for twenty six years. On account of ill-health he resigned in 1895. We are happy to state that Dr. Whitney's health has greatly improved here in Plainfield since relieved of his duties.

The Institute had students from nearly every State in the Union and fourteen foreign countries were represented among the students. There was some talk of using the Hunterston Hotel as a school to continue the studies. This plan has been found to be undesirable and has been abandoned. The students will no doubt learn with deep regret that the school will not reopen for the present, but in the judgment of the trustees this plan has been deemed wise and for the best interest of all concerned.

MRS. EYLER HOLDS FAST.

Principal of Jersey's Industrial School Not Likely to Resign, but Asked to Apologize.

(Special to The Daily Press.)

Trenton, November 9.—It is evident that Mrs. Myrtle B. Eyler, principal of the State Industrial School for Girls, has no intention of following ex-Senator Skirm's suggestion that she resign. The board of trustees met yesterday and Mrs. Eyler was asked to apologize to Dr. Laura Satterthwaite for having refused her admission to the sick rooms of one of the inmates September 30th. It was believed that Mrs. Eyler would refuse to make the apology, but she readily did it in the presence of the board.

President McCullough, of the Board, called the teachers together and told them, in the presence of Mrs. Eyler, that if they would work together for the interests of the school they would be retained in their present positions. The trustees are apparently determined to keep the present force of employes in the school, from the principal down.

The Mercer county grand jury yesterday came into court, but it presented no bill against Mrs. Eyler, a result announced a couple of weeks ago, when the case came up. General Skirm upbraided his fellow members for allowing the secrets of the grand jury room to leak.

KLONDYKE FEARS BIG BILLS.

Dawson City Bank Dared Not Accept $100 Note.

(Special to The Daily Press.)

New Brunswick, Nov. 9.—Money in large denominations must be scarce in the Klondyke. A $100 bill which Dr. H. B. Baldwin sent to his son Harry in Dawson City was returned a few days ago. The young man could not get it cashed, as it was feared that the bill was a counterfeit. Recently the series was called in because a clever counterfeit had been put in circulation.

The bank in Dawson City feared the bill might be one of the counterfeits and refused to cash it. Dr. Baldwin sent smaller denominations to his son. He had no difficulty in getting the bill cashed in this city.

The third series in the bowling match will be played at the Y. M. C. A. tomorrow evening at 8:30 o'clock.

To Cure a Cough in One Day
To Cure a Cold in One Day
To Cure Sore Throat in One Day
To Cure Hoarseness in One Day

Take Cleveland's Lung Healer, 25c. Trial size free. If it fails to cure, your money will be refunded. T. S. Armstrong, the apothecary, corner Park and North avenue.

SCOTCH PLAINS WEDDING

VANDYKE-NICHOL NUPTIALS WERE PERFORMED LAST NIGHT.

Solemnized at the Home of the Bride's Parents Which Had Been Decorated in an Elaborate Form With Flowers.

(Special to The Daily Press.)

Scotch Plains, Nov. 9.—The leading social event and marriage of the season was solemnized at the home of Mr. and Mrs. Thomas J. Nichol last evening when their daughter, Avis Lillian, was joined in wedlock to Robert L. VanDyke, of Brooklyn. The home of the bride's parents had been transformed into a veritable Eden spot in honor of the happy event. Promptly at 8 o'clock the strains of the Lohengrin wedding march were heard by the guests, and shortly after the bride and bridegroom appeared.

The bride was attended by her three sisters, Miss Edna Marion and Miss Mary Florence as bridesmaids, and her youngest sister, Miss Louise Townsend, as maid of honor.

The couple took up their places under a pretty bower of white and green, when the Rev. Charles Herring, of the First Presbyterian church, of Plainfield, spoke the words that made them man and wife.

Immediately after the ceremony a reception was held, Mr. and Mrs. Van Dyke standing in the parlor and receiving the congratulations of those present. The bride was doubly congratulated in honor of not only her wedding day, but her natal day as well. Mr. and Mrs. VanDyke remained with the merry guests until 10:30 o'clock, when they left amid a shower of rice and best wishes to catch the Southern express, which was to stop at Fanwood by special orders to take the happy couple aboard.

The bride's dress was a rich and beautiful creation of white silk trimmed with pearl. She wore a bridal veil of white tulle and carried a large bunch of lilies of the valley. The bridesmaids wore white organdie trimmed with pink and carried pink crysanthemums, while the maid of honor was very pretty in a handsome dress of pink, the bride's favorite color.

The parlor decorations were white and green.

Guests were present from New York, Brooklyn, Elizabeth, Plainfield, Fanwood and Scotch Plains.

Mr. and Mrs. VanDyke, after a two weeks' trip visiting the points of interest through the south as far as Georgia, will return and take up their residence in Brooklyn where they will board during the winter.

GAVE THE BEST RETURNS.

Much Praise for the Accurate and Complete Election Returns of The Daily Press.

Congratulations were showered upon The Daily Press from all sides yesterday for the satisfactory and complete manner in which the election results were given to the public election night by the aid of a stereopticon and in yesterday's edition of The Daily Press. The Daily Press presented yesterday the only complete returns from the counties of Union and Somerset published in this city. The tables gave the results in accurate and concise form. The complete vote in the city was presented in a similiar manner.

Much facility in covering Union county was offered to The Daily Press by the Elizabeth Journal and Chairman C. N. Codding of the Republican county committee. The New York and New Jersey Telephone Company, through the courtesy of Manager Charles W. Bunyon, furnished an excellent service giving quick and accurate returns of Union and Somerset counties as well as of the State. The Postal Telegraph Company also gave good bulletins of the count in New York and other parts of the country.

CHURCH NEED NOT PAY.

Appeal Case of W. H. Abbott Against First Church of Christ Decided in Favor of the Latter.

The appeal case of W. H. Abbott, the well known insurance agent, vs. The First Church of Christ of this city, was tried yesterday in the Court of Common Pleas at Elizabeth before Judge Vail and a jury.

The action has been in justice court, before Justice Moffet on two different occasions. At the first trial the defendants were non-suited. On the second trial the jury rendered a verdict against the defendants for the full amount—about $50. At yesterday's trial the jury returned a verdict of no cause for action. Isaac P. Runyon represented the plaintiff and Coddington & Swackhamer the defendants. The case has attracted considerable attention among the lawyers as well as church people.

Guarantee of Title.

The guarantee of title for the Denton property at Woodland Park, has been transferred to the S. D. Drake Realty Company which will continue to improve the same.

The basket ball team of the Y.M.C.A. will meet the "Hudsons" of the Fifty-seventh street branch, of New York, Monday evening at 8:30 o'clock.

JOTTINGS OF THE DAY

ENTERPRISINGLY GATHERED AND CONCISELY TOLD BY REPORTERS.

Newsy Notes of More or Less Importance Bunched Together for the Ready Reference of Press Readers

—The W. S. S. initiated one new member at their meeting last evening.

—There will be a meeting of the Woman's Relief Corps tomorrow evening and a full attendance is desired.

—It is expected that there will be initiation this evening at the meeting of Franklin Council, No. 41, Jr. O. U. A. M.

—A tea will be given for the benefit of the Charity Circle of The King's Daughters, at the home of Mrs. Marion S. Ackerman, 107 Crescent avenue, Wednesday, November 22d, from 4 until 6 o'clock.

—The ladies' silver watch with the initials M. G. B. which was advertised in The Daily Press as being lost, was found yesterday by Miss Buckle, daughter of Councilman Buckle, and returned to the owner.

DEWEY IS MARRIED.

Wedded to Mrs. Hazen in Washington at 10 o'Clock This Morning.

(Special to The Daily Press.)

Washington, November 9.—Admiral George Dewey was married at 10 o'clock this morning to Mrs. Mildred Hazen, daughter of Mrs. Washington McLean. They were driven in carriages to the church.

In the party were Admiral Dewey, Mrs. Hazen, Mrs. McLean, Mrs. Ludlow, sister of the bride, and Lieut. Caldwell.

The ceremony occurred at St. Paul's church, Rev. Father Mackin officiating.

Lamp Was Blazing Up.

Last night Joseph Patterson, gazing out from his cigar store on West Front street, saw what he thought was a blaze in the photograph rooms over Putnam & DeGraw's store. He hurriedly notified Frank Putnam, and the latter ran up stairs and broke open the door. He found a big lamp blazing in a threatening manner. He succeeded in getting it into the street without much damage.

FEWER DELEGATES TO COUNTY CONVENTION.

Effect of Reduction in City Republican Vote.

CITY WILL LOSE SEVEN.

RESULT IN TROUBLES IN G. O. P. RANKS.

Leaders in First and Fourth Wards Were Conspicuous by Their Absence—First Ward Voters Turned Out and Kept up Normal Plurality But Big Slump in Fourth—Will be Felt at Convention.

The Republicans will have something with which to remember the election of last Tuesday when the county convention comes round next fall. The absence of the Republican voters at the polls will be felt in the delegation that goes down to Elizabeth to represent Plainfield. Instead of thirty-seven as the delegation numbered at the last county convention, there will only be thirty next year. The Democrats suffered in a similiar way but their delegation will only be one less than at the last convention.

At the last convention of the G.O.P. it will be remembered that there was a decided split in the local delegation and that the delegations from the First and Fourth Wards were on the defeated side. This factional strife continued right up to the time of the election to a certain extent, and, as a result, two of the prominent leaders in those wards made no effort Tuesday to get out the Republican vote.

City Clerk J. T. MacMurray has been very prominent in First Ward politics for many years. Since the fight over the postmastership, there have been two factions in that ward, commonly called the MacMurray and the McDonald factions. Just before this election Mr. MacMurray received a letter from the executive committee, couched in polite language, but taking away from MacMurray the appointment of the ward workers. MacMurray took the letter as an invitation that he was not needed and so, a business trip to the west, coming at this time, he took advantage of it and was not in Plainfield over Election Day.

In the Fourth Ward the executive committee carefully forgot Andrew McCardell, who is the head of the "machine" in that ward and a particular friend of Mr. MacMurray's, when it came to the appointment of the workers there. Mr. McCardell, who is superintendent of the foundry at the Pond Tool works, went to his duties Tuesday as usual. He voted, but took no other part in the election.

When it was generally known that the two "Macs" were not working and that supposedly their friends were following the same course, much interest was shown in the result. The result in the First ward was rather surprising. The Republican vote turned out and the plurality over the Democratic ticket was slightly increased over that of the previous year when Voorhees was elected Governor. In the Fourth ward the Republican plurality fell way down. The Democrats had their best organization there of any ward in the city, and it proved quite a factor compared with other years. While Mr. McCardell was conspicuous by his absence, Former Justice Wm. Newcorn, who had been the Fourth ward candidate for the Assembly nomination and had been defeated in the convention by S. C. Foote, was on hand early and took a prominent part in getting out the Republican vote. But for him and a few of his friends there would have been an even greater slump among Republicans of the Fourth.

The lack of interest in the Second and Third wards is the only way to account for the small votes in those wards. Both polled a smaller vote, the loss in the Second being the larger of the two.

The representation in the county convention of the Republicans is determined by the vote for coroner at the last county election. Each township, borough or ward receives one delegate for every fifty or fraction thereof over twenty-five cast for coroner at the last election.

The First ward had seven delegates at the convention last month and there will be no change this year. The Second ward will lose two delegates, for the next convention will find it entitled to only seven instead of nine. The Third ward delegation is reduced from nine to eight. The greatest loss is in the Fourth ward where there will be put eight delegates instead of twelve.

The Democrats base their representation in a similar manner, only the vote of the leading Assemblyman on the ticket, instead of the Coroner,

[CONTINUED ON PAGE 8.]

KNEW DEWEY YEARS AGO

JOHN J. WILLIS WAS WITH THE ADMIRAL ON THE MISSISSIPPI.

Former Now Lives Between Westfield and Cranford, and He Tells an Interesting Story to a Daily Press Reporter.

The marriage of Admiral Dewey to Mrs. Hazen in Washington, again brings the name of the famous warrior to the fore in public affairs. In this connection there are probably few people in this vicinity who know that they have in their midst one who is not only a personal friend of Admiral Dewey, but who ate, slept and fought with the present Admiral when he was a young man winning his spurs, yet such is the case. John J. Willis, who lives in a handsome residence at Oakland, a small settlement between Westfield and Cranford, being the man.

When a young man Mr. Willis was made clerk to Capt. McLanethon Smith, commanding officer of the Mississippi, of which vessel Lieut. George Dewey was the executive officer, and Mr. Willis stood by the side of Lieut. Dewey on the wheel house of the ship during the first great battle that the present Admiral was in, when Admiral Farragut with his fleet of gun boats ran up past the Fort Hudson batteries.

Mr. Willis is 62 years of age and he says that Admiral Dewey is the same age. In an interview with The Press representative Mr. Willis said that he did not go to New York at the time of the celebration in September as he would rather wait until a little later, when he expected the Admiral to visit him and then they could talk over old times without being bothered by a lot of politicians. Mr. Willis exhibited to the writer a little blank book which he said he had carried through the terrible battle, when more men were killed on the ship that Dewey commanded than died in the fleet at the battle of Manila Bay, and pointed out dark spots on the pages, which he explained was the blood of brave men who had been wounded during the engagement.

It was Mr. Willis' duty to take down all the items in regard to the battle, as he was compelled to report the battle to the Admiral of the fleet.

Mr. Willis has nothing but words of praise for the present Admiral. In telling of the battle of Fort Hudson, he says that when the ship went aground right under the largest of the enemy's guns, Dewey stood on the wheel house, while the enemy was sending a cross fire of heavy shot at the ship, and ordered the wounded off first and then the sailors and soldiers, and when they were safely ashore he ordered Ensign O. H. Batchelor, who is now captain of the Concord, to set fire to the ship. Then as the vessel blazed he, with Mr. Willis and Captain Smith, left the bark and drifted in a small boat down the river, to be picked up by one of the other gun boats. At this time there were two other ensigns on board the Mississippi, A. S. Barker, now captain of the Oregon, which played such a prominent part in the late war with Spain, and Ensign Sheppard, since captain in charge of the lighthouse service.

Mr. Willis says that everybody liked Dewey, he being a brave little fellow, a strict disciplinarian and "no kid gloves," although he always liked to look nice. Mr. Willis and the admiral were together a great deal at New Orleans during the time that the fleet lay there, and they often dined at the home of Admiral Farragut. Mr. Willis lost his hearing at the battle of Fort Hudson and shortly afterward left the navy, but he and Dewey kept up their friendship.

Pleasant Wedding Reception.

Last evening a very pleasant wedding reception was given to Dr. and Mrs. Marcus L. Clawson at their home on East Front street. The many people who had the pleasure of meeting Mrs. Clawson were greatly pleased with the hospitality extended by her and her husband.

St. Peter's Lutheran Fair.

The committee of arrangements, together with the ladies canvassing board of the undertaking, report that they are meeting with success in their advance work. Next Wednesday afternoon and evening the opening of the fair takes place.

Transfer of Real Estate.

The following transfer of real estate was recorded in the County Clerk's office at Somerville last week: George Hummer et ux., to John E. Hummer, North Plainfield.

—Woodhull & Martin have a fine line of driving gloves of the Dent and Meyers make which are offered at low prices.

—Fred Endress says if you do your marketing at his meat market there will be no fault to find. He considers a pleased customer his best advertisement.

STRUCK BY FAST EXPRESS TRAIN.

Thrilling Experience of Wm. Waldron and Silas J. Peney.

A VERY NARROW ESCAPE.

HURLED INTO THE AIR BY PHILADELPHIA "FLYER."

Were Driving Across the Central Tracks at Grove Street, Dunellen, With a Load of Corn Stalks—Their Wagon Reduced to Kindling Wood and the Men Severely Injured—They Will Live to Profit by Their Experience.

William Waldron, of Dunellen, had occasion to draw some corn stalks Wednesday evening. He secured Bill Laible's brown mare and with the assistance of Silas J. Peney started on his mission. The corn stalks were over toward New Market. To secure the "fodder" it was necessary to cross the tracks of the Central railroad at Grove street, in Dunellen. It was nearly 8:30 o'clock when the men started to drive home. When they reached the railroad tracks Waldron saw approaching a train. It was the Philadelphia express, due at 8:26. He remarked to Silas that he thought "she was standin' at the depot."

That was about the last thought either Bill or Silas had for sometime afterwards. When they came to and began to take an inventory of their surroundings some of their Dunellen friends were assisting them to nurse serious injuries. Their wagon had been struck by the train about 'midships. For a few moments after the flyer and the wagon met there was a mixture of corn stalks, wagon spokes, clothing, etc., flying through the air. Bill was found lying near the gutter, while Silas was gathering himself up a few rods in the rear. The wagon resembled somewhat a wash-tub that has fallen to pieces from too long exposure to the weather.

Fortunately the pilot of the engine struck the vehicle just aft of the horse, which made haste to reach home without further concern as to his driver. Waldron and Peney had narrow escapes from being killed and the railroad men express surprise at their escape with their lives. Neither of them are seriously injured. They were considerably bruised, however, and will be laid up for a few days. Dr. Brakeley is attending both men. Waldron was the more seriously hurt. His head was cut severely and his shoulders are lacerated some. Peney escaped with a good shaking up. He attributes his escape to the fact that he was riding on the rear end of the wagon when the train hit the conveyance.

What was left of the wagon was yesterday gathered up by the neighbors, who are using it for kindling wood. In speaking of the accident to an acquaintance Waldron said: "Gosh, I seen the train, but 'sposed it was standin' at the station and 'lowed we could beat the darn thing 'cross the tracks. Whew, but I cal'late we had a narrer escape from death. Bet your boots I'll be keerful next time."

FAREWELL RECEPTION.

John H. French, Retiring Superintendent of Metropolitan Life Ins. Co., is Given a Good Time.

A farewell reception was given to Superintendent John H. French, of the Metropolitan Life Insurance Company, last evening, by his fellow associates in the local office. They visited Music Hall and saw the production of "The Gunner's Mate," after which they had for their guest Mr. French and the new superintendent, Joseph W. Graham, who has come to this city to take charge of the Plainfield district. Mr. French will leave Plainfield in a few days with the very best wishes of those who have been associated with him in business, and his work in a new field will be watched with interest by every member of the local staff.

Among those present beside the guests of the evening were Medical Examiners Clawson and Pittis; assistant superintendents Fred Burner, John Naylor, E. Everett and J. McLoughlin, the latter but recently transferred from Pennsylvania, and twelve members of the agency staff. At the conclusion of the performance at Music Hall Mr. French entertained the party, after which all voted the evening's amusement a great success.

Senator Reed Guest of Honor.

Senator Charles A. Reed was the guest of honor last night at Passaic when the Board of Trade of that city gave a banquet. The Senator, in responding to a toast, made one of his characteristically humorous speeches in which he related some incidents of the recent political campaign.

MISSING MAN'S DEAD BODY FOUND IN SWAMP

The Remains Found Are Those of Frank Webster.

DISAPPEARED MONTHS AGO.

FORMERLY LIVED IN PLAINFIELD AND WORKED AS PRINTER.

Disappeared From Home Last May, and it is Thought That He Ended His Own Life, as He Had Frequently Threatened to Do—Wife Did Not See Body, but Recognized Husband's Clothes.

The badly-decomposed body found Wednesday afternoon on a bit of swamp ground between Frelinghuysen avenue and the Pennsylvania Railroad tracks, Waverly, was identified yesterday morning as that of Frank Webster, a printer, who disappeared from his home, 124 East Kinney street, Newark, more than five months ago, after threatening to commit suicide. Webster formerly lived in Plainfield and was employed as a printer by The Daily Press. The identification was made by the missing man's wife, Mrs. Frederica Webster, now living at 418 Washington street, Newark. She recognized his clothes and a spectacle case which he had when he left home.

It is believed that Webster took his own life. When he walked out of his home May 24th last his last words to his wife were, "I'm going crazy with pain. I can't stand it any longer, I'll kill myself."

His eyes troubled him greatly and he had spent much money trying to relieve them. He felt that his sight was leaving him rapidly, and he dreaded the thought of becoming blind. He was forced to give up his position as a printer with Amzi Pierson & Co., of 30 Clinton street, by whom he had been employed for twelve years.

For a week before he disappeared Webster acted strangely. He seemed to be out of his mind at times. "It's all because of my eyes," he said one day. "I'd rather die than go crazy, and if I become blind I'll kill myself anyway."

That very day he wandered from his home and was found in Rahway, where his wife's relatives live. He had walked along the Pennsylvania Railroad tracks all the way. He was taken in charge by his friends there and later brought back.

Again he disappeared May 24th and was last seen by his wife walking rapidly toward the Pennsylvania Railroad tracks a short way from their home in East Kinney street. He was then dressed in a black diagonal suit, with cutaway coat and black derby hat. He had on a black striped outing shirt.

The identification and the circumstances surrounding Webster's disappearance last May preclude the theory of murder, and the police are satisfied that there was no foul play, although the place where the body was found is notorious as a meeting place for rough characters.

Mrs. Webster was at work in the factory this morning when she was called on by Mrs. Annie Simons, of 133 East Kinney street, an old friend. The latter had read in the papers an account of the finding of the body, and from the description given thought it might be Webster.

Mrs. Webster immediately went to the morgue in Shipman street and examined the clothes.

"They are my husband's," was her exclamation. "Oh, poor Frank, I knew he killed himself."

She was not allowed to view the remains.

Annual Meeting of Organized Aid.

The annual meeting of the Organized Aid Association of Plainfield will be held in the parlors of the Crescent Avenue church, on the evening of November 13th, at 8 o'clock. Mrs. E. E. Williamson of the State Charities Association will speak on "The Benefits of Co-operation in Public and Private Charities; and the Progress in the State Care of Dependent Children."

Prospective Seventh Street Wedding.

Mr. and Mrs. George W. VonBoskerck have issued invitations for the marriage of their daughter Ethel, to William Seymour Tyler, Thursday, November 23d, at half-past six o'clock in Grace Episcopal church. A reception from 7 until 9 o'clock will follow at the home of the bride's parents, 542 West Seventh street.

Sold 130-Acre Farm.

Paul Beardsley, one of the most prominent men in East Millstone, has sold his farm of 130 acres to G. Spencer VanCleef. Mr. Beardsley is the father-in-law of George White, of Washington Park.

—Press want ads bring results.

HARD TIMES NOW FOR BRE'R RABBIT.

Hunting Season in New Jersey Opened Today.

MANY SPORTSMEN ARE OUT.

IT IS REPORTED THAT THE GAME IS PLENTIFUL.

Open Season for Hares, Rabbits, Quail and Gray Squirrels Began Today—Most of the Country in This Vicinity is Posted Against Trespassing and Hunting—Many Started Out, However.

"Good morning," remarked Bre'r Rabbit this morning as he halted beneath the veteran oak where the Gray Squirrel made his home. "Still survived?"

The Gray Squirrel shook his head, glanced uneasily toward the west whence came the distant baying of a hound. "They're after some of your family I guess. My sakes, but did you ever see such a batch of hunters in this country before? This opening of the season of murder of our families has completely shattered my nerves. I've been shot at six times already this morning. Why they were hear almost before daylight and keep coming all the time."

Just then the baying of the hounds drew nearer and Bre'r Rabbit departed for cover as the rest of his family was doing all day with more or less success. The open season for hares, rabbits, quail and gray squirrels opened in New Jersey this morning. Game is plentiful and so a small army of hunters, in which Plainfield had its quota, started out at an early hour this morning.

The opening of the hunting season in Jersey is always marked by a grand influx of sportsmen from New York and vicinity. The land owners in Union, Somerset and Middlesex counties have banded together to protect their property from the visitations of these invaders. The grounds have been posted with notices for the farmers have decided that what shooting there is shall be kept for themselves and their friends.

Around Plainfield and in Washington Valley game is reported to be very plentiful. Most of the country hereabouts is posted up with notices against trespassers, but, despite that fact, a great crowd of local sportsmen have gone forth after the elusive "cotton-tail" and the rest of them.

Among all the hunters there is at least one woman who started out this morning and is likely to meet with more success than most of the men. Mrs. Thomas Lindabury, of South Plainfield, is an excellent shot and only a few days ago brought down a wild duck at the South Plainfield pond. She started out this morning with her shotgun after rabbits and promises to bring home a bag full of game.

BACK TO NATIVE LAND.

Italian Under Bail Believed to Have Skipped and Left His Bondsman to Pay.

Union County Court constables have been searching at Roselle for Nibio Palmer, an Italian contractor, of Aldene, who, it is believed, has jumped his bail and gone to Italy. Palmer was under $500 bonds to await the action of the court for assaulting two men at Aldene. The Countess Penchetti, of Roselle, deposited the bail money with the National State Bank at Elizabeth, and John W. Whelan went security. A demand will be made for the security.

When the constables visited Roselle yesterday they found Palmer's wife in tears, and she could tell nothing regarding the whereabouts of her husband. He has not been seen at that place for over a month past.

Entertained the Euchre Club.

Miss Minnie Smalley, of Somerset street, entertained the Tuesday Night Euchre Club at her home Wednesday night, on account of the regular time being election day. Prizes were awarded to the successful contestants after which the guests enjoyed a dance.

Special Thanksgiving Service.

A special Thanksgiving service will be held at Faith chapel Thursday evening, November 30th, in commemoration of the fact that the building will be free of debt.

New Depot at Asbury.

The Central Railroad of New Jersey has broken ground for a new railroad station at Asbury, Warren county, to cost several thousand dollars.

New Passenger Locomotives.

The Jersey Central Railroad has purchased five new passenger locomotives which will be put into service this month.

TRAPPED IN A WELL.

DISCOVERY OF FATE OF MRS. F. D ELY'S DOG.

John LeMaire Finally Found the Collar and Skeleton of the Dog and Took Collar to Owner Yesterday Afternoon.

The mystery concerning the disappearance of "Jing," the valuable bull terrier belonging to Mrs. F. D. Ely, daughter of T. B. Brooks, of Rockview avenue, has been solved at last. The canine disappeared on August 30th. From that time until yesterday Mrs. Ely was unable to find any trace of him. "Jing" was advertised for and a reward of $50 and then $100 was offered for the return of the dog or his collar.

A few days ago, while Wilbur Smalley, of Jackson avenue, was wandering about the site of the old Hyde barn, near Norwood and Jackson avenues, he found the old well, some eight feet deep and entirely dried out. The top was overgrown with weeds. In the well were the remains of a dog.

Smalley told John LeMaire, of Jackson avenue. Yesterday morning, LeMaire and James Babbitt went to the old well. LeMaire climbed down and removed the collar which was marked with the name "Jing." The collar was returned to the Brooks residence yesterday afternoon.

It is supposed that the dog accidentally fell into the old well and was unable to get out again and finally died there of starvation.

SPARKS SET FIRE TO ROOF.

They Came From a Burning Hedge—One Extinguisher Put Out the Blaze.

An alarm of fire was sent in this morning at 10:40 o'clock from Box 143, corner of Grandview avenue and Somerset street, by Grocer Currin. The fire was discovered on the roof of the house occupied by Mrs. Oldman, and her daughter, Mrs. Reilly, at 97 Grandview avenue, which was caused by sparks from a burning hedge at the home of Mr. Perrin, two doors away. The fire was detected by John J. Kline, a painter, nearby, and Fred Ross, of the Atlantic and Pacific Tea Company, and through their efforts the fire was extinguished.

The fire department responded in its usual good time. The firemen were only obliged to use one extinguisher to entirely put the fire out. The damage will amount to about $12, and it will take a couple of days to patch up the opening in the roof which is quite large.

LAMP BRACKET BROKE.

Falling Lamp Started Blaze in Kitchen of Carl Hansen, McIntyre Building.

A lamp bracket broke in the kitchen of the flat of Carl Hansen on the fourth floor of the McIntyre building, 171 North avenue, last evening at 6 o'clock. The lamp tumbled down and set fire to the woodwork of the kitchen. An alarm was sent in from Box 21, corner of Watchung and North avenues, by C. M. Raybert. The shouts of "fire" had already notified the fire department, and the apparatus was on the way when the alarm was sent in.

The woodwork and some clothes in a closet burned brightly for a few minutes, but Mrs. Hansen set to work with pails of water and had the fire practically out before the department arrived. The damage will amount to $15, and is covered by insurance.

Money and Man Missing.

The Coremakers' Union, under whose auspices a dance was given last evening in the Crescent Rink building, is mourning the loss of about $40 which is missing. There is also missing a member of the Union, and the supposition is that both the money and man have gone off together. Every effort is being made to locate the man and bring him back.

Bargain Days at Crosby & Hill's.

Today and tomorrow will be bargain days at Crosby & Hill's dry goods store, and the bargains will eclipse any before offered. A glance through the firm's advertisement will give an adequate idea of what can be bought for a small sum. Almost everything needed in the home and the goods are first quality and seasonable.

Books Sold at Auction

The annual meeting of the Book Club was held last evening at the home of Mr. and Mrs. E. H. Ladd, Jr., Stelle avenue. The auction for the sale of books took place. These books are bought up by the members once a year and then donated to the various charities about the city.

—J. W. VanSickle, the North avenue butcher, has an extra fine assortment of turkeys, chickens, and seasonable game of all kinds, that can be purchased at reasonable prices.

—The Board of Health has the few contagious disease cases in the borough well under control.

RAILROAD FIREMEN SUDDENLY MISSED.

Was Employed on Central Freight Locomotive.

W. A. FRAZEE IS HIS NAME.

LAST SEEN OF HIM WAS ON NEWARK BAY BRIDGE.

Went Out on Sideboard of Locomotive and Probably Fell Off—Steven Brown, of Dunellen, Was the Engineer Working With Him—No Trace Has Yet Been Secured of the Man.

One of the most mystifying accidents recorded in recent years occurred last Saturday night near the Newark Bay bridge. It was the strange disappearance of a fireman employed by the Jersey Central Railroad.

The missing man's name is W. A. Frazee. His home was at 73 Broadway, Brooklyn.

He was a fireman on the engine run by Stephen A. Brown, of Dunellen, which draws a coal train between Communipaw and Mauch Chunk. The start was made all right Saturday evening and before the train reached the Newark bay bridge Engineer Brown gave instructions to his firemen to give him more steam as it was rather low. Just previous to that order the fireman walked out on the engine and fixed the headlight. The engineer gave the order immediately afterward. There was no response from the fireman, but Mr. Brown had every reason to believe that his assistant was attending to his duties, and for a few minutes paid no attention to the matter.

Just as the train was going on the bridge the engineer noticed that the steam was getting still lower, and that the fire must be attended to. He then called again to his fireman and told him that if he did not give him more steam he would have to attend to the fire himself. Again there was no response. This frightened the engineer and he left his place, at a safe distance, to see what had become of the fireman. He was horrified to learn that he was not to be found. When the man was missed the train was nearly across the bridge. The train was then brought to a standstill and another search was made for the fireman, but without any success.

The engineer blew his whistle and called for the head brakeman. When the latter responded he, too, searched, but could not find the man. It was then decided to go to Elizabethport and telegraph back to Jersey City for orders. Word came back from headquarters to sidetrack the train, take the engine and go back and look for the fireman. This was done, but again all efforts proved fruitless. The result of the search was telegraphed to Jersey City, after which Engineer Brown was given another fireman, and the train proceeded on its journey.

Up to yesterday the mystery was still unsolved, and what has become of the fireman cannot be learned. A theory is offered that the man may have had a sick spell or an attack of heart trouble and may have fallen off his engine into the water, where he was drowned. The engineer is sure of two things, and that is that the fireman was on the engine before they crossed the bridge, and that he was not to be found after the bridge was crossed. The fireman has been in the business for some time, but was only recently assigned to the engine with Mr. Brown. He was a young man, very ambitious and well liked by his engineer and those who knew him. An effort will be made to learn if his body is in Newark Bay.

Death of a Former Plainfielder.

Word has been received in this city of the death of Peter Wortman Field, which occurred in New York yesterday very suddenly. Mr. Field was formerly a resident at 109 West Seventh street, but he has been away from here for some time. He was a merchant and engaged in business in New York. The funeral services will be held next Monday morning at 10:30 o'clock at his late residence, 138 West 81st street, New York, and burial will take place at Bound Brook on arrival of 1:30 o'clock train from New York. The deceased leaves a wife and one son.

—Use Press want ads.

—Mrs. W. L. Remson will make an address to the Young Women's Mission Band of Trinity Reformed church tonight at 8 o'clock. Everybody welcome.

—Automobiles are interesting to everybody. We will have catalogues shortly and a running model by December. Agency, William W. Moore, U. S. Motor Vechicle Company, 310 and 312 Park avenue.

LITTLE DAMAGE WAS DONE

Boers Again Attack Ladysmith Without Result.

THE BRITISH AT COLENSO

Major Sargent of the Natal Carabineers Killed in Battle.

British Forces Maintain a Vigorous Defense—The Soldiers Wounded in Hand-to-Hand Fight Present Frightful Appearance—Dispatches Sent by Carrier Pigeon Post.

London, Nov. 10.—Colonial Secretary Chamberlain has received the following despatch from Natal:

"The Premier has received this dispatch by carrier pigeon post from the commandant of the volunteers at Ladysmith: " 'I sent a native messenger on Monday reporting an engagement on that day. I doubt if the message reached its destination as the messenger has not returned.

" 'Major Sargent, of the Natal Carabiners, was killed. Eleven local troopers were wounded.

" 'Nothing important has transpired since.

" 'The hospital will remove three miles to the south.

" 'The bombardment has been resumed but no particular damage has resulted.' "

The British transport Roslyn Castle, with General Hildyard and the staff, 1,000 men from the Second Devonshire and the Second West Yorkshire on board, has arrived at Cape Town. Four other transports sailed from England the same day, October 19.

A dispatch from Estcourt, says:

"Signs are abundantly manifest that a movement is contemplated by the British troops here; but their destination is kept a profound secret."

England Will Send More Troops.

London, Nov. 10.—There was tremendous enthusiassm Thursday night at the banquet given by the new Lord Mayor, in the Guildhall. Premier Salisbury made a speech outlining the British policy in South Africa.

General Lord Wolseley, Commander-in-Chief of the British forces, in replying to the toast "The Army," stated that it was likely that another division, in addition to the corps already called out, would be placed in the field. If necessary, he stated, a second army corps would at once be mobilized.

Lord Wolseley stated that there were 53,000 men under arms in the army corps called upon for service in South Africa. Of this number he announced that all but 9,000 have started for the scene of war.

Wounded Doing Well.

London, Nov. 10.—General Buller, in a dispatch to the War Office says:

"Colonel Kekewich telegraphs from Kimberley, that all is well there. There has been no serious attack as yet, only a slight bombardment, which did no damage.

"Colonel Plumer has had a successful engagement near Fort Tuli.

"General White reports by pigeon post that among his wounded are some civilians. These, by an arrangement with General Joubert, have been removed to a neutral place of safety four miles down the railway.

"Ninety-nine wounded from Dundee have been sent in under a flag of truce. They are all doing well.

Says News is Gratifying.

London, Nov. 10.—"On the whole, the news from South Africa is even gratifying," says the Evening News. "All the details now coming in as to the fighting around Ladysmith prove conclusively one fact—that the skill and daring of the British in anything like a close conflict are inspiring the enemy with holy terror of the British and our swords and boyonets, while they are further dismayed by our effective Lee-Metford rifle fire at 2,900 yards' range, which the Boer Mausers are not able to cover." As to the general military situation, it is practically unchanged.

Evaded Boer Patrols.

Estcourt Natal, Nov. 10.—Two civilians have just arrived from Ladysmith. They evaded the Boer patrols. Ladysmith is completely invested, they say. The artillery duel is continuous. The Boer guns are slightly superior. The British forces maintain a vigorous defense. Fighting is going on daily. On Friday a battle occurred in three directions. The main attack was made on the Boer batteries on Ambulawana Hill. The British loss is about 150 men. The accumulating reports from the different divisions that took part in the fight show that the Boer losses were far heavier.

The Boers raised a white flag and firing ceased. The British approached them, believing they had surrendered. When the troops got within short range the Boers opened fire. The British charged at once. The infantry, with fixed bayonets, and the Lanciers, Hussars and Dragoons swept through the Boer lines. The Boers fought like demons. The Gordon Highlanders lost heavily, but the Boer loss was awful. The wounded presented a fearful appearance. Noses and ears were missing from many. This was the result of the bayonet and sabre charge and the hand-to-hand fight.

On the same day fighting took place toward Colenso. No detail of the scope of the operations there or of the casualties were obtained. The operations were continued on Saturday. Gen. White then requested of Gen. Joubert permission to allow the women, children and non-combatant males to withdraw from the town to escape the bombardment. Gen. Joubert replied, inviting all non-combatants to come under the protection of the Ambulawana guns. He said that the males having borne arms would have to become prisoners of war. The Mayor of Ladysmith at once called a mass meeting of the inhabitants to consider Gen. Joubert's offer. The township decided not to accept any terms of the enemy. The meeting broke up singing the national anthem showing the characteristic spirit of the colony.

YUKON CLEAR OF ICE AGAIN.

The Klondike Seems to be Favored With Pleasant Weather.

Seattle, Nov. 10.—The steamship Cottage City has arrived with late Yukon news. Ex-Governor John H. McGraw of this state has been appointed United States Court Commissioner at Cape Nome.

Warm weather is reported on the Yukon and the river has cleared of ice again, enabling several more vessels to move.

The Canadian Delevopment Company is establishing relief and supply posts at intervals of twenty miles along the Yukon between Bennett and Dawson.

The United States District Court convened at Juneau Nov. 1.

Nine men charged with murder are booked for trial, the most important of which is the case against J. Homer Bird, formerly of New Orleans, who must answer to the accusation of murdering R. H. Patterson and James H. Hurling on the Yukon a year ago.

TO ESTABLISH NEW SERVICE.

Marine Transportation Line From Chicago to Liverpool.

Chicago, Ill., Nov. 10.—The Times-Herald says: "Direct transportation by water from Chicago to Montreal and possibly to Liverpool, for both passengers and freight, is soon to be established by the Illinois Transit Company, a new transportation line recently incorporated in this city. The company includes some of the best-known marine men on the lakes, and it is said to have unlimited capital back of it, which will enable the new line to compete with the largest ship owners on the lakes.

"The practicability of the project was established by the enlarging of the Welland Canal, which was completed recently. Three vessels are to be placed in the service at the beginning and others are to be added as they are needed."

Why the Marsh Will is Contested.

New Haven, Conn., Nov. 10.—The Union charges that Robert H. Water's reasons for contesting the will of Prof. Marsh are that Yale University, through its officers and agents, used undue influence with O. C. Marsh, which induced the latter to give his whole fortune to the university. It is said that Marsh believed that immorality came through acts on earth and that his halucinations were encouraged by the officials. The original will was probated last June after a contest.

Want to Do Business in New York.

Albany, Nov. 10.—The Prussian Inrance Company, which under a legislsurance Company, which under a legisness in this state because of Germany's prohibitive laws against the American companies, has filed with Superintendent Payn a new application to do business, on the ground that Germany's prohibition has been removed. The papers were filed on Monday, but Superintendent Payn says he will not give a decision for some days.

Lady School Commissioner Cheered.

Rochester, N. Y., Nov. 10.—Mrs. T. Montgomery, the newly-elected School Commissioner, was given an unusual welcome in honor of her victory by the State Federation of Woman's Clubs. She came in with Susan B. Anthony, and the ordinary Chautauqua salute was not deemed sufficient. Three cheers were lustily given, many of the club-women jumping up on their chairs in their enthusiasm.

Two Marine Accidents.

Boston, Mass., Nov. 10.—The schooner Charles S. Davis, from Philadelphia, inward bound, went ashore on Toddy's Rock, just below Hull, while making the port. She was pulled off, leaking badly. The four-masted schooner C. L. Davenport from New Orleans with a cargo of molasses, came into port reporting the loss of one of her sailors fn a gale. She also lost her suit of sails.

Brave Fireman Passes Away.

New York, Nov. 10.—Deputy Chief Benjamin A. Gicquel, of the Fire Department, died Thursday at his home, No. 249 West Forty-eighth street, of ascites, an enlargement of the liver, after having been confined to the house for nearly two weeks. Mr. Gicquel, who was fifty-seven years old, was one of the most efficient men in the service and his record for bravery was one of the best.

Two Passengers Killed.

Syracuse, N. Y., Nov. 10.—Two persons were killed while riding in a trolley car that was struck by a Delaware Lackawanna & Western train near Homer. Frank Newton and Miss Margaret Kennedy, both of Homer, were the victims. The motorman was seriously injured. Nothing of the car was left excepting splinters. The train was derailed by the collision.

Fitz is After Jeffries.

New York, Nov. 10.—Bob Fitzssimmons intends to issue a challenge, accompanied by a big forfeit, to Jim Jeffries. Fitz says he will be ready to fight within three months. "I am glad Jeffries is still champion. Now I will have a chance to win my lost laurels. I have been defeated only once in my career and I think I am entitled to the first chance at my conquerer."

Republican Club Incorporated.

Albany, N. Y., Nov. 10.—The Freedom Republican Club of the Thirty-second Assembly District of New York City, formed for social and political purposes, has filed articles of incorporation. The directors are: Saul J. E. Rosenthal, Edward Weil, Robert E. Woods and Joseph S. Handley, of New York City.

Mistook Son for Burglar.

Williamstown, Ky., Nov. 10.—Sam Brock, an aged farmer living near Owenton, mistook his son for a burglar and stabbed him, inflicting a fatal wound. Brock has disappeared and it is feared he has committed suicide.

Fire at Rochester Driving Park.

Rochester, N. Y., Nov. 10.—The grand stand and buildings of the Rochester Driving Park have been destroyed by fire.

WHEATON LANDS TROOPS

His Forces Drive the Filipinos Back at Dagupan.

ADVANCING EASTWARD.

Natives Beyond Talavera and Aliaga Defeated by the Americans.

Americans Suffer Slight Casualties—Marines Arrive at Mare Island, En Route to the Philippines—Some Portions of the Island of Luzon Are Still Submerged.

Manila, Nov. 10.—Rough weather prevented Gen. Wheaton, commander of the expedition to the northwest of Tarlac, from landing his men near St. Fabian, the point on the Lingayen Gulf where it was intended they should go ashore. The naval vessels shelled the coast for some time. The Filipinos remained in their trenches and did not reply until the surf-boats with the troops were near the shore. Then they opened a heavy fire. Some of the shells perforated the boats, but only two Americans were wounded.

The troops were landed and immediately charged on the enemy and drove them from the trenches. When the gunboat Manila, which brought the news here, left Lingayen Gulf, Gen. Wheaton was marching his men in an easterly direction. He has the 13th regular Infantry, the 33d Volunteers (Col. Hare's regiment) and a battery of artillery—in all about 2,500 men.

It is said Aguinaldo, having found the Province of Tarlac uncomfortable, especially after the movements of Lawton and Wheaton began, has designated Bayonbang as his new capital and is moving as rapidly toward that point as possible. It is about seventy-five miles to the northeast of Tarlac and 166 from Manila. The insurgent leader is supposed to have selected this town for a new capital, not because of the friendly attitude of the inhabitants nor as the means of strengthening his army, for there only is a population of about 23,000 in the whole province of Nueva Vizcaya, but because he regards it as a rich province, which will maintain his army and, also one where the mountains will serve as a barrier for defense.

News From Gen. Otis.

Washington, Nov. 10.—The following message has been received at the War Department:

"Manila, Nov. 9.

"Gen. Wheaton successfully landed an expedition at Lingayen, west of Dagupan, on the afternoon of Nov. 7, against considerable opposition, with slight casualties. A rough sea did not permit landing at San Fabian, north of Dagupan, as was directed. He is moving eastward. MacArthur seized Mabalacat, on the railroad, the 7th inst., Col. Bell taking same on directed reconnoissance. The opposition was slight. Gen. Lawton is at Cabanatuan. Troops beyond Talaberb and Aliaga have met with slight opposition, the enemy being driven back in all instances. The country is still submerged, but the water is falling. The troops will move more rapidly as soon as conditions permit. Hughes moved against Panay natives. OTIS."

The Mare Island Strike.

Mare Island, Cal., Nov. 10.—The striking shipwrights at the Navy Yard are still out. A committee of men had a conference with Commandant Kemff, who said that it was not in his power to permit them to return to finish their work on the Hartford until he had received instructions from the Navy Department.

Marines En Route to Manila

Vallejo, Cal., Nov. 10.—The third battalion of United States Marines, consisting of 15 officers and 320 men, has arrived at Mare Island en route to the Philippines for shore duty at Cavite.

New Lake Freight Line.

Chicago, Ill., Nov. 10.—The Illinois Transit Company of Chicago, with a capital stock of $50,000, has been incorporated. James H. Channon says that the new company is to enter the freight carrying trade on the great lakes next season, to operate between Chicago and Canadian ports. Mr. Channon is vice-president of Channon & Company shipbuilders of this city.

Andrews Elected Justice.

Watertown, N. Y., Nov. 10.—It is announced here that William S. Andrews, of Syracuse, is elected Justice of the Supreme Court, to succeed G. A. Hardin, of Little Falls, in the Fifth Judicial District, including Jefferson, Onondago, Oneida, Herkimer, Lewis and Oswego counties, by 12,506 plurality over Howard Wiggins, of Rome.

Boilermakers Go on Strike.

Akron, O., Nov. 10.—Four hundred men employed at the works of the Stirling Boiler Company at Barberton have struck because three union men were discharged. The company is engaged on a large contract for Cramps for the new Russian cruisers now being built at Philadelphia.

Sir Thomas Lipton Home.

Southampton, Nov. 10.—Sir Thomas Lipton was interviewed upon his arrival here and reiterated his enthusiastic utterances in regard to America. Sir Thomas intends to offer the steam yacht Erin to the British Government for use as a hospital ship.

Menelik to visit Czar.

St. Petersburg, Nov. 10.—The Turkish and French Consulates at Odessa have been informed that King Menelik, of Abyssinia, will arrive in May next and will pay a visit to the Czar while on his way to the Paris Exposition of 1900.

Dreyfus Case Amnesty.

Paris, Nov. 10.—It has been reported in the lobbies of the chamber of deputies that the government will initiate a plan for declaring amnesty in all cases connected with the Dreyfus affair.

SHOE DEALERS

All sell shoes at the same figures, that is they all have shoes at 1.50, 2.00, 2.50, etc., but the great question is which dealer sells the best wearing quality and the most "taking styles?"

We are too modest to say that we are "that house," but the people who have worn our shoes for the last 15 years, and are coming right along after them today tell the story for us. If you are wearing our shoes you are wearing the very best that is made, that is all there is about it.

DOANE & EDSALL.

TO EXPLORERS, MINERS AND SPORTSMEN.

The Miner, Explorer or Sportsman wants a general medicine that will keep in any climate and not be spoiled by wetting in water, salt or fresh. Such a medicine is Ripans Tabules (of the standard sort), put up in boxes of six vials, each vial securely corked and containing six Tabules. They cost fifty cents a box or two dollars for five boxes. May soak a week in water without wetting the medicine. Can be had of any druggist, or by mail from the Ripans Chemical Company, No. 10 Spruce Street, New York.

DEWEY WEDDING IS OVER.

The Admiral and Mrs. Hazen United in Marriage.

CEREMONY IS HASTENED

Wedding Feast Served at the Residence of Mrs. McLean.

Again the Hero of Manila Wins a Quick Victory—It Surprises His Friends, But, as Usual, He is Ahead of Time—The Handsome Bride—They Arrive in New York.

Washington, D. C. Nov. 10—Admiral George Dewey and Mrs. Mildred McLean Hazen were married Thursday at St. Paul's Catholic Church by Rev. James F. Mackin.

The reason given for this unexpected hastening of the ceremony was Mrs. Dewey's nervous condition. The sudden notoriety, the rush of the reporters and interviewers from near and far, the column of near and fictitious matter in the newspapers, the plague of curiosity seekers, both at home and during her visit to New York, so suddenly cut short, were undermining the health of the modest little woman, and it was decided that the sooner she became Mrs. Dewey

(Mrs. Dewey, nee Hazen.)

and dropped out of public sight the better it would be for her health and happiness. Hence the sudden rush of Lieut. Caldwell to the marriage license bureau Wednesday and the subsequent proceedings of so much interest to the public.

Admiral Dewey wore a black frock coat and gray striped trousers and a dark overcoat. Lieut. Caldwell acted in the capacity of best man.

The ceremony was strictly private and of the simplest character. It was held, not in the body of the church, but in the rectory. There were no guests whatever. At the close of the ceremony Admiral Dewey grasped Father Mackin's hand and said: "Father, I am greatly pleased to have been married by you, for I know that at one time in your life you were a sailor."

After the ceremony the Admiral and Mrs. Dewey entered a carriage and were driven to the residence of Mrs. Washington McLean, where a wedding breakfast was served. The party then left for New York.

Admiral Dewey's wife, nee Mrs. Hazen, is the widow of Gen. William P. Hazen. She was Mildred McLean, and is the daughter of the late Washington McLean and the sister of John R. McLean, editor of the Cincinnati Enquirer, and also of Mrs. Ludlow, wife of Gen. Ludlow.

Mrs. Dewey is rather under the average size, but she does not give the impression of being a small woman, because of the grace with which she carries herself and the certain proud little way her dainty head is set upon her shoulders—an inheritance direct from her beautiful mother, Mrs. McLean, who is conceded to be the most patrician woman in appearance and bearing in Washington's most exclusive circles. Watching Mrs. Dewey walk across the room a stranger might conceive the idea that there was something of the De Vere in her manner, but once to look into her dark eyes would instantly dispel such an impression.

Mrs. Dewey's wedding gown was of gray—to be accurate, zinc gray—and it was trimmed with oxidized silver. According to the report of her friends, the other handsome dresses in her trousseau are of silks, brocades and satins, in many colors.

Admiral Dewey and Bride Cheered.

New York, Nov. 10.—Admiral Dewey and his bride accompanied by Secretary of War Root, arrived in Jersey City Thursday night from Washington. They took the ferry to Twenty-third street, New York.

As the Admiral alighted from the train many cheers were given for the hero and Mrs. Dewey. The latter wore a black lace dress a black bonnet and a bouquet of violets.

Admiral Dewey was attired in a black Prince Albert, light trousers, black overcoat, silk hat and patent leather shoes. There was a great crowd present when the bridal couple alighted, and the male portion raised their hats as the cheers were given to the newly wedded pair. Mr. and Mrs. Dewey took a cab and were driven to the Waldorf-Astoria where they will stop while in the city.

Smashup on Union Pacific.

Cheyenne, Wyo., Nov. 10.—An eastbound Union Pacific freight train was wrecked five miles west of here. Six cars were piled up and 400 feet of the track damaged. A broken rail probably caused the accident. John Culbertson, a brakeman, has not been seen since the accident, and it is believed he is buried under the wreck.

IVORY SOAP PASTE.

In fifteen minutes, with only a cake of Ivory Soap and water, you can make a better cleansing paste than you can buy.

Ivory Soap Paste will take spots from clothing; and will clean carpets, rugs, kid gloves, slippers, patent, enamel, russet leather and canvas shoes, leather belts, painted wood-work and furniture. The special value of Ivory Soap in this form arises from the fact that it can be used with a damp sponge or cloth to cleanse many articles that cannot be washed because they will not stand the free application of water.

DIRECTIONS FOR MAKING.—To one pint of boiling water add one and one-half ounces (one-quarter of the small size cake) of Ivory Soap cut into shavings, boil five minutes after the soap is thoroughly dissolved. Remove from the fire and cool in convenient dishes (not tin). It will keep well in an air-tight glass jar.

COPYRIGHT 1898 BY THE PROCTER & GAMBLE CO. CINCINNATI

TROUBLE IN KENTUCKY.

Election so Close That Both Sides Now Claims It.

Louisville, Nov. 10.—The State is on the verge of civil war. Later reports materially reduce Tayor's majority, and Goebel's followers now confidently claim his election.

The Republicans declare that Goebel is preparing to count Taylor out, and swear that they will install their candidate anyway. Several have already been killed as a result of election troubles, and men are arming all over the State, ready to battle for their favorites.

At Lexington all is turmoil and excitement in political circles, and a report of some bloody crash is momentarily expected. Threats of violent revenge for fraud are heard on both sides. Both Republicans and Democrats are claiming that the victory at the polls is theirs, and the situation is becoming desperate in the extreme. Reports from many parts of the State show that the excitement everywhere is intense, and it is feared that the count cannot be completed without bloodshed.

Murmurs of lynching, bayonet rule, seizing of the Gubernatorial chair, issuing of mandamuses wholesale arrests and other sensational threats from both parties are being made throughout the State.

Later returns received by the Courier-Journal give William Goebel Democrat, a plurality of 2,070 votes for Governor over Taylor, Republican. These figures are based on returns from 1,798 out of 1,863 precincts. Of the seventy-two missing precincts twenty are in the Republican Eleventh district seven are in Republican counties of the Tenth district, thirty-one are in Democratic counties of the Tenth district and the remaining fourteen are scattered among various districts.

CLERK GIVES HIMSELF UP.

Says He Doesn't Know Why He Took Employer's Money.

Richmond, Va., Nov. 10.—Stanley E. Koeppel, of Jersey City, a self-confessed absconder, has been arraigned in the police court here and his case continued ten days, to permit of communication with the authorities in Jersey City. Koeppel is a handsome, intelligent-looking young fellow. He lived with his mother in Jersey City Heights and was employed as clerk in the grocery store of Anton A. Heimsoth. He was on several occasions entrusted with money by his employer to convey to the bank and on one occasion handled as much as $200. Last week, however, when he got $62 to deposit, he boarded a southern train with the money. He arrived in Richmond last Monday night and loafed around until Thursday afternoon, when he went to the police station and gave himself up. Koeppel said that he had no special reason for stopping in Richmond and landed here merely by chance. He says that he did not know what induced him to take the money, as he could gain no advantage therefrom, and he had no particular reason for leaving home.

Minister Probably Murdered.

New York., Nov. 10.—Rev. William Hart Dexter, of Nyack, who left the Fifth Avenue Hotel a week ago to go to Springfield and of whom no word has been heard since, was probably murdered and robbed.

The first clue that indicated that he might be a victim of foul play was received by his wife yesterday, in the shape of a letter that had been forwarded to her from Springfield. It was from the firm of T. S. & J. D. Negus, dealers in nautical instruments, at 140 Water street this city.

The letter told that on Friday last—the day after Dexter started from the hotel to take the New Haven boat—Mrs. Mary O'Neill, janitress, at No. 140 Water street, had picked up a Masonic pin in the hallway with Dexter's name on it. Three feet away she found a key attached to a metal tag, numbered 3, evidently belonging to a stateroom.

The emblem had been suspended from a watch chain and attached to it were several links. The place where the charm had parted showed that it must have been subjected to a powerful wrench.

Detective Cronin, of headquarters, who was detailed to the case, soon found that Dexter had engaged passage on the New Haven boat on Thursday of last week afternoon. He was assigned to stateroom 3, putting his valise inside, left the steamer He did not return after that. But the police and the detectives believes the minister was murdered.

Death Seems Suspicious.

Mount Vernon, N. Y., Nov. 10.—The body of a man apparently about 40 years old, was found near the New York, New Haven & Hartford Railroad tracks in Wakefield. The police believe he was struck and killed by a New Haven train. The back of the head was crushed in. The man was well dressed in gray coat and trousers, with underwear of good material, a white alpine hat and black shoes. Not a scrap of paper or a cent in money was found on the body, or anything that could tend to establish its identity. This, and the fact that the only apparently serious injury is the crushed skull, are the suspicious features of the case. The Wakefield police have taken charge of the body.

It Was an Important Meeting.

Paris, Nov. 10.—The Berlin correspondent of the Gauolis says the interview at Potsdam between Emperor William and the Czar resulted in decisions of the highest importance, which will have considerable consequence in modifying the policy of the two powers.

Carpenter Dies of His Injuries.

Cleveland, O., Nov. 10.—Clarence A. Carpenter, assistant chief engineer of the Lake Shore road, died Thursday at the Cleveland General Hospital as the result of being struck by a passenger train at Saybrook on Tuesday last.

Hotel Manager Found Dead.

Highland Falls, N. Y., Nov. 10.—H. G. Clapp, aged fifty-five years, of New York, manager of Cranston's Hotel on the Hudson, was found dead in his office Thursday. His death is attributed to heart failure.

Shopmen Threaten to Strike.

Cheyenne, Wyo., Nov. 10.—A strike of the Union Pacific shop force here, numbering more than 500 men, is threatened. The machinists and the boiler-makers, who are paid 32½ cents an hour, have made a request for an increase to 35 cents an hour. Superintendent McConnell, of the motive power department, who is here referred the request to President Burt, and pending as answer the force of machinists decided to quit work. It is reported that if the increase is not granted a strike will follow.

To Remove Yukon Obstructions.

Vancouver, B. C., Nov. 10.—The Canadian government will begin operations as soon as ice has been solidly formed to clear the Yukon River of the obstructions said to menace navigation at Rink Rapids, Thirty Mile and Five Finger Rapids. An appropriation of $50,000 has been made for the work. The Dominion telegraph line is to be extended from Dawson to Fifty Mile.

Senator Hanna Ill Again.

Cleveland, O., Nov. 10.—Senator M. A. Hanna is suffering intensely again from rheumatism as a result of his out-door work in the campaign. He will go to New York next week for treatment. The Senator finds campaigning and rheumatism are incompatible.

THE MARKETS.

New York, Nov. 10.—Leather was again the feature at the opening of the stock market to-day. It began a fraction higher and immediately dropped 1 1-4 points. Other issues were generally at an advance. New York Central advanced 1½ points.

Cash quotations for provisions:
Wheat—Active. No. 2 red, 74⅛.
Corn—Slack. No. 2, 40⅛.
Oats—The market was quiet and rather easier. No. 2 oats closed, 29c.
Rye—Market firm. No. 1 Western, 63c.
Flour—Spring patents, $3.75a4.10.
Pork—Steady; new mess, $9.25a.
Sugar—Dominos, 5.44c.

Nov. 21—Lecture by Dr. W. R. Richards for the benefit of Y. M. C. A. Subject—"Oliver Cromwell."

Blames the State Committee.

Though Congressman Daly, of Hudson county, has been holding office for a good many years, and has been a conspicuous light in the Democratic party in New Jersey, he is not a good politician. He talks too much. The trouble with Congressman Daly's talk at the present time, from a practical political standpoint, is that it is not directed at "the other fellow," but it is aimed at his own party organization.

The result of the election Tuesday has put Mr. Daly in a loquacious mood, and he slam bangs around in a terrifying manner for Democrats. He charges the Democratic organization with a total lack of energy and aggressiveness, and charges up the Republican victory in this State to Chairman Gourley and his associates on the State committee.

To be explicit he says: "The Democracy of this State will now probably realize the truth of what I have heretofore said about the inefficiency of the present State Committee to manage the party's affairs, and that something must be done to restore harmony in the ranks. New material must be selected—men in whom the Democrats of the State have confidence—to manage the party's affairs. Otherwise defeat will always stare us in the face."

Congressman Daly is rapidly resolving himself, as a Democrat, into a chronic kicker.

Reed's Majority 1,157.

The exact vote in Somerset county, as nearly as it can be determined without the official canvass, shows that Senator Reed's plurality will be 1,157. Assemblyman Cooper's plurality is 1,592.

The two districts in North Plainfield borough gave Senator Reed his heaviest vote, Bound Brook came next in the size of the vote and the fourth district of Bridgewater was fourth in the line. Rocky Hill borough and Millstone borough each gave Senator Reed forty-two votes, the smallest that he received in any district or town in the county.

Mr. Bergen's heaviest support was in the first and fourth districts in Bridgewater township. His smallest vote was in Millstone borough where he received only 17 ballots.

Lunger, the Prohibition candidate for Senator, received 229 votes.

During the campaign in Somerset county there was a good deal of gossip about the story that if Senator Reed was re-elected he would use his influnce to secure the re appointment of Judge Bartine to the county court bench in return for favors the latter had shown him. Astute politicians doubted the story, but the Bound Brook Record, which supported Senator Reed, comes out this week with the following about the story: "It has been reported in many papers that if Senator Reed was re-elected Judge Bartine would be his own successor on the bench. Judge Bartine is an impartial judge and Gov. Voorhees knows it. In judicial cases politics should not enter and Judge Bartine should be supported by all the press, irrespective of party."

As a contribution to the discussion as to whether five cents is cheap enough for a ride on a street car it may be noticed that Senator Hoar always buys six car tickets at a time when he is in Washington, because it makes the price five sixths of a cent cheaper for each ride than if he bought one at a time. He says: "I am comfortably off, but I never felt I could afford to pay five cents for a ride when I could get six for a quarter."

Of the Senators who will vote for a successor to United States Senator William J. Sewell, whose term expires March 3, 1901, the Republicans now have a majority of seven. In the House the Republicans number forty four and the Democrats sixteen, a Republican majority of twenty-eight.

Chauncey M. Depew says that the result of the elections means Bryan and McKinley again in 1900. Chauncey has been an unwise prophet at times, but the prediction above will doubtless put Chauncey in the class of "I-told-you-sos" after the National convention.

All the Republican pluralities in Elizabeth have been increased 100 by an error in counting the vote in the First district of the Fourth ward. The error makes the plurality for Joseph Cross for Senator in the county 2,418.

The Democratic organization is not discouraged in the least, but is ready to go straight ahead in putting the local Democracy on something like a business basis, say the leaders in the movement.

The local politicians will have to get in some fine repair work on their fences for city election within the next three weeks.

NEW BICYCLE MOTOR POWER

Two Levers Attached to Lower Frame Takes the Place of Cranks, Sprocket Wheels and Chains.

A bicycle with an entire new method of applying the necessary power has been placed on the market and has just been introduced into Plainfield by its agents, W. W. Moore and Maurice A. Audsley. The bicycle is the Wilford-Hall.

The Wilford-Hall has no crank, sprocket wheels and chain. Instead there are two levers attached to the lower rod of the frame, running from the rear wheel axle to the joint where the crank axle in the usual style of safety is located. These levers are connected with the rear wheel by two chains that run up over pulleys at the angle of the frame just beneath the saddle. A ball-bearing clutch transfers the power to the rear wheel. An ordinary pedal is attached to the ends of the levers and the power is applied vertically, allowing a long or short stroke as the rider pleases. These strokes can be made at any interval to suit the rider. Much is claimed for the wheel for easy riding and as a remarkable hillclimber.

IMPORTANT CASE ARGUED.

Mrs. Sarah Milliken's $10,000 Damage Suit Against City on Account of Sewage Beds.

The action of Mrs. Sarah A. Milliken against the city of Plainfield was argued today at Trenton before the bar of the Supreme Court. Mrs. Milliken has sued the city for $10,000 damages to her property, which adjoins the sewer beds at Dunellen, and she maintains that the sewer beds are a nuisance. The case has been in the lower courts and was referred to the Supreme Court for settlement.

The plaintiff is represented by Coddington & Swackhamer, with Senator Charles A. Reed as assistant counsel. Craig A. Marsh, corporation counsel, looks after the city's interests.

A QUIET WEDDING.

Mrs. Anna Louise Stutzman Becomes Wife of James S. Pray.

A very quiet wedding took place last evening at 235 East Sixth street, when Mrs. Anna Louise Stutzman, nee Brown, formerly of Westfield, became the wife of James S. Pray, of Westfield. Rev. George Francis, pastor of the Westfield Baptist church, performed the ceremony in the presence of just a few of the very near relatives. The groom is a prominent resident of Westfield, and is associated with the Erie Railroad. His wife is also well-known at the above place, but for sometime past has been residing in this city. The couple will take up their residence at the home of the groom.

Good Horse Was Injured.

This morning while Dr. H. H. Lowrie, of Park avenue, was driving along North avenue opposite the railroad station, his horse slipped in a wet place and was severely cut on all four legs. The most serious injury was that received in the fore legs, and the blood flowed profusely. The doctor was at once assisted by a number of hackmen in getting the animal on his feet. He was afterwards able to drive the horse home.

GIVE THE CHILDREN A DRINK

called Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee but is free from all its injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant but a health builder, and children, as well as adults, can drink it with great benefit. Costs about ¼ as much as coffee 15 and 25c.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

AMERICAN STEAM LAUNDRY,
122 East Front Street.

A Grand Free Exhibition For Saturday.

OUR HOLIDAY GOODS are now here and most of them are on exhibition, and a right royal show they make; one well worth seeing. You are cordially invited to bring in the little folks and let them feast their eyes upon what is newest and most desirable in the "Realms of Toydom." Such an array of dolls, horses, guns, drums, swinging-horses, milk wagons, coal carts, stoves, dishes, dolls' sets, whips, go-carts, blocks, games, etc., is well calculated to make the eyes of the children sparkle with pleasure, and cause the hearts of older people to beat a trifle faster.

This Exhibition has cost us a stupendous amount of thought and work and a large outlay of capital, but it will cost you nothing to see the whole show on Saturday.

There Will Be Other Attractions.

Among them a case of ladies' fleece-lined ribbed vests, made of Egyptian cotton, extra weight and very elastic. They were made to sell for 50c each. An occasional spot of oil or some other slight imperfection make the price 25c while they last.

"Florence" Combination Suits.

Full bleached, beautifully finished and perfect fitting, at 98c, $1.25 and 1.75 per suit.
Children's heavy fleece-lined shirts and drawers. Special for Saturday, 25c each
Dr. Denton's sleeping garments for children, 50c, 75c, 98c
Infants' cashmere, ribbed vests, open all the way down the front, 50c, 69c, 75c
Infants' wool bands, very fine, 35c
Excellent line of childs' knit socks, boottees, mittens, etc.

Have you seen our Silk Floss Cushion Pillows?

Cost less than half the price of down pillows. 16 x 16, 19c; 18 x 18, 25c; 20 x 20, 39c; 22 x 22, 50c; 24 x 24, 59c.

Miscellaneous Novelties.

A choice line of spangled dress nets at $1.48, 1.98, 2.48 and 2.98. Plain dress nets at 98c $1.19, 1.35, 1.50 and 1.75. Corded silks, tucked chiffons, shirred chiffons, embroidered chiffons, shirred chiffon trimming, etc., etc. All new and desirable. An excellent assortment of taffeta and double-faced satin ribbons with cord edge.

Also beaded guimps, silk guimps and mohair guimps for dress trimmings.

A line of side combs, pompadour combs, and shell back combs of unusual attractiveness. A special job in belt buckles, about 75 styles, at half usual price.

Fountain Pens We have secured agency for the Paul E. Wirt fountain pens—every pen fully warranted by makers. Prices range from $1.50 to 4.00

A special gold fountain pen at 98c.
14-karat gold guard chains, $1.98 to 6.00.

SATURDAY SPECIALS.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Daily Press.)

Dunellen, November 10.—Arrangements have been made by the pastors of the several churches of Dunellen and New Market to hold Thanksgiving services at the Seventh-Day Baptist church Thursday evening, November 20th, at 7:45 o'clock. Rev. Dr. Jamison will preach.

The teachers of the Presbyterian church Sunday-school will hold a pumpkin pie social in the chapel of the church next Tuesday evening.

Mr. and Mrs. George W. Churchill and family attended the wedding yesterday at Westfield of Jennie Williams and Lyle Morehouse.

Detective Decker, or Elizabeth, has forwarded to Justice Warden a package of pens and penholders to be used in his office.

Garretson & Gray have contracted to supply the crushed stone for the Dunellen Bound Brook road.

Miss Lillie Warden has been entertaining her friend, Miss Viola Sherwood, of New York.

Services will be held at St. John's Catholic church Sunday morning at 8 o'clock.

PLAINS AND FANWOOD.

(Special Correspondence of The Press.)

Scotch Plains, Nov. 10.—Bible Day exercises will be held in the Baptist church Sunday afternoon at 3 o'clock. Rev. Mr. Shott, Superintendent of the Sunday-school, has arranged an interesting programme for the day. Rev. George Francis, of Westfield, will make the address.

The pulpit of the Episcopal church is still vacant, caused by the resignation of Rector Pendleton. Until the church settles upon a regular pastor the pulpit will be occupied each Sunday by a supply.

Mrs. Thomas M. Paff, Sr., Mrs. Thomas M. Paff, Jr., and Mrs. Wm. Gere attended the seventh wedding anniversary of Mr. and Mrs. Charles Grant, at Plainfield, last evening.

Goodwill Lodge, K. of P., met in their rooms last evening, routine business being transacted. One new member was initiated into the mysteries of the order.

The hunting season opened for rabbits this morning. Nearly every one in town who owns a gun or can borrow one is out in search of the little cottontails.

The Epworth League Literary Society of the Methodist church held one of their interesting readings in the class room of the church last evening.

Mr. and Mrs. Charles W. Brown and family have moved to Elizabeth so as to be nearer to Mr. Brown's business in New York.

Mr. and Mrs. Irving W. Quereau, of New York, have been visiting Mrs. Quereau's parents, Mr. and Mrs. Geo. W. Randolph.

Rev. Mr. Lewis, of Pennsylvania, has returned to his home after a pleasant visit with friends in town.

Miss Hannah Hayes, of Fanwood, is spending two weeks with Rev. and Mrs. J. S. Braker, at Waltham, Mass.

Rev. Mr. Woodruff will occupy his pulpit again Sunday after an absence of two weeks.

WESTFIELD

(Special Correspondence to The Daily Press.)

Westfield, Nov. 10—Yesterday in front of a large bank of cut flowers, with the picture of her dead father prominently displayed, Miss Jennie A. Williams, daughter of Mrs. Jane Williams, became the bride of Lyle W. Morehouse. The bridemaids were the Misses Mair Williams, Lillian Williams, Beth Morehouse, Marion Keeler, Edith Cowperthwaite, of Westfield; Miss Ada Russell, of New York; Miss Charlotte Pierson, of Trenton, and Miss Janie Churchill, of Dunellen. The ushers were Harry P. Condit, of Westfield; John Bentley, Brooklyn, and Wellington P. Francisco, of Caldwell. The bride was attended by her sister, Miss Evangeline A. Williams. The best man was Walter Gould Morehouse, of Plainfield.

There will be a joint meeting of the Local and County Christian Endeavor Unions at the Baptist church Tuesday evening of next week. J. H. Biglow, Jr., of Plainfield, will conduct the devotional exercise, and Miss Florence Hawkins, of Plainfield, will have charge of the conference on "How Can We Make Christian Endeavor What God Intended It to Be?"

The Plainfield High School football team was defeated by the Lincoln High School team on the Broad street grounds Tuesday afternoon by a score of 26 to 0.

THE AMUSEMENT WORLD

CURRENT ATTRACTIONS THAT PLAINFIELDERS MAY WITNESS.

Local and Metropolitan Performances That Will Please Those Who Delight in the Art of Thespis and Mimic World.

There are two scenes in "The Sidewalks of New York," the new comedy drama which is to be seen at Music Hall tomorrow night, which have received the unstinted praise of the press. One is the life-like picture of Heral Square after dark showing the beatuiful New York Herald building, as it appears nightly. All the varied human types that can be shown in that part of the famous "Tenderloin" district—of which is truly said "the world never goes to bed"—are here delineatd. Hardly less effective is the representation of an old distillery and shot tower by the East river in the next act. Here a woman is thown into the river. The hero dives head foremost from the tower to her rescue. This exciting climax is effected by Paul J. (Splasher) Tustin, who exchanges place with the real hero for the moment. There is a rich vein of humor as well as picturesque and sensational elements in "The Sidewalks of New York."

* * * *

In the new musical novelty "A Chinese Romance," which Manager Maze Edwards offers for Monday evening at Music Hall, will be found the love entaglement of an over anxious lover of the Celestial Kingdom who overstepped the proverbial laws of 400 years ago, when children were betrothed in their childhood. "Tsai Tien" and "Ahluta" are thus promised to each other and according to the proverbial laws of the Kingdom are not permitted to see one another until the day of their marriage. "Tsai Tien," however, oversteps the bounds by going into the "Imperial Joss House" in disguise, with the sole idea of getting a glimpse at his affianced. This act is promply reported by conspiring enemies to the Prime Minister. Only for influences brought to bear upon the royal household, the youthful lover escapes being put to death by a timely reprieve from the Emperor. Throughout the play will be found ludicrous entangelments, funny situations and bright melodies.

* * * * *

"The Gunner's Mate," a melodrama dealing with the American navy, written by Wm. McKiernan, the dramatic editor of the Newark Sunday Call, and Hugh J. Gallagher, was given its first production in Music Hall last night under the management of Augustus Pitou. It is in four acts and five scenes. A capable company gave it a clever presentation. The scenery was elaborate and realistic, the principal scenes being representations of the gun deck of the U. S. cruiser New York in the second act and the forecastle and fire room of the cruiser in the third act. Throughout the piece the usual melo-dramatic elements—the hero-lover, heroine, villain, etc.—were interwoven in an interesting love story that led up to several exciting climaxes that were handled in a style to win great applause from the large audience. As Clement Carroll, the gunner's mate, Nestor Lennon was seen to excellent advantage. He imparted an energy and manliness to the character that kept up the interest throughout. Miss Beatrice Vaughan, in the leading female role, was afflicted with a severe case of stage fright. When the show gets into good running order she will doubtless give a smooth and sympathetic impersonation of the heroine, but last night she was so nervous that at times it was almost painful to witness her struggle to make dramatic elements overcome the fidigety feeling that a first night imposes on even the best of actors and actresses. The rest of the cast was strong and acted in a way to assure the success of the piece. Unfortunately, Mr. Pitou's stage manager was taken sick just before the performance last night, and compelled to go to New York. This caused some delay in handling the large amount of scenery. Mr. Pitou was obliged to personally supervise the stage throughout the evening. Several New York theatrical men were out to see the performance and declared it a success. It will be seen at the Fourteenth Street Theatre this winter.

Red Hot From the Gun

Was the ball that hit G. B. Steadman, of Newark, Mich., in the Civil War. It caused horrible Ulcers that no treatment helped for 20 years. Then Bucklen's Arnica Salve cured him. Cures Cuts, Bruises, Burns, Boils, Felons, Corns, Skin Eruptions. Best Pile cure on earth. 25cts. a box. Cure guaranteed. Sold by L. W. Randolph, Druggist.

EARLY INTELLIGENCE.

—Huyler's candy at Leggett's pharmacy. Fresh supply just received.

—City taxes will be due Nov. 20th, and after that date they will be delinquent.

—The foundation for Mason W. Tyler's new house on West Eighth street is about completed.

—There will be initiation at the meeting of Washington Camp, No. 38, P. O. S. of A., next Monday evening.

—Silas Dewey Drake, of Lincoln, will give a big dinner to a number of business men at his home Thanksgiving Eve.

—A few evenings ago Dr. Carroll, of the borough, gave an interesting lecture in the M. E. church, Jersey City, on Porto Rico.

—At the meeting of Mizpah Lodge, No. 1, U. O. of I. O. L., next Monday evening, a number of Supreme Lodge officers will be present.

—Buy your shoes of Flynn Brothers, 222 West Front street, and you will find you will wear them out in comfort. They are made with care and of good material.

—The new structure being erected for Hope chapel is so arranged that it can be opened in connection with the old part and one large room can be arranged to seat a large crowd.

—City Steam and Hand Laundry, 19 Somerset street, say to use common sense in sending out your lace curtains to be cleaned; careful handling is necessary. No one ever complained of their work.

Brave Men Fall

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache, and tired, listless, run-down feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: "Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me new strength and good appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50 cents, at L. W. Randolph's Drug Store. Every bottle guaranteed.

Y. M. C. A. NOTES.

The Young Men's Literary Society of the Y. M. C. A. will meet Monday evening at 8 o'clock. All young men are invited.

Frank O. Bristol, of this city, who is popular with the boys of the Y. M. C. A., will talk to his friends at the boys' rally Sunday afternoon at 4:15 o'clock.

Lokal-Nachrichten aus der alten Heimath.

Provinz Westpreußen.

Danzig. Von den Fischern in der Ostseebucht zwischen Heisternest und Oxhöft-Adlershorst wird gegenwärtig sehr über das Ueberhandnehmen von Seehunden geklagt.

Elbing. Von den Stadtverordneten wurde zum zweiten Bürgermeister Assessor Sause gewählt.

Thorn. Die hiesige Strafkammer verurtheilte den Polizeisergeanten Paul Pache von hier wegen Körperverletzung im Amte zu einem Monat Gefängniß. Derselbe hat einen Arrestanten in der Wachtstube so gestoßen, daß dieser auf eine Bank fiel, und am Halse gewürgt, so daß Blut aus dem Munde floß.

Rheinprovinz.

Köln. Der Finalabschluß der Stadtkasse für das Etatsjahr 1898—99 weist einen Ueberschuß von 1,018,245 Mark auf. Von demselben sind 100,000 Mark als Beitrag zur Erhaltung des Siebengebirges bewilligt worden.

Coblenz. Dieser Tage fiel der letzte Rest des Mainzer Thors. Damit sind sämmtliche Festungsthore von Coblenz geschwunden.

Elberfeld. Der Notariatsgehilfe Fischer von hier, welcher dem Notar Rueter 17,000 Mark entwendete und flüchtig wurde, hatte sich in Batavia dem deutschen Konsul gestellt, nachdem ihm bei einer Ruderpartie eine Brieftasche mit 10,000 Mark in's Meer gefallen war. Dieser Tage wurde Fischer hier eingeliefert.

Solingen. Bei den diesjährigen Manövern im Landkreise Solingen sind nicht unbedeutende Flurschäden entstanden, für deren Abschätzung drei Kommissionen thätig waren. Es wurden im Ganzen 3717 Parzellen als entschädigungsberechtigt anerkannt und eine Entschädigungssumme von 37,184 Mark bewilligt.

Provinz Sachsen.

Halle. Der Gutsbesitzer Hochheim aus Schafstädt, der den Landwirth Bezold durch polnische Arbeiter in der rohesten Weise mißhandeln ließ, wurde zu sechs Monaten Gefängniß verurtheilt.

Mühlhausen. Hier starb im Alter von 82 Jahren der Sanitätsrath Dr. Zimmermann am Herzschlag. Derselbe gehörte der städtischen Verwaltung seit dem Jahre 1852—30 Jahre lang als Armen- und Krankenhausarzt und seit 1883 als Stadtverordneter—an. Unermüdlich war er für das Wohl der Stadt thätig; für die Armen und Schwachen hatte er ein warmes Herz. Als alter Achtundvierziger war er ein eifriges Mitglied der freisinnigen Partei.

Provinz Schlesien.

Beuthen. Rechtsanwalt Stephan, der Vertreter des Centrums im Reichstage und Landtage für den Wahlkreis Beuthen, legte beide Mandate nieder.

Karlsruhe. Im Garten des hiesigen Schlosses, welches dem Herzog Nikolaus von Württemberg gehört, wurde ein Denkmal des Herzogs Wilhelm von Württemberg, des österreichischen Heerführers, der sich um die Pazifikation Bosniens verdient gemacht hat, aufgestellt.

Rybnik. Der Gemeindevorsteher Gardian zu Wilchwa wurde auf der Landstraße Nachts überfallen und ermordet. Die Mörder stießen Gardian ein Stemmeisen in den Unterleib.

Provinz Schleswig-Holstein.

Altona. Hier hat ein britischer Werber dem Kutscher Draeger Unteroffiziersrang und hohen Sold in der britischen Armee angeboten, wenn er sich nach Südafrika anwerben lassen wolle. Draeger gab dem unverschämten Burschen eine kräftige Antwort und rief einen Schutzmann, um den Kerl festnehmen zu lassen. Der aber entfloh, ehe sich der Schutzmann seiner Person bemächtigen konnte.

Rödding. In Kjöbenhoved wurden drei Knechte und zwei Mädchen des Hofbesitzers Ludwigsen ausgewiesen. Als Grund wird angegeben, daß der Dienstherr eine politische Versammlung besucht hat. Ferner hat ein Dienstmädchen des Hofbesitzers Hörlyk in Erloff Ausweisungsordre erhalten.

Provinz Westfalen.

Münster. Die bakteriologische Abtheilung der landwirthschaftlichen Versuchsstation wird in nächster Zeit wirksame Kulturen des Löffler'schen Mäusebazillus in den Verkehr bringen. Die Abgabe soll für Westfalen und Lippe kostenfrei erfolgen.—Der Kultusminister erklärte sich bereit, zu Ostern nächsten Jahres ein staatliches evangelisches Progymnasium hier zu errichten.—Die Klavierfabrik Gebrüder Knake, die 70 Arbeiter beschäftigte, ist ganz niedergebrannt.

The fat undertaker,
Who plants by the acre,
Poor victims of cough and cold,
Is sighing and crying,
For we've all stopped dying
Since Brazilian Balm was sold.
And for those who desire
Not just yet to go higher
It is worth its weight in gold.

For sale by all druggists. L. W. Randolph, Wholesale Agent,

SKIRTS.

They May Be Long or Short, as Occasion Demands.

The short skirt is doing its best to maintain ground against the trailing skirt for the street, and certainly it is much neater and more healthful. Many expensive tailor made gowns have skirts which do not trail at all, and when the long skirt is adopted for walking it is held up in the hand. For house wear, however, the

HOUSE COSTUME.

train is universally seen and is long or short, according to the class of costume.

All skirts are long in front and cover the feet, except those special skirts meant for athletic sports or wet weather.

Tailor made gowns of cloth of most distinguished style are very plain, without extraneous trimming or complicated colored revers. Such gowns rely on perfection of cut for their charms, and the decoration is simple, consisting of lines of stitching of white or colored silk—blue, orange or red, for example—and small but fine buttons having a jeweled effect. Sapphires, turquoises, rubies, amethysts, crystals and emeralds are all used, and the stone is selected to harmonize with the stitching.

The indoor costume illustrated is of mohair. The lower skirt is tobacco brown, while the tunic is a lighter shade and is scalloped and stitched around the edge. The brown bodice has a front drapery of the lighter shade, with scalloped edges, the drapery being fastened by a steel buckle. The brown sleeves have lighter, scalloped caps. The belt is of brown velvet, with a steel buckle.

JUDIC CHOLLET.

WINTER GOODS.

Fashionable Materials For Cold Weather Costumes.

Cloth and velvet, alone and in combination, are to be much worn. The new cloths are seen in great variety and are as glossy as satin. They may be had in both light and heavy weight and will compose very elegant gowns. As for velvet, its reign promises to be royal. It forms entire costumes and is still more extensively used for trimming, stitched

CLOTH BODICE.

velvet collars, cuffs and revers being the latest finish for jackets. Velvet in combination with plaid wools is a favorite for children's wear, and velvet hats, plainly covered or draped, are a feature of winter millinery, the velvet sailor hat rivaling that of felt.

Fancy velvets less formal and serious than the plain kinds are to be much worn as costumes for young girls. There are also velveteens and corduroys of fine quality, intended for children's use, which are so attractively colored and woven as to look almost like silk, and as they are much less expensive and are very durable their suitability for little people is obvious. White velveteen, which is said by the manufacturers to wash as well as a pocket handkerchief, is largely employed for frocks for very little children.

The bodice shown in the cut is of plum colored cloth. The bolero reaches the waist line at the back, while in front it is cut away, meeting over the breast, where it fastens with two ornamental buttons. The revers are of plum colored silk, and the bolero is finished with lines of white stitching. The vest and high collar are of mauve and white plaid silk and have tiny crystal buttons set in two rows. The cravat is of plum colored silk.

JUDIC CHOLLET.

KELLY AT MANILA.

No Hero, But Just Did His Duty as Others Have Done.

Laying a submarine cable in a driving rain, using field wire wrapped in tape and covered with a rubber cement for insulation is one of the feats of Edward E. Kelley, second lieutenant in the volunteer signal corps of the United States army. This feat alone stamps "Big Kel," as his friends are fond of calling him, as a man of more than ordinary mold. Yet this is but one of dozens of incidents in which he participated in the war in the Philippines. Mr. Kelley won his spurs in action, practiced on a man-eating crocodile quadruple his length with a Gatling gun, dashed over Filipino trenches with the first flag raised in Luzon and otherwise distinguished himself in the field. He commanded the advance detachment of the signal troops in establishing lines between the firing line and the rear at Manila.

Mr. Kelley is a singular personality. He is as big as the pet name indicates, for he stands something over 6 feet 2, has enormous breadth of shoulders, is deep chested like a splendid racer, has calm, cool blue eyes and scant hair with a tinge of sunset in it. With all his bulk he has a voice as mild and cooing as that of a gentlewoman.

"Big Ed" has a career behind him which is in itself an object lesson. He served for seven years as a telegraph operator in Chicago. He is 33 years old, has acquired a fine education by his own exertions, and has kept his ultimate purpose steadily in view. At Chicago, working a key on a night trick he put in his leisure time at the Chicago College of Law.

Mr. Kelley finished his law studies and went to North Dakota and began the practice. He succeeded at once, and when the war broke out was enjoying a comfortable practice in his new home. But when the Maine went up in flame and smoke and the poor boys fell to death "Big Ed" was aroused. With his usual modesty he asked for nothing but a soldier's pay. He enlisted in the First North Dakota infantry, and when his regiment was assigned to General Merritt's army went away across the sea to handle a rifle on the firing line. But his skill in telegraphy became known and on the transport he was transferred to the signal corps in the first company really organized on shipboard.

Kelley signalized his arrival in the vicinity of Manila bay by an act simple in itself, but of vast importance. He was sent ashore with a detail and established communications with the Newport by waving an old red shirt. It was all he had, but he wigwagged with it to such good purpose that

General Merritt was enabled to find suitable landings in the surf for his troops. The adaptability of Corporal Kelley to his surroundings made him a very useful man. His wigwagging with an improvised signal flag added another chevron to his sleeve. He was sergeant before a shot had been fired, but he was the good fellow as before.

Then Kelley showed the stuff he was made of. Dewey had cut the cable to Hong-Kong. The camp named for the great admiral was ten miles from Cavite, without communication excepting by launch. It was essential that the two camps be connected and Kelley suggested the laying of a cable across the bay. He was told to go ahead if he could find the materials needed. He found these in the same cool, unconcerned manner which had actuated him in using an abandoned red shirt as a flag. There was plenty of field wire properly insulated for field lines, but in its condition it would not do for submarine cable duty, as the salt water would destroy the insulation and as Sergeant Kelley remarked "let the messages run abroad on the bottom of the sea."

Sergeant Kelley was still sergeant when the battle of Manila was fought. He led the advanced detachment of the signal company over the Spanish trenches in the gallant fight which won the city from the don. He ran up lines under a galling fire, held his men together, raised the first American flag hoisted over the Spaniard's trenches and was one of the first men to enter the city. He was busy all the time establishing lines to connect the various brigades and divisions with General Merritt's headquarters. By the time the battle was over Kelley had direct communication established with every organization in the army. He had never been under fire before, but was as cool as a veteran as he went calmly about his work. The result was that Sergeant Kelley became Lieutenant Kelley before the fighting around Manila broke out.

Mr. Kelley has laid aside his sword and gone back to North Dakota and his law books. He is no hero as he understands it; just one of the soldiers who did a few daring things.

EPWORTH LEAGUE.

Topic For the Week Beginning Nov. 12, "The Living Bread"—Text, John vi, 26-35.

"The bread of God is He which cometh down from heaven and giveth life unto the world."

Hunger and thirst are the signals of bodily need and are most imperious in their demands. Continually the wants must be supplied. Great range in choice of foods is possible, but none can do without food of some kind. Yet this is not the most urgent demand of human nature. It is a law of our make up from which escape is impossible that "man shall not live by bread alone, but by every word which proceedeth out of the mouth of God."

Starvation with all its attendant miseries and horrors is not the most dreadful fate which can overtake mankind. The deepest pain possible is soul hunger and destitution of spirit. Men can live long on coarsest fare and scanty rations. Men will keep long and voluntary fasts in the midst of plenty when some special gain can be thereby attained. Soul starvation none willingly endures. Better death than this. Instinctively all shrink from the unutterable horror of a hopeless future of comfortless existence.

To satisfy the heart craving for happiness in existence the strangest fancies and wildest delusions have been cherished when the true and rational have been lost out of the life.

That which attracts in Jesus Christ is the deep wonder of His matchless insight into the morally right and true. He speaks, and we are surprised at the marvelous simplicity of His statements. Life seems wondrously luminous, and what before was impenetrably dark becomes clear. We see all so openly and wonder that we ever were perplexed. The soul sees where before it helplessly groped. We know when before we could only doubt and question and surmise.

The wonder of all ages is Jesus of Nazareth. Search all centuries and every land, and you will find no other one like Him. He makes no guesses, hazards no theories and gives no cause of argument. He just announces facts, and we test and find them true. We trust ourselves to His directions and find peace. We obey His commands and are satisfied in soul.

All other expedients fail to give settled assurance to our natures. The book of Ecclesiastes gives us the picture of a man seeking soul fullness. He tries all worldly possibilities and finds in them only starvation of moral impulses and powers. Jesus feeds every energy for good and fills to utmost satisfaction every appetency for happiness and right. Well does He say:

"I am the bread of life."

He is the miracle of manhood, the sign of the ages, the wonder of this world, the prophecy of a future existence divinely human.

Wesleyan Methodist President.

The annual conference of the Wesleyan Methodists in England was held last July in City Road chapel, London. Rev. Frederick W. MacDonald, one of the ablest and most widely known men of the body, was elected president. This

REV. FREDERICK W. MACDONALD.

position he holds for the current year. This denomination has no bishops, but the superintendent has many of the duties usually belonging to their office.

In many particulars the Wesleyan connection of England is different from the Methodist Episcopal church of the United States. The real power rests in the hands of a hundred of the older men elected to position in the "legal hundred," as it is called, by the whole body of the preachers. These hold the annual sessions and alone have a vote. The appointments are made by a stationing committee and are openly known and subject to revision on suggestions from preachers or churches.

The Wesley guild is the name of the young people's society of this church. Besides the Wesleyans there are several other denominations of Methodists in England, but less numerous and influential.

The Last Great Convention.

In many points the Epworth League convention last July in Indianapolis was the greatest gathering of Methodists ever held. It is likely so to remain for a long time to come. Much good was accomplished without doubt, but the day of great conventions like this has probably passed. The Christian Endeavor gathering at Detroit last summer demonstrated the same fact. The crest of the wave has passed.

Some things very desirable to reach these monster crowds cannot effect. They must in the nature of the case closely resemble each other. They have accomplished their purpose and served the end sought. Let them pass. Some will regret their passing, but not for long. Better things will take their place.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Nov. 12—Comment by Rev. S. H. Doyle.

TOPIC.—The Living Bread.—John vi, 26-35.

Christ was often wont to use types and figures to illustrate His character and His work. This was particularly the case when men misunderstood or failed to understand Him and His mission. To Thomas, who had failed to grasp Christ's mission, He illustrated it by saying, "I am the way." To those who falsely thought that the blessings He was to bring men temporal and carnal He here describes Himself as the true Bread, the living Bread from heaven. He was not to feed the body by multiplying loaves and fishes, but was to satisfy the longings of the soul by Himself. What He means by Himself as the Bread of life is simply that as bread food is necessary to the physical life and is able to satisfy and sustain the physical life, so He is necessary to the life of the soul, able to satisfy its cravings and able to sustain it forever. Note—

1. The philosophy of bread in its relation to life. That bread sustains life is indisputable. The man who ceases to eat soon ceases to live. But how bread sustains the life cannot be explained. We may follow the food in its changes in the human system, but just when or just how the food we eat becomes our life no scientist can explain. We know the fact, but the philosophy of it is unknown. Nor can we tell how Christ satisfies and sustains the life of the soul. This fact has led many to refuse to accept Christ. But such a course is as foolish as it would be for one to refuse to eat food because he does not know how the food becomes his life. We know that Christ does sustain spiritual life. Without Him the soul languishes and dies. How He becomes our Bread of life we need not worry about, so long as we know that He does satisfy all our spiritual longings.

2. Bread in its application to life. 1. Bread to sustain life must be eaten. We must actually partake of food before it can become our life. The mere possession of the richest abundance of food will not keep us alive unless we partake of the food. The 5,000 had to actually eat of the loaves and fishes before they were satisfied and filled. So Christ must be actually partaken of before he can sustain the spiritual life within us. It is not enough that God has provided the living Bread. We must partake of it, we must actually accept Christ and feed upon Him by faith. 2. Bread to sustain life must be eaten constantly. The craving once satisfied, soon returns and must be satisfied again. So we must be in constant communion with Christ, if he is to sustain our spiritual lives. A Sabbath communion with Christ, a quarterly communion with Christ will not suffice—daily, hourly, momentarily, we should be in close touch and communion with Christ, the living Bread. Let us keep in constant communion with Christ by prayer, by daily study of His word and by a constant indwelling of the Holy Ghost, that He may be the Bread of Life to our souls.

Bible Readings.—Ex. xvi, 4-15; Deut. viii, 1-3; Isa. lv, 1-7; Math. iv, 1-4; v, 6; vi, 11; vii, 7-12; xxvi, 26-28; John vi, 47-51; xxi, 14-17; I Cor. x, 16.

The Cheerful Face.

Next to the sunlight of heaven is the cheerful face. There is no mistaking it. The bright eye, the unclouded brow, the sunny smile, all tell of that which dwells within. Who has not felt its electrifying influence? One glance at this face lifts us out of the mists and shadows into the beautiful realms of hope. One cheerful face in the household will keep everything warm and light within. It may be a very plain face, but there is something in it we feel, but cannot express, and its cheery smile sends the blood dancing through the veins for very joy. There is a word of blessed magic in the plain, cheerful face, and we would not exchange it for all the soulless beauty that ever graced the fairest form on earth.—St. Xavier's Monthly.

Churches In Summer.

The time is rapidly coming when American Protestants will have to call a halt to the custom of closing town churches in the summer. The cessation of church work in the summer is accountable for a very large proportion of the neglect of the Sabbath among Christian people. You cannot intermit public worship for two months and then sustain it with enthusiasm the rest of the year. The number of people who go out of town in the summer is grossly exaggerated, and those who do go are not all away at the same time.—Watchman.

Confidence In God.

Confidence in God can be cultivated. A habit of looking upon the bright side, a habit of counting our mercies, a habit of prayer, a habit of recognizing God's goodness in the thousand daily mercies and comforts that we enjoy, will strengthen and confirm us in the habit of putting absolute confidence in God. "Thou wilt keep him in perfect peace whose mind is staid on Thee, because he trusteth in Thee."—United Presbyterian.

True Friendship.

Friendships that are for the sake of convenience sputter and die out as a candle, and at best their light is dim and weak. But the friendship that is born of love shines with the warm, steady glow of the eternal sun. There is nothing fitful or occasional about it. Constancy is its invariable characteristic. "A friend loveth at all times."—William T. Ellis.

The Strong Man.

It is the man of strong convictions who counts in this world. He who stands for something in the end carries the day. He of the easy going or milk and water type of character drops out in the battle of life.—Presbyterian.

PROVING A TRUE STORY

Visible Evidence of Nature's Punishment Meted Out to a Truant.

Some years ago, in a certain town in the North, a gentleman possessed of more money than education was asked to address the scholars attending one of the local schools some Sunday afternoon. The day arrived, says Spare Moments, and our friend was called upon.

"Well, children," said he, "I's not used to public speyking, but I remember when I was a lad I was very fond of hearing a story. Shall I tell a story?"

The children assenting, he proceeded:

"Once upon a time, many years ago, there was a lad, a very good lad, who went regularly to Sunday school, and nivver missed. But one Sunday afternoon, as he was gawin' to school, two bad boys met him and persuaded him to gan birdnesting wiv 'em. So they went alang by the riverside, and by and by they came tiv a tree, and in the tree, on a branch which overhung the wetter, was a nest. The two bad lads sent the good lad to climb the tree and fetch the eggs. Up he went and got out on the branch, further and further, and just as he was reaching out his hand to take the nest the limb brok' and he fell in the river and was drooned."

A Poser for the Preacher.

To a young man who stood smoking a cigar on a downtown corner the other day, says the Chicago Chronicle, there appeared an elderly and impertinent reformer of immemorial legend.

"How many cigars a day do you smoke?" asked the licensed meddler in other people's affairs.

"Three," replied the youth, as patiently as he could.

Then the inquisition continued. "How much do you pay for them?"

"Ten cents each," confessed the young man.

"Don't you know, sir," continued the sage, "that if you would save that money by the time you are as old as I am you would own that big building on the corner?"

"Do you own it?" inquired the smoker.

"No," replied the old man.

"Well, I do," said the young man.

Costly Fish.

"How much did those fish cost you?" asked the friend who met him at the pier.

"They have cost me a dollar and a half in boat hire, half a dollar for minnows, half a dollar for the fish, a quarter for hush money to the chap who sold them to me, a suit of clothes and probably my church membership," replied the Sunday fisherman with a hunted look in his eye.—Chicago Tribune.

ALL WORK PROMPTLY ATTENDED

BRIDGE THE PACIFIC

Nature, in Time, Will Construct a Bridge From Alaska to Russia.

"There will be a bridge connecting this country with Asia at no very distant day," said Prof. W. J. McGee, the Government scientist.

"If you look at any map of the world you will find the bridge I speak of indicated by the line of the Aleutian chain, which extends from southwestern Alaska westward in a curve bearing somewhat toward the Russian islands, which, physiographically speaking, form part of the same system, is the southern boundary of Bering sea. The line of islands extends clear across from Alaska to the Asiatic side, with many gaps between, which, as I have stated, remain yet to be filled in before the bridge is finished."

"But how do you know that they will be filled in?"

The best possible reasons exist for knowing that they must be filled in, and that the land bridge between our territory and Asia will be made complete. It is a certainty, entirely beyond dispute, that the islands of the Aleutian chain are steadily rising. In fact, a gradual folding up of that part of the earth's crust is taking place, and the line of the fold is represented by the Aleutian islands and the Russian islands, which continue the system across the Kamchatka. The territorial expansion of the United States is progressing by a natural, as well as through political, means. It is progressing in a northwesterly direction, owing to geologic causes, the dry land of western Alaska gaining steadily on the sea. In other words, the west coast of Uncle Sam's arctic province is advancing toward the Asiatic shore.

"The Yukon river is continually bringing down to the coast enormous quantities of detritus and depositing it off shore. The detritus does exactly what is accomplished in cities where the refuse dumps eventually form great areas of new ground for the extension of streets and the foundations of houses. In a word, it is a landmaker, and in the way I describe it has added thousands of square miles to the Alaskan Territory. It has built the whole of the immense Yukon delta, and has made the waters off shore so shallow that even small vessels can hardly get within sight of the coast. Necessarily before very many years have elapsed these shallows will be converted in their turn into dry land by the continuous outpour of material from the river."

Fun in Laundry Checks.

"Most people suppose," and an ex-Californian, "that the vertical row of hieroglyphics on a Chinese laundry check are merely so many numerals. As a matter of fact, they are nothing of the kind, but constitute a brief and spicy description of the individual who left the bundle. If you will take the trouble to notice it, you will see that the laundryman always goes through exactly the same programme. He takes the package, gives you a swift, comprehensive glance, and then proceeds to decorate a slip of rice paper with from two to five India ink chicken tracks. What he has really written is probably something like this:

"'Fat foreign devil who resembles a pig; squinty eyes, and wart on the left side of his nose.'

"You carry around this flattering pen portrait, innocently imagining that it reads, 'No. 4-11-44,' and when you call for your wash you will find the Chinaman who receives the ticket will invariably look you over, making mental comparison, before he reaches for the bundle. A Mongolian friend of mine out in 'Frisco put me on to the scheme, and I took the trouble to ascertain whether he was telling me the truth. I got a laundry slip, copied it with microscopic fidelity and submitted it to several native expert translators. They all agreed that it ran something like this:

"'Ridiculous old man, very pompous, bald head, like a speckled egg.'

"You will observe that my hair grows rather high on my forehead, and I have a few freckles, although nothing to justify such an insulting description. However, it proved the point. The next ticket I got declared I was 'an elderly gentleman, resembling Yun-Tai, the wind god,' which pleased me immensely until I persuaded a native curio dealer to show me a statuette of the dietv. Then I wanted to murder the laundryman. The Chinese are a deep people boys. They look as demure as a guinea pigs, but all the while they are quickly sizing us up and having a big laugh in their sleeves."

A Song Merchant's Business.

There has lately died in Paris a M. Lucien Delormel, who was generally known as the song merchant. He was an able purveyor of music-hall ditties, and is said to have left a fortune of about £20,000, principally made by furnishing cafe-concert vocalists with topical songs. M. Delormel, who was only fifty years of age, tried his hand at dramatic authorship, taking Sardou as his model, but money did not come in quickly enough. He started on the patriotic song business after the war, and in conjunction with a music-hall comedian named Villemer founded later on a firm which guaranteed to provide cafe-concert managers and vocalists with ditties, both comic and sentimental. The firm prospered, but, like Erckmann and Chatrian, the partners disagreed, so Delormel conducted the business alone. He rarely wrote a song, but signed those composed for him by budding Berangers living in garrets waiting for better days.

Some of the most successful songs or ballads like those of Yvette Guilbert, for instance, who was supplied by the ill-fated Jules Jouy, were composed and sung independently of Delormel's assistance or interference, but he generally directed his young men to produce good imitations of whatever had taken the town by storm. He is credited with the Boulangist song, "En Revenant de la Revue," and also with "Pere la Victoire." It is affirmed that he made £8,000 by "En Revenant de la Revue" alone, and he also touched, as the phrase is, authors' rights for other compositions to a remarkable extent.

"My boy Johnny has such a cheerful disposition."

"Yes?"

"Oh, yes. When I make him wash his neck, instead of grumbling, he just says he is glad he is not a giraffe."—Indianapolis Journal.

VICTORIA'S TROUBLES.

Pa Knows All About Them And Tells His Son.

"That's whare Bein a quean Has its Disadvantige," paw sed yisterdy nite after He kicked the pupp out the Back Door fer chewin up the parler curtens.

"Whare?" maw ast.

"Look at Will Hell Meeny," paw says. "If she wasen't no quean she mite Have a Bow to come around Every nite and Stay fer Dinner on Sundys like other gurls, and they could Set in the parler with the lites out after the Rest of the Folks Had went to Bed and Talk about the War in Africky and the Alasky boundary and expanshun and all them kind of Things and Thay wouldn't be nobuddy But her muther lisenen at the key Hole. But bein a quean she can't Have none of them Kind of pleasures. She Has to Do all Her Luv makin Out in the Open whares the Ministers of State kin keep watch. It's a Good Deal Like if I was goin to By a Horse. I would go Down to the Horse market and thay would bring out the Horses thay Had in Stock and I would Look Them over and axamun thare Teath to See if enny of Them would Do. That's the way the Quean Hast to find a Husbend. I spose you red about Her Goin to Germunny to Hunt one, Diden't you?"

"No," maw says, "I Bin too Bizzy puttin up peaches to keep track of all Them affares. What's Happened so fur?"

"Well," Pa told Her, "She ain't had mutch Luck yit. When she Got thare they were a Lot of princes on Hand, But they was Sumthing the matter with neerly all of Them. One was Loosen his Hare and One had fits, and anuther Didn't Have no Grammer, and the next one Didn't Have a manly chest what She oculd lean on in Times of trubble, and So when She Looked Them over she Shook her hed and sed: 'No, maw, none of these Boys Can sine with me, Becoz thare Batten averidges ain't enny good.'

"The hole trubble," paw says, "is That the Quean has a Feller picked out what she wants, and her Folks is agin Him."

"Who is that?" maw ast.

"It's the Prince of Weeds," paw told Her. "His fawther is a Justice of the piece in Sum Township Over thare, But thay can't afford to keep only one Gurl so thay ain't in Hi society."

"Well, the Quean has plenty of munny, and could give Him sum kind of a political Job whare He could Have a Good Sallery and Go Huntin and Fishen whenever He wanted to, couldn't she?' maw ast

"Oh, yes," paw says, "But you see Thay always Haft to Keep Thinkin about Future generasshuns over in Them Countries. The Quean, poor Gurl, knows she Hast to Be a muther sum Day, and it Would Be turrable Hewmiliyaten for Her to Haft to tell Her oldest Boy when she was Bringin Him up to be King that his faythe was Some cheap skait without the Rite Brand of blud in His vains, that she married jist Becoz he was a gentelmun and a skoller. What anser could she Give the poor child when he Burst into teers and ast why she ronged Him that way By not Takin a Prince of the Blud to Be his fawther even if He did were a number five Hat and calld all the acktresses around the cort Theater Bi thare front name?"

"My! I don't no," maw says.

"No, you Bet you don't," paw told Her. "You Don't no nawthin that you always ot to keep posted about. Wimmin would Be Fine peeple to Go out and vote, Wouldn't thay?"—Chicago Times-Herald.

How Some People Feel.

With his first pair of tan shoes.

An Unpleasant Reminder.

James didn't go to church often, but his mamma took him there last Sunday, says the Cleveland Plain Dealer. Now she wishes she hadn't.

He sat demurely enough until the tenor, who indulges in a dreadful inexcusable tremolo, had finished a long. Then he spoke up.

"Mamma," he asked, in a thrill whisper, "what makes the man's voice shake so?"

"Hush, dear," said mamma. "I don't know."

"But, mamma," the little scamp persisted in a still louder whisper, "you know when papa's voice shook the other night you said it was beer."

And that's why Jamie's church privileges have been shut off.

Not the Right Way.

"Here's a story of a New Haven Italian," he said, "who has bought seven wives at 30 cents each, and now makes them do all his farm work."

"Outrageous!" she exclaimed. "The idea of buying wives for 50 cents each!"

"It does seem wrong," he admitted. "What he ought to do is to get them for nothing, and then put in the rest of his life trying to make enough money to keep them the way more civilized men do."—Chicago Post.

Making Headway.

The Missionary—My erring brother, have you been Christianized?

Native—Not completely. They have gobbled all my land, but I still have my few clothes.—Indianapolis Journal.

Uncle Bill's Ideas.

Full many a woman would not blush unseen.

Too much forwardness often keeps a bright boy back.

Some light-hearted women can make biscuits as heavy as lead.—Cleveland Leader.

Do You

Like to buy goods for what they are worth and pay for what you get?

OUR PRICES are based on the market and are exactly the same to all purchasers for the same goods and the same service.

We do not make special prices at cost to get the "Other Fellow's" customers and charge our own customers enough extra to make up, but if you give us an order you can feel that you are paying the same as several thousand other good buyers.

OUR GOODS are the regular standard grades of officially inspected stock. They are bought by our men in the West, handled through our own Mill and Elevator, and our customers not only save all middlemen's profits but get Grain that is absolutely clean, and Feeds that are made on the premises and are KNOWN to be pure.

THE PAUL T. NORTON CO.

Everything for Horses, Cattle and Poultry.

Elizabeth, Elizabethport, Red Bank, Plainfield, Somerville.

FEWER DELEGATES TO COUNTY CONVENTION

[CONTINUED FROM PAGE 1.]

is selected to decide the representation. Next year, at the Democratic convention, the Plainfield delegation will be one less than this year. The First ward will be four, the Second three, the Third three and the Fourth seven. The decrease is in the Fourth, where there was eight delegates heretofore. The Democrats account for this by the fact that it is an "off" year in politics and there was very little interest shown. The fact that there was not the same falling off all over the city that there was among the Republicans, they consider a gain.

Working Night and Day

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. Every pill is a sugar-coated globule of health, that changes weakness into strength, listlessness into energy, brain-fag into mental power. They're wonderful in building up the health. Only 25c per box. Sold by L. W. Randolph.

—Woodhull & Martin have secured the agency for the celebrated "Eighme" shirt.

—In the business part of the city some of the driveways leading to Front street are being repaired and substantial stone walks are being laid.

—Borden's unsweetened condensed milk delivered Monday, Wednesday and Saturday. Extra fine sweet cream to whip. Debele's Creamery. Telephone and postal orders attended to.

—It pays to buy good shoes, and Doane & Edsall say that is the kind they sell, and the fact that people who have been wearing their shoes ever since they have been in business, and are coming right along after them today, is proof sufficient of the statement.

CASTORIA

For Infants and Children.

The Kind You Have Always Bought

Bears the Signature of Chas. H. Fletcher.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, Bronchitis, Hoarseness and all diseases of the Throat, Chest and Lungs are surely cured by it. Call on L. W. Randolph, Druggist, and get a free trial bottle. Regular size 50c. and $1. Every bottle guaranteed, or price refunded.

20th Century Black.

That's what we call the black dyed by our new method. If you have a suit of clothes or a dress, color out of style, or faded, we can make it a rich black that won't rub off. You'll practically have a new suit or dress at a cost so little as to not be worthy of consideration.

Canned and Dried Vegetable and Fruit Sale!

FOR FOUR DAYS

WEDNESDAY inaugurated the largest, most far-reaching sale in these goods that has ever been known in this State. Our winter supply of choice and fancy canned fruits and vegetables and delicious evaporated fruits has already arrived; hundreds of carloads received direct from the producers, quantities so large that you might not believe us were we to tell you the figures; in short a veritable avalanche, sufficient to stock a hundred stores.

If You Want To Save money on your Winter's supply of Groceries, don't miss this opportunity. Rather than go to the trouble and expenses of carrying stock over the Winter we will sell them now at prices so low as to appear ridiculous—and remember that the goods we sell are all fresh and sweet and clean; they are the best obtainable at any price—anywhere.

Another Purchase of a Fine Lot OF

Men's Overcoats and Suits

which we will place on sale specially for this Saturday at prices that will astonish every clothing buyer within 25 miles of Plainfield. The great success of our last Saturday's overcoat sale has encouraged us to make a very large purchase of extra fine men's overcoats and suits; the overcoats are the handsomest that were ever sold by any store in this city, they will certainly please everybody as they are cut and trimmed in the most fashionable style and consist of a very large assortment of patterns. The suits are also handsomely made, we have them in all grades of cloth, cheviots, cassimeres, worsteds and heavy weight serges, we will give you prices that will tempt you to buy enough clothing to last you the winter. Here are our special prices.

MEN'S OVERCOATS

made of plaid back covert cloth, heavy weight and patch pockets, at **4.75**, wholesale price was 7.50.

MEN'S OVERCOATS

Extra fine plaid back whipcord, a very stylish and most desirable garment at **5.75**, actually sold in other stores in Plainfield at 12.00.

MEN'S ALL-WOOL SUITS

in gray checks with double-breasted vests, at **4.80**, none better sold in other stores at 9.00.

MEN'S SUITS,

heavy weight black cheviots, single or double breasted, a very warm suit for winter, at **3.75**, worth at least 7.50.

MEN'S SUITS

for business wear at **3.00**, that sold at wholesale at 6.50.

MEN'S DRESS SUITS

made of dark shades of worsteds in plain and stripes, with double breasted vests, a very stylish garment, to be sold at 6.50 and 7.25, considered to be worth at least 15.00.

BOY'S REEFER COATS

at 1.38, made of blue chinchilla, with large sailor collar, regular retail price 2.50.

CHILDREN'S SUITS,

sizes from 8 to 16, to go at this sale at 85c, 1.25, 1.50 and 1.75 that are sold in other stores from 2.50 to 5.00.

Men's dress overcoats in black or blue meltons, kerseys, chinchillas and beavers to be sold at this sale at 4.50, 5.50, 6.50 and 7.50, easily worth double these prices.

Remember that if you are not entirely satisfied with your purchase, bring it back anytime within 3 days and your money will be refunded.

Boys' knee pants with double seat and knees, all wool at 35c. Children's caps at 15c. Men's all wool working pants at 85c. Boys' fleece lined underwear at 19c, worth 50c. Woolen half hose at 9c, worth 25c, and hundreds of other great bargains to be had this Saturday at our store.

MENACE TO HEALTH, AND A NUISANCE.

This Opinion Was Expressed By Dr. T. H. Tomlinson.

BEFORE BOARD OF HEALTH.

HEARING HAD ABOUT BURNING OF LEAVES IN THE STREETS.

But One Citizen Present to Protest Against the Nefarious Practice, Though Many Complaints Have Been Made to Board and Police Authorities — Smoke Liable to Cause a Disease.

So many complaints having been received by the Board of Health regarding the practice of citizens burning leaves in the streets, that the Board decided to give a public hearing on the question before taking definite action on the matter. The hearing was set down for yesterday afternoon previous to the regular monthly meeting of the Board. Strange to relate, although the newspapers have given the matter wide publicity, but one citizen was present to give an expression. That was Dr. T. H. Tomlinson. Mr. Dunn was chosen temporary chairman of the meeting in the absence of Henry B. Newhall, the president, who was detained out-of-town. The other members present were William H. Murray, the secretary, and B. Van D. Hedges. When Mr. Dunn asked if there were any citizens present who wished to speak upon the question of prohibiting the burning of leaves in the streets of this city and whether the practice was considered of sufficient nuisance to cause the Board of Health to take steps to put a stop to it, Dr. Tomlinson said:

"The burning of leaves in the streets is in my opinion a detriment to health, comfort and the happiness of the citizens. The smoke that comes from burning leaves and the floating particles which fill the atmosphere are a source of irritation to very many people whose eyes become inflamed, and in some instances I have known that it was the cause of throat and lung troubles. In some cases individuals are subject to irritation, conditions which often lead to infectious diseases, such as an epidemic of la grippe or bronichal troubles. I believe that the atmospheric air should be kept as pure and unadulterated as God gives to us.

"The authorities condemn milk and water when they are polluted, If the air that we breathe had to be paid for there would be a hue and a cry against the burning of leaves. These beautiful autumnal days are conducive to health and our women and children ought to be out breathing the fresh air so that it may assist them to preserve their health to stand the rigors of the winter and spring months. If the air becomes polluted by the burning of leaves it certainly is a nuisance."

The doctor said he thought the newspapers ought to advocate the abatement of the burning of leaves that the autumnal days should not be polluted by smoke and smudge. He would favor having the leaves gathered up and utilized as silo instead of burning them.

Secretary Murray asked the doctor if he thought that the practice of burning leaves was injurious to a sufficiently large number of people to make it wise for the Board of Health to take action in the premises.

Dr. Tomlinson said that he could not say as to that. There was no doubt but that the smoke caused irritation and produced throat and bronchial troubles. It was impossible to tell in some months, but it was wise to take precaution. He thought it the mission of the Board of Health to prevent what many considered an annoyance, a discomfort and a menace to health. Many ladies, he said, had appealed to him to have him see that the nuisance was stopped.

There being no other citizen present to discuss the question the Board closed the hearing. A decision will be rendered at a future meeting. The Board then went into executive session.

State Care of Dependent Children.

The legislation of New Jersey in 1898 for the care of dependent children marked a striking advance for which we are indebted mainly to the State Charities' Aid Association. Mrs. E. E. Williamson, the general secretary and executive officer of the association, will address the annual meeting of the Organized Aid Association of Plainfield Monday night in explanation of the new laws. Friends of the local Children's Home, and their names are legion, will be greatly interested in Mrs. Williamson's address.

—Sparklets—Formidable in appearance, yet harmless. Wm. W. Moore, 310 Park avenue.

CITY CAN BE GUARDED.

F. E. KINSMAN'S IDEAS ON PROPOSED GAS FRANCHISE.

He Urges That Franchise be Granted, But That Violation of Terms be Made to Include Forfeiture of the Company's Plant.

To the Editor of The Daily Press:—

As you are aware I appeared before the Common Council Monday evening, for the purpose of making some suggestions regarding a proper protection of the city's interest in the matter of "The People's Gas Company." The published account of my suggestions does not seem to have enlightened the general public as much as certain ones seem to desire. I therefore give you the outline of these suggestions in a more complete form.

In brief my idea was that it would be perfectly safe to give the new company a charter for supplying gas to the city of Plainfield at one dollar ($1 00) or less per thousand feet, provided the proposed bond could be made to include a forfeiture to the city of the gas plant, which must of necessity consist of gas manufacture-equipment and building, with distribution pipes, upon either a discontinance of the operation of the company, or the improper use of the franchise or the selling out of the whole or any controlling part to any competing interest, whereby the price of gas is raised, or an improper or inefficient quality supplied to the public.

It will readily be seen that such an arrangement would amply protect the city against any danger of ever being obliged to return to high priced gas. The character of the property covered by this feature of the bond, would be of a sufficiently valuable character to guarantee a careful compliance with the conditions under which the franchise may be given. The worst that could happen under such an arrangement would be the possession by the city of a municipal gas plant, which if properly managed would either become (even at $1.00 per thousand feet) a substantial source of income to the city, or possibly a means of even a furthe r reduction in the case of gas to the consumer.

I would also add here what I neglected to say to the Council, that such a company would act as a sort of regulator in the matter of public lighting, even where the question of electric lighting is involved, for by the use of the Welsbach system, a very excellent substitute is found in the matter of incandescent street lighting.

As far as the question of laying pipes is concerned, I believe that very little weight should be placed upon the disturbing of the streets, since with the exception of a few of the principal thoroughfares, no disturbance of the macadam need be made except where individual service pipes are run across the street, as the pipes would unquestionably be laid at or near the curb line of one side of the street or the other. I believe the city cannot afford to base the acceptance or denial of the franchise of the new gas company upon the question of disturbing the streets. Such a precedent might hereafter be used in denying ourselves the benefit to be derived from the introduction of other enterprises such as for instances, a competing telephone, electric light or water company. A careful computation of the savings which each individual householder would experience by such competion, would many times compensate for the slight temporary annoyance or cost of repairing any portion of the streets likely to be effected, without substantially interfering with the legimate profits of the parties at present occupying our public highways.

F. E. Kinsman.

A DESERVED PROMOTION.

H. W. Searles Made Assistant Superintendent of Prudential at Lambertville.

The many friends in this city of H. W. Searles will be pleased to learn of his promotion to be assistant superintendent of agencies at Lambertville for the Prudential Insurance Company by whom he has been employed for the past seven months as a solicitor. The promotion is most deserved. It is the reward of the company for fidelity, strict attention to business and painstaking efforts to succeed. Mr. Searles will leave this evening for his new field of labors.

Played Cards

Miss Ernestine Smith entertained the members of the euchre club of which she is a member, at her home on Madison avenue Thursday evenue. There were four tables. Miss Reynolds and Harry Maxson scored the most points during the evening.

New Cars Expected Next Week.

The new cars for the Plainfield Street Railway Company are expected to arrive in Plainfield November 18th. The vestibules will then be put on, after which they will be put into service.

FRAZEE TURNS UP SAFE AND SOUND.

Disappeared From Central Locomotive a Week Ago.

WAS DAZED FOR SOMETIME.

FOUND BY A POLICEMAN WANDERING AROUND BAYONNE.

Lost His Foothold on the Sideboard of Locomotive and Fell—Escaped Being Run Over, But Was Rendered Unconscious—Relatives Did Not Notify Railroad Company of Circumstances.

William A. Frazee, the fireman employed by the Central Railroad of New Jersey, living at 73 Broadway, Brooklyn, who suddenly and mysteriously disappeared from the locomotive he was employed on, while crossing the Newark bay bridge last Saturday night, turned up safe and sound at the round house in Communiraw last night and reported for duty. Frazee has a thrilling story to tell.

He says that the last he remembers was that just after crossing the bridge he lost his foothold on the running side board on the locomotive and fell to the roadbed. Luckily, his body escaped being struck by the engine or the cars following it, but the fall rendered him unconscious for some time. When he finally came to he was in a dazed condition. He wandered off and sometime later was taken in charge by a policeman in Bayonne. After diligent inquiry the latter finally learned the name and address of Frazee, and the fireman was then sent to his home.

Frazee's family determined to keep him quiet for several days in order to restore his mental condition, and so the railroad company was not notified of the circumstances. Yesterday when an inquiry was made at Frazee's home in Brooklyn it was denied that he lived there.

MR. MARTINE ON DEFEAT.

"Farmer Orator" Says There is Too Much Bickering Among the Democrats in New Jersey.

J. E. Martine was asked today what he had to say on the Democratic defeat on Tuesday.

"Well, said Mr. Martine, I feel that division in our own party played havoc with us. In Middlesex, the so-called "Jefferson Democrats"—these men bolting the regular nomination—lost Middlesex to the Democracy. In other counties the so-called "Gold Democrats" either stayed away from the polls or voted the Republican ticket.

"Was money in evidence around the polls?"

"Yes! Lots of it, and rum too. And yet the Republicans proclaim in loud voice that they are the moral party."

"Do you believe the Democrats will rally from this diaster?"

"Why yes! Of course defeat disparages many young men, but it will make no difference to the mass of Democrats. We will line up all right when the next fight comes. What the Democrats need is to forget personal differences. Stop the Daly-Gourley controverseys; let us know no Jefferson; no Bryan Democrats; only let us be Democrats, place in nomination honest men, then as a united party support them."

CONFERENCE OF ENDEAVORERS.

Union County Members to Gather in Westfield Next Tuesday Evening.

A conference of the Christian Endeavor Societies of Union county will be held in the Baptist church at Westfield, Tuesday evening, beginning at 7:45 o'clock. At that hour there will be a song service led by L. A. Bigelow, Jr., of Plainfield. At 8 o'clock, a prayer service under the direction of Joseph Philp, of Cranford, will be started. Miss Florence G. Hawkins, of Plainfield will lead the conference and quiet hour at 8:15. A question box, led by a state officer, will begin at 9:05. At 9:25, there will be a social hour in charge of the society of the Westfield Baptist church.

In the Bowery.

R. M. Honeyman, of Somerville, has accepted the position of secretary of the Bowery branch of the New York Y. M. C. A. This is the leading section of the association in the city, and is located in a $100,000 building at 153 Bowery. The work has increased at such a rate that the structure is to be enlarged, and a number of other men added to the twelve already employed.

Electric Lighting Safe Now.

The elecric lighting system in Music Hall has been condemned as dangerous by Chief Doane. Maze Edwards, manager of the theatre, promptly employed an electrician and had the connections and wiring made absolutely safe.

NEW JERSEY READS REPORT WITH HORROR

Appalling State of Affairs in the County Almshouse.

TO PROBE THE SCANDAL.

LEGISLATURE WILL BE EXPECTED TO TAKE PROMPT ACTION.

Ignorance, Drunkenness, and Immorality Prevail in the Public Institutions—Members of Senate and Assembly Surprised at the Report—Thorough Investigation to be Made and Dismissals May Follow.

All New Jersey has been shocked by the report of the State Board of Children's Guardians, revealing the startling and almost unbelievable conditions existing in the almshouses of the commonwealth.

Not only are the evils existing in a flagrant form at the present time, but they have existed for several years. Scores of children have been born in these almshouses, and in some of the institutions the records are so carelessly kept that it is impossible to learn how many births have occurred there.

Members of the Senate and of the Assembly were much surprised at the report. Some of them had heard sinister rumors, but no one had apparently realized the full extent of the corruption.

From present indications the scandal will certainly be investigated by a competent legislative committee, and it is believed that the sensational features of the scandal have only just begun to come to the surface. Should such an investigation be honestly and fearlessly conducted, many dismissals are certain to follow, and there would undoubtedly be a grand shake up of the almshouse wardens and matrons.

Mrs. Williamson, who is largely responsible for the report, admits herself that many facts have not been laid bare. "I knew our report would be spread broadcast," she said yesterday, "and I did not wish the public to be deluged with such reading matter. We have plenty of facts for the Legislature."

"The members of the board," added Mrs. Williamson, "were astonished beyond measure by the revelations. They were appalling, and revealed a state of affairs little dreamed of. The conditions existing in Burlington county's almshouse were so dreadful that the details are not given in our annual report, but are reserved for the appendix, which is to be furnished to the Legislature. The facts were not fit to print.

"The records of the almhouses in several cases are not kept with any degree of accuracy. Warden Gaskell, instead of keeping them himself, engaged a man who lives eight miles away to do the work. This man calls occasionally for the facts. The records are in a large measure valueless.

"The method of segregation which is used in the Hudson County Almshouse is about as nearly as perfect as it can be. The only trouble with the Hudson County Almshouse is that it is overcrowded."

"DR." POLLIPIZO HELD.

In the Gates Avenue Police Court in Brooklyn Wednesday He Denied a Charge of Manslaughter.

In the Gates Avenue Police Court in Brooklyn, Wednesday, "Dr." D. Gordon Pollipizo, of 171 Bergen street, who was arrested last Monday in connection with the death of Miss May B. Gordon, denied a charge of manslaughter. Magistrate Worth held the man without bail.

"Dr." Pollipizo has been practicing among Plainfield colored people, and even succeeded in securing a testimonial from Rev. Scott Wallace, pastor of the Calvary Baptist church.

Miss Gordon died in Mount Vernon Sunday night. Magistrate Worth was informed that the girl had made a statement before she died, and that the authorities of Westchester county wanted Pollipizo. There was a trifling conflict of opinion in court as to whether the prisoner should be kept in Brooklyn or sent to Westchester county. Magistrate Worth decided that for the present at least Pollipizo should remain in Brooklyn. Pollipizo, who is a native of Madras, India, denies being a doctor.

Left Behind Too Many Debts.

Mr. Schapiro, proprietor of the dry and fancy goods store on Park avenue, near Second street, is mourning the loss of his assistant, a Mr. Zimmerman, who was associated with him since he opened in this city. About four weeks ago he left the city, leaving behind a number of unpaid bills. A few days ago the proprietor received a letter from his friend who assured him that he would make everything all right.

BURGLARS VISIT DUNELLEN AGAIN.

Several Business Places Were Broken Into Last Night.

NO POLICE PROTECTION.

FORMER MAYOR BRAKELEY'S STORE ONE OF THE PLACES VISITED.

A Small Amount of Change Stolen From the Drug Store—Carman's Meat Market Next Broken Into, But No Cash Secured—Frightened Away From Taylor's Hotel—Probably Thieving Tramps.

The borough of Dunellen has certainly become a mecca for hoboes, tramps, housebreakers and lawless characters of various descriptions. Last night the "midnight mechanic" paid another visit to this locality where police protection is conspicuous by its absence. The drug store of Dr. Brakeley was broken into and the thieves helped themselves to about $2 in change. They then visited the meat market of William H. Carman but were unable to find any cash. They had to satisfy themselves with taking a few links of sausage and some meat.

On their way out of town the hoboes made an attempt to enter Taylor's Hotel, but were frightened away by Mr. Taylor, who fortunately was awake about 2:30 o'clock this morning.

There is no clue to the perpetrators, but it is the opinion of many people that the burglaries are the work of tramps, which from time to time are prowling about the borough and New Market. It is quite easy for these characters to drop off from freight trains at the "tanks" and make their way to Dunellen and New Market, where no police protection is afforded the citizens, who are therefore at the mercy of these desperadoes.

SEPARATE DEPARTMENT.

Plan to Keep Intermediate Classes in Congregational Sunday-School Away From Rest of Scholars.

The quarterly meeting of officers and teachers of the Sunday-school of the Congregational church was held last evening at the home of Alex. Miller, of Madison avenue. The question of separating the intermediate department from the rest of the school was discussed and referred to a committee, of which Robert Suffren was chairman, for consideration. The same committee will also consider the advisability of holding weekly teachers' meetings for the study of the Sunday-school lesson.

A committee, of which A. C. LaBoyteaux was chairman, was appointed to draw up a new constitution.

Then followed an informal programme, consisting of a piano solo by Miss Mary Whiting, a vocal duet by Miss M. G. Morse and Miss Julia M. Belknap, and a vocal solo by Stacy Raynolds. Refreshments were served, Miss Annie E. Ellis and Miss Mary Whiton presiding at the table.

JOHANNA'S FAMILIAR FACE AGAIN.

In Trouble With Patrolman McCue by Talking Too Much.

Johanna Haley was accosting men on the street last evening when Patrolman McCue came along and told her to stop. Johanna immediately consigned McCue to warmer lands and used rather vigorous language. She was locked up. At the station-house she continued her abuse of the officer.

This morning, when arraigned before City Judge Runyon, she was sorry, but the judge made it $5 or ten days as a little remembrance.

Settled Insurance Losses.

William A. Woodruff, insurance agent, has settled the losses on the fires at Carl Hansen's home on North avenue and the one at the home of Mrs. Altman, Grandview avenue. The latter occurred yesterday and the other the night before.

Election Bills Must be in by Tuesday.

All persons having election bills against the Union County Board of Freeholders must present them by Tuesday next to insure payment. They can be handed to either Freeholders J. Frank Hubbard or John H. Tier, Sr.

Mr. O'Sullivan Has Recovered.

Sylvester J O'Sullivan, of New York, who was injured some time ago at the Netherwood station of the Jersey Central Railroad, has entirely recovered and is now one of the guests at the Park Avenue Hotel.

Left the Hospital.

Grant Buckalow, the man injured on his bicycle in a collision a few nights ago on Park avenue, was discharged from the hospital yesterday, having recovered from his injuries.

ERROR IN THE RETURNS

UNION COUNTY CANVASSERS HAMPERED IN THEIR WORK.

The Returns Made by Some of the Election Boards Were Defective — Senator Reed's Official Majority is 1,007.

At noon yesterday the Union county board of election met at the court house for the purpose of canvassing the returns of the votes cast at Tuesday's election.

County Clerk Howard, who is supposed to officiate as secretary of the board, was by his own request excused from that duty today, owing to the fact that he was one of the interested nominees.

On motion of Mr. Crowell, Zerman Norman was chosen as secretary and was promptly sworn in as such by P. J. Ryan.

Mr. Norman informed the board that it was hardly probable that it would be able to complete its duties yesterday owing to the fact that certain omissions had been made in the reports from election district returns, such as failure to record the total number of votes polled, etc.

Owing to the returns being defective from the Township of Springfield, the Borough of Fanwood, and the Fifth ward of Elizabeth, the Board adjourned until this morning.

The Board of Canvassers of Middlesex county met at New Brunswick yesterday to canvass the vote of the county. The following is the official vote: For Sheriff — Barclay, Rep., 7 631; Field, Dem., 6,498; Barclay's plurality, 1,133. For County Clerk—Conger, Rep., 7,380; Jaques, Dem., 6,217; Conger's plurality, 1,613. For Assemblymen — Lyons, Rep., 7,640; Farrell Dem., 6,395; Groves, Rep., 7,610; Dougherty, Dem., 6 384; Montgomery, Rep., 7,625; Clayton, Dem., 6,538.

The Somerset County Board of Canvassers met yesterday. The official pluralities are given as follows: Chas. A. Reed, for Senator, 1,007; Edward E. Cooper, for member of Assembly, 1,432.

OMITTED A DECIMAL POINT.

Bank Teller Offered Armstrong $1,400 on a $14 Check.

(Special to The Daily Press.)

Morristown, Nov. 11.—D. Armstrong, a well known business man, called at a local bank to get a check for $14 cashed. One of the paying tellers, who waited on Armstrong, went into the cash vault and came out with $1,400, which he shoved out of the window to Mr. Armstreng.

It didn't take a second glance for Mr. Armstrong to discover that a mistake had been made. He informed the teller that it was $14 and not $1,400 he wanted. The teller examined the check carefully and then discovered that the maker of it had neglected to insert a decimal point. Mr. Afmstrong received his $14 and the balance was returned to the safe.

MOVE FOR NEW HELLOS.

United Telephone Company Incorporated in New Jersey.

(Special to The Daily Press.)

Trenton, Nov. 11.—Articles of incorporation were filed here yesterday for the United Telephone and Telegraph Company, with an authorized capital of $5,000,000. The company is organized to construct telephone and telegraph lines, to manufacture appliances for the same and to furnish heat, light and power. The incorporators are Alexander Brown, Henry A. Parr, Thomas J. Haywood, L. Davies Warfield and James Bond, all of Baltimore, and John Headdon, Jersey City. The company is said to be formed to set up a rival telephone system in the South and Southwest.

Cranford's Warning to Gunners.

(Speeal to The Daily Press.)

Cranford, Nov. 11.—At its last meeting the Cranford Game and Fish Protective Association, which now controls all the shooting ground in the township and considerable lying contagious in Clark and Union, decided to employ additional wardens for the shooting season, commencing today. The property of the association has been thoroughly posted, and outside gunners will be taking long chances if they shoot in the neighborhood of Cranford this year, for the penalty is heavy and will be enforced.

Entertained at Euchre.

The members of the Tuesday Evening Euchre Club were entertained at the home of Miss Minnie Smalley, of Somerset street, Tuesday night. There were six tables. The first prizes were won by Miss Minnie Smalley and John Dunbar. Miss Margaret Somers and Dennis Gavin were winners of the second prizes.

Road to be Macadamized.

The Middlesex county Board of Freeholders have awarded to J. E. Hillpot the contract to macadamize the road between Bound Brook and Dunellen. The price is $6,058.

MUNICIPAL CAMPAIGN IS NOW ON HAND.

Fight Will be Between Republicans and Democrats.

TO BE NO CITIZENS' TICKET.

SEVEN MEMBERS OF THE COUNCIL ARE TO BE CHOSEN.

Also Member of Board of Education and Two Chosen Freeholders—Republicans Will Support the Present Administration—Neither Side Has as Yet Definitely Outlined its Local Platform.

The municipal election in Plainfield is now less than four weeks away. It has every appearance of being a decidedly important one. For the first time in three years the Democratic party will place a ticket in the field and make an organized fight to secure its election. Seven out of the eleven members of the Common Council are to be chosen which will make it possible to change the political complexion of the legislative body of the city.

There are seven Councilmen whose terms expire this year, four ward Councilmen, one from each ward, and three at large. Then there will be a member of the Board of Education to be elected at large and also two Chosen Freeholders.

Two years ago the Citizens' ticket put up its strongest fight and elected representatives to the Council from the First, Second and Fourth Wards and one at large. Their terms now expire. The four Councilmen who hold over are all Republicans and were elected on the regular ticket. The ward Councilmen, whose terms expire this year are Walter L. Hetfield, a Democrat elected on the Citizens' Ticket, John Van Herwerden, a Republican elected on the Citizens' ticket, Elliot T. Barrows, a Republican elected on his party ticket, Henry Liefke, a Democrat elected on the Citizens' ticket. The Councilmen at large are J. F. Buckle, Republican, from the First Ward; Frederick H. Andrews, Republican, from the Third Ward, and James P Homan, Citizen, from the Third Ward.

The term of Dr. J. B. Probasco, president of the Board of Education, expires this year. He is a Republican. The two members of the County Board of Chosen Freeholders complete their term of office this year. They are J. Frank Hubbard and J. H. Tier, Sr. Both are Republicans.

There is little chance that there will be a Citizens' ticket in the field this year. The Democrats are promising to take a hand in the campaign and make things lively for the Republican party now in office. Naturally, the biggest fight will be for the control of the Council. The Republicans feel that they are positively certain of a majority in the Council but there is a good chance that the Democrats may succeed and have several representatives there.

There is always bound to be some dissatisfaction with the regime in power and the Democrats are counting that strict party lines will be forgotten in the municipal campaign and that local issues and the personality of the candidates will influence the voters. It is too early as yet to say who the various candidates will be. It is also too soon to state the exact lines on which the battle will be fought. Neither side has announced its platform nor the issues that it will support.

It is natural to suppose, however, that the Republicans will support the present municipal administration and its methods. The present system in vogue in the management of the streets as set by Councilman Barrows will be supported. The present method of conducting police and fire departments will be sustained.

The Democratic campaign will naturally become an "anti" campaign, being aimed to change the present methods and try others that the Democrats claim will be better for the welfare of the city and its residents and property-owners.

There are troubles in the ranks of the Republican "machine" at present that will have to be patched up without delay if the Republicans expect to make a good showing. The city elections are always far closer than those for county or State candidates and the serious slump in the city at the last election would, if continued at the city election, mean a probable defeat for one or more of the Republican candidates The Republican city executive committee will hold a meeting Monday evening when the primaries for the city election will be called and the soreness in the party healed if possible.

—The new addition to the Hotel Kensington is about completed and will be opened in a short time.

MINERS MAKE A DEMAND

Big Strike Seems Certain in Illinois Coal Fields

THE SITUATION SERIOUS.

Operators Ordered to Refuse to Supply Coal to Good Railroads.

Many of the Big Mines Likely to be Tied up Within the Next Few Days —President Mitchell, of the United Mine Workers' Union Talks on the Subject.

Chicago, Nov. 11.—The situation in the coal mining fields in southern and western Illinois has taken a serious turn and it is said that many of the mines may be tied up within the next forty-eight hours because the operators are sending coal to points west and southwest where the miners are on strike. The United Mine Workers' Union has been engaged in strikes in the Indian Territory, Arkansas, Missouri and Iowa in mines the product of which is consumed for the most part by the Gould system of railroads.

Recently it was discovered that coal was being shipped from the Belleville district in this state to supply the wants of the railroads and the officers of the Miners' Union entered a protest which was accompanied by a threat to strike unless the practice was discontinued. President Hefty of the Belleville district has been instructed by John Mitchell, president of the United Mine Workers' Union, to call out the men if positive evidence is at hand that the operators are sending coal into districts where strikes are in progress.

President Mitchell who is now in this city, says:

"The miners have been careful in dealing with the situation, and have done everything in their power to avoid a rupture. The strikes in the southwest were called to enforce our wage scale, and the men in Illinois insist that their labor shall not be used to defeat their brothers in the other states."

Cramp Strikers Arrested.

Philadelphia, Nov. 11.—Three of the striking employes of Cramps' Shipyard, John J. Keegan, business agent of the International Association of Machinists, and Frederick Counselman, treasurer of the machinists' organization, have been arrested and held in $2,000 bail each on a charge of inciting riot. The strikers under arrest are Hugh Boyd, Thomas Wilson and Joseph Melon.

The direct cause of the arrests was the refusal of the men to move away from the vicinity of the shipyard when ordered to do so by the police. The strikers say that the arrests were made to offset the possible arrest of a Cramp superintendent for whom a warrant was issued last Tuesday.

Mr. Bradley Wants $85,000.

Rochester, N. Y., Nov. 11.—An order has been made before Justice Davy of the Supreme Court, staying proceedings in an action entitled "Walter H. Bradley against the Bradley Salt Company of Warsaw. The complaint is founded on a difference over an assignment of stock. Walter Bradley, who lives in Meridan, Conn., holds that $75,000 is due him from the corporation on a claim signed by the National Company for stock in the Glen Salt Company, at Watkins, formerly owned by him.

Killed Wife and Himself.

Allentown, Pa., Nov. 11.—George E. Kern, a saloon-keeper, Friday shot and killed his young wife, from whom he had been separated about ten months, because of jealousy. Then he shot himself. Mrs. Kern was employed in the Allentown Hospital as cook. On her way to work she had to pass her husband's saloon. Her husband stopped her car, dragged her off and pushed her into the house, then put bullets in both their brains. Both died instantly.

Burglars Are Busy at Monticello.

Monticello, N. Y., Nov. 11.—Monticello is excited because of a quartet of daring robberies committed in this village. A week ago the single night policeman was laid off. This was pie for the burglars. Friday when four of Monticello's business men went to open their stores they found money drawers torn off and cash registers smashed. The thieves got $100 in money and a large amount of clothing and cigars.

Capt. Gilmore Dismissed.

Washington, Nov. 11.—Captain Tiffin Gilmore, of the Forty-first United States Volunteer Infantry, has been dismissed from the service as "mentally and morally unqualified for the command of troops." The general charge against Captain Gilmore was drunkenness. He was tried by a board of officers of his regiment, the Forty-third Volunteers.

Refused a Big Offer.

Chicago, Nov. 11.—A despatch to the Times-Herald, says: "The largest sum ever offered for a Cripple Creek mining property has been refused at Colorado Springs. The amount was $15,000,000. It was offered by London and Paris capitalists to the Woods Investment Company for the gold coin mining properties on Squaw Mountain, at Victoria.

The Rate War is on Out West.

Seattle, Nov. 11.—As an introduction to a local rate war between the three transcontinental lines, first and second-class tickets to Chicago and Atlantic coast points have dropped $6. The trouble began through alleged rate-cutting by the Great Northern.

Spain's Internal Troubles.

Barcelona, Nov. 11.—The merchants here continue to refuse to pay their taxes and the government is about to send the Cadiz squadron to this port. The battleship Numancia is expected to arrive here on Monday next.

WOOD MAY SUCCEED BROOKE.

He Is Likely to be Appointed Governor of Cuba.

Washington, Nov. 11.—Indications that Brigadier-General Leonard Wood is likely to soon succeed Major General Brooke as Governor of Cuba continue to accumulate, although it cannot be stated that the change has yet been decided upon.

It is stated that President McKinley has sent to New York to secure the opinion of General Ludlow as to the

(Brigadier-General Leonard Wood.)

advisability of making the change. General Lee also will be consulted, it is said. Until a decision is reached as to the advisability of making a change in the Governorship no alternation in the present military force in the island is likely to be decided upon. If General Brooke is called elsewhere the opinion of the new Governor as to the advisability of reducing the garrison in Cuba will largely govern the size of the force that is to remain there.

Canada Must Surrender Everett.

Washington, Nov. 11.—The United States Consul at Vancouver has been instructed to demand the surrender of Mark Everett, an American citizen who was forcibly taken over the Canadian-American boundary line near Republic, Wash., by Canadian officers. Everett was wanted in Canada for stage robbery. The action of the Canadian officers was clearly illegal. When Everett is surrendered, as it is certain he will be, the British Government must make regular application for his extradition. The action of the Canadian officers in Everett's case was a frequent occurrance years ago along the Mexican and Canadian borders. Liberal extradition treaties put an end to the practice.

Many New Post Offices.

Washington, Nov. 11.—According to the annual report of Fourth Assistant Postmaster General Bristow, the number of post offices in the United States on June 30 last approximated 75,000, the net increase during the year being 1,430. The aggregate of bonds on file by postmasters was $130,000,000. Mr. Bristow in his report calls attention to the notable decrease, compared with previous years, in the number of postmasters reported for delinquencies or informalities. Of the 1,679 persons arrested during the year for offences against the postal laws, 150 were postmasters or their assistants, and there were 41 clerks, 21 railway clerks, 34 letter carriers, 49 mail carriers and 34 minor employes, while 361 were burglars.

Knighthood For Schley.

Washington, D. C., Nov. 11.—Admiral Schley was made a Knight Templar Friday night. About two weeks ago he was taken into the Masonic Order, and, with unusual rapidity was advanced through the Blue Lodge and Chapter. Friday night he was taken into Columbia Commandery, No. 2, of this city, becoming thereby a Knight Templar. The Admiral's progress has been exceedingly rapid, dispensations being granted so he could obtain his degrees before sailing for South America.

Paid His Foolish Election Bet.

Napoleon, O., Nov. 11.—The first foolish bet on the Ohio election was paid here when John C. Bushman walked twelve miles, jumped from the railing of the Maumee Bridge to the water sixty feet below, swam to the shore, donned dry clothing and declared his wager made with C. F. Mulholland satisfied. The bet was paid in the presence of about twenty-five persons, who were pledged to secrecy on account of fear of police interference. Bushman had had no previous experience as a bridge jumper.

Manila Hero Gets Sword.

Litchfield, Conn., Nov. 11.—Litchfield never saw such an ovation as that extended to Lieutenant-Commander George P. Colvocoresses, executive officer on Dewey's flagship at Manila, who has returned to his native town after an absence of two years. A monster parade was reviewed by the Lieutenant-Commander on the green. After an address by Senator O. H. Platt the officer was presented with a handsomely engraved sword.

Wants to Stop Prize Fighting.

Albany, N. Y., Nov. 11.—Mr. Lewis of Rochester was in the city Friday and saw Governor Roosevelt relative to the introduction of a bill in the legislature this winter for the repeal of the Horton "prize fight" law. Mr. Lewis holds that all prize fights are brutal, and that it is a standing disgrace to the state to permit such a law on its statute books. The bill was reported from committee last year by a close vote, but it failed of passage in the Assembly.

Recluse Burned to Death.

New Haven, Conn., Nov. 11.—The charred body of Jared Blakeslee, sixty years old, who lived the life of a recluse, has been found in the ruins of his hut in the town of Hamden. It is believed that while intoxicated he overturned a lamp, which set fire to the place. At one time his family was a wealthy one residing in Hamden.

The Deweys Still in New York.

New York, Nov. 11.—Admiral and Mrs. Dewey are still guests at the Waldorf-Astoria and will, it is understood, remain in the city until the middle of next week. Aside from a drive through Central Park Friday afternoon and being gazed at by crowds of the curious, the day was uneventful for the newly married couple.

Cancerous Diseases, Brights Disease, Blood Poison, CURED BY

MISSISQUOI MINERAL WATER.

ENDORSED BY LEADING PHYSICIANS.

J Marion Sims, M. D. LLD

I consider Missisquoi Water a great remedy in all scrofulous diseases, and in syphilitic affections, and I have used it with benefit in cases of cancer.

S. A. H. McKim, M. D

In the various diseases of the bladder and kidneys Missisquoi Water is very efficacious, and I have used the water to advantage after all other remedies failed to afford relief.

Geo. C. Hubbard, M. D

This water is a marked tonic and diuretic.

C. H King, M. D.

I consider the Missisquoi Water a powerful diuretic, and have prescribed it in many cases with signal benefit.

MADE A DARING CHARGE.

American Officers and Soldiers Capture Filipinos.

EMPTIED THE TRENCHES.

Nineteen Natives Are Killed and Their Guns Captured.

After Stampeding the Enemy the Americans Return to Mabalacat With Their Prisoners—General MacArthur's Command Busy Forwarding Supplies.

Manila, Nov. 11.—Probably the most daring exploit of the campaign has just taken place in front of Bamban. Nineteen American soldiers and officers charged a Filipino trench, killed nineteen of the natives, captured thirty rifles and made six prisoners.

There were probably one hundred natives behind the breastworks when the fight started.

The Americans had left Mabalacat in two parties on a reconnoisance. Colonel Bell, of the Twenty-seventh Infantry, five officers and two men composed one party, while Lieutenant Hawkins and ten men were in the second. The latter worked their way unseen into the rear of the trench and charged the one hundred Filipinos, while Colonel Bell and his officers kept up a heavy fire from the front.

The natives were stampeded and the Americans returned with their prisoners to Mabalacat.

MacArthur's command is busy forwarding supplies to Colonel Haynes's squadron of the Fourth Cavalry, which is firmly entrenched at Aliaza.

Derrington's scouting party has reached San Jose by way of Santo Domingo. Gen. Young, with a troop of the Third Cavalry and a company of Macabebes direct from Talavera, is also at San Jose. The arrival of the Americans met with no resistance, the Filipinos promptly fleeing to the foothills just beyond the town. The Macabebes captured a native commissary officer with $200 in his pockets and a son of General Lenaro, supposed to be a Colonel. A quantity of ammunition, including 540 rounds for a Hotchkiss breech-block 3-inch gun, was also captured.

The inhabitants describe all the roads as practically impassable, and say they believe Aguinaldo has secreted a yacht in the river Longapo, near Subig, for use in his flight when he finds his capture is inevitable.

Thursday was devoted to reconnoissances. Major Logan went northward to Santo Tomas and burned the Filipino barracks. Captain Buck's Thirteenth went to San Jacinto and disposed of small bands. Marsh's Thirty-third went toward Magdalen, on the Dapugan road, and had several sharp fights with small parties. They killed eight men, brought in twenty prisoners and had five men wounded.

The Santo Tomas road seems to be the only possible means of retreat for a large body north from Tarlac, and General Wheaton commands it. The Filipinos of this section are going to reinforce Tarlac. The battleship Oregon has arrived here from Hong Kong.

Captain Chynoweth and Lieutenants David, Van Horne and Bradford, with two companies of the Seventeenth regiment, reconnoitering northeast of Mabalacat, have attacked and routed a battalion of natives, killing twenty-nine of them. Three Americans were wounded.

Next Republican Convention.

Cleveland, Nov. 11.—Senator Hanna says that the national Republican committee will be called together in Washington within a few days. The meeting is to be held probably on Dec. 13 or 14. The exact date is not to be decided until next week. The committee will choose the date and place for holding the next national convention. There are two vacancies on the committee. They are to be filled at the forthcoming sessions of that body.

Jumped But was Fatally Injured.

Albany, N. Y., Nov. 11.—Charles E. Olsen, a Swede, aged thirty-five years, of Pencoyd, Pa., who was employed on the work of constructing the Maiden Lane bridge, has been injured, perhaps fatally. Olsen was ordered by the foreman to remove a keg of nails which was on the track in the way of an approaching engine. He carried out the order, but to save himself from being run over he was forced to jump from the trestle work into the river.

Left the Ship in Distress.

London, Nov. 11.—The British steamship Benwick, Capt. Warsdale, reports from Longhope, Orkney Islands, that she left the British steamship Coquet, Capt. Carrod, from Quebec Oct. 3, for Sunderland, in distress 100 miles north of Unst Island in the Shetlands Nov. 7, with propeller gone and provisions exhausted. The Benwick had towed the Coquet until the former's coal had become exhausted and the warps gave out.

Jersey Goes Hunting.

Mattawan, N. J., Nov. 11.—Friday was the first of the open season in New Jersey for rabbits and quail. By the time the sun rose the woods of Monmouth County and Eastern Middlesex were full of hunters, and the pop of the guns could be heard in all directions. Game is reported plentiful in this vicinity.

Pacific Copper Mine Sold.

Portland, Ore., Nov. 11.—A despatch to the Oregonian from Ashland says: "The Carlsband-Walters Copper mine property, south of the Oregon-Californian boundary line, near Coles Station, has been sold to the Siskiyou Copper Company of Rossland, B. C. It is said that the consideration was $700,000."

Extends Into Siberia.

Seattle, Nov. 11.—Colonel C. M. Sheafo, who has just returned from Cape Nome, asserts that the gold belt of that district extends across Behring Sea and into Siberia. Colonel Sheafo says reputable miners insist that there is no doubt of the truth of that assertion.

WANTED TO LYNCH CARUTH.

Louisville Mob Attemps an Act of Violence.

Louisville, Ky., Nov. 11.—As a result of the election excitement and the alleged attempt to count out Taylor, the Republican Gubernatorial candidate, D. W. Durham and a mob tried on Friday afternoon to lynch ex-Congressman Asher G. Caruth, the Goebel Election Commissioner who is responsible for the change in election officers made on election eve.

Durham led a crowd shouting "Hang Caruth!" toward the court house, where the Goebel election board was canvassing votes.

The police charged upon the mob and made Durham a prisoner. His followers tried to take Durham from the police by force, but were beaten off and dispersed.

Caruth is frightened. When the Election Board met he said that he was willing to do anything the anti-Goebelites wished. He announced that his health was bad and that he would go to Europe on a trip.

Thirty Republicans and anti-Goebel Democrats armed with Winchester rifles left Middlesboro to go to Bell Precinct to secure a fair count.

The anti-Goebelites were preparing to count out Taylor's majority. The armed posse say they will shoot down the first Goebelite who attempts a steal.

Kentucky's Official Count.

Louisville, Ky., Nov. 11.—The greatest surprise in the whole election fight has developed here On the face of the official returns, compiled by the County election commissions, each of which is composed of two Democrats and one Republican, it seems almost certain that Taylor has carried the state. The Republican leaders here are jubilant.

Held For Election Frauds.

Philadelphia, Nov. 11.—As the result of an investigation conducted by a newspaper, five men, all residents of Washington, arrested on Tuesday, have been held in court on the charge of repeating, impersonating election officers and making fraudulent returns. The defendants are John F. Sheehan, R. H. Drinkert, William H. Cook, Harry McCabe and George Kirkland. All except one are said to be in the Government's employ.

Rev. Mr. Dexter's Movements Traced.

New York, Nov. 11.—The police have traced the movements of Rev. William Hart Dexter, believed to have been murdered on the night of Nov. 2, up to the time he went to the pier of the New Haven line, between 10 and 11 o'clock at night. As a result they are looking for an affable stranger the minister met at the Fifth Avenue Hotel during the afternoon. With this man he remained in the bar of the hotel for some time, the police say, and later went to a gambling resort in Thirty-fourth street, where he won $500. The affable man is thought to have accompanied him to the steamboat pier and induced him to go akay again. After that all trace of him has been lost except the Masonic emblem found by Mary O'Neill in the hallway of 129 Water street.

Jeffries to Meet Corbett First.

New York, Nov. 11.—Within seven months James J. Jeffries, heavyweight champion pugilist, will defend his title. His opponent will be James J. Corbett. The match has been practically arranged at a meeting between Corbett, Jeffries and W. A. Brady. Corbett, who has been desirous of fighting Jeffries ever since the boilermaker defeated Fitzsimmons and won the title of champion pugilist, personally asked the conqueror of "Fitz" and Sharkey for the match. On the advice of W. A. Brady Jeffries accepted.

Bernstein and Sullivan "Draw."

New York, Nov. 11.—For the fourth time Dave Sullivan and Joe Bernstein have met in the prize ring and for the fourth time the referee has been unable at the end of twenty-five rounds to tell which is the better man. Their fight before the Broadway Athletic Club Friday night, like the previous three battles in which they have engaged, ended in a draw. Both men fought furiously and each gave and received a lot of punishment.

Philadelphia Priest Murdered.

Philadelphia, Nov. 11.—Father Vincent Valeskia, a priest of the Independent Polish Catholic Church, has been found murdered in the rectory at Lecord and Catherine streets. His body was discovered lying in a pool of blood. When last seen alive he was with two other priests and three women in the rectory. His companions have disappeared.

Railways to be Consolidated.

Chicago, Nov. 11.—Reports are current that the South Chicago City Railway, the Chicago Electric Traction Company and the Calumet Electric Company are to be consolidated. This is to be effected by a new concern that will pay $10,000,000 for the properties. W. M. Coler & Co., Wall Street bankers, are said to be engineering the deal.

County Treasurer Guilty of Larceny.

Lockport, N. Y., Nov. 11.—The jury in the case of County Treasurer Lamberts, charged with larceny of the county's funds, after being out over twelve hours, rendered a verdict of guilty. Lamberts remains out on $15,000 bail. He was convicted on one of sixteen indictments found against him—that of having stolen $2,549.50 on April 13, 1898.

Griffo Released From Asylum.

Chicago, Nov. 11.—Alfred Griffiths, better known as "Young Griffo," one of the cleverest boxers who ever stepped into the ring, is free again. Griffo was released from the County Insane Asylum, at Dunning, after ten months of confinement. The authorities pronounce him sane, but it is doubtful if he will ever enter a ring again.

Will Have a New Creed.

Topeka, Kan., Nov. 11.—The congregation of the Rev. C. M. Sheldon, who wrote "In His Steps," has adopted a new creed which will be substituted for the Apostolic creed. A committee of the congregation met Friday evening to perfect the new creed.

New York Announcement.

Horner's Furniture.

The BEST IN THE MARKET because representing the productions of the best makers only. Other advantages are the unequalled assortments in all lines, whether wanted for city or country houses, and the very moderate prices at which the goods are marked.

The completeness of our assortments can best be understood from the fact that we carry in stock, and exhibit, more than *two hundred and fifty distinctively different Bedroom Sets* in every variety of material, as well as endless lines of Parlor, Drawing Room, Library and Dining Room Furniture, ranging from the modest and inexpensive to the most elaborately carved and inlaid.

In a word, every article required for use, comfort and adornment in the household can be had with its plainly marked moderate price at the Great Furniture Emporium of

TEETH.

If you have any to be extracted remember you will not be hurt in the slightest. My local anæsthetic is the best that can be obtained and is not known to the other dentists in this city. Gas strictly fresh administered by an expert if you want that. If you need artificial teeth you may rest assured that the greatest care will be exercised in selecting shape and color to harmonize with the face, also to restore the features to their natural expression and fullness. This is most important.

-:- OF SHOES -:-
Entire Stock of Frank Bros., Third Ave., New York.

A SHOWING AND SALE so great that all past selling events seem small by comparison. More shoes involved than in any single deal we've ever made, and never at any time or place under any circumstances have values to equal these been offered. Think of it—ladies', misses', men's and children's shoes

AT LESS THAN ACTUAL COST TO MANUFACTURE

These prices are more remarkable because of recent strong advances in leather and consequent increase on made up goods. Every pair fully guaranteed the same as our regular stock lines, and those appreciating a rare money saving opportunity will secure from one to three pairs.

Mail Orders Promptly and Carefully Filled.
GOODS DELIVERED FREE.

L. Bamberger & Co.,
Newark, N. J.

SHOE DEALERS

All sell shoes at the same figures, that is they all have shoes at 1.50, 2.00, 2.50, etc., but the great question is which dealer sells the best wearing quality and the most "taking styles?"

We are too modest to say that we are "that house," but the people who have worn our shoes for the last 15 years, and are coming right along after them today tell the story for us. If you are wearing our shoes you are wearing the very best that is made, that is all there is about it.

DOANE & EDSALL.

Freedom and sunshine are not more welcome to one who has been languishing in prison than the relief and comfort given by

R·I·P·A·N·S TABULES

Every symptom of headaches, backaches, biliousness, dizziness, constipation and other derangements leaves at once when Ripans Tabules come to the rescue. These Tabules reach the root of such disorders. The stomach is toned and strengthened, the liver receives a gentle stimulus, the bowels are regulated—thus aiding regularity in all the functions. The whole physical being is renovated and re-inforced by the capacity to expel waste and receive nourishment. All people of sedentary or confining occupations—men or women—will ensure better digestion, clearer minds, and increased power of application and enjoyment by the use of Ripans Tabules.

CLAIMS A LARGE FORTUNE.

New York Hack Driver May be as Rich as Vanderbilt.

New York, Nov. 11.—There stands at Fort Lee Ferry each day, rain or shine, a poor hunchback hack driver, who ekes out a precarious living with the aid of his horse and carriage. Few persons who know him and see him day after day are aware of the fact that while he lives in poor circumstances he is said to be the rightful heir to a fortune rivalling that of a Vanderbilt. The hunchback is Thomas Nelson, who has been a resident of Fort Lee for many years, and is known to every man, woman and child in the place. He lives in a modest home with his widowed sister, Mary Storms. The brother and sister are fighting with what little money they can spare from his earnings and with the assistance of friends for a fortune of $40,000,000 which lies in the Bank of England, where it is being held in trust, and which will be turned over to them as soon as their counsel, John P. Stockton, Jr., can produce proof positive that they are entitled to it.

Two years ago the claim of Nelson and his sister was thought to be absolutely proved; all the papers were in the hands of Edward B. Humphreys, who was then counsel for them. Humphreys was then on his way from England to this country to establish the claim, when he died on the steamship. Nelson had exhausted his means in paying the expenses of his counsel while making researches in England, and was forced to temporarily abandon the fight for a fortune. Now, however, he has resumed it in earnest and has retained Mr. Stockton to take up the threads where they were dropped by Humphrys, and to push the matter to a conclusion.

The money for which Nelson and his sister are fighting is the result of a sale of the estate of James Wood, a rich banker of the city of Gloucester, England, who died early in the present century. Since his death nearly 200 persons have attempted to get a share of the fortune. All their claims have been disposed of, and only those of Nelson and Mrs. Storms remain. When Wood died, his brother Samuel, with others, was appointed executor of the estate. Samuel, who was a bachelor, died shortly after his brother, and the other executors also died, and the city of Gloucester took charge of the estate, which consisted of lots at central points in several large cities. These lots were comparatively valueless at the time of Wood's death. The cities grew, however, and the lots became highly desirable for business and residential purposes, and thirty or forty years later, when the property was sold, it realized $40,000,000.

The money was deposited in the Bank of England, where it still remains. Lawyer Stockton, as soon as he gets the papers in shape, will present them to the Bank of England, and is hopeful of establishing the authenticity of his client's contention.

Will Extend Its Line.

Seattle, Wash., Nov. 11.—The White Pass and Yukon Railroad has purchased nearly $300,000 worth of steel rails with which to extend its line from Lake Bennett to Closeleigh, a point on Fifty Mile River, four miles below White Horse Rapids. Of this amount 2,400 tons have been delivered under rush orders at Lake Bennett, together with a locomotive to be used on the construction work between Lake Bennett and the White Horse Rapids. The Railroad company expects to have the road completed to the Rapids and in operation not later than June 1, 1900.

Rates to Klondike Will be Higher.

Vancouver, B. C., Nov. 11.—It is probable that there will be a material increase in steamship rates to Alaskan ports and the Klondike points beginning with the opening of navigation on the Yukon next season. It is said that the advance is to be in passenger rates, the freight schedule remaining as at present. The regulation of the rates is governed by the Alaska Transportation Association's members connected with Puget Sound and British Columbian steamship lines. The various companies will act in concert regarding the advance in passenger rates.

Counterfeiter's Outfit Found.

Chicago, Nov. 11.—A counterfeiter's outfit and safe-blowing tools, with an assortment of counterfeit money has been discovered at 216 Huron street by the police. Mr. and Mrs. Harry E. Day, the occupants of the flat, were captured, and the police believe they have broken up a gang of desperadoes that has been exceedingly lively of late in Chicago.

Appointment for Fifer.

Washington, Nov. 11.—The President has appointed former Governor Joseph W. Fifer, of Illinois, a member of the Interstate Commerce Commission, vice W. J. Calhoun, resigned.

Big Strike Started.

Fall River, Masss., Nov. 11.—The start of what promises to be an extensive strike has just taken place in this city when four of the leading textile unions voted to go out unless their demands are acceded to by the cotton mill owners. It is likely that every cotton mill in the city will be tied up unless a settlement is reached in a short time.

THE MARKETS.

New York, Nov. 11.—The quotations on the Stock Exchange to-day showed a decrease in every instance. The possibility of a further shrinking of the money situation being shown in tomorrow's bank statement infused a bearish feeling in the talent. United States Leather fell over two points. The traction stocks were also weak. Sugar opened a point lower, but moved up a fraction.

Cash prices for provisions:
Wheat, No. 2 red, 74.
Corn, No. 2 mixed, 40⅞.

Eggs, higher, nearby, fancy, 24.

RHODES MAY BE CAPTURED

He is Said to Have Been Taken Prisoner Near Kimberley.

REPORTED FROM PARIS.

War Office Admits That the Boers Are Shelling Kimberley.

The Bombardment Said to be of a Somewhat Harmless Nature—Refugees Sent to Cape Town Under a Flag of Truce—Boers Fire on Escort Party.

London, Nov. 11.—Orders have just been issued from the War Office for the mobilization of the supplementary division of a Second Army Corps. This is a fulfilment of the statement made by Commander-in-chief Wolseley at the Guild Hall banquet Thursday evening. It was not expected, however, that the orders would be issued so soon.

It is expected that the men will muster between November 15 and 20.

Despatches received from Queenstown state that the troop ship Bavarian started from that port for Cape Town Friday afternoon, having on board the famous Connaught Rangers. There was a loyal demonstration as the troops boarded the vessel.

German Major To Join the Boers.

Berlin, Nov. 11.—It is announced here that Major von Reitzenstein, who is reckoned one of the cleverest men of his rank, has started for South Africa to join the Boer forces. Major von Reitzenstein was the winner of the recent long distance military ride from Berlin to Vienna.

Bombardment Continues Daily.

London, Nov. 11.—The War Office has issued the following dispatch, received from General Buller, from Cape Town:

"Have received pigeon post from White at Ladysmith.

"Bombardment at long range continues daily.

"A few casualties have occurred, but no serious harm done.

"Boers have sent a number of refugees from the Transvaal under a flag of truce. British, under flag of truce, met them outside the pickets.

"When the parties separated, Boer guns fired upon the party before it reached our pickets.

"Our intrenchments daily growing stronger. The supply of provisions ample."

The Boers have now definitely occupied Colenso.

A strong force of British troops have arrived at De Aar Junction, Cape Colony.

Says Rhodes is Captured.

Paris, Nov. 11.—The Figaro asserts that Cecil Rhodes has been captured in one of the sorties from Kimberley.

The Bombardment Continues.

London, Nov. 11.—Gen. Buller has sent to the Marquis of Lansdowne, Secretary of State for War, the following despatch from Cape Town:

"I received a pigeon-post message from Ladysmith to-day. A bombardment at long range continues daily. There have been few casualties and no serious harm has been inflicted by the Boer's fire. The Boers to-day sent into Ladysmith a number of Transvaal refugees under a flag of truce. The party was met outside of the picket lines, where the refugees were transferred to our custody. The Boers reopened fire before our party had reentered our lines. The British entrenchments are being strengthened daily. Gen. White's supply of provisions is ample."

To Ship Siege Train.

London, Nov. 11.—A big siege train is about to be shipped to South Africa. This shows the heavy work that Gen. Buller and his staff expect. The train will consist of fourteen 6-inch howitzers, eight 5-inch and eight 4-inch guns. The guns will be mounted on traveling carriages, and with them will go 15,000 rounds of lyddite and cordite shells. All the guns are of long range. That of the howitzers will be 10,000 yards. A force of 1,100 officers and men will go with the train. They will be supplied with 250,000 rounds of small-arm ammunition.

In Darkness Again.

London, Nov. 11.—Complete darkness again has fallen upon affairs in South Africa. The British public must perforce be content with the brief, stereotyped report which the censor allows to filter through from Cape Town. That this condition no longer is due to pressure of work or defective cables has been proven. The Eastern Telegraph Company reckons that the real delay in transmission is about two days.

Boer Food Scarce.

Cape Town, Nov. 11.—Food is at famine prices throughout the Transvaal. This news has been brought here by a well-known manufacturer from the Rand. He says that food is frightfully scarce throughout the entire South African Republic. It is held at famine prices. The manufacturer left Johannesburg because living there under present conditions was too uncomfortable.

Bombarding Kimberley.

London, Nov. 11.—A bombardment of Kimberley has begun. This is officially announced by the War Office. It is the first notification of the event. The bomardment is only a slight one, the War Office says, but it declares that no details have been given in the despatch. The Boer force outside the town is placed at 6,000.

Boer Women Spies.

London, Nov. 11.—Women spies are carrying information from within the British lines to the Boers, according to a despatch from Lorenzo Marquez. These women have been working at Durban. They have gone from there to Pretoria. The Delagoa Bay territory is full of Boer secret service police, who are securing information as to the movements of British troops.

THE DAILY PRESS.

Voting Machine.

The voting machines used at the polls on Tuesday last at Utica and at Buffalo, N. Y., seem to have admirably answered the purpose for which they were designed. The Philadelphia Record says that their use effectually prevents ballot-box stuffing and an unfair count of the votes cast; and as the people of the two cities appear to be about unanimous in their indorsement of this new device for recording the expression of the popular will it is to be presumed that the use of the machines will be extended to other localities. According to the reports there can be no doubt of the value of this invention as a time saver. The computations were made with great expedition, the exact result having been known in Buffalo on Tuesday evening last, forty-five minutes after the closing of the polls.

No Advertising, No Business.

Doubtless there are merchants and manufacturers who have not much faith in the efficacy of even the best and most entertaining sort of newspaper advertising says the Philadelphia Record. They cannot, of course, know its real value until they shall have tried it. Yet if these same placid mortals should take the trouble to look around them and compare the extent of their business with that of persistent and extensive advertisers they might, upon reflection, see the uselessness of trying to keep pace with the onward march of trade without publicity. Good advertising brings patronage and wealth.

A Boston Herald editorial on our Chinese trade policy views the new developments with satisfaction, and, among other things, says: "There is, obviously, no love lost between Japan and Russia, hence anything that we can do to prevent or limtt Russian control in china is certain to be indorsed by the Japanese. The interests of England are also in harmony with ours. She has been asked, as we have, to take a part of the Chinese empire and rest contented, and, in view of what she believes were military and strategical necessities, she has availed herself of this proposal to the extent of possessing herself of the port of Wei-Hai-Wei, which she is converting into a great naval and military station."

Among those who addressed the Passaic Board of Trade on the occasion of its annual banquet the other night, was Senator Reed. Mr. Reed spoke on the subject of "Excess Legislation." He said that one reason for the excess legislation is the existence of so many kinds of governmental charters. The borough law recently revised was one of the greatest causes for the tangling of laws. There were four or five kinds of boroughs, when there should not have been more than one. Frequently a borough the size of a city demanded things utterly unsuited for smaller municipalities and refused to become a city. The Township law, he said, was another muddle.

The removal of alternate trees on Park avenue, in front of the premises of Drs. Endicott and Davis, might be copied with advantage in many parts of the city. Trees are a source of beauty, but there is such a thing as too many in a populated city. Let a judicious thinning out take place.

A Washington special to the Chicago Evening Post says that former Speaker Reed has not only soured on the administration's colonial policy, but has undergone a change of heart on the tariff question as well and now inclines toward free trade.

Whatever may be the cause for it, Union county can now be safely classified as a Republican bailiwick.

—Use Press want ads.

—Sparklets—Can be seen this evening before 10 o'clock. Wm. W. Moore, 310 Park avenue.

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

Major Z. K. Pangborn, who was Admiral Dewey's school teacher in Vermont, and who is said to be the only man who ever whipped the naval hero, was deprived of the privilege of voting the Republican ticket last Tuesday. The Major is a resident of Jersey City, and is one of the most influential Republicans in the State.

When he went to the polls to deposit his ballot he discovered he had neglected to register. As his name was not on the poll book he could not vote.

* * * * *

Former President Cleveland is usually among the earliest at the polls, and he drove out bright and early from his home in Princeton Election Day to cast his ballot for the Mercer County Democratic candidates for Assembly. He directed to be driven to the Second precint polls, which was located on Witherspoon place. Several workingmen were ahead of him, but when his turn came he walked serenely up to the judge.

"Name please," said that functionary, mechanically.

"Cleveland; Grover Cleveland," came the reply, with a just a tinge of feeling.

"Oh, ah, yes; you're not registered here, Mr. Cleveland."

"How is that?"

"Why, you see, your residence is in the other precinct, and we're not allowed to take votes from people who don't live in our precinct; it's dead against the law, and, you see, we—"

"Well, well," interrupted the former head of the Nation, now smiling good naturedly, "I suppose I am in the wrong precinct," and he drove away to cast his ballot at the proper place. After he had cast his ballot he stood for a moment to converse with one of the election officers. The town marshal stepped up to him, however, and said:

Mr. Cleveland, you'll have to move outside the polls; nobody's allowed here 'ceptin' the 'lection officers."

With one withering glance at the officious marshal, Mr. Cleveland moved out and was driven home in a very reticent mood.

* * * * *

In an issue of the Times-Messenger, of Florence, S. C., an extended account appears concerning the death of Col. Richard Grandison Howard, a very prominent and distinguished officer of the Confederacy who served faithfully through the Civil War, and was a prisoner for a time. After his death his wife related a beautiful episode concerning her husband's prison life. In this incident Capt. S. C. Peck, Jr., of West Front street, is a principal. The following is taken from the Times Messenger: "While at Hilton Head, a Capt. Peck, of Connecticut Regiment, became interested in Col Howard and showed him many courtesies. As he was taken to the vessel which was to convey him north, Capt. Peck accompanied him and offered him money which was declined, as Col. Howard had, as he thought, sufficient funds. After the vessel had sailed, a sergeant came up to Capt. Howard, saluted and handed him a letter containing money and a kind note from Capt, Peck. These friends lost sight of each other for about thirty five years when Col. Howard received a letter from his good friend, who had by diligent inquiry learned his address. Since then they constantly exchanged letters and other little courtesies." Capt. Peck is a member of the Military Order, Legion of Honor, and he always attends their meetings four times a year at Delmonico's, New York, and he never fails to become acquainted with those from the south who may be present. He has an especial fondness for the real and true southern man, and he always finds a warm spot in the captain's heart.

Working Night and Day

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. Every pill is a sugar-coated globule of health, that changes weakness into strength, listlessness into energy, brain-fag into mental power. They're wonderful in building up the health. Only 25c per box. Sold by L. W. Randolph.

GRAIN-O BRINGS RELIEF

to the coffee drinker. Coffee drinking is a habit that is universally indulged in and almost as universally injurious. Have you tried Grain-O? It is almost like coffee but the effects are just the opposite. Coffee upsets the stomach, ruins the digestion effects the heart and disturbs the whole nervous system. Grain-O tones up the stomach, aids digestion and strengthens the nerves. There is nothing but nourishment in Grain-O. It can't be otherwise. 15 and 25c. per package.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

AMERICAN STEAM LAUNDRY,
122 East Front Street.

A Grand Free Exhibition For Saturday.

OUR HOLIDAY GOODS are now here and most of them are on exhibition, and a right royal show they make; one well worth seeing. You are cordially invited to bring in the little folks and let them feast their eyes upon what is newest and most desirable in the "Realms of Toydom." Such an array of dolls, horses, guns, drums, swinging-horses, milk wagons, coal carts, stoves, dishes, dolls' sets, whips, go-carts, blocks, games, etc., is well calculated to make the eyes of the children sparkle with pleasure, and cause the hearts of older people to beat a trifle faster.

This Exhibition has cost us a stupendous amount of thought and work and a large outlay of capital, but it will cost you nothing to see the whole show on Saturday.

There Will Be Other Attractions.

Among them a case of ladies' fleece-lined ribbed vests, made of Egyptian cotton, extra weight and very elastic. They were made to sell for 50c each. An occasional spot of oil or some other slight imperfection make the price 25c while they last.

"Florence" Combination Suits.

Full bleached, beautifully finished and perfect fitting, at 98c, $1.25 and 1.75 per suit.
Children's heavy fleece-lined shirts and drawers. Special for Saturday, 25c each
Dr. Denton's sleeping garments for children, 50c, 75c, 98c
Infants' cashmere, ribbed vests, open all the way down the front, 50c, 69c, 75c
Infants' wool bands, very fine, 35c
Excellent line of childs' knit socks, boottees, mittens, etc.

Have you seen our Silk Floss Cushion Pillows?

Cost less than half the price of down pillows. 16 x 16, 19c; 18 x 18, 25c; 20 x 20, 39c; 22 x 22, 50c; 24 x 24, 59c.

Miscellaneous Novelties.

A choice line of spangled dress nets at $1.48, 1.98, 2.48 and 2.98. Plain dress nets at 98c $1.19, 1.35, 1.50 and 1.75. Corded silks, tucked chiffons, shirred chiffons, embroidered chiffons, shirred chiffon trimming, etc., etc. All new and desirable. An excellent assortment of taffeta and double-faced satin ribbons with cord edge.

Also beaded guimps, silk guimps and mohair guimps for dress trimmings.

A line of side combs, pompadour combs, and shell back combs of unusual attractiveness. A special job in belt buckles, about 75 styles, at half usual price.

Fountain Pens We have secured agency for the Paul E. Wirt fountain pens—every pen fully warranted by makers. Prices range from $1.50 to 4.00

A special gold fountain pen at 98c.
14-karat gold guard chains, $1.98 to 6.00.

SATURDAY SPECIALS.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN

(Special Correspondence of The Daily Press.)

Dunellen, Nov. 11—For the information of the Dunellen patrons of the trolley cars The Daily Press wishes to inform them that the only trips from the North avenue junction, Plainfield, which makes connection with the cars of the Brunswick Traction Company are those leaving on the even and twenty-four minutes past the hour.

Friendship Hall at New Market was filled to the limit Thursday evening by the best citizens of the borough and vicinity to listen to the very excellent programme rendered by the Rutgers' College Glee Club. The affair was held under the auspices of the Father Light Missionary Circle of the Baptist church, of which Rev. Frank Fletcher is pastor. The receipts were highly satisfactory.

A union temperance meeting will be held at the Methodist church tomorrow evening under the auspices of the W. C. T. U. Miss Bessie Kearney, of Mississippi, will deliver the address. The Epworth League meeting will be led by Isaac J. Stites. The subject will be "Living Bread."

Extensive preparations are under way for the entertainment to be given at the Methodist church next Wednesday and Thursday evenings, when Jed Basset's Choir will give one of their unique performances.

The New Brunswick football team will come to Dunellen this afternoon and play the local team on the Lincoln school grounds.

The amount gathered from the birthday boxes at the Sunday-school of the Presbyterian church last Sunday was over $80.

The sewer beds are again said to be filled up, and the stench at night is almost unbearable.

Mrs Eva Rand has returned from South Orange, where she has been visiting friends.

The Brunswick Traction Company is now running closed cars on its line.

W. R Larkin has been confined to his bed by illness the past week.

A slate roof has been placed on the residence of George Conover.

PLAINS AND FANWOOD.

(Special Correspondence of The Press.)

Scotch Plains, Nov. 11.—Everyone who owned or could borrow a gun in the village yesterday took advantage of the opening of the season for hunting rabbits. E. L. Hand, John Miller and a party of New York friends spent the day at the Great Swamp and returned in the evening loaded down with game. A number of others journeyed to Raritan and White House, while others spent the day, with more or less success, hunting in the fields and woods nearby. All report having had a fine day's sport and no accidents are recorded.

Twilight Council, Jr. O. U. A. M., held an interesting meeting in their rooms last evening During the good of the order the Council was entertained by a number of selections upon the Council's phonograph, which has recently been purchased by the entertainment committee for the amusement of the Council members and their friends.

There will be no game on the local gridiron today but the team is trying to arrange a game for next Saturday afternoon with the New Brunswick eleven. The team is badly handicapped in arranging dates owing to their organizing so late in the season.

Summons has been issued in Judge Schicks court on contract in the case of John R Marsh against John and Minnie Tafelskia; summons returnable November 16th at 2 o'clock.

Rev. G. M. Shott, of the Baptist church, will take for his subject for to morrow morning's sermon "Standards." In the evening the subject will be "The Natural Man."

Special music has been arranged for the Bible Day exercises to be held in the Baptist church tomorrow afternoon at 3 o'clock.

Charles Cooper, of Brooklyn, a former Scotch Plains boy, was the guest of Mr. and Mrs. E. C. Hand yesterday.

Mrs. G. M. Shott and daughter Ruth, have returned from a month's visit with relatives and friends through Ohio.

Charles G. Frentz of New York, was the guest of his parents, Mr. and Mrs. A L. Frentz, yesterday.

There will be a dance at Emery's pavilion tonight, rain or shine.

WESTFIELD

(Special Correspondence to The Daily Press.)

Westfield, November 11.—The Board of Education will, it is expected, at its meeting Tuesday evening, name a date for the holding of a special school meeting when the public will be asked for an appropriation of $50,000 with which to build a new school house. There are now 746 pupils attending the school, which is 100 more than have ever before been enrolled at this time of the year. Prof. Edwards states that the pupils are crowded and that something will have to be done soon to accommodate them, as it is impossible for the teachers to give them the attention they should have.

The Westfield football team and the Somerville team are playing a game on the Broad street gridiron this afternoon, and the team from the High school is at Plainfield playing a return game with the North Plainfield High school boys.

Y. M. C. A. NOTES.

The Spanish class at the Y. M. C. A. will hereafter meet Monday evenings instead of Thursday evenings. The same opportunity will be given for advanced work as well as for beginners.

John H. Murray, an evangelist of New York city, will address the men's rally meeting at the Y. M. C. A., Sunday afternoon at 4:15 o'clock. He will speak on conversion—"From Prison to Pulpit."

EARLY INTELLIGENCE.

—Sparklets. L. V. K. M. W. S. from the same bottle. Wm. W. Moore, 310 Park avenue.

—Somerset County Board of Freeholders will meet in regular session next Tuesday at the Court-house, Somerville.

—Under the direction of Street Commissioner Gavett several crosswalks about the city are being raised, thus making it possible to see them.

—In an article in yesterday's Press the title Coremakers' Union was used. It should have been Coremakers' Association. There is no union of the coremakers in Plainfield.

—This afternoon and evening the Loyal Temperance Legion are conducting a sale and supper at the W C T. U rooms for the benefit of the drinking fountain fund.

Nasal Catarrh quickly yields to treatment by Ely's Cream Balm, which is agreeable and aromatic. It is received through the nostrils, cleanses and heals the whole surface over which it diffuses itself. A remedy for Nasal Catarrh which is drying or exciting to the diseased membrane should not be used. Cream Balm is recognized as a specific Price 50 cents at druggists or by mail. A cold in the head immediately disappears when Cream Balm is used. Ely Brother, 56 Warren Street New York.

THE AMUSEMENT WORLD

CURRENT ATTRACTIONS THAT PLAINFIELDERS MAY WITNESS.

Local and Metropolitan Performances That Will Please Those Who Delight in the Art of Thespis and Mimic World.

"The Sidewalks of New York" is to be seen for the first time at Music Hall tonight. The play contains a series of picturesque scenes depicting the undercurrent of life in New York in which most interesting and thrilling things happen. There are scenes of peril and escape, villainy and courage. The scenery is one of the most important features of the production. Sidewalks, riverside places and other picturesque localities are shown. The action of the play is rapid, the scenes graphic pictures of familiar localities, its comic incidents highly diverting, its dramatic portions strong and interesting, and its sensational features startlingly real and decidedly novel. A "thriller" of the play is a tremendous plunge head foremost from the top of the stage into a tank of real water. This scene takes place in the third act.. It shows a distillery and an old shot tower on one of Brooklyn's docks. The villain had thrown the heroine into the water, and from the top of the shot tower Paul J. (Splash) Tustin, a professional diver, leaps a distance of 50 feet, saving the woman in the nick of time.

* * * * * *

The new musical play, "A Chinese Romance," which comes to Music Hall Monday evening, is built upon traditional laws of the Celestial Empire of 500 years ago, where children were betrothed in childhood and not permitted to see each other until the day of their marriage. This romance has been ingeniously woven and is interspersed with bright, catchy music, ludicrous situations, all of which are mounted with elaborate stage accessories, seldon outdone. The costumes alone are said to be worth the price of admission, designed by the Oriental Court costumer of Pekin, some of them requiring five months of tedious work on the embroidering alone.

Red Hot From the Gun

Was the ball that hit G. B. Steadman, of Newark, Mich., in the Civil War. It caused horrible Ulcers that no treatment helped for 20 years. Then Bucklen's Arnica Salve cured him. Cures Cuts, Bruises, Burns, Boils, Felons, Corns, Skin Eruptions. Best Pile cure on earth. 25cts. a box. Cure guaranteed. Sold by L. W. Randolph, Druggist.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

Isaac Miller, of this city, has been visiting friends at Raritan.

Miss Carty, of Orchard place, has recovered from a recent illness.

Dr. Merrell and his son, of South Branch, have been visiting in this city.

Mrs. Neely, of the borough, is visiting friends at Zanesville, O., for a few weeks.

Dr. J. A. Allis, of Montclair, has been visiting his parents on East Fifth street.

Samuel Boss, of Central avenue, is travelling through New York State on business.

Mrs. J. R Truell, of Central avenue, has been spending the week at Westerley, R. I.

Miss Hattie Garretson, of this city, has returned from a visit with Somerville friends.

Mr. and Mrs. Herman Schwed, of the borough, have been visiting Somerville friends.

Frank H. Smith, of Madison avenue, is able to be out again after his recent accident.

Next Sunday Rev. G. W. Smith, of this city, will preach at Centreville, Hunterdon county.

Mr. and Mrs. Hymes, of New York, are visiting Mr. and Mrs. M. Leichtentritt, of Central avenue.

Mr. and Mrs. Arthur Moore, of Orchard place, have been visiting relatives at New Brunswick.

A. S. Patterson and wife, of Franklin place, will sail today on the Kaiser Wilhelm II for Naples. They will be absent for some time.

Henry M. Maxson, superintendent of the Plainfield public schools, has been in Westerley, R. I., for several days, where he was called by the severe illness of his father.

Mrs. W. L. Russell, of Willard, N. Y., who has been visiting for some time at the home of her parents, Rev. Dr. and Mrs. A. H. Lewis, of West Seventh street, entertained a number of her friends Wednesday evening. A delightful evening was spent.

Dr. Howard Merrell, a bright young physician at South Branch, has just received his diploma, and he expects in the near future to locate in the borough. Dr Merrell's father is a celebrated physician and he bids fair to equal his father in the practice of medicine.

Brave Men Fall

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache, and tired, listless, run-down feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says:"Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me new strength and good appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50 cents, at L. W. Randolph's Drug Store. Every bottle guaranteed.

EARLY INTELLIGENCE.

—Next week the fair will open at the Reform Hall under the auspices of the Reform Club.

—The depressions in the highway on South avenue are being filled this week with crushed stone.

—The Ladies' Auxiliary of the Plainfield Catholic Club are arranging for a dance to be given very soon.

—George Studer, of this city, has the contract to build the vestibules for the new trolley cars to be used on the Plainfield Street Railway.

—The gutters about the city are being cleaned out by Street Commissioner Gavett's men, preparatory to the arrival of winter weather.

—Patsy Christmas has completed his contract with the Plainfield Electric Light Company, and next week he will go to Roselle, where he has a contract to extend some sewer pipes.

—The attendance all this week at the fair being held under the auspices of the German Reformed church has been large and the event has been very successful. It will close this evening.

Grace Vall, of Elmwood place, is gradually recovering from a recent affliction whereby she lost the use of her legs. The attending physician believes that she will be able to walk very soon.

To Cure a Cold in One Day.

EVENING SHOPPING . . . . .

is safe here. You don't have to guess the color or quality of goods you see. There's plenty of light. Perhaps more and better than daylight; so much that we don't confine it all to the store, but illuminate the sidewalk and street also. No mistaking where we are. Low Prices for reliable goods is a powerful magnet.

. . ORGANIZED AID ASSOCIATION . .

THE ANNUAL MEETING will be held in the Parlors of Crescent Avenue Presbyterian Church,

MONDAY EVENING, 13th inst, Beginning at 8 o'clock.

Mrs. E. E. Williamson, of the State Charities Aid Association, will speak on the "Benefits" of Co-operation between the State and its Citizens in Works of Charity and Correction;" and incidentally on State Care of Dependent Children in New Jersey.

President Mason W. Tyler will briefly sketch the work of the year, and will also indicate the character of some of the great Social Problems which will soon demand solution.

The meeting is likely to be one of the most important in the history of the association. Members and friends of the association are respectfully urged to be present, and are assured of an instructive hour.

By Order of Executive Committee:

11 10 3 HOWARD P. REYNOLDS, of Com. on Publication.

FRIDAY and SATURDAY

. . Both Bargain Days This Week . .

This week's bargains eclipse any we have ever offered.

Fresh, clean merchandise at about half value.

12c Japanese tea cups and saucers in thirty different shapes and sizes, handsome decorations, fine egg-shell china. The real value is 25 to 50c. See display in our west window.

10c Fine English china coffee cups and saucers, handsome decorations. Regular price 25c.

5c About 300 separate Japanese china saucers, no cups to match. Value up to 25c each.

2c An accumulation of white and decorated cups, saucers, plates, pitchers, mustard cups, etc., etc., remnants and odds and ends; perhaps 1,000 pieces in the lot. A real bargain.

2d Floor Bargains.

15c Outing flannel skirts and skirt patterns (just 600 in the lot). Regular price 29 and 35c.

3rd Floor Bargains.

40c Full-size bed blankets, white or gray. Worth 59c.

$1.39 White blankets, 10-4 size, half wool, weight 4¼ lbs, very soft and downy. Regular price $1.89.

Miscellaneous Bargains in Every Department.

25c Woman's combination suits unbleached Egyptian cotton yarn, heavily fleeced. Worth 50c.

25c Men's undershirts (no drawers to match) in white and gray mixed. Value 50c.

25c Men's white shirts with colored bosoms and one pair separate cuffs to match; only sizes 15½, 16, 16½ and 17 inches. They are the regular $1.00 quality.

19c Woman's fast black fleeced lined cotton hose, fine heavy quality. Usual price 25c.

10c Children's all-wool cashmere hose in brown, navy blue and dark garnet. Good value for 25c.

7c About 2,000 yards of fancy ribbons, two to five inches wide. The most remarkable ribbon value ever offered.

33c Just 87 corsets, sizes only in 27, 28, 29 and 30 inches. Would be exceptional good value for 50c.

25c Ladies' kid gloves in black and assorted tan shades, only large and small sizes in the lot. Reduced from 79c. A great bargain if we have your size.

12c For 4 spools Brooks' best quality (200 yard spools) sewing cotton, put up in a neat tin box, white only, sizes 40 to 60. You save 4c on the cotton and the box is free.

5c Best quality Lancaster Apron Ginghams.

5½c Heavily Fleeced Outing Flannels in light colors and very pretty designs.

7c Unbleached Canton Flannels in short length, real value is 10c the yard.

79c Full size Crochet Bed Spreads, hemmed and ready for use, reduced from 98c.

89c Very heavy honey-comb Bed Spreads, 81x90 inches, very pretty patterns, reduced from $1.19.

$1.50 A small lot of fine English Marseilles Bed Spreads, size 90x99 inches. They are slightly soiled, but perfect in every way, value $3.00 each.

10c Full bleached linen hemmed huck towels, sizes 19x34 inches. Worth 15c.

15c Full bleached sheeting muslin, 9-4 wide, very fine and heavy. Actual value 22c.

65c The piece of ten yards all-linen birdseye, 18 inches wide. Worth $1.00 the piece.

19c Eiderdown flannel in pink, white, light blue and gray, in short lengths of 2½ to 3 yards. Regular price 29c the yard.

19c Black mohair dress goods, 38 inches wide. Worth 35c the yard.

42c All-wool Storm Serge, black and navy blue, 42 in wide, worth 59c the yard.

25c Plaid cotton back Lining Silks, good, heavy quality and pretty colorings, reduced from 39c the yard.

25c Sofa Pillows, 20-inch size, covered with best quality and neat pattern silkaline, real value 49c.

Lokal-Nachrichten aus der alten Heimath.

Sachsen.

Dresden. Die zum Bankerott der Pirnaer Bank gehörigen Außenstände wurden hier versteigert. Es handelte sich um Beträge von 155,000 Mark, 85,000 Mark, 78,000 Mark u. s. w., insgesammt um eine Summe von circa 500,000 Mark. Diese Außenstände wurden einem Herrn Peschel in Plauen bei Dresden für 875 Mark zugeschlagen. —Prinz Friedrich August von Sachsen, der bei einer Schnitzeljagd in der Nähe von Großenhain mit dem Pferde stürzte und einen Schädelbruch erlitt, liegt schwer krank darnieder.

Annaberg. Der an der Annaberg-Weipert Straße gelegene große Gasthof „Königslust," zur Gemeinde Kühlberg gehörend, ist bis auf die Umfassungsmauern abgebrannt. Dank der günstigen Windrichtung konnten die danebenstehenden Gebäude gerettet werden.

Leipzig. In einem Massengrabe wurden auf dem Nordfriedhofe die Gebeine von Hunderten in der Völkerschlacht gefallener Krieger beigesetzt, welche bei Neubauten zu Tage gefördert waren. Unter Theilnahme der Generalität und der Civilbehörden, der Veteranen- und Kriegervereine u. s. w. ward ein Denkstein enthüllt, welcher aus mehreren erratischen Blöcken besteht, deren einer die Inschrift trägt: „Freund und Feind—Im Tod vereint." Auch die französische Kolonie hatte Vertreter entsandt.—Gustav Heuer, Mitinhaber und Leiter der Buntpapierfabrik Heuer u. Co., wurde wegen Wechselreiterei in Höhe von über 400,000 Mark und wegen Unregelmäßigkeiten verhaftet.

Zwickau. Bei einem Brande in dem Dachziegelwerk in Bittigsthal bei Johann-Georgenstadt wurden neun Personen durch den Einsturz einer Wand im Maschinenhause verletzt. Drei davon wurden in's Krankenhaus gebracht.

Thüringische Staaten.

Altenburg. Eine Umsatzsteuer für Waarenhäuser ist im Entwurf dem hiesigen Stadtrath unterbreitet worden. Die Vorlage, die für einen Jahresumsatz von 150,000 Mark 2 Prozent, bis 250,000 Mark 3 Prozent und dann für jede angefangenen 50,000 Mark 1½ Prozent Steuerzuschlag mehr vorsieht, soll in den maßgebenden Kreisen der Bürgerschaft sehr wohlwollend aufgenommen worden sein.

Sonneberg. In einem Ort der näheren Umgebung unserer Stadt wurden vor Kurzem nicht weniger denn 16 Vogelsteller bei der Ausübung ihres schändlichen Gewerbes ertappt. Sie mußten zusammen 820 Mark Geldstrafe zahlen.

Weimar. Ein beklagenswerthes Ereigniß hat sich im hiesigen Marie Seebach-Stift zugetragen. Das 72jährige Stiftsmitglied Zottemeyer, ein in früheren Jahren am Hoftheater zu Hannover sowie am Hamburger Stadttheater gefeierter Bariton, hat im Verfolgungswahn seinem Leben durch Erhängen ein Ende gemacht.

Freie Städte.

Hamburg. Das Komite für das Bismarck-Denkmal hat sich endgiltig für den Platz in Fontenay am Harvestehuder Alsterufer entschieden.—Die Beisetzung der im 100. Lebensjahre hier verstorbenen Schwester Heines, Frau Charlotte Emden, fand auf dem Friedhofe Ottensen statt. Von Nah und Fern waren Kranzspenden und Beleidsbezeugungen angelangt, unter letzteren eine solche des Habsburgischen Kaiserhauses, die der hiesige österreichische Konsul überbrachte.

Bremen. Der 1000 Tonnen große Dampfer „James Malan," von Pitea mit Holz nach Rochefort unterwegs, ist bei Borkum gesunken. Vier Personen, darunter der Steuermann, sind ertrunken. Die übrige Mannschaft wurde vom Bremer Dampfer „Schwan" hier gelandet.

Lübeck. Der von hier mit einer vollen Ladung Kartoffeln nach Räfsö abgegangene Schooner „Esmeralda" ist unweit Raumo während der Nacht gestrandet und auseinandergebrochen. Die Besatzung konnte sich an's Land retten. Der dänische Segler „Anne," mit Klinkern nach hier bestimmt, ist in der Nähe von Prarow-Bank leck geworden und nach wenigen Stunden gesunken. Die Mannschaft rettete sich im Schiffsboot und ist in Barhöft gelandet.

Oldenburg.

Jever. Bei der jüngsten Landtagswahl wurde von vier Vertretern für das Amt Jever ein Sozialdemokrat gewählt. Damit tritt zum ersten Male ein Sozialdemokrat in den Landtag ein.

Mecklenburg.

Rostock. Die Rostocker Bark „Jacob Arendt" ist im Skagerrak zerschellt. Die ganze Besatzung, zehn Mann, ist ertrunken.

OUT OF DOOR STYLES.

New Ideas For Boas, Skirts and Capes.

The fashion of boas still continues. The boas now worn are short and come half way down the front of the bodice or to the belt. Those of plumage are as much liked as ever, and there are also many varieties composed of ribbon, chiffon, net, etc. The newest method of wearing the boa is to let it hang a little loose at the back, instead of bringing it up to the nape of the neck. The ends are then carried over the shoulders and fastened to the bodice at each side, the tips hanging loose. The pins used for fastening the boa to the bodice are a sort of long, ornamental safety pin, often jeweled, and a boa thus secured never slips out of position.

So many women wear a short skirt on wet days that it no longer attracts any attention. The conscious superiority of

MARQUISE CAPE.

the short skirted woman over the long skirted woman in a pouring rain is striking as she trips along with neat garments and free hands and observes the dripping petticoats, caught up absurdly high at one side and draggling in the puddles at the other, which mark the intensely conservative school of femininity. The best method of keeping a long skirt from getting wet is to pin it up with a large safety pin, placed just below the waist at the left side, so that only the right side need be held up by the hand.

The little marquise cape illustrated is a new design. It is of black satin with bias ends and has a seam in the middle of the back which is shaped in to the figure. The yoke and rippled collar are heavily embroidered, and the latter is lined with white mousseline de soie. A double jabot of black lace falls down the front, and a double flounce of black lace surrounds the cape. Choux of black satin are fastened in front and at the back with steel ornaments.

JUDIC CHOLLET.

FASHION'S FANCIES.

Modes For Little Children — Winter Novelties.

Very little babies, those who have not yet begun to walk, are no longer dressed in very long clothes. The skirt is seldom more than three-quarters of a yard long, the cloak being a little longer. If the gown is white, as it almost invariably is, it is worn over an undergown of flannel, and in France it is the custom to have this flannel gown, which shows through the nainsook, pink or blue, according to the sex of the child, blue being used for a boy, pink for a girl.

Babies' cloaks are less bulky than they formerly were and are now made of bengaline or cashmere, white, pink, blue or pale gray. They are warmly lined and

VELVET CAPOTE.

have a short pelerine, the trimming being a frill of lace around the pelerine or, which is newer, lace incrusted on a circular ruffle.

Chenille network is a novelty introduced for the decoration of winter gowns. It is usually black and is used for tunics and boleros over colored cloth or velvet.

Black faille is fashionable, but it is used in new ways. For example, a polonaise is entirely made of superimposed bias folds of the faille, and a tunic is composed of six panels of faille, each panel forming a point at the foot and being tucked in such a way that the tucks form points in the middle of the panel.

The cut shows a directoire bonnet covered with stretched black velvet. The brim is faced with alternate folds of black velvet and black satin. In front are two black ostrich plumes and a black silk butterfly with painted wings. The strings are of black velvet.

JUDIC CHOLLET.

A GREAT PROJECT.

Europe Interested in Making Chicago a Deep-Sea Port.

Advocates of the plan to make Chicago a deep-sea harbor say that great interest has been created in Europe over the project. Many of the prominent continental journals have published illustrated articles showing the lakes and canal system, and any amount of capital is said to be waiting to be invested in establishing direct steamship lines to Chicago from European ports as soon as steamers of sufficient tonnage to make the freight profitable can pass through the canals.

Wilhelm Weimann, the Danish Vice Consul at Chicago, and a member of Denmark's foreign diplomatic corps, said yesterday:

"Any amount of capital stands ready to be invested in steamship lines to Chicago. The Copenhagen merchants are deeply interested in deep-water center for one of the largest shipping organizations in Europe, the United Steamship Company, which has several hundred steamers running to almost every part of the globe. The managers of the new free port, one of the largest in Europe, would certainly be the first to establish a direct steamship line to Chicago, and this may take place next year, when the Canadian system of canals is expected to be completed, permitting the passage of steel vessels with a cargo of 2,000 tons.

"The idea would be to establish a line of fast steamers, as the express business would be an important aid in making the line profitable."

The first general interest in the subject abroad is aid to have been manifested when O. A. Thorp & Co., exporters and importers of this city, brought a little steamer through the canals to the lakes, it having actually crossed the ocean with a cargo. The experiment was repeated three years in succession, and while the difficulties and obstructions to such a through traffic rendered further attempts unprofitable, owing to some slight reduction in the rates of through transportation, yet the fact that these experiments were conducted without loss is said to have been considered abroad an argument of the strongest kind in favor of deeper canals.—Chicago Record.

HIS WIFE CONSENTED.

And a Hungarian Nobleman Visits His First Love, Now a Nun.

Count A. Dessewny, a distinguished looking nobleman from Hungary, arrived in New York recently, on the steamer Lucania, and was later seen to take a train to Philadelphia. His mission to this country is a strange one and is a remarkable example of love and devotion. He leaves wife and children to visit the love of his youth, who is a nun in this country. Whether she is in Philadelphia, or farther West, the Count will not say. And the strangest feature connected with his visit to this love of long ago is that it is with his wife's entire consent, and that he has paid these visits annually for the past 10 years. The Count was not communicative to his fellow passengers on the Lucania, but to a few of them he told a little of his mission and history. There are lines of care in his face and although he is in his prime his hair is streaked with silver. Married to a beautiful woman, father of bright children, still he loves the girl he met in his youth and his heart constantly yearns for its first idol.

While chamois hunting in the mountains Count Dessewny met his fate. It was at a simple country dance that he first saw the woman who has been a part of his life ever since. She was Maria Teresa Kisfauldy, the beautiful daughter of a professor at the University of Munich. It was a case of love at first sight on the part of both. Her reply to his offer of marriage was at once a joy and a pain. She told him she dearly loved him, but in the same breath she said she could never marry him. The young woman had, in a moment of religious enthusiasm, pledged her life to relieving suffering and had taken the vows of celibacy. Nothing could change her.

The Count left the mountains, and Maria Kisfauldy came to America. The Count soon afterward married a lady of noble birth, whom he says is just as refined, just as beautiful, as the little Magyar girl who had won his heart.

His wife and family know of his infatuation, which still holds him. With their knowledge and consent he comes to America each year to visit her. She is in some large American city, which one the Count refused to say. But the fact that he took the train for Philadelphia lends credence to the belief that in this city the reunion of the two has taken place.—Phil. Times.

A SAUERKRAUT FAMINE.

Shortage of Cabbages Threatens St. Louis's Favorite Dish.

A sauerkraut famine is threatened in St. Louis. What such a famine means is not understood by those who are not aware that sauerkraut is the great popular dish of St. Louis, and occupies the place taken by beans in Boston. It is estimated that more sauerkraut is consumed here than in Chicago, which has twice the population of this city. Missouri soil is said to be specially adapted to cabbage growing, and as there are many Germans in the city the consumption of sauerkraut follows naturally. The Germans have popularized sauerkraut among their American friends until a St. Louis house without sauerkraut is like home without a mother.

Horseshoes in Japan are simply clogs of twisted straw, and during a journey many have to be carried to replenish those which are worn out.

WARNING MR. B.

His Wife Wife Refused to Entertain a Certain Guest at Dinner.

The absolute serenity with which some people, women especially, shout private affairs through telephones is to me quite remarkable. While waiting for a prescription to be filled in a North Side drug store the other day, a woman came in. She glanced impatiently at a man who was using the telephone, then moved restlessly from the cigar case to the directory stand, over to the perfumes and back to the cigars again. The man, says the Chicago Times-Herald, finally finished sending his message and she darted at the instrument and rang the bell. There were three others besides myself in the store, but she apparently saw nothing of us.

Such and such a number, "Express," she called for, and then waited, beating a tattoo on the floor every minute. "Is Mr. B—— there?" Then we all grew interested, and some of us began to feel sorry for Mr. B——. "You've finally come, have you?" was the first greeting he received. "I simply tell you I can't have that man to dinner, and I won't," was the next sentence. Mr. B—— evidently began to plead for his intended guest. "I simply say I won't have him," she repeated in still more decided tones. Then she continued: "I've been polite to him just as often as I ever shall be. He has been up to dinner at least four times, and what return has he made? Not even a flower—(this scornfully)—or a box of candy or a theatre ticket or anything else to show a little appreciation." This was apparently cut short by a question from Mr. B—— as to where she was telephoning from. "I am in S——'s drug store," she said, "and I don't care who hears me. I didn't answer by messenger because I just knew you wouldn't pay attention to a word I wrote."

By this time she certainly had no reason to complain of her audience at least on that score. We were all ears and smiles. There was a second's pause, during which she stood with the receiver pressed close to her pompadour. "I'll go out, then. Bring him home if you want to, but I warn you you'll entertain him with the cold roast left from last night and warmed-up turnips. I am on my way to Margaret's now and won't be back until 10 o'clock to-night."

It was useless for us to look unconcerned, for she never noticed us, but flounced out the door and into the car as it stopped on the corner. I wondered if the repudiated guest was a Chicago bachelor.

Banking for School Children

Economic education is claiming each year the more careful attention of learned and philanthropic people. School banking, the simplest way of inculcating self-denial and thrift, has full approval wherever instituted, and as the news goes abroad, its sphere is broadening. Statistics of the savings in some of the public schools of the United States have just been printed, says the Philadelphia Inquirer, by Mr. J. H. Thiry, who founded the system. They show that the school children's savings deposited in savings institutions through this system have amounted to $530,319.58. These savings are in 349 schools, and the depositors number 41,863. There are half as many more schools using this system, of which we have no statistical report, and many others using the Penny Provident and stamp plan of saving.

All systems and means of the systematic saving of money for the self-responsible development of the child and to apply to uses apart from frivolous waste are of value, as it is the principle involved rather than specific method we aim to instill, the independence, individuality and equality of means that will make thrift general. But the simple system of school savings, where we credit the pennies direct, and not stamps, is more educative and helpful, because it gives our boys and our girls regular banking business habits, and they carry their accounts right over into manhood and womanhood. If every boy and girl who has graduated or come out of our public schools for the past ten years had left school with one or two hundred dollars of a bank account to his or her credit, as do our girls and boys to-day, where they have school savings banks, we would be much nearer the equality, the sobriety and the single standard of morality for which we labor than we now are. We need to understand how to handle and appreciate money.

Disqualified

"While I was over in Springfield the other week," said the Boston grocer, "I was casually introduced to a farmer from Vermont. As he was sending butter, cheese and eggs to the market in large quantities, I thought it might be a good thing to do business with him. He was willing, and we were getting figures down to our satisfaction, when he suddenly inquired:

"John L. Sullivan, the prize-fighter, lives in Boston, don't he?"

"Yes, I believe so."

"What street does he live on?"

"I can't say."

"Haven't you ever met him?"

"No."

"Don't even know him by sight, eh?"

"No."

"Well, that's funny! You may live in Boston all right enough, and maybe everything would be all right if I shipped stuff to you, but I guess we'll call the deal off."

"Because I don't know John L. Sullivan?" I queried.

"Mostly," he soberly replied. "I rode 200 miles to see him once, and if you don't care to even go a mile to shake hands with him, I'm afraid we might not just hit it off in business."—Utica Observer.

Canucks Ride Yankee Bicycles.

According to the manufacturers' own returns, the total number of bicycles sold in Canada last year was 50,000. Of these 27,308 were imported from the United States complete. In addition, the separate parts imported from this country represented at least 12,000 complete wheels, making the proportion of American-made bicycles sold in Canada last year about 80 per cent.

It was intended as a gentle hint.

"Our rule here," he said, "is to pay as you go."

"Quite right," replied the other pleasantly, "but I am not going yet."—Chicago Post.

Political Caution.

"Mary, how do you feel about this open-door idea?"

"Well, the open door is all right, but I think we ought to have a fly-screen door, too."

And She Did.

Tom Innit—What did that telephone girl say to you when she broke the engagement?

Jack Potts—Ring off.—Judge.

Not a Proof of Affection.

A man is decidedly foolish if he believes that a woman is in love with him simply because she laughs at his jokes.

Quite Possible.

"Jollyum is quite a wit."

"Yes, he always says the wrong thing in the right place."

CHORUS GIRLS.

Little Inducement Held Out to Those Who Want to Reform.

The Chicago woman who has come to New York with the idea of reforming the chorus girls seems to have made a mistake in her estimate of the price at which they would be willing to exchange their present employment for work of the kind she offers. From $12 to $14 a week is the pay of the average chorus girl, and to remove them from the demoralizing influences of stage life she volunteers to find places for them in mercantile employment at one quarter that sum. There is not likely to be much demand for reformation at this figure, in view of the great demand for their services at the higher figure. Chorus girls who are beautiful enough and have voice enough and other qualifications are not easy to find. The demand for them is far greater than the supply, and one New York manager has recently advertised in many of the cities of the country for young women who are anxious to enter the profession in this way. The deficiency in the supply is less noticeable in New York than it is with those companies that are to travel through the country.

Only a short time ago a manager about to send one of his companies on the road found that three-quarters of the young women he expected to take along with him regretted very much that they were compelled to refuse, but could not think of undertaking the hardships of a season's travel. Most of them had their homes here or other ties which bound them to New York, and leave them they could not. The veterans who have served their time in the business and appreciate the value of a salary wherever received are the only recruits that can be relied upon to take the road at any time; but they are usually deficient in other qualities looked for in the most popular type of chorus girl. At a revival last spring of a play given first 15 years ago one of the original chorus singers was in the cast. She still finds a demand for her services, but not in New York. Here she would not be wanted even in the back row. Only youth and beauty are wanted here, and they are so much desired that the reformer who is offering $4 a week in more conventional employments will probably make little progress.—N. Y. Sun.

A KING'S DONATION.

Siam's Ruler Gives a Hotel Site in Bangkok to an American.

Wallace J. Palmer, a former resident of this city, has been assisted in a hotel enterprise by the King of Siam. Mr. Palmer, after a seven years' absence, is visiting his old home here, and will leave in three weeks to carry out the plans he has made with the King of Bangkok. Mr. Palmer has been an extensive traveler in the Far East, and a few years ago he visited in Siam. The country attracted him, and he decided to stay there.

Mr. Palmer at one time conducted a large hotel in Florida and thought Siam would be a good place for another. He opened one on a small scale. The American patronage was very large, and he prospered. Among visitors to his hotel was the King, who grew to like the place so well that he made Mr. Palmer his chief caterer. The friendship existing between Mr. Palmer and the King finally developed into a big business enterprise.

The King has given to Mr. Palmer a large plot of land in the heart of Bangkok on which to erect a large hotel. Mr. Palmer, on his return to Siam, will commence work on the structure, which is to cost $200,000. Land is very expensive in Bangkok, and Mr. Palmer says the King has made a very generous gift in the site for the hotel.—New Haven Special to N. Y. Times.

Filipino Fighters.

The American forces, which are beginning to penetrate deeper into the interior of the Philippine Islands, will soon run across the as yet uncivilized natives, who have never been under the control of the Spaniards or anybody else. In fact, as reports of some of the earlier battles showed Aguinaldo has already succeeded in rallying

(Filipino Warriors).

to his support some of the native tribes armed as are those in the picture, with bows and arrows. Some of these natives, who can, of course, know nothing about the causes of the present war, are cannibals and are absolutely fearless in battle. They use poisoned arrows, and live on friut, roots, and what they can shoot.

American Bass in Paris

A shipment of American black bass was made to France and they have flourished so marvelously that to-day they are common articles of diet in the hotels and restaurants. When the bass were introduced the French streams were practically deserted.

Denver a Cycling Town.

Denver (Col.) has more bicycles in proportion than any other city in the country.

SPORTING.

GOLF

The officers of the Hillside Tennis and Golf Club are endeavoring to arrange several team matches to take place after the regular season schedule is completed. A strong team can be gotten together and no doubt some excellent matches can be planned.

On election day at the Laurence Harbor Country Club golf course there was some good golf. Mrs. N. Pendleton Rogers, Jr., of this city, together with Mortimer M. Singer, turned in the best gross score, 107. First place was won by Joseph D. Stubbs and N. Pendleton Rogers, Jr., with a net score of 82. The handicap was 45 and the gross was 127.

The tie for the McCutchen Cup will be played off this afternoon on the links of the Park Golf Club. W. de la R. Anderson and Gifford W. Cooley, it will be remembered, tied for the cup at the finish of the season by each scoring fourteen points. When they played off the tie Election Day morning it resulted in another tie. Another attempt will be made this afternoon, when it is likely that the competition will be finally settled.

Although there is no longer any special attraction on the links of the Park Golf Club every Saturday afternoon, the course will be kept open until the first of December. The new professional, W. B. Mitchell, has looked after the care of the course since his arrival and has put it in fine shape. The new green on the sixth hole is completed and will be ready for play in a week or so. Another great improvement will be the changing of the teeing grounds in the seventh hole to the left side of the course. The close proximity of an apple tree has been a cause of trouble for many and the change will also offer the opportunity of a better finish for a long drive. Mr. Mitchell is having the leaves all raked off the course which will be a great advantage, for the fallen leaves make it very difficult to find the balls.

ROD AND GUN.

Henry Haurand, of this city, is among those who went out yesterday after cotton tails.

Among the Plainfielders off on hunting trips are Dr. D. C. Adams and William D. Thickstun. They are at Barnegat looking for wild game.

Frank E. Woodruff and Harry Potter spent yesterday and today hunting on the farm of Moses Feimley, at Lebanon. They anticipate an abundance of game.

Henry Staats, of the borough, and Jesse Taylor, of this city, have returned after a few days' hunting trip in Bucks county, Pa. They brought back twelve rabbits and have great stories to tell about the fun they had.

ON THE GRIDIRON.

This morning the borough High school football team played a team from the Westfield High school, and after a very exciting and lively game the home team won by a score of 6 to 0. McCullough did good work, and McLoughlin made a fifty-yard run, while Hamilton made two good runs, one of sixty-five yards and another of fifty yards. There will be a return game played next Saturday at Westfield.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, Bronchitis, Hoarseness and all diseases of the Throat, Chest and Lungs are surely cured by it. Call on L. W. Randolph, Druggist, and get a free trial bottle. Regular size 50c. and $1. Every bottle guaranteed, or price refunded.

20th Century Black.

That's what we call the black dyed by our new method. If you have a suit of clothes or a dress, color out of style, or faded, we can make it a rich black that won't rub off. You'll practically have a new suit or dress at a cost so little as to not be worthy of consideration.

HILLIER & CO.,

IS NOT A CANDIDATE.

Senator Reed Will Not Be President of the State Senate This Year.

Senator Chas. A. Reed will not be a candidate for re-election to the presidency of the State Senate this winter. There has been some talk to the effect that Somerset's Senator would want to continue to hold the highest office that the Senate can confer on any of its members. A Daily Press reporter interviewed Senator Reed on the subject this morning.

There was no uncertain ring to the Senator's voice when he stated very positively that he would not be, under any circumstances, a candidate for the place.

"My candidate," said the Senator," is Senator Johnson, of Bergen, and I shall do all in my power to secure his election."

Filled With the Spirit of Missions.

The address of Mrs. W. L. Remsen, of the First Presbyterian church, before the Young Women's Mission Band of Trinity Reformed church last evening, was greatly enjoyed by the band and their friends. Mrs. Remsen is well posted and thoroughly in earnest regarding mission work, especially the foreign field, and her very earnest address regarding God's work in India, through the efforts of one consecrated man, Dr. Chamberlin, was listened to very intently and at the close of the meeting a hearty vote of thanks was extended to her by the band.

Will Celebrate Golden Jubilee.

The Fulton Street Methodist Episcopal church at Elizabethport will be fifty years old this month, and the golden anniversary celebration began Friday night. The celebration proper will begin Monday and will last for two weeks.

Stock Company To Sell Coal.

A number of citizens of Basking Ridge and Lyons have organized a stock company to sell coal, lumber and building materials. The yards are to be situated near Lyons station, which is a mile from Basking Ridge.

Somervillians Didn't Come.

For some unknown reason the Somerville football team could not come to Plainfield this afternoon and the game between that team and the Alis team is declared off.

To Cure a Cough in One Day
To Cure a Cold in One Day
To Cure Sore Throat in One Day
To Cure Hoarseness in One Day

Take Cleveland's Lung Healer, 25c. Trial size free. If it fails to cure, your money will be refunded. T. S. Armstrong, the apothecary, corner Park and North avenue.

THE PULPIT SUBJECTS.

A Card From Mr. Hummer.

To the Editor of The Daily Press:—In justice to myself I wish to state that I am in no way responsible for the action of the Plainfield Sanitary Company in discontinuing its service without due notice. The office of the company is at my place of business, and last week I was instructed to inform the patrons that service would be continued indefinately, but should it be stopped, due notice would be given. L. A. Hummer.

Scarlet Fever Epidemic.

(Special to The Daily Press.)

New Brunswick, Nov. 11th.—Grave fears are entertained here of an epidemic of scarlet fever. Already there have been twenty cases reported.

CASTORIA
For Infants and Children.
The Kind You Have Always Bought
Bears the Signature of Chas. H. Fletcher

CADETS FIRST DRILL.

Boys Were Shown Rudimentary Work --A. B. Meredith Was in Charge of Battalion.

The cadet battalion of the Plainfield High School held its first drill yesterday afternoon, from 12 o'clock to 1 in Washington hall. A. B. Meredith was in charge. The boys were shown the rudimentary work and officers and privates were lined up together for a setting-up drill and practice in the facings and school of the soldier.

Washington Hall has been engaged for the drill and the cadets will meet there every Friday afternoon. At first all officers will remain in the ranks until they have acquired a good idea of the fundamental movements after which they will receive special instruction in the more complicated evolutions.

NEW GOLF CLUB MEMBERS.

Hillside Club Adds Several New Names to Its Roll.

The Hillside Tennis and Golf Club has elected the following members: Active members—Miss Helen S. Martin, John Bushnell, Francis A. Clark, Frederick W. Yates, Henry A McGee, Miss Joanna H. Shepard, George W. Endicott, Andrew N. Selter, Charles A. King, Walter M. McGee and John H. Hussy.

Associate members—Miss Elsie C. Martin, Miss Margaret G. Yates, Mrs. Francis A. Clark and Mrs. John Bushnell.

Junior associate members—Miss Eleanor K. Stimson, Miss Marjorie Fleming, Miss Elizabeth Goddard and Miss Ada G. Marsh.

Non-resident member—E Clinton Hall, Fanwood. The club has now 354 members.

RAINBOW CLUB'S CONCERT.

The Affair Resulted in Putting $60 Into Treasury of Filmore Baptists.

Last Thursday evening at Washington Hall a Dewey concert was given by the Rainbow Club of the Filmore Baptist church. The attendance was unusually large and the concert a great success socially and financially. There was vocal and instrumental music, recitations, rag-time dancing, vocal duets, etc. The receipts were about $100, and about $60 was cleared for the church. The committee wish to thank all who took part, and especially Madame Harper and Miss Murphy, of Jersey City; R. E. Randolph and Miss Riddick, of this city, for their music. R. C. Randolph was musical director, A. White, pianist, and Israel Jones, cornetist.

TAKING OATH OF OFFICE.

County Officials to be Sworn in by Judge Vail Next Tuesday.

County Clerk Howard, of Union county, who was elected last Tuesday for another term of five years, will be sworn into office next Tuesday, at the Elizabeth Courthouse. Sheriff-elect Houston will on the same day be sworn in for a term of three years. The ceremony in both cases will be performed by County Judge Benjamin A. Vail.

A Fractious Horse.

A horse attached to C. L. Jeter's milk wagon was tied in front of Laine's stationary store on West Front street this morning. In some way, the equine worked its head out of the bridle then tried to run away. The horse ran up on the sidewalk, kicked and fell down, upsetting many of the milk bottles in the wagon. The horse was cut in the side by a broken shaft and on the knees by falling on the sidewalk. The wagon and harness were somewhat damaged.

Frank Webster's Funeral.

The funeral of Frank Webster, a printer, who disappeared from his home, 124 East Kinney street, Newark, last May, and whose decomposed body was found Wednesday afternoon on swampy ground near Waverly, will be held at Holle's morgue, Shipman street, today. The remains will be placed in a casket and taken to Rahway. The interment will be in the Rahway Presbyterian Cemetery.

Don't Worry About George.

Now that Admiral Dewey is married some people are already worrying themselves about his domestic life, and whether it will be a case of his being Mrs. Hazen or her Mrs. Dewey, they needn't do any fretting over it. George is just as capable of controlling his own destinies as—well as at Collier's they are capable of meeting every requirement of refined taste in the jewelry line. 103 Park avenue.

Attended "Strollers" Reception.

There were a number of Plainfielders among the guests that thronged the Waldorf-Astoria, New York, last evening at the reception given by the "Strollers," New York's leading society of theatrical folk. Among them were Mr. and Mrs. John Doull Miller, Mr. and Mrs. George Wharton Edwards, Miss Shepard and Miss Smalley.

To Give a Doll Show.

The Young Ladies' Missionary Society of the First Baptist church met yesterday afternoon and decided to give a doll show and Japanese tea in the parlors of the church Tuesday, November 21st, from 3 to 10 o'clock p. m. Cake and candy will also be on sale.

JOTTINGS OF THE DAY

ENTERPRISINGLY GATHERED AND CONCISELY TOLD BY REPORTERS.

Newsy Notes of More or Less Importance Bunched Together for the Ready Reference of Press Readers

—Sparklets. For rich or poor, sick or well. Wm. W. Moore, 310 Park Ave.

—Sheriff Sela Schoonmaker, of Somerville, was in this city yesterday on business.

—The fair for benefit of St. Peters Ev. Lutheran church, will be held next week, beginning Wednesday afternoon and evening.

—Winter weather will soon be here and it will pay you to be properly fitted with good shoes—for the protection of your health. Van Arsdale can fit you out.

—The fair of the German Reformed church will continue tonight, when the books will be called in and the remainder of the articles will be disposed of by auction.

—The second chamber music concert of Ward Stephens at the Y.M.C.A. Hall, will occur Tuesday evening, November 14th. Tickets $1, for sale at Armstrong's pharmacy.

—There was a meeting of the Woman's Relief Corps last evening, when the members rehearsed for the annual inspection which will take place Friday evening, November 24th.

—The hospital at present is taxed to its limit, there being not a particle of room for any other patients who are apt to come in. There are twenty-five patients at the institution, and those in charge are kept very busy.

—There will be Danish Lutheran services in the German Lutheran church on Grove street, Monday evening at 8 o'clock. The service will be conducted by Rev. Chas. C. Mengers, from Philadelphia. All are welcome.

—Now that the Plainfield Sanitary Company has discontinued collecting garbage the next best thing for householders to do is to mail a postal card to Noah Terry, and he will serve promptly and reasonably. His advertisement appears in another column.

INTRODUCED TO PLAINFIELD.

Reception in Honor of M'lle Mira Marisona Held Last Night.

There was a delightful entertainment at the home of Mrs. Peter Wyckoff, on Putnam avenue, last evening, the occasion being the introduction to some of the society people of Plainfield of M'lle Mira Marisona, who has gained something of a local reputation as a singer. The lady was in excellent voice last night and fairly captivated her audience. Her selections were principally those of sacred music, however, but they were pleasing to all who had the pleasure of listening to her. Among those present were Mrs. Louis Ross, Miss Julia Wyckoff, Mr. and Mrs. Albert C. Wyckoff, Mr. and Mrs. Hall, Miss Marion Hall, Clinton Hall, Miss Collins, Mr. and Mrs. Willard Ross, Mr. and Mrs. F. C. Langhorne, Miss Helen Ross, Mrs. Meares, Mr. and Mrs. G. Thorn. During the evening the guests were regaled with refreshments.

WITH TONGUE AND WHIP.

South Plainfield Has an Exciting Time Between Neighbors.

Mrs. Mary Harlow, of South Plainfield yesterday caused the arrest of Martitana Arrowsmith and her son Henry, on a charge of assault. The parties, who are neighbors, became involved in a quarrel. Mrs. Harlow found Mrs. Arrowsmith's horse in her barn and drove it out at the same time it is alleged that she made some remarks about Mrs. Arrowsmith and her son Henry, which the latter resented. It is also charged that Henry used a whip to chastise Mrs. Harlow for her temerity. All hands were before Justice Storms, who will be called upon to adjust the difficulty. Mrs. Harlow has secured the services of Lawyer W. S. Angleman.

Death of Mrs. Onderdonk.

Mrs. Sarah Onderdonk, aged 80 years, a well-known resident of the borough, died this morning after an extended illness. She was the mother-in-law of J. Walter Mundy, of No. 43 Summit avenue, and the funeral services will be held from that residence Monday afternoon next at 3 o'clock. Interment will be in North Plainfield cemetery.

Failure of David Eastman.

David Eastman, of Crescent avenue, this city, has made application before Judge Kirkpatrick, in the United States District Court at Trenton, for permission to go into bankruptcy. He places his liabilities at $10,000 with no assets. Mr. Eastman has recently been engaged in the real estate business.

Overhead Wire Work Delayed.

The overhead wire work of the Elizabeth and Westfield Street Railway is being held back by the delay of the electric light company in raising its wires out of the way. The macadam work in Westfield will be completed today

George Scribner has resigned his position in the furnishing goods department at Crosby & Hill's store.

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

George S. Dufford, of 145 West Second street, has secured a position as motorman on the street railroad.

Mr. and Mrs. Edward S. F. Randolph, of Fourth and Liberty streets, are rejoicing over the arrival of a baby girl.

Former Mayor William L. Saunders, of North Plainfield has extended his trip abroad, and at the present time is in Russia, contemplating a return in December.

Rev. Lester Leggett, of Washington avenue, accompanied by Mrs. Leggett, go to Castleton Corner, Staten Island, today. Tomorrow evening they will commence a series of revival meetings.

An Annoying Book.

The Arkansas Legislature will be petitioned to forbid the sale of a book. The citizens of Fort Smith have the petition well under way. The petition states that the book is calculated to prejudice the public against Fort Smith.

The book is the life story of the "Hanging Judge," the sternest of all American justices. It is the biography of Judge Isaac Charles Parker. The title is "Hell on the Border." Judge Parker was known as "The American Jeffreys." He sentenced 200 men to death. One of his chief executioners alone hanged eighty-six men. His court was a continuous performance. He opened court at 8 a. m. and sat in judgment until dark. When he passed his first sentence he burst into tears. Notwithstanding that he afterward sentenced 199 men to death and sent 199 more to prison for life. He was burned and hanged in effigy in Indian Territory. On the day of his death there was a joyful riot in the old jail at Fort Smith, Ark.

He had two ruling principles: "Do equal and exact justice," was one, and the other, "Permit no innocent man to be punished, but let no guilty man escape." Men were hanged in squads, five at a time, on the Fort Smith gallows by his order. He was at once the most esteemed man in Arkansas and the most hated man in the Indian Territory. Though he passed the death sentence upon 199 men, Judge Parker was opposed to capital punishment. He administered justice according to the laws of his state. He quarreled with and won a victory over the Supreme Court of the United States.

George Maledon, slim, lithe, smileless and 68 years old, the man who hanged eight-eight men., Judge Parker's able lieutenant, the "Prince of Hangmen." as they picturesquely put it in the West, the most famous executioner of modern times, is another figure of "Hell on the Border."

George Maledon was the hangman during most of Judge Parker's administration. He hanged eight-eight men. He was dubbed Judge Parker's "understudy." Very grim and picturesque is the humor of the West in such circumstances.

S. W. Harmon served on the jury in the famous "terrible court" a hundred times. He is the author of the memoirs of what he styles "a great court and a greater Judge," to which he has given the title, "Hell on the Border."

His Evidence.

Solicitor—If I am to draw up a deed between you agreeing to break off the engagement, I ought to have some grounds.

Mr. Smith—I looked through the keyhole of the drawing-room last night while my fiancee and her cousin James were there and—"

Solicitor—Well, what did you find out?

Mr. Smith—The gas.—Illustrated Bits.

The Two Extremes.

"That politician gave us some cold facts."

"How did the other party like it?"

"They winced, of course; it was hot stuff, I tell you."—Chicago Record.

"That was a queer dying request made by the famous Mr. Burkins."

"What was that?"

"He said if a bronze statue was made of him he wanted his tailor to remodel the trousers."

Dyspepsia Defined.

"Are you seriously ill?" asked the well-meaning friend.

"Oh, no," answered the dyspeptic, with a jarring, sarcastic laugh. I hurt all over and don't care whether the sun rises to-morrow or not. But I'm not seriously ill. I'm jocosely, flippantly and farcically ill. I'm going through all the symptoms, but I don't mean one of them."—Washington Star.

NOTICE.

The members of Perseverance Lodge, No. 74, Knights of Pythias, are requested to meet at the lodge rooms at 1:30 o'clock on Sunday afternoon, to attend the funeral of our late brother, Lawrence Ulrich.

ANDERSON WINS M'CUTCHEN CUP.

Defeated Cooley in the Deciding Match.

PLAYED SATURDAY LAST.

HAD TIED TWICE FOR THE PARK CLUB TROPHY.

W. de la R. Anderson Defeated Gifford W. Cooley By a Score of 109 to 122 Net—Cooley Met With Hard Luck on Second Hole and Never Recovered—Good Play in First Round.

The competition for the McCutchen Cup and incidentally the championship of the Park Golf Club has been decided at last. After tieing twice with Gifford W. Cooley, W. de la R. Anderson retained his title of club champion and won the cup Saturday afternoon by easily defeating Cooley in the concluding match. It will be remembered that at the close of the competition a week ago Anderson and Cooley had both scored fourteen points. A deciding round was played election day morning, but it ended in a tie, 110 to 110 net. Anderson played from scratch and Cooley with nine strokes handicap.

The match showed every prospect of being a very close one but Cooley unfortunately drove into a tree on the second hole and was playing seven before he reached the fair green again. He was never able to make up the loss. There was plenty of good golf for the first round but Cooley lost heart in the second and Anderson did not play with the care he exhibited at first. Both men were capable of better scores than they finally turned in, 109 to 122 net. William B. Mitchell, the club professional, and Meredith Dryden, secretary of the club, acted as referee and scorers.

When the match began at 2:24 o'clock, both contestants were slightly nervous. Cooley made the better drive, but his approach to the first green was weak and fell short, Anderson approached too far. An accurate approach landed him dead to the hole, enabling him to hole out in four. Cooley made it in five.

Anderson topped his drive from the second tee just escaping the ditch. Cooley made a better one but pulled it slightly and the ball struck the tree to the left of the course falling on the edge of the ditch. It was a hanging lie and he played into the water. The ball was carried out and Cooley foozled his mashie shot, the ball falling into high grass. He was playing seven before he reached the fair green again. Both approached weakly but Cooley ended with a good putt, making the hole in eleven. Anderson's score was seven.

At the third hole, Cooley recovered one stroke by a fine cleek shot for his second. He also did well on the green, winning the hole five to six. Anderson topped his drive on the fourth hole, a tree spoiled a pretty brassey shot but he halved the hole by a clean approach and accurate putting.

Anderson won the fifth hole by one through good work with the brassey and Cooley's poor putting. He was then five strokes ahead. "Desperation" showed par golf by both players. But for a feeble putt, Cooley would have taken it in four. In the next, Cooley's second shot brought up in the woods and he dropped two to get out. Anderson played close to par golf, winning in six, which increased his lead to eight.

Both drove down the hill for 175 yards and approached strong. Cooley flubbed his putt and lost the hole by one. Anderson tied the Bogey score, four. There was trouble for Cooley on the last hole of the first round. He sclaffed his drive into the woods. He cleared the first ditch but rolled into water in the second hazard and lost one getting out. He sliced his approach and finally took twelve in all to hole out. Anderson gained four strokes on that hole.

The first round ended with the scores 51 to 64 in Anderson's favor. Cooley realized that only phenomenal playing on his part or a collapse for his opponent could change the final result.

Anderson opened the second round by pulling his drive clear round to the edge of the woods on the left of the course. Cooley cleared 180 yards on his drive, the best of the match. A fine brassey shot and a magnificent approach by Anderson laid him in good position on the green, while Cooley foozled his approach twice. A clean putt by Anderson gave him the hole in par four, Cooley taking six.

The eleventh hole was halved in seven. In the twelfth Anderson's drive was sclaffed, but he lofted the

[CONTINUED ON PAGE 5.]

THEY DON'T WANT MUCH.

Spencer Conway Says That Negroes Want a Councilman, Three Policemen and Two Constables.

Spencer Conway, the champion of his race in this city, called at The Daily Press office and made known his plans for the coming election. He says that the colored people want further recognition from the Republican party, and if they cannot get it they will apply to the Democratic party. He was mild in his demands. All they want is three more policemen, one Councilman and two constables.

He says that the colored men in the city are perfectly capable of filling these positions with the utmost satisfaction. He wants the requests made known so that the leaders will have plenty of time before election to think the matter over and decide just what they will give the colored people.

Incidentally, Mr. Conway mentioned the fact that the colored vote in Plainfield is pretty large, and will count when cast in the direction that will benefit them.

KEAN STEALS A MARCH.

LAST TROLLEY TRACK PAST OBJECTORS' PROPERTY SUNDAY.

The Courts Being Closed, No Injunction Could be Issued—Tracks Put on Westfield Avenue Third of a Mile.

(Special to The Daily Press.)

Elizabeth, November 13.—The Elizabeth City Railway Company, of which Senator John Kean is president, outwitted the property holders on Westfield avenue yesterday, by laying a single trolley track on the north side of Westfield avenue from Orchard street. The work was started early in the morning, and by 6 o'clock last night the track was laid and poles for the wires sunk as far as Elmora, without objections from properly holders. The day being Sunday no injunction could be gotten out.

Senator Kean has a franchise to operate a double track from Elizabeth to Plainfield on this avenue, which parallels the Central Railroad the entire distance of twelve miles. The avenue, however, must be widened, and the consents of the property holders secured before the work can be done according to the contract with the Board of Freeholders.

Mr. Kean has paid to the Freeholders nearly $5,000 for their expenses in surveying the street, etc., but the court has not ruled on the report of the commissioners, who made the awards for the forty feet of property necessary for the widening. All the property holders on the avenue have sent in a strenuous objection to what they term the low awards made by the commissioners, and would not give up their property without much litigation with the trolley company.

RAN BANNER UP TO STAY.

G. A. R. Vets Say Students Will Have to Unstep Topmast.

College spirit broke loose in New Brunswick Thursday night, and the freshmen of Rutgers College hung college banners, bearing their class numerals in a number of inaccessible places. They ran the banners to the top of the big Grand Army flag pole, on Monument Square, and then cut the halyards.

The students showed considerable ingenuity in getting the flag where it could not be reached, and it will be impossible to reef the halyards again without unstepping the topmast. The veterans have served notice on the freshmen class that the students will be given forty-eight hours in which to repair the damage.

The students regret the extreme te which their class rivalry led them, and will doubtless bear the expense of replacing the halyards.

Officials Exonerated.
